2021 AMERICAN CONSTITUTION

WE THE PEOPLE of the nation called America, the land of the free, the beacon of democracy, and the avowed eternal enemy of tyranny, darkness, enslavement, and economic parasitism everywhere on earth: WE THE PEOPLE of the nation also known as the United States of America hereby establish this 3rd Constitution for our new broadly democratic government of the people by the people and for the people. This Constitution shall be the supreme law of the land, higher than any governmental body, and higher than any other law.

A’1. SENATES

Our new democracy will use three tiers of Senate, each with a one-year terms of office. They shall be called the Sub-Senate, Main-Senate and Over-Senate, collectively called “the Senate”. The representation ratios relative to the voting age population shall be:

Sub-Senate = 1-in-250 voters.
Main-Senate = 1-in-2,500 voters.
Over-Senate = 1-in-25,000 voters.

The people shall elect the Sub-Senate from those they know as neighbors. The Sub-Senators shall elect the Main-Senate from those they know from working together in the Sub-Senate. And the Main-Senators shall elect the Over-Senate from those they know from working together in the Main-Senate. In all elections, face-to-face, in-person contact as a neighbor, or a Senate colleague will unavoidably be the deciding factor. This is a democracy where the media and campaign spending will have practically no value in comparison. This is a democracy designed to work without money and the corruption it always brings to the process of electing leaders.

Assuming a nation of 250-million voters, the 1,000,000-man Sub-Senate will inform and administer. The 100,000-man Main-Senate will be the main decision making body. And the 10,000-man Over-Senate will apportion government duties and set the overall course of government. Without exception, all elected officials at all levels of our nation’s government shall serve for one year in their office. Then without exception all shall cycle out of that position. Some will be elevated, but most will cycle out of the Senate.

This type of government shall be called a "broad democracy" or a "25,000 democracy", in reference to its narrowest representation ratio: a government’s representation ratio being the most foundational aspect of a democratic design. Except where specified otherwise, the term Government (with a capital G) shall refer to all layers of government, local, national, and international, that in any way bind or command the people of this nation.

A’2. SUB-SENATE ELECTIONS

1/ Once the Senate has propagated as called for below, the nation’s voting hour shall occur each year, at 4:00pm, on June 19, the day that the insanity of slavery in the land of the free was abolished. Until the land of the free exalts its greatest act of freedom, that act will seem half-hearted and incomplete. Now we shall honor 6/19, where it most matters, where it will have the greatest effect on our democracy. For here we marry freedom with voting every year. Thus the celebration of our freedom includes voting on Freedom Day.

2/ For voting hour, all the people of the nation shall assemble and vote in neighborhood divisions of 250 voters called Nomes. In Nome elections, the people shall cast their vote by lining up openly behind the local candidate they wish to vote for. Each Nome shall elect one part-time, Sub-Senator per year.

3/ From this large pool of mono-elected Sub-Senators, our broad democracy shall poly-elect and randomly assign all of its decision makers and higher-level administrators. Those who have not been elected and confirmed to the Senate shall not be allowed to make important decisions or manage large administrations in our Government.

4/ In a nation of 250 million voters, there will be 1,000,000 Nomes, and 5,000 Centi-Nomes of 200 Sub-Senators. Each Centi-Nome shall serve as a venue for secret Sub-Senate voting and subtotaling.

5/ To ensure that we get our important decisions right, the Over-Senate may allocate tens, hundreds, or even thousands of Sub-Senate Centi-Nomes to figure-out, write-out, decide-on, or implement important matters in parallel, and with redundancy.

6/ The specialized Main-Senate sluices will request Centi-Nome attention, but the Over-Senate shall make the final allocation. The Over-Senate shall not task the Sub-Senate with any of its own work directly, as this would reduce objectivity. Also, the Over-Senate cannot draft individuals as assistants, as this edges into anointment / appointment corruption.

7/ The Over-Senates shall not have the power to select which Centi-Nomes vote on matters. All Centi-Nomes shall be tasked by random draw conducted by the Main-Senate sluice that will be directing the Centi-Nomes.

A’3. MERITOCRACY

1/ The Sub-Senators shall meet in groups called Centi-Nomes, because each Centi-Nome group will confirm 100 Sub-Senators per year. Each Centi-Nome will however, contain 200 adjoining Nomes, and 200 Sub-Senators. Each Centi-Nome will thus represent about 50,000 voters.

2/ Government shall work according to a new division of time called a teneth, which is 1/10th of a year, or 36.5 days. Odd teneths have 37 days, even teneths have 36. The second teneth of leap year has an extra day.

3/ In each teneth, each Centi-Nome shall rank its membership and the top man shall be thus elevated to
serve in the Main-Senate after the end of his term in the Sub-Senate. The Main-Senate shall do roughly the same thing each teneth, with its top 1% elevated to serve in the Over-Senate. In this way we elevate the top 10% of the Sub-Senate to the Main-Senate and the top 10% of the Main-Senate to the Over-Senate. Senators, once elevated do not participate in later rankings in that Senate.

4/ In ranking elections, each Senator may vote once for as many of his in-person voting-house mates as he wishes.

In the event of tied votes, the last man elected and elevated by that voting house shall break the tie.

5/ The top half of all Senators cycling out of the Sub-Senate shall be called “confirmed”, and the rest called “not confirmed”. Not-confirmed Sub-Senators shall not be considered as Senators once they leave the Senate. Confirmed Sub-Senators shall hold the honorable but officially powerless title of Senator for their entire lifetime. Thus our million-man Sub-Senate will be full of men competing to do something to make the nation better.

6/ The only way into the Senate is to be elected by one's neighborhood Nome. There shall be no quotas or guaranteed places for anyone or any race, even if they are a super-genius, a zillionaire, a founding father, a holy man, descended from ancient aristocracy, or the winner of some noble prize.

7/ Future generations are warned! No Senator's term of office shall ever be extended in any way beyond one year, even as an honorary position and with no powers. For it is a trick of those who wish to degrade a democracy to first bestow lasting but powerless positions, and later struggle to add powers to those positions.

8/ Future generations are warned! No Senator shall ever have more power or honor than the other Senators of their Senate level. For it is a trick of those who wish to degrade a democracy to first give slight or honorary powers to a cadre of lawmakers and later increase those powers.

A4. SUB-Senate Roles

1/ Meet with the people, and elevate their worthy ideas to the Main-Senate. In general, the people shall not be permitted to approach Main-Senators and Over-Senators with their ideas, but must find a Sub-Senator to post their ideas to a Senate Bulletin board service / Tweeting platform, herein referred to as the Senate BBS.

2/ Gather, assemble, and verify information for the Senate and people of our democracy. We do this to minimize the corrupting influence of extra-democratic voices in our democracy, including: lobbyists, interest groups, advertisers, and the openly corrupt paid commercial media.

3/ Act as a staffing pool for the Main-Senate.

4/ Buy, sell and distribute government property.

5/ Spend and distribute government money within the budgets and divisions set by the other Senators.

6/ Assemble our government's free public-domain media, to include the ubiquitized content library, software library, education system and various ubiquitized information services, such as the national search engine, twitting service and facebook. This content may be accessed, used, copied and free of charge and it may have no advertising. It shall not track users, or require that users register where this is unnecessary. Like all free nations, we shall share and server our library with the world free of charge.

7/ Condem and nationalize land for infrastructure routes and new communities. When government condemns property, it gives fair compensation as described herein. When government nationalizes property, it gives nothing.

8/ Ubiquitize intellectual property or “IP” rights into the public domain, including patents, copyrights and trademarks. Grant official Ubiq status units to those whose activities the Sub-Senate wants to reward with public praise and money.

9/ Officially stigmatize media for cause, and cancel IP profit rights for cause. Senate stigma shall not interfere with the right of free expression, only the right to profit from what was expressed.

10/ Catalogue all identifiable propaganda in all widely viewed media.

11/ Supervise industries that require or request government oversight and liability protection.

12/ Compile the nation's Senate-compiled wikipedia, news channels, and news websites, so the people will have access to an alternate democratically elected truth. This will be in addition to anyone else who cares to produce news media. As we enter a world of deep fakes, this ability to consider the source will become extremely important.

13/ Set standards and manage the government rating system for all industries, products, services, professionals, workers, and employers. The Sub-Senate shall compare and rate every widely distributed product and service that can be sensibly compared or rated.

14/ Staff the nation's judiciary. All Sub-Senators that get confirmed, but not elevated to the Main-Senate shall go on for a tour of judicial duty. Once the Senators complete their judicial service, they shall for all their life be recognized as a Senator, a word that speaks of a person's wisdom, intelligence, and worth.

15/ The Over-Senate will establish pie-slices for the tasking of the Sub-Senate, the nation's 'million-man' magistrate corps. In each Senate term, the Over-Senate may, with a 2/3 overmajority, adjust each pie-slice stated above by as much as 2% of the whole 100%.

16/ Only the national Main-Senate shall have the power to make the laws of the nation. Neither the national Sub-Senate, nor the national Over-Senate shall have the power to make or modify any laws.
A'5. MAIN-SENATE

1/ The Main-Senate shall be composed of twice elected Main-Senators that serve in one of 10 specialized legislative channels called Sluices. To start with, these Sluices shall be Economic, Industry and Commerce, Healthcare, Socialist, Public Property, Foreign, Military and Militia, Internal Security, Judicial, and Knowledge. Main-Senators may participate in the discussion, and post comments to any or all sluces. However, in their role as vote-casting decision-makers, they are randomly assigned to one of the ten sluces.

2/ Each Sluice shall elect, execute, and enforce its own laws. Each Sluice shall also apportion its own budget as it sees fit, subject to the Over-Senate's inter-Sluice budgets and power divisions, and also subject to the Over-Senate's interpretation of this Constitution.

3/ Except in the beginning, the various sluces are not expected to have the same number of Senators.

4/ The following shall be the initial Sluices and some of their duties. At the end of each Senate term, the Over-Senate shall publish an updated version with great detail.

a/ Economic Sluice (ES): Tax collection, currency, money supply, central bank, interest rates, flation management, banking, financial markets, real estate flation, overall lending level, audits of government agencies, abuse of monopoly power prosecution. Economic intelligence agency to confirm the other two intelligence agencies.

b/ Industry and commerce Sluice (ICS): Business rules and regulations, product standards, industrial base development, business development lending, industry de-consolidation, anti-monopoly measures, domestic prevention of predatory pricing, business adjudication, working safety, working conditions, environmental regulation, union oversight, insurance. The ICS also administers certain public websites such as the national industrial catalogue, the national drop-ship warehouse system, the national auction website, and the national ratings website.

c/ Healthcare Sluice (HS): Optimizing the bang for the nation's public healthcare buck. Health procedure categorization, healthcare tiers, healthcare education and training, health related research, procedure fees, facilities construction, healthcare approvals, food safety, food additives, pesticides, healthcare taxation, public education, worker education, mafia drugs administration and regulation and taxation of tobacco and alcohol.

d/ Socialist Sluice (SS): Issuance of patents and the tracking of their use. Ubiquitization of inventions and patents. Elder pensions, child support, child services, unemployment dole, homeless shelters, and other social programs. Luxury taxation, one-child enforcement, education and daycare for children, workforce development, worker training, employment-related testing and certification.

e/ Public Property Sluice (PPS): Acquisition, sale, and rental of the nation's properties, infrastructure, mineral extraction reserves, and nature reserves. New cities, urban standards, building standards, universal municipal rules, communication infrastructure, water supply, sewage, rain water runoff, transportation and commerce infrastructure, rail and road system, automobiles, vehicle networks, goods delivery.

f/ Foreign Sluice (FS): International relations, foreign policy, trade policy, foreign aid, international actions, embassies, foreign language news outlets. United Majority (UM) integration, tariffs and subsidies to prevent foreign predatory pricing, tariff and duty enforcement, inspections of imported shipments, foreign intelligence agency to confirm the other two intelligence agencies.

g/ Military and Militia Sluice (MMS): Armed forces, defense industry, military bases, weapons development, civil defense. Strategic industrial subsidies, defense intelligence agency to confirm the other two intelligence agencies. The MMS pays and equips the military, however, the military shall only act under the command of the Over-Senate.

h/ Internal Security Sluice (ISS): National law enforcement, national jails, prisons, visitor visas, immigration approvals, illegal immigration enforcement, refugees, Exhods, internment camps, anti-terrorism, FBI, emergency services, disaster preparedness, citizen data, archives, civilian aviation, ports, border control, The ISS pays and equips the militia, however, the militia is under the command of each county's government.

i/ Judicial Sluice (JS): National court system and national prosecution system. Writes the nation's criminal code, and sets all criminal penalties. Adjudicates between counties. Draws Senators for Senate juries and hires appointee judges for small claims matters. The JS may inspect any part of the justice system or any branch of government at any time and for no stated reason. The JS chronicles all legal changes and inform the people about developments in the legal system. The JS is the primary prosecutor with respect to corruption, tax evasion, and organized crime. A 50% majority of the JS exonerates anyone and cancels any civil judgement.

j/ Knowledge Sluice (KS): Patents, trademarks, and copyrights. Senate budget office, research funding, public textbooks and tutorials, education system, colleges, education standards, education testing, public libraries and public service. The KS also administers all public service websites such as the senate library, the national search engine, the facebook, order fulfillment and delivery system, the twittering system and other similar publicly-owned non-commercial information utilities. The KS also develops the various template services that the counties will clone. It also runs the post office. The KS does not assemble knowledge like the way the Sub-Senate does. The KS votes to approve the Sub-Senate's work or not.
A6. MAIN-SENATE ROLES
1/ Only the national Main-Senate shall have the power to make the laws of the nation. Neither the national Sub-Senate, nor the national Over-Senate shall have the power to make or modify any laws. However, the Over-Senate may strike down laws for reasonable constitutional violations, or when a Main-Senate sluice exceeds its area of jurisdiction. And when multiple sluices pass laws within their jurisdictions that are in conflict with, or create ambiguity with the laws of other sluices, the Over-Senate shall have the power to strike down the text of their laws in line-item fashion to eliminate the conflict or ambiguity.
2/ Lay and collect taxes and fees and spend money within the single-number budgets for each sluice set by the Over-Senate.
3/ Regulate commerce, business, and trade with foreign nations, and within the nation.
4/ Issue a national currency, flate the value thereof, and punish counterfeiting and account fraud.
5/ Determine and log the ownership and control of all real estate, all fictional citizens, and all significant asset in the nation. Conduct universal and individual audits to determine the ownership of all assets in the nation. Determine the wealth of all citizens, foreigners and fictional citizens in the nation. To be clear, the term fictional citizen means both for-profit and not-for-profit entities, and does not exclude religions, charities, endowments, colleges, research foundations, or any other entity that is not human.
6/ Freeze, confiscate, or nationalize illegally-obtained, or unjustly-obtained assets and ownership rights, including any asset held on behalf of any foreign nation or empire this nation finds itself at war or jihad with.
7/ Mark-down and mark-up different classes of debt to modulate flation.
8/ Ban, discount or void the value of entire classes of debt, financial obligations and equity ownership.
9/ Freeze and seize accounts and assets belonging to any foreign nations, and people from any foreign nations.
10/ Establish product standards, as well as standards of quality, weights, measures, ratings. Standardize commercial practices in the nation.
11/ Establish public utility systems for railways, roads, airports, boat ports, freight, delivery, water movement, steam and power movement, fuel movement, fuel storage, information transmission, mines and information systems.
12/ Establish new cities sufficient to prevent urban land prices from inflating relative to the average wage of the nation.
13/ Condem private land for public facilities and to build new communities for the people. Condem exurban land to establish new communities and linear infrastructure. Then the condemned land can be sold at a profit or for fat ongoing tax income.
14/ Condem and impose special taxes on areas that are unsafe due to natural hazard.
15/ Tax, acquire, sell, and lease out the nation's land and public buildings. Government shall generally be prohibited from leasing privately-owned assets for more than 6-months.
16/ Break up and smithereen monopolies and cartels.
17/ Impose special taxes to prick speculative bubbles. The Senate shall be required to take action whenever it identifies speculative bubbles.
18/ Ubiquitize the various needs of the people as practical.
19/ Grant monopoly periods for inventors, authors and discoverers, and award money and official public recognition to inventors, authors and discoverers for their contribution to the good of all.
20/ Promote progress in science, technology, industry and education.
21/ Create manufacturing, nature, and mineral extraction reserves, together with structures, housing, transportation systems and processing facilities.
22/ Create maquiladora and foreign worker zones both inside the nation's territory and (through treaty) outside of its territory. In these zones, unskilled foreign workers can easily come and work, but they are not able to enter the main part of the nation. The Senate may also establish a different laws for fenced-off maquiladora, and foreign worker zones that are also on the nation's border.
23/ Provide for the common defense and general welfare of the nation. Give loans, aid, and arms to other broad democracies struggling to be free.
24/ Make laws concerning terrorism, piracy, and those captured in war. Make laws concerning crimes against humanity.
25/ Write the nation's legal code and set penalties. This shall be written entirely de novo, and from scratch, and in such a well-explained way that the code requires no experts to interpret. The entire legal code, together with all commentary, explanations, example, and teaching material shall be posted online for free anonymous downloading and copying. The nation's legal code shall not copy any text from the Roman law, also known as the Code of Justinian which the Mideast wrote just before it initiated the European Dark Ages and the great age of Islam.
26/ Compile a list of laws that are prohibited among the nation's counties.
27/ Administer the national court system, including the assignment of Senator judges. By 2025.01.01 all judges and jurors in all felony trials, and all large-scale financial matters shall be confirmed Senators on judicial duty.
28/ Raise, develop, organize and maintain military forces and military equipment.
29/ Create rules for the armed forces of the nation. Authorize and ban certain weapons and military tactics.
30/ Repel invasions and suppress violent insurrection. Subdue regions, cities and extra-democratic organizations that rebel against the authority of the
31/ Regulate all trade and commerce with foreign nations and with the Parasitic Union.
32/ Impose various ongoing taxes and one-time imposts based on any metric except income, work, productivity, output, and automation.
33/ Impose national wealth taxes.
34/ Tax luxury products, advertising, and industries where high pay is in some way detrimental to the people.
35/ Impose industry-specific income taxes on occupations elected as either detrimental to the national economy, or detrimental to the ambitions of the nation’s youth.
36/ Tax gold, silver, diamonds, and other anonymous potential currencies of crime, so their value declines.
37/ Tax land and buildings, together with their use and sale.
38/ Regulate immigration and new citizenship. Grant refuge and immigration to foreigners.
39/ Regulate identity and secure the relative anonymity of the people.
40/ Condem property immediately, or up to 40 years in the future by making a reasonably discounted payment today.
41/ Tax luxury or wasteful uses of inherently scarce healthcare resources. Then use the proceeds to fund a level of free healthcare for the people.
42/ Strike down labor union contracts and provisions elected as outside the market.
43/ Modify the parameters of the national economy in any way found prudent or convenient over the long run.
44/ Offer financing for the people for their sensible investments.

A7. OVER-SENATE ROLES
1/ Only the national Main-Senate shall have the power to make the laws of the nation. Neither the national Sub-Senate, nor the national Over-Senate shall have the power to make or modify any laws.
2/ Define the overall problems, directions, objectives, and ambitions of government. Make plans for the nation’s government and statements of national government policy, direction and objectives.
3/ Apportion and balance duties, workloads, and authority among the various Sluices of the national Main-Senate. The similarity of tasks within a division shall be considered less important than the balancing of the workload.
4/ Adjudicate or resolve conflicting and overlapping jurisdictions, laws and implementations among the various Sluices of the national Main-Senate.
5/ In the event of conflict between clauses of this Constitution, the Over-Senate shall decide which clause is to be followed and which is to be ignored.
6/ Interpret this Constitution, and serve as the supreme and exclusive arbiter of the constitutionality of all laws in the nation.
In the first 36 days of a law’s existence, a 55% overmajority of the Over-Senate shall strike down any law or clause that the Over-Senate reasonably elects to be in violation of the nation’s constitution, or Senate’s power divisions. After one teneth, a 60% overmajority shall be required to do this.
7/ Except with respect to constitutionality, inter-sluice budgets and jurisdictional apportionments, the Over-Senate shall be prohibited from compelling, or halting any particular implementation or spending by the Main-Senate. There shall be no Over-Senate veto of Main-Senate spending or Main-Senate laws unless they are reasonably elected as unconstitutional by the Over-Senate. Also, no part of the judicial system shall have the power to cancel, vitiate, modify, or re-interpret any law due to a conflict with the constitution. The judicial system shall be considered lower in every way than the nation’s Senates.
8/ The Over-Senate shall have no powers over Sub-Senate activities unless they are reasonably elected as unconstitutional by the Over-Senate.
9/ Set tax levels for the nation.
10/ Set the overall single-amount spending budget for the various Sluices of the national Main-Senate. As a vitally important check on the power of the Over-Senate, these budgets shall not be sub-divided, ear-marked, or partitioned in any way by the Over-Senate. Except for this overall budget function, and the broad inter-sluice duty and workload allocations, the Over-Senate shall be prohibited from imposing any particular implementation, or spending requirements, or making any demands whatsoever on any Sluice’s policies.
11/ Only the Main-Senate shall make the laws of the nation. Neither the Sub-Senate, nor the Over-Senate shall have the power to make or modify any laws. However, the Over-Senate may strike down laws for:
a/ Constitutional violations,
b/ When a Sluice exceeds its jurisdiction.
c/ When sluices pass laws within their jurisdictions that are in conflict with, or create ambiguity or unnecessary dissimilarity with the laws of other sluices.
x/ In each of these three areas, the Over-Senate shall have the power to strike down the whole law, or strike text from the law in line-item fashion to eliminate the conflict or ambiguity.
12/ The Over-Senate shall not:
a/ Try to make laws as if it had the power to do so.
b/ Try to influence decisions in the Sub-Senate.
c/ Try to influence Main-Senators into making or altering laws, except in matters of constitutional compliance, sluice jurisdiction, and inter-sluice conflict or ambiguity.
13/ Issue pardons, and invalidate pardons.
14/ Cancel any prosecution, criminal trial, civil trial, judicial process, court decision, government proceeding, or legal decision in the nation.
15/ Create money on the credit of the nation and pay the nation’s debts. The fractional lending system shall be
abolished, and all banks shall serve as agents for the
country government's money supply.
16/ Spend up to 1/5,000th of the national government's
budget. Except for this money, the Over-Senate shall not
command any spending.
17/ Determine transfer payments between the national
government and the counties, and the UM.
18/ Modify the parameters of the national economy in any
way found provident or convenient to the people over the
long run.
19/ Put questions on the tenethly sophoscite with a 50%
vote.
20/ To divide Main-Senate Sluices, the constitutional
amendment process shall be required. Great care should
be taken to make sure that power is not concentrated in
the Over-Senate through an over-fragmented Main-
Senate.
21/ Bind the nation to treaties and trade agreements with
a 2/3 overmajority.
22/ Determine and adjust the average national wage,
which is initially put at $20/hour. Any time the term wages
is used in this constitution to describe a dollar amount,
this is the wage that is meant. An adjustment of this
important number shall be elected at least once per year
by the Over-Senate.
23/ Classify or declassify matters of national security as
secret. All other things being equal, the Senate shall try to
minimize national secrets.

A'8. SENATE RULES
1/ All Senate votes shall be cast under mandatory
secrecy to make the corrupt selling or exchanging of
votes absolutely unverifiable. Senators shall be expelled
and stripped of their Senate status for revealing their
vote, except when they rightly challenge the recording of
their own vote and by logical extension, the entire vote.
2/ Our first priority in Senate voting is that the vote remain
secret, unverifiable and impossible to sell. A distant
second priority, a priority that doesn't really matter in
comparison is that our Senators use their time as
effectively as possible. We shall not compromise our first
priority in any way for our second and much lower priority.
3/ Under democracy, we elect our wise men as our
leaders and empower them to govern as they see
fit. It is corrupt when they heed:
a/ The loud cries of a badly aggrieved micro-group
assembled in a spectacle of lawmaker swaying protest.
b/ The claque of fast talkers hired by the openly-corrupt
paid commercial news media to act the part of wise men.
4/ Only Senators may be inside a Senate voting chamber
while voting is in progress.
5/ The entire law writing and assembly process shall be
recorded and posted for all to view anonymously, and
without any login. This shall include
a/ All proposals both failed and successful.
b/ Which Senators proposed which changes.
c/ Who voted for which changes with regard to law
assembly, but not the final vote.
d/ What the vote count was for each change.
e/ All Senate discussions, proceedings, and bulletin
boards.
Later generations should not neglect these recording
duties or let them fall by the wayside. And all of
the foregoing shall be done in a way that does not show how
any particular Senators voted in the final vote to elect the
new law. However, the law assembly votes shall be
entirely recorded for all to see.
6/ To restate: Senate's law assembly process shall be an
open book that is fully recorded and day-lighted in as
many ways as reasonably possible. The final Senate vote
however, shall be cast under mandatory and total
secrecy.
7/ For the sake of efficiency, all Senators shall try to
maximize the business they do via online text-based
BBS/ tweeting platform. They shall try to minimize the
business they do on video. They shall try hardest to
minimize the business they do in person when a large
assembly of people travels to hear one person at a time
say their piece. Live forums, hearings, and discussions
shall be discouraged wherever possible because they are
so wasteful of the vitality and time of our Senators.
8/ The following discussion rules shall apply:
a/ Only Senators may post on a Senate BBS.
b/ Sub-Senators shall not post on Main-Senate or Over-
Senate boards. Their work may however, be picked up
and shared by the higher Senates.
c/ Main-Senators may post on Sub-Senate boards.
d/ Over-Senators may post anywhere.
e/ Main-Senators may post on Sub-Senate boards.
f/ All titles to all posts must be accurate and intentional
title spamming and other forms of spamming shall be
penalized.
g/ There shall be no lying or intentional distortion of the
truth.
h/ All material must be accurately summarized.
i/ All posts shall have a full reader count, a partial reader
count and a rating.
9/ Everything written by the Sub-Senate shall be called
Sub-Senate communication. Everything written by the
Main-Senate shall be called Main-Senate communication.
Everything written by the Over-Senate shall be called
Over-Senate communication. Everything not written by a
Senate shall be called EX-Senate. EX-Senate
communication shall not be excluded from the discussion,
but it shall always be treated with suspicion. All Ex-
Senate communication used by the Senate shall have the
words Ex-Senate at the top of each page.
10/ Partial-law votes shall be titled that. They shall also
use blue text. When text is removed red colored text shall
be used for the part removed, and green colored text for
the inserted text. Full laws shall be in black text.
11/ To start, all partial-laws under 99 words long shall
pass with a 50% vote. To start, all full and final laws, and
all partial laws over 99 words long shall require a 56%
vote to pass. The Over-Senate shall have the power to adjust the partial-election percentage up or down between 50% and 55%, and the final-election percentage up or down between 50% and 60%.

12/ All Senate discussion gets rated by the Senate. The valuable material will thus be a feed. Thus our Senate will have these official feeds of ideas and policies related to the way we run our group effort. And each sluice will have many feeds.

13/ The Utter, the person who first expressed an idea, will get the most Senate status and reward for his ideas. But the early supporters will also get a sliver of the credit. Also, the people who created improved versions that take over from the original and become the species of the new idea shall be properly rewarded. Also a sliver of Senate status shall accrue to Senators who shorten or streamline the nation’s laws by even one word, or make a single sentence easier to understand, or less equivocal.

14/ Because we should expect our Senators to cast a vote on every matter before the Senate, all Senate votes shall have mandatory attendance, except when the Senator has a medical certificate and video from a Senate approved clinic, or the Senator has resigned from the Senate.

15/ To create a bias towards better and shorter laws and more concise regulation, all Senators shall be required to read what they vote on at least 3 times. All elements of the tax code shall be read at least 5 times. This shall be verified by a Senate-managed reading monitoring system. Senate service is supposed to involve hours of daily reading in English. The Senate orientation media is supposed to serve as a reading abilities test for serious Senate-level material. Those unable to keep-up with the load of orientation reading in English, and those unable to learn the Senate rules shall be considered as failing their Senate orientation. Then the 1st runner up, the next in line shall be called up as a replacement. This is by design and intended to have 3 results:

a/ Our lawmakers will be able to cover much more territory using text than public speaking. So requiring a minimum level of daily text/reading also defines a minimum level of territory coverage for the Senate.

b/ Moderately heavy reading workload will eliminate poorly read and poorly informed people from our national decision making process.

c/ The reading will boost lawmaker intellect as opposed to boring government proceedings that dull the intellect.

17/ When a new law is elected by the Senate, it shall be made available in both text and talking head video mode with each contributor speaking his own words to the people. And being a talking head is a great honor even if it is only one word you contributed to the all or group cause.

18/ All forms of secret law shall be prohibited, and all laws shall be in writing and promulgated for all to see.

19/ We require a small overmajority votes to:

a/ Create a bias against government spending.

b/ Create a bias towards government inaction, rather than on getting involved in everyone’s business.

20/ Senators shall not approve anything that they do not fully understand, anything that is not fully written out and explained, or anything that is kept secret from them.

21/ Senators shall never trust or blindly follow experts, as this hands the so-called experts a backdoor to our democracy.

22/ The Over-Senate shall use sophistics to help define and state government policy and public opinion in great detail, with great accuracy and credibility.

23/ So that no Senate is able to change its own operating rules, or vote on its own compensation, 10 teneths shall pass before any Senate compensation or conduct rule changes take effect.

24/ Laws that benefit less than 1,000 citizens, human or fictional shall take a 2/3 overmajority to pass. Laws that benefit less than 50,000 shall take a 60% overmajority to pass.

25/ Except for emergency and short-term measures, no Senate law shall be passed between 8pm and 1pm.

26/ No Senate, Sluice or Centi-Nome may spend more than 1% of its annual budget, nor more than 10% of its tenethly budget with a single vote. This clause is intended to prevent omnibus or camel-caravan bills.

27/ No Senate powers shall be delegated to any czar, president, king, or oligarchy. No man or group of men shall have any privileges or powers over the Senate. The Senate shall have the power to terminate the employment of any and all government appointees at will, and without stating any reason.

28/ All laws shall be repealable under the same conditions they were passed. The overmajority and conditions required to cancel a new law shall never be higher than the overmajority that passed the measure in the first place. No law shall have its own repeal rules. All clauses in all laws that have the effect of making the law’s repeal more difficult shall be void.

29/ All government infrastructure shall be tested in microcosm before being rolled out.

30/ No person shall be elected to a Sub-Senate more than once in 10 Senate terms, or more than 4 times in their lifetime. Senate service in poor foreign nations shall generally not count towards term limits in our nation.

31/ There shall be no property, wealth, education, age, religious, or citizenship qualification for entry to the Senate. Senate service shall however involve a volume of reading that poor readers will find hard to keep up with.

32/ All Over-Senators must have been born in our nation, and spent at least 2/3 their life in our nation. Thus immigrants cannot be elevated above the Main Senate.

33/ All Senators shall be duty bound to do what is best for the nation and for mankind overall, and to put this cause ahead of their own county and regional constituency.

34/ The Senate shall reign supreme, and no party, president, monarch, oligarchy, court of law, or no narrow democracy shall ever have any veto, or chancellor’s
cancellation right over the Senate. All laws shall be approved and interpreted based on Senate voting alone, and no other party or group shall approve, officialize, present, deliver, enact, vote-on, veto, cancel, interpret, introduce, judge, assess constitutionality, or sign any law that has been elected by the Senate.

35/ No Senator shall ever have any official power as an individual, except when he is serving as a Senate judge for matters too unimportant, or too low in value to warrant more than one person as decision maker.

36/ No Senator may engage in transactions involving the buying and selling of stocks, bonds, options, real estate, loans, debts, mutual funds, commodities, or other similar assets while in office or for 10 days thereafter. This does not apply to monthly loan and impound payments made by Senators, or to dividends or other regular payments made by assets owned. Also, no Senator may hold individual issues while in office, be they stocks, bonds, or other company assets unless they were a founder of the company.

37/ Senators shall not advocate or praise monarchy, oligarchy, or narrow democracy, let alone any totalitarian form of government.

38/ We shall jealously guard the constitutional limits we put on our government, and no slight infraction at all should be tolerated by the Senate and people. Each tiny infraction shall be seen in the same light as a foreign power trying to inch into our nation's territory.

39/ Sub-Senators shall receive pay for 10 teneths. Main-Senators and Over-Senators shall receive pay for 13 teneths, even though they only serve for 10 teneths. This is because our Senators must complete Senate ethics and education modules in addition to their service. It is also for the costs associated with putting their lives on hold while they are in the Senate. Aside from the pay mentioned in this paragraph, there shall never be any pension or money award of any kind for Senate service after our Senators leave office.

40/ All new UM Main Senators shall complete the relevant tests on anti-corruption rules and senate procedures orientation. Senate procedures includes topics like rules of voting secrecy, gifts prohibited, and BBS conduct. All new Senators must pass the orientation tests with a 100% score before they can start Senate service. Senators with a strong internal compass might read the rules, while there will be snappy situational videos available for Senators who want to see the material that way. The access to this material shall not be tracked or recorded. The only thing that matters is passing the test with a 100% score, that being considered assent and total grasp of the rules. These tests may involve up to one teneth of study.

41/ The UM Over-Senate shall be prohibited from making laws. Only the Main-Senate shall have the power to make laws.

42/ The people shall generally be expected to initiate contact with the Senate via Sub-Senators. Our individual Main-Senators and especially Over-Senators shall have broad rights to avoid contact with individuals and groups of beseechers, petitioners, and protesters while at their home and while going about in public.

43/ We obviously need strict rules against bribes and other positive inducements made to our Senators. It is less obvious but equally true that we also need strict rules against negative inducements. Therefore, overtly attempting to frighten, or harass or stalk a Senator outside the democratic system may be charged like bribery. Also the word stalk shall encompass the real and virtual world, as well as present and past.

44/ Because the Main-Senate and Over-Senate will mostly deliberate via a twitter-like system, no deliberative sub-body in either the Main-Senate and Over-Senate needs to limit its membership to voting members. All Main-Senators may post on every Main-Senate BBS for every Sluice and every committee. Likewise, All Over-Senators may post on every Over-Senate BBS. This shall not however apply for matters of military secrecy.

45/ For deliberative sub-bodies over 36 Senators, nobody shall have any role of distinction for more than one day in each teneth. For deliberative sub-bodies over 365 Senators, nobody shall have any role of distinction or precedence for more than one day in each year. Each day’s chairmen shall be randomly drawn from the eligible Senators that are present.

46/ All laws shall be passed by one Main-Senate Sluice, and one Main-Senate Sluice only. There shall be no sequencing of voting houses as is so common in narrow democracies. Such sequences tend to multiply the power of veto corruption, that is, corruption of the process by which legislative business is delayed often indefinitely.

47/ Excessively high over-majorities should be avoided as they tend to hand veto power to corruptors. Then a small minority can more easily stop proposed new approaches.

48/ All Senates shall be expected to copy and pastiche the best ideas posted on the various Senate bulletin boards, and anywhere else in society. All posts to a Senate BBS shall also be considered as a submission to the the patent clerk with respect to anti-patent and insight patent submissions if the utterer claims them.

49/ Each Senate BBS shall have a heading for anti-patents, where ideas are proposed to the Senate and people. Once an idea has been proposed in such a way, it shall not be subject to insight patents, but only development patents. And no such development patent shall be issued until after a reasonable time has passed to demonstrate that a development patent is necessary to get the new product into production.

50/ Anyone from any nation may serve in the Senate of our nation. However, all Senate candidates must officially declare their nationality (birth place) and their current citizenship.

51/ Everything in government must be named in a way that accurately describes its function or what it is. The Senate may expel Senators for proffering bills with
doublespeak names as was commonly done under the previous democracy.

A'9. SENATE DISCIPLINE
1/ For the sake of simplicity and efficiency, all Senates shall have uniform rules and procedures where practical.  
2/ Regarding enforcement, prosecution, and punishment, each Senate shall judge its own membership.  
3/ To discipline or expel a standing Senator, a 66% overmajority shall be required. No Senator shall be disciplined or expelled without due process.  
4/ All confirmed Senators shall have immunity from all non-Senate legal matters, criminal and civil, while in Senate service and for one year thereafter.  
5/ No Senator shall be disciplined by the Senate or expelled from the Senate for any sex crimes, or business crimes, or misrepresenting something, or crimes of procedure like lying, or perjury or obstruction of justice. These charges will all have to wait until the Senator is out of the Senate.  
6/ The sexual conduct of our Senators shall be none of the Senate's business, so long as it is legal and with consenting adults. Marital infidelity shall be none of the Senate’s business.  
7/ In order for Senators to be disciplined by the Senate, for inciting violence, the Senator must both clearly call for violence, and the crowd addressed must then go on to seriously injure more than one person for every 10,000 people assembled. Also, if these injuries are from pushing, or shoving, or natural causes, or accidents, or police, they shall not count.  
8/ Threatening or repeatedly attempting to scandalize a Senator shall be considered a form of extortion. Following Senators around, or digging into their personal, family, business, and sexual matters shall also be considered a form of extortion. It shall also be considered criminal extortion to attempt to drive a Senator into resigning by threatening scandal or legal prosecution after his term in office. These activities are not only a form of corruption, they drive many good people away from public service and help foster a leadership vacuum situation.  
9/ When Senators are expelled, or unable to continue service, the next runner-up in the most recent election shall be their replacement.  

A'10. CONSTITUTIONAL AMENDMENTS
1/ No single constitutional amendment shall exceed 200 words.  
2/ Constitutional amendments shall only be written by the national Over-Senate and require a 75% overmajority of the national Over-Senate to be sent for ratification.  
3/ Passing a constitutional amendment requires a 75% overmajority from the Over-Senate, then a 75% overmajority from the Main-Senate, and then a 75% overmajority from the Sub Senate. These three 75% over-majorities must be achieved in one teneth. Then 400 days after the proposed amendment was passed by the Sub-Senate, it shall be put to a ratification vote where all three Senates votes are repeated on one day. The proposed amendment must also achieve a 75% overmajority in all ratification votes. If the proposed amendment fails to achieve the required 75% overmajority in any of the 6 Senate votes, then the amendment shall be considered failed and void. After this, those wishing to revive the proposed amendment shall be required to start over again from the very beginning of the amendment process.  
4/ When Constitutional amendments pass with a 6/7ths over-majority in all three Senates in one teneth, the amendment shall be considered as passed at that time and there shall be no more voting on the matter.  
5/ The foregoing amendment processes shall not be used to restrict the rights of the people, increase government power, reduce the number of Senators, shift powers from the Sub-Senate to other Senates, shift powers from the Main-Senate to Over-Senates, shift powers from county government to the national government, or otherwise narrow this democracy or make it make it more corruptible. To do any of these things, an 80% over-majority shall be required where a 75% overmajority is otherwise called for in Paragraph A'10.3. Paragraph A'10.4 shall not apply for amendments that narrow our democracy, and all narrowing votes shall require a second ratifying vote 386 days later in order to pass.  
6/ A wholly new constitution may be instituted using the amendment process in Paragraph A'10.3, however the matter under discussion must be called a new constitution, and an 85% overmajority shall be required in all three Senates in one teneth, and then a second 85% over-majority shall be required from the ratifying vote 386 days later in all three Senates.  
7/ Any amendment that makes the amendment process more difficult shall be reversible under the old pre-existing standards for a period of 8-years.  
8/ The overmajority required to cancel an amendment or law shall never be greater than the overmajority required to passed the measure in the first place.  
9/ No constitutional convention, supervening body, or extra-Senatorial body shall have any jurisdiction over this Constitution or the nation’s Senate. We shall not make the same mistake we made in Philadelphia in the summer of 1787, when America’s democracy was hijacked.  
10/ The official version of this Constitution shall include all removed text in strikethrough text, and all additions in bold underlined text immediately following the strikethrough text it replaces. This Constitution shall not be promulgated in abridged forms. Quotations and sections may be used, but abridgments of the whole shall be prohibited.  

A'11. COUNTY GOVERNMENT
1/ In this nation, there shall only two layers of government, national and county. All other branches and
levels of government shall be eliminated and merged into one of these two layers. There shall no longer be any state, city, regional, port, or other layers of government. All shall be merged into these two levels. All duties and all government functions shall be performed by either the national Senate or the various county Senates, and no other level or form of government or quasi-governmental agency shall continue to exist.

2/ At the inception of this constitution, the minimum size of a county shall be 500,000 people, the maximum size shall be 3 million people. Counties that later fall below 500,000 people shall be merged, and counties that later rise above 4 million people shall be split. Existing counties with a population over 500,000 shall not merge with one another. A number of present day states such as Wyoming and North Dakota will now become single counties due to their low populations. Some larger states such as California will become over a dozen counties.

3/ To be clear, none of the existing states shall continue to exist as government entities. All duties and rights of the old cities and states shall be re-apportioned by the Economic Sluice among the national government and the various county governments.

4/ All territory in the nation shall be under the jurisdiction of one county and one county only. All county boundaries shall generally be of one globule, without islands, and with minimal jogs, or peninsulas in their shape.

5/ If there are any claims as to overlapping county territory, the public property sluice of the national Main-Senate shall adjudicate.

6/ The national government shall not distract itself with activities that the counties can do nearly as well. The national government shall delegate as many duties as it can to the various counties, provided the counties are capable of doing these duties nearly as well as the national government. The national government shall constantly try to decentralize by expanding the activities of the counties, and reducing its own duties as much as practical. Also, we must keep in mind how Ishtar has struggled for centuries to drive the governments of their hosts in the opposite direction, towards greater centralization.

7/ The national government shall fairly test all reasonable decentralization plans so it can maximize its effectiveness and its efficiency.

8/ Full faith and credit shall be given in each county to the public records, judicial proceedings, operator licenses and professional licenses of every other county. Those charged with a crime in one county are subject to arrest in all counties. Citizens shall however, only be delivered to another county after a court hearing in the extraditing county.

9/ In each teneth, the top 10% of the nation's Main-Senate shall be elevated to the national Over-Senate. The other 90% shall serve for one year in the Main-Senate of the county that elected them to the Sub-Senate.

10/ There shall be no county Sub-Senate. However, each county shall have a 1:10 Over-Senate ruling over its Main-Senate Sluices. This shall be elected in the same way as the National Over-Senate.

11/ All county Main-Senators shall serve in one of 10 sluices. The initial changeable breakdown of jurisdictions shall be as follows:

a/ Railroads, public transit and militia.
b/ Roads, network vehicle operation, water, sewer, electric and other non-communication utilities, like municipal heat.
c/ County recorder, county info-systems, Virtual communication infrastructure and utilities.
d/ Education, schools, child payments, and libraries.
e/ Public dole, adult education, colleges, retirement benefits
f/ Police, court system, criminal law, and jails.
g/ Healthcare, public health, fire, and EMS.
h/ Taxation, budgeting and auditing.
i/ County property management including leases, parks, mineral extraction reserves, dumps and waste disposal.
j/ Building approvals, building rules, land divisions, business regulation, workplace regulation.
k/ The county Over-Senate may adjust these divisions to balance the workload. Also the tasks of each county sluice need not be related.

12/ The various counties shall not assemble into blocks or political parties, because this will make our national democracy more vulnerable to corruption.

13/ No county or group of counties shall make any law or policy that reaches beyond their borders and sets nationwide standards or drives nationwide change. Only the national senate may establish national standards.

14/ County Senates shall neither send ambassadors to foreign nations, nor receive ambassadors from foreign nations.

15/ County senate shall be prohibited from making their own special laws concerning: immigration, asylum, international trade, international relations, pollutants, fuels, industry standards, worker safety, discrimination, industrial standards, professional licensing, vehicle standards, healthcare, liability, price controls, rent control, or price controls.

16/ Each county shall maintain a recorder's office that shall mirror the records of at least 20 other counties, and 5% of the national government's record system as called for by the national government. Each country shall maintain forever video archives for both government and the people to use. Normal levels of personal recording shall be free to save, recording for business uses shall be charged at built cost.

17/ All income, consumption, sales, value added and other taxes shall be established at the national level. No county government shall have the power to impose any income, consumption, sales, value added taxes or other taxes.

18/ The Over-Senate shall establish 9 standard fiscal
policies and 9-standard tax rates for county government: libertarian-1, ultra-conservative-2, conservative-3, slightly conservative-4, neutral-5, slightly liberal-6, liberal-7, ultra-liberal-8, and socialist-9. These shall be slightly different and shall be applicable nationwide. There shall be no other possible tax rates that county governments may use.

19/ Every single aspect of county taxation shall be uniform nationwide except that that last calculation shall involve 9 different standard county tax rates that do not differ by much.

20/ The entire Main Senate of each county shall vote each year and declare which fiscal policy, and standard county tax rate it will begin using two years in the future.

21/ County governments shall not be allowed to impose any special taxes. If they need to increase income, they must declare a more socialist standard county tax rate.

22/ Regardless of the foregoing, the national government shall be allowed to test taxes and tax systems in various counties before rolling them out nationally. Thus some counties may temporarily have a different tax rate than the rest.

A’12. INTERNATIONAL GOVERNMENT

This 2021 American Constitution is intended to be used with the 2021 UM Constitution and the 2021 Addendum of Initial Laws, which are attached hereto and incorporated herein. The 2021 UM Constitution shall not come into effect for our nation until ratified by a 2/3 vote in all three Senates.

All Over-Senators cycling out of service in the National Senate shall be automatically elevated to the world government, the UM, the United Majority, the world government of the free world. At the UM, the national Over-Senators shall act as UM Main-Senators for one year (or less during initial Senate propagation times). After one year of service (or less during initial Senate propagation times), each of the seven UM member blocks (or less during initial Senate propagation times) shall elevate 8,000 Senators to the UM Over-Senate where they shall serve for two years. Therefore, a complete picture of the representation ratio of the entire world government, both national and international is as follows for a nation of 250 million voters.

National Sub-Senate 1-in-250 voters
National Main-Senate 1-in-2,500 voters
National Over-Senate 1-in-25,000 voters
UM Main-Senate 1-in-25,000 voters
UM Over-Senate 1-in-31,250 voters*

*Assuming 250-million voters

A’13. DECENTRALIZED VOTING

1/ National Main-Senators, national Over-Senators, UM Main-Senators, and UM Over-Senators shall register and cast their votes in one of the Senate’s 36 Regional Voting Centers, or RVCs that is convenient to them. These RVCs shall replace the nation’s current single and isolated capitol as the location for decision making. The initial RVC cities shall be Olympia, Oakland, Glendale, Carlsbad, Salt Lake City, Phoenix, Denver, Albuquerque, Minneapolis, Des Moines, Kansas City, Chicago, Indianapolis, Lansing, Columbus, Lexington, Oklahoma City, Dallas, Lubbock, San Antonio, Little Rock, Baton Rouge, Jackson, Nashville, Montgomery, Atlanta, Jacksonville, Sebring, Raleigh, Charlottesville, Albany, Philadelphia, Pittsburg, Newark, Long Island, and Lowell.

2/ RVC locations may be changed or added with a 2/3 overmajority of the Main-Senate.

3/ No RVC or any government administration center shall be located less than 100-meters above sea level, in any 5,000-year flood zone, or in any building over 15-meters tall. No RVC shall be located in any luxury district, or in any central business district. After 2027.01.01, no RVC shall be located on private property.

4/ There shall be no RVC in either Hawaii or Alaska due to low populations. Main-Senators and Over-Senators from those places will have register-with and travel-to a distant RVC.

5/ If any of the above named cities fails to maintain the minimum voting quorum of 90 Senators per Main-Senate Sluice-Head, then that RVC must be closed down and merged.

6/ All Senators shall be provided free Senator-only mini bus or train transportation from any RVC to all towns of over 5,000 people in their zone. These vehicles shall not be fancy or luxurious.

7/ A significant advantage of having at least 36 regional voting centers is that our 10 sluices can all vote at once in a synchronized manner. Thus we shall say that all Senate voting shall be synchronized.

8/ It is better if the Senate makes a large number of small decisions instead of making a small number of large decisions. This is precisely the sort of granularity that government needs.

9/ The Senate shall aim to vote 30 issues per hour. However, it will start out without time limits.

10/ As the vote reporting system is debugged, the Over-Senate shall shrink the reporting delay as much as reasonably possible so that the vote is harder to corrupt.

11/ When the Senate votes in numerous voting houses, the vote tally in each voting house shall be reported and archived as a single pair of numbers called a score. The first number of the score is the yea vote, and the second number the nay vote. The score shall appear next to the title of the matter being decided upon. The title shall be linked to the actual text of the vote and it must be an accurate reflection of the matter being voted on.

12/ The scores in each Senate voting house from the prior 24 hours shall be displayed at the top of the landing page of its cloned and mono-form vote-reporting website.

13/ Each county recorder shall redundantly report and total up all election results and all Senate scores in its jurisdiction on its website as soon as they are available. The National government shall also redundantly report
and total up all Senate scores on its website as soon as they are available. Each RVC and each Centi-Nome shall immediately check the National and County websites and make sure that its scores are accurately recorded. Then the RVC and Centi-Nome shall change the confirm icon on its website from red to green if it agrees.

14/ The various Centi-Nomes, and RVCs shall host their websites on their own dedicated, internally managed, and separately located internet servers. These shall all have back-up power generators. Each shall have a unique password known only to the Centi-Nome’s or RVC’s internet managers. These passwords shall be changed at least each teneth and there shall be no central database of these Centi-Nome and RVC website passwords. All Senate voting bodies shall be forbidden from asking about, or knowing about the server passwords of other Senate voting bodies.

15/ There shall be no outsourcing of Senate servers or website hosting, and all must be managed by the Senators of that Senate voting body.

16/ To make the system less vulnerable to cyber-attack, the website of each Centi-Nome with the same last two numbers shall mirror other websites of all other Centi-Nomes with the same last two number. This amounts to a 50X mirroring. Also, all Centi-Nomes shall mirror all the RVC vote reporting websites.

17/ Except for topics reasonably elected as secret by a 2/3 overmajority of the Over-Senate, all laws proposed in any Senate, together with all changes, shall be posted on that Senate’s server, out in the open, in real time, on never-forget bulletin boards that can be viewed anonymously by anyone at any time without login.

A’14. CONTINUOUS GOVERNMENT

1/ The Senate shall use staggered terms. Thus 10% of Senators will be replaced in every teneth of every year. We do this for 4 reasons:

a/ To make it more likely that our elected leaders leave office when they are supposed to.

b/ To eliminate time wasting transition periods and speed up government.

c/ To make our nation less vulnerable to attack during transfers of power.

2/ In each county, the Nomes shall be numbered sequentially west to east, and then from north to south, as text is read in English. Each county shall all have a unique 4-digit number. Each Nome shall be entirely within one county, and shall have a unique 5-digit number as a suffix.

3/ Except in disputes, there shall be no central control of where Nome or Centi-Nome boundaries are drawn. These boundaries are up to the Nomes and Centi-Nomes affected, but they shall have the correct number of voters. All such boundaries shall be of one blob, and without islands, and generally without large inlets or peninsulas in their shape.

4/ The electorate, boundaries, and numbers of the Nomes get adjusted as people grow up, move, and grow old.

5/ Except in the first 5 years, while the Senate is propagating, Sub-Senators elected to Nomes ending in a 1 shall start service on the first workday of the first teneth. Nomes ending in a 2 shall start service on the first workday of the 2nd teneth, and so forth.

6/ All Senators shall retain their Nome number throughout their Senate service. If a Senator is elected and elevated to the Main-Senate or Over-Senate, he shall begin service on the appropriate teneth for his Nome’s suffixing number.

7/ The Main Senate terms shall begin some time behind the Sub-Senate, so that the new Main-Senators will have time to complete the Main-Senate’s specialized education modules for their sluice. The Over-Senate shall begin its terms some time after the Main-Senate, so that the new Over-Senators have time to complete the Over-Senate’s specialized education modules.

8/ Each Sluice-Head of the Main-Senate shall rank its membership using the same methods as the Centi-Nomes of the Sub-Senate. One Over-Senator shall be elected each Teneth for every 100 Main-Senators registered at each Sluice in each RVC. Portions less than 100 shall not count.

9/ All of the nation’s Senates shall change by 10% per teneth, and 100% per year. After a year, every single Senator will have cycled out of the office they were elected to. The only people who will remain in the Senate are the ones who were elected and elevated by their peers for a year of service in a higher Senate office.

A’15. WAR

1/ There shall be 4 categories of war action. The Military and Militia Sluice shall produce comprehensive rules for what is allowed under each category, and update these rules annually.

2/ In order to declare war, make war, or halt a war, the following majorities shall be required of our nation’s Over-Senate.

a/ To arm and mobilize, to protect the people of a foreign nation in a state of anarchy for up to 60 days, to order the assassination of monarchs, presidents, or 1-in-3-million oligarchs; to have voluntary inoculations of the people for germ warfare pathogens, a simple majority of the Over-Senate shall be required.

b/ To initiate a restrained war under a defined mandate; to initiate a sea blockade; to destroy an enemy nation’s communications, electrical and aircraft infrastructure; to assassinate 1-in-1-million oligarchs, a 60% overmajority of the Over-Senate shall be required.

c/ To assassinate monarchs or oligarchs and their appointed administrations without regard to collateral damage, a 2/3 overmajority of the Over-Senate shall be required.

d/ To initiate an unrestrained war, or war for survival; To use a neutron and/or nuclear first strike; or to practice
collective punishment of foreign groups, an 80% overmajority shall be required. All shall be aware that our military abilities are vastly greater when we remove our self-imposed restraints.
3/ The Foreign Sluice may impose and remove economic and trade sanctions with a 55% overmajority.
4/ The Military and Militia Sluice may order war equipment and war preparations with a simple majority.
5/ The Military and Militia Sluice shall review all war policy, war strategy, combat techniques, and weaponry in detail.
6/ Government may temporarily take over the management and ownership of any fictional citizen (FC) or labor unions when the defense of the people requires that fictional citizen to be used for arms manufacture or other purposes.
7/ When fellow freedom fighters and especially a fellow broad democracy falls victim to force because they are poorly armed, our nation shall arm that democracy with fast-rusting, single-shot sniper rifles and other defense-oriented small arms. If this is insufficient for the weaponry of the armed forces they are fighting, we may send more advanced weaponry and military advisors at a ratio of not to exceed 2% of the local forces.
8/ In addition to whatever temporary enemies the free nations of the world may have, the eternal enemy of our freedom has always been the parasitic land of no resources. This has been so since before our free and democratic progenitors the ancient Helens retaliated against the Persians in the Trojan War. The totally desperate land of no resources eternally jihads, struggles, or wars against us because our freedom undermines their ability to feed like a parasite on the outside world.
9/ Given that the main root cause of war, terrorism, and barbarian-style raiding has historically been the Arab house of war. We shall always ask if we are fighting the right people and not the front-man, or escape goat the Arab house of war has framed for us to blame.
10/ Given that the Arab empire struggles as a collective while intently pretending not to be a collective, the Senate may retaliate against any portion of the PU or Arab empire it elects will be most efficacious.
11/ If our nation comes under large-scale nuclear or biological attack, regardless of the ostensible cause, the Senate may also elect to retaliate against the Arabian Peninsula, and the rest of the Arabian empire, the PU.

A'16. ULTIMATE AUTHORITY OVER GOVERNMENT
1/ Except for the citizen militias of the various counties, organized by the counties as a check on the power of the national government, no aspect of government shall exist outside the authority and purview of the national Senate. This expressly includes the nation's military, internal security forces, intelligence gathering services, and all police forces.
2/ The national Senate shall not have authority over the militias. It may ask, but they don't have to go, and they may leave at any time.
3/ All courts shall be below the Senate, and no court shall ever countermand the Senate in any way, or compel the Senate to do anything at all.
4/ No person, group, jury, or government agency shall ever have the power to interpret, veto, modify, officialize, or inaugurate any Senate policy.

A'17. INTER-ELECTION PERIODS
1/ Our part-time Sub-Senators shall begin service on the appropriate teneth considering their Nome's number. Once we are out of the propagation period, this will not be less than 3 teneths after being elected. This inter-election period is so the new Senators will have time to pass the Sub-Senate's orientation and anti-corruption education program.
2/ Our full-time national Main-Senators shall begin service no less than 3 teneths after cycling out of the Sub-Senate. This is so they will have time to pass the Main-Senate's orientation and anti-corruption education program.
3/ Our full-time national Over-Senators shall begin service no less than 3 teneths after cycling out of the Main-Senate. This is so they will have time to pass the Over-Senate's orientation and anti-corruption education program.
4/ When our Over-Senators are elevated to the UM Main-Senate, they shall begin service no less than 3 teneths after cycling out of the national Over-Senate. Those entering the UM-Over-Senate shall begin their service immediately after their UM Main-Senate service is over.
5/ The preceding periods shall not necessarily apply during the shorter initial Senate propagation terms in the first 5-years of this constitution.
6/ In the beginning, new Senators will only have to complete a limited amount of orientation and anti-corruption courses. However, over time the amount of educational material will grow. The Over-Senate may increase the inter-election periods for our nation if it elects to do so with a 2/3 overmajority.

A'18. CRISIS AND EMERGENCY BODIES
1/ The Senate shall not be permitted to institute any narrow emergency bodies with broad or long-lasting powers. If any emergency bodies are constituted due to an emergency, they shall obey the following rules. Any violation of these rules shall be conclusively considered a coup attempt and all participants shall be subject to the death penalty (or less) with the national Sub-Senate serving as judge:
a/ No emergency bodies shall be above, or have any authority over the Over-Senate, the Main-Senate, or the Sub-Senate of this nation.
b/ No emergency bodies shall have a representation ratio narrower than 1-in-10,000 voters.
c/ All emergency body actions shall be irrevocably subject to veto by the Over-Senate.
A’19 RESTRICTIONS ON UNIVERSAL SUFFRAGE
1/ Wealth or lack of wealth shall never be a consideration in deciding who gets to lead our democracy. Even bankruptcy shall not disqualify people from holding office. 2/ We shall not have a democracy of either fools or foreigners. For this reason, we shall say that in order to vote in the nation’s elections, the voter must have graduated from high school in our nation, or passed the nation’s secondary school equivalency exam in the native language of our nation. 3/ If more than 25% of the new generation of native born English speaking citizens cannot pass secondary school, then secondary school shall be made easier. If less than 10% of the new generation cannot pass secondary school, then secondary school shall be made harder. All schooling and school testing must be in the national language of English and no provision shall be made for an inability to speak the national language. 4/ The following groups shall not have the right to vote: a/ Those in jail or prison and those previously convicted of a felony. b/ Those outside the nation or who have not heard their candidates speak. c/ Immigrant citizens and non-citizens. d/ Those receiving government dole of any sort, except government child support for women with a conforming number of children. e/ Those with active opiate, amphetamine, or cocaine licenses. f/ Those who consume 5 or more portions of alcohol a day on average. g/ Those who cannot graduate secondary school or pass the equivalency exam in the language of this land.

BILL OF RIGHTS AND RULES
The following listing of rights and rules of man and government shall constitute a 2nd integral half to this third American Constitution of 2021. The numbers above shall be called Article-1, Article-2, and so forth. The numbers below shall be called the Rule-1, Rule-2, and so forth. If greater precision is needed, the articles and rules of this Constitution may be referenced as A’88.6 or R’596.3.b, or R’251.1 when there is no subheading. These shall be said as American Constitution Article eight dot six, and Rule one hundred and sixteen dot three dot b, or Rule fifty-one dot one. The UM Constitution shall be referred to as UM constitutional law. To facilitate text search, part one of this Constitution is a listing of Articles abbreviated as A’###. Part two of this Constitution is a listing of rights and rules abbreviated as R’###. There is also an initial listing of laws abbreviated as L’###. The indexes are headed as “TABLE-OF-CONTENTS” with hyphens.

From this day forward, no constitution new or existing shall ever be considered valid without a similar listing of the rights and rules of men and the government they establish for themselves.
A — CITADEL RIGHTS

R’1. FREEDOM OF SPEECH AND PRESS

1/ The right to examine and communicate freely about our policies, our leaders, our group policies, and our world has always been the most important factor in helping to guarantee every other right. Therefore, freedom of speech and its main objective, knowledge of the truth shall be the first and foremost priority of our informed democracy.

2/ Government shall make no laws restricting free speech among human citizens, or in the press, or media, or laws which impinge upon information exchange. Government shall do nothing that hampers or discourages public discourse, and Government shall in fact be required to move in the opposite direction and encourage public discourse where practical.

3/ This right of human citizens to communicate with one another freely, safely and anonymously shall be the supreme right, the right above all other rights, the right that can never be infringed-upon to preserve any other right, public or private. Come terrible events as they may, we shall never compromise the right of our human citizens to discuss and figure-out what the truth is in safety, privacy, and anonymity if they wish.

4/ The rights of fictional citizens and foreigners shall be lower and less than human citizens in matters of free speech and participation in the public discussions of the people. Fictional citizens include: corporations, partnerships, labor unions, political parties, religions, charities, colleges and all other associations of men. Fictional citizens shall have the right to have, utter, and express whatever opinions they wish. However, their oversized money flows, and credibility shall not be directed by their managers to shape, influence, or drown-out the natural voice of our human citizens. No fictional citizen or foreigner shall expend money to sponsor, advertise, tout, broadcast, publish or promulgate messages that have anything to do with politics, the economy, the legal system, the business environment, the natural environment, energy policy, drug use, social norms, sexual norms, body aesthetics, consumerism, or reproductive norms.

5/ No fictional citizen or foreigner shall directly or indirectly lobby or participate in government decisions. No fictional citizen shall give money to lobbyists, political parties, charities, or other straw men doing these things.

6/ Fictional citizens and foreigners shall not have the right to monopolize, cartelize or dominate the free press. Government shall limit the size, reach, and output quantity of all individual media organizations in this nation so they are more human scale. This is to keep media organizations from gaining oversized cred and using it to lord over the people.

7/ Our nation calls itself isocratic in that all of its leaders at each level are supposed to have equal power. In our isocracy, no leader is supposed to rise above the other leaders as a prince or princeps in the minds of the people. For this reason, we shall intentionally allow a headwind for the mighty and say that no cases of slander, libel or defamation shall be allowed except those related to the off-limits topics discussed in this R’1.

8/ Government and the nation’s courts shall not punish any real human, in any way for the opinions, criticisms, or insults (but not the threats) they express about their own government, any foreign government, any fictional citizen, or any leader or rich person. In our nation, real humans shall have absolute and totally unlimited free speech in these matters. The only exception being that nobody is allowed to threaten violence, call for extra-judicial action, or talk about the family, coupling, sexual, dating, and medical matters of other people.

9/ Foreigners, and fictional citizens including especially political parties, may be forced to suffer such limitations on their freedom of speech, as the Senate finds beneficial, convenient and expeditious to elect.

10/ Government and the nation’s fictional citizens shall be required to call all men as equal, but the individual citizens of our nation shall not be required to do this. Our all-important, first-and-foremost right to free speech shall be considered more important by a wide measure. Therefore, individual citizens saying their own piece shall be free to say things that most people find to be totally sexist and racist. This is just like how they are free to campaign for communism, or fascism, or say that the world is flat, or that the great flood was from 40 days of rain and not a giant epochal-lyse of a tsunami.

11/ Our first and foremost right to free speech shall never be compromised on account of people’s personal feelings or their sense of personal, religious, or ethnic pride. These things shall be considered completely inconsequential in comparison to any erosion of our all-important, first-and-foremost right to free speech.

12/ Government shall not restrict hate speech from individual citizens, except when it threatens or calls-for violent extra-judicial violence. Human citizens shall have the total freedom to criticize, demean, degrade, insult, and say hateful and untrue things to and about one another. The people shall also have the absolute right to make ugly faces at one another. However, they shall not have the freedom to threaten, or to call-for extra-judicial violence. They shall also not have the right to touch in any way at all, or violate near personal space, or make threatening gestures, or threatening movements at one another.

13/ If this nation finds itself in a declared war with any nation, there shall be no prohibition on hate speech against the people of that nation. For the purposes of this paragraph, the war may also be an a declared war of terrorism.

14/ The government and economy of our nation exists for its flesh and blood citizens, not fictional citizens, not foreigners, and not immigrants. These shall all suffer restrictions on their right of free speech so that they don’t
drown-out, or shift the organic voice of the people in niche issues like immigration.

15/ Government may limit the voice of the wealthiest one per-mil with respect to paid and sponsored messages, so they can’t use their wealth to drown-out the organic voice of the people in our democracy.

16/ The right of free speech shall not apply to the family, coupling, sexual, dating, and medical records of the people and especially their leaders. These personal topics are off limits for all news outlets and all social media platforms unless there is a conviction. News people that report on allegations regarding personal topics may be stigmatized and charged with invasion of privacy for profit.

17/ Free speech does not include the right to ambush people, or follow people around recording them like paparazzi, private investigators, or journalists do. These may be charged with invasion of privacy for profit.

18/ The right to free speech shall not necessarily apply to paid advertising and sponsored messages, especially when these are misleading. Government shall have the right to fine those involved in the paid promotion of untrue, misleading, or inaccurate messages for political agenda or profit.

19/ Paid messages shall not be allowed to inculcate. Advertisers may only communicate once per year with each viewer.

20/ Freedom of speech rights shall not apply to media intended for minors under age 18. All commercial media intended for minors under age 18 shall be pre-approved by the Senate. All children's media must be in some way educational, and the most exciting must be the most educational.

21/ No Senator, active or retired shall ever be compelled to reveal his information sources, and all shall be duty-bound to protect the identity of their sources, when their sources request. Unelected journalists may be compelled by the nation’s courts to reveal their sources.

22/ Government shall not prevent, hinder or delay the public dissemination or viewing of any political, economic, scientific, or public safety messages through any medium, except in relation to a stated and credible defense or terrorism issue.

23/ Those who speak to a large audience and call for violence may be stigmatized as militants by the Sub-Senate.

24/ The Senate may deport non-citizens, and immigrant-citizens for what they say, and the beliefs they are espoused to.

25/ With a 55% overmajority, the Sub-Senate may strip any work of its copyright protection, or preface any work or message.

26/ Robots, automats and computer programs shall not have the right to free speech. Government shall carefully regulate when and how robots are allowed to initiate contact with humans. Robots and other machines shall not have the right to initiate contact with humans, or the right to speak loudly or to flash their lights or wave their appendages and call attention to themselves in public.

27/ When the people gather to hear their leaders speak, the right of free speech applies to the leaders who have drawn the crowd. It does not apply to hecklers, claqueurs, and counter-protesters. These are entirely in the wrong and may be charged with violating the all important free speech rights of a leader while he is speaking to the people gathered to hear him. Anyone who commits this free speech crime with intent or shared plan spend years working for the people.

28/ Political speakers shall not charge people coming to hear them speak. Also, political speakers shall have the inalienable right to eject anyone they want from their audience at will. If these people refuses to leave immediately, or they shout out anything at all afterwards, they can be charged with violating the all important free speech rights of a leader while he is speaking to the people.

29/ Unaccompanied candidate signs shall be prohibited on the ground that they are a way for money to influence elections. This includes yard signs, painted vehicles, murals, billboards.

30/ The right to make money on media is a secondary aspect of free speech. This secondary right should never detract in any way from the primary right of free speech, that of accessing information. Therefore, the right to make money on media does not include the right to remove a work from circulation for any reason. Also, work removed from circulation by the copyright owners generally voids the copyright.

31/ Censorship may be considered the felony of democide. Fictional citizens that engage in censorship may be closed down, or if they are a for-profit entity, then their shareholder equity may be cancelled either in part or in whole. The directors and even the censorship minions may also be imprisoned for engaging in censorship. Following employer orders shall be no excuse with censorship. We say this because we want our fictional citizens to stay far away from the line here with regard to censorship.

32/ Any action taken to punish people for expressing a political or group idea may be considered censorship and thus an act of democide. This includes doxing, going to a person’s home, yelling at them in the street, and spreading stories and rumors about them.

33/ All airports, train stations, bus stations, shopping mall common areas, office mall common areas, multi-restaurant common areas, public building common areas, private property open to the public, and school campuses for people who are generally over age 18 shall permit all free speech that is non-commercial and non-religious. It shall be the crime of censorship when the management or guards of these public forum locations interfere with the free exchange of information.
R2. FREEDOM OF ASSEMBLY
1/ The freedom to assemble is the second citadel right, ahead of all other rights except the right to free speech.
2/ The right of the people to assemble, protest, muster and re-muster shall not be denied or substantially re-directed by government. The Senate shall be required to obey a 66% over-majority of voters mustered under a new constitution.
3/ Government shall not prevent or hinder the people from assembling in a more-or-less peaceful way to hear speakers, discuss issues, organize, protest, or muster up into a new broad democracy.
4/ Large assemblies of the people shall be held in parks, squares and minor streets, and not in places intended to obstruct the functioning of society, such as airports, transit hubs, arterial streets, trials, hearings, or market centers. Protesters that intentionally obstruct the functioning of society may be jailed and fined. If an assembly overflows from an out-of-the-way location and obstructs the functioning of the community, the next assembly of that group must be held in another location where this will not occur. Except for reasons of public safety and obstruction of the functioning of society, and the moving-away of counter protests, government shall have no say over where the people protest.
5/ The right to assemble being so fundamental and vitally important to the cause of freedom, government shall never disband assemblies of the people unless on that very day a significant percentage of the assembly turns to bloodshed, or arson, or the threat of this
6/ Peaceful protesters shall consider it their obligation to freedom to oust the violent from their protests by finger-pointing and opening to allow law enforcement in to arrest the people so pointed out. Peaceful protesters shall also consider it their duty to record all violent acts, and to stand witness against the perpetrators in court.
7/ Everyone shall keep in mind how the opponents of protesters do sometimes send people to join and infiltrate protest and cause violence in the protest's name, frequently as an excuse for disbanding or besmirching the protest. When people who are, or recently were, strongly affiliated with the opposite side infiltrate a protest and cause violence in the name of the protest, this shall be considered democide.
8/ Security forces at demonstrations exist primarily to protect the people from injury to life and limb. Non-fire damage to property really doesn't really matter in comparison.
9/ Police may wear helmets and transparent face shields during protests, however, no police or protesters shall mask their faces during protests or wear a uniform that makes one protester hard to distinguish from another. All police at all protests must wear their number front and back in 4-cm characters.
10/ During protests, it shall be a principal obligation of police to detain those ousted by the mass of protestors for acting violently, or threatening violence.
11/ It shall be recognized by all, that maintaining order during protests is the most critically important role of police officers in a democracy, for this is where their actions also have a political dimension.
12/ Those violating the rights of a peaceful political protest, especially those injuring or intimidating peaceful protestors may be charged with democide, even if lone individuals, even if under order by a superior officer, even if acting on their own, even if acting in great numbers, and even if this new Constitution was not yet in force. And again, those on the opposing side, who infiltrate a protest and cause violence in the name of a protest to smear the protest may also be charged with democide.
13/ Our new one-size-fits-all prototype democracy for the entire world must heed how so many armies have brought so many murderous dictators to power from Julius the Seizer to Adolph Hitler with thousands of others in between. Our democracy and its warriors shall not take the intimidating power of men-in-arms lightly, and for this reason, the military shall be strictly prohibited from having anything to do with political matters, especially political meetings and protests of the people. Only police and civilian militia may secure political assemblies and protests of the people. All military men shall be duty-bound to obey all commands to attend such a meeting, if it ever is ordered, just as they are duty bound to disobey a command to fire on their own people. Any military commanders ordering their forces to act upon, secure, or intimidate political assemblies and protests of their people may be charged with democide.
14/ At political protests, to assure that everyone is on their best behavior, there shall be triple penalties for unprovoked crimes, and double penalties for over-reactions.
15/ There shall be no open flames, lighters, matches, or smoking at protests. No fire, and no fire-starters or accelerants.
16/ Government may only disband assemblies of the people for activities that occur on that day, and then the assembly shall only be disbanded for the remainder of that day.
17/ To reduce protest violence we shall say that the right to stage a group protest includes the right to protest in peace away from counter protesters. There shall be no to counter-protests in the same district or in a directly contiguous district.
18/ There shall be no limitations or penalty for the words spoken or disseminated at an assembly of the people, except that it shall be a crime to call for domestic violence, or to attempt to re-direct domestic violence that is already occurring.
19/ Only citizens able to vote may attend, participate in, organize, or fund political assemblies and political organizations. It shall be considered voter-fraud when non-citizens, and provisional citizens try to participate in our democracy either by their physical presence at a protest, or by their aid or donations of money. However,
visitors and immigrants shall be generally free to write about public policy, so long as they don’t call for violence or revolution, and they disclose that they are non-citizens at the start and end of their work. Also, there shall be no right to hold protests in any other language but English in our land. Even citizens shall not be free to conduct protests in a foreign language.

20/ The rights of free assembly and free speech shall not apply to those who seek to dissolve democracy or do away with our freedoms. Those who advocate dictatorship, totalitarian government, monarchy, constitutional monarchy, constitutional presidency, theocracy, sharia law, totalitarian government disguised as religion, Nazism, fascism, oligarchy, the killing of other races, lynching, or the short-circuiting of due process shall have no right to assemble or protest.

21/ All news reporting of protests shall include drone images that show the true scale of the entire protest from above. This shall accurately estimate the number of protesters. News reporting must also show the faces of the people protesting so people can judge if the protesters character.

22/ The right to assemble is a political right that shall not be diminished-by, or confused-with, riotous celebration, or protest of events that are not political, or economic. This Constitution does not guarantee the right to assemble in great numbers to celebrate or protest matters of sport.

23/ Offering or accepting money, or anything of value, including beverages, food, lodgings, transportation and sexual favors to engage in a political protest shall be considered the felony of vote buying. Those purchasing multiple protesters, along with their conspirators shall be penalized for each protestor purchased, and after just a few protestors may end up spending the rest of their lives in prison.

24/ When visitors and immigrants unable to vote in our elections attempt to participate in our political process, or participate in protests, or picket, or speak in person to an assembled mass of people in our land, it shall be considered the felony of voter fraud. This item 24 shall not apply to anything said overseas, or anything in writing, or those invited or allowed by the Senate to speak in our nation. This item 24 shall however apply to non-voters who go around talking to dozens of small groups campaigning for a cause in our nation.

25/ Threatening people with violence for protesting or expressing their political views shall be a felony with up to 10-years in prison per count.

26/ When a fictional citizen or group schedules a distinguished person as a live public speaker for a certain period of time, the speaker shall have the absolute right to say whatever he wants for that period of time. The producers shall not be allowed to turn off the public speaker’s microphone, or interrupt him, or remove his words from the video record of the live performance, or in any way seek to censor what the speaker says. Those who engage in this sort of censorship shall be subject to prosecution for the crime of illegal censorship.

R'3. THE RIGHT TO BEAR ARMS

1/ A strong well-armed people being necessary to the long-term security of a free and democratic nation, the right of the people to keep and bear arms shall not be infringed except as described in this Rule R’3.

2/ Our nation shall always look at the big-picture, and the long-term historical picture on firearm ownership. It shall realize that limited amount of death caused annually by community gun violence is several thousands of times smaller than the life-savings that firearms bring in cases of war, invasion, seizure of power, warlordism, mafia violence, crime gangs, and general crime.

3/ Only citizens eligible to vote in this nation’s elections shall be allowed to own or hold firearms. It shall be a felony for non-citizens to hold firearms in our nation.

4/ Those previously convicted of a felony shall not have the right to own or hold firearms unless they are temporarily granted the right to hold arms by the Senate due to a national emergency.

5/ Those who have not completed secondary school in our nation, or passed the secondary school equivalency exam in our nation and in its national language of English, shall not own or hold firearms. The Senate may however temporarily grant the right to hold arms in a national emergency.

6/ It shall be a felony to possess a firearm that is not registered, or does not match the ballistics registry.

7/ Each county government shall keep a list of residents disqualified from owning or holding a firearm for the reasons listed below. These lists and identities from the various counties shall be aggregated by the national government. People on the eligible list do not need to wait to buy a firearm. People on the disqualified list cannot buy or hold firearms. People shall be disqualified from buying arms if any of the following apply:

a/ They have a felony conviction.

b/ They are a foreign person ineligible to vote.

c/ They have not completed secondary school in our country or completed the secondary school equivalency test in English, in our country.

d/ They have ever engaged in a failed suicide attempt.

e/ They have been sent by the court for mental health evaluation.

f/ They are homeless.

g/ They currently have an alcohol license that allows for more than 1 drink per 12kg of body weight per day portions a day.

h/ They have had a methamphetamine or cocaine license in the past 7 years.

i/ They currently have a license for opiates, or hallucinogenic mafia drugs.

8/ There shall be two classes of projectile weapon, civilian and militia. Civilian weapons shall not explode, except to fire projectiles through a barrel. Civilian weapons shall
also not injure with shrapnel, or use tumbling or explosive projectiles, or have a barrel larger than 2-cm in diameter.

9/ Some civilian weapons should be high powered and have armor piercing bullets. It is important that the people have adequate arms and means to defend against oppressors using armor of various sorts. However, the ability to rapidly fire large numbers of unaimed bullets in some general direction should be considered too sloppy for civilian weapons used in a community. We shall instead require that all shots from civilian weapons be aimed. And we shall accomplish this by limiting the fire rate to one shot per 1.5 seconds. In other words, the right to bear arms shall be limited to civilian weapons that fire no faster than the time it takes to aim each shot.

10/ Civilian weapons must be designed so they are hard to modify and boost the fire rate. The trafficking in machine-gun conversion hacks shall be considered the equivalent of trafficking in machine guns.

11/ Except when a county Senate call the people to arms, the possession of militia or military weapons off base, or outside a Centi-Nome armory, or while not on militia, military, or police duty shall be a felony.

12/ It shall be a capital offense to hold militia or military weapons such as a machine gun in the commission of a violent street crime such as a robbery or gang gun battle.

13/ Except for police weapons, all militia weapons shall be stored in Centi-Nome armories. Militia weapons shall not leave the armory and range except for training purposes, or in a call-to-arms by the county Senate. Such a call-to-arms shall require a simple majority vote of the county Main-Senate.

14/ Government shall not restrict the right to bear loaded civilian firearms in one’s home, or business, except that people with irresponsible or young dependents must lock their firearms up.

15/ Government shall not restrict the transportation of up to 6 unloaded civilian firearms per person with matching ammunition, provided both are in separate locked metal boxes. Bullets loaded in any portion of a firearm, including the ammunition clips shall be considered loaded in the firearm for the purposes of this paragraph.

16/ Each county shall follow one of 4 standard rule sets for civilian firearm carry in public. Some counties may elect to require Centi-nome approval of carry permits based on police records and neighborhood knowledge.

a/ Right to carry all permitted fire rates.

b/ Right to carry slow-firing rifles and long barrel revolvers.

c/ No right to carry with many exemptions.

d/ No right to carry with few exemptions.

17/ All counties must have more relaxed rules for carrying non-automatic, slow-fire community defense firearms such as long barrel revolvers and bolt-action rifles.

18/ As a matter of national defense, all importation of all explosives, ammunition, firearms, and weapon systems, and their components shall be subject to a 80% duty on their final sale value. The importation and unlicensed use of fireworks shall be prohibited.

19/ Spring-opening, and flip-opening knives being more of a defensive weapon, government shall not prohibit them except where similar length fixed-blade and folding knives are also prohibited.

20/ Imitation and toy firearms, that look even vaguely realistic shall not be sold or possessed in this nation.

21/ Those with a firearm, or a realistic simulation, in hand while attempting a robbery, kidnapping, battery, or murder may be shot in the back, or anywhere else, and without warning. When bystanders shoot fire-arm in-hand criminal assailants under these conditions, it shall be considered a form of civic self-defense and the person taking action shall be considered courageous and doing their civic police duty.

22/ Where the people rise up and kill a criminal gang oppressing their community with armed force, the courts shall generally dismiss the case on grounds of community self-defense. The courts shall also be free to give new identities to those brave men who did the right thing, in spite of the risk.

23/ No weapon manufacturer shall ever be held in any way responsible, either criminally or financially for the people harmed by the legal weapons they manufacture. To do otherwise is to shut down our nation’s defense industry and our nation’s ability to defend itself.

24/ It shall be a felony to buy firearms for others. Straw-man gun buyers, and illegal arms merchants may be considered co-conspirators in the crimes committed by the guns they provide.

25/ All local police departments and Centi-Nome armories shall offer firearm lockers free of charge to their community. These weapons must always be returned immediately upon request unless the owner is clearly intoxicated or fighting mad.

26/ There shall be no tax of any sort on domestically made ammunition. Ammunition shall generally not contain toxins except those commonly found in lead and depleted uranium bullets and gunpowder. Tumbling bullets shall be prohibited in civilian arms because of how they ricochet and harm more bystanders.

27/ Ammunition used in carry weapons must have the carry permit holder’s license number stamped on the bullets and shells. In some jurisdictions they may also be required to have nano markers in the gunpowder.

28/ All foreign made firearms and ammunition shall be subject to a protective tariff of at least 25%. With regard to domestically made firearms and ammunition, Government shall be prohibited from requiring any form of tax or payment for buying or owning a firearm. Government shall also be prohibited from requiring any payment for obtaining or maintaining any type of firearm license.

R4/4. NO TOLERANCE OF TYRANNY

1/ Tyranny is like a pathogen, always evolving new disguises, so it can go unrecognized by the immune
systems and olfactory systems of its victims.  
2/ Sometimes tyranny cloaks itself as monarchy, or communism, or fascism, or some generals who have seized power. Sometimes it is elected people who find some excuse to never leave office. Sometimes it is a broad oligarchy or a narrow democracy of corrupt oligarchs. Sometimes tyranny uses other disguises. Tyranny uses whatever works.  
3/ Tyranny is currently playing dead in England, the Netherlands, Denmark, and Japan among other places. Just as we stand opposed to all democracy in name alone, we shall also stand opposed to tyranny and monarchy in name alone.  
4/ This nation considers all monarchs, presidents, chancellors, czars, kings, governors, prime ministers, theocrats, and oligarchs, elected or not, hereditary or not, sovereign or powerless, and in any part of the world as dangerous, or potentially dangerous tyrants that may yet start another war and kill millions of innocents. This nation shall regard all such tyrants and their administration in any part of the world, as the enemies of freedom and free men everywhere.  
5/ This nation is the avowed enemy of tyranny, fascism, monarchy, oligarchy, theocracy, and all other forms of narrow, or easy to corrupt government. It shall be a stated objective of this nation to struggle against, and bring about an end to, all these corrupt forms of government on earth.  
6/ To make democracy, freedom, and rule of law into something fierce and frightening to the tyrants of the world, the Senate shall have the power to declare men as odious rex. Thereupon, all the people of our nation shall be duty-bound to kill these people when they can get away with it. However the term odious rex shall only apply to tyrants, kings, monarchs, presidents, chancellors, czars, governors, prime ministers, and oligarchs, elected or not, hereditary or not, sovereign or figureheads, and ruling over any nation on earth.  
7/ At some point, the Senate shall tighten our nation’s definition of tyranny to include democracies more leveraged than 1-in-1-million. Later, the standard for tyranny shall be tightened to democracies more leveraged than 1-in 100,000.  
8/ Everyone in our nation shall be required to jihad and do what they can in our struggle against tyranny, Ishtar, Arab parasitism, and the enemies of freedom. We Americans are 300 million from every race on earth. We are the ultimate infiltrators, and our people will come for all the world’s tyrants and monarchs wherever they are. These are advised to resign and confess immediately. These are all hereby put on notice that the free people of the world will come for you and your administration unless you resign and confess all.  
9/ The Senate shall reward those freedom lovers who take the shot and kill tyrants for the cause of democracy and freedom. These agents of freedom, and their families shall be given new identities and a debt-free condo, and up to 51-year's wages. They shall also be given the option of living on Kauai, America’s witness protection, and extreme public service retirement island. If they a big target, and genuinely need protection, they may also live on the island Puuwai, which will not allow any visitors.  
10/ We shall drive worldwide change with regard to monarchy the same way California foolishly drove worldwide change with regard to vehicle emissions. We shall uphold very high standards for political purity and eliminate all forms of monarchic and oligarchic filth.  
11/ One of the greatest strengths of broad democracy stems from how there is less reliance on leaders, and how monarchies and oligarchies are many thousands of times more vulnerable to assassination than broad democracies. Thus we recognize that our democracy will prevail in a war of leadership assassination, and with much less carnage than in military war. Thus assassination shall be regarded as one of the easiest and most direct ways for democracy to end tyranny, front-man-rule, and parasitism, and to greatly reduce war.  
12/ The extermination of all monarchs and oligarchs on earth shall be the #1, head and shoulders strategic, military and foreign policy objective of the land of the free.  
13/ Assassination of leaders shall no longer be thought the shameful realm of the treacherous, but one of the greatest advantages of democracy.  
14/ Part of the American way is to work to make the entire world free of monarchs, and oligarchs. We shall do this by making everyone in the world afraid to be a monarch or oligarch or one of their helpers.  
15/ Military objective #1 for our democracy is to kill all the world's monarchs and oligarchs and the men they front for, and then to kill their successors.  
16/ Everyone’s primary duty to the cause of freedom and peace on earth include:  
a/ Killing tyrants and front-man-rulers when they can.  
b/ Treating tyrant killers has heroes of liberty.  
c/ Helping tyrant killers to escape and hide.  
d/ Offering tyrant killers and their families new lives and generous rewards.  
17/ Our nation shall go out of its way to help others struggling to be free and democratic. Our nation stands ready to arm, aid, and advise emergent democracies so they may liberate themselves from those who rule over them by threat of arms.  
18/ No public property, road, district, facility, or holiday in the land of the free shall contain the malignant and evil name of king, caesar, czar, emperor, lord, majesty, imperial, president, or any other name related to monarchy or dictatorship.  
19/ No foreign leader shall be addressed by anyone serving in our government with any royal title or the words majesty, excellency, or highness, or similar boot-licking words. Kings, Queens, princes, and princesses shall not be allowed to enter or leave our nation.  
20/ No communication from our Senate to another nation shall be addressed to any individual but only to the
R5. CITADEL RIGHTS
Democratic nations must have the right to:
1/ Safely say, hear, print, and see so they can make informed decisions.
2/ Assemble, organize and if necessary re-institute their government.
3/ Bear arms, and defend themselves against criminals, foreign invaders, and those in their own government who might seize power by threat of arms.
4/ If a democracy lacks any one of the three things above, the democracy will be doomed to failure. And if democracies do not help the oppressed to end their tyranny, then the future of democracy on Earth itself may eventually be doomed to failure. Therefore, these first 4 rights shall be considered primary rights or citadel rights, rights that lie at the core of this constitution. These rights can never be infringed upon to preserve any other right, public or private. Come terrible events as they may, we shall never compromise these citadel rights in any way. These citadel rights shall not be altered or amended without instituting an entirely new constitution.

B — OTHER CORE RIGHTS

R6. THE RIGHT TO NEWORK ANONYMITY
1/ As government is required to provide network access for free and without login, there is no need to have anyone's identity information, and none shall be collected.
2/ The group mind will get more ideas, more crazy ideas, more good ideas, more crime tips, if people can say things anonymously and without fear.
3/ If we do a cost/benefit table for totally-tracked vs. totally-untracked internet, we will find that all the costs are hugely important free-speech or intelligence of the group mind sorts of things, and all the benefits can be gotten around by determined bad guys.
4/ Interface device anonymity is one of the most important aspects of free speech in a modern world with a searchable internet. Government must allow, support and help preserve anonymity in internet access and internet interface devices. Government shall make no law requiring verification of identity to access the internet. Government shall also protect the people from industry practices that unnecessarily require verification of identity to access internet services.
5/ It will be our custom that when people get new interface devices, they are supposed to change their passwords, and then load the drive with some layers of drive-pollution, tape over the cameras, and then hand their old devices off to a random stranger. Then people are supposed to take these and pass them around from stranger to stranger, sneaker-net style. Some people will use them for a while to make sensitive searches. Nobody should pay any attention to who they got any device from, because they are not supposed to remember anything. Also, these used devices may already contain sneaker-net postings.

R7. ELECTRONICS
1/ The Senate shall ensure that computers, computer analyzed data, and the computerized expansion of our minds do not aid tyranny, or sabotage our ability to defend our freedoms.
2/ No identity information shall be required to buy or activate communication equipment or connect to any telephone system or network.
3/ The people shall have the right to swap communication devices, and to go without any or all communication devices whenever they like.
4/ Given the primordial nature of anonymous free speech, there shall never be any penalty when the people let strangers use their communication devices, or when the people repeat an apparently truthful meme.
5/ All personal communication nexus devices shall have user removable batteries and permit data copying directly to a card. Also, the standardized data module shall be easily swapped out from the non-data module, and no tool shall be required to do this. No user data shall remain on the device after the data module is removed.
6/ The power to the camera, microphone and wireless data transmission equipment in all communication devices, recording devices, and vehicles shall have a mechanical switch.
7/ All personal communication devices must provide a means of covering their cameras.
8/ Neither government nor any other group shall track and log the exact location or movements of the people either in the real or virtual world. This shall not apply to the monitoring of non-citizens.
9/ Except for people who have been justly imprisoned, interred, are arrested, or are awaiting trial for a felony, no citizen shall be compelled to use any electronic monitoring device.
10/ Employers may require electronic monitoring devices and head-cams at work, but no employer may require off-duty electronic monitoring.
11/ Nobody shall ever be required to wear remote control or robotic death or pain devices for any reason. However, remote control taser cuffs shall be used when convicts are being transported, and when those accused of violent crimes are being tried.
12/ The Senate shall assure that our hardware and software are not spying for our enemies, or offering an opportunity for sabotage. This shall be considered a vital aspect of both national defense and our first and foremost right to safe anonymous free speech. The rights of technology manufacturers shall be secondary to this. The
Senate may compel any manufacturer of hardware or to share accurate and concise design information with it. The Senate shall require that all software widely distributed in this nation, or used in strategic areas, be given to the Senate in un-compiled form for inspection. 13/ All computer operating systems and internet browsers shall be open source and available in un-compiled versions approved by the Senate. 14/ No software application franchise shall live for more than 17 years. 15/ Except for media stigmatized by the Senate, media streaming shall be prohibited due to anonymity and free speech issues. All media viewers must cache 100% of data and make this data available as easily copy files in a folder that is shared by the main application file. 16/ Government shall discourage and tax centrally delivered computing and software where possible due to the strategic and defense vulnerability that such systems create, as well as the way these systems makes our intelligentsia more vulnerable to genocidal purges. All centrally delivered computing and software income shall pay a special income tax if it can possibly be used to determine who to kill in the next purge of the nation's intelligentsia. 17/ Government shall not help guarantee the confidentiality or intellectual property rights of any data service that is considered unnecessarily delivered in a centralized manner. 18/ To help hide our political leaders, it shall be everyone's civic responsibility to: a/ Download a great deal of political, economic, and historical media. b/ Buy communication equipment for strangers when asked. c/ Avoid using shared and cloud data storage for their personal data, as this facilitates the purging of our smartest in the next Wahhabi storm. 19/ All electronic communication access providers shall be required to treat all content equally. None shall be allowed to favor or discriminate against, or throttle other providers, or provide any of their own content, or be affiliated with content providers, or block websites, or filter content. The Senate shall impose standards requiring that all standard communication platforms work on all networks. 20/ Internet and telephony services shall not be run by the public to maximize revenue, but to cause as many people as possible to communicate virtually, rather than going on the roads and using real-world infrastructure. Thus they will cost society one to two orders of magnitude less to accommodate. 21/ All electronic devices and software shall generally be required to connect, and use the same formats and standards. Those manufacturers who are judged by the Senate as intentionally creating a fiefdom through a pattern of non-cooperation may be considered environmental polluters and fined as environmental polluters by the senate. The Senate shall however not penalize those whose non-connection is due to genuine innovation, or reason. 22/ Video surveillance shall be widely tolerated in many areas of many communities. However, audio surveillance and eavesdropping shall not be much tolerated by government whosoever is doing the eavesdropping. 23/ The people shall always be free to leave electronic surveillance zones and to communicate without surveillance.

R'8 NON-DEMOCRATIC NEWS MEDIA
1/ The right of free press shall not include the right to stalk people, or to go uninvited to their home or workplace, or to follow them around recording them as they go around in their town. 2/ Where people as subjects of a journalist's story don't stop and engage the camera, there shall be no right to broadcast their images. Where people over age 16 voluntarily turn and speak to a camera there shall be implied consent to broadcast. 3/ It shall be considered fraud when interviewers broadcast an interview where: a/ The person being interviewed walked away from, or out of the interview, even if they signed a release. b/ The person being interviewed does not answer the question asked. c/ The actual interview questions differ from questions presented to the person in writing as a condition of granting an interview. If there are follow up question, they all cameras must be turned off while they are asked. 4/ The right of the free press shall not include the right to report the identity of people merely accused of crimes. The presumption of innocence and the right to due process shall be considered higher and more important than knowing who is accused but not convicted. 5/ Genuine accidental recordings of the people going about in public, and accidental recordings of crimes may be freely distributed without permission from victim, criminal or bystanders. The term accidental recordings shall also include bystanders who turn their cameras to film a commotion. 6/ There shall be total free press with respect to the printed and spoken word, but the right of free press shall not apply to using the images of people without their permission, particularly when they are accused but not convicted of wrongdoing. 7/ Regarding the people and especially their leaders, no information reporting service shall report on any of the following without the prior written permission of the person involved. a/ Legal sexual behavior. b/ Romantic and social involvements. c/ Marital infidelity. d/ The wrongdoings or comments of their children, partners, parents when it is only news because the person is related to a leader.
e/ Misdemeanors and vehicle convictions.
f/ Mere accusations, or indictments by government.
8/ A democracy mostly informed by a few giant news sources is a democracy that is maximized for the filtering of information and corruption of public opinion. We shall go in the opposite direction and impose limits on the scale of our news organizations in the hopes it will cause a faster breeding ecosystem of smaller news outlets.
9/ No fictional citizen, or human citizen shall own or manage more than one news source, or employ directly or indirectly more than 30 news people, including part-time, contractors, stringers, and support people.
10/ Non-Senate news sources shall not form networks or collaborate with each other, but must remain independent in every practical way.
11/ If the Sub-Senate elects a violation of the scale rules for news sources, then the organization may be broken up or shut down. The staff might also be stigmatized by the Senate.
12/ Only human native-citizens may own parts of our nation's news organizations. Those who are not native-citizens shall not work in our nation's news organizations.
13/ News organizations and news writers shall not take money or benefits from sponsors, advertisers, or those they have covered. This sort of activity shall be considered bribery. The Senate shall produce detailed rules on what is allowed and what is not. The Senate may also use sting operations on news reporters so that they are all afraid to communicate about bribes.
14/ All advertising and sponsorship payments of news reporting channels, including gifts to news people must be via the government's payment system, or the transfer may be considered bribery. This includes foreign gifts.
15/ The Senate shall have a generous budget for Ubiq rewards to journalists. This is to undermine the power of corrupting money in journalism.
16/ Everyone working as a journalists must keep an open public ledger for their income and its sources (including all gifts) for 12-years after they stop working in journalism. Journalism is one of the areas where lifestyle auditing will be focused.
17/ Individual people are free to have news websites, email newsletters, and video channels as they want. It is just the sponsored news outlets that must comply with the special rules.
18/ All news websites with advertisers that offer news video must link to that video from a page with a full and easy to copy transcription.
19/ News videos shall not be preceded by video ads.
20/ The people are called upon to do something that is hard for government to enforce. They should avoid news venues that distract with frivolous subjects related to sports, music, fiction, arts, fashion, nudity, animals, travel, individual crimes, vehicle accidents, and normal weather conditions among other less important things. The people should also avoid new venues that are enthralled by Mideast events and influences. The people should realize that greater Arabia has about 1.5% of the world's population, but it has occupied most of its news for decades.
21/ Every person working for, or contributing to a news organization must put a new unmodified photo without make up, hair back, on the news organization's website every year.
22/ Except in emergency, the nation's airways shall no longer be used to broadcast the news, or matters of politics, or the economy. There are too few stations and this has resulted in a corrupt oligarchy. All existing television news broadcasters shall cease operations within 30-days including broadcasts via cable-TV, the internet, and other pathways. All current news people shall be barred from presenting the news for life.
23/ Printed scripts held by a news presenter may be read on the air, but tele-prompters shall be prohibited in the making of the news.
24/ We are not supposed to know how the news media stands on the various issues, for this is what bias looks like.
25/ When people can't attack a policy, they frequently attack the men leading the policy change. This is called ad hominem attack an at-the-man attack. Where the people think they are seeing ad hominem attacks, they should generally go in the opposite direction.
R'9. ELECTION FRAUD AND FREE SPEECH
1/ The censorship or corruption of any ostensible venue for free speech shall be regarded as the felony of election fraud. This shall be so, regardless of how trivial the matters under discussion are, or how minor the censorship. However, electronic venues that offer a parallel and easily linked uncensored version, may also have a censored version if they wish, and suffer no penalty.
2/ It shall be the felony of election fraud to do the following on any ostensibly uncensored venue for free speech:
a/ To remove, edit, censor or alter posts.
b/ To corrupt the percentage vote, or order that posts were made.
c/ To sell ratings, or to distort ratings for money.
d/ To make, sell, or modify posts for money or valuable consideration.
e/ To pay or be paid for altering posts.
f/ To comment on yourself, your kin or your kith by pretending to be an unrelated third party.
g/ To post using multiple identities so as to stuff the ballot box.
h/ To pretend to be a party that you are not.
i/ To conspire with others about postings or comments.
j/ To use claque or shills, or engage in conspiratorial practices that over-shout or drown-out other people's voices.
k/ To heckle or disrupt people taking their turn speaking, or people who others have gathered to hear speak.
l/ To use robots or computers to make comments that appear to be from flesh and blood people.
m/ Quiet picketing, sign holding, and distribution of media shall always be allowed, as shall direct person to person non-shouting communication among the audience.
3/ It shall be the felony of election fraud to do the following on any ostensibly uncensored venue democratic decision making:
a/ To sell your vote.
b/ To corrupt the vote count.
c/ To cancel votes.
d/ To knowingly offer a corrupt rating or voting process.
e/ To have a corrupt counting process.
f/ To restrict membership.
g/ To vote for your employers or their assets.
h/ To use computers or robots to make comments that appear to be made by humans.
4/ At events where people gather to hear a speaker, and members of the audience intentionally interrupt the speaker, the speaker shall have the right to expel the interrupters from the event by saying the words, “I hereby expel you from this event”, and describing the expelled people clearly. Thereupon, the expelled people must immediately stop talking and making noise, and immediately and quietly walk out of the venue. If the expelled people fail to immediately stop making noise and leave, they shall be guilty of the crime of contempt of free speech, a crime with a penalty of 500 hours of community service. For those who have to be escorted out of the venue, the penalty shall be 2,000 hours of community service. For those who have to be dragged or carried out of the venue the penalty shall be 4,000 hours of community service.

R10. ADS AND PROPAGANDA
1/ It shall be government's stated policy to discourage, tax and carefully regulate advertising because it is fundamentally a paying of money to corrupt the judgements of the people.
2/ The proper regulation and reductive taxation of paid messages shall be considered something that helps freedom of the press by reducing the power of money to corrupt the truth.
3/ Policies that reduce the power of money in our media shall be generally considered a good thing. Policies that increase the power of money in our media shall be generally considered a bad thing.
4/ The giant advertising flows of our fictional citizens shall be considered one of the most problematic aspects of paid advertising, because these are easily hijacked and redirected.
5/ The following industries with their giant cash flows, and with society not needing their advertising, shall not be allowed to purchase or barter for ads, publicity, or sponsorships including direct messages requiring postage: Raw materials, commodities, minerals, petroleum, fuel, coal, gas, fuels, electricity, water, telecom, cable TV, ISP, insurance, banking, lending, transaction services, investing, vehicle manufacturers, car renters, hotels, cleaning products, grocers, chain restaurants, airlines, trucking companies, transportation providers, shippers, spectator sports, gambling facilities, lotteries, beverages, perfumes, cosmetics, Mafia drugs, non-novel therapeutic drugs, tobacco products, tobacco-like products, smoking products, non-prescription inhalants, comestibles with stimulant drugs or that are more than 25% sugars, schools, healthcare providers, lawyers, legal service providers, accountants, all types of professionals, charities, and especially products subject to luxury taxation.
6/ All forms of inbound marketing and marketing on a company’s main website shall be allowed for every industry. However, the industries in item 5 directly above shall not be allowed to spend money or offer benefits to drive people to their company.
7/ No advertising or paid message shall include any music, rhyme, extraneous images, or information not about the product or service. Advertising may not display the skin between the mid thigh and the armpits.
8/ Fictional citizens (except religions) shall be prohibited from making untrue, deceptive, or unproven claims.
9/ All fictional citizens shall be prohibited from hiding their identity, or having more than one identity for all their subsidiaries and branches. All fictional citizens must prominently display their single identity on all products and services offered to the market by all their subsidiaries.
10/ Government shall not purchase private advertising of any kind, nor shall it give any tax reduction or payment to those who advertise or tout their products.
11/ No government property, including all transit, highways, streets, theaters, stadiums, parks, land and buildings, as well as government-run media channels shall have any private advertising or sponsorships of any sort. Signs on public property and transportation infrastructure may only be used for public service announcements and public education.
12/ Government shall be prohibited from squandering memetic overhead by naming any public property, or any government institution, or any government practice, or any day after any man or fictional citizen. All prior grants are hereby void.

R11. SPAM, POSTAGE AND ADVERTISING TAX
1/ All paid and unsolicited messages shall be taxed based on audience size, or number of recipients and method of dispersal. This shall include all billboards, signs, ads in print, video ads, audio ads, web ads, product placement ads in media, emails, tree-mails, voice telephone, video calls, door-to-door sales, door hangers, material left on the door mat or windshield, in-person touting in population centers, and other similar means of contact. The most intrusive methods shall pay the highest per viewer postage or taxes. The forgoing shall however, not
apply to messages delivered by volunteers for no compensation.
2/ Back and forth communication and even most returned communication shall not be subject to postage, a request for removal from the mailing list shall not however be considered correspondence.
2/ All billboards shall pay tax equal to at least half a second's wages per passing potential viewer per day, per 60 square meters of sign area.
3/ Dynamic billboards shall pay 5 times the rate of stationary ones. Dynamic billboards with audio shall pay 25 times the rate of stationary quiet signs.
4/ Tax shall be due on billboards and signs, even if they are blank.
5/ 1% of each building's floor area may be used for wall-mounted or wall painted signage and no billboard tax shall be due for this.
6/ Trucks with over 5 square meters of signage shall pay dynamic billboard tax. Automobiles with over 2 square meters of signage shall pay dynamic billboard tax.
7/ The sender of each email delivered in this nation shall pay email-spam tax of at least 1-minute's wages if the recipient marks the email as spam. The email-spam tax bill shall be waived if the volume does not exceed the Senate's reasonable personal threshold amount per teneth per sender. or the email is from a Nome candidate
8/ All audio-phone and video-phone calls shall pay phone-spam tax of at least 3 minute's wages per call when the recipient marks the call as spam. The phone-spam tax bill shall be waived if it does not exceed the Senate's threshold amount per teneth per sender.
9/ Computer systems and robots shall not have the right of free speech, and they shall not be allowed to use the voice or video telephone system for outbound marketing or advertising purposes. It may be considered a crime akin to the unwarranted pulling of a fire alarm when people program computer systems or robots to use the voice or video telephone systems for outbound marketing purposes. This is because this practice drives people to turn off and disregard their phones, which are potentially an emergency notification devices.
10/ The emergency notification system on cellular phones may only be used for natural disasters and events that threaten a great many people. The emergency notification system shall not be used for matters of individual crimes or fugitives. In tsunami, fire, and tornado zones, it is vital that people keep their phones on all the time.
11/ Tree mail shall not be used for periodic billings or periodic statements.
12/ The tree-mail system shall have only one class of mail and this shall be based exclusively on weight. There shall be no discounts given for any class of item moving through the tree-mail system included printed catalogues, magazine, and newspapers. All citizens real and fictional, as well as all government services, shall be required to pay the same postage. Government services shall also pay to use the tree mail system so that they send less and conserve more.
13/ All treemail shall pay postage of at least 3-second's wages per gram, with a 50 gram minimum.14/ Product placement ads hidden in widely viewed media shall pay at least 5 second's wages per viewer, per placement, mention, or reference. Media that includes apparent product hidden placements may be assessed this even if the placement was inadvertent and no money was received.
15/ All broadcast commercials shall pay at least 8 second's wages per minute, per ad, per viewer or listener. This is currently about one penny per 30-second ad slot per viewer.
16/ Except for classified ads in an ad section all ads printed on paper shall pay at least 2-second's wages per ad per viewer.
17/ Paid advertising, paid recommendations, and paid touting that poses as genuine content shall pay 20-times the normal rate per viewer. When these things pose as genuine content but have a prominent disclaimer, they shall pay only 5-times the normal rate per viewer.
18/ All in-person commercial touts, commercial door-to-door salesmen, and everyone handing out commercial flyers shall be registered-with, and taxed-by their county. These people must post a reasonable bond or deposit in case postage or ad taxes are due. All shall be wear a government issued name badge that displays their tout's barcode, as well as their ID number and name in 1-cm letters. All shall pay anti-spam tax of at least 6-minute’s wages if the recipient reports the salesman’s activity as spam.
19/ Those touting political, economic, or news information in person shall be exempt from both registration and taxation, unless there is a commercial or religious aspect to their touting, or they are asking for, or accepting donations or money. Those not touting political, economic, or news information in person shall pay the normal anti-spam taxes.
20/ Agents, brokers, middlemen, and aggregators of advertising shall pay income tax.
21/ Each ad displayed on a search engine, facebook or messaging service shall pay postage of at least 20 second's pay, or 10% of the ad’s sales price, whichever is greater. When ads are displayed at the top of the page or interspersed with the actual content so it is hard to distinguish the content from the ad, each search engine ad displayed shall pay postage of at least 40 second's pay, or 20% of the ad’s sales price, whichever is greater.
22/ Each popup ad that must be watched and cannot be clicked away for some time must pay postage that is equal to at least half the average wage for its playtime. Each popup ad that can be clicked away shall pay postage of at least 40-second's wages.
23/ Still banner ads shall pay postage of at least 1 second's pay per 1/8th of a typical desktop screen or part thereof.
24/ dynamic banner ads shall pay postage of at least 5
second's pay per 1/8th of a typical desktop screen or part thereof.

25/ To control the spread of computer viruses, the following shall pay three times the postage otherwise due:
a/ Emails that secretly send any information at all back to their sender.
b/ Emails that contain clickable links.

26/ It shall not be allowed to send clickable links to login accounts via email.

27/ Media that is entirely advertising, such as yellow pages directories or Craig's list websites shall be exempt from ad taxation.

28/ The Senate may exempt certain new and beneficial products and services from advertising tax for up to two teneths.

R'12. PRIVACY

1/ Because we presume innocence in our justice system, people involved in judicial matters shall have the right to privacy with regard to their name, image, address, data, voice and other identity details in connection with criminal charges until they are convicted. Without a judicial conviction, none of this information shall be broadcast, published, socially networked, or disseminated without the written permission of the person charged. It shall be considered a crime when people broadcast or disseminate pre-conviction information without permission. The forgoing shall not apply to:
a/ The nationality or citizenship of the accused.
b/ The age and gender of the accused.
c/ Connecting and circumstantial facts about the accuser that do not name the accuser, or imply an identity.
d/ Photographs and videos ostensibly showing the crime or the crime scene. This shall be an exemption to the photograph rule.

2/ The people shall have the right to privacy with respect to non-government collection, aggregation, use, and dissemination of their personal data. This shall include their: name, physical addresses, current location, telephone numbers, electronic addresses, employers, income, wealth, assets, credit history, financial history, purchase history, buying habits, credit defaults, web browsing history, health data, school data, hair color, eye color, photographs, videos, recordings of their voice, genetic data, educational history, biometrics, communications, the identities of their family members, known associates, sexual relations between consenting adults, matters of family law, and all police and arrest information that does not result in a conviction. No non-governmental aggregator of such data shall assemble, keep, distribute, provide or sell anyone's information without the person's prior written authorization. All prior authorizations shall become void with the adoption of this new constitution.

3/ The aggregation and sale of personal information shall only be done with a non-transferrable Senate license which shall include a precise description of each data key aggregated. The Senate shall have the unlimited right to rescind all data aggregation licenses at any time and without notice, explanation or compensation.

4/ Fictional citizens shall not have the same right to privacy that real citizens have, except with respect to product development, inventions, and genuinely valuable trade secrets and tactics.

5/ Government shall maintain public comment boards about all fictional citizens, and all human non-citizens, as well as those sentenced to jail time and probation by a court of law. These comments boards shall be open for all to see and post on.

6/ The privacy rights of real flesh and blood citizens shall be higher than the free speech rights of fictional citizens and their human collaborators in some ways. For example, fictional citizens and their human collaborators shall not be allowed to initiate marketing communications with flesh and blood citizens via voice or video phone. Nor shall they be allowed to send people from home to home, disturbing the people with their marketing communication.

7/ It shall be a crime to publish or re-publish a person's private information as a means of harming them. Also, if doxing leads to another crime being committed against the victim, then the doxer may be considered an accessory to the crime. Also, to be clear, using someone's name, or their email address is not doxing them."

R'13. RECORDING

1/ This document is intended as a one-size-fits-all constitution for all mankind. For this reason, it includes some safeguards that may not be necessary in some parts of the world. One of these safeguards is the requirement that the delivery of all government services and interactions be recorded live by the county recorder. This shall include both the documents presented, and the voice and video image of both parties.

2/ With regard to government services delivered in an office, there shall be walls or windows dividing the government workers from the people they interact with. All voice communication shall be via recorded microphone and video. All written communication shall be via email or a chat system with all communication recorded. If any papers need to be submitted, they must come in as an electronic scan that recorded and sent to the right email address. There shall be no other exchange of materials through the shell of government. This however shall not apply to driver's licenses and other easy to obtain government approvals that are elected as too paltry to secure.

3/ With regard to police, building inspections, and many other government interactions with the people, these shall be recorded on high definition quality cameras and microphones. Government services shall generally not be delivered to the people without recording, unless it is greatly impractical to do otherwise.
4/ Corruption being a thing that thrives in darkness and withers in the light, the people shall generally be allowed to observe and record government officials while they are working in the field.
5/ Government shall make no law restricting the right of the people to quietly and peacefully attend, observe, record, film, copy, describe, or transmit public proceedings, and public interactions of Government officials while acting in their official capacity. The only exceptions shall be:
   a/ To keep Senate voting secret.
   b/ In matters relating to spying and intelligence gathering, military secrets, and secret criminal apprehension techniques.
   c/ When the recorders interfere with government activities, or endanger themselves, or others.
   d/ Recordings of firemen, trauma care workers, hospital emergency rooms, and those injured in accidents, crimes or fires.
   e/ When a human crime or accident victim would reasonably want privacy.
   f/ To assure the privacy of those merely accused of a crime.
   g/ To assure the privacy of those standing witness.
   h/ In matters relating to spying and intelligence gathering, military secrets, and secret criminal apprehension techniques.
6/ There shall be no right to privacy in commercial transactions. All commercial transactions, including sales talk, sales exhibits, and post purchase service are subject to both overt and secret recording and posting. All shall be admissible in judicial proceedings. This is to help our economy to function in a more honest and truthful way.
7/ There shall be no right to privacy with respect to the unedited recordings of people committing crimes, or threatening, provoking, or insulting others. This is to reduce crime, menace, and insult in our society.
8/ There shall be no right to privacy while teaching our children, or preaching to anyone. All schools and day care centers, including visitors and non-immigrant workers must attend the election unless they are either physically unable, or interfered with in any way when they vote. It shall be a primary duty of a democracy to defend the people from all of these things.
9/ Those committing or threatening election violence, or trying to keep people from going to the voting place may be shot and killed by the people and it shall be considered self-defense.
10/ Recordings of police and government activity by citizens in public shall generally be admissible as evidence. However, there shall be strict limits on the admissibility of government recordings of the people, particularly in their homes and workplaces.
11/ There shall be no right to follow people around or ambush people in order to photograph or record their non-criminal activities. There shall also be no right to publish these photos and recordings or the photos and recordings of those merely indicted for a crime. If this data becomes widely disseminated, the stalker, as well as those disseminating this sort of illegal data shall have committed a crime and shall be liable for damages.
12/ There shall be no right to follow firemen, or paramedics around. There shall be no right to record the victims of vehicle accidents or crimes, except when their grant of permission has been documented.
13/ The people shall generally be free to record one-another as background without consent in places generally open to public visitors. However, they shall generally not be free to sell, buy, share, or post these recordings without consent or without blurring out their faces and other distinctive and telling aspects of their appearance. This however shall not apply to government workers doing their task.
14/ In matters of bribery, corruption and democide, all recordings shall generally be admissible in court.
15/ When members of the public log in and communicate with government workers, via the public interface system, they shall pay about twice their pro-rata share for each worker's salary. And because of this, they shall have the right to video face-time, and system generated accountability for the time spent.

C — VOTING & CORRUPTION

R’14. VOTING DAY

1/ The people shall not be taxed, charged, burdened, impeded, interfered-with, or intimidated in any way when they vote. It shall be a primary duty of a democracy to defend the people from all of these things.
2/ Those committing or threatening election violence, or trying to keep people from going to the voting place may be shot and killed by the people and it shall be considered self-defense.
3/ There shall be no wealth or property requirements for voting. If there are education requirements, they shall be uniform for all citizens, and they shall exclude no more than 20% of the electorate.
4/ The children of immigrants may be prohibited from voting if they are unable to speak the national language properly because they grew up in a sequestered foreign-language community.
5/ All elected Sub-Senators shall serve as their Nome’s vote registrar. At the county level, randomly drawn Senators on judicial duty shall manage and judge the voter registration process. Citizens shall send duplicate registration applications to both nation, county and Nome.
6/ When voters line up to vote, they shall display their national passport, national ID, or national voter registration photo ID card on the upper half of their chest, uncovered, and in plain view.
7/ Under this constitution, everyone in our nation including visitors and non-immigrant workers must attend the election unless they are either physically unable, or working in essential or emergency services. Everyone must attend the vote, but nobody shall be required to cast a ballot. And many are not allowed to cast a ballot.
8/ People may attend the election with other nomes in other parts of the nation and cast video ballots for their home nome. For this, people go to the polling place 10 to 30-minutes early and walk before all the vote monitors, wearing their name, the candidates name, and the Sub-Senator’s contact number (123-4567) printed on paper.
Then half of the monitors (3) send a message to the Sub-Senator. Thus we have fast absentee voting that must be settled before the actual election begins.

9/ Those who are outside the nation on election day shall not participate in the election.

10/ Those working in essential or emergency services may vote by video selfie-statement sent to the standing Sub-Senator of their Nome. These shall be played for all to see at the vote count, and shall be just as valid as a person lined up to vote.

11/ All standing Sub-Senators must attend the vote in the Nome that elected them unless they are sick.

12/ Special care shall be taken to make sure that when the people elect their Sub-Senators, all votes are accurately counted, openly reported, and widely recorded. There should be at least 6 high-quality, audio-video recordings of each Nome's election. Neither government nor anyone else shall aggregate information about who people vote for. This shall be considered the crime of election fraud.

13/ It should be considered disgraceful to vote while intoxicated, although it shall not be prohibited.

14/ Except in the mustering election, the standing Sub-Senator (who cannot run due to term limits) shall officiate the election at his Nome. He shall call people to line up and vote. He shall give the 5-minute warning where he says: "I call the vote where we elect our leaders, all line up, 5-minute warning!". Then he shall do the same at 4 minutes, 3-minute warning etc. Then he shall call the Nome's vote closed.

R'15. POLITICAL PARTIES

1/ No political party shall be allowed to collect money, spend money, or have depository accounts of any kind because this money is to be spent on corrupting our democracy.

2/ Political parties may have a website, but they may not publish anything on paper, or broadcast anything, or send anything via paper mail, or call people on the phone.

3/ No political party shall be given any role or power in our democracy, because that is allowing a corrupt non-democracy to have power in a democracy.

4/ The names of all political parties must be two words, the first word must be a color other than black, white or gray, green, or red, and the second word must be a real creature other than man, canine, feline, bird of prey, equine, or elephant.

5/ No political party, and no name of any political party shall live for more than 180 days, because to do this is to give the party greater lasting power than our Senators. After 180-days, the party's name, and all inbound communication accounts shall be abandoned for at least 4 years, and the party must choose a new completely unrelated pairs of names for itself.

6/ Government shall not give any power, money, benefits, or credence to any political party. The people are advised that all things being equal, they should vote against candidates with ties to a political party.

R'16. ELECTION CAMPAIGNS

1/ The election process is broken if candidates are allowed to benefit in any way from spending money to get elected.

2/ It shall not cost anything to get elected to the Sub-Senate or to rise in the Senate. Again, the election process is broken if candidates can use money to sway the outcome. In all elections, we shall leave no place, no opportunity for money to have a role in the outcome.

3/ Again, it is not supposed to cost anything to get elected to the Sub-Senate. The election process is supposed to work entirely without money.

4/ All campaign contribution and gifts may now be considered as vote buying.

5/ People are allowed to spend time helping someone in their Nome to get elected. But they are not allowed to give money, or goods, or services for the candidate. They are not even allowed to bring water to the campaign office, or buy meals for fellow campaign workers.

6/ We will totally banish money and exchanges from our elections. Except for water and single sheets of printed material, candidates shall not give or receive anything physical during their campaigning. There shall be no restriction on exchanging computer files or any other free things that are entirely virtual.

7/ Campaign promises under a system of secret voting should be seen as worthless. Therefore candidates are also not supposed to make any promises that are seen as empty. Once in office, Senators are not supposed to talk about how they will vote, or how they previously voted, let alone swapping votes.

8/ There shall be no campaigning by telephone, video-phone, voice mail, tree-mail, text message, paid advertising, or unattended signage.

R'17. CORRUPTION

1/ Except for salary and benefits awarded by government, no government official, elected or otherwise, shall personally profit from their public office. Government officials shall not be allowed to grow substantially richer as a result of their service in office. All government officials that grow substantially richer while in public office, or shortly thereafter, must explain exactly how it happen for the record.

2/ Government officials shall not use their public office to aid in matters that affect their personal finances, or those of their parents, children, spouse, siblings, and other close family members, or their business associates, financiers, friends, lovers, or supporters.

3/ No government official shall receive any non-Senate gift, fee, gratuity, campaign contribution, consideration, pay, employment, wage, honorarium, emolument, loan, loan guarantee, loan forgiveness, over-payment, under-sale, option, air transportation, luxury or vacation area
lodgings, bonus, tip or other things of value arising out of his public service or his decisions made therein. Except for close family, Senators cannot stay over in people’s luxury homes when they travel, and must instead be housed in bottom 80% lodging. Or they can get their own un-discounted room on the open market. Senators can be driven to places (as a gift) in normal vehicles like busses taxis and normal automobiles, but not in fancy limousines, helicopters, or fancy vehicles. Senators are not supposed to be given things except virtual media, small thumb drives, pamphlets and the like. In urban areas, Senators are supposed to buy their own food, unless this is impractical and ordinary food is brought in and eaten buffet style.

4/ No Senator or other government officials shall be given or reimbursed for luxury transportation, luxury lodging, or luxury meals. Luxury shall be over the 80th percentile. 5/ No public office or franchise shall ever grant the right to keep the payments extracted from the people. Any time we see this, the money shall be presumed to be heading for theft.

6/ Except in times of annual price inflation over 20%, no Senate salary increase shall take effect until at least 10 teneths have passed.

7/ Government shall spend at least one per-mil of its budget on anti-corruption media and investigations. Half of this money shall be for government, and the other half for the private sector. Government agents shall attempt to entice people from both government and the public into corrupt practices under secret recording. Agents shall also audit the lifestyles of officials.

8/ It shall be a felony to give or receive valuables or favors, including sexual favors for influencing or claiming to influence a member of the Senate.

9/ Those who facilitate government services shall not be paid based on the outcome of their work, or as a percentage of the government benefits they obtain for their clients.

10/ In all branches, all government services to the public shall be monitored by an unrelated branch of government in round robin style with new random reassignments made at least annually. Investigations by the same department of government should be automatically seen as worthless, and look like an attempted cover-up.

11/ Anti-corruption enforcement shall occur and be recognized in this nation at four levels: county government, national government, world government and private sector. The national Over-Senate shall however have the right to veto any UM corruption ruling with a 60% over-majority.

12/ Government shall compile detailed, time-efficient educational media on what constitutes corruption, and what does not. Everyone working in government or spending the money of others shall be required to complete the Senate’s course and pass the 200 question common-sense “safety test” with a perfect 100% score. After this, we shall strictly enforce the rules of corruption and give lengthy jail times for significant acts of corruption.

13/ All Senators and government officials shall be required to live cash-free, and gift declared lives while serving and for at least 5 years thereafter. No person holding public office shall do business with government while in office, or for 4 years after leaving public office.

14/ Except in small towns, government appointees, and Senators on judicial duty, shall not know, meet or fraternize with the people they judge or administer on behalf of the people.

15/ Unless there is good reason, all government services shall be delivered via video. Where this is not practical, all government services shall be recorded by the recorder on video. This does not apply to Senators.

16/ Unless it is currently in the hands of many flesh and blood people, property previously acquired from government for absurdly below market prices shall not have a valid claim to private ownership title.

17/ There shall be safe harbors, but the mere transaction of an excessively sweet deal with government made in a closed bidding or non-open-market scenario may in itself be sufficient proof of corruption.

18/ Past Government grants or franchises secured by corruption may be set aside by the Senate and the assets nationalized. There shall be no limit on how long ago the transfer was if the current owner is an immortal fictional citizen.

19/ When public property is sold-off on the eve of a sharp rise in prices, or on the eve of when it is needed for some public use, that sale may be set aside and the transaction reversed.

20/ People should be afraid to buy large chunks of public property except from the government forum, in appropriately sized chunks of appropriate durations, and with a reasonable time period on the market.

21/ There shall be no statute of limitations with regard to clear cases of government and OPM corruption. The Senate can go back and aggressively punish and imprison officials for clearly corrupt and well witnessed acts committed decades before. This is so that we strike fear in the hearts of would-be corrupt officials going forward.

22/ Offering, paying, or taking money or other things of value for not revealing injurious information shall be considered the felony of blackmail. Contracts where people take money not to talk about some subject, and contracts where people assign the exclusive right to talk about some subject shall be unenforceable under this constitution.

23/ When people request, offer, receive, or pay money or other things of value for not bringing criminal charges, it shall be considered the felony of victim bribery. Individuals engaging in victim bribery, on either side, shall be punished in the same way that police bribery is punished.

24/ Everyone who has paid or received, or been a party
to an act of victim bribery must make a complete statement to police within 180 days, or they may be prosecuted for the crime of victim bribery. No prior victim bribery agreements from before this Constitution came into effect shall be binding under this Constitution. From now on, all recipients of victim bribes may keep everything previously paid to them and say anything they want.

25/ Government shall create detailed laws about all aspects of business corruption.

26/ The only legal frequent customer benefit shall be an increased across-the-board discount rate on the future business of that customer. All other frequent customer rewards programs shall be prohibited as corrupt in travel, lodging, grocery, fossil fuels, banking, and financial transactions.

27/ When people try to use sexual favors to corrupt, there shall be nothing wrong with not returning the favor. In fact, it is everyone’s duty to society to not return the favor. Returning the favor should be considered as doubling the crime.

28/ The foregoing restrictions cost practically nothing, and are practically no inconvenience or dishonor for honest men.

R’18. LITTLE GROUPS GET LITTLE POWER
1/ Two cornerstone principle of broad democracy are:

a/ That it is easier to corrupt small groups than large groups, and

b/ That it is easier to corrupt non-elected appointees than elected people. For this reason, small groups and appointees shall not be given much power in our government.

2/ This democracy shall never elect, or otherwise empower a single person or small group to handle anything but the smallest and most inconsequential matters. This democracy shall only use small groups to decide on matters that affect small groups, and matters concerning small amounts of money. For decisions affecting large groups, or large amounts of money, this government shall only rely on large groups. And for decisions affecting everyone, this government shall only use broad democracies.

3/ No position in government shall ever be indefinite, or for life, or inheritable. It shall be a capital offense for anyone to attempt to claim such a lifetime position, even if it is only for a tiny slice of the public’s domain.

4/ Except for the Senate, the children, siblings, and parents of people who served in a long-term government positions shall always be disqualified from serving in the same position.

5/ Only people who were confirmed as Senators at least once in their life may be appointed to a position of power in government, or oversee more than say 500 staff, or an annual budget exceeding say 500 year’s wages. This number will probably be reduced over time.

6/ All government job openings shall be publicly announced for a reasonable time.

7/ There shall be no central hiring administrations for multiple government departments.

8/ All candidates can be independently tested and evaluated by the Senate’s testing administration.

9/ All government workers shall be subject to annual performance reviews, and comparison with peers. All government employees shall be subject to evaluation by the people, and those the people judge as exceptionally problematic shall be terminated.

10/ Standards for pay and absenteeism in government employees shall be similar to those of the private sector.

11/ If a government official personally knows any people involved in a matter they have been assigned to judge or administer, they must recuse themselves. If the person being judged or administered is known by all potential judges/administrators, then the least connected shall judge.

R’19. VOTER BIASES
1/ Always vote for the smartest candidate based on the ideas expressed in the election forum. If nobody is saying anything remarkable in the forum, and you don't have any opinion one way or the other, then you can use Senate test scores.

2/ Never hold any consideration above how smart the candidate seems.

3/ When we vote for candidates based on extra-democratic educational credentials, we give our non-elected educational establishment the power to corrupt our democracy. Try not to respect educational credentials. Try to vote against candidates that talk about their extra-democratic credentials. To do otherwise is to hand our universities a back door to our democracy.

4/ We should not vote for candidates because of their universities a back door to our democracy.

5/ When we give elevated status to the relatives and friends of great men, it is a step towards the evil of dynasty. For this reason, everyone should give a minor handicap to the relations of great men. Those that are great in themselves will easily overcome the minor handicap.

6/ Political parties, religions and other pre-packaged ideologies can be backdoors to democratic power. This Constitution advises the people to consider political party and strong church affiliation as a strongly negative factor.

7/ When we elect candidates because of how they stand on the issues, we won't have a democracy where our best and smartest are making our decisions for us. For this reason, campaigning should be more about being a smart and fair decision maker and pie slicer — and less about issues.

8/ This Constitution advises the people to vote against candidates that talk about the other candidates instead of what they want to do.
D — POLICE & JUSTICE

R'20. POLICE SEARCHES

1/ The people shall have the right privacy with regard to their bodies, homes, vehicles, personal effects, papers, electronic devices, and electronic transmissions. Government shall not conduct searches and seizures of these places except upon probable cause or credible evidence, supported by a credible oath describing the place to be searched, the things being searched for, and why these things are thought to be at that place.

2/ If there is cause to demand a search without a warrant, then that cause and the category of thing being searched for, must be stated into the live AV record before the search, or the evidence shall be inadmissible.

3/ All searchers shall wear standard police cams. These cameras shall have forward and 360° cams, and surround sound recording. The stream shall be remotely backed up live by the county recorder's office, not the police.

4/ All search dialogue, along with the location of the searcher's hands must be clearly and entirely documented for the search to be admissible. If these search rules are violated, the evidence discovered shall be inadmissible in court.

5/ The threat of search and arrest shall not be used to intimidate or abuse the people.

6/ In order for evidence from a voluntary search to be valid, the search request must end with the following words clearly stated into the live record. "Please listen carefully. This is a voluntary search. You are free to go if you do not wish to be searched. Do you consent to this voluntary search?" If the answer to the voluntary search request is no, then the police must say "thank you" and immediately walk away from the suspect unless he can be recorded committing a crime.

7/ The home, papers, and electronic devices of people arrested, as well as people legally crossing into this nation, shall not be searched without a search warrant.

8/ All break-down-the-door search or arrest warrants must be preceded by at least two loud police search warrant sirens (A unique new international sound) so those inside will know that they are not crime victims. In general, strange people breaking down the doors to other people's homes without loud police sirens may be shot and it shall be considered self-defense even if they are uniform police officers shouting "police!"

9/ Government shall have the right to inspect all premises offered for sale or rent, as well as all areas under construction. Government shall have the right to inspect all property sold or rented within the prior 6 days.

10/ If a place is open to all comers, such as a front yard, unlocked communal lobby, or shopping mall, then government people may enter as anyone else.

11/ Government shall have the right to inspect all people, property and goods crossing this nation's borders in either direction.

12/ Those people loitering on private residential property and unaccompanied by an owner or tenant of that property are subject to being questioned and searched by police when an owner or tenant of that property complains.

13/ The Senate may establish different search rules for non-citizens.

14/ Where personal electronic devices are seized as evidence, police must give a copy of all files to the owner.

R'21. POLICE

1/ When police use force, they shall minimize injury to the public. Police shall not shoot to kill except when reasonably necessary for their own safety or the safety of the people.

2/ Police shall be obligated to use non-lethal weapons instead of lethal weapons where practical. The standard police response to non-compliant, semi-critical people with blades, and clubs shall be to first shot them in the legs with rock salt out of a shotgun if practical.

3/ Police shall not point or de-holster firearms without reasonable cause including hidden hands.

4/ Police shall not threaten to beat, shoot or injure people, except when those people are in some way threatening the police.

5/ Police shall not shoot at fleeing suspects, unless the officer is reasonably certain that they have the right man, and the suspect is armed and used arms in the commission of a recent crime. This rule shall not apply on closed military bases and certain closed areas within 10-km of the nation's borders.

6/ Police may shoot those firing at them, those turning or bringing a firearm to point at them, and those that are reaching for a firearm. Once someone points a gun at police, they may be shot, even if they are running away, or if they fail to throw the gun down in a way that police can see.

7/ Police shall not shoot or beat unarmed, or surrendering suspects, or suspects with their hands up, unless they have a reason to believe that it may be a ruse.

8/ All police firearms and projectile weapons shall have video cameras, audio recording, and gun horns that may be used to warn people of an imminent firearm discharge.

9/ Police may shoot people who are genuinely trying to run people over with a vehicle.

10/ All police dialogues with the public, as well as all searches, questioning, arrests, interrogations, incarcerations and prisoner transportation, gun de-holstering, and gun discharges shall be recorded on police-cams.

11/ All police audio-video shall be time-stamped, uninterrupted, high-quality with audio. This recording shall have remote live back up and it shall be kept by the county recorder.

12/ Police shall not use excessive, or unnecessarily humiliating force. Nor shall they demean, intimidate, threaten, provoke, or goad the people without good reason. Police shall not force non-violent people to lie on
a surface without some credible reason being stated into record as to why this is necessary.
13/ Police shall not injure, abuse, neglect, intimidate, or humiliate suspects whom the law always presumes to be innocent until proven guilty.
14/ Unless a suspect has threatened police officers with a weapon, or attempted to strike officers with blows, or wrestled with officers, police shall not strike suspects on the head, face, neck, throat or genitals, or grasp suspects by the neck, or tackle the suspect to the ground.
15/ There shall be no right to seek monetary damages for injury or death for those injured while threatening police or the public with arms or blades.
16/ Uniformed police officers may order people to put their hands up for reasonable cause while it is determined whether they have hidden arms or not.
17/ Police shall be clear about what is a request and what is an order by using the words “please” or “I order you to” as appropriate. Police must abide by refused requests. Police shall not order the people around without a legitimate reason.
18/ Police nationwide shall wear one of 12 standardized uniforms that all look roughly alike except for the emblems and badges. Unless a person is wearing one of these uniforms, or accompanied by someone wearing one of these uniforms, they shall not have the power of a police officer with respect to arrests or ordering the people to do things. Also, crimes committed against out of uniform police shall be treated by the law as if they were committed against a normal citizen unless the accused knew that the person was a police officer.
19/ Police shall not stop system operated vehicles for moving violations, mechanical defects, or sobriety checking.
20/ When police confiscate any recording as evidence, they shall give a copy to the owner without delay. It shall be a felony for government officials to destroy recording equipment, or erase its contents when it contains a record of their conduct.
21/ Police, military, and other government workers shall not ride equines in urban areas. This includes parades and circuses. Except for sniffer dogs, all police canines used in urban areas shall be muzzled when not in a police facility or patrol car. No canine shall be used to detain or intimidate the people.
22/ When government begins enforcing a law in a new way, it must give reasonable notice to the people.
23/ All police convicts and informers shall be jailed in special police-only prisons for their own safety.
24/ Police shall not be permitted to investigate other police with regard to shootings by police. In general, no arm of government may investigate itself with regard to alleged crimes. This shall be especially so for police officers and those accused of government abuse or government corruption.
25/ Police work in an armed nation is dangerous and frequently involves split-second, life-or-death decisions. We shall all bear in mind that the those doing this work are fallible humans that sometimes make mistakes. We shall all try to give our police the benefit of the doubt for their infrequent mistakes, particularly those that occur in heated situations.
26/ All police uniforms shall have the letter P and a numeral printed front and back at chest level in at least 4cm bold type. The P stands for police and the numeral stands for the branch of the police system. All police officers shall also have a unique badge number on their chest, upper back and both shoulders in 2cm bold type. All this writing shall be of a maximally contrasting color and must be printed or embroidered onto the uniform. These letters and numbers shall not be covered except by another article of the same nature with the same information displayed.
27/ All police cars shall carry a long-range scoped rifle that locks into a steel assembly. These are for dealing with suspects at long distance and with minimal collateral injury.
28/ Police may carry batons. However, batons shall not be longer than 50cm or have points, and shall not be used on the head, face, belly or genitals of a suspect unless the only other alternative is to use firearm.
29/ The Senate shall establish minimum strength standards for field police officers.
30/ All complaints about police misconduct shall be submitted to the county recorder’s office. Police departments shall be prohibited from having anything to do with intake of police misconduct complaints. All police misconduct complaints shall be investigated by Senate juries and not by any part of the police department.

**R’22. POLICE STOPS AND ARRESTS**

1/ Nobody shall be arrested or jailed without reasonable cause. Reasonable cause shall require sworn accusation by an identified and credible person, or other credible evidence.
2/ So long as suspects being arrested for nonviolent crimes do not appear about to flee, and remain reasonably non-combative, they shall be allowed at least 60 seconds to put their hands behind their back for handcuffing upon the statement that they are under arrest. Non-violent suspects who voluntarily submit to handcuffing upon arrest shall not be forced to lie upon or against any surface. Non-violent suspects that are under age 8, over age 75 shall not be handcuffed for non-violent crimes unless there is a risk to the officer and this risk is read into the record.
3/ No person shall be held under arrest uncharged for more than 18 hours, except on the approval of a 3-man Senator jury, in which case he may be held uncharged for no more than 5- days.
4/ All accused shall be considered innocent until proven guilty by due process of the law.
5/ The justice system shall not use money deposits to guarantee that those released from jail pending trial will return for trial. This practice is ineffective, unfair to the poor, and it fines many people prior to conviction due to the nature of bail bonds.
6/ People released from jail pending trial may be required to both remain in a prescribed location and wear location monitoring tech. Those who foil this tech shall lose their right to release from jail pending trial.
7/ There shall be no right to remain free pending trial when any of the following apply:
   a/ The accused is reasonably considered a flight risk, a risk to the community, or a risk to his accusers.
   b/ There is conclusive video evidence that clearly depicts the accused committing a violent felony.
   8/ Those denied the right to remain free pending trial shall have the right to be brought to gather evidence upon probable claim.
9/ Witnesses shall not be arrested to assure their attendance in legal proceedings as this reduces the number of people who will come forward as witnesses. However, if a subpoenaed witness fails to appear, that shall be a crime.
10/ Except in matters of public intoxication, where all the intoxicated people of each sex are held in the same cell, everyone who is jailed pending trial shall have the right to solitary confinement. They shall also have access to telephone communication, email, presentation software, data storage, data output, the law library, relevant arrest records and incarceration videos. All of this monitored communication shall be admissible as evidence in court for both sides. If the arrested person uses his communication infrastructure to threaten or intimidate others, the arrested person shall lose the right to use the pre-trial communication infrastructure.
11/ All laws shall be numbered, indexed and linked to both brief and lengthy explanations. All charges and arrests shall precisely indicate which numbered sections were violated, along with the prosecution's case in its entirety.
12/ If new evidence of guilt or new charges emerge during the trial, the prosecutor may amend its case, however, the accused shall be allowed a reasonable time to prepare its case again in consideration of the new charges.
13/ Unless there is a significant risk of asset disposal or further crime, the accused shall not be deprived of their property, occupation or status unless and until their crime is proven in court. This rule shall apply for both government and all fictional citizens.
14/ The crime of resisting arrest shall be divided in two parts: failure to act on a police officer's justified arrest commands, and fleeing from arrest. Neither charge shall apply unless the person is found guilty of at least one crime he was arrested for.
15/ No interrogation shall occur unless recorded in a high enough quality electronic format after a recorded declaration of recording. No statement given to police shall be valid unless recorded on high quality audio video after a recorded declaration of recording. Except upon consent of a Senate jury, no accused shall be interrogated for more than 4 hours in 24 hours.
16/ Nobody shall be required to make a statement upon arrest. Everyone shall have the right to consult the law library and legal experts to consider how to respond to questions or charges against them.
17/ All foreigners that do not speak our language shall have the right to make arrest statements in their own language.
18/ Government may arrest and hold without a conviction, but it shall take no punitive or lasting action without a conviction.
19/ It shall be a felony to aggregate the information of those arrested but not convicted.
20/ Police may stop people and ask anyone reasonable questions where they observe unusual behavior, or reasonable suspicion of a crime. In matters relating to these stops, the police shall be free to profile people based on race and national origin, but only where these races and nationalities are significantly more likely to be law breakers. To do otherwise is to favor law-breaking groups.
21/ When the people act as police and detain those that are later charged with a theft or a felony, they shall suffer no criminal charges for their public service provided the person so detained is not physically abused by such detention.

R’23. THE PUBLIC PROSECUTION DECISION
1/ The decision to begin a public prosecution for a crime shall be made by a Senate judge or jury depending on the severity of the charges. This jury shall serve no other purpose in the prosecution of the case.
2/ The trial shall be judged by yet another judge or jury depending on the severity of the charges.
3/ There shall be no decision to prosecute by non-elected people.
4/ All prosecutors shall be randomly drawn.
5/ The Senate shall make a list of which forensic testing is admissible, and under what conditions these are admissible.

R’24. THE ACCUSED IN COURT
Everyone accused of a felony, misdemeanors or infraction shall have the following rights in court:
1/ To know the exact charges against them in full, and to see all the prosecution's evidence a reasonable time before the trial, so they can gather their own evidence and prepare a defense.
2/ To have a reasonable amount of time to examine the evidence against them before their trial.
3/ To delay trial for up to 90 days from when they were
charged. Except when key people are injured or incapacitated, no trial shall begin more than 90 days after the charges were filed.
4/ To compel witnesses to appear at their trial if they can explain a reason.
5/ To have a reasonable amount of time with a pre-trial defense advisor, however this conversation as with conversations with all legal advisors shall be recorded and may be viewed by the prosecution and used in court to help the prosecution.
6/ To have the prescribed amount of time to present their case and question prosecution evidence.
7/ To adjourn their trial for a reasonable amount of time and gather additional evidence if they can explain a reasonable cause.
8/ To confront their accusers, obtain and examine witnesses, and know their identity except when genuine government secrets must be kept secret. In this case, a jury of at least 7 Senators from the Judicial Sluice shall be randomly selected to evaluate the secret evidence or witness testimony in light of the questions presented by the defense.
9/ To have an impartial, publicly announced trial by a Senate jury not of the locale where the crime was alleged to have been committed and at a randomly drawn location.
10/ To have a trial that is AV recorded and posted online for open public viewing, except were limited by other parts of this constitution.
11/ To a speedy trial. When the accused requests, government must begin the trial in no more than 15 days, unless the government needs an extension for forensic evidence analysis. However, in no case shall government delay the trial's commencement by more than 60 days when accused is calling for an immediate trial. The judicial time limits called for herein, shall not apply during time of invasion, full military mobilization, or severe and sudden environmental crisis.
12/ To have unbiased judges. Where possible, Senate jurors shall not know the people they are judging. And where possible, Senators shall have the right to traceless anonymity for their service as judges or prosecutors.
13/ To know the law WIKI sections that explain the charges against them, and defense strategies for these charges.
14/ These Rules of the accused shall not apply to matters of immigration, illegal immigration, refuge, and the granting of new citizenship to foreigners, as these are not matters for the courts, or for the county governments.
15/ All contact between the justice system and the public must be on recorder video.
16/ All in person and video court appearances shall begin with the testimony oath. "I swear to tell the truth, the whole truth, and nothing but the truth.
17/ All police videos shall be admissible in court.
18/ Judges shall have the power to charge the people in their courtroom with contempt of court, however they shall not also have the power to judge them as well. Such matters must be decided by different judges.
19/ Everyone on trial for a crime shall be allowed to give a prefacing statement at the start of their trial, and a closing statement at the end of the trail. They shall be given at least two minutes to speak for every year of incarceration or interment they face. This shall be one minute at the beginning and one minute at the end. Those who face less than 5 years of incarceration or interment shall be given 5 minutes at the beginning of their trial and 5 minutes at the end of their trial. Those who face life in prison or death shall be given at least 60 minutes to address the court at the beginning and also the end of their trial, and before judgement.

R25. JUDICIAL RULES
1/ Nobody shall be deprived of life, liberty, or property without due process of law.
2/ The burden of proof in all matters general and subsidiary shall lie with the accuser and never with the accused, no matter the crime.
3/ Once a man has been tried on a particular set of evidence and then acquitted, he shall never be tried again using any of that evidence, except in cases where the decision is invalidated by the Judicial Sluice due to suspicion of corruption, or disbelief about the verdict. This invalidation must occur within 30-days.
4/ The legal system shall not have rules that favor the rich and powerful over the poor and powerless.
5/ Confessions or admissions of crimes shall only be admissible in court if recorded on high definition audio and multi-point video showing the confessor as he speaks as well as the questioning leading up to that time. However, in general, the fact that a person confesses a crime shall not be admissible, while the things said during the admission shall be 100% admissible.
6/ Nobody shall be compelled to stand witness against himself. This shall be understood in a very broad sense, and we shall go nowhere near this. However, upon credible criminal accusations, people may be compelled to:
   a/ Declare their whereabouts at certain times.
   b/ State their relationship to others.
   c/ Give an account of events and occurrences they attended.
7/ Mitigating circumstances being so common in crime, there shall be no mandatory minimum sentences, and all penalties shall be expressed as a maximum fine or imprisonment.
8/ The laws and proceedings of this Government are made for men of ordinary understanding and should, therefore, be construed by the ordinary rules of common sense. All laws and all legal pleadings should be required to use widely understood current language and phraseology wherever practical.
9/ In matters where the criminal justice system deprives the people of their liberty for a crime they committed,
those convicted shall have the right to make appeals on new exonerating evidence. However, in cases where the
civil courts make a judgement as to financial restitution, or
where the Senate con-dems property for the construction of
group infrastructure, there shall be no right to appeal
the decision or judgement amount, except where the
national Judicial Sluice elects to cancel or reduce the
d judgement amount.
10/ Except for murder, sex with five or more minors from
a position of authority, charges of FGM, or when the
defendant leaves the jurisdiction to flee from justice, the
nation's courts shall not judge any criminal or civil claim,
no matter how fair or just if more than 12 years have
passed from the time the criminal activity ended.
11/ Criminals that prey on children, the elderly, or the
disabled may be subject to double penalties.
12/ Crimes committed on railways, in or around rail
platforms and stations, and on transit may be subject to
double penalties. This includes bum crimes.
13/ Crimes against travelers, goods in movement, and
automatic vending systems may be subject to triple
penalties.
14/ It being much easier to crash a large banquet than a
small family dinner, economic parasitism is more a
problem of group funds. For this reason, stealing or
misappropriating from government and the largest
companies shall suffer triple penalties. Stealing non-
government group money shall suffer double penalties.
15/ Theft or vandalism of utility systems, roofing, flashing,
rain gutters, and similar metallic components for recycling
shall be subject to triple penalties.
16/ Those who post videos or stream their crimes shall be
subject to double penalties. Those who post videos that
glorify the crimes of others may be held to be accessories
to those crimes.
17/ Those who attempt to frame others for their crimes
shall suffer double penalties. Those who set out with a
premeditated plan to blame someone else shall suffer
triple penalties.
18/ Those judged as having participated in small crime
gangs shall suffer double penalties. Those judged as
having participated in large-scale Ishtarian organized
crime shall suffer triple penalties.
19/ The legal system shall take great care to minimize the
danger of giving testimony against Mafia criminals, crime
gangs, terrorists, corrupt government officials, and violent
individuals. The legal system shall grant immediate video
testimony for witnesses. This video testimony shall stand
as valid evidence in court if the witness is dies before the
trial. It can also be made public by the witness. Witness
protection people from our nation and other nations may be
housed on either Kauai or Puuwai.
20/ There is safety in numbers, and in situations where a
Senate jury is in considered to be in any danger of
retribution or intimidation from the Mafia or from criminal
gangs, the matter shall be judged by a grand jury that can
be the size of the entire Sub-Senate if needed.
21/ Only pardons issued by a broad democracy shall be
final. All prior pardons may be cancelled.
22/ All trials of government officials, and the officials of
fictional citizens shall be 100% public and 100% public
domain.
23/ Court hours shall be 8:00am until 10:00pm, 365 days
a year.
24/ Except where a 2/3 overmajority of the Over-Senate
elects that the people have suffered from economic
parasitism, all retroactive laws, taxes, fees, definitions,
classifications, and penalties shall be void.
25/ All new laws and new interpretations of old laws shall
give reasonable time and notice for public awareness and
compliance.
26/ No County fine or penalty shall exceed the maximum
amounts set by the national Senate.
27/ Every person in the land including visitors shall
furnish government with two valid and current electronic
addresses for receiving official government notifications.
It shall be presumed that these accounts will be checked
at least once every 14 days. Two emails to each account
shall be the only way that official notices including court
subpoenas and official notices are delivered. The private
use of this system shall be allowed for a charge of 3
hour's wages per message if paid in advance.
28/ Government shall not be able to dig up old, now
unenforced laws to throw at people.
29/ All laws from before the time of this Constitution shall
be completely re-written as soon as possible. The new
laws shall be enacted before they are perfect.
30/ Perfection of the laws should be regarded as
something that will never be achieved because it is firstly
impossible and secondly because the target keeps
moving. No law is perfect, and in the interest of justice,
we must listen to all ideas about how the legal code can
be improved.
31/ Just as we elect no forever Senators, we shall elect
no forever laws. To keep the legal code fresh, every
component of every law shall stand for review by the Sub-
Senate at least once every 5-years. The expirations shall
be staggered to spread out the workload and power.
32/ When people commit unethical or unpopular acts that
offend public sensibilities and are not against the law,
Government and the media shall not be allowed to audit
and scrutinize their life record, searching for unrelated or
overlooked violations to charge them with.
33/ When people with no criminal record and no criminal
ties are charged with crimes against Mafia people,
Ishtarians, and previously convicted violent felons, the
court shall have the power to reduce the penalties by any
amount. The court may also declare the matter as self-
defense or community-defense and thus acquit.
34/ No judge shall have the power to make law or policy,
or interpret the law beyond the case they are hearing.
35/ No legal precedent shall be established by any
judge's actions and without Senate gazetting.
36/ The Senate shall leave the courts as little leeway as
practical in the interpretation of the law.

37/ In all court proceedings nobody shall talk or make noises of support or objection. There shall be no claques. Clacking should be seed as conspiratorial, and an act of contempt for the court.

38/ No less than 1% of instruction in grades 7 through 12 shall be about the nation's laws, its legal system, the nature of justice, and the value of a just society of free men.

39/ The legal system should have a slight bias in favor of the accused so the system will be biased towards leniency.

40/ Those who steal great sums shall never be punished less than those who steal small sums. They may be punished the same, but they shall never be punished less.

41/ No part of the code of Justinian, the so-called "Roman law," may be used in the courts of our nation.

42/ Only a Senate jury of 11 or more may judge prosecution deals for criminals that aide in prosecutions.

43/ The Senate jury that grants parole shall be at least twice the size of the one that incarcerated. Parole hearings shall be made once every 2-years via video.

44/ The parties involved in court cases shall have no right of juror or judge selection. The Senate shall randomly draw jurors and the random draw shall be final.

45/ Adjudication works as follows: The initiating side files its case to the court system. Then the screening juries decide if it will be heard and contact the opposing side requesting a response. Then the juries formally request more information if needed from various people.

46/ Everyone accused of a crime or defending charges in civil court shall have the right (but not the obligation) to speak in public about the case against them.

47/ Everyone exonerated from a crime shall have the right to have their name, image and other information put on the Senate’s exonerations website. It shall be the responsibility of the public to treat all exonerated people as if the crime never happened.

48/ Secondary crimes such as obstruction of justice and resisting arrest should generally require an underlying primary crime. If we don’t do this, then people can be arrested and subjected to legal proceedings on baseless allegations, until they contradict themselves, or do something wrong in the procedures. Not having this prohibition leaves the legal prone to abuse by those in power.

49/ When the parties to a case live in different jurisdictions, or one party is a new comer, or a a tourist, the court of jurisdiction shall be a randomly chosen third location. This costs nothing on net and brings more fairness to the system.

50/ All accused shall be considered innocent until proven guilty by due process of the law.

51/ We shall learn from Brazil, its lax penalties for murder, and its high homicide rate. We shall go in the opposite direction. The following acts shall be considered first degree murder and the penalty shall be either life in prison without possibility of parole, or death by execution:
   a/ Killing a victim accidentally during a burglary, hold-up, battery, car-jacking, kidnapping, or similarly violent crime.
   b/ Intentionally shoving or striking a weak person very hard and causing them to die as a result. This shall include the old, the young, the disabled, the ill, the small, the frail, those not fighting back, and those lying on the ground among other similar groups.
   c/ Intentionally striking people who are not physically confrontational in their head, face, or torso, and causing them to die as a result.
   d/ Ganging up on outnumbered non-confrontational people and beating them, causing them to die. In this case, everyone striking the victim may be held guilty of first degree murder.

52/ Except for cases of friendly fire, those who fire on police or cut an officer with a blade get life incarceration either in jail or a work camp.

R’26. LEGAL PRECEDENCE

1/ This Constitution shall be the primary law of the land and above all other laws in the land. All laws made by the Senate shall be secondary law that are wholly below this constitution. All interpretations and rulings made by the courts shall be tertiary laws that are wholly below both this Constitution and the laws of the Senate. All regulations made by unelected government officials and unelected government bodies shall be quaternary laws that are wholly below this constitution, the laws of the Senate, and the interpretations of the courts.

2/ No judge or jury shall be legally competent to judge any society-wide matter.

3/ Judges, and juries being inferior to legislatures in every way, no court shall ever be held competent to judge the constitutionality or legality of anything a legislature does.

4/ The national Over-Senates shall be the sole judge of constitutionality in this nation. No county Over-Senate shall have any power over the national Senate, or the national government.

5/ Plebiscites being so vulnerable to media corruption, no plebiscite of the whole shall be considered above a sophiscite conducted by their duly elected wise men of the Sub-Senate. And no sophiscite of the Sub-Senate shall be above the Main-Senate. And no sophiscite of the Main-Senate shall be above the Over-Senate, the wisest of the wisest.

6/ Only the Senate shall have the power to make laws. Only the Senate shall have the power to write, define and clarify laws for the court system. Judges shall have the power to make reasonable and logical interpretations of the law for their own case, but not for any other court unless their case has been gazetted as an example by the Senate.

7/ The Senate shall endeavor to create a new body of laws that will guide our Senator-judges in the rapid adjudication of all commonly repeated injustices.
8/ The Senate shall state its intent when writing laws so that in the future the laws stay accurate.
9/ The Senate shall clearly define enforcement perimeters and variable penalty levels if any.
10/ The national legal code shall be presented in ordinary words where possible. The legal system shall try to avoid using special legal words where practical, and all special legal words shall be defined by weblink.
11/ For the purposes of legal precedents and gazetting of lawsuits, all legal commentary shall list all considerations of judgements as primary, secondary, tertiary and incidental.
12/ The proper indexing and summary of legal precedents and their removal as they are transformed into code and code examples, shall be considered of great importance to the proper functioning of a first-person legal system. This is because intellectual overhead is the primary driver for the expensive experts of the old second-person legal system.

R’27. MONEY (CIVIL) COURT TRIALS
1/ Government shall aim to begin all adjudications within the time periods called-for unless one party seeks a delay for reasonable cause.
2/ The plaintiff in all civil suits shall pay a filing fee of 1% of the damages requested, plus two day’s wages. When civil suits ask for specific performance under a contract, the plaintiff shall state the value of the specific performance requested, and this shall be used to calculate court fees and maximum settlement amount in lieu of the action sought.
3/ When judgement is in favor of the plaintiff, the defendant shall pay between 1.5 and 3 times the amount in dispute depending on how wrong the defendant was judged.
4/ When civil suits are judged to be malicious or vexatious, the plaintiff may be compelled to pay money to the defendant. When the plaintiff is a human of normal means, this payment shall not exceed 3 times amount the plaintiff asked for it its suit. When the plaintiff is a fictional citizen, or a super-rich human citizen, and the defendant a human citizen of more-or-less ordinary wealth, this payment shall not exceed 30 times the amount the plaintiff asked for it its suit.
5/ All statements made to all adjudication venues must be sworn under oath and penalty of perjury or they shall not be valid. The crime of lying under oath shall apply in all adjudication venues and in all cases.
6/ Government shall keep a permanent record of everyone’s civil court case history. This record shall be open, and on the internet for all to see. It shall always be admissible in all cases.
7/ No default judgement shall ever be used as a consideration in deciding another case.
8/ Money court judgements paid over time cannot be transferred or assigned to other parties, or used as collateral for a loan.
9/ The money court adjudication system shall not be allowed to become part of anyone’s business or profit model. The Senate shall set reasonable limits on the number of cases a person or business may bring over a period of time.
10/ It shall be a crime when parties in non-criminal cases dig into their opponent's private life in an effort to find dirt on them. The Senate shall create detailed rules on the limits of this sort of judicial stalking.
11/ All money court trials shall be staffed with juries as follows, based on the amount in dispute. The Senator jurors shall set trial length, but it shall not be longer than the maximum listed herein under. Where the value in controversy is between:
a/ Zero and 1 year's wages, the trial shall be by a single non-elected judge, a native citizen age 40 to 60. The maximum trial length shall be 2-hours.
b/ 1 and 5 year's wages, the trial shall be by three non-elected judges, native citizens age 40 to 60, for up to 8 hours.
c/ 5 and 50 year's wages, the trial shall be by 3 Sub-Senate jurors for up to 15 hours.
d/ 50 and 500 year's wages, the trial shall be by 11 Sub-Senator jurors for up to 40 hours.
e/ 500 and 5,000 year's wages, the trial shall be by 43 Sub-Senator judges for up to 100 hours.
f/ 5,000 and 50,000 year's wages, the trial shall be by 199 Sub-Senator judges for up to 200 hours. If a product is alleged to make a small number of people more likely to suffer a medical condition, it shall be tried in this way.
g/ 50,000 year's wages and infinity, the trial shall be by 999 Sub-Senators for up to 200 hours. If a product is alleged to make a large number of people more likely to suffer a medical condition, it shall be tried in this way. If a trial is for an entire class of activity or class of product, it shall be tried in this way in order to advise the relevant sluice of the Main-Senate on how to vote.
12/ Wherever similar conditions are encountered repeatedly, Government shall attempt to remove as many enforcement duties as possible from the money (civil) court system and use streamlined procedures and government administrators instead. The money court system shall be considered an inferior system of enforcement of public policy because it is both more costly and more time consuming.
13/ The Senate shall establish new reasonable rules about what can and cannot be the subject of a money court action. The Senate shall also establish new standard penalty rules.
14/ There shall be a statute of limitations in money court, and no damages shall ever be awarded for events that took place more than 12-years in the past, no matter how heinous, harmful, carcinogenic, or deleterious for the environment.
15/ There shall be a statute of limitations in money court, and no damages shall ever be awarded for conditions that were discovered more than 2-years in the past.
16/ The national Senate shall be free to impose shorter statutes of limitations for various matters.
17/ No person or family shall be forced by a court judgment to have less than 1-year’s wages per person in their live-together family including all children under age
18/ With regard to punitive damages, if the person that must pay does not have sufficient money at the end of the trial, and has not transferred assets to avoid payment, the punitive damages shall be cancelled.
19/ Nobody shall ever lose their home on account of punitive damages.
20/ All judgement/settlement amounts must be paid directly to the principal and it shall be considered fraud if a legal surrogate or lawyer receives any court payment on behalf of his clients.
21/ It shall be a crime when money from a legal settlement or judgement is paid to a lawyer. This shall be a crime for the lawyer, but not the person paying him.
22/ In general, lawyers and legal surrogates will need to collect money in advance, because they will have no legal right to collect on bills.

R’28. FINES
1/ Government shall not treat the rich with favor, and wherever practical it shall work to eliminate wealth bias from government penalties. To this end, we shall try to express our public prosecution penalties in either jail time, public service time, re-education time, or a percentage of income or wealth.
2/ All large fines paid by fictional citizens shall be paid through a dilution of shareholder equity in favor of the public weal. If shareholder equity is inapplicable, then a percentage of assets shall be seized.
3/ No for-profit fictional citizen shall be fined by a money amount greater than 100-years wages. All fines over this amount shall come from a dilution of the company’s shareholdings in favor of the public. Thus if a company worth $2 billion is fined by $1 billion, the number of shares shall be increased by 50%, and the public shall own half of all shares. These shares may be held indefinitely by the public or sold immediately.
4/ All fines by labor unions, religions, schools, non-government trade organizations, financial institutions, athletic organizations, clubs, landlords and homeowner’s association shall be paid to the county recorder’s office on behalf of the national government.
5/ It shall be a felony to pay or receive money for any matter brought before a court or arbitration system without making an accurate statement of the amount to the recorder. All such statements shall be public knowledge.
6/ People may pay the fines of parents, children, siblings and their spouses and children. Also, lawful businesses may pay the fines their team incurred on the job. However, aside from this, it shall be a felony to:
   a/ Pay the government fines of others.
   b/ Reimburse people for their government fines.
   c/ Receive help paying for a government fines.
   d/ Pay people for the time they served in jail.
   e/ Receive payback for time spent in jail.

R’29. CIVIL DAMAGES
1/ The purpose of punitive court damages being to punish, 100% of all punitive damages shall accrue to the national government, with the plaintiff, attorney, court, and county government getting no part of any punitive damages.
2/ Punitive damages, shall not apply, except in cases of willful misconduct or gross negligence where the plaintiff was not partly at fault.
3/ The Judicial Sluice shall set detailed maximum compensatory damages levels for all types of injury. If no category exists, the maximum amount shall be zero.
4/ When the people suffer death or injury, the compensatory damages shall not exceed 50-years’s wages per victim. (for the average worker). Over this amount, no money shall be awarded for pain and suffering, or loss of use of one’s bodily organs.
5/ The maximum compensatory damages for emotional or psychological distress or harm to an individual shall be half a year’s wages if there is no felony conviction and 5-years wages if there is.
6/ 100% restitution shall be prohibited on the grounds that it discourages people from avoiding injury and dangerous situations. No plaintiff shall receive more than 90% restitution, and no insurance pay-out shall exceed 90% of damages.
7/ The right to court awarded compensation shall be limited to cases of significant and observable harm to body or property that was not previously damaged or defective in the way harmed.
8/ Civil damages shall only be awarded according to standard remedies and compensation levels that meet Senate guidelines.
9/ All damages awarded shall only be spent according to a court approved plan, and for court approved purposes. All funds shall be disbursed by the county’s payout system according to a payment plan, and all unused funds shall be refunded to the defendant’s side.
10/ Those forced to pay money by a court shall have the right to hire auditors to make sure the money they paid is being spent as per the court order. The recipient of the money must cooperate with these investigations, or it can loose the right to further collections.
11/ No insurance policy or court judgement shall pay for any treatment that includes a pleasing massage as this incentivizes the patient to get all their free massages.
12/ Civil damages shall not be awarded for unproven, or alternative medical treatments, for joint cracking, chiropractic massage, or acupuncture.
13/ When a money judgement is rendered by a court against a citizen that exceeds their ability to pay, they shall not be left penniless and homeless. Just their wealth shall be taken away, and they shall be left with means. All
non-immigrant citizens shall have this right to be left with a reasonable court-approved amount of non-luxury household items, and up to one year's wages in other assets if they are childless. They shall be left with no less than 2-years wages if they have one or more children.

14/ No money court compensation shall be awarded where the plaintiff is judged to be more than 20% responsible for his own injuries. Where the plaintiff is judged to be between 10% and 20% responsible for their own injuries, the money courts shall generally not award compensation to the plaintiff. Those who trip or slip wearing shoes with heels over 4cm tall, shall generally be held to be entirely responsible for their injuries.

15/ When intoxicated people and those with certain drug and alcohol licenses or addictions suffer an injury, they shall generally be held to be at least 80% responsible for their own injuries.

16/ Those trespassing on private property shall generally have no right to judicial money except in cases of intentional harm or booby trap.

17/ Those walking on public property, or straying up to 3 meter into unfenced private property shall have no right to recover damages if they slip or trip and fall. However, they shall have the right to recover damages for injury due to dangerous plants such as cactus and poison ivy.

18/ There shall generally be no liability when land is widely used by the public and the dangers and recent injuries are accurately described on the public map system. Land owners may however be held financially responsible for those who fall into uncovered or unfenced wells, trenches, or mine shafts, and those who are injured by unfenced equipment, or harmed by other obviously dangerous manmade conditions such as construction sites that are not fenced.

19/ There shall be no liability for trespassers when private property is fenced with even a 1m fence or wall.

20/ A reasonable time shall be given for people to correct most dangerous situations before being considered negligent and liable.

21/ Retail businesses shall generally have no liability for wet areas and spills that are properly marked off with cones or barriers. Also, retail businesses shall generally only have liability for spills after the business was alerted and a reasonable time for action has passed. Warning people about dangers shall not be considered an admission of guilt.

22/ In general when a random injury could just as easily have occurred anywhere, the property owner shall suffer no liability. So when random events such as crimes, or car accidents occur, or lightning strikes on on private property, the property owner shall not be liable for damages simply because they occurred on their property. Likewise, Government shall never be liable for damages simply because they occurred on public property. However, when subsequent similar injuries occur at nearly the same place, the property owner shall be by default considered at fault for not remedying the conditions that repeatedly give rise to injury.

23/ Government shall never be held financially liable for damages for violence against our nation, or by our nation against any other nation. All such payments shall come under the rules of treaties as stated herein.

24/ People shall be expected to watch where they are going to a reasonable extent.

25/ It is perfectly reasonable to expect the old and frail to be especially careful where they go and how they move about. It is also not unreasonable to say that when old and frail people suffer greater injury than regular people in their prime, they should get no more money.

26/ Government shall never be held to owe damages for poor enforcement, or failure to act, or poor planning, or for the foolishness of its citizen.

27/ No court shall have the power to compel the Senate and its government to pay any damages. Also, all court decisions are subject to veto by the Over-Senate.

28/ The right to seek money damages in court is not transferrable, or assignable. If a fictional citizen is merged, or bought-out, all cases in which it is a plaintiff shall be terminated. As well, the fictional citizen shall have no right to file any legal claims after the merger for the time before the merger or purchase.

29/ Those harmed by someone acting in self-defense, or community self-defense shall generally have no right to money damages.

R'30. SENATE JURIES

1/ Except in matters of trifling and small claims, the nation's legal system shall not use appointees as judges or jurors. Instead it shall use confirmed Sub-Senators cycling out of Senate service.

2/ All Senate judges and jurors shall be randomly drawn from confirmed Sub-Senators on judicial duty. In both criminal and civil matters, the parties under adjudication shall have no input about the senators serving as their judge or jurors, except when they personally know a Senator and wish to disqualify him.

3/ All Senators shall randomly draw a specialty at the start of their tour of judicial duty. Once assigned to that division of the justice system, they shall randomly draw cases just before the start of each trial.

4/ The jury of Senators conducting and overseeing the judicial draws shall themselves be randomly drawn, and shall supervise the judicial draws on no more than one day in their life.

5/ In both criminal and civil matters, the parties under adjudication shall have no input about their trial venue. However, the trial venue shall not be within 10-km of where the victim/plaintiff frequented, or the accused/defendant frequented.

6/ In matters of violent crime and immigration, the names, faces and commentary of our Senator jurors shall not be know to them they judge. recorded once attested to the recording system.
R'31. JUSTICE WITHOUT INCENTIVES

1/ No testimony given for reward or payment shall be admissible in court. This shall include fees, commissions, incentives, suspended sentences, and expert witness fees.

2/ Nobody shall make any gifts whatsoever to police or criminal justice people other than water, coffee and ordinary tea. There shall be no charities for police or criminal justice people, except those that die or are disabled in service.

3/ There shall be no commissions, incentives, quotas, or performance-based pay, stated or implied for any officers of the justice system. Nobody and certainly no accuser shall ever receive a share of property confiscations. The only exceptions to the foregoing shall be rewards paid for information leading to the arrest of criminal and illegal aliens.

4/ Government and only government shall operate all prisons, jails, police forces, courts, probation administrations, taxation administrations, parking enforcement, and all other aspects of the criminal justice and taxation system. Only full-time government employees and not contractors shall have the power to arrest, to issue court summons, and citations on behalf of government.

5/ We shall learn from the Romans about tax farming. And we shall remember our own experience with the East India Company, viz the Boston Tea Party. Never shall we permit tax farming, or policing for profit, or monopoly under out watch.

6/ The purpose of government fines shall be to deter and punish acts, rather than to incentivize and nourish the enforcement administration. Therefore, no less than 90% of all government fines at all levels or departments of government shall accrue to the general fund of the national government.

7/ Except for victim property that is recovered and returned to its rightful owner, 90% of all police seizures, confiscations and fines shall accrue to the national government's general fund and 10% shall accrue to the county government. For seizures, confiscations and fines worth more than 3-year's wages, 96% shall accrue to the national government and 4% to the county government.

8/ All destruction of assets seized by police shall be disposed of by the County Senate with police watching. It shall be considered corruption when a police department keeps, sells, gives away, or destroys any assets they confiscate.

9/ The proceeds from seized criminal assets shall not be used for restitution to the victims of other crimes.

R'32. NOT FOR THE CIVIL COURTS

1/ The following matters shall not be tried in any civil court in the nation. They shall either be tried in criminal court, or fined by the Senate's enforcement administration:

a/ Environmental harm.

b/ Racial, or religious discrimination or harassment.

c/ Rape, forcible sexual conduct, sexual abuse, sexual discrimination, or sexual harassment.

d/ Disability discrimination or harassment.

e/ Professional malpractice, including medical malpractice.

f/ Securities fraud.

g/ Market manipulation.

h/ Abuse of monopoly or cartel pricing power.

i/ Accidents on public property, or between the sidewalk and the street.

j/ Death or injury due to vehicle accidents.

k/ Death or injury due to group transportation systems.
I/ Manufacturer liability.
m/ Government financial liability to the people.
n/ On the job injuries.
o/ Unfair labor practices.
2/ No civil court or arbitration forum shall compel anyone including government to pay money for the preceding matters.
3/ Only the Senate’s enforcement administrations may collect fines for the preceding matters.
4/ In all of the preceding matters, all fines and damage compensation monies shall accrue to the nation’s general fund, and no portion of any government fine shall be earmarked-for or shared-with any other party, including the party harmed.
5/ In all of the preceding matters, the amount recovered from each injuring party shall have no relation to the amount paid out to each injured party. If government elects to compensate those harmed, this shall be done as a separate case, and total payments shall not exceed the government’s budget for this class of injury.

R’33. PROFESSIONAL MALPRACTICE
1/ All claims against professionals shall be heard and judged by the various professional licensing and regulating departments of government. As with most branches of government, these regulators shall have some experience working in the field they are regulating.
2/ No professional shall ever suffer any penalty for following standard procedures for their profession.
3/ No duly certified medical people shall ever suffer any penalty for following standard treatments, or for reasonable misdiagnosis, for typical unfortunate outcomes, or for a reasonable ratio of honest mistakes in their career of helping people.
4/ Implied consent for medical treatment shall exist when people are unconscious or delirious and will suffer great harm if not rapidly given treatment immediately.
5/ In crisis situations where medical care is unavailable or distant, people with any level of accurately disclosed medical training may furnish medical care to the critically injured without fear of prosecution or liability.

R’34. LAWYERS
1/ Lawyers only add a small margin of accuracy to the legal system, yet they take away much more:
a/ Lawyers act as a tax on the monies paid in compensation through the legal system. In the money law or civil law system, this has been generally a tax of around 1/3. Thus the existence of lawyers in the civil law system generally increase the cost of settlements by 50%.
b/ Lawyers drive the legal system towards unnecessarily complexity and costliness with little improvement in legal accuracy.
c/ Lawyers unjustly favor the rich who can afford their fees, and unjustly disfavor the poor who cannot. And these fees are no small thing, because they typically run 10 to 50 times the average wage for workers. Thus lawyers are unjust because they favor the rich over the poor in our supposedly unbiased justice system.
d/ By making each matter the legal system considers more expensive and complex, lawyers reduce the number of legal decisions the system can adjudicate. The injustice cause by this reduction in legal capacity or legal reach greatly exceeds the justice achieved by the minor improvement in legal accuracy.
e/ The current legal system has many of our smartest arguing over what society already has instead of working to produce new things for society.
f/ When the richest foreigners hire the best law firms, they tend to win against native citizens speaking for themselves. In fact, native citizens normally proceed with trepidation against prominent law firms that are for sale to the highest bidder. This mostly helps the sort of rich people and foreigners that work in economic parasitism.
g/ The adjudication speed of legal system becomes slower and the economy more lethargic.
2/ For the above reasons, this nation shall institute a legal system that disfavors, hinders, and minimizes the use of lawyers in its courts.
3/ Government shall have special taxes on lawyers to reduce the number of lawyers.
4/ There shall be no ranking of lawyers in any law class, in any law school, or in any government qualifying exams. All law classes shall be graded pass fail.
5/ The study of law shall be taught as an ordinary college degree.
6/ A lawyer’s first duty shall be to make sure that justice is served. This shall be held more important than if his client wins. To do the converse is an evil thing that only existed because the injustice benefitted Arab parasitism.
7/ No lawyer should ever give the appearance that their first obligation is to their client, and that they will knowingly argue injustice to anyone who pays them. To do so shall be considered an ethics violation.
8/ All lawyers shall disclose the fact that they are a lawyer in all communications, contracts and all marketing for their products. If a lawyer represents a client, that client must always be named. If the client is foreign, that fact must also be acknowledged by the other side given its importance.
9/ Lawyers, court surrogates, and almost everyone else in the legal industry shall be prohibited from shielding the identity of their clients, and must always state this relationship first.
10/ Lawyers shall not advertise or procure advertising or marketing services, or product placement advertisements, or media communications, engage in government lobbying for themselves or for others.
11/ Lawyers shall not be paid based on a successful outcome, as this creates incentives that run contrary to justice.
12/ Lawyers shall not be allowed to advise or represent people in divorce, child support, custody, immigration,
malpractice, and other areas the Senate may elect. This goes for in-court, as well as out of court.

13/ Lawyers may not hold documents in confidence for others.

14/ All agreements for the provision of lawyer services must be posted on the nation’s lawyer payment system, or they shall be unenforceable. All monies shall be paid to lawyers via the nation’s lawyer payment system, or they shall be considered unpaid under the law. It shall be the felony of lawyer fraud for lawyers to work with clients or accept money or benefits outside the lawyer payment system.

15/ All payments and agreements made under the lawyer payment system shall be easily searchable public information.

17/ If a lawyer becomes aware of a crime, he must report it, or he shall be guilty of failing to report a crime.

18/ The courts shall not award any more damages when a party is represented by a lawyer, or because a party is represented by a lawyer.

R35. COURT SURROGATES

1/ The accuracy of the legal system counts for little if the system is so costly and professionalized that it is out of reach for most citizens. Therefore, legal accuracy shall be balanced with accessibility, inclusiveness, speed, and ease of use by the people.

2/ The legal system shall be designed so that most people speak for themselves in court. Those unable, or unwilling to speak for themselves may use a court surrogate to speak on their behalf. There shall be no charge for this. However, surrogates shall suffer from a number of disadvantages intended to make the use of court surrogates into something that most people involved in court cases avoid if they can.

3/ All surrogates and lawyers, shall work for the court system on a salary. All court surrogates, shall be paid through the court system exclusively, and it shall be a felony for a court surrogate to receive any payment outside of the court system from or for those they have represented in court.

4/ All court surrogates, shall be randomly assigned to court cases by the courts. Numbered smooth plastic discs shall be rapidly drawn from a bag.

5/ There shall be 4 specialties of court surrogates, serious crimes, minor crimes, civil/ money court, family court.

6/ All legal people qualified to work in one court in the nation shall be permitted to work in all parts in the nation. There shall be no shenanigans about legal people being admitted in some places but not others.

7/ No person working in the justice system shall be paid based on the outcome of their work, or as a percentage of the money they obtain from the system. This prohibition expressly includes all lawyers and surrogates.

8/ The educational program to become a surrogate shall take 60 weeks of study. The educational program to become a lawyer shall take 120 weeks of study. Neither program shall require a college degree for admission.

9/ Surrogates shall not be allowed to work as lawyers and lawyers shall not be allowed to work as surrogates.

10/ All court surrogates, shall only serve as total surrogates in court. If an authorized surrogate says one word before a judge or arbitrator on someone’s behalf, then that surrogate shall have the irrevocable obligation to settle that case on the client’s behalf, except where the surrogate is clearly incapacitated. In that case a new court surrogate shall be randomly drawn by the court.

11/ So that our nation’s lawyers and surrogates drive towards justice rather than against it, all lawyer-client and surrogate-client communication shall be recorded and monitored by the lawyer payment system and the courts. There shall be no privileged communication between a client and his lawyer or surrogate, exactly the opposite of the previous approach to doing things. All this communication may be viewed by the opposing party, the court, and the other trial participants without request or notice. This is notably the opposite of the old and corrupt lawyer-based justice system that needs sacred attorney-client-privilege to support the existence of expensive lawyers.

12/ The prime duty of all surrogates is discovering the truth and aiding justice, not represent their clients. If a surrogate becomes aware of important facts related to his cases, he must make them available to the court. And if a surrogate becomes aware of another crime, he must disclose that information to the court.

13/ Court surrogates shall not in any way encourage people to change their testimony or suggest that they should stop talking at any time. If they are wasting the time of the court through excessive talking it shall be for the judge(s) to cut off their testimony, not any surrogate.

14/ No more than one court surrogate at a time shall be permitted per side per case, and all court surrogates shall be required to work independently from one another physically, legally, financially, and with respect to the discussion of pending cases. There may however be multiple prosecutors in criminal cases. And when the people are seeking something in money court, there may send more than one person.

15/ All court surrogates must work full time for the court system and shall not work outside the court. All surrogates in each county must be paid at the same hourly rate. Surrogates shall not be paid based on how many cases they work on, or whether they win or lose. There shall be no ratings of surrogates, or win/loss information aggregation allowed. Except caﬀein, legal industry people can’t take any drugs or drink at all.

16/ When court surrogates oppose principals in court, the principal shall speak first and last.

17/ People over age 9 shall generally be expected to speak for themselves in all matters of family law including divorce, custody, support and inheritance, unless they are incapacitated or mentally incompetent.

18/ Parents, children, full siblings and spouses and
domesticcos of more than 3 years shall not be considered
court surrogates when they speak on behalf of others.
19/ Those who have spent more than 8,000 hours in the
prior 5 years working for a particular fictional citizen shall
not be considered a surrogate, provided they have not
spoken for a fictional citizen in any court in the past 5
years.
20/ Those who have owned more than 1% of a for-profit
fictional citizen since its founding shall not be considered
as court surrogates for that fictional citizen, provided they
have not spoken for a fictional citizen in the past 5 years.
21/ The people should have nothing against electing
court-employed surrogates to the Senate. The people
should however, generally dis-favor lawyers.
22/ Those who have outbursts in court may be required to
use a surrogate.
23/ No lawyer or surrogate legally doing their job shall
ever suffer prosecution, or be required to pay money for
unfortunate outcomes, or bad representation.

R'36. JAIL
1/ Once convicted, all prisoners shall be housed in
entirely isolated paired groups of no more than 10 people.
This so their incarceration does not serve as a criminal
education. Cell-block mates shall be matched for weight,
age, and ferocity.
2/ There shall be no conjugal visits, furloughs, or
exchanges of materials between prisoners and the
outside world. There shall be no direct face to face
contact between prisoners and outsiders. When prisoners
meet with outsiders, they shall do so via audio-video and
all communications shall be saved for 15 years.
3/ Those incarcerated shall live under 24-hour audio-
video surveillance. Those who talk about crime or have
sex while in prison shall have their sentence extended.
Those who have forcible sex with other prisoners shall
have their sentence greatly extended and they shall be
housed separately from other prisoners.
4/ Prisoners with contagious diseases shall be housed
separately from other prisoners not infected with those
diseases.
5/ Government may put anti-sex or anti-erection drugs
into the prison food if the prisoners are having sex.
6/ All incarcerated people shall work, or submit to Senate
approved re-education for 12 hours a day, every day or
they shall sit in 23-hour low-light solitary confinement with
no media while they refuse.
7/ There shall be no bargaining over pleas, and parole
shall not release anyone for good behavior until they have
served at least 3/4 of their sentence.
8/ Prison labor shall be auctioned-off on a biennial basis
to the highest bidder in the county the prison is located in.
9/ Prisoners that are not deported upon their release shall
get 1/5 of their prison wages in a parole account. This
money may only be used for housing and ingredient
stamps, and it shall be doled out at an appropriate daily
rate until it runs out. Anyone convicted of new crimes
before their money runs out shall lose everything in their
parole account.
10/ All money received by government for prison workers,
and not held on behalf of the prisoner shall be credited to
the national government. Never shall any party other than
the prisoner and the national government get any of this
money.
11/ Something is wrong if our land of the free has a
remarkably high percentage of its citizen population in jail
or on probation. No more than 5% of our citizens shall be
in jail or on probation at any one time. By 2022.01.01, this
percentage shall be reduced to 4%. This clause shall not
include war captives, illegal immigrants, and Exhods. The
Over-Senate may change this percentage with a 2/3
overmajority.
12/ Government shall not have any secret prisons and
nobody shall be secretly incarcerated by government.
Under the law, it shall be considered kidnapping when
people work in prisons or jails that are not shown on most
maps.
13/ All felons shall be disqualified from voting, owning or
holding a firearm, from working with other people’s
children, and from receiving public benefits. If they are
immigrants, their immigration status shall be canceled. No
felony conviction shall however disqualify a person from
obtaining a drivers license, occupational qualification, or
professional license, although the occupational record will
show that the person was convicted and served their time.
14/ When criminals are in possession of a firearm during a
burglary, hold-up, battery, car-jacking, kidnapping, or
similarly violent crime, it shall double the penalty. If the
firearm is discharged, the penalty shall be 2.5X as much.
When people are shot with a firearm by the criminal or
criminal gang during a violent crime, it shall generally be
considered attempted murder. Also, these penalties can
freely apply to other people that participate in a
crime, as well as those in the same crime gang or Mafia
cell.
15/ Felons, those in jail, and those on probation have
traditionally not been allowed to vote. The reason is that
these people will all vote for the candidate that calls for
criminal leniency, so allowing criminals to vote creates a
powerful criminal constituency eternally driving for
criminal leniency and even abolition of the police.
16/ With violent criminals we shall err on the side of
longer work-camp sentences in more comfort than shorter
sentences in less comfort.
17/ Work camp shall be a place that reshapes convicts
and at least temporarily habituates them to life as a
productive and valuable workaholic.
18/ Work camp is not nice because of the amount of work
that must be done, the low pay and savings possible, and
the lack of free time. Jail is awful because the convict
lives in a tiny cell by himself for most of the day, with loud
re-education media playing all the waking day to prevent
communication and disturb thinking. The food is much
worse, there is no media or internet access, and the convict is not able to save any money because he is not working. In work camp, there is monitored web surfing and ordering of goods. In jail there is no internet access. Also when people are kicked out of work camp, they normally get their remaining sentence increased by 15%.

E — GOVERNMENT FINANCES

R'37. INCOME AND CONSUMPTION TAXES
1/ The taxation of net income shall be prohibited except in industries, activities and ownership rights that have been elected for cuttailment by the Senate. Except in these cuttailment industries, government shall be prohibited from taxing work, net income, investment income, or investment gains in any way.
2/ It shall be noted that general sales taxes are superior to general income taxes for the following reasons:
a/ Income taxes discourage work and especially savings and lending by taxing them all. Consumption taxes on the other hand to not discourage saving and money lending because the interest income is tax free. The previous income tax system seems to have been fostered by the Mideast parasite to reduce competition when it lends its stolen money back to us.
b/ Income taxes tax return on investment, and thus reduce the rate of economic expansion.
c/ Consumption taxes are much harder to cheat on.
d/ Taxing income encourages people to take on debt expenses to reduce their net income. This greatly increases demand for lending unnecessarily and creates a higher interest rates situation that is purely negative for economic expansion.
e/ Consumption taxes allow for IP protection periods to be shortened by more than 1/3 with no loss of after-tax income for inventors.
f/ Consumption tax systems can be easily sloped to defend against foreign predatory pricing. Income taxes favor and subsidize foreign producers in low tax nations.
g/ Unprofitable enterprises with many employees pay no tax under income taxes. Thus income taxes are inherently biased towards keeping inefficient labor uses alive. Thus income taxes harm labor productivity. Consumption taxes do the opposite and drive the economy towards increased labor productivity.
h/ Consumption taxes for businesses and non-profits can be made progressive in a much fairer way than income taxes, which are inherently vulnerable to cost loopholes. Thus we can charge a higher tax for larger enterprises than smaller ones based on turnover. Thus they we can slope the economy away from an anti-competitive industry consolidation situation, and towards a competitive and vibrant ecology of small businesses.
i/ The only problem with consumption taxes is that they are regressive. This however is easily counteracted by excluding certain necessities of life from consumption taxation.
3/ There shall be no tax on tools, capital equipment, production machinery, devices used to mass produce goods, and materials for manufacture when they are used purely for commercial purposes. The word purely is emphasized here. Vehicles used for both commercial and personal use shall not be considered capital equipment. Vehicles that weigh under 3,000KG shall not be considered capital equipment unless there is only one seat, or 12 or more seats.
4/ Manufacturers shall pay no tax until their products are sold, leased, or otherwise put into use.
5/ Businesses that sell to the final consumer for a profit shall pay an additional sales tax of at least 1%. Enterprises that sell to the final consumer, but are non-profit and community-run shall be exempt from this tax.
6/ There shall be a car dealer sales tax of 2%. This tax shall apply to all transactions where the vehicle seller is neither the manufacturer nor a user of more than 90 days.
7/ The counties of our nation shall not compete with each other in offering special tax breaks to attract industry.
8/ To slow industry consolidation, whenever a company is sold for more than 1,000 years shall pay, income tax of 20% shall be due on all amounts over 1,000 years wages. When a company is sold for more than 50,000 years shall pay, income tax of 30% shall be due on all amounts over 50,000 years wages. Under this tax scheme, it will be very hard to make up the tax money, and most will chose not to sell out to the competitors. Thus the economy will tend to remain younger and more dynamic.
9/ All lawyers and commission sales people shall pay income tax of at least 30%.
10/ Industry-specific income taxes shall be imposed on actors, musicians, professional athletes, and other occupations where excessive pay is either detrimental to the national economy, or the ambitions of the nation's youth. These occupations shall pay 90% income tax on income over 3 times the average wage.
11/ All money collected by fictional citizens that claim to aggregate, represent, or further the interests of an industry, a product group, or a special interest shall be subject to an income tax of at least 50%.

R'38. LUXURY TAX
1/ The Senate shall tax all luxury and ostentation value by at least 30%. The Senate shall be allowed to tax ostentation value by over 1,000-fold if it elects.
2/ If the Senate elects that people are buying status or cachet from any source, it shall impose a luxury tax on that source of corrupt and purchased status. The Senate shall defend the value of legitimate Senator and Ubiq status from corrupt competition.
3/ Cool and cachet shall be considered as luxuries and thus subject to luxury tax.
4/ Products with obtrusive product identity, and other branding that hijacks the public's attention shall pay luxury tax.
5/ All gourmet, natural and imported comestibles shall be...
subject to luxury tax. Any product that claims to be organic, natural, preservative-free, pesticide-free, fair trade, free of genetically modified organisms, or any other self-imposed limitation that makes a product artificially scarce shall be subject to luxury tax.

6/ Passenger vehicles charges that are more than 10% over the median price shall pay luxury tax unless they are shared by a community.

7/ The Senate shall require that luxury products over a low value be numbered and registered with the public luxury product's registry website. Anyone using a luxury product, must be registered to it and have their unnamed photo posted on the registry website. This way when anyone runs the luxury product number, the owner's picture will come up. It shall be considered tax fraud for anyone to have luxury goods without having paid the appropriate tax. Also, given that there will be no cash in circulation, and all luxury products will be numbered, theft will get much harder to get away with.

8/ Luxury products shall not be purchased with cash.

9/ It shall be a crime to gift a luxury product without declaring it to government.

10/ People under the legal age for prostitution, and not accompanied by their parents shall not be allowed to use luxury products. It shall not be allowed to make or advertise luxury products for people under this age, as this corrupts our youth with greed, envy, and shallowness while they are young and their character is still pliant.

11/ Until mankind has ended human hunger, and put away enough food for the next ice age, all pet products and pet related services (including equines) shall be subject to luxury sales taxes of no less than 100%.

R’39. TAXATION RULES

1/ No tax, charge, or fee shall be laid by government, unless proportioned to population, meterage, use, cost, comparable sales price, spending, government benefits received, or some other quantifiable and sensible metric.

2/ In the interest of tax fairness, the following shall be exempt from all forms of taxation and government fees for citizen purchasers:
   a/ Public transit.
   b/ Tier-1 and Tier-2 healthcare.
   c/ Serious education fees and serious learning materials.
   d/ Per-capita housing expenses under the 20th percentile for the nation as a whole. This is intended to drive the poorest 20% from from the nation’s most expensive cities.

3/ In the interest of tax fairness, basic food ingredients costing less than a given price per kilo, as established by the Senate shall be tax free. To start this amount shall be $5/KG ($2.27/lb.). Food costing over this amount by weight shall pay the incremental tax. This tax exclusion for weight shall not apply to beverages, fruit, food called organic, or natural, or any groceries where sugars natural or added are more than 8% of total calories.

4/ No portion of anyone’s tax payments shall be allocated according to the election of the taxpayer.

5/ In order to support a system of high sales tax reporting, it shall be considered tax fraud for anyone to sell anything in this nation without using a real time tax reporting device and receipt generator.

6/ Sub-layers of governments shall not complicate the nation’s tax system with their own additional tax laws, tax filings, or tax conditions. All counties shall comply with the Senate’s Uniform County Tax Code, selecting which optional clauses they will implement.

7/ Higher taxes shall apply in the old inefficient automobile-based districts than the efficient new rail based districts. These taxes shall reflect true cost of operation by the public.

8/ Tax money from the rail-based districts shall not be used to subsidize the automobile districts or the intercity road system in any way, either directly or indirectly.

9/ The various county tax collectors shall collect and administer the intake of both county and national taxes. These offices shall not be administered by the national government. The national government shall perform redundant auditing of the both the county tax collection system and taxpayers.

10/ All real property taxes shall be based on square meterage, or acreage of land and improvements based on the category of land and the category of structure. These categories shall be established at the national level for all real property in the nation.

11/ Property tax shall be due from all real estate owned by both the people and their government. This is so the people can accurately grasp the scale of land wealth held by government in proportion to the land wealth held by the people.

12/ Those who do not pay real or personal property tax when they should shall generally be regarded as having no property rights in that taxable thing. Those who fraudulently pay less than 1/4 of their property's value shall generally be regarded as having no property rights. Those who pay between 1/4 and 1/2 of their property's value shall generally be regarded as having limited property rights. Those who pay over 1/2 of their property's value shall generally be regarded as having full property rights, but shall be subject to a reasonable deter-hence fine.

13/ There shall be no statute of limitations with regard to those who bribe or otherwise corrupt the tax house. This clause shall apply to crimes committed before this Constitution was in effect.

14/ Government shall pose as both buyers and sellers in tax fraud sting operations.

15/ Government shall not charge for any service used by more than 1/3 of the people and which costs less than 60-minutes wages per citizen per teneth. Government shall not charge for any service used by more than 1/5% the people and costs less than 15-minutes wages per citizen per teneth. Any raw materials, access, or service that can
be efficiently and feasibly run by government as a universal free thing for all citizens shall be run that way. 16/ All real property tax assessments shall be based on square meterage and this rate shall take no consideration of the property’s age or condition and ceiling heights. All ceilings over 3 meters shall pay 1.5X taxes. All ceilings over 4 meters shall pay 2X taxes. All ceilings over 5.5 meters shall pay 3X taxes. Permanently sealed sub-floor and over-ceiling insulation areas shall not count in determining ceiling height.

17/ So that government does nothing to discourage wall insulation, the interior walls surface shall be used in determining floor area, provided the walls:
a/ Contain no voids except 3cm air separation planes.  
b/ Are less than 50-cm thick.  
c/ The space inside the wall is permanently sealed and unused.

18/ To reduce the potential for fraud against government, there shall be no tax refund payments of any kind for at least 60 days after payment was made. Also, all requests for refund shall require a 30-days lead time.

19/ So that government never discourages the sharing of the nation’s assets, there shall be no special tax on rented assets once the regular consumption and property tax has been paid.

20/ Our nations shall charge at least the minimum wealth tax, the minimum consumption tax, the minimum luxury tax, and other minimum uniform tax rates that the UM establishes. We shall not cheat the international tax system.

21/ The Senate shall attempt to map the main money flows and all wealth in the national economy for all to see.

R’40. WEALTH AND POVERTY TAXES

1/ For the long run welfare of the nation, the Over-Senate shall conduct regular sophoscites to elect an ideal wealth distribution curve for the nation. This curve is intended to balance the rapid advancement of the whole with help for the people left behind. The Senate shall then institute wealth taxes and flation to guide our nation towards this goal. The Senate shall err slightly on the side of rapid evolution and economic strength over equality and fairness as to do otherwise is to slow the advancement and progress of our society.

2/ As the begeting power of money increases exponentially, so shall the wealth and property taxes of our nation.

3/ It shall be the stated objective of this nation to create a large middle class. To this end, government shall impose progressively withering taxes on wealth over 2,000 year’s wages. Government may also impose poverty taxes on the time, comfort, convenience, and tastebuds of those who spend too long on public assistance.

4/ The law shall not be enforced more strictly against the poor than the rich. If anything, the rich shall be presumed to be more knowledgeable, and held to standards a sliver more strictly enforced, but only the faintest sliver, so we never go in the other direction again.

5/ The laws and tax code of this nation shall favor the people and the masses over the wealthiest 1%. The tax code shall strive to wither the wealthiest 1% so that they must continue to be active or they will regress financially.

6/ Government shall not aid the rich in times of economic crisis, but must aid the poor. All government bailouts shall dilute the equity of those bailed out by a fair amount with the people getting the dilution.

7/ The word wealth breaks down as we•alth, or we•towards•go. So the word wealth has traditionally referred to the parasite’s share from operating various financial drains. Rich and wealthy people both have lots of assets. Rich is a vague word, but wealthy refers more to the sort of financial abundance that is passed to others after death, or spent carelessly on oversized lifestyles.

8/ In order to totally kill Ištart, the people will be allowed to be rich, but not so much inter-generationally wealthy. We shall impose very high taxes on excess personal wealth beyond the point where money stops motivating people to work harder.

9/ The following wealth tax rates shall apply until the Over-Senate changes them with a 2/3 overmajority. The term WAGES, as always in this Constitution is the average wage the nation and the years below are 2,000 work hours each:

a/ Under 50-year's wages pays no wealth tax.  
b/ Over 50-year's wages pays a 1% tax.  
c/ Over 500-year's wages pays a 2% tax.  
d/ Over 5,000-year's wages pays a 3% tax.  
e/ Over 50,000-year's wages pays a 4% tax.  
f/ Over 500,000-year's wages pays a 6% tax.

R’41. BASIC PROPERTY TAX

1/ If property taxes are too low, it will tend to cause high property values that become property bubbles. While inflating, these bubbles increase demand for the money lent from economic parasites. And after the bubbles pop, the economic parasite often finds itself in possession of many assets pledged as security. Thus we recognize that a system of low property taxes is a system that favors property bubbles and economic parasitism.

2/ Government shall strive to go in the opposite direction as much as practical. In fact, the largest source of county government revenue shall be the property tax, the existing stuff tax. Meanwhile the largest source of national revenue shall be the national sales Tax, the new stuff tax.

3/ To reduce fraud and stealing of tax monies through centralization, the counties shall be responsible for collecting both the property tax and the sales tax. Thus government’s two main revenue sources shall be administered at the county level.

4/ To reduce fraud and stealing in tax collections, we will establish a system where the national tax house double-checks the various county tax houses, and the various
county tax houses shall double-check the national tax house. To this end, a percentage of the property tax shall be given to the national government, and a percentage of the sales tax shall be kept by the various county governments.

5/ To start, 80% of the property tax shall accrue to County government and 20% to the national government. To start, 80% of the sales tax shall accrue to the National government and 20% to the county government. Depending on the revenue needs of the national and county governments, the national Over-Senate may adjust these percentages with a 2/3 overmajority. However, at least 10% of each category must be shared so that both are monitored and checked by the other part of the nation's government.

6/ All county property tax assessments shall accurately reflect the current market value of all property in that county. Government shall be prohibited from discounting assessments or tax rates to any group of property tax payers for any reason.

7/ The purchase price shall only be a consideration in the first year of ownership. After the first year is over, each property's market value shall be assessed and the property taxes computed based on this market value.

8/ Government shall not restrict the rate at which property tax assessments rise as the rise in property taxes is an important safeguard for property price bubbles. Discounts for long-time and retired property owners shall be prohibited because these cause both shortages and property price bubbles.

9/ All counties must abide by the assessment rules set forth by the national Senate.

10/ Property taxes shall be paid tenethly. There will be a single total amount including all utilities and local fees.

11/ Starting on 2023.01.01, property taxes shall be paid by the occupant unless the property is vacant, or the rental term is shorter than 10 days, in which case the owner shall pay the property taxes.

12/ The occupant of all places shall register with the government and be responsible to the government for all taxes and fees associated with the use of the property he occupies.

13/ Tenant rights shall be considerably lower for rental terms shorter than 10 days.

14/ No rental agreement shall be valid unless recorded, and the tenant assumes responsibility for the property taxes, and he is not in arrears for his property tax payments. When tenants fail to pay their property taxes they shall personally suffer a tax lien, as well as the loss of the ability to rent property for longer than 10 days at a time and shall instead have to rent by shorter terms.

15/ When non-occupant owners fail to pay their property taxes for more than 5-teneths, their property shall be auctioned off by the county. When occupant owners fail to pay their property taxes for more than 20-teneths, their property shall be auctioned off by the county to pay for taxes. Deferred tax payments shall incur twice the prevailing interest rate, but in no event less than 10% interest.

R'42. PROGRESSIVE PROPERTY TAX
1/ Throughout history, in all long-lived cultures, the natural network effects of land ownership and unfettered wealth results in a few people owning most of the land. This has surely been the a main thing undermining the long term viability of freedom. Therefore, our new democracy will start with a slant away from consolidation by means of a tax that charges big land owners more than small ones. The following taxes are intended to be in addition to other property taxes and will only affect those who own large amounts of real estate.

2/ All owners shall pay progressive property as called for below depending upon how much property is held under one name either directly, or indirectly, or by any means whether rented, optioned, fractionally owned, held in trust, owned through fictional citizens, owned by one's householders, owned by one's offspring who are under age 28, or in any other way controlled by one household. This progressive property tax is an important part of preventing economic parasitism. It is also a good way to reduce the network effects of wealth among the super-rich that so often serve as fronts for economic parasitism.

a/ Ownership of less than 50 dwelling units, 5,000 sqm. of structure, 5 acres of unused or privately used land, 20 acres of commercial land or 1,300 acres of agricultural land in production shall be exempt from progressive property tax. Ownership over this amount shall incur progressive property tax at 1% of market value annually in addition to the basic property tax.

b/ Ownership of over 500 dwelling units, 50,000 sqm. of structure, 20 acres of commercially unused or privately used land, 200 acres of commercial land, or 5,000 acres of agricultural land in use shall incur progressive property tax at 2% of market value annually.

c/ Ownership of over 5,000 dwelling units, 500,000 sqm. of structure, 200 acres of commercially unused or privately used land, 2,000 acres of commercial land, and 50,000 acres of agricultural land in use shall incur progressive property tax at 4% of market value annually.

d/ The tier points, and tax rates of this section are intended only as a preliminary framework and they may be adjusted by the Over-Senate. There can be more than 4 tiers. Also, there should be a formula for combining the various categories (units, structure, acres), so people can’t cheat by owning a little of each category of real estate.

e/ Different sorts of agricultural land should have different threshold levels depending on how fertile and valuable the land is.

f/ For the purposes of progressive property tax, land must be outside the nation’s urban periphery development zones in order to qualify as agricultural land.

3/ Projects that are entirely government owned, as well as rail-based townships organized and owned by a
community of over 200-residents shall be exempt from progressive property tax.
4/ To close a loophole for builders we shall say that newly constructed and unsold structures shall be exempt from progressive property tax for 1 year. In times of economic crisis, and when the real estate market suddenly turns soft, government may extend the new construction exemption period to as long as 4 years.
5/ It is hoped that the relentless and erosive forces of corruption and parasitism will never be able to amend this Constitution to allow fictional citizens to own land. However, if that ever does come to pass, the backup plan is to require fictional citizens to be subject to progressive property just like real citizens.
6/ Commercial land means land mostly used for commercial purposes or is being prepared for structures.
7/ Our nation’s territory is huge and remains full of unused farmland. Therefore, we shall be extremely generous with our progressive property tax levels. When more crowded nations copy our constitution, it is recommended that they user smaller land ownership thresholds for their progressive property tax.

R’43. INHERITANCE AND DEATH
1/ Dynastic wealth and power are not only vitally important to economic parasitism, but they are also quite demotivating and unjust. Therefore, our nation shall err on the side of profoundly limiting the inherited wealth of the rich.
2/ In our nation, economic freedom shall be considered something that is almost entirely non-dynastic and not passed from one generation to the next. There shall be no right to inherit massive wealth, and no person may inherit more than 100-year's wages in their lifetime.
3/ There shall be an inheritance and gift tax of at least 80% on estates worth more than 20 year's wages. There shall be an inheritance and gift tax of at least 94% on estates worth more than 1,000 year's wages. There shall be an inheritance and gift tax of at least 98% on estates worth more than 5,000 year's wages.
4/ All inheritances exceeding 1-year’s wages shall pay at least a 90% inheritance tax except people who are a: a/ Genetic descendant of the deceased. b/ Parent of the deceased. c/ Co-parent of a living citizen with the deceased. d/ Full sibling, or maternal half sibling of the deceased. e/ Live-together domestic partner of the deceased for more than 4-years.
5/ To prevent tax skirting brotherhoods we shall have it that half siblings that share a father shall be considered as unrelated for the purposes of receiving inheritance tax. Adopted children shall also be considered as unrelated for the purposes of inheritance tax.
6/ When people inherit community property that is worth over 20-year’s wages, and later enter into another subsequent community property marriage, the subsequent community property marriage shall not be subject to the community property inheritance tax exclusion.
7/ The community property exclusion for inheritance taxation shall be limited to 1,000-year's wages, over a recipient's lifetime.
8/ All bequeaths to domestic fictional citizens are subject to at least an 90% inheritance tax. All bequeaths to fictional citizens based or headquartered in a foreign nation are subject to at least an 98% inheritance tax.
9/ All pre-death gifts by those who know they are dying, or those past the median life expectancy shall be subject to inheritance tax. All gifts over 10 year's wages in a giver's lifetime shall be subject to inheritance tax.
10/ Non-relative people who care for elders shall not be allowed to inherit more than the lesser of 10% of the estate, or 2 years wages. As normal, this is the average national wage, not the employee's pay and this shall also apply to people who receive money on behalf of the worker.
11/ In order for a will to be valid, the testator must appear at the county recorder's office and recite their entire will to the recorder's video camera. If they are over 60 years old, they must look into the camera for at least 15% of the time they are talking, and they must answer 20 simple Alzheimer’s questions on camera to demonstrate that their mind, memory and judgement are sound.
12/ Wills shall not be modified, but only re-recited to the recorder in their entirety.
13/ Only the most recent recorded will shall be valid. Non-recorded wills shall not be valid at all.
14/ Depending on the size of the estate, a civil court judge or Sub-Senate jury of appropriate size shall execute the will. The venue shall be the county where the testator had the most valuable pile of assets.
15/ Except when the value of the estate is less than 3-year's wages, the people shall not have the right to appoint their executors. All executors for estates worth over 3-year's wages shall be randomly selected Senate jurors.
16/ There shall be no fee when government executes a will as this is an inheritance-tax related service.
17/ Except when the value of the estate is less than 2-year's wages, there shall be a civil court hearing approximately 40 days after the death. The recorder shall notify all parties to the will, and all registered creditors of the hearing. All family may attend, and all parties to the will may attend.
18/ Before the hearing, the recorder's office shall use the sales tax system to notify all possible creditors. Where sufficient money is on hand, the recorder's office shall also settle the recorded liabilities of the dead person. Then the recorder’s office shall prepare a preliminary division of property based on its assessments and the will. This court's property division shall be final and shall
but less than 90% of the private benefit. Government shall aim to recover more than 80%, one time, or it may be spread out over as long as 23 years. Government shall get 10% of their 3rd party wages as a tax credit. Those who work past age 70 shall get 5% of their 3rd party wages as a tax credit. Those who work past age 65 shall have 3/4th of their 3rd party wages as a tax credit. Those unable to pass both test shall have the guardian's approval. They shall also take a written and road test of their driving reasoning and judgement. If they are licensed to drive, they shall also take a one-hour video recorded group test of their memory, to be suffering from mental senility must take an annual statement. Everyone over age 70 and those said by their family and payments. These shall only serve as a circuit breaker for unreasonable decisions.

30/ All existing graveyards shall be nationalized and given to the county government.

31/ There shall be no new mausoleums or halls or any other structure at any graveyard. Nobody shall have a grave stone larger than 80cm x 80cm x 7cm.

32/ Those showing any sign of senile dementia must appoint a co-signer guardian for all financial decisions and payments. These shall only serve as a circuit breaker for unreasonable decisions.

33/ Everyone over age 70 and those said by their family to be suffering from mental senility must take an annual one-hour video recorded group test of their memory, reasoning and judgement. If they are licensed to drive, they shall also take a written and road test of their driving skills. Those unable to pass both test shall have the words "NO DRIVING, NO CONTRACTS" printed their government identification. These people may not sign to contracts or undertake financial obligations without their guardian's approval.

34/ Those who work past age 65 shall get 5% of their 3rd party wages as a tax credit. Those who work past age 70 shall get 10% of their 3rd party wages as a tax credit. Those who work past age 75 shall get 15% of their 3rd party wages as a tax credit.

R'44. GOVERNMENT SPENDING

1/ Government may spend group money in such a way that it disproportionately benefits one group over the rest. However, government shall where practical and fair recover most of that benefit through the imposition of taxes on the public benefits received. This tax may be one time, or it may be spread out over as long as 23 years. Government shall aim to recover more than 80%, but less than 90% of the private benefit from its infrastructure.

2/ When the people's money is used to build or maintain non-government infrastructure or property, the people shall have the right to their fair share of equity in that thing. This shall be based on the percent contribution by the people.

3/ All proposed laws and spending by the national government shall have a cost-benefit, and cost per expected user analysis. Where possible, these documents must cite comparable private sector prices.

4/ Whenever government calls for an industry to bear great cost for the public's health or benefit, it shall where practical and fair grant public compensation money. This however shall not apply to curtailment industries.

5/ Wherever possible, government shall obtain services and materials on the open market, and under terms reasonably conducive to minimizing price and maximizing the national interest. No law shall unreasonably limit the government's suppliers or contractors.

6/ Government may require the use of domestic suppliers, and it may exclude troublesome or unreliable suppliers, however, any law that excludes any other class of suppliers from government projects shall require a 2/3 overmajority for passage.

7/ Government contract specifications that favor big companies shall be avoided where practical. All other things being equal, government shall favor smaller suppliers over bigger ones.

8/ If government cannot find acceptable domestic suppliers, and it does not want to use foreign suppliers, then it must help create domestic suppliers.

9/ No sluice or Centi-Nome shall spend more than 10% of its tenethly budget in any one vote, nor allocate more than 1% of its annual budget with any single vote except with a 2/3 overmajority.

10/ Everything that the government buys shall be adequately described, categorized, and posted online for all bidders to view. No bidders shall be given preferential access to government bid information, and sufficient time shall be given for bidders to respond.

11/ No money shall be drawn from the treasury, except by Senate vote.

12/ All spending allocations shall be by teneth. Each teneth, sluices and the Over-Senate shall publish a balance sheet along with an income and expense statement.

13/ Assembling large numbers of people together in a stadium is both a biohazard and a terrorism threat, viz the Nica massacre. This risk is no longer necessary given the state of video telepresence. Therefore no government money shall be used to build or buy land for giant theaters, arenas, stadiums, or other forms of colosseum. No public land shall be given or sold at a discount for any form of colosseum. If government builds any roads or transportation infrastructure to a stadium, the cost of that infrastructure shall be recovered from the stadium.

14/ No government money or tax breaks shall be given
for putting on live performances, live presentations, or live athletic competitions. No government money shall be used for putting on athletic competitions of any sort. Government money may only be paid to performers, presenters and creators if there is no live audience, and the work is recorded, and this recording is posted for all to see.

15/ No government money, tax breaks, non-profit status, or public land shall be used for museums or zoos unless:
   a/ There is no charge for admission
   b/ Multiple high quality photos of all exhibits are put online for all to see free of charge and free of registration.
   x/ If the land for the museum or zoo was previously given, sold, or leased by government, then that institution must abide by this clause.

16/ Government shall be prohibited from building monuments to great men. Government shall be prohibited from naming any public property or road after any political leader.

R'45. THE INITIAL TAX SYSTEM

1/ To jumpstart the economy after the metaphorical heart transplant, all tax payments shall be suspended until the Senate implements them. We will let the kelp reach the surface and the strong sunlight. Then when X gets past 1 on an exponent curve, then is the time we will start imposing taxes.

2/ The public purse is going to soon spray huge amounts of money/fuel into the engine of the economy. It is going to rebuild all the cities, build a new rail-based train system, and set about to increasing humanity's terra forming abilities by one to two orders of magnitude. And we are going to need lots more of everything to do that. Getting the economy going again will not be much of a problem.

3/ Without a parasite running our government as a feeding mechanism, government will become much more efficient, so it will need less money to do the same thing. Therefore the private sector will tend to rev faster with the same inputs.

4/ Due to a general cancellation of debts, nobody will be in debt as individuals. The people will therefore be able to afford to pay more taxes in addition to their money going further.

5/ Over 80% of debt appears to be to foreigners. Thus the national debt, and interest on the national debt will fall by over 80% after the debt cancellation.

6/ Tier-1 healthcare, will be significantly funded with taxes on luxury healthcare and other healthcare taxes. Taxes on unhealthy goods such as tobacco, alcohol, sugars, carbonated gut-stretching beverages, and mafia drugs, shall pay a large part of the remainder.

7/ There shall be no income tax except for cuttailment industries. No longer shall we tax people for working or investing their money, except in cuttailment industries. The people shall pay taxes based on how much they spend. Thus we shall become more a nation of thrifty people who work hard.

8/ When people make more money from commodity exchange than they do from either producing commodities or using the commodities, they shall pay a 50% income tax on the excess.

9/ The initial tax system shall start as follows. It can be adjustable up or down with a 60% overmajority from the Over-Senate:
   a/ There shall be no income tax.
   b/ The sales tax for goods and services shall start at 20%, the same as the UK rate. It may reach 25%.
   c/ There shall be a wealth tax as described elsewhere herein.
   d/ Property taxes will be higher.
   e/ Corporations will pay death tax each year.
   f/ The inheritance tax shall be much higher
   g/ Luxury tax will be much higher.

R'46. NON-REGRESSIVE TAXES

The regressiveness of the tax system will be reduced with the following tax exclusions:

1/ All municipal transit shall be free to use.

2/ Government shall maintain an ever growing public-domain media, information, and software library for free download.

3/ All textbooks and education media shall be virtual and provided by government for free.

4/ Government shall produce self-study instruction media modules for every common trade and profession as well as all popular academic areas. These shall be free to download or stream and shall be translated into all the major languages. A gift of freedom for the world.

5/ After school care, and school meals will be free.

6/ Government shall provide free testing in all professions, occupation, and workplace-oriented academic areas. Employers shall be required to use these cheap, non-corrupt, objective tests instead of expensive, corrupt, and subjective academic degrees.

7/ There shall be no tax on basic food ingredients to include animal meats, but not sugar and fruit, or alcohol.

8/ Government shall provide fixed-line and wireless internet for free.

9/ Voice calling shall be free worldwide.

10/ Tier-1 healthcare shall be free except for the deductible and copay.

11/ Government shall Ubiquitize a large number of drugs. Thereafter, these shall be sold without any intellectual property rights charges.

12/ Each person shall get to deduct 25 square meters of property tax.

R'47. PUBLIC PROPERTY

1/ It shall be a felony to knowingly arrogate public property as one's own, or to deny the public the right to use public property.
2/ It shall be a felony for people to pretend that they work for government, or that they hold government powers they do not hold.  
3/ It shall be a misdemeanor to crowd the public way in order to make money from slowing traffic.  
4/ Government property shall not be sold, leased, acquired, or con-demned except upon the approval of a properly sized Senate jury according to the following value schedule:  
   a/ Under 1 year's wages, 3-Senators.  
   b/ Between 1 and 5 year's wages, 5-Senators.  
   c/ Between 5 and 25 year's wages, 11-Senators.  
   d/ Between 25 and 125 year's wages, 45-Senators.  
   e/ Between 125 and 625 year's wages, 135-Senators.  
   f/ Between 625 and 3,125 year's wages, 499-Senators.  
   g/ Over 3,125 year's wages, 1199-Senators.  
5/ Government shall make clear rules for the management of group assets. Because it tends to be both easier and more profitable to steal from groups, the penalties for crimes against groups shall be higher.  
6/ All government property shall be stamped "G-PROP" in certain locations for that type of object. If the property is of significant value it shall also have a locator chip unless it is used in spying or criminal investigations.  
7/ It shall be a crime to be in possession of any stolen government property, even a plastic pen. Government and the people shall be fastidious about making sure that government and public assets are not arrogated.  
8/ This nation shall guarantee private property rights, but if anything is on the line, it shall be public domain. Government and the courts shall always err on the side of the public domain when drawing the line between the public domain and private property.  
9/ Government shall vigorously defend the public domain against arrogations and infringements, both in the future and in the past.  
10/ In recessions, idle labor should be employed on increasing public infrastructure. When the economy is going too strong, government shall cut back on public infrastructure spending.  

R'48. INTERNATIONAL TRADE AND RELATIONS  
1/ Ordinary tax evasion deprives government of revenue. Smuggling not only deprives government of revenues, but it also endangers our nation's industry and free markets. Therefore, the budget for anti-smuggling enforcement shall be three times the rate for other forms of tax evasion, tax-dollar per tax-dollar.  
2/ At least 90% of the budget for smuggling prevention shall be used for bulk shipments.  
3/ Government shall open every single shipping container entering this nation and the cost of this shall be charged at actual cost to the shipper. No less than one in 10 containers shall be randomly selected, unloaded and inspected.  
4/ Effective 2027.01.01, all shipping containers entering this nation shall have a steel floor on casters that can be slid out for customs inspecting of the cargo. This also facilitates using overhead robot grappling for both loading and unloading.  
5/ All containers entering this nation shall have a unique international number and a large bar code on all 6 sides.  
6/ No tax, toll or duty shall be laid on the movement of goods within our nation.  
7/ There shall be no sales tax on goods sold to other nations. All goods sold in this nation whether produced domestically or imported from other nations shall pay the same sales tax for that category of good.  
8/ Government shall never in any way directly, or indirectly subsidize the importation of anything.  
9/ All ports and airports shall be nationalized and given to the county they are located in. All ports and airports shall be owned and operated by their county government and none may charge any docking, lading, or unloading fees except those uniform fees authorized by the national government.  
10/ All ports shall stream live, overlapping cam-to-cam, high definition video feeds for all to watch. All shipping containers numbers shall be scanned and live streamed along with all relevant information about the importer and the container's contents.  
11/ Port and dock workers shall not be overpaid and thus made afraid to make waves.  
12/ All customs inspectors shall wear law enforcement type cams. Cam wearing Sub-Senators shall supervise the customs inspector at a ratio of at least one Sub-Senator per 8 customs inspectors.  
13/ Customs inspectors work in pairs. One of the pair is a career inspector, the other is a one day per week police officer, or former police officer. The Senators rotate quickly and  
14/ The cost of goods should be generally irrelevant to the assessed value and the import taxes they must pay.  
15/ There shall be no diplomatic immunity for drivers, or parking, or violent crimes committed in front of many witnesses, or clearly recorded on video.  
16/ All communication with the PU shall be recorded, and all shipments to and from the PU are subject to inspection. It shall be a felony to engage in encrypted communication with the PU. It shall be a felony to engage in Islamic money transfers or to send money to the PU without government approval.  

R'49. SHARED PUBLIC INFRASTRUCTURE  
1/ Nobody but the people shall own the market or the path to market.  
2/ All ports, airports, shared roads, railroad tracks, rights of way, railroad lands, railroad stations, and all bus stations are hereby nationalized. There shall never be any non-governmental ownership of any of these places.  
3/ Except for when we try new approaches in limited areas, there shall be no non-government ownership of any electric utility, water supply, water utility, natural gas utility, information line, telephone, cable TV line, fiber-
optic line, telephone line, aqueduct, canal, broadcasting property, pipeline, road, railroad, railroad locomotive or transportation infrastructure. All this group infrastructure shall be nationalized, and all shall belong to the Senate and people of our nation. The railroad cars and road vehicles shall however mostly be not government owned.

4/ No shared public infrastructure shall in any way tax or profit from new users connecting to the system. All connections and new users may only be charged at true marginal cost.

5/ There shall be no parking of vehicles on arterial streets where an extra lane, or wider lanes would improve traffic flow.

6/ Nobody, and no community shall profit or boost sales by crowding, slowing, or throttling the pathways of this nation.

7/ Merchants and cafes shall not be allowed to crowd the public walkways, or public squares. Aside from this, however they shall be free to use the sidewalks without permission from, or payment to government. However, if people live within earshot, the the sidewalk must close from 9:00pm to 7:00am unless government allows them to stay open later.

8/ No individuals shall every acquire any right to the public right of way or have any right to compensation for government's decision to alter anything in the public right of way.

9/ The wishes and needs people living or working near noisy arterial routes shall be considered entirely irrelevant in government's decisions about that route. Anyone who elects to live or work near an arterial route must accept any and all increases in traffic and noise along that route.

10/ Communities outnumbered by the daily flow of a through-route, shall not slow or impede that route in any way. Even the presence of schools on through routes shall be secondary to the objective of not slowing through-routes and the exponential shrinking of our communities that results. Better we fence the schools than slow the routes. Communities shall however be free to build high-speed bypass loops around their area. Communities may also build noise walls if they pay for them locally.

11/ The Senate may use eminent domain to acquire assets for public infrastructure.

12/ Public transit and other common transportation infrastructure systems shall be organized to maximize service and convenience to the people, not to maximize profit for government, and definitely not to maximize profit for the people who manage the system.

13/ Government shall have no liability for utility system failures. Government shall have no liability for power lines downed by wind, weather, lightning, earthquake, or flooding. Government shall have no liability for fires caused by a failure of any utility system except windmills.

14/ No utility administration public or private may install or maintain its own lines. All must use open market contractors. No utility contractor shall exceed 5% of any utility's new construction, or 5% of any utility's maintenance.

R50. PROPERTY CONDEMNATION

1/ Linear infrastructure shall include roads, railroads, wires, pipes, channels, communication lines, and other pathways that facilitate group interchange between the people. It is vitally important to the economic health of our nation that linear infrastructure right-of-way acquisition costs and other government property acquisition costs be as low as reasonably possible, so the people may have the best infrastructure, and the best government facilities possible.

2/ All privately owned non-urban land shall be considered location fungible with regard to the construction of new group infrastructure and new communities for the benefit of the people.

3/ Government shall give a reasonable but sparing inconvenience increment when it compels a transaction to acquire land. However, government shall generally be prohibited from paying money when it con-dems land for linear infrastructure. Government may pay money for improvements, but it shall generally not pay money for land. Government shall generally only give replacement land for the land it con-dems, and this land is supposed to be worth about 15% more.

4/ When less than 3% of a human owner's land is con-demed or cut-off by a con-dem nation(s), government shall give nothing to the land owners, except where inhabited structures are also con-demed and located within 5 meters of the new property line. When more than 3% of an a human owner's land is con-demed or cut-off, by a condemnation(s), government shall give 15% more land of a similar character than it took.

5/ Where a street is used daily by hundreds of cars and the sidewalk is seldom used, Government may close all or part of the sidewalk and force pedestrians to to around. In this event, no money shall be paid to the adjoining property owners.

6/ When a non-urban parcel's access is cut-off by a new linear infrastructure project, government may grant an easement over neighboring land. If this easement is for an area less than 3% of neighbor's land holding, the neighbor shall get no compensation for it. No compensation shall be paid when government runs buried or overhead utilities across non-urban private property.

7/ Government shall give at least 1year's notice when it con-dems land or exercises its rights to run linear infrastructure on privately owned non-urban land.

8/ In all public land condemnations, the base con-dem nation value shall be the property tax value assessed by the county tax assessor's office. If there is an inconvenience increment, it shall be added to this amount. Thus, there shall be no right to appeal the compensation offered by government.

9/ In non-urban condemnations, government shall pay an average and standard condemnation rate per square foot
for habitable housing structures less than 25 years old, and another for human habitation structures more than 25 years old. It shall pay another square foot rate for non-movable barns, and another rate for non-movable warehouses. For non-urban condemnations, government shall not pay any increment for luxury construction, special facilities, sentimental value, historical value, or views.

10/ Whenever government condemns property for create group infrastructure, the valuation shall be calculated as if the group infrastructure neither exists nor is planned.

11/ Government may condemn property up to 40 years in the future by making a reasonably discounted payment today. This shall be called “public cuttailment of ownership rights”.

12/ Government shall not compensate property owners for the unsightliness, noise, smell, air pollution, or vibrations produced by new or expanded linear infrastructure.

13/ Urban land taxes shall be at least 10x higher than non-urban land taxes by land area. All land that has not paid urban land tax in the past decade shall be considered non-urban land, and therefore a location fungible commodity.

14/ No compensation shall be paid for path squatters, for property rights that were established to obstruct must pass locations, or sensible bypasses.

15/ When urban land is condemned, government should, but need not offer substitute property in that particular neighborhood. The land should however be worth at least 15% more as an inconvenience increment.

16/ When government condemns property, it gives fair compensation as described herein. When government nationalizes property, it gives nothing. Nationalization shall generally be considered a thing of penalty for wrongdoing.

17/ In order to maximize the area connected to our nation’s road system, all functionally land-locked properties of buildable size and status shall have the right to buy a reasonably-sized flagpole over the generally unbuilt land of their neighbors. Lots over 2-acres in urban places shall always be considered of sufficient size. This flagpole shall be located where government determines the impact to the community is lowest and most consolidated. It shall cost the petitioning parties 3X the going price for land, and shall become public property upon granting. All of the money paid goes to the owner of the servient tenement.

18/ No 15% increments shall be paid to fictional citizens.

R’51. LAND FOR NEW CITIES

1/ The Senate shall designate some 30,000 potential township sites in our nation, along with rail system lines and interchanges. The sites will vary in size, but the average will be around 20 square kilometers in area. This is about 600,000 square km, or about 6% of the nation’s surface area. This is so there will be a many-fold abundance of sites for people to chose from for their homes and businesses. It is also so the price of urban land will remain crushed forever.

2/ By plan, the land for the new cities will mostly be far away from existing cities and roads. So the land will be inexpensive to condemn if we need to augment our public land holdings.

3/ In general, only communities of appropriate size will be allowed to access what will be nearly free land. This aside from the high property taxes for the rail line and other public utilities.

R’52. PRIOR PUBLIC LARGESS

1/ All grants and sales of public property, infrastructure, and contracts ever made by the previous government shall be voidable at the election of the Senate.

2/ If the Senate elects that public property or infrastructure was sold at a price that was wildly below market, it may nationalize the property.

3/ The word largess is from the ancient Greek peacock monster Argus, which had hundreds of eyes. Argus was the symbol of the Sphinx mafia, and one of Argus’ greatest powers was that of government largess.

4/ Just as we hold the possession of stolen property and counterfeit money to be a felony, so too shall it be a felony to be the recipient of largess or super-sweet-deals from either government or from fictional citizens.

5/ Just as it is a felony to both give and receive bribes, it shall be a felony to either give or possess largess.

6/ When everyone would have wanted in on the action, the birds that got the swoop in may be charged with receiving largess.

7/ Largess shall include both grossly below market purchases, and grossly above market sales.

R’53. MORE AND BETTER

1/ This nation shall work for more and better and it shall never encourage less and worse.

2/ Government shall not tax, burden, incentivize, or seek to reduce output in any mineral, raw-material, commodity or industry, except cuttailment industries officially elected as cuttailment industries by Over-Senate sophoscite.

3/ Cuttailment industries may be taxed at different rates and means. Cuttailment industries may be stripped of their property rights, and they may also be forced to transact through national monopolies or monopolies. The Senate shall also have the right to dock any long tail ownership rights in any cuttailment industries.

4/ When fictional citizens fail to increase output in times of profitable shortage and high prices, they may be put under new management, partitioned, smithereened, equity diluted, subjected to special regulations, or taken over by government.

5/ Government shall not encourage, subsidize, pay, or offer tax breaks for people to leave their productive assets unused, underused, or used for some backup purpose like growing trees for lumber.

6/ All government owned buildings of an ordinary nature
must be rented at market rates if they are not used for more than 1 year.

R'54. MAFIA DRUGS AND ADDICTION

1/ The single most important aspect of our nation’s Mafia drug policy is to make sure that the Sphinx Mafia can’t profit from the Mafia drug industry. So long as the Mafia is making money selling drugs, it will:
a/ Spend money advertising, marketing, and enlarging the market for its drugs.
b/ Have the power to use our people as addicts for their nefarious purposes such as prostitutes and junky assassins/ hashish’uns.
c/ Be able to control the nature of the drugs and add toxic or erosive additives to harm certain individuals.
d/ Be able to add addictive drugs to non-addictive drugs such as opiated hashish.
e/ Be able to market addictive drugs such as opiates to people taking non-addictive drugs such as marijuana.
f/ Have income from drugs.
g/ Have a big source of income that synergizes with other Mafia activities.
2/ Government shall not criminalize the importation, production, growing, manufacture or distribution of any Mafia drug once it has become widely available through criminal enterprise, or once it is the cause of a violent mafia turf war.
3/ Marijuana, cocaine, opiates, LSD, amphetamines, MDMA, alcohol and tobacco shall always be considered as drugs widely available through criminal enterprise.
4/ Government shall license the use of all widely available Mafia drugs, as well as tobacco and alcohol. These licenses shall be free of charge, but they shall require the viewing of anti-drug media under eye tracking.
5/ It shall be a serious crime to:
a/ Be in possession of a Mafia drug, alcohol or tobacco without a valid license.
b/ Sell, or give Mafia drugs to those who don’t have a license.
c/ Be in possession of Mafia drugs sold or registered to other people.
6/ For the following Mafia drugs, the license holder must watch the stated minimum number of minutes of the Sub-Senate’s anti-drug media each day on average under eye monitoring to keep one’s license active:
a/ Marijuana — 2 minutes,
b/ Tobacco and up to 5 drinks in a day — 2 minutes,
c/ Cocaine, LSD, hallucinogenic mushrooms, ecstasy, and unlimited alcohol consumption — 10 minutes
d/ Opiates and amphetamines — 60 minutes.
7/ To obtain a new license 30 day’s worth of anti-drug media must be viewed either all at once or over a number days. To reinstate a lapsed license, 10 day’s worth of anti-drug media must be viewed.
8/ The penalty for unlicensed use of Mafia drugs shall be in direction proportion to the educational time required to maintain a license. The penalty for unlicensed drug use shall be something like a one teneths at a work camp per minute of daily media required. So that the drug prevention system works, and people don’t scoff at it, we shall automatically punish everyone who uses a controlled substance without a valid license.
9/ Pre-menopausal women must have an IUD or birth control implant, or get regular birth control hormone injections in order to obtain a license for cocaine, amphetamines, opiates, or alcohol consumption over 4 drinks a day on average. Such long-term birth control may also be required of pre-menopausal women that consume large amounts of alcohol in binges at bars.
10/ To smithereen the Mafia drug industry, and to assure that nobody profits from turning people into addicts, no citizen, real or fictional shall cultivate more than 4,000 square meters of any Mafia drug plant such as marijuana or opium. The cultivation limit for tobacco shall be 160 acres.
11/ Except for Marijuana, tobacco, alcohol and hallucinogenic mushrooms, all Mafia drugs must be processed by an FDA certified drug refining facility. If these drug refining facilities are making fat profits, the certification process must be made shorter or easier, or the Mafia will re-enter the industry at the refining point.
12/ It shall be a felony to act as a middleman between growers and drug processors, or growers and consumers, or to act as a black market drug processor.
13/ All shall know that expensive Mafia drugs are a favorite industry of the Arabs. For through these drugs, especially the most addictive, they not only make money, but they also acquire useful addicts who will frequently do the awful things they are told to do. Therefore, Arabs shall have nothing to do with the Mafia drugs industry. All Mideast, Muslim, and formerly Muslim people found participating in this industry shall be punished under harsh old laws they created for their competition before this Constitution existed.
14/ All shall know that through hashish the Arabs gain a black box. Through this black box they may add in any other drug they wish, such as addictive opium. Thus they can hook people without them even knowing it. For this reason, the importation, manufacture, distribution or possession of hashish, or incense containing either marijuana or opium shall remain a felony with up to 20 years in prison as a penalty. All marijuana edibles shall be seen as another form of hashish.
15/ Marijuana may only be sold in its natural form with no preservatives, perfumes, or other additives. All other forms of marijuana shall be considered as evil hashish and strong penalties shall apply.
16/ All existing charges and jail sentences relating to possession or trafficking of marijuana, cocaine, opiates, LSD, hallucinogenic mushrooms, and amphetamines are hereby pardoned with immediate effect. Those who are felons only because of possession of one of these drugs
shall no longer be considered felons under the law. This list does not include hashish, and hashish offenses are not pardoned.

17/ Government shall log, track and tax everyone’s purchases of Mafia drugs, alcohol, tobacco and prostitutes. Spouses, parents, and offspring over age 16 may visit the recorder’s office and see this information.

18/ The sharing of one’s drugs and one’s tobacco shall be a crime for failing to do this, we make it much harder for people to stay off once they have quit.

19/ Everyone gets a receipts for their drug purchases, so the drugs can be matched with a photograph or nano markers. Also, Government may require that chemical nano-markers be added to Mafia drugs to keep the system working as intended. Thereafter, to be in possession of drugs that don’t match the nano markers may be evidence of illegal drug use.

20/ Government shall offer free addiction feathering for opiates according to any reasonable schedule requested upon check-in. People who check themselves in to government rehab can’t leave until they are off the drug for the prescribed time.

21/ If someone has an active amphetamine, opiate, cocaine license, or they have a license for more than 5 drinks a day, that information shall be displayed on the internet for all to see.

22/ Those prescribed opiates by qualified doctors as pain killers do not need to get a license if their use is for less than 30-days.

23/ To help people clean up, after 2-years of being clean and sober, everyone’s consumption shall be removed from the government’s database and forgotten. Clean and sober shall be defined as free from all drugs, alcohol, tobacco, and prostitutes.

24/ Nobody but government shall report, or store data on consumption of drugs or prostitutes. It shall be a crime to either offer this information for sale, or to offer purchase. It shall not be a crime to make up fake information of this sort and offer it as real.

25/ Government shall compare the income of all license holders with their expenditures. Once someone crosses over into the realm of the impoverished addict, desperate for a fix, and useful as pawn, they shall be labeled an addict by government, so as to warn the people. Those who use the maximum possible quantities of Mafia drugs, or suffer repeated arrest for public intoxication may also be publicly labeled as addicts by government.

26/ It shall be a crime to buy controlled substances for others, or be in possession of someone else’s controlled substance.

27/ Some types of vehicle operator licenses may be suspended while people have certain types Mafia drug license, or have daily alcohol use over a certain level.

28/ If government is dispensing opiates or other powerful drugs to any group, such as veterans injured in war, and the person wants innocuous marijuana instead, then government shall provide a reasonable amount of

**R’55. PUBLIC INTOXICATION**

1/ This Constitution does not guarantee the right of the people to appear in public with a blood alcohol content that is over 0.2%.

2/ This Constitution does not guarantee the right of the people to appear in public so intoxicated from any source that they are passed out, incoherent, or unable to walk straight.

3/ From 6:00am to 6:00pm, the various counties shall be free to limit maximum public blood alcohol intoxication levels to any level over 0.04%.

4/ Those who violate the rules of public intoxication may be held uncharged by police for up to 24 hours. Anyone convicted of public intoxication 3 or more times in 3-years in any part of the nation may be sentenced to up to 90 days at work camp.

5/ The national government shall keep a fingerprint database for everyone convicted of public intoxication.

**R’56. SMOKING**

1/ Tobacco, which is sometimes called the devil’s weed, is the definitive Arab product, and a symbol of our matrix enslavement to the Arabs. It is addictive so we can’t stop, it gives nothing of benefit, and it causes great harm. It is also widely supported thousands of times each year by valuable product placements ads in the media that have no other apparent reason for existing. Every time some idol holds a cigarette in the media that is Ishtar at work.

2/ Tobacco kills some 7-million people a year. It is the most easily preventable causes of death and suffering for mankind. For this reason, the Senate shall enact regulations designed to harass tobacco users with the objective of wholly eradicating tobacco use in our nation.

3/ The first tobacco licensing offense shall serve no less than one teneth in a forestry work camp, or two teneths in jail.

4/ There shall be no smoking in any indoor public place, or in any public or shared vehicles, or any place where shared vehicles stop. There shall be no smoking in any school, medical facility, office, multi-user building, shop, indoor or outdoor shopping center, restaurant, cafe, eating or drinking or dining patio, bar, hotel, covered walk, queue, or any business open for walk in customers, or within 10 meters of any of these places.

5/ The term SMOKING shall include tobacco smoke, as well as any airborne substitute for that smoke such as vaporizers

6/ Except for existing tobacco addicts, there shall be no tobacco licenses for those under age 19.

7/ Tobacco and alcohol related healthcare shall each be a separate budget items. Each of these two items shall be entirely paid by various taxes and license fees on that product be it alcohol or tobacco. It shall be noted by all that prior to this constitution, the worldwide cost of tobacco-related healthcare was over four times the
revenue of the tobacco industry. This is just the hospital bill and does not include the pain, suffering premature death and loss of productivity.

8/ The tobacco industry is hereby nationalized to the extent the government wishes to claim ownership.

9/ All tobacco and Mafia drugs shall be sold through licensed dealers. No dealer shall have more than 300 registered customers, or charge any markup on the tobacco they distribute. All government payments to dealers shall come when customers quit and stay clean for the prescribed time.

10/ After being paid, and before handing over the merchandise, the dealer shall have 60 seconds for anti-tobacco exhortations either in person or by video. To start, the per-purchase limit shall be 200 cigarettes per visit to a tobacco dealer. Similar limits shall apply to Mafia drugs and alcohol, so that the person must constantly have to go and buy supplies and receive their dealer exhortations.

11/ The word “tobacco” shall be cancelled, and the term “cancer leaf” shall be used instead. All commercial operations involving tobacco, including the signs, displays, packaging, and all other marketing and advertising must stop using the old term tobacco by 2023.01.01. After this date, anyone involved with selling, exchanging, or advertising cancer leaf products labeled as tobacco may be charged with selling illegal drugs.

12/ All existing tobacco brand names and manufacturer names shall be nationalized and shut down. No tobacco makers shall be allowed to keep their old brand names.

All the fetching old names such as Kool, Lucky Strike, Marlboro, Skoal and Winston shall cease to exist as trademarks in all categories. As with all nationalizations, the tobacco companies shall get nothing in return for what was nationalized. Once all the tobacco product and manufacturer names have been nationalized, all tobacco products must be sold in the same Senate-approved packaging with only the name changed depending on the manufacturer.

13/ On tobacco packaging, the manufacturers name shall occupy 2% of the package’s external surface area. The term Cancer Leaf shall occupy 13% of the package’s external surface area. The other 85% of the package’s external surface area shall be covered in images of the most revolting and repulsive tobacco disease imagery the Senate can find. These images shall change daily for all cigarettes manufactured on that day.

14/ It shall be against the law to cover anti-tobacco imagery, or to keep cigarettes in another package.

15/ Tobacco products shall no longer be allowed to use slogans or say anything about for their cancer leaf. They shall not be allowed to describe tobacco as natural, organic, healthy, healthier, pure, fine, clean, clear, smooth, tasty, mild, light, gentle, smooth, roasted, American, Turkish, lucky, pleasurable, or less harmful.

16/ The production, distribution, importation, possession, sale and consumption of cigars, pipe tobacco, flavored tobacco, menthol tobacco, clove tobacco, chewing tobacco, mouth soaking tobacco, and shisha tobacco shall be prohibited in our nation.

17/ The copy for anti-tobacco ads is a tricky thing. Therefore, all anti-tobacco copy, must be approved by the Over-Senate after public comment.

18/ The Senate shall require that an annoying form with a fair number of data entry windows be completed with every tobacco purchase. These forms shall also display shocking images of tobacco illness for each data entry window. Tobacco may only be purchased by licensed users that have filled out the forms and viewed the required amount of anti-tobacco ads produced by the Senate. These ads shall rotate depict no less than 50,000 people shockingly disfigured by tobacco related illness.

19/ All residential buildings shall be either smoking or non-smoking. The Smoking buildings must pay government a fair sum for the added fire risk.

20/ Video that clearly depicts someone smoking when or where they should not smoke shall be sufficient to convict people who test positive for tobacco use.

R'57. ANTI-GAMBLING LAWS

1/ No agreement concerning gambling or gambling debt shall be legally valid in this nation. Those using force or threat to collect on gambling debts or gambling promises shall be viewed by everyone, including the law, as baseless extortionists.

2/ There shall be no gambling between midnight and 6pm anywhere in the nation.

3/ There shall be no anonymous gambling, and all gambling facilities shall use the Government's tax reporting system for all gains and losses. All gambling gains shall be subject to a 30% income tax.

4/ Everyone entering a gambling facility, making a gambling purchase, or making a gambling redemption shall have their identity, face and finger prints verified.

5/ Government shall allow people to make binding oaths not to gamble for any period of up to 2 years in the future. After this, they shall not be allowed to enter any casino in our nation, or any nations that cooperate regarding gambling oaths.

6/ All gambling operations shall pay a special income tax of at least 40% on the net proceeds of each gambling facility in each day. All tills must be counted each day. Those participating in illegal gambling either as facilities or as customers shall suffer double penalties for both illegal gambling and tax fraud.

R'58. HARMFUL PRODUCTS AND ACTIVITIES

1/ Neither Government nor any fictional citizen shall do anything that helps popularize, glamorize, or encourage harmful or statistically harmful products or activities. Government shall tax statistically harmful and often dangerous products or activities. This shall include mafia drugs, alcohol, tobacco, tobacco substitutes, excessively fatty foods, excessively sugary foods, gut-stretching
carbonated beverages, gambling, ground meat, head-injury sports, ingestibles containing high levels of caffeine, or ingestibles sweetened with high levels of fructose. Government shall create policy and taxes to discourage the consumption of the foregoing things.

2/ Government shall not provide intellectual property protection for any mafia drug, alcoholic product, tobacco product, tobacco substitute, burned inhalant, sugary beverage, gambling facility, or any ingestible that is more than 20% sugar by caloric content. No packaging for any of the foregoing may feature any watermark or hologram or other difficult to reproduce anti-counterfeiting measure.

3/ There shall be no intellectual property protection for media that depicts, describes, advertises, glorifies, or suggests smoking, vaping, consuming alcohol, gambling, or the use of Mafia drugs.

4/ If the Sub-Senate elects, it may strip media of its IP protection for glorifying or sensationalizing war, gun-fighting, gun-toting, senseless violence, car chases, martyrdom, aggression, crime, tobacco use, drug use, alcohol use, gambling, non-procreative romances, scribing back, or low BMI actors. The Sub-Senate may also strip media of its IP protection for attempting to change social customs, breeding practices, sexual practices, encouraging racial divisions, democide, acmicide, homosexuality, transsexualty, glorifying dystopian futures, or devaluing parenthood, or parental relations. The Sub-Senate may also strip media of its IP protection if it is considered to be a heuristic guide for criminals like the film Nightcrawler. If any media is stripped of its IP protection it shall be considered to have been stigmatized. However not all stigmatized media will be stripped if its IP protection rights.

5/ No stigmatized media shall be distributed by download in copyable format, and all stigmatized media must be streamed. Those under age 18 shall not be allowed to watch stigmatized media. Everyone’s time spent watching stigmatized media shall be recorded and admissible in court.

6/ All mass packaged ingestibles shall list their sugar and drug content per 100g.

7/ Government shall tax all sugar containing factory foodstuffs that are over 5% sugars by weight. This includes the sugars naturally occurring in the ingredients.

8/ Fructose is mildly toxic. It is not good to eat too much fructose, just like it is not good to drink too much alcohol. For this reason, refined fructose, and synthetic sugars containing fructose, such as high-fructose corn syrup shall not be added to any ingestible. All sweetened products must use another type of sugar.

9/ The terms sugar, sweetener, sweetened, unsweetened, and all similar terms shall be all-inclusive, and shall include all sugars, sugar-like chemicals and sweeteners to include all sugar substitutes artificial or natural. Therefore products labeled as sugar-free may not contain any fructose, glucose, sucrose, dextrose, maltose, lactose, honey, or any other sugar like ingredients.

G — PUBLIC PROPERTY & PERMISSIONS

R’59. GEOLOGICAL SURVEY

1/ The oceans weigh 2.8 billion times as much as mankind, so mankind is microscopic in comparison to the true scale of the planet. Thus we realize that underground minerals are not at all scarce, and mankind has enough of every underground mineral to last for thousands of years at current use levels.

2/ A free people must know where their most economically viable minerals resources are. A free people must also have an accurate estimate of their resource wealth. Therefore, government shall systematically survey, assess, estimate, and map the entire nation’s territory with respect to both underground minerals and potential agricultural output.

3/ Government shall commission at least 1,000 standardized, containerized, universal mining mineral testing labs.

4/ Every known gold bearing river bed in the nation shall be drilled to bedrock at least every 2-km as accessible. Those with the richest gold deposits shall be drilled in multiple locations. Once we have done this, we shall estimate the nation’s riverine gold reserves.

5/ Every sandy shoreline in the nation, existing and
ancient shall be drilled every 3-km to start, so we can know where our oil is and can accurately estimate our nation's oil reserves. All portions of the nation shall be surveyed, including our national parks and military bases. 6/ All existing and prior mines and oil fields shall be assayed and mapped by the nation's geological survey, and linked to all information available on those mineral extraction projects. This mapping project will involve thousands of people and take decades to achieve a satisfactory resolution for our large land.

7/ The geological survey shall be administered by each county, by the people of that county. Both the lab technicians and the sample collectors shall be native citizens born in that county, and none shall have any Mideast ancestry or ties.

8/ Government shall give rich annuities and Ubic status to those who discover rich new mineral deposits before the national survey does.

9/ This study and mapping of our nation's resource wealth shall be called the US Geological Survey. The old US Geological Survey shall be renamed as the US Topographical Survey. This shall be the best topographic maps available, Login, or no-login as the user wants, for the public to use as they wish. All shall note that the idea of a government survey of our nation's mineral wealth was proposed before. They couldn't stop the idea, so they delayed and subverted the idea into what anyone could see was a wonderful topographical survey, but not a mineral survey. We shall not allow this to happen again. We shall not allow the idea of a universal geological survey to be quashed again by the Mideast.

10/ Once we have a rudimentary geological survey, there will be little benefit of allowing people to claim underground resources as their own private property. For this reason, all underground resources are hereby nationalized and made the property of the people of this nation to the extent that any county Senate wishes to claim ownership of them, and make them into a mineral extraction reserve. The owners of nationalized underground mineral resources shall receive no compensation for this change in which the nation does business.

11/ In order to maximize output, most mineral deposits shall belong to the various counties of the nation, but the national government may make the richest into national mineral extraction reserves if the infrastructure development costs are so great they require national underwriting.

12/ The extraction of natural gas which would otherwise propel oil out of the ground shall be prohibited until the oil is extracted.

R60. MINERAL EXTRACTION RESERVES
1/ Government shall make the richest, easiest to access, least toxic sources of every mineral available for free public mineral extraction, reserves. People may take what they want, so long as they follow the rules, clean up after themselves, and properly move their fair share of the cover-strata and tailings. There shall be no tax, fee, or charge for using a mineral extraction reserve and taking any quantity of mineral ore out of the ground.

2/ Government shall build railroads, roads and utilities to its mineral extraction reserves. It shall also allow refineries, mills, worker housing and common town amenities to be built upon the routes in designated places free of charge. Government shall also provide regular environmental monitoring free of charge.

3/ Except for reasonable clean-up bonding, and identity registration, no tax, fee, charge, approval, permission, or insurance shall be required to extract minerals from a public extraction reserve. However, if a mining company is not obeying the rules, by say taking too much ore and not enough cover, it may be denied access to that mineral extraction reserve.

4/ Any County-Senate may designate up to 2% of public lands in its jurisdiction as mineral extraction reserves at any one time.

5/ To incentivize the counties to maximize the nation's mineral extraction reserves, 80% of all sales taxes from the sale of mined minerals shall accrue to the county they came from. This shall be so regardless of whether the site is privately owned, a county extraction reserve, or a national reserve. It is vitally important that every government jurisdiction benefit from maximizing commodity output so that Ishtar can never make money minimizing our mineral output.

6/ Due to safety issues as well as cost, government shall discourage the use of dangerous shaft mines and encourage the use of safe and economical open-pit mines. If expendable burrowing robots make shaft mines practical for that mineral, great.

7/ As we deplete and use up the most superficial, accessible, and economically viable minerals in each location, government shall smooth the surface, add runoff contouring, restore the topsoil and replant with native flora, provided the site is not used for construction.

8/ All national mineral extraction reserves shall be approved by the national government. All county mineral extraction reserves shall be approved by the county government. The national government shall have no input or jurisdiction regarding county mineral extraction reserves, except to establish a reasonable limits to mine pollution.

9/ The government approval process for the government’s new mineral extraction reserves and oil fields shall not exceed 45 days before the matter is ready for a vote by the County Senate.

10/ On mineral extraction reserves, drillers shall have the exclusive right to pump oil from wells within 1,000m of their exploratory well for 7 years from when they hit.

11/ All portions of Imperial county shall be pre-approved as a national mineral extraction reserve. All portions of the San Joaquin valley south of Fresno and more than 20-km east of the California aqueduct shall be pre-
approved as a mineral extraction reserve. This shall not include land within 2 miles of a community, or land that drains into the Colorado river at a slope of more than 0.2%. It shall not include close border security zones.

Any licensed driller may drill public lands in these areas upon filing a mineral claim. Private lands in this area may only be drilled if the surface rights holder grants permission with the county recorder.

12/ In all mineral extraction reserves for oil drilling, an unlimited number of wells may be drilled for free by any licensed oil driller who cares to show up, claim a 1-km radius drilling site for up to 7-years, drill a well, obey the rules, and take the oil away. There shall be no further licensing or approvals or fees. No drilling permit and no fee shall be required. However, the driller must accurately locate his well and document its depth and results with government, and must clean up any mess.

13/ Because petroleum is mostly a shallow thing, our nation's mineral extraction reserves for oil drillers will mostly involve shallow wells that are not under much pressure. We may limit the depth of the wells we drill if gusher blowouts become a problem. We can always come back later and drill deeper.

14/ Because our first petroleum extraction reserves will be mostly in wasteland areas, not much environmental harm is going to be done if there are spills. Also, government shall provide spill monitoring and flip remote shut-off switches for no charge.

15/ No special engineering or toxic clean up license shall be required to scoop up contaminated oil or send contaminated soil tests to analytic laboratories.

16/ The national government and the various county governments shall never be required to pay any fine for any environmental pollution. Those who take minerals from mineral extraction reserves and cause pollution may be required to pay a reasonable fine, nothing more, nothing less, and this only when they do not comply with the environmental laws. So long as our oil drillers comply with all of the government's required precautions, they shall only have to clean up their mess.

17/ Individuals and companies involved in the petroleum industry shall be prohibited from giving money, aid, or promotion to environmental lobbyists and charities. They shall also be prohibited from advertising. Individuals and company directors that violate this paragraph may be imprisoned for up to 10-years if they openly violate this paragraph, and 20-years if they attempt to violate this paragraph through trickery or deception.

18/ When a mine or other mineral extraction facility closes down and ceases operation in our nation, the land and equipment shall automatically become the property of the national government, which shall be prohibited from selling off these assets, but must least them to the highest bidder

R'61. MINERAL BUSINESS

1/ No privately owned mine, mineral right, or oil field shall produce more than 1% of the nation's demand for any mineral or raw-material, or commodity.

2/ Only government and the flesh and blood citizens of our nation may own oil and mineral lands in our nation. No citizen shall own more than 1,000 acres of separated mineral land. If more than 1,000 acres are discovered to be owned by one person, then the richest mineral lands shall be confiscated by government.

3/ In our nation, no foreigners shall own the following either directly or indirectly via shares

a/ Mines and mineral extraction equipment.
b/ Mineral transportation infrastructure.
c/ Mineral refining and processing infrastructure.

4/ There shall be only one type of mineral right that may be separated from the surface rights, the right to drill holes in the ground to extract petroleum or natural gas. All other sorts of mineral extraction shall require full ownership. All existing separated mineral rights that are not for petroleum are hereby void.

5/ Only licensed oil drillers that are native citizens may hold separated mineral rights or enter contracts for the purchase separated mineral rights. No separated mineral right shall be transferred, assigned, sublet, given to others, optioned, mortgaged, or owned by more than one person at a time.

6/ With regard to land with separated mineral rights, all grants beyond 17-years shall be void. If the grant is already over 17-years old, it is herby void. This 17-year period includes all renewal, all forms of extension, and all forms of separate mineral rights ownership.

7/ All deed restrictions regarding subsurface minerals or mining that are over 20-years old shall be void.

8/ Royalty rights on mineral extraction shall be unenforceable. Mineral royalty payments exist primarily to keep mineral lands out of production.

9/ There shall be a protective tariff of at least 90-minutes wages on each barrel of crude oil imported to our nation.

10/ The law of capture shall always apply to petroleum. The right to drill a well in one piece of ground is the right to suck as much oil as one can from the ground.

11/ The Senate shall at random times and without notice or lengthy discussion ban all tankers from docking at our nation's ports for at least 60-days. This is done to reveal smuggling, and to wipe out the market benefits of smuggling.

12/ When people report an important smuggling gang to Senators or law enforcement, they are supposed to be generously rewarded and given a new witness protection identity. They shall also be given safe island housing if they want it. Such tipsters are not supposed to be sent into danger to gather evidence, even if they are members of the gang.

13/ No mining or oil drilling company shall diversify out of that industry and engage in any other sorts of business.

14/ Mines shall generally not be required to move cover soil to back where it came from. They only have to re-
R'62. GOVERNMENT PERMISSION

1/ Business identity registration fees shall have an anti-nuisance fee of 1-week's pay annually. This fee shall not apply to builders. Aside from this fee, those starting businesses or building structures shall not be charged any fees, nor unnecessarily delayed, questioned, or inspected by government.

2/ Government applications for economic activity shall not require more than the minimum amount of information necessary.

3/ Government shall not burden industry with any regulation that is unnecessarily time-eating unless there is good reason.

4/ No government procedure, requirement, form, or data request from the nation's businesses shall come into existence or be cancelled unless it has been elected by the Senate.

5/ All government agencies shall be obligated to have comprehensive, detailed, and well organized wikis, that include an answer to every relevant question yet asked about that area of government.

6/ Except for mineral extraction reserves and inter-county-linear-infrastructure run by the national government, all approvals for all mines, oil fields, refineries, factories, mills, power plants, water plants, municipal heating plants, building, construction, land parcel divisions and linear infrastructure shall be at the county level.

7/ No government approval process, including all sub-approvals, for any of the foregoing shall take longer than 30 days to process. Also, the required information to make a submission for government approval shall not take longer than 30 days to assemble.

8/ Once a County Senate has voted and ruled, its decision shall be final unless the Nation Senate intervenes in less than 15 days.

9/ There shall never be any court challenges to any Senate decision for any reason, as all courts are inferior to all legislatures.

10/ In general, and where practical, environment polluting activities shall not be located in, near, upwind, or upstream from populated areas. No county shall have the right to put polluting activities near the edge of its territory, but also near a population center in another county.

11/ For all mineral extraction reserves located within 5-km of another county, they shall get the neighboring county's permission to start, and all starting conditions shall be obeyed unless the neighboring county agrees to changing them.

12/ The runoff, waste, and fumes from one county's polluting facilities shall not flow under prevailing conditions into another county without the other county's consent. This clause shall however not apply for facilities more than 15-km from a county border.

13/ All environmental rules shall be created at the national level, but all environmental enforcement shall take place at the county level.

14/ Pollution policy being a weakest-link-in-the-chain sort of thing, no county shall have the right to set its own pollution policy. Pollution policy shall be the sole domain of the national government. Also, the national government and its pollution policies shall be prohibited from considering the ridiculously expensive air pollution needs of the fools who live in places like Los Angeles that experience smog inversions.

15/ In order to have some super clean living areas, we must concentrate our pollution elsewhere. The national government shall designate some underpopulated, remote, wasteland places with little runoff as environmentally dirty areas with lower pollution standards.

16/ Government shall not impose environmental restrictions without clear need as shown by well-understood, easily re-provable and quantifiable science.

17/ To foster national competitiveness, government shall provide all environmental testing, checking, reporting, and environmental impact reports it requires at no charge, and within 30-days.

18/ No environmental reports shall be required for the construction of sealed linear infrastructure such as oil pipelines, or transportation systems that use railroads, busses, mini-busses, single-wide vehicles. This is because all these systems are 5 to 50 times less polluting than the current road and vehicle system.

19/ Environmental impact reports shall not be required for construction of rail-based townships, or rail infrastructure, buildings, roads, railroads, railway stations, bus stations, parking lots, or bridges. The defenders of ecology will be able to make submissions to the discussion BBS.

20/ All existing laws concerning supposedly ozone depleting, but energy-efficient refrigerants are hereby repealed in 180 days.

21/ Government shall not require that farmland or natural land be checked for pesticides or other manmade toxins, and all laws calling for the checking of farmland for manmade toxins shall be void, even if the land is to be used for communities

22/ Within the first year, the Senate shall review all prohibited and controlled pesticides and industrial chemicals to determine whether they are safe or toxic, or harmful to the environment.

R'63. ENERGY POLICY

1/ The Middleast obviously dislikes the coal that competes with their oil racket, and they have struggled to make coal seam much more dirty and toxic than it is. They have also struggled to get the world to use dirtier forms of coal.

2/ By 2023.01.01, coal shall not be burned anywhere the
buildings touch. By 2025.01.01, coal shall not be burned anywhere there are more than 15 dwellings per acre. By 2027.01.01, coal shall not be burned anywhere there are more than 10 dwellings per acre. By 2029.01.01, coal shall not be burned anywhere there are more than 5 dwellings per acre. By 2031.01.01, coal shall not be burned anywhere there are more than 2 dwellings per acre. However, coal burned a safe distance from these areas shall be much more tolerated than it previously was.

3/ Where practical, all new coal plants shall be built on high ground. This should be more than 10km from a community. These plants shall also have very tall chimneys to reduce the coal smoke pollution levels for nearby residents. Scrubber tech may also be required if this can be shown to efficiently reduce pollution for people living nearby.

4/ The mining and sale of coal shall not be taxed in any way. Only coal burners shall be taxed, and this tax shall only be a function of the number of people affected by their coal emissions. Remote coal burning plants will pay no tax.

5/ The long term and worldwide effects of coal emissions are almost non-existent. These effects shall not be a consideration in taxing the use of coal. Only local and regional effects shall be considered as important.

6/ World supplies of coal are many times that of petroleum and natural gas. In millennia to come, mankind may eventually run out of easy-to-reach petroleum and natural gas. Therefore, we shall not squander these potentially scarce things on community power generation, heating, or cooling plants. At no time of the year may petroleum or natural gas be used for regular community power, heating or cooling, except on islands.

7/ To encourage the use of coal, we shall allow coal users to be more polluting than oil users, provided they are making their pollution far enough away from population centers.

8/ All oil and natural gas purchased by municipal utilities shall pay a national sales tax of at least 50% to encourage a rapid conversion to coal or geothermal.

9/ The burning of the more sulfuric coals and oils may be prohibited by the Senate in densely populated areas of the nation, or nationwide.

10/ All oil, natural gas, and mineral sites, facilities and equipment shall be nationalized to the extent the national or county Senate wishes to claim ownership. Then all of these assets shall become the property of the county they are located in.

11/ All well drillers, and mine operators shall be licensed at the county level according to national standards. These shall be required to post a reasonable clean-up bond, the minimum reasonably justifiable considering the new streamlined regulations for clean-up.

12/ One of the first orders of business for the new Senate shall be the revision of our nation's environmental laws. All existing environmental regulations, and all regulations concerning the nation's energy industry shall expire 60 days after this Constitution comes into effect unless the Senate elects to replace them sooner. No new environmental or energy regulations shall be imposed on any part of the oil, coal, natural gas, mining, geothermal, electricity generating, power transmission industries except when the Over-Senate ratifies the vote with a 60% over-majority.

13/ The use of per-well approvals shall be prohibited in this nation. All approvals shall be for drilling areas, and these areas shall generally be no less than 50 square kilometers. The shape of these areas shall generally be long and thin, following the oil deposits on an ancient shoreline.

14/ Until our nation simply runs out of the various sorts of fossil fuels, the Senate shall assure that there are sufficient mineral extraction reserves to meet domestic demand. There shall also be no less than 50 pre-approved oil fields in the nation at any given time.

15/ No well drilling equipment supplier shall produce or furnish more than 1% of the nation's well drilling equipment. No oil driller shall pump more than 1/200th of the nation's oil supply. Aside from this, government shall not limit to the number of wells that may be drilled by any driller, or in any oil field.

16/ There shall be 4-types of petroleum company:
   a/ Those that find and get the oil from ground.
   b/ Those that transport the oil to the refinery.
   c/ Those that refine the oil, and
   d/ Those that sell the refined oil fractions to the end user.

Nobody shall do business in more than one category or control more than 1/200th of the nation's industry in any category except refining.

17/ Due to how fast crude oil breaks down, it shall not be considered toxic waste. All oil drillers shall however be required to clean up their spilled crude oil and deliver the oil and soil to either an asphalt plant, or designated location that is already naturally polluted with crude oil.

18/ There shall be no specialized education required to clean up oil spilled on the ground as anyone can tell the difference. Those testing the peripheral soil for oil contamination shall be prohibited from doing oil clean-up work.

19/ Government shall establish realistic acceptable levels for non-natural oil contamination of soils in various depths and hydrology zones. We will be much stricter for oil spilled near our fresh water ways than with oil spilled in deserts and places that are naturally contaminated with surface oil.

20/ If due to land contours, there is a significant risk of spilled oil from a petroleum facility flowing into a water way, then the county government is supposed to build sufficiently sized earthen catchment berms with valved rainwater run-off tubes. If there is a spill, these tubes can be closed remotely, and the oil mostly recovered.

21/ All counties shall continually monitor all their active oil fields to make sure there are no oil spills occurring. This
monitoring shall be provided free of charge to drillers so that liability and energy prices may be as low as possible.

22/ All oil facilities within 500m of an occupied residence shall use vapor recovery systems like in the nation's service stations, which are frequently located closer than this to residences. No new oil well shall be located less than 300m from a group of residences, or less than 100m from a single residence.

23/ Everyone approved to drill for oil must post a cleanup bond of 20 years pay to obtain a license to drill in pre-designated drilling zones that are a safe distance from a fresh water aquifer, or sufficiently sized catchment berms exist. Those with a license to drill in pre-designated drilling zones within spill range of an aquifer must post a bond of 500-years wages.

24/ In order to stimulate oil exploration and output we shall say that when private property owners lease their land to licensed oil drillers, they shall not be held financially responsible for cleaning up the spills of those oil drillers, and they shall never suffer any penalty from the environmental compliance system. The licensed driller shall bear all the liability and cost.

25/ All oil extraction reserves must have a designated oil dump site located in a place that is preferably already naturally contaminated with crude oil. These dumps must take all oil contaminated dirt free of charge to reduce illegal dumping, one of the greatest threats to a safe and uncontaminated environment. All dumps of every type shall be owned by the people and none shall charge for disposal.

26/ Government shall not charge anything for waste disposal including most toxic waste because we want to reduce illegal dumping. Concrete, asphalt, demolished buildings, construction site waste, furniture, vehicles and household waste and all parts thereof shall not require special dumpsites. All this shall be considered ordinary waste.

26/ The public property sluice of the National Main-Senate shall determine the most optimal locations for the nation's garbage reserves. These shall be the places where rain water run-off is least likely to get into groundwater and crops that will be consumed by people. We shall not line these landfills with plastic because the idea is folly. However where it is wet, we might cover our dumps with rows of plastic to keep 95% of the water out of the ground in these locations.

27/ Garbage shall be compressed into Bricks in communities and moved by energy efficient rail to remote dump locations where the bricks can be stacked up.

27/ When oil or oil-contaminated dirt is moved in trucks, the drivers must call at least 2 hours in advance in case Government wants to inspect or monitor.

28/ All sales of fossil fuels in this nation shall be posted on the Senate's energy use tracking website. Both sides of the transaction shall do this. It shall be considered a national security imperative to accurately track the nation's fossil fuel output, imports, exports and consumption. We shall forever be on watch for the corruption of our energy use monitoring system.

29/ At a convenient date, we shall impose a national end-user sales tax of 20 second's wages per liter for diesel fuel, and 1-minute's wages per liter for gasoline and aircraft fuel.

30/ On 2024.01.01, There shall be a national end-user sales tax of 40 second's wages per liter for diesel fuel, and 2 minute's wages per liter gasoline and aircraft fuel. If the Senate declares a predatory pricing emergency, it may temporarily credit part of the fuel tax to domestic producers, however in no event shall it ever reduce, thwart, foil, fail to enforce, or counteract the tax on imported liquid fuels.

31/ In addition to the above, all imported liquid fuels shall pay an import tariff equal to at least 80-minutes wages per barrel at importation. This is a protective tariff, a tariff intended to protect our domestic industry from the sort of state-sponsored predatory pricing that has repeatedly driven our domestic producers out of business.

32/ Given the great harm that smuggled oil has caused this nation, no fluid shall flow through invisible subsurface pipes within 20km any of the nation's ports that dock tankers, or any of the nation's land borders. Also, no imported fluids shall flow via pipes away from any of the nation's ports or borders. All imported fluids shall only be permitted to leave the ports and borders of our nation on rail-based containers.

33/ When fluid railcar enter or leave the nation's borders and ports they shall pass over scale. All fluids entering this nation shall pay a fluid import tariff of not less than 45 seconds wages per liter.

34/ The national government shall indemnify all rail carriers for all accidents involving properly shipped domestically produced fossil fuels moving in government certified containers over the nation's rail system. For this reason, no rail carrier shall charge any risk premium for, or discriminate against any of these products. This rule shall not apply to imported fossil fuels.

35/ All of the nation's pipelines shall be made of entirely factory made flanged segments that are bolted together for structural strength, and then welded on the inside so they don't leak. All pipeline shall rest on the ground, or on cross trestles.

36/ Gasoline and other explosive petroleum distillates shall not be imported into our nation due to their volatility.

37/ Wind energy is a dumb idea because it normally takes longer to pay back the windmills than the windmills last. When windmills can't generate enough power to pay for their maintenance, they must be shut down. No windmill that has been shut down shall ever be dismantled or scrapped. They shall stand as monuments to the power of Arab parasitism in a corrupt democracy.

38/ Government shall not give any subsidies, hand-outs, tax breaks, or tax credits for wind or solar electricity generation. Government shall instead give more money for research into geothermal heating, geothermal power
of the people in the course must pass. There shall be no
200-meters shall be as follows. It shall take no longer
50/ The education for shallow mineral drillers of less than
down in river beds and salt lakes.

39/ Except for the often visited parts of Yellowstone, no
hot springs or geothermal area shall be considered off
limits to geothermal energy projects. All hot springs, no
matter where located shall generally be considered an
important clean energy resource. This is because one
geothermal plant can provide almost unlimited heat and
electricity for hundreds of miles in every direction.
40/ All obligations, agreements, credits, mortgages, taxes,
and tax breaks, related to wind, solar, or other forms of
so-called alternative energy are hereby void.
41/ Carbon dioxide shall not be considered a pollutant.
All government regulations and incentives, together with
all private agreements concerning carbon emissions or
the burning of one sort of fuel instead of another are
hereby void.

42/ Oil shale may be crushed and burned in a natural
state, but it shall not be used to make liquid oil. Oil sands
may be burned in a natural state, but shall not be used to
make liquid oil.

43/ Public utilities may sell their power for different prices
at different times, but the most expensive shall not be
more than 33% more expensive than the least expensive.
44/ After 2023.01.01, no municipal or regional electricity
generation plant may burn imported fossil fuels. After
2025.01.01, no municipal or regional electricity generation
plant may burn natural gas or petroleum unless located
inside a community.

45/ The rail system, electric and compressed air vehicles,
manufacturing facilities, government, townships and
internet server farms shall have the right to buy power at
15% over generated cost less line loss.

46/ We shall learn from the San Francisco earthquake
and fire of 1906. Compressed natural gas shall not be
delivered via street pipes in neighborhoods of wood
homes in earthquake zones.

47/ The use of gasoline is not only a fire hazard, but it
also limits our options with regard to the crude oil we can
refine into fuel. Therefore, by 2025.01.01, no ground
transportation vehicle with 3 or more wheels shall be sold
that burns gasoline. All shall be diesel fueled. Gasoline
may only be used in aircraft and equipment.

48/ All patents and intellectual property rights that in any
way relate to the oil and coal industry are hereby
cancelled. No new patents shall be issued for at least 5
years.

49/ No Government permission shall be required for
licensed drillers to drill for:
a/ Petroleum in petroleum extraction reserves.
b/ Solid minerals up to 300m down in non-waterway
locations.
c/ Gold, diamonds and other heavy minerals up to 20m
down in river beds and salt lakes.

50/ The education for shallow mineral drillers of less than
200-meters shall be as follows. It shall take no longer
than 200 hours of study time and 4-weeks. At least 50%
of the people in the course must pass. There shall be no
limit on the people enrolled in the course. Once the
education is completed, the applicant shall bring the
diploma and a spillage bond for 5-year's wages to the
county licensing department. Thereupon the applicant
shall be given a license to drill for minerals, including oil.

51/ Only the flesh and blood, native-born citizens of our
nation should be allowed to drill for minerals in our nation.
These will not be allowed to operate more than one
drilling rig at a time.

52/ Very long and wide truck borne drill rigs may be
driven on the nation's roads without a permit between the
hours of 11pm and 6am, if their certified size will fit on
their route.

53/ Government shall build pipelines to its commodity
extraction reserves, so imported oil will always have a
cost disadvantage compared to our own domestic output.

54/ Government shall build nationwide systems for
moving diesel fuel and regular gasoline. All communities
over 200,000 shall be served in this way.

55/ The most important aspect of preventing oil market
scams is eliminating government permissions from the
process by which people are allowed to drill oil wells.
There shall be no permits required for licensed drillers to
drill oil wells in areas designated for oil drilling. The
second most important aspect of preventing oil market
scams is limiting the fines and liability for spilled oil to
realistic levels.

56/ Government shall not impose any taxes, fees,
charges, deterrences, or burdens on the fossil fuel
production industry, to include petroleum, coal, oil sands,
oil shale, and all other preserved bio energy. Government
shall only tax consumption if it taxes these things. This is
because taxes on production has the disadvantage of:
a/ Favoring foreign producers over domestic producers.
b/ Lowering tax income for no reason.

57/ The national government shall establish a per capita
finished fuel reserve amount that corresponds to not less
than 90-days fuel use for the nation. As a national
defense, and disaster preparation measure, all counties
shall be required to keep their share of the nation's
decentralized finished fuel reserve. Given the switch to
diesel engines, these fuel storage tanks will be
significantly less explosive than gasoline.

58/ After 2026.01.01 dangerous and inefficient gasoline
powered passenger vehicles shall not be sold in our
nation. After this time, we will switch to more abundant
diesel fuel.

59/ If our nation decides to use electric vehicles in great
numbers, then all fueling stations shall be required to
offer two types of standardized, pre-charged, degradation
tracked, robotically swapped vehicle battery packs.

60/ Our nation shall encourage the use of compressed air
vehicles, due to their low cost, light weight, cleanliness,
simplicity, and how the storage medium lasts forever.

R'64. THE COMMONS AND COMMON WEALTH

1/ Government shall not encourage or subsidize the non-
production of food, or any other resource or commodity except in curtailment industries.
2/ All grazing on public land is charged by the head/year. This is to reduce over-grazing and excessive soil erosion and long term output degradation.
3/ All livestock grazed on public lands shall be required to use a GPS-based, electro-shock and sound based herding device to move them over the land in the best way possible. Everywhere gets grazed, and nowhere gets overgrazed and suffers soil erosion. These devices shall be as humane as practical, however, these animals are all destined for slaughter, and their mild discomfort and fear shall not be considered important.
4/ In order to maximize food stores as quickly as possible, at least 80% of public lands suitable for non-irrigated farming and ranching shall be leased at market prices.
5/ Each type of land shall be auctioned off in parcels a bit on the small side of output-optimal for that type of land. The periods shall correspond to the optimal inter-fallow periods for non-irrigation, non-terraced land. When irrigation or terracing is required, the government shall try to lease the land for 20 years on the condition that certain terracing, and or certain classes of irrigation systems have to be installed for the leasehold. Once the auction fee is paid (if any) and the irrigation equipment installed, the farm shall be considered fully paid for 20 years. If there are no offers, then the property may be offered for 50 years. If there are no takers, then the property may be leased for 70 years.
6/ All the plots in each area shall have similar expiration dates, but the areas shall have staggered expiration dates. This is so the auction workload can be spread out efficiently, and also so there is a steady supply of lots coming up for auction.
7/ The Senate shall do what it can to help bring semi-desert and sloping land into cultivation. It may grant development leases of up to 99 years for those who create terraces, plant orchards, or plastic-bag orchards, or plant timber on suitable land that would otherwise go to waste. When extraordinary and valuable expenses like this are the case, The counties may lease human-sized parcels of land for as little as $1 per acre, however the tenant must keep the land in production as a condition of their lease. The counties may also sell the land outright.
8/ We shall develop our nation’s ability to produce all the valuable tree harvests we can, especially the olive, dates, frankincense, myrrh, cinnamon, nutmeg, and other tree harvests that the Mideast has traditionally sought to monopolize. We shall also be mindful of how Ishtar has traditionally girdled and burned the trees of their competitors, so we shall remain ever vigilant and over-plant.
9/ We shall develop our nation's ability to produce all the valuable tree harvests we can. We shall also work to partition our Phoenix species such as cedar and pine. Where great forest fires have raged, government shall replant with less fire-prone species to better partition the forest for the next fire.
10/ We shall be generous with our Ubiq awards for new cultivars and agricultural robots.
11/ Except for military bases, national commodity extraction reserves, and national government lands with more than a 1% building coverage ratio, all public lands in the nation shall be administered and rented out at the county level, even if it is owned by the national government.
12/ To foster a max-out situation for government-managed common resources, the county shall keep half of the tax, fee and lease revenue it generates from all government property in its jurisdiction.
13/ Government must lease all publicly owned farmland suitable for planting in that year, provided the annual rent per acre per year is more than 1 hours wages per year. The minimum fee for grazing shall be 1-hour’s wages per head.
14/ All government property shall be leased according to standard clauses for that type of property. Without explicit permission for a particular activity on a government leasehold, no permission shall be considered to exist.
15/ Those who leases publicly-owned farmland must plant the land in the years and seasons prescribed in the lease, with one of the stipulated crops. Those who fail to do this shall lose their lease unless weather conditions preclude.
16/ The use of public property and infrastructure shall be encouraged by government wherever practical. Government shall not tax the use of public property, but encourage it through reduction of fees to the lowest anti-nuisance levels practical. Only when there is not enough to go around shall allocation fees shall be levied.
17/ No person, family or fictional citizen shall:
a/ Grow, produce, or sell more than 1 per mil (0.1%) of the nation's meat, grain, seeds, or fertilizer.
b/ own more than 1/10,000th of the agricultural land in the nation.
c/ Do business in more than one of these categories.
18/ Our nation shall sensibly build and hold at least a 3-year food stockpile. Building this stockpile shall not be done in a way that increases hunger among UM member nations, or nations that have entirely cleaved away from Ishtar and Islam. Building this stockpile shall however be done in a way that increases hunger among PU nations and those who have not cleaved away from Ishtar and Islam.
19/ Government shall encourage the sharing of knowledge, housing, lodging, vehicles, equipment, tools, workshops, and resources because it will make us all richer. To this end, the judicial system shall offer a fast and easy arbitration of claims involving excessive damage to shared property. The only cost shall be a reasonable anti-nuisance fee. Also, those who engage in the short term renting of equipment and vehicles shall have no liability for the injuries of people using those shared devices, unless the equipment was previously
damaged or improperly maintained in a way that lead to the injury.

20/ Each county recorder shall offer identity verification, asset tracking, a moderated advertising website, and user rating interfaces to everyone involved in the sharing economy, each at operational cost plus 10%.

21/ Our old fake democracy once went out of its way to help slave owners by chasing down and returning the people who fled slavery. In a similar way, our new democracy will go out of its way to help resource sharers. Great effort shall be spent on making sure our resource and knowledge systems maximize sharing.

22/ Government shall not discourage the sharing of resources unless there is a clearly stated and reasonable reason.

23/ Government shall have and enforce reasonable rules and penalties for those abusing the common weal, as well as those abusing private property that is shared either for goodness sake, or as part of a commercial enterprise.

24/ Those who accidentally pollute the commons shall pay a fair and reasonable deter-hence for their abuse, nothing more and nothing less.

25/ All use of the commons shall be by government permit, this permit acknowledged or not.

26/ The principal objective of government regulation of the commons shall be to maximize output over the long term. Nobody shall take so many fish that the harvests are not of optimal size, whether the fish be real or metaphorical. However up to that point, government shall work to encourage use of the commons.

27/ Given the insignificant cost, government shall pay for spawning and distribution of fish and sea animals to maximize the nation's marine harvest. We may do likewise with slopes that will support woods to harvest for lumber.

28/ No kelp forests shall be trimmed to less than 50cm above the surface at high tide. This clause is intended both literally and metaphorically, such as with electronic shepherds preventing the overgrazing that stunts the growth of the plants.

29/ Agricultural resources shall not belong to those who leave them unused or significantly under-used for long periods of time. Good farming acreage not suffering from drought or interruption in its irrigation waters shall revert to the county government unless properly used at least 2 year in every 8.

30/ Land tax shall be high enough to prevent disuse and neglect of both urban centers and its farmlands.

31/ Our nation shall have a national land use and asset audit every year as part of the annual national census.

32/ Centuries before man came to covet the natural environment, Ishtar used royal hunting reserves to put its host's land off limits. In fact, the Magna Carta has 63 paragraphs and four of those paragraphs (44, 47, 48, 53) are about the royal hunting reserves that have taken over the land. With this in mind, we will say that no more than 5% of our nation's useful flat well watered agricultural lands in any category shall be reserved as anything like habitat, nature reserve, or national park, and this only when sloping land will not work.

R'65. PUBLIC PROPERTY

1/ Nobody but the people shall own the market or the path to market.

2/ There shall be no non-governmental ownership of any rail-roads, or shared roads, or other form of communication lines shared by the people. All are hereby nationalized and given to the county governments. New shared linear infrastructure may exist as private property for up to 20-years, however, after 20-years, it shall revert to the people.

3/ We shall not be road poor like Indonesia. Great wealth accrues to our nation for having more roads and road frontage. We shall have laws that help land-locked property to join the various infrastructure system, including the road and railroad systems.

4/ All railroad, canal, and highway lands and structures are hereby nationalized and given to the counties. All ports, airports, shared roads, bridges, railroads, railroad-owned lands, railroad stations, and bus stations are also hereby nationalized and given to the counties. Any attempt to privatize or claim ownership of any of the foregoing shall be void, and the people trying to buy or sell the public interest shall be guilty of fraud.

5/ All utility and railroad land and easements are hereby nationalized and given to the county governments to the extent they wish to claim ownership.

6/ Government shall have an easement to run linear infrastructure, including roads, railroads, super-highways, pipelines, aqueducts, power-poles, giant electric towers, communication lines, electric lines as well as geothermal heating pipelines, both above ground and below ground, on all privately owned non-urban land in the nation.

7/ County government must comply with the national government's instructions regarding easements for the linear infrastructure of the nation.

8/ Government shall build railroads to maximize the amount of well-connected farmland.

9/ Government shall be prohibited from giving land to citizens to build public linear infrastructure. Instead, government shall pay to build the linear public infrastructure on public land, and then it shall own and operate the infrastructure itself. Then government shall be prohibited from ever selling this infrastructure.

10/ When government grants use rights to agricultural land, the land shall only be occupied by bona fide users. The land must be occupied by the registered users continually for 5 years before the users shall be able to sell their rights. During this time, the users shall not sell, lease, transfer, mortgage, or substantially abandon the property. Also, the users may be required to document that they live for at least 300 days a year on the property.

11/ All government land leasing shall take place on the county level, and no more than 640 acres of farmland
may be leased in a single lease.

R’66. NATURE AND NATIVE RESERVES
1/ No land shall be set aside as closed human-free habitat for more than 10 years in a century
2/ There shall be no fees or permits to visit or access any public facility, museum, park or nature area in the nation.
3/ If the nation’s richest, cleanest, and easiest to exploit deposit of any mineral is discovered in a habitat area, or natural park, then the Over-Senate shall weigh the costs and benefits of keeping that particular patch of land as parkland, or substituting another with similar surface characteristics.
4/ All nature reserves shall have at least one lodging and visitor village of sufficient size to facilitate use by the people.
5/ The Senate shall build rail-accessed, non-industrial townships in the nation’s most beautiful places including some national park locations.
6/ Only the national government may eliminate protection for national parkland. The counties shall manage all former state parks in their jurisdiction.
7/ All special laws, citizenship, and jurisdictions for the descendants of the indigenous peoples are hereby abolished and void. All tribal land ownership rights shall be converted to 68-year leases for that tribe. All shall be under the jurisdiction of the county or counties they are located in. All such lands shall be held in common by the tribe unless a majority of the tribe opts for dissolution and partition of tribal property.

R’67. SPECIES PROTECTION AND HABITAT
1/ For all Government legislation concerning the genetic diversity of the biome:
   a/ The definition of a genus shall be a gene group of living organisms that is capable producing non-sterile descendants in the wild. If they can breed together, and produce viable offspring, they are not separate genus, but mere cosmetic variations of the same genus, like the various races and colors of people.
   b/ The definition of a species shall be a subdivision, or a specific variety of a genus.
   c/ Except in rare cases, all endangered creature legal protections by Government shall use the population of the genus, and not that of individual species varieties.
   d/ The Senate may elect to grant protection for various species varieties by single vote. However, this shall generally not be granted for mere color or behavioral variations.
   e/ There shall be 10 degrees of endangered creature. First degree endangered creatures are not at all endangered. Tenth degree endangered creatures are on the edge of extinction.
1/ Only the knowledge sluice of the national Main-Senate shall have the power to set endangerment levels for various animals.
2/ Given how the prior narrow democracy was corrupted by a parasite bent on hiding the nation’s wealth of natural resources, all wildlife habitat, parklands, and nature reserves shall be re-evaluated by the Senate as to whether or not they shall stay protected.
3/ The Senate shall quantify the number of genera on earth, and the number of genera that have gone extinct in each of the past 50 decades.
4/ The Senate shall cancel the status of at least 10% of the nation’s parkland and nature reserves.
5/ Species protection laws shall not apply when animals stray into urban or suburban areas, or into mineral extraction reserves.
6/ Where fast growing communities lack sufficient land area due to adjacent parkland or nature reserve, the Senate shall close down the most useful portions of that parkland and sell it off for use for human communities.

R’68. AQUIFERS AND WATER RIGHTS
1/ Government shall help assure that the nation’s fresh water assets are not squandered, or spilled into the oceans, benefitting nobody. To the maximum extent reasonably possible all soon-to-wast river water shall be redirected by the public wheel to good dry lands where it is needed.
2/ The need of humanity to use the world’s fresh water shall come before the needs of wild animals living downstream. Government shall not compel that any fresh water be used to preserve river habitats, especially those that are brackish.
3/ When scarce irrigation water is used to grow thirsty crops, the price of the water should be higher by volume.
4/ Government shall protect, tax and regulate all stable underground aquifers that will not rapidly dry out if there is a 5-year period without rain. All existing rights to use stable underground aquifers shall be subject to taxation and cancellation. However, this shall not apply to aquifers that will dry up in a 5-year total drought, and aquifers not currently being depleted by use.
5/ During droughts, all conveyed water users, both agricultural and urban shall pay the same rate by volume in each region. This rate shall be raised in order to balance supply with demand.
6/ All well and river water shall be the property of the people. The people and their Senate shall be free to impose whatever allocative rules they wish with regard to the use of their scarce river and aquifer and well water.

Η — ECONOMIC

R’69. ANTI-MONOPOLY PROTECTIONS
1/ It shall be recognized by everyone that the short-term efficiency gains that monopolies brings are minuscule in comparison to the long term market power and then government-like waste that they lead to.
2/ The people and their government shall be mindful of the way that only one monopoly can drain the entire economy, viz petroleum in 1973-2021.
3/ Many people grasp that monopolies have immense long term value to their owners. Most people fail to consider the other side, and how that value comes from the masses, the people. Therefore, as far as the people are concerned, monopolies are a hugely costly thing that should be avoided, except with regard to new products.
4/ Government may grant monopoly rights with respect to new things, be they inventions, discoveries, authorship, development, improvements, manufacture, commercialization and the like. However, Government shall not grant or allow any privately-owned and unregulated monopoly in any other case unless it is extremely costly to do otherwise.
5/ When government grants or permits a monopoly, or market-limiting franchise for something that is not new, that monopoly must be regulated by the Senate and for the shortest term practical.
6/ The benefits of industry consolidation are short-lived and small in comparison to the long term and huge cost of monopolies and oligopolies. After all, the famously huge profits of monopolies and oligopolies must come from someone else’s costs.
7/ No party shall acquire its competitors and come to have more than 10% of any county market or more than 1% of the national market as measured by sales. Companies may however grow their business above these levels.
8/ The Senate shall keep a watchful eye on industry consolidation in the nation. The Senate shall divide or smithereen enterprises that grows to the point where they become capable of exerting monopoly or market power.
9/ Government shall inspect and pre-approve of every merger and business acquisition valued at over 500-years’s pay including those divided into parts to circumvent this rule.
10/ Any domestic producer that makes more than 1/2 of 1% of the national supply of any common raw material may at the option of the Senate be smithereened. The Senate may grant reasonable exemptions for uncommon raw materials.
11/ The money raised from the auctioning-off of smithereened monopolists shall be considered fair compensation for the party that was smithereened. As a penalty for abuse of monopoly power, government shall keep a percentage of the money raised by the smithereening process.
12/ When government pays fat profits to a monopoly, it can be corruption.
13/ The Senate shall have the right to set prices in all industries run by a monopoly, cartel, or other form of commercial or trade paradise, natural or made by government that prevents competition.
14/ When businesses and industries start doing any of the following, they start to lose their right to exist as unregulated and autonomous businesses. They also start to justify their regulation and/or con-fisc-ation by the Senate and people.

R’70. REAL ESTATE SALES
1/ The county recorder system shall have the most complete database of property offered for sale because all property must be listed for sale on the recorder system for 72 hours in order to transact.
2/ The county recorder system shall also have the right to clone any technology for presenting, organizing or searching through information about real estate for sale. The county property database shall not be outdone in any way by any other database with respect to completeness of information, functionality, records access, mapping, or ease of use. All good features shall be cloned by the national recorder’s office system.
3/ Nobody may offer a property for sale or lease that is not listed with a county as for sale.
4/ The fees for listing on the county’s real estate for sale database shall be either 2 hour’s wages per item per day, or 10 hour’s wages per item per day, or 50 hour’s wages per item per day, paid in advance by the owner. The more expensive listings will get only get a more exclusive marketing location. To initiate a listing, a seller must pay for 4 days of listing and an inspection that costs a day’s pay. The money that an owner pays for marketing and inspection shall not be included in the transaction fee.
5/ The assessor’s office shall sell real estate through decaying-price auctions where every day, the price is lowered by 0.1% until the property is sold. Those who start too high must pay marketing fees for longer, or lower their price faster.
6/ The charge for transaction (escrow) and title insurance shall be one percent (1%) of the eventual sales price to start. After some years, this will be lowered incrementally to one half percent (0.5%). Properties listed for sale with the recorder may be withdrawn at any time prior to receiving a valid offer, but listing fees once paid shall be non-refundable. Also the withdraw will be seen on the property’s record. If the seller withdraws the property after receipt of a valid offer, the withdraw fee shall be 3 percent of the offer, and this shall be paid to the party that made the offer.
7/ Only the recorder’s office shall warrant or insure the title rights of property owners, and government shall be required to do this as part of its 1% transaction fee. The statute of limitations for making real estate title claims with the recorder shall be 3-years.
8/ All real estate must be listed as for-sale on the county recorder’s for-sale database for at least 72 hours before a binding sales contract can be created. If the price on the for-sale database is not within 2% of the contract price, the listing price must be changed and another 72-hours
must pass before a purchase contract can be created. During this 72 hour period, there shall exist an offer and 
overbid situation where others can come in and bid, however, each overbid must be at least 1% over the 
previous bid.
9/ The recorder’s office shall use specialist building 
inspectors to both look at the property, and all its work 
records and survey records. These inspectors shall fill out 
the listing forms, locate the property on a map, link to the 
plat maps and surveys. They shall also find to 
comparable sales. They shall do everything except enter 
a price, and sign the listing form, which the owner does 
before they do the remainder.
10/ All owners of all property advertised for sale must 
personally come in to a recorder’s office and read and 
sign the forms at the recorder’s office.
11/ All sellers on the county’s property for sale website 
must list their name and contact information for buyers 
that wish to contact them directly and avoid 
communicating with their salesperson if they are using 
one.
12/ No real estate sales contract shall be valid until all 
buyers and all sellers identify themselves at one of the 
county recorder’s ID verification and multi-shot video 
witnessing rooms.
13/ The recorder shall identify parties, supply all 
necessary standardized forms, intake offers, validate 
contract signing, serve as title insurer, escrow, pro-rater, 
and also perhaps loan broker for relatively identical units. 
The recorder shall also serve as arbitrator for some sorts 
of disputes.
14/ The county recorder shall also maintain a list of 
people who register as interested property buyers in the 
various areas.
15/ All contracts for the sale of real shall be in the form of 
one verbatim-identical unmodified print document signed 
by both parties. This document shall be read and signed 
at a recorder’s office. The only difference between the 
parts shall be the signatures, initials, dates, and 
thumbprints. There shall be no modifications to a real 
estate contract either before or after the signatures, or the 
contract shall be void.
16/ No contract for the purchase or sale of real property 
shall be valid if written in offer-counter-offer format.
17/ No real estate sales contract for a residence shall live 
for more than 30 days unless extended by both buyer and 
seller.
18/ No real estate sales contract may be assigned without 
the written permission of seller. No agreement to future 
assignment of a real estate contracts shall be valid. In all 
sales contracts, the sellers shall have an inalienable right 
to disapprove of any and all buyer name changes, 
including those for misspellings.
19/ Real estate sales contracts that call for sellers to 
make or pay for unspecified, indeterminate, or unlimited 
repairs or modifications to a property shall be unenforceable. A maximum dollar amount must be stated 
for the cost of all seller work, or the amount shall be zero.
20/ There shall be no intellectual property rights for 
contracts. All contract wording may be copied freely.
21/ All real estate sold by homeowners as principals shall 
generally be sold as-is, and buyer-beware, without any 
warranty of any kind, except those granted in writing by 
the seller. However, all real estate sold by, or through a 
professional sales agent, dealer, or builder shall be sold 
with certain basic warranties under the law that are 
binding upon both the seller and the professional sales 
general. Generally it shall be presumed that the 
professional has a more complete and detailed 
understanding of the condition of the thing he is dealing in 
and he shall have some liability for failing to adequately 
disclose the property’s condition. This shall apply whether 
the agent/dealer/builder was the owner or just a party 
facilitating a transaction.
22/ Except for property sold as land, all real estate sales 
contracts shall be subject to cancellation by the buyer at 
y any time, and by seller if not completed in 30 days. When 
property is sold as land, there shall be a date stipulated, 
no more than 180 days in advance. If the transaction has 
not been completed by the stated date, the seller may 
terminate the agreement unilaterally and keep all money 
paid.
23/ Profits from real estate owned for less than 90-days 
shall pay a 60% income tax. Profits from real estate 
owned for less than 180-days shall pay a 30% income 
tax. Except for this anti-middleman tax, and other 
transaction based fees called-for herein, Government 
shall be prohibited from taxing the purchase or sale of 
real property in any way, and must generally offer real 
estate transaction services for one percent.
24/ The word realtor shall hereby be a descriptive term for 
anyone with a government license to broker and deal in 
real estate. This term shall no longer be a trademark.
25/ All buyers searching for property without a realtor or 
agent shall have the right to be credited 100% of the 
commission offered to realtors/agents representing 
buyers.
26/ No agency agreement for real estate shall be created 
except in writing, and none in writing shall live for more 
than 60 days. If a property is not under contract by that 
time, the listing agreement shall expire in its entirety.
27/ No real estate sales agency company shall have 
more than 50 employees. No person shall own more than 
one real estate sales agency company. Fictional citizens 
shall not operate real estate sales agency companies.
28/ All items sold by commission sales people must pay 
commission sales tax of at least 30%. This includes all 
real estate sales commissions in whatever form, all 
attorney fees, and all automobile sales commissions.
29/ The use of a realtor shall never be considered by the 
courts as reducing the seller's liability in any way for any 
real estate transaction.
30/ All agreements regarding sales commissions and finder fees shall be recorded, and open for public viewing, or they shall not be enforceable.
31/ No agreement to pay any sort of sales commission, or third party marketing fee, or similar payment relating to the purchase, sale, or marketing, of real estate shall be enforceable in this nation's courts if more than 1/3 of a year's wages in total for all agents. This is the average national wage as is normal for this constitution.
32/ The use of net commission agreements and agreements that create middleman situations or agents shall be prohibited.
33/ No realtor shall receive any commission for incomplete sales transactions.
34/ There shall be no trade association, labor union, or lobbying group for realtors, commission salesmen, or lawyers.
35/ All on-site signs advertising property availability may only say “for sale”, “for lease”, “for rent”, or “available”. Then interested parties can go to the county’s website. Realtors shall not be allowed to co-market their services on property signs.
36/ Realtors shall only do business under their own name.
37/ Realtors are not allowed to band together and share client information, while keeping that information secret from the public. Such activity shall be considered anti-competitive.
38/ Government and the nation's financial institutions shall be prohibited from paying commissions or fees when they sell or purchase real estate or businesses.

R'71. LIMITS ON FOREIGN OWNERSHIP

1/ It is much harder for foreign economic parasites to participate in the economy of host nations that impose reasonable restrictions on foreign ownership.
2/ Economic parasites are heavily reliant on long-term artificial disparities in national currency and wage values between rich and poor nations. These disparities cannot exist for long if the money flow is all in one direction. The parasite must buy something from the rich nation to keep its currency and labor valuable.
3/ Economic parasites typically sell slave-produced goods in competitive and price-sensitive industries. When they send money back, they typically purchase assets that are not particularly price sensitive, things like debt, commodities and real estate.
4/ As a matter of national economic security policy, the rights of foreigners to participate in our nation's economy shall be limited as follows. Foreigners, be they human, fictional, or governmental, shall not:
   a/ Own our government's bonds.
   b/ Own any form of private bond.
   c/ Own any form of loan or debt in the nation.
   d/ Own any form of option, derivative or leveraged asset.
   e/ Own equity in any of the largest 1,000 companies of the nation.
   f/ Own any mutual fund or similar asset assembled from other assets.
   g/ Own real estate in our nation, except one reasonably sized residence.
   h/ Participate in our nation's commodity futures markets.
   i/ Be considered legal creditors in our nation.
   j/ The foregoing shall include proxies, agents, agreements, assignees, contractors, corporations, trusts, lawyers and any other means of holding ownership. It shall also include all layers of sub ownership, and shell corporation.
   k/ Immigrants may own assets of up to 200-year's wages. Provisional citizens may own up assets of up to 500-year's wages.
   l/ Those renouncing our nation's citizenship shall have the right to own assets for the rest of their life.
   m/ Immigrants may own shares in the companies they founded, provided these companies do not own any of the above items.
   n/ Foreigners shall be encouraged to invest and purchase equity in our nation's small and start-up companies. All voting rights for small company shares owned by foreigners shall be assigned to the Senate, and the Senate shall cast its votes as its sees fit.
   5/ Our Government, and our citizens real and fictional shall not hold, option, or pledge foreign government debt, or foreign blue-chip company debt, or foreign blue-chip company equity. These may only hold hold small company equity and debt, and bonds for specific independent public works projects which will not be guaranteed by the foreign nation's government if they fail. Foreign Governments, and foreign citizens real and fictional shall not hold, option, or pledge our government debt, or our blue-chip company debt, or our blue-chip company equity. Foreigners may only hold hold our small company equity and small company debt, and bonds for specific independent public works projects which will not be guaranteed by the our nation's government if they fail.
   6/ Those who lend money despite not being constitutionally allowed to, shall generally lose the right to collect if they are discovered. This shall also apply to bonds and blue chip stocks owned by foreigners. These shall become worthless if the tax house discovers that they are owned by a foreigner.
   7/ Non-citizens shall not work in lending or foreclosures in our nation.
   8/ Foreigners shall be permitted to have cash accounts in our nation, however, these shall charge the interest on the deposit. This interest shall be the greater of 1% per teneth, or twice the Senate's official inflation rate.
   9/ Each exchange of foreign currency shall pay an anti-sloshing fee of 2 per-mil (0.2%).
   10/ With regard to debts expressed in foreign currencies, the debtor shall have the option to repay in either the foreign currency, or our national currency at the conversion rate that existed on the day the loan was created.
R'72. DEBT CRISIS

1/ The economy shall be regarded as merely an expeditious construct for the fulfillment of our nation's material needs. No aspect of the economy shall be regarded as sacred, or beyond modification. If the economy is not working, then the Over-Senate shall have the right to modify the economy's parameters in any way they elect.

2/ The right to life, limb, and sustenance are primary things that are sacred to free men. The right to wealth is a thing of secondary importance. The right to extraordinary wealth is a thing barely of tertiary importance.

3/ An ultra-rich sliver or pie-slice of the population shall not have the right to drive the rest into the drain pro-verti.

4/ The Senate shall not permit the economy of our nation to be debilitated by a debt crisis in time of deflation. Once a debt crisis has been declared, the rights of creditors may be reduced or cut-tailed in any way the Over-Senate finds expeditious including a reduction of the amount of principal they are owed.

5/ Foreign investment shall be seen as something that is:
   a/ An unnecessary thing for a mature economy such as ours.
   b/ The potential cause of much harm.
   c/ A way for foreign parasite nations to gain power and wealth.

6/ If the Over-Senate declares a debt crisis with a 66% overmajority, then the principal of all non-governmental debts and all lease payments, in this nation may be reduced across the board by any ratio or any sensible blanket formula the Over-Senate elects. The Over-Senate may also elect to do the same thing with government debt, however a 75% overmajority shall be required for this. This process may be repeated.

7/ Likewise if the Over-Senate declares a debt crisis with a 66% overmajority, then the principal of all non-governmental debts and all lease payments, in this nation may be increased across the board by any ratio or any sensible blanket formula the Over-Senate elects. The Over-Senate may also elect to do the same thing with government debt, however a 75% overmajority shall be required for this. This process may be repeated.

8/ When the economy recovers the Over-Senate shall act fairly in reinstating the original lease and debt amounts. All existing and would-be creditors of the people of this nation are hereby put on notice that in the event of an economic crisis, your principal may be discounted for things that are sacred to free men. The right to wealth is a thing of secondary importance. The right to extraordinary wealth is a thing barely of tertiary importance.

9/ The Over-Senate shall have the power to elect economic time-outs with a 75% overmajority. In an economic time-out, the Senate elects a number of days where where the clock stops for loan payments, and rent payments.

10/ Except for new township sites, Government shall not sell off public assets in time of debt crisis to raise money. Instead, it must dilute the money value of everyone in such times, for the scarce money suffers from being too valuable anyway.

11/ By the flation of debt, Government shall try to assure that no more than 10% of properties are lost in times of economic crisis.

12/ There shall be no longer be bonds that are convertible to equity. No existing convertible bonds can be converted.

13/ The Over-Senate may elect with a 75% overmajority to cancel any or all classes of categories of derivative at any time. It may also halt derivative trading up to 10 days retroactively. Because of this, the proceeds for all derivative sales shall be held for 10-days.

14/ If the Senate elects to bail out any of the nation's companies, The stock should suffer a heavy dilution or total forfeiture in favor of the nation's accounts. And if this isn't enough, first the shareholders get wiped out, and then the bond holders do.

15/ No financial derivative shall result in leverage greater than 4:1. Any derivative found to be of greater leverage may be voided at the election of the Senate.

R'73. LOANS

1/ The world has suffered repeated costly economic bubbles that stem from low down payments on real estate and consumption loans. To help reduce the frequency and severity of these bubbles in the future, all financial institutions shall be prohibited from making loans on real estate, where the down payment is less than 20% of the purchase price.

2/ With regard to loans on real estate that is not exchanged between unrelated parties, owner equity on institutional loans shall not be less than 25% of the assessed value.

3/ There shall be no institutional loans on mineral lands. Their development shall be financed by the sale of stock and bonds in the financial markets.

4/ Everyone borrowing institutional money for real estate must show a reasonable source of income or deposits for making their regular loan payments.

5/ The county assessor's value shall be used for all institutional real estate loans. This is intended to make the real estate transaction process faster, cheaper, more transparent, and less corruptible.

6/ Each county assessor's office shall be required to follow national valuation guidelines. The national Sub-Senate shall however have the power to veto the valuations of any assessor's office if it finds they are being calculated incorrectly.

7/ All residential real estate loans shall be approved or denied in 5 work days or less.

8/ The use of amortized, or "never-dying" loans shall be prohibited as being contrary to economic freedom. From now on, all loans shall pay simple non-amortized interest on the amount withstanding. All new loans shall typically have 10 times payments per year.
9/ All repayments of principal and interest shall be at the same ratio throughout the life of the loan, unless the borrower elects to repay the loan early as is always his right. There shall never be any fee, penalty, or other charges for any early repayments on any loan.
10/ No loan term shall exceed 23 years as such is contrary to economic freedom and hands power to those who profit from economic downturns.
11/ There shall be no assumption of loans.
12/ There shall be no default for any loan where the cumulative total paid in monthly payments is greater than the amount called for under the loan.
13/ There shall be an 80% sales tax on loan application fees.
14/ All debts must be recorded and use the recorder’s forms to be legally valid.
15/ No loans shall be callable at the whim of the lender, and no whimsical loan terms shall be enforceable. All loans for single residences must use one of the Senate’s standard loan agreements.
16/ When a loan holder or loan originators experience a disproportionately large number of their debtors default, the problem shall be presumed with them. They shall be presumed to have engaged in predatory lending practices and their loans may be written down accordingly.
17/ No lender shall acquire title to any property through the foreclosure process. All real estate taken back from defaulting debtors shall be held by the county and sold through the county’s auction system. If there is a severe economic downturn, and many counties acquire a glut of foreclosed property, the national Economic Sluice shall decide what to do with this property in the various regions. Government may:
   a/ Slow or speed up the sale of this property.
   b/ Offer special loans to new buyers.
   c/ Write down, or write off the amount owed on the loans.
   d/ Leave some or all defaulting borrowers in possession of their property.

R74. BANKING AND CREDIT
1/ The nation’s treasury and central bank shall be entirely owned and operated by the national government. Any ownership in these not currently held by the national government is hereby nationalized.
2/ Both the nation’s treasury and central bank shall be under the Economic Sluice of the Main-Senate. There shall be no committee or unelected body making any national economic decisions for the people regarding the nation’s money supply, interest rates, or other important economic decisions.
3/ Only the national government may issue currency for our nation and all its jurisdiction.
4/ To reduce the cost of government borrowing, among other reasons, we shall say that only deposits made with the national government or its agents shall be insured and protected by government.
5/ Government shall not limit the size of the insured accounts because government wants to maximize the funds on deposit in protected accounts.
6/ On top of guaranteeing that deposits made with government will not be lost in a financial crisis, government shall also guarantee that they will be protected against inflation by denominating all government deposits in Lavori, also called labor units, also called LU, hours of labor at the average national wage.
7/ All government deposits shall be denominated in Lavori. And because of this, there need be no payment of interest because the value of a labor unit will automatically match inflation.
8/ All government lending shall be denominated in Lavori. And because of the lower inflation risk on both sides of the debt transaction, lending will be fairer, more efficient, and involve less risk for both the lenders and borrowers.
9/ All leases over shall be denominated in Lavori.
10/ All deposits shall be subject to progressive wealth taxation. The wealth tax rate and tax bracket levels for LU deposits with government can be different than the wealth tax for other assets.
11/ Only the national government shall have the power to multiply money through the fractional lending of insured deposits. No bank, or fictional citizen shall take in insured deposits and then lend the money at interest. Banks and others shall however be free to take in un-insured deposits and then lend the money at interest.
12/ Government shall be prohibited from monopolizing banking and lending. Government shall only monopolize the very large niche where insured-deposits are used to fund loans for fungible commodity assets such as dwelling units, rail lines, utility plants, and equipment.
13/ Government will make a sliver percentage of profit from both sides of its monopoly. On one hand, it will cost the people a bit to keep their money safe. On the other hand, non-governmental lending will not happen without profit, so government will always be able to charge positive rates of interest on loans.
14/ Those legally in our nation and with less than 5-year’s pay in their depository accounts should pay government no fee to keep their deposits.
15/ If an enterprise calls itself a depository, it shall be engaged in the business of taking in insured deposits as agents of the nation’s treasury. To fund these enterprises, the treasury shall pay an amount per transaction, and also a sliver percentage for all deposits.
16/ When an enterprise calls itself a bank, it shall be uninsured. When an enterprise calls itself a depository, it shall be an agent for insured deposits made with the nation’s treasury.
17/ Banking enterprises have a long history of going bankrupt in large numbers during economic downturns and leaving the people with the bill. Money deposited with anyone else but government shall not be insured by government.
18/ Only money deposited with a national treasury
through a nationally chartered bank account shall be both inflation guaranteed and insured by our nation's national government. Citizens who want to make sure their money will be there in any crisis should deposit it with the national treasury, for these deposits always get paid in full first. Government shall charge interest for this valuable financial assurance.

19/ In order to make uninsured investments with OPM managers, people shall be required to have at least 4-years average wages deposited with the national government in an insured account. Once this is done, the investor shall be given his investor’s tax ID number and permission to make uninsured investments with his excess funds. This requirement shall not apply for people using their money to start a business of their own, or a closely held partnership.

20/ Pension funds and insurance companies may only deposit their monies with government in accounts denominated in Lavori.

21/ The institutions that lend money on behalf of the treasury shall be called government lenders. Government lenders shall take in government applications, do preliminary collateral verification and valuation with the county recorder. They shall also do preliminary borrower verification, and help disburse funds.

22/ When government or its subsidiaries lend money to the people, collateral value, and hence maximum loan amount shall be determined from the lowest of the following:

a/ The county’s assessed value.

b/ An out-of-county re-appraiser’s statement of updated value.

c/ Unbiased out-of-region Senate appraisal of values.

23/ When inflation is a worry, Government may cut back on its lending activities. Government may also increase down-payments among private lenders, and flate debt among other techniques for curbing inflation.

24/ Government should always discriminate between real estate consumption lending, and investment lending in industry. The former shall always be taxed, the latter shall never be taxed.

25/ Private debt obligations shall not be traded or circulated as currency.

26/ There shall be no debt that can be called-in at the whim of the lender, or in a financial crisis.

27/ There shall be an 80% sales tax on all non-government loan application fees, and a 50% sales tax on all non-government loan origination fees.

28/ No financial institution shall handle more than 1/200th of the nation’s financial needs, or more than 1/10th of the financial industry needs of any county.

29/ All banks shall be required to mirror and backup the accounts of at least 10 other banks of similar size as assigned by the treasury. All county recorders shall also back up all accounts in their jurisdiction.

30/ As currency transactions and lending will be eliminated from our nation’s banks, their office area

R’75. BUNDLED DEBT

1/ Given that Bundled debt is a highly effective way for foreign economic parasites to manipulate national currency rates, no bundled loans in this nation shall be owned by foreigners. All foreign owned bundled debt is hereby nationalized.

2/ As with stock ownership, there shall be no preferred shares, or preference as to priority of repayment with respect to bundled loans, and all new shares shall be equal in every way.

3/ Insurance of loan repayment shall not be enforceable in our nation. If we allow this practice, it gives a false sense of security that aggravates the severity of the worst financial storms.

4/ No new loan bundle may cover an urban area that is more than 15-km across in any direction. No loan bundle may cover a non-urban area that is more than 300-km across in any direction.

5/ There shall be no options, swaps, derivatives, or bonds guaranteed by bundled loans.

R’76. FINANCIAL

1/ All trading exchanges in the nation are hereby nationalized. All exchanges shall be operated by the Senate, and all exchange fees and transaction fees shall
accrue to the people. This is in addition to the anti-sloshing taxes the Senate may elect to impose.

2/ No trading exchange shall handle more than 5% of the nation's financial transactions, or be located in a known earthquake or tsunami flood zone. No county or metropolitan area shall host more than one exchange.

3/ Purchases or sale of real estate, expensive assets, vehicles, intellectual property, stock, business ownership shares, bonds, debt shares, and any derivatives thereon, shall only be considered sold and conferred if they are traded on, or recorded on, one of the Senate's exchange platforms. No purchases or rentals taking place anywhere else shall confer legal possession.

4/ All financial exchanges in the nation shall be open 365 days a year. None may be open for more than 30 minutes a day, during the international trading period, from 09:00am to 09:30 New York time.

5/ Fictional citizens shall be prohibited from paying other companies, or short-term employees to market their stocks and bonds for sale.

6/ All shares in all fictional citizens shall be equal, with equal voting rights, except that shares owned by government may be of a higher and more dominant class.

7/ No publicly traded company shall issue stock or bonds, or buy them back, less than 14 days, or more than 60 days after these actions are authorized.

8/ The national government shall run the financial markets for the benefit of the small disconnected investor. To this end, it shall gently discriminate against large investors and especially insiders. Those who have wealth over 500 year's wages must irrevocably schedule their trades 1 day in advance. Those who have wealth over 5,000 year's wages must irrevocably schedule their trades 3 day in advance. Employees and those who own more than one per-mil of a publicly traded company, must irrevocably schedule their trades 6 days in advance. The rules of this paragraph shall include parents, children, siblings, spouses, and close associates of insiders. Also, all trades placed in advance must go through at the market price at the beginning of the day's trading.

9/ There shall be no mark to market accounting as this aggravates booms and busts by making the boom times looking better and crisis times look much worse. Future generations are warned that mark to market accounting made the economic crisis of 2008-2009 many times more severe that it otherwise would have been.

10/ No non-government investment fund, company, or trading house in the financial markets shall have assets in excess of 100,000 year's wages, or collaborate with its peers. No company investing in other companies shall issue stock.

11/ The Sub-Senate shall manage a number of investment funds, some of which shall be insured by government in some ways

12/ No investment fund shall charge more than 0.5%-per year for its services, or charge more than this amount as a buy or sell charge.

13/ It shall be considered felony bribery when investment advisors are paid sales commissions, kickbacks, or a percentage of the business they bring in, or generate. This shall include higher salaries, and other indirect ways of paying commissions.

14/ There shall be no performance based pay in the brokerage or investment industry as this both creates a conflict of interest, and it encourages investment managers to take risks with the money entrusted to them.

15/ The national government shall charge a 1-per mill anti-sloshing tax on all financial market transactions including those for investment funds. Therefore, the round-trip tax will be 2-permil. This is intended to:

a/ Discourage short-term trading.

b/ Squeeze out front-running market-makers.

c/ Squeeze out parasitic arbitragers.

d/ Stabilize prices.

e/ Raise profits for long term investors.

16/ Those who broker, handle, or manage investments for others shall not trade their own portfolio either in their name or the name of others.

17/ Only the Senate shall rate debtors and debt. There shall be no private rating agencies. To do otherwise is to leave the system open to the sort of systemic risk that caused the financial crisis of 2008-2009.

18/ Primary financial derivatives may exist, however, the dynamics of tertiary and even secondary derivatives being beyond the full comprehension of nearly everyone, these shall be wholly prohibited. Any derivative class elected secondary or tertiary by the Over-Senate may be elected unenforceable and worthless after the fact.

19/ Loans may be bundled, and the whole sold as shares. However there shall be no derivatives on debt or bonds, or bundled loans.

20/ Options and futures shall not exist for individual companies, or their stocks or debts. This is due to huge synergies with insider trading, and market manipulation. Potential for abuse by would-be monopolists, as well as their relative lack of purpose for honest investors.

21/ Options and futures shall not exist for any minerals that come from the ground, except when delivery is taken more often than not. This is due to their synergies with market manipulation, and relative lack of purpose for honest investors.

22/ Margin lending shall be prohibited on the grounds that it:

a/ Tends to aggravate bubbles.

b/ Traps many novice investors.

c/ Reduces profits for long term investors.

23/ Publicly traded company shall make non-emergency announcements between 4:00pm and 10:30am.

24/ Due to the potential for fraud, publicly traded companies shall be prohibited from

a/ Buying back their own shares.

b/ Declaring special dividends. They must instead increase their regular dividends.

25/ Starting on revelation day, all existing options and
futures shall be frozen in time until the Senate can decide on a just course of action for them. Those whose inherently risky derivatives expire as a result of this freeze shall be out of luck. After this, all fictional citizens, banks, insurance companies, mutual funds, hedge funds, and government insured financial institutions shall be prohibited from buying or owning financial derivatives of any kind.

26/ There shall be no computerized trading. Both the purchase price and the quantity sold must be entered by humans. The Senate shall impose a maximum limit on the number of shares and dollar amount that can be entered in one trade.

27/ The Senate may require that non-human account holders place their trades before the market opens each day. The Senate may also require that people not be allowed to both buy and sell the same financial product in the same day.

28/ The Senate shall always keep in mind that our fictional citizens frequently serve as a front for economic parasitism. Also that every market advantage we give our nation’s fictional citizens over flesh and blood citizens is potentially an advantage for economic parasites using those fictional citizens as frontmen.

29/ There shall be no trading of volatility as a financial instrument.

30/ Except for commodity futures, no financial instrument purchased on a financial market shall confer liability in excess of its purchase price.

31/ No fund holding stocks, bonds or commodities, or other assets shall charge more than five per mill per year for its services, or more than one per mil as a transaction charge.

32/ All investments shall be open to all investors. The maximum cost of a share shall not exceed one day’s pay.

33/ Three column accounting shall be the norm for all accounts involving multiple charges and payments. There shall be one column for charges, one for payments and one for net amount after that transaction. All financial services must use three column accounting.

34/ All fictional citizens and financial services providers must have a master ledger for each account. Any charges may off the master ledger may be held to be fraud.

R77. CONTRACTS

1/ Consumer contract clauses that are misunderstood by more than 10% of Sub-Senators reading them shall not be enforceable.

2/ Tricky contract clauses that seem to say one thing on casual reading, but on careful study say another thing that is beneficial to the authoring side shall not be enforceable.

3/ Contracts that are contrary to what sales people repeatedly have said may be held unenforceable.

4/ Contracts that are normally signed without being read shall have little power over the people signing them. For contracts over 500 words, the party that drafted the contract must show proof that the other party actually read the contract. For contracts under 350 words, all signatories shall be presumed to have read the contract. This rule shall apply to all addenda, rules, attachments, titles, general conditions and all other supplementary information. All of these things shall be included in the word count. When contracts reference the Senate’s standard provisions, those Senate standards shall not be included in the word count.

5/ No contract shall be valid for more than two week’s wages unless it is publicly recorded. Those who do not use available Senate form contracts must pay 2X the regular adjudication fees.

6/ Oral agreements shall not be enforceable unless they are video recorded to the camera in state form or contract form.

7/ Blank check contract assignment clauses serve no real purpose, but they are a vein of gold for brokers and crooks. Therefore all blank check assignment clauses shall be prohibited. No contract clause allowing for contract assignment shall be valid unless the assignee is both named in the assignment clause of the contract and also signs on the same signature pad as the other parties to the contract.

8/ The maximum potential billing liability excluding enforcement costs and third party liability must be stated. Legal enforcement costs shall not exceed 300% of the maximum potential liability without enforcement costs.

9/ When entities trade hands, all open escrows automatically get cancelled, the charges falling on the owners of the entity trading hands.

10/ In order to accelerate output and advance national competitiveness, we shall have it that reasonable, and non-predatory contract clauses calling for payments of liquidated damages arising from delays shall generally be enforced by the courts, where an upper limit to the damages is stated and the work or materials provided generally conform to contract standards. Early completion bonuses shall likewise be generally enforceable.

11/ In general, all consumer contracts must use one of the Senate’s form contracts for their classification.

12/ The following matters shall not be the subject of a binding contract, and no clause or concerning the following matters shall be enforceable in the nation’s courts:

a/ All matters relating to gambling, gambling debts, lotteries.

b/ All matters related to sport team membership and acting. This includes professional athletes and professional actors that fail to show up or perform as required.

c/ All matters concerning the exclusive right to publish, own or repeat any recording of, or any account of any ostensibly true event.

d/ All matters of celebrity sponsorship and payment for celebrity sponsorship.

e/ All matters of live performances in front of a large
R78. NO CASH OR CRIMINAL CURRENCIES

1/ To reduce crime and corruption, our nation shall eliminate all anonymous physical paper banknotes, currency and coins by 2030.01.01. After this date, all physical currency shall be eliminated, and all money shall be electronic. After this date, all money shall only exist in notional accounts maintained by the county recorder system in blockchain fashion, the files backed up by the other county recorders in other parts of the nation.

2/ Those spending any amount of money on behalf of someone else shall file a statement with their recorder. It shall be as money laundering when people fail to file a statement.

3/ We shall watch to make sure that no new criminal currencies appear. If criminal currency appears, Government must take action against it and all money launderers using it.

4/ The electronic currency system shall track each person's assets and ascribe a net financial value to each person. Each person shall then pay wealth tax based on their total net worth. This system will also make it much easier to spot criminal activity.

5/ Our nation shall take all reasonable steps to discourage the use of gold, diamonds, platinum, silver and other fungible money substitutes. Government shall take all reasonable steps to degrade and ruin the long term value of these things, as well as similar compact and fungible goods, and anonymous black market electronic currencies.

6/ The nation shall be prohibited from buying gold or silver, or using them in its money, or holding gold, silver and platinum bullion without selling 1% of its reserves each year.

7/ The nation shall be prohibited from holding or displaying so-called precious metals and diamonds, rubies, emeralds and sapphires in its museums.

8/ Except when the material is to be used up in industrial purposes, contracts that call for, or allow payment or delivery of gold, silver, platinum, diamonds, rubies, emeralds, or sapphires shall not be enforceable.

9/ No institution involved in trading in stock, bonds, or mutual funds shall be allowed to trade gold, silver, platinum, diamonds, or other gemstones, or obligations related to the transaction of these things.

10/ The nation shall incrementally divest itself of all precious metal bullion reserves and museum gemstones at a rate of 3% per year until 2025, and then 2% per year until 2030, and then around 1% per year, thereafter, thus flooding the market for over a century.

11/ It shall be considered the felony of money laundering to use or offer services relating to anonymous black market electronic currencies, on or after revelation day. The use of crypto currencies on or after revelation day shall be considered felony money laundering. Government shall be free to use sting operations to entrap people into using or offering services relating to crypto currencies.

12/ All sales or gifts of jewelry containing gold, platinum diamonds, rubies, sapphires, or emeralds, shall be subject to at least a 33% tax.

13/ Free people are supposed to shun gold, diamonds, and other gemstones as Ishtar's currency and Ishtar's con. It is best if no new wedding rings are made from these criminal currencies.

14/ The counterfeiting of gold, platinum, silver, gemstones, gemological certifications, antiques, and antique artworks shall not be a crime in this nation.

15/ No gemological or jeweler's certification shall have any legal validity in this nation.

16/ The richest diamond lands in the nations are shall be nationalized and made mineral extraction reserves.

17/ It shall be the official policy of the nation to prevent gold from being used as a criminal currency. To this end we neither want to mine all our gold, nor do we want to produce a steady amount. Instead, we want to suddenly announce the opening of a new section of auriferous river to gold mining every 2 to 10 years, so as to destroy the ability of criminals to use compact gold as a store of value.

18/ Our nation's government shall watch to make sure that no new criminal currencies appear. If criminal currency appears, government must take action against it and all money launderers using it.

19/ Only the national government of our nation shall have the power to issue currency. The counties shall not have their own currency. No citizen, fictional citizen, or foreigner shall issue currency.

20/ Each river channel and lake bottom in our nation,
shall be sampled every 5km by core drill, and the samples sluiced for gold and other heavy minerals. Special attention shall be given to tracing concentrations back to their motherlode deposits. Special attention shall be given to the idea of quantifying how much gold exists buried in our river valleys.

21/ The river valleys of the following places shall be drilled to bedrock every 2,000m.

22/ Government shall issue emergency currency, printed currency with serial numbers, that shall have no value except in time of crisis. In order to keep this currency from being used as a criminal currency during ordinary times, the following shall apply:

a/ The currency shall expire worthless after 10 years if not redeemed.
b/ An application and affidavit explaining the crisis exchange must be signed by the person redeeming the currency.
c/ Prior to a crisis, the registered holder may redeem his tokens at 98% of face value. If he no longer has the printed tokens they may not be redeemed.
d/ Prior to a crisis, nobody but the registered holder may redeem the printed tokens. During and after a crisis, anyone in possession of the printed tokens is paid at face value.

R79. PAPER MONEY AND LAVORI

1/ While America continues to use anonymous paper money in dollars as legal tender, it shall proudly honor the men that made our nation great. We shall honor these men because we know that many people in the world will step-aside for our grandfather democracy with these men on our aegis. Their gifts are the gifts of democracy and freedom and the shared group spirit of America, the land of the free. Each man (or pair) shall be on one side as follows:

$1 Wright Brothers & Neil Armstrong
$5 Steve Jobs, Steve Wozniak & Thomas Edison
$20 Patrick Henry & Melancton Smith
$100 Jonas Salk & George Marshall
$500 William Knudsen & Henry Kaiser

2/ We shall call our new entirely notional, entirely electronic currency as Labori, LU, or Labor Units, meaning hours of labor. Our government shall try to keep one Labori worth one hour's average wages except in times of crisis. It shall be considered an important thing that one Labori be worth one hour's wages for the average person because:

a/ It makes people realize that money is really time.
b/ It makes people better understand the value of labor, the cost of goods and the extent of debts.
c/ It makes it hard for economic parasites to flate and manipulate our currency as a way of profiting from our labors and trade.

3/ To create a headwind for crime, corruption parasitism, to tax torpid capital, to increase net tax revenue, to enable negative interest rates and deflation without debt crisis, the Senate may aim for a stable annual inflation rate of up to 10% for its non-Lavori secondary currency.

R80. SOCIAL COSTS AND INDUSTRY

1/ One of tyranny's greatest competitive advantages is that it does not burden its industry with social costs. Free nations must not exaggerate the value of this competitive edge by shifting social costs onto their industry. Instead they must go in the opposite direction and try, wherever practical, to liberate their industrial base from all social costs. This should include government reimbursing private industry for the realistic cost of government compliance. If we fail to do this, we support tyranny by helping it keep its competitive cost edge.

2/ In our nation, no employer shall ever be allowed to pay any sick leave, maternity leave, healthcare benefits, unemployment insurance benefits, pension fund benefits, or worker’s compensation insurance for non-dangerous work. If Government elects to have these things, then our Government must pay for them. Employers shall be required to pay worker’s compensation insurance for dangerous work.

3/ The Senate shall regularly inspect the processes of all domestic businesses with respect to labor safety, product safety, output quality, and polluting byproducts among other things. So long as a business complies with the Senate's business rules, so long as it does not actively seek to hide information from its Senate inspectors, and so long as it complies with the reasonable demands that 2/3 of the randomly drawn Senator inspectors elect to make, it shall generally be held innocent of wrong-doing.

R81. NATIONAL COMPETITIVENESS

1/ There shall be no income tax because income taxes put a nation's producers at a dis-advantage when competing against nations without an income tax.

2/ All non-money benefits paid or given by employers shall be assessed and taxed.

3/ All goods and services sold in this nation shall pay sales tax, and this shall be regardless of where the goods were made.

4/ Employers shall be prohibited from paying for unemployment insurance. Government shall not harm the competitiveness of the nation’s industrial base when it can so easily finance this insurance in other ways.

5/ Employers shall be prohibited from paying for their worker’s health care. No insurance company may sell health insurance to employers or employee groups. However, in dangerous job categories, employers shall pay for insurance for job-related injuries.

6/ All domestic workplaces are subject to inspection by
government, and all shall be required to obey its reasonable instructions regarding worker safety, health, product safety, and environmental pollution.
7/ Those working doing dangerous jobs may be required to wear cameras and other monitors.
8/ Employer-managed and employer-paid pension funds shall be prohibited. All existing monies shall now be paid out to the employees.
9/ Government shall provide environmental testing and reporting free of charge to all manufacturing businesses that require testing.
10/ Government shall not require plastic-lined dumps or charge for waste disposal. All dumps shall be owned by the people.
11/ Government shall prohibit the sale of chrome-plated products regardless of where they are made. Government shall also prohibit the sale of other toxic, short-lived, and bad-idea industrial processes as well, regardless of where they are made. It is both bad industrial policy, and bad environmental policy to do otherwise.
12/ All mass-produced products and all service providers shall display their name and UPC. It shall be the crime of fraud if anyone but the final consumer removes or hides the manufacturer and origin information of any mass-produced product.
13/ To encourage the proliferation of good ideas and good business practices, government shall maintain objective comment, complaint, and ratings boards for all mass-produced products and service providers in the nation.
14/ Government shall maintain an alibaba for all classes of manufactured goods offered for sale in the nation. Manufacturers shall have the right to force all others to stop marketing their products on this board. Middlemen shall have no right to list on these boards, unless they substantially add to the product. Government shall only charge reasonable anti-spam fees for this alibaba service.
15/ All mass-production products and parts sold in this nation shall have a international manufacturer and product number imprinted upon them. They shall also display on their label a UPC, a Senate useful life estimate, the manufacturer and product number, the nation of origin, the overall weight, and the weight of key components.
16/ The standards for materials included in imported manufactured goods shall not be any different than either the raw materials we make here domestically, or the raw materials we import.
17/ The Senate shall rate all major products and services. The Senate may elect to stigmatize any product or service sold in this nation for any reason.
18/ There shall never be any taxes of any kind on rail freight. Freight using the road system shall be taxed by an amount high enough to cover the true cost of the road maintenance the freight necessitates.
19/ The government of the land of the free shall construct at least 20 industrial ring railroad zones such as exist in Berlin Germany, and were a principal cause of the two world wars. Once we do this, our industrial land will cost little more than farmland.
20/ Government shall maintain the nation's rail tracks for no charge, just like it maintains the roads today.
21/ Government shall provide railroad car pulling at cost with no provision for payback of infrastructure development costs or impounding for maintenance.
22/ We shall support our manufacturers by giving them legal advantages over middlemen. Our nation shall work to gently wither its middlemen by giving them slight legal disadvantages in comparison to both manufacturers and consumers.
23/ Automation of human labor shall generally be regarded as a good thing. Government shall not discourage the use of labor magnifying robots or automation that saves human work time.
24/ Except in duly elected curtailment industries, no segment of the nation's manufacturing base should be driven overseas due to government regulation of some industrial process.
25/ Industry cannot compete in an environment of heavy government burdens and taxes. Also, industry grows fat and inefficient in an environment of subsidy. The best path is for government regulation is to have no net cost or subsidy to industry.
26/ International trade is a very good thing in small amounts. Therefore, this nation shall encourage international trade when it is less than 7% of domestic manufacturing. However International trade is a terrible and bad thing in excessive amounts as it undermines our nation's industrial base and its ability to defend itself in war. Therefore, this nation shall do whatever it takes to keep international trade from exceeding 15% of domestic output both across the economy and in all strategic and potentially military industries.
27/ Government shall work to assure that the nation's industry can compete in an environment of free and fair trade. Government shall act to protect the nation's industry from both predatory trading practices and from nations that use undervalued currencies.
28/ Government shall struggle against the sort of world where middleman nations and their fictional citizens exploit slavish workers in various parts of the world.  
29/ Government shall do what it can to prevent cartels and fictional citizens from practicing targeted predatory pricing, from driving our producers out of business, so they may jack up prices to exorbitant levels later. If the Senate elects that predatory pricing is occurring, then it shall be required to take action to protect the nation's industrial base. If we fail to do this, we will see our nation's industrial base undermined by the forces of parasitism as so many of our democratic progenitors have suffered.
30/ If the Economic Sluice elects that predatory pricing is occurring, government shall nourish that industry by either increasing tariffs, or lowering the sales tax rate for
domestic producers, or both. If this is still not enough, the government shall step in and protect the nation's strategic production capacity by blocking liquidation of assets. These strategic assets shall be mothballed by government for decades if need be. No mineral, raw-material, key commodity, or key industry shall be excluded from this protection. Government shall also register the key people working in these industries so they may be later drafted to re-start the industry themselves, or to train others to do so.

31/ The senate shall be required to give rulings regarding unclear regulations, so the entire government code can be as crystal clear and intuitive as possible.

R'82. EMPLOYMENT

1/ Government shall err on the side of making the least restrictive laws possible concerning the hiring and firing of workers. Hiring, firing and employment shall not be taxed, charged or burdened in any way by government.

2/ National competitiveness and the creation of many new jobs shall trump the value of keeping and sharing of the jobs that already exist. Government shall focus on making jobs, rather than mincing over the rights of people terminated from the various commercial enterprises of this nation.

3/ Except for contractual obligations, government shall not compel employers to pay anything to anyone when they hire, fire, or lay off workers.

4/ All unemployment benefits shall be paid by government. Thus when employers are wrong in taking a chance by hiring someone, all they have lost is the cost of training and getting the new person up to speed. They are not also burdened with the cost of paying unemployment benefits. To do otherwise is to tax industry for taking a chance and hiring people.

5/ To make the nation's labor force easier to employ, government shall track the employment history of all workers. Government shall attempt to maintain objective employment comment boards and objective worker ratings for all workers who want to be rated. It shall do this to encourage the hiring of good, hard-working people and to make the people more hard working.

6/ Government shall establish detailed rules for worker conduct, employer conduct, as well as hiring and firing of workers. However, government shall not intervene, unless laws or an employment agreement has been broken.

7/ To help reduce unemployment, we shall say that in most cases, government and the courts shall not impose huge fines on employers for the unpredictable and one-off misdeeds of their employees, unless the the employer's instructions, statements, actions, or omissions in some clear way caused the problem. When government or its courts do fine employers for the misconduct of their employees, this amount shall not generally go near bankrupting the business unless the violations are repeated in the face of notice. Instead the penalty amount for shall only be a reasonable deter•hence.

8/ Government welfare benefits to working-age men and working-age childless women are supposed to be a bit difficult, annoying, time consuming and humiliating. This is by design, and nobody should take this personally. Homeless dorms are supposed to be devoid of privacy, asexual, regimented, inspected, time wasting, and perhaps a little bit dingy and smelly.

9/ Government shall focus on national competitiveness and the creation of wealth rather than the sharing of the wealth that exist. Wealth sharing shall only be a safety-net, and a short term one at that. After one’s government-paid unemployment insurance runs out, the only other means of public support shall be in the county homeless dorms.

10/ The workers of this nation shall be guaranteed the right to a mechanic's lien when they are not paid. In the event of a legal dispute, the employer can post bond or other reasonable guarantee for the amount in dispute with the court until the dispute is resolved. Mechanics that repeatedly file liens may be prohibited by the court from using the mechanic's lien process for some years.

11/ Those working in lifting or stooping jobs shall get back X-rays prior to starting their work and once every 2-years. If these X-rays show disc compression or other lifting related problems, then these people may not work in a lifting or stooping job. Due to the cumulative, preventable, and hard to verify nature of back injuries, no worker injury payments shall be paid for back injuries resulting from lifting or stooping. No worker injury payments shall be paid for repetitive stress or back injuries that come from desk jobs, or office work. Fugitive injuries, and injuries with no significantly objectively observable symptoms shall not be covered by worker’s insurance.

12/ The OSHA shall compile detailed safety and anti-injury media for all occupations. All workers shall be required to watch all relevant safety media for their occupation. All workers must pass all OSHA safety tests with a 100% score in order to be covered by worker's injury insurance. No worker may be punished for refusing to work outside his certified safe area.

13/ Everyone’s shall be automatically licensed to engage in business under their name and national ID number. In order to prevent the extreme nuisance of name shedding, and the bad behavior it causes, it shall be extremely difficult to change one's name or business number, particularly when people have a record of bad or anti-business behavior.

14/ All employers, even casual employers, shall be liable for worker injuries when they:

a/ Employ workers that lack the appropriate OSHA safety certification.

b/ Pay wages outside the government's wage payment system.

15/ Injuries to trained and tested people on government approved machines shall generally not be the responsibility of the employer, unless the employer has
asked the employer do something dangerous.
16/ All employment recruitment and placement people
shall pay commission sales tax on their income from
making employment placements. Regardless of contract
stipulations, no employment recruiter shall be paid
anything until at least 60 days after their placements start
work. If the new employee quits or is terminated for any
reason before this time, no payment shall be due to the
recruiter. Where the work period is for less than 60 days,
the recruiter must still wait 60 days to be paid.

I — HEALTH — FAMILY — WOMEN

R'83. HEALTHCARE
1/ Because demand for healthcare is inherently infinite
and the supply of healthcare resources is inherently
limited, the healthcare industry eternally suffers from
shortage conditions.
2/ In order to minimize this eternal shortage, the Senate
shall make a comprehensive list of all standard
treatments and procedures that are known and accepted.
Then based on observable, measurable evidence and
repeatable results, the Senate shall rank these treatments
in terms of cost effectiveness for the various age and risk
classes of patients. At the top will go the least expensive
treatments with biggest pay offs. At the bottom will go the
most expensive treatments with the smallest payoffs:
a/ Low cost, big bang procedures shall be provided by
government for free, and the doctor shall be paid entirely
by government except for an annual deductible of one
month’s wages and a co-pay of 15%. The Senate shall
waive the deductible and copay for prenatal care,
vaccinations and other treatments it wishes to encourage.
b/ Medium bang procedures shall be untaxed and
unsubsidized, and the doctor shall keep all of the money
he charges the patient.
c/ High cost, small bang procedures, shall be taxed and
the government shall get most of the money and the
doctor shall get only some of the money.
d/ For no bang procedures, like cosmetic surgery, the
government shall get nearly all of the money, and the
doctor shall only get a tiny part of the money.
3/ To determining the healthcare bang for the various
procedures, government shall take into account all
relevant lifestyle and health factors. No risk group shall be
able to lobby for exemption. Our government shall be run
by reason and cold logic everywhere, including here.
Maximize shall be our mantra, and we shall allow no
cheaters.
4/ People shall be assigned an overall health score. This
will use all the tobacco, alcohol, mafia drugs, and perhaps
sugar consumed. This may also offer activity monitoring
for those who want to earn healthcare credits in this way.
There may also be daily charges for torpid young people.
All the forgoing will be combined into a single 4-digit,
xx.xx number that will act as a coefficient for one’s age.
5/ Those who have been habitual smokers or alcohol
abusers, mafia drug users: Those who are old, diabetic,
torpid, obese, or big sugar consumers: All of these groups
shall lose their free healthcare status, and later their
untaxed healthcare status, at a younger age.
6/ Many ailments will be listed in many sub-categories
with great precision as to age and other risk factors.
7/ Government shall be generous with healthcare
coverage for those in the first 2/3 of life, and it shall be
miserly with healthcare coverage for those in the final
third of their life, and especially those who appear to be
near the end of life.
8/ Government shall provide the most cost effective
treatments, such as vaccines, prenatal care, and basic
children’s healthcare for free to all citizens with no
deductible, or copay. For the next group of treatments
there shall be a deductible and a 15% co-pay, while the
least effective, luxury treatments might be taxed at over
800%.
9/ All businesses that sells alcoholic beverages must also
sell the government’s standard medical and trauma kits at
no markup.
10/ All taxes from luxury healthcare procedures shall be
applied to expanding the coverage of the least expensive
procedures with the biggest payoffs. In addition to this,
government shall allocate a silver percentage of GDP.
11/ Care herein shall mean all procedures, treatments,
and other forms of medicine. As follows are the various
scores levels.
Tier-1a healthcare = highly cost-effective care that shall
be paid by government with no deductible or co-pay.
Tier-1b healthcare = highly cost-effective care that shall
be paid by government with a deductible and co-pay.
Tier-2 healthcare = moderately cost-effective care that
shall neither be paid by government, nor taxed.
Tier-3 healthcare = slightly cost-ineffective care that shall
pay low luxury sales tax.
Tier-4 healthcare = moderately cost-ineffective care that
shall pay moderate luxury sales tax.
Tier-5 healthcare = highly cost in-effective care that shall
pay high luxury sales tax.
12/ The Healthcare sluice shall be the ultimate arbiter of
what tier a procedure is for people with various health
scores levels.
13/ Tier-1 and Tier-2 healthcare shall only use Ubiquitized
drugs and other forms of ubiquitized IP.
14/ There shall be only a limited number of insurance
classes, like Tier 2.0 to Tier 2.9, and Tier 3.0 to 3.9. This
will make the insurance easier to understand. Insurance
shall not be enforceable for Tier-4 and Tier-5 healthcare
procedures. Tier-2 healthcare insurance shall have a
deductible of one month’s wages and a uniform co-pay of
15%. Tier-3 healthcare insurance shall have a deductible
of three month’s wages and a uniform co-pay of 30%
15/ Government shall maintain a central payment
platform for all healthcare services, including pharmacy,
dental, psych counseling, physio-therapy, chiropractic,
massage, and alternative cures. Everyone paying or
getting paid for things even remotely like healthcare must use the electronic healthcare system for all transactions. This includes all insurers. In this nation, it shall be felony tax fraud to buy, sell, or offer healthcare services except via this system.

16/ The full cost of all healthcare charges and optional permutations must be agreed to in advance in writing on the healthcare system except where this is simply not practical due to an emergency. This shall include all third party services such as testing and imaging.

17/ There shall be a national drug use database where all prescriptions are tracked and doctors can check for overlapping prescriptions, prescription drug abusers, and adverse reaction trends. We will start with opiates and then add other drugs prone to abuse, and then move on to all drugs including over the counter drugs. Under this system, people will only be able to buy a limited amount of each over the counter drug before they must go and get informed about the harm.

18/ All doctors shall prescribe all drugs through the unified national prescription database. Under this system both excessive prescribing and excessive use will be easy to spot. Also, all prescription drug use will be available to all subsequent doctors and pharmacists working with that patient.

19/ Everyone over age 72, and those with extremely painful health conditions shall be allowed to take opiates without listening to the anti-addiction propaganda otherwise required when healthy people opt for these licenses.

20/ Opiates shall not be imported into this nation. We shall not be enslaved as a nation.

21/ All cosmetic surgery and treatments shall pay Tier-5 luxury sales tax. This shall not include people disfigured in accidents, but shall include people with self-inflicted injuries.

22/ Taxes shall be due for all luxury healthcare procedures whether performed in this nation or in another nation. It shall be the crime of tax fraud for citizens and other taxpayers of this nation to obtain luxury healthcare procedures overseas without declaring them, and paying tax on them.

23/ Treatments and care that consume too much of our scarce medical resources may be prohibited.

24/ We shall not squander the time of our know-it-all doctors doing the work of technicians. Any medical diagnosis or procedure that can be done nearly as well by specialist technicians must be done by specialist technicians. This shall include diagnosis, local anesthesia, and minor cutting procedures done under local anesthesia. This as well as the prescription of limited drugs related to the technician’s narrow range of specialty.

25/ The following treatment groups must pay luxury tax:
   a/ Tobacco and alcohol disease
   b/ Injuries incurred while driving drunk, or driving in a vehicle with an intoxicated driver.

   c/ Injuries incurred while in a vehicle speeding at more than 35% over the posted speed limit.
   d/ Injuries from failing to wear a seat-belt.
   e/ Self-inflicted injuries.
   f/ Injuries from human-operated motorcycles.
   g/ Injuries from stunts, racing, tumbling, jumping, or acrobatics.
   h/ Joint, bone and muscle injuries from playing football, rugby, basketball, or soccer.
   i/ Injuries from boxing or martial arts.
   j/ Injuries from skateboarding, roller-skating, scooter riding, and going too fast on a bicycle, or riding while the ground is wet.

26/ No non-smoker shall be compelled to pay for any smoking related healthcare. All healthcare for illness related to tobacco, shall be entirely funded by tobacco taxes. All healthcare for illness related to alcohol shall be entirely funded by alcohol taxes. The other portions of the healthcare budget shall not be used to subsidize treatments for these activities. It is expected that this practice will cause the cost of tobacco to rise many fold. All tobacco vendors shall be required to offer nicotine chewing gum at marginal cost to anyone with a recent tobacco license, and without a prescription.

27/ Due to their cumulative, subjective and self-inflicted nature, on-the-job spinal disc injuries from lifting shall not be considered on-the-job-injuries.

28/ The control of mosquito borne disease in urban environments is a more important imperative than pesticide exposure from our environment. This is because the death and disease caused by mosquitoes is huge and easy to see, while the harmful effects of pesticides in our environment are very hard to find.

29/ It shall be considered a good thing when a broad section of the people have skills in animal surgery. Such skills may be hugely valuable in natural disasters. Furthermore, Better that we can treat 2X or 10X as many animals than we treat fewer animals with slightly better outcomes due to extreme veterinary surgery training. For this reason, the government license to humanely operate on animals, and to repair them from vehicle accidents and other injuries shall only require 4 high school or college courses and passing the animal medic license test.

30/ All high schools shall offer single courses in infectious disease nursing, emergency birthing, trauma nursing, burn nursing, healthcare cleaning and sanitation, elder nursing, and first aid among other useful civil defense healthcare training modules for backup help in disasters.

31/ Practicing doctors under age 62 that fail to document at least 1,500 hours of medical work in each year shall pay a 40% income tax. Those who fail to document at least 2,000 hours of medical work in each year shall pay a 20% income tax. Doctors over age 60 and doctors that are Ubiqs or Senators shall be exempt from this provision.

32/ All healthcare treatment companies employing more than 12 physicians shall pay a 6% income tax. All
healthcare treatment companies employing more than 100 physicians shall pay a 12% income tax. All healthcare treatment companies employing more than 600 physicians shall pay a 25% income tax. Using business mechanisms by which multiple doctors merely share expensive equipment and equipment technicians shall not be considered as joining the physicians into one business.

33/ The Senate shall maintain intake accounts for all common classifications of health-related research and for personal treatment donations. The Sub-Senate shall apportion and disburse 100% of this money to the classification it was donated to. The Sub-Senate shall also provide auditing to verify that the money was spent on legitimate things. Those appealing to others for the cost of their medical procedures must use this system, and they shall not be allowed to collect any money themselves.

34/ The Senate shall offer 12 levels of health and medicine video training for free to anyone who cares to watch them. Level 1 shall be compulsory for all 13-year-olds. Level 2 shall be compulsory for all secondary school graduates. Level 10 shall be equivalent to medical school. 35/ Government shall provide free training in every occupation that can be taught via an automated online interface, and healthcare is no exception. However, for healthcare occupations, government shall also provide up to 2-years of clinical training for doctors and up 1-years of clinical training for nurses at no net cost for those who both obtain the license and practice for 5-years in the field they trained for. All clinical training shall occur in government hospitals and government shall not outsource this to any private medical school.

36/ We shall train healthcare specialist technicians in a variety of narrow areas including diagnosis. We shall maximize the use of specialist technicians in healthcare. Medical procedures that can be done nearly as well by specialist technicians, must be done by specialist technicians. When the nation's know-it-all doctors do the work of technicians, they shall only get paid a technician's wages.

37/ The Senate shall set the standard compensation levels for all widely performed healthcare procedures. All healthcare providers must charge a consistent and declared across-the-board multiplier on these amounts. There shall be no discounted or negotiated prices for healthcare services.

38/ All healthcare providers must upload all health records to the national system. All files shall be posted on standard forms and formats. All healthcare systems shall be compatible with the national system by 2025.01.01.

39/ Every person's medical history, medical alerts, prescriptions, and allergy other relevant healthcare information shall be accessible by their medical ID number in the national healthcare database. Everyone shall have only one lifelong account on this database.

40/ The national government shall provide medical record keeping on the national healthcare database for free. Each person can also be able to easily make a local backup of their files if they want.

41/ It shall be seen as a corrupt practice and a crime to give or receive a referral fee or valuable consideration for referring a patient to a healthcare provider. It shall be an act of ethical misconduct to name or suggest any particular healthcare provider as opposed to a class of specialist.

R'84. RESTRAINED ACTIVITIES

1/ The Senate shall establish budgets for the various segments of the healthcare system, the civil law system, and other portions of the economy that need to be limited in economic size. For the sake of longevity, these budgets shall be expressed as a percentage of GDP.

2/ The Senate shall use variable, industry-specific taxes to control the net-income of these industries. At the end of each teneth, these taxes shall be calculated so as to force each industry's net revenue into the budget elected by the Senate.

3/ To start, the budget of the nation's healthcare system shall be 8% GDP.

4/ To start, the budget for the nation's civil lawyers shall be 0.2% of GDP.

5/ To start, the budget for civil judgements shall be 0.5% of GDP.

6/ To start government business fines shall be 0.2% of GDP.

7/ These percentages may be adjusted up or down by with a 2/3 overmajority vote in the Over-Senate.

R'85. QUARANTINE

1/ The Healthcare Sluice may impose reasonable quarantine restrictions on those with contagious diseases.

2/ It can be a felony to break a Senate quarantine.

3/ Those attempting to leave a militia or military enforced quarantine zone may be shot.

4/ Except for the contagious, everyone over age 13 shall have the right to accept or refuse medical treatment.

5/ During epidemics, the Senate shall have the right to compel universal testing for the epidemic pathogen.

6/ All mandatory vaccines shall be produced and delivered by the healthcare sluice. There shall be no corporate or foreign manufacture of mandatory vaccines.

7/ All vaccinations must be available anonymously until after they are given.

8/ All vaccines compelled by government must be Ubiquitized.

R'86. SUICIDE, EUTHANASIA, AND EXECUTION

1/ The right to a painless suicide shall not be denied to those who are experiencing a painful, near term, and near certain death as defined by Senate standards.

2/ Human life shall not be sacred when the brain stem is dead, or when there is no hope of the mind ever returning
beyond a faint shadow. If nobody wishes to care for the bodies of people who have been declared brain dead by 7 of 11 Senate jurors, government may humanly euthanize these brain-dead bodies.
3/ No government or insurance money shall be used to pay for healthcare for those who have been declared brain dead by 7 of 11 Senate jurors.
4/ Quadriplegics shall have the right to assisted suicide upon a 60-day waiting period. Those able to speak may do so verbally. Those only able to move their eyes must be asked annually, and given the opportunity to petition the Senate for their suicide.
5/ Those with severe health conditions who are physically unable to kill themselves may petition the Senate for assistance.
6/ In all cases of assisted suicide, 7 of 11 Senate jurors must agree with the petition. Thereupon, the would-be suicide shall immediately have the right to assistance.
7/ The standard method of euthanasia and execution shall be general anesthesia followed by lethal injection.
8/ Starving people to death shall not be considered euthanasia, but torture. Nobody shall be starved to death as a form of euthanasia.
9/ People with near-term terminal illnesses that are widely regarded as incurable shall have the right to experiment with treatments as they see fit.
10/ All who are executed by government and all who commit suicide shall be pre-tested as organ donors. All shall be required to make their organs available for donation.

R'87. AGE, AND LEGAL COMPETENCE
1/ Parents may cast their children out on their 16th birthday by filing emancipation documents with the county recorder. Children shall be free to emancipate themselves after their 16th birthday, but they must complete the government's emancipation training program and pass the emancipation test. Emancipated minors shall be contractable, and have the right to have financial accounts in their own name.
2/ It shall be a felony when priests have sex with their parishioners or former parishioners that are under age 21. It shall also be a felony when primary, secondary school, tertiary, or graduate teachers that grade or certify students have sex with their current students, or past students that are under age 21.
3/ It shall be none of government's business if 16-year olds have consensual sex with people of any age.
4/ 15-year-olds may only have consensual sex with peers. Those who are age 18 shall always be considered as peers of 15-year-olds, while those who are age 20 shall never be considered as peers with 15-year olds.
5/ 14-year-olds that willingly have sex with peers shall undergo 3 times the normal amount of sex education instruction outside of regular school hours. Those who are age 16 shall always be considered as peers of 14 year-olds, while those who are age 18 shall never be considered as peers with 14-year olds.
6/ The maximum penalty for non-peer entirely willing sex with a minor of age 13 shall be 15 years. Those who are age 15 shall always be considered as peers, while those who are age 17 shall never be considered as peers of a 13-year old.
7/ The maximum penalty for non-peer, entirely willing sex with a minor over 15 shall be 5-years.
8/ The maximum penalty for non-peer entirely willing sex with a minor of age 14 shall be 10 years.
9/ The maximum penalty for non-peer entirely willing sex with a minor of age 13 shall be 15 years.
10/ The maximum penalty for non-peer entirely willing sex with a minor of age 12 shall be 20 years.
11/ The maximum penalty for non-peer sex with a minor under age 12 shall be 30 years in prison or lifetime interment.
12/ The standard for determining whether or not sex was forcible shall be much lower for grown people having sex with minors before their 18th birthday. Threats, intimidation, blackmail, deception, trickery, coercion, abuse of authority, or just not taking no for an answer, may be considered forcible or coercive sex.
13/ Charges of forcible sex involving minors shall be multiplied as follows
a/ For under 18-year olds the penalty shall be multiplied by 1.25X.
b/ For under 16-year olds the penalty shall be multiplied by 1.5X.
c/ For under 14-year olds the penalty shall be multiplied by 2X.
d/ For under 12-year olds the penalty shall be multiplied by 3X.
14/ The minimum age for smoking marijuana and drinking alcohol responsibly shall be 16. There shall be no marijuana or alcohol licenses for people under age 16. Licenses for 16-18 year olds shall only permit limited use.
15/ The minimum age for the use of tobacco or tobacco substitutes shall be 19. There shall be no tobacco licenses for people under age 19. Anyone supplying evidence of under-age smoking that leads to a conviction shall get 5-day's wages as a reward per conviction.
16/ The minimum age for military enlistment and lifelong marriage shall be 18. The minimum age for obtaining a prostitution license shall be 21.
17/ The minimum age for using mafia drugs other than marijuana, and for drinking irresponsibly shall be 21.
18/ The minimum age for meeting alone with male educators and priests shall be 14 unless they are family.
19/ The minimum age for religious indoctrination or religious instruction without having one's parent or guardian present shall be 14.
20/ Only those over 23 and under age 78 shall be eligible to vote. There shall be no minimum or maximum age for Senate service.
21/ Models and actors depicted in a sexual, romantic or grown-up, way must be over 21 years old. No model or
actor shall have had plastic surgery, and their images shall not be altered or manipulated to make them look thinner.

22/ No model or actor shall have a body mass index under 19.5. The minimum body mass index for dolls and cartoons shall be 20. There shall be no copyright protection for media products containing any violation of these BMI rules.

23/ In matters of firearm assault involving a real firearm, most people over age 16 shall be tried as an adult, and some younger people may also be charged as an adult.

24/ In matters of homicide, non-defensive assault with weapons including sticks and stationary objects, participation in gang or group violence, injury arson, and rioting, those over age 15 shall be treated as adults. Also, in these 5 matters, those over age 14 shall generally serve 50% of the adult penalty. Those over age 13 shall generally serve 33% of the adult penalty, and those over age 12 shall generally serve 20% of the adult penalty.

25/ Insanity, and youth over age 15 shall not be a defense against the death penalty. There shall be no prohibition against executing convicts because they were only 15, or insane when they committed a death-penalty crime. Partial or total insanity shall not reduce any criminal penalty. The criminally insane shall not be subject to parole, and all shall spend their full prison sentence in a facility for the criminally insane.

26/ No convictions for violent crimes shall ever be expunged from the record, or sealed because the perpetrator was young when they committed the crime. This shall apply retroactively to convictions of the past.

27/ There shall be separate incarceration facilities for those who are between 17 and 21, those between 14 and 17, those age 12-14, and those under age 12.

28/ Those over age 65 must pass a cognitive and vision test each year if they wish to retain their full legal competency, and vehicle operation licenses. Those who cannot pass the cognitive test must appoint a co-signer and test each year if they wish to retain their full legal competency, and vehicle operation licenses. Those who cannot pass the cognitive test must appoint a co-signer.

29/ Parents shall have the right to spank, but not beat their children. Parents shall not strike their child with any object of any sort, nor may they strike their child on the head, face, neck, torso, or groin area, but only on the legs and outer buttocks.

30/ Stigmatized media shall not be downloaded, but may only be streamed. Those streaming stigmatized media to others shall be required to verify that the primary viewer is over age 18. The distribution of stigmatized media to and among minors shall be a crime, as shall be the possession of cached stigmatized media files by minors.

31/ The Senate shall produce detailed guidelines for the minimum age at which children can undertake various activities by themselves. These shall be set as young as reasonably possible, leaving the most discretion possible to parents.

R’88. WOMEN AND CHILDBIRTH

1/ We will never stop illegal drugs, especially illegal abortion drugs. So we will not save many lives if we outlaw abortion. We will also support one of Ishtar’s black markets.

2/ Each female shall have an unlimited right to remove and kill her unborn children while they are still in her body as explained in this R’88. Nobody else shall have any legal say or right over a woman’s unborn child, not government, not the genetic father of the unborn child, not the husband of the female if any, and not the female’s parents.

3/ Nearly all babies born before week 22 either do not survive, or if they do survive, they have lifelong problems. However by week 25 they normally at least survive, although commonly with lifelong problems. Therefore, it shall be the law that in the first two thirds of a pregnancy, there shall be no questions asked when a woman wants an abortion, but in the last third, there must be some cause such as a risk to the mother or her fertility, or a brain-damage, or long-term care issue with the child. Such late term abortions will be judged by a jury of obstetricians and Sub-Senators on judicial duty.

4/ It is a great thing that medical science can now tell us in so many cases when our offspring are damaged. We shall allow the breeding public to benefit maximally from this knowledge. Nobody shall be permitted to impede, interfere-with, protest, or make contact with women while they exercising their right to kill their unborn children. Also, clinics aborting unborn children shall not be allowed to counsel women, or express any opinion about the woman’s choice. Furthermore, no clinic shall be allowed to pose as a clinic for aborting unborn children when it is not.

5/ All females of all ages shall have the right to abort their pregnancies. However, where the pregnancy is detected in the first third, and the mother has not yet had her 13th birthday, she must have an abortion. Victims of rape that become pregnant are supposed to have an abortion, but this shall not be required.

6/ For all pregnancies, the mother must watch the government’s pre-natal education videos. The mother must also have timely pre-natal testing as called for by the Healthcare Sluice. Women who do not do these things shall not receive any government child support money for the child. When these tests indicate conditions associated with mental retardation that is on average as severe as Down syndrome on average, and the mother does not abort, no benefits shall be given for that child.

7/ Government shall offer free family planning and pre-natal education, sex education, abortions, sterilizations, and all reasonably effective and economical forms of birth control free of charge to all females allowed to work in this nation.

8/ Government shall provide pre-natal testing, prenatal healthcare, and child-birthing free of charge to all citizens and legal immigrants for a conforming number of children.

9/ The following categories of breeding-age, or breeding capable women shall not have children, and shall remain
on long-term birth control such as an IUD or slow-release birth-control hormone implants. Daily pills, condoms, male contraceptives and other forms of birth control shall not be acceptable forms of birth control for the purposes of this Rule 88.8. Government may check and verify that birth control is being used for the following women. If any of the below categories of women are found to be pregnant, government may require them to have an abortion.

a/ Women with amphetamine, cocaine, or opiate licenses.
b/ Women who are licensed to consume more than 150 alcohol portions per month, per 65 kilos of body weight.
c/ Women on probation.
d/ Women receiving public poverty aid, and women coupled with men receiving public poverty aid, if they want to continue receiving aid. However, this shall not apply to women receiving public child support on behalf of their offspring.
e/ Females who are mentally retarded in its broadest reasonable sense. This shall include all females past their 13th birthday that are two or more grades behind their peers, or not in school. This clause shall not include females that have graduated or tested past the 10th grade.
f/ Certain groups of immigrant, Exhod and refugee females as determined by the Senate. These shall be free to leave the country and keep their baby if they are able to leave and stay out.

10/ Government shall provide frozen umbilical stem cell storage free of charge, in two sites, for all people born in a hospital or birthing center in this nation. Government shall not prohibit therapeutic research or therapeutic medicine because it uses stem cells, or aborted human embryo cells.

11/ All laws concerning human reproduction and abortion shall be established by the national government and no country shall make its own laws concerning these things.

12/ Newborns voluntarily abandoned by their mother at the place of birth and without a father to claim them may be given to the next in line for public adoption after an 8-hour absence. This shall become a final adoption if the birth mother, or birth father fails to formally request the return of their child within 30 days. After this, all parental rights of the birth parents shall be forever abandoned.

13/ The Healthcare Sluice shall prioritize families for adoption. Highest priority and first choice in matters of adoption shall go to households with at least one woman and one man. Next priority shall be households with no man. After this shall be households with no woman, unless the Senate elects to prohibit adoption by families without women.

14/ All adopted children shall be genetically indexed to determine if they are harem spawn. Those that are harem spawn may be held subject the rules of exhods.

15/ All fetal tissue shall be subject to use if it can save others.

**R'89. MARRIAGE AND DIVORCE**

1/ All of the nation's laws and standards for marriage, natural reproduction, artificial reproduction, child support and spousal support shall be elected by the national Senate and no county may establish its own laws or standards.

2/ From now on, only new marriages and child support agreements recorded in writing at a county recorder's office shall be legally binding. No co-habitation without a recorded marriage agreement shall ever become a marriage, no matter how long the co-habitation was for.

3/ Except for setting a minimum age, and prohibiting genetic incest, government shall not limit or define the nature of marriage and family for the people. Native citizens shall be free to write their vows and marry and have families in any combinations, genders, or numbers they wish, provided all parties agree. All immigrants must abide by our norms of family conduct even after they become citizens.

4/ The government of the land of the free shall give the people the greatest possible leeway and freedom in how they conduct their personal and family life, and how they raise their children.

5/ The people may marry for life, or for a fixed number of years, and they may call for any divorce terms or delay period they wish. They may call for any post-marriage property divisions they wish, equal or not, capped or not. They may also call for any child support payments they want. However, all new marriages must stipulate binding divorce terms and property division terms in case things don't work.

6/ All new marriage agreements shall stipulate rights for child custody, child visitation, and child support in the event of divorce.

7/ When unmarried people record written parenting agreements, these shall be valid in all matters of determining child custody, visitation rights, and child support.

8/ Provided all the parties agree, the people may have closed Christian-style marriages, limited-expansion Arab-style marriages, or unlimited-expansion marriages like the Mormons and the Arabs.

9/ Government shall not favor married parents over unmarried parents, or have incentives for people to marry or not marry when they have children.

10/ Government shall not impose restrictions to slow the time period for divorce if a divorce delay period is called for in a marriage agreement. No marriage agreement shall have a divorce delay exceeding 90 days.

11/ Under the law, everyone over age 18 shall have an inalienable right to depart from, and abandon their spouses, partners, friends, parents, and children after their 16th birthday. Also, every person shall have the inalienable right to leave their home and go out alone any time they wish for as long as they wish.

12/ A woman's right to choose who will sire her children shall be inalienable, and something that cannot be
bartered away in a marriage or by contract. If a husband is unhappy that his wife is bearing the child of another man, his only recourse shall be to seek a divorce.

13/ All marriages shall require a license. No license shall be granted except after a 30-day waiting period, tests for sexually transmitted diseases, and if the marriage involves a woman of child-bearing years, a pregnancy test. All applicants for a marriage license shall have a right to see the test results of their co-applicants. They shall also have the right to know the identities and marriage periods of all prior spouses, the reasons for divorce, and the identity of all offspring. They shall also see the criminal record, debts, and credit history of their intended spouse, as well as all domestic violence police calls.

14/ All marriage agreements shall include a pre-nuptual agreement. This prenuptial agreement shall list all assets owned by each spouse upon the commencement of the marriage and whether each of these assets will remain separate property, or will become a shared community asset. Assets not listed shall remain separate property. The standards for turning separate property into community property through actions shall be as high as reasonably practical.

15/ Lawyers shall not be allowed in family court. Family law surrogates for minors under age 17 need not be inferior to principles.

16/ Uncontested divorces shall pay no adjudication fee to government. Divorces contested through the legal system shall pay 1/3 of assets to government. When government must adjudicate the divorce disputes of the people, then the side further from the final settlement will lose half of its dissolution equity. If there is a tie, then each side pays one quarter of its assets.

17/ It shall be held that alimony is an Arab word meaning “money towards”. It is money towards making successful infidel men afraid to marry many times and have smart children by a series of wives.

18/ For all new marriages, alimony shall only be due if it is called for in the recorded marriage agreement. However, there shall be no alimony for childless marriages, or marriages of less than 5-years, even if it is called for by agreement in new marriages. Also, no person’s alimony liability for any marriage shall exceed 4-month’s wages for each year the marriage existed. Wages herein being the average national wage as is normal herein.

19/ There shall be no presumption that people have a right to live at the standard they have become accustomed to. Such a presumption makes our best people reluctant to couple and have children and leaves our nation to be taken over by its poorer elements who have nothing to lose having many children.

R’90. BREEDING RIGHTS

1/ All legally competent adults shall be free to breed with whoever they mutually agree to breed with.

2/ Women shall have the right to have children without a life partner.

3/ Society shall help women to choose the best sire they can find without being corrupted by the hard realities of financial support.

4/ If a woman has the child of a man, outside of a support agreement, and he does not agree to call it his by recorded agreement, then under the law, he shall conclusively be considered a sperm donor. Then such a man shall have no rights-over, or responsibilities-for in the child, unless the parties later agree otherwise.

5/ No person who has donated sperm or ova to a registered bank shall ever be compelled or required to make any payments, or communicate, or do anything else for their genetic offspring. To do otherwise is to discourage our best from donating, and we definitely do not want to do that.

6/ Sperm and ova donors shall have the unlimited right to chose the degree of contact they will accept from their genetic progeny. Those accepting a sperm or ova donation and raising the child shall have the right to chose the degree of contact they will accept between their children and their sperm donors until the children reach age 18, or is finished with school. Finally, the child shall also have the right to limit the degree of contact they will accept with their genetic parent. Unless all parties wants contact, there shall be no contact. The only exception is with the offspring of Senators and Ubiqu donors.

7/ Sperm and ova donors cannot sue for parental rights, nor can they be sued for rights. No sperm or ova donor’s name shall go on a birth certificate unless all parties agree to do so. Children born of donated sperm and ova have no inheritance rights under the law with regard to their genetic donor parents.

8/ Government shall do nothing to discourage its best people from having more offspring than the rest. It is one of the most important parts of this Constitution that those people who have donated their sperm or ova never suffer any cost or obligation for having done so.

9/ Those married or partnered to a women when she gives birth to a sperm donor child shall be permitted to be the child’s official father if the mother also agrees.

10/ Where a genetic mother has donated or sold her eggs, the birth mother shall be the legal mother in every way, and shall have exclusive rights. Except for this case, when the birth mother is not the genetic mother, the genetic mother shall be the legal mother in every way, and shall have exclusive rights to the child.

11/ Reasonable contracts for birthing surrogates shall not only be valid, but government shall enforce them free of charge. This shall include mandatory remain lying down periods if ordered by the doctor. Also, paid surrogates get no money for births prior to week 35, and 50% the money for births prior to week 36, and 80% of the money for births prior to week 37. Surrogates that carry the baby to almost 41 weeks get 110% of the surrogacy money.
Government shall not tax monies paid for birthing surrogacy, ova donation, or sperm donation. Government shall aid ova and sperm donors by verifying and, guaranteeing their Senate, Ubiq, and other status, as well as their education, health and other data. Government shall also provide escrow services for surrogate monies for no charge.

With regard to child bearing limits, and pregnancy birthing surrogates, the child belongs to the genetic mother, and the birthing surrogate is not counted as having had a child.

It shall be considered a form of rape to intentionally corrupt sperm or egg donations.

For Senate surrogates, with Senator or Ubiq donors on both sides, both the donors and the Senate shall do the matchmaking and assignment to bearing and rearing mothers. To support a more egalitarian society, full Senate surrogates shall be randomly assigned to all strata of society and without regard to race.

The standards for surrogate ova donors shall be different for men and women due to supply issues. This is because:

Ova are much more scarce than sperm.

Human leadership wisdom tends to comes after the time that it is optimal to harvest human ova.

Therefore, the Senate shall conduct testing to find the smartest ova donors.

Each year, each Centi-Nome shall elect a fixed number of women it chooses to honor as its choices for ova harvesting. These women need not live in that Centi-Nome. They shall be chosen primarily for their intellect, with little regard to physical appearance. If these women agree to undergo harvesting, they shall be listed on the national sperm and ova donor supply database together with any photos, videos and data they care to supply. If there is demand for their ova, then government shall harvest their ova and pay them up to a year’s wages per ova harvesting cycle. These women shall also be allowed up to 6-weeks unpaid leave from their work or studies.

Women elected by the Senate for ova harvesting may keep up to 1/2 of their eggs for their own use until they are 45. However, women who choose to keep some of their eggs for their own use shall not receive any money from government. Also, government shall provide freezing of harvested ova at no charge to women that were elected as Senator ova donors, however, once the woman has her 45th birthday, any unused ova shall become the property of the Senate and people.

Government shall ubiquitize all the best drugs and technology used in egg harvesting and In-vitro fertilization.

Government shall generously award Ubiq status to anyone who makes even the slightest improvement in making the ova harvesting process safer, more productive, easier, faster, cheaper, or more comfortable.

Society should help its smartest people, and greatest contributors to have a great many offspring. However, in the interest of genetic diversity, there should generally be breeding caps and a maximum number of offspring, except in the case of the most oversized intellects and contributors. In determining a maximum number of offspring, we shall rely on cyphers = logic, equations, mathematical models, and hard measurable underlying realities/ to determine an optimal maximum.

We must find a way to increase the number of eggs a woman can provide from egg harvesting. Therefore, great resources should be expended (if necessary) in understanding how to induce super-ovulation.

Government shall produce many standard agreements for all common reproduction practices in order to make reproduction easier.

**R91. GOVERNMENT CHILD BENEFITS**

Everyone knows that people must provide for their offspring, or they are bad parents. So we shall not allow our new democracy to do anything so obviously stupid as to scrimp on child benefits. The care and education of the next generation shall get all the resources that are needed. However, recent history shows that it is equally foolish to err on the other side and make children excessively expensive, and burdensome for this discourages many responsible people from having children. So we shall take the middle path as is wise in so many circumstances.

Except for those groups discouraged from having children as stated herein, government shall give child benefits to all citizen mothers (including immigrant citizens) sufficient to cover the normal cost of raising a conforming number of children. This shall include education, standard Tier-1 healthcare for kids, food, clothing, and housing until the child either finishes, or is pushed out of the education system.

Our healthcare system will tax from the old and give to the young, who don’t really need very much healthcare. So much more will be covered under Tier-1 for kids than even Tier-1 for 20-somethings, let alone subsequent age groups.

No matter how bad the crisis, no matter what happens to the father, government shall assure that the children of the new generation will be fed, housed, clothed and treated. No woman should ever need to worry about this for her conforming children.

Senate child support payments are guaranteed to come on time every time. Government shall attempt to enforce private child support rules, but it shall not indemnify mothers for those that refuse to pay in a world where people can’t be jailing for owing money to others.

Government child benefits shall not consider the income or wealth of the parents, or the cost of living in various communities.

All women shall get government child support if the number of their children conforms. Government shall not discriminate on the basis of who the father is or whether the father is even known. Indeed, the application for
government support of a conforming number of children shall not even ask who the father is, or the mothers income. Father’s identity shall only be asked if the woman is claiming eligibility for sireage benefits.
8/ To start, government child support shall be the following percentages of the average full-time wage based on the number and status of the children. The Over-Senate may adjust these percentages at any time for children conceived after that point in time:
1-child by any father—15%
1-child by a Senate sire—20%
1-child as a Senate surrogate—25%
2-children if one is Senate sired—25%
2-children if both are Senate sired—30%
2 children if one is a Senate surrogate—30%
2-children if one is Senate sired & one a Senate surrogate—35%
2-children if both are Senate surrogates—40%
3-children if all are Senate surrogates—50%
9/ All students over age 11 may stay in the government’s student dorms full time provided they behave and make acceptable school progress. All students over age 14 are supposed to stay in the government’s student dorms at least 270 nights a year.
10/ Provided the children make acceptable learning progress, government shall provide all with student dorms, free schooling, and sustenance. The system shall be designed so that at least 25% of each year can make acceptable test progress and enter tertiary school.
11/ The Over-Senate may elect with a 2-to-1 overmajority to change the amounts, conditions, or categories in this rule 93 on child benefits.
12/ The child benefits stated herein shall only apply to children conceived after the date this Constitution comes into effect, and to existing mothers with a conforming number of children that sign their children up for the new child benefits programs. All existing child support responsibilities shall remain in full force until our nation switches over to the new system entirely. Thereafter, the Over-Senate shall decide on a formula for phasing out the old child support system.
13/ It shall be a felony to hide a child for the purposes of defrauding the child benefits system. A bounty shall be paid to those reporting child benefits fraud by either having undocumented children, or in other ways.
14/ All recipients of government benefits, both the adults and the children shall be required to identify themself with fingerprint scans.
15/ There shall be no right to privacy with regard to people collecting government benefits, including public child support, and all names and addresses shall be displayed on the government website.
16/ Mothers that are graduates of Senate approved colleges may have up to 4-children by any man and receive government child support for all four.
17/ Grown children that don’t have Senate or Ubiq parentage shall not be required to pay any portion of their income to their mother. Grown children that are Senate surrogates shall be required to give 10% of their income to their surrogate mother from age 27. Children that are sired by a Senator or Ubiq shall be required to give 6% of their income to their mother from age 32.
18/ There shall be no government child money for females who have their first child before either completing secondary school or passing the equivalency exam, even if they later pass either.
19/ Women that have children contrary to government rules and still need aid may stay in Mother’s dorms.
a/ They shall share a single bed with all their children.
b/ They shall share a room with 2 to 4 other women and their children.
c/ Each room shall share bathroom and kitchen facilities with 3 similar rooms.
d/ They shall only get ingredient stamps to buy food.
e/ They shall be disqualified from all forms of drug, alcohol, tobacco and prostitution license.
f/ These dorms shall be located in peripheral and inconvenient locations.
g/ No males over age 13 shall be allowed inside.
h/ All children over age 13 must stay in school dorms.
i/ Lockdown is 9:00 pm to 6:00am. Lockout is 8:30am to 5:30pm.
j/ Women shall be free to move out any time they wish.
k/ Everyone staying in the Mother’s dorms has to either work or go to school while their children are in school.
l/ Unsterilized women with a non-conforming number of children shall only be allowed to stay in mother’s dorms for four months. After this, they must get sterilized.

R’92. NON-GOVERNMENT CHILD BENEFITS
1/ This Rule 94 shall not apply to pre-existing children and to children of people born later under marriage or parenting agreements that state a higher amount for child support than the standard amount.
2/ We are instituting a standard amount, a standard dollar amount of child support per child in our nation. This rate might vary with the age of the child. It might also vary with the cost of housing in that part of the nation. But the amount should have nothing to do with the income of either parent. And this should be enough to cover the cost of the child for the average parent.
3/ Parents may call for a higher child support amounts in marriages and support agreements. This is expressed as a multiplier over Government’s standard payment.
4/ The Over-Senate shall adjust the standard child support amount.
5/ When our citizens have children with people in other nations, the child support shall be according to where the child lives, or if it is a third location, then the lower of the two jurisdictions.
6/ The supporting parent shall always have the right to look at the finances of the custodial parent. As long as they are paying, they can look to see how it is being spent.
7/ There shall be no lawyers permitted in matters of family law, including child support and custody.
8/ Special needs children shall not get any higher level of child support either from government or from supporting parents. Special needs shall not be not included in child support and healthcare, just like it shall not be included in education. Instead it shall exist as hundreds of headings, one for each condition, and the annual cost per child.
9/ The Over-Senate shall not only determine the education budget, but it shall also set a percentage of the education budget that is earmarked for special education.

**R'93. CHILD CUSTODY**
1/ Where there is no specific agreement otherwise, or the agreement is thrown-out, child custody shall be 72% with the mother, 28% with the father, unless the court declares one party unfit.
2/ Except where a parent has been convicted of domestic abuse, the custodial parent shall not have the right to change their city of residence without either obtaining permission from the supporting parent.
3/ Once a child reaches age 8, it shall be free to decide which parent it wants to live with and visit with, unless the parent does not want to take it.
4/ In custody disputes between mothers and everyone else, the mothers always, automatically get primary custody of their children, unless she agreed otherwise in a marriage or parenting agreement, or she is declared unfit by the court, or her housemate is declared unfit. A mother’s wealth and chastity, or lack thereof, shall never have any bearing on her fitness to raise her own children.

**R'94. SEX**
1/ Government shall be prohibited from squandering its energies on anything so trivial as who grown people over age 16 choose to have sex with, or how they choose to do it. Government shall make no law restricting the right of consenting adults, heterosexual or not, married or not, to have sex in private. If people contracted in an exclusive marriage wish to dissolve their exclusive marriage based on extra-marital sex, then they shall have the right to do so, but the extra-marital sex itself shall never be a subject for government involvement.
2/ The penalty for acting as a pimp, brothel, or prostitute agency, or prostitute logistics agency shall be 7-years at hard labor. This shall include the people who transport women between counties for the purposes of third-party sex. The penalty for working in a brothel shall be 2 years at hard labor.
3/ Pimps that use drugs to control their prostitutes shall be seen by the law as akin to the predators who abduct people and keep them in their basements as sex slaves. We shall learn from Brazil. The penalty for a prostitute killing a know pimp shall not exceed 5-years in prison.
4/ Prostitutes shall only accept payment in the form of non-anonymous electronic funds, and only through a government tax terminal. It shall be considered tax fraud for prostitutes to take cash or valuables in exchange for sex.
5/ Prostitutes shall be required to have an examination and blood test at least every 60 days to maintain their license.
6/ Government shall punish public sex in urban and suburban areas. Public sex involving prostitutes or homosexuals shall have double penalties.
7/ The right of free speech does not include the right to solicit strangers for sex, or make make repeated sexual comments or sexual advances upon many strangers.
8/ Except for victims of extreme violence, victims abused by a non-peer when they were under age 15, those held captive for more than 8-hours, and those who were incapacitated or unable to reach the police, no charges of rape, or unwanted sexual touching shall be made more than 10 days after the fact, or the discovery of the crime.
9/ Blackstone’s maxim must apply to all crimes including sex crimes against adults and children. “It is better that ten guilty persons escape than...one innocent suffer.”
10/ The burden of proof shall always be on the accuser, and sex crimes against adults and children shall be no exception. In fact, there shall be no exceptions at all to the idea that the burden of proof shall always be on the accuser. Ever. Also, mere accusations alone are never enough. There must be some corroborating evidence.
11/ It is absurd that unwanted touching or rape of a prostitute or other form of sex worker should have the same penalty as a normal person. Therefore rape of prostitutes, strippers, go-go dancers, alcoholic drink bringers, and nightlife companions shall have lower penalties according to some sensible formula.
12/ For all crimes of rape or unwanted sexual contact, the conviction bar shall be much higher and the penalties shall be much lower when a sex crime accuser: a/ Previously had consensual sex with the accused.
b/ Voluntarily went to a secluded place with the accused. This shall not include voluntarily going to the doorway of a secluded place.
c/ Voluntarily snogged with the accused.
d/ Voluntarily disrobed to expose their undergarments.
e/ Voluntarily touched, or allowed themselves to be touched in their private parts.
f/ Voluntarily became intoxicated to extreme with the accused.
g/ Was a prostitute, stripper, go-go dancer, model, actor, drinking companion for hire, or alcoholic drink bringer.
h/ Had certain types of drug license.
i/ Had a high intake alcohol license.
13/ Where the accused recently had consensual sex multiple times with the accuser, it should be difficult to prove rape unless there is physical harm or an official do not contact was filed.
14/ The system shall neither favor the accused nor the accuser in its laws concerning rape and sexual misconduct.
15/ The Senate shall establish reasonable penalties for
those who bring false charges of sexual misconduct
16/ To reduce stalking, indexes shall no longer display people's residential addresses or workplaces unless they add it themselves to their index page.
17/ All indexes for looking up personal contact account information shall log the ID of the person accessing the information and their reason for access.
18/ People over age 16 may use an official government interface to block any particular person from contacting them in either the virtual world, or in the real world or both. It shall be a minor crime to make contact with someone after they have blocked you, unless there is a legitimate reason for you to contact them.
19/ When heterosexual men are not allowed to act in certain ways towards women they are interested in, homosexual men shall not be allowed to act in similar ways towards men they are interested in. The rules of unwanted touching and harassment shall be no less strict and the penalties no less enforced for homosexual men.
20/ The right of overall society to be free from transgender fraud shall prevail over the rights of those few individuals who would alter their bodies to pretend to be of the other gender. Therefore, all forms of sex-change surgery, and sex-change hormone treatments shall be prohibited except for people reasonably judged by a medical jury as a hermaphrodite. Existing transsexuals may fade away in peace, however it shall be a crime for new people to become transsexuals in this nation. All existing transsexuals must now declare that they are transsexuals prior to engaging in sex with new partners and they must also use a government ID name that is unambiguously of their birth gender. Transsexuals shall be prohibited from working as prostitutes and this shall be a felony.
21/ Wherever women compete separately from men, everyone must compete according to their birth gender. When transexuals have fist-fights, they shall be regarded according to their birth gender. Those with ambiguity in their chromosomes, sex organs, or hormone levels shall not be allowed to engage in competitive athletics as females.
22/ Wherever women have separate rooms from men, such as toilets and dressing rooms, everyone must used the room that corresponds to their birth gender. It doesn't matter how people dress or identify, or what surgery they have had, under the law, everyone born a male shall be a male for their entire life, and everyone born a female shall be a female for their entire life. Those born with a penis and testicles may only use woman's bathroom if they are both under age 7 and accompanied by their women-folk.
23/ It shall be considered the crime of rape when a transsexual or transvestite dupes a heterosexual person into having homosexual contact with them. Also, when transsexuals and transvestites dupe a person into having sexual conduct with them, it may be considered by the court as a provocation for subsequent violence against the sexual conman.

24/ Sexual equality shall not apply to those who pretend to be of the other gender, even if they change their organs.
25/ No foreign transsexuals or transvestites shall be allowed to enter or our nation to commit gender fraud upon our people.
26/ Everyone's biological gender at birth shall be their legal gender for life, regardless of how they dress, or what surgery they have had. Those born with external or internal testes shall be male under the law regardless of their other organs or chromosomes. Those born without testes shall be female under the law regardless of their organs or chromosomes. Those with ambiguity in their chromosomes, sex organs, or hormone levels may have surgery to eliminate the ambiguity.
27/ The term man/men is used because it is the shortest readily understandable term. We are mankind, and we are all men, regardless of our gender. The word is related to meme and is about thought and ideas. The word means thinker, or consciousness. There is little sense of gender in this context.
28/ The policy of this nation with regard to homosexuality is that it shall be tolerated so long as it does not interfere with other people's privacy, particularly their privacy rights with respect to their impressionable minors under age 17.
29/ No primary or secondary school curriculum or teacher, or any children's media shall be allowed to address or talk about homosexuality in any way. All schools and all media directed at children shall presume and work under the assumption that all students are heterosexual and no school shall in any way discourage them from being proactive and child bearing members of society.
30/ No fictional citizen shall have any authority to rule in cases of rape or improper sexual conduct. This includes all schools and all employers.
31/ The Senate shall be free to establish special discriminatory rules for homosexuals and transexuals working with children, and in media roles where children might see them.
32/ The Mideast house of war has been actively struggling or jihading to encourage homosexuality in the land of the free, our land, as they did in democratic ancient Athens, and democratic ancient Rome. This is to reduce the number and power of the infidels not adhering to their religion of feeding the land of no resources.
33/ To eradicate most types of sexually transmitted disease, each county health department shall keep a database of people regularly blood tested as free of STDs. These people shall be issued a safe sex license account by the county. When people have sex, they will check each other's STD accounts and thus register. If people have sex with someone outside the system, they have to get tested again before having sex with anyone inside the system, or it considered a crime enforced by government. The system shall not be liable for failures.
J — WAR — TERROR — FORCE MAJEUR

R’95. GOVERNMENT ARMS AND THE PEOPLE
1/ The military and the militia exist primarily to protect the people from foreign threats. When they do this, they are great and noble. When they are used instead to suppress the people, they become awful and evil, a gestapo for the people to rise against and kill to the man.
2/ Our nation must always be watchful that its military does not become a tool for subjugation. Throughout history, most armies have eventually become a tool for the subjugation of the very people they were created to protect. Armies of large nations also frequently become tools of intimidation, threat, and enslavement of entire foreign nations.
3/ Any use, display, or threat of deploying military force or equipment against the unarmed people shall be considered the capital crime of democide for politicos, commanders and ordinary soldiers. Hopefully there will never again be any tanks or machine guns in the Tiananmen square’s of the world. What a thing it is that China’s CCP government killed 10,000 of its own people just because they wanted democracy like in the then collapsing USSR.
4/ Police and militia shall be the sole method of suppressing rioting and disorganized violent insurrection.
5/ All armed forces shall be designated as either military or militia but not both.
6/ The national Over-Senate shall be the supreme commander of our military. No general shall command more than 10% of the nation’s army. No admiral shall command more than 10% of the nation’s navy. No air commander shall command more than 10% of the nation’s air force.
7/ The various county Main-Senates, by a single vote of all then-serving county Main-Senators, shall command all militia forces in their county regardless of the origin of those militia forces. Seconded militia forces may be recalled by their own county Senate at any time if they are unhappy with the way their forces are being used. However, until then, they shall be under the command of the county they are deployed in.
8/ Militia forces shall not be used outside the borders of the nation for any reason. Military forces shall not be used or deployed for inside the borders of the nation, except when the nation is under large-scale military attack, or when portions of the nation take up arms against each another, or in times of great natural disaster or plague.
9/ Any attempt to use militia forces outside the borders of the nation, or to illegally use regular military forces inside the borders of the nation shall void and cancel the enlistment agreements of all people involved.
10/ No military training exercises, military assembly, or military parade shall occur within 10-km of any community with a population over 500,000.
11/ Militia service shall never increase the likelihood of compulsory service in the regular military. If regular troops must be drafted, then they must be randomly drawn from the general population on the basis of their birthday and birth year as if the militia did not exist.
12/ In our nation, we hold that invading armies are the #1 cause of war, and that millions of well-armed citizen and militiamen are the #1 best way to stop them.
13/ In our nation, we are still skeptical that the world has seen the end of war and tyranny. And we think that free men must take precautions against the rise of tyrants.
14/ Another word for military is a ‘standing army in time of peace’, something widely talked about and feared in America of the 1770 & 1780s.
15/ All military personnel shall repeat each day how they are loyal to the nation’s Senate and how they are only loyal to their commanders so long as they obey the Senate. Those calling for, or attempting to invoke loyalty to commanders over the Senate shall be considered a form of democide.
16/ For public safety, government shall not have military bases where bomb blast and debris will be likely to harm nearby civilians.
17/ The number of men in the quarterly militia shall be at least twice the number of men in the military.
18/ In order to keep war from being used as a way to purge the people of their best, all those drafted to fight shall be drafted by birthday-lottery for an age range.
19/ Another ancient misuse of military force is helping to enforce parasitic tax collections and other debt schemes. For this reason, the military and militia forces of our nation shall be prohibited from enforcing matters of debt, debt collections, treaty debts, taxation, tax collection, dues payment, and taxpayer revolts. If taxes are not being paid, Government may cut spending and services in that zone.
20 Government may use police to enforce matters upon individuals debtors and tax payers, however, when a large portion of the people in a community come under threat of dispossession, then the problem shall be thought to be more of a systemic problem than an individual one. Then fairness and justice requires that we start looking to systemic solutions rather than individual ones.
21/ The military shall be prohibited from keeping the peace at democratic demonstrations. If police are unable to keep the peace, then the militia shall be called upon to keep the peace.
22/ There shall be no less than 20 men in command of each branch of the nation's military. Each shall have command over no more than 10% of the nation's forces in that branch of the military.
23/ The militia shall be organized to maximize time and minimize cost and time investment. Therefore, basic militia service shall involve no more than 6 hours a year of group training and 6 hours a year of video training.
24/ All citizens over age shall be required to watch 1 hours of Senate-assembled media every teneth.
25/ There shall be no physical conditioning of militiamen.
26/ At least 1/3 of militia training shall be about civilian policing, riot control, and disaster contingency plans.
27/ The various county Senates shall have the power to
a/ Require that all Militiamen keep their arms with them.
b/ Call Militiamen to help with emergencies.
c/ Grant militiamen limited powers as emergency police officers.
d/ Give a firearm carry permit to certain classifications of militiamen, with more training and screening.
28/ Immigrant citizens may serve in the Militia and military.
29/ Militia service receives no pay and may be resigned in time of peace at any time with 60-day’s notice.
30/ Militiamen shall focus on sniping and other defensive guerrilla warfare measures so that it becomes unthinkable for anyone to invade our nation. Militia weapons shall generally be 1.5-second fire and high accuracy.
31/ The various county militias shall elect their didecs, dicents, and dimils. Militias shall not have great generals, and there shall be no greater power in the militia than a dimil in command of 2,000 minutemen committed to dropping whatever they were doing if they are truly needed.
32/ There shall be no militia uniforms as the militia is stronger if it blends in.
33/ No man shall avoid the draft by paying money or obtaining a person willing to be a vicarious. No academic enrollment in a non-government school shall qualify for a military service deferral.
34/ Confirmed Senators and full Ubiqs shall be exempt from military service if they wish to be exempt. If they enlist they will qualify for officer candidate school. The Senate shall make every attempt to exempt the smartest from dangerous and combat roles.
35/ No weapon system or military hardware in our nation shall be stored in less than 20 stockpiles, unless there are less than 20 copies.
36/ Only native-born citizens shall be permitted to command men in the military, or serve as a military officer, or work in our nation’s intelligence administration, or be given special clearance to work in critical military or defense operations. Only people whose parents were both native citizens shall be given top secret clearance, or serve as top military officers.
37/ All police officers shall be required to join the militia and serve in the militia for as long as they are in the police force. All military officers shall be required to spend at least 8 hours a year training with the militia. This is intended to make both the police and military feel a part of the militia, the core defensive body of the nation. This is also intended to help impart valuable knowledge to the militiamen.
38/ Ishtarian immigrants may be excluded from many areas of the military for security reasons.
39/ When county governments refuse to implement the constitutional directives of the national Over-Senate, or when county governments direct their militia in a way that is illegal or in violation of the rights of the people, then the national Over-Senate may elect to take over command of the militia of those counties.
40/ Government shall not impose an upper limit the number of citizens in the militia.
41/ Military hardware parades shall be seen by all as a way for tyrannies to intimidate and oppress their people. The land of the free shall not put its weapon systems on parade.
42/ Cassius Dio tells us how the murderous Roman front dictators would recruit their soldiers from the criminal thugs of their society. Then these amoral men with no other way to make a living would carry-out the often repugnant commands of their front emperor. In our nation, we shall go in the opposite direction and exclude felons and repeat offenders from our military.

R’96. TERRORISM AND WAR MONGERING
1/ Terrorism shall be defined as the use of violence and fear to move the most emotional and animal-minded people, thus steering the heard of men, the mob, as if they were animals.
2/ It shall be considered a fool’s errand to attempt to define all the many things that can be terrorism. We might as well try to define all the many things that can be frightening.
3/ The words democracy and dinosaur come from ancient Greek diemos = terror. Thus we understand how a bunch of Greek speakers conceived of democracy as government of a flock by terror and terrorism some 2,500 years ago.
4/ We must always be on guard that our government of the people by the people and for the people does not become a democracy driven this way and that by Mideast terrorism.
5/ The nation’s Over-Senate may declare any violent act or threat as terrorism with a 60% overmajority.
6/ The Senate shall be allowed to use infrastructure attacks, group punishment, and escalated retribution against groups and nations that use, or condone terrorism, or engage in piracy.
7/ Government may negotiate with terrorists and hostage takers, but only when it is reasonably sure that it can and will act to punish their cause and their people in the future.
8/ This nation shall do what it reasonably can to prevent people from profiting from causing, or fanning the flames of war, terrorism, hatred and political instability. To aid in this objective, our nation shall do what it reasonably can to keep prices in war zones from being much higher than outside.
9/ Our nation shall sensibly and strategically accumulate and decumulate large buffer supplies of all key commodities. When there is a war, or shortage, the government shall sell these buffer supplies to spoil the profitability of war for war profiteers. As well, when the price of any key raw-material or commodity rises...
significantly due to war, government shall turn its attention
to helping increase output and market supply so as to ruin
the market for the war profiteers.
10/ Our democracy shall not act like a dumb animal herd
in the face of terror. No act of terrorism, no matter how
severe, shall shape the decisions of our
democracy. To do otherwise is to invite terrorism and
subjugation.
11/ Once a nation has been declared as supporting
terrorism, or at war with our nation, or driving other third
party nations towards war with us, the Senate may with a
simple majority of the ISS sluice inter or deport any
named individuals of that citizenship or birth nationality,
including those who are immigrant citizens of our nation.
With regard to immigrants from these particular
problematic nations, the Senate shall be free to:
a/ Discriminate based on affiliations and associations, as
well as public comments, including religious, political, and
economic comments for all immigrants from these
particular nations.
b/ Issue blanket surveillance authorizations for all
immigrants from these particular nations.
c/ Waive all requirements of due process for all
immigrants from these particular nations.

R'97. OATHS
1/ The citizens of this nation shall not, like slaves, waste
their time on pledges of allegiance and songs of devotion.
No pledge or devotional songs shall precede any public
or government meeting or broadcast. However, all
government employees, military, militia and police people
shall however recite the following three vows at the start
of every work day:
a/ I vow help my people to remain free, and not to help
enslave, exploit, or harm them.
b/ I vow that the people of my nation are my ultimate
master, and that I shall uphold their decisions as
expressed by their elected Senate.
c/ I vow to disobey any group that tries to usurp the
powers of my nation’s Senate, or countermand its orders,
even if they are my commanding officer.
2/ The oath for all judicial matters shall be:
“I swear to tell the whole truth.
I swear not leave important things out.
I swear not to distort.
I swear that I do not have any un-declared conflicts of
interest, or grudges.
I swear that I have not received compensation for my
testimony.
I swear that I will not accept compensation for my
testimony in the future.
This is my oath to the court of my people.”

R'98. WAR AND MILITARY RULES
1/ There shall be no part of the nation’s military, militia, or
intelligence services exempt from Senate oversight. The
military, militia and intelligence services shall initiate no
attacks and take no new military actions without Senate
orders.
2/ No law shall ever make this nation neutral to ill-defined
future events.
3/ Conquest, empire, territorial expansion, occupation and
long-term peace keeping are inconsistent with this
nation's principals.
4/ Except in emergency deployments, the reasons,
scope and objectives of all warfare shall be clearly stated
by the Senate before it shall be permitted to take any
military action.
5/ No important aspect of government shall exist outside
the purview of the Senate. And one of the most critically
important, life-or-death aspects of government is war and
military service, where the decisions of government are
life and death for both society and individual.
6/ There shall be no military service without
representation. At least one Main-Senator from the
Military and Militia sluice shall accompany every 2,000
military persons wherever they be. These Senators shall
regularly and independently report to the Senate, but they
shall have no power to give orders.
7/ It shall be held that war reparations incentivize war,
and no war reparations shall ever be commanded, voted
for, lobbied for, honored, or paid by this nation.
8/ Nobody shall command any military forces of this
nation without first reading Xenophon's Persian
Expedition three times under reading verification system
monitoring.
9/ Any use of the nation's military in a foreign police
action lasting more than 90 days shall be conclusively
considered an occupation or a war, and as such,
consistent with our nation's principles.
10/ Our nation shall not be allowed to garrison troops in
any part of the PU for more than 30-days.
11/ In order to prevent nations from bailing police actions
to stimulate their economy, government shall take all
reasonable steps to prevent police actions from
benefitting and stimulating the local economy.
12/ Ammianus Marcellinus tells how the Romans
occupied the Mideast for centuries until just before Italy
was invaded and massacred by waves of Mideast
refugees. We shall learn from history.
13/ Except when the nation is fighting for its survival, or
the survival of a close ideological ally, all military
objectives must be realistically attainable.
14/ We shall compile an anthology of all film and
television war propaganda in support of going back for
fallen comrades no matter how risky. We shall not blindly
go back for fallen comrades when the risks clearly
outweigh the rewards. This decision shall not be made
with one's heart, but weighed carefully. We shall also not
reward foolish disregard for one's own life by calling it
bravery or giving it war medals.

R'99. MERCENARIES
1/ If we don’t allow people to buy or sell violence within
our societies, why should we allow them to do this among our societies?
2/ Hired private armies like the Nazi Sturmabteilung are an ancient tool of tyranny. These have been used to stage countless coups and low-cost guerrilla insurgencies around the world. As such, this nation shall consider these extra-democratic and extra-governmental forces a menace to democracy, freedom and peace.
3/ Government shall be prohibited from hiring private combatants, or even allowing them to exist under its watch.
4/ It shall be a felony for private, for-hire armies and private security forces shall not go near political meetings or protests of the people. Also, when private for-hire brownshirt armies are armed in any way at all, and threatening otherwise peaceful groups, the people shall have the right to shoot them dead.
5/ All armed private security staff shall be required to complete a government licensing program about the penalties of working in a private army and violating the rights of the people.
6/ No private security company in this nation shall employ more than 99 men at a time, or join forces with other private security companies.
7/ The courts shall use multiplied penalties for crimes committed by private armies and their combatants. The courts shall also be free to reduce penalties for crimes against private armies and their combatants by any amount.
8/ It shall be a capital offense for the citizens of one nation to take up arms in another nation without the consent of their own nation's government and military. Upon conviction by a military court, such nationless mercenaries, or soldiers of fortune, may be imprisoned for life or executed.
9/ It shall be a capital offense for the citizens of one Arabia’s provinces to take up arms in another one of Arabia’s provinces or outside the PU, either for pay, or as volunteers.

R’100. NUCLEAR POLICY
1/ To protect against military and WMD weapons facilities buried deep underground, this nation shall keep no less than 200 neutron bombs.
2/ The use of neutron bombs in offensive strikes against underground nuclear installations in small rogue nations shall not be considered a true nuclear attack.
3/ The nation’s nuclear weapons shall only be used according to the command of the Over-Senate.
4/ By 2023.01.01, no nuclear power plants shall operate anywhere that has suffered a tsunami inundation, or design-exceeding earthquake at any time in the Holocene geological era. All such plants shall be decommissioned.
5/ No new nuclear power plant shall be allowed in this nation except with a two thirds overmajority of the Over-Senate.
6/ All Over-Senators shall be provided a fully furnished 60m apartment at the regional voting center of their choice. Odd numbered Over-Senators shall be required to remain at the voting center on odd teneths, even ones on even teneths. Using the nation’s nuclear weapons in an emergency requires a 3/4 overmajority of all Over-Senators present for the vote in the nation.
7/ None of the nation’s nuclear warships shall be based in San Diego harbor due to the risk of funneled tsunami. None of the nation’s nuclear warships shall be based in San Francisco harbor due to the risk of compression tsunami on a small bay.
8/ In all new nuclear reactors, the design shall be such that if temperatures rise above the melting point of tin, the tin hardware supporting the fuel balls will melt. Then the fuel balls will fall in their tubes diagonally outwards, like an atari logo, spreading in every direction.

K — CITIES AND TRANSPORT

R’101. CITIES
1/ We shall note how the well-kept “pre-war” buildings and well-kept old neighborhoods from before we started the total regulation of construction are actually preferred to the newer buildings and newer neighborhoods constructed under a complex and costly building approval process. Therefore, all of our many costly regulations that increase the final cost of for-sale new construction by 10% to 40% have not been worth the cost.
2/ Government shall not involve itself with anything so trivial as building aesthetics on private property, other than perhaps standardizing roof materials and community color palettes. Aside from this, government shall impose no aesthetic requirements on the nation’s private buildings. We do this because looking at the older buildings around our country, these became both uglier and much more expensive when government became involved in building aesthetics.
3/ Government shall assure the basic health and safety of the people by establishing a Uniform Minimum Building Code or UMBC standards for things like fire safety, emergency exiting, railings, minimum room size, ventilation, sanitary plumbing, electrical safety, waterproofing, and the like. However, government shall not squander its energies, or the energies of the people, regulating the nation’s buildings for more than the minimum for health, safety, and structural purposes. Aside from the regulation of the minimum, government standards shall not regulate construction.
4/ All counties and all communities of this nation shall do what they reasonably can to accept and accommodate all comers that are permitted to work in this nation. No county shall enact rules or fees designed to slow growth, or reduce the supply of building lots, dwelling units, or working space.
5/ So that urban real estate will be more abundant in our nation, we will say that:
a/ Government shall not limit the number of new cities
and communities that may form.
b/ Government shall never do anything to discourage new communities from forming.
x/ Certain regions areas may become full of townships, but their periphery should always be ready for new townships.
6/ When local property prices are rising at a rate exceeding the rate of general inflation for the nation, the County government must make more good lots available to relieve the shortage.
7/ All anti-nuisance fees for building permits, lot subdivisions, plan checking and the like shall be refunded upon completion of the project. All utility system connection fees shall be refunded upon completion of construction or structure placement. Government shall not tax or charge any fees, or attempt to recover any costs for new construction in any way. It shall be only the ongoing use of realty that gets taxed.
8/ It shall be presumed that most of the building and business commencement regulations added in recent decades were added due to parasitic influences in our government.
9/ Down zonings being contrary to the agenda of more and better, all prior down-zonings shall be void. The term down-zoning shall include: the number of dwelling units allowed, floor area ratios, minimum lot sizes, increased setbacks, building height reductions, building size compatibility restrictions, and road frontage requirements. Setbacks genuinely required for fire safety from other structures shall be exempt from the foregoing.
10/ All impervious cover regulations shall be void because they are thousands of times more costly than they are beneficial.
11/ Government shall have a bias towards encouraging density in urban areas. Government shall generally be prohibited from taking measures to inhibit the growth of our cities until they grow to the heights of central Paris.
12/ Any neighborhood recognized as a neighborhood by most of the people in the community shall be allowed, with a simple majority of land owners (but not the tenants), to elect themselves an up-zoning.
13/ People who cannot vote, and people who do not own property in a community shall not have the right to give input about matters of construction projects, roads, land use, re-zoning, and especially re-development. Only the property owners of a community shall be allowed to give input on these matters. We do this because the individual imperatives of tenants tends to drive them into opposing the very projects that will lower rents for all tenants by a greater extent.
14/ All land nationwide more than 20 meters and less than 200m from a six or eight-lane freeway shall be zoned for at least 16m tall buildings. All land between 200 and 300m shall be zoned for 12m tall apartment blocks.
15/ In order to maximize the buildable land area for our nation, we shall have it that an easement for one flagpole user shall be an easement for many, and that the holder of an unpaved flagpole easement shall be allowed to pave, and prune, and bring equipment and materials in an out of his easement if he wishes. And he shall also have the right to put utilities under the ground of his easement.
16/ The approval process for land subdivisions, building permits, and business approvals shall work the same way in every country in the nation according to national standards and standard zoning distinctions. Thus counties unable to handle their workload can spread the workload to other counties or to contracting firms instead of acting as a stumbling block for the people.
17/ Where the government is processing a building permit application, or a land subdivision application, the government’s turn-around time shall be no more than 21-days on first application, and then 9-days on each subsequent turn-around. If the county building department cannot handle its workload, then it must either hire another county, or an engineering company, or grant permission. In general, all county government procedures shall be cloned nationwide so human resources in the county government can be shared.
18/ Except in earthquake zones, no professional qualification shall be required to design, build, or remodel conventional construction that conforms to load tables and the national building code, and is under 2 stories tall.
19/ All existing buildings if all Holocene-era flood zones are hereby nationalized as of 2045.01.01. By 2027.01.01, no school, government office, military base, or fictional citizen headquarters shall be located in any Holocene-era flood zone.
20/ Those who have foolishly paid money for real estate in the jaws of death deserve nothing from the public for the discovery that their property is actually deadly due to tsunamis every so many centuries, and that everyone has to leave within a couple decades.
21/ There shall be no right for anyone to own or hold title to unimproved land in any Holocene-era flood zone, or volcano zone, and all such ownership is hereby void.
22/ Adverse possession does not apply to public property, or property shared by even a tiny community.
23/ All prohibitions on prefabricated or modular construction shall be void whether public or private.
24/ All prefabricated homes and components shall be nationally approved for standard zoning and number of stories above, and exempt from local building permitting and inspection.
25/ The national government shall pre-approve no less than 12,000 township sites of up to 30,000 units each for 360-million potential unit slots, which is intended to be an eternal overage. These townships will go all around our nation, in the nicest and prettiest places our land has to offer, the places in between our current cities.
26 The township slots shall be free for anyone who buys and places a new factory cast unit. This only happens when the township is being built due to the equipment setup needed. Once the unit is placed, the owner will get
a free life estate. However, the owner will have to pay their share of taxes, enough to run the local community expenses for schools, common areas, police, rail line, delivery system, rudimentary road system, etc. 27/ Prefabricated homes up to 8m wide may be trucked over the roads without a permit between 10:00pm and 6:00am, provided the roads are pre-approved for cargo this wide.

28/ Government shall not concern itself with the innumeracy of impermeable coverage ratios, and rainwater impounding. Far more important is that we keep the water away from our foundations so our buildings will take centuries rather than decades to heave into ruins. Government shall be expected to accept and deal with all rainwater that flows into the generously sloped and greatly oversized public storm drains we will engineer into our new townships.

29/ For the benefit of the poor, government shall not require balconies, or surface articulations or any aesthetic considerations at all.

30/ Government shall not require that buildings conform to any energy saving standards. Nor shall government specify any type of glass or glazing.

31/ Government shall not get in the way of the process by which single family houses are demolished to make way for multi-unit complexes. Government shall not heed, or even listen to the existing tenants, for they are by definition biased and the exact opposite of disinterested.

32/ Government shall not license landscape architects.

33/ Except for removing plantings that block the view for drivers or utility lines, or break up paving, and trees on arterial routes, Government shall not concern itself with regulating anything so trifling as the landscaping, irrigation, trees, and plantings on private property.

34/ There shall be civil liability for removing plants and causing a damaging flood or landslide on a neighbor’s property, or diverting the flow of water and causing flooding harm to a neighbor. But aside from this, government shall not get involved in landscaping on private property.

35/ There shall be criminal as well as civil liability for poison ivy and cactus needles planted along a sidewalk or foot path, or outside a daughter’s window. Nobody is allowed to intentionally create a hazard like this to harm people, or to keep people out.

36/ Government shall not require that any private builder provide any facilities for the poor as a condition of building market rate structures, or to obtain favorable building rules.

37/ Government shall not regulate the design or location of non-spiky, non-injurious fences or walls under 2.2 meters in height that are inside the setback.

38/ All regulations for constructing buildings up to 2 stories shall fit on in a single volume of under 250,000 words. This code shall be a secondary school course. These boxes that we live in, the greatest manifestation of our efforts. We will have concise rules for them so they are easy and cheap to make, as well as safe.

39/ Government shall have no mandatory health or sanitary inspections or approvals to open or operate a restaurant, bakery, cafe, or grocery store, and all special health and sanitary inspections for these shall be voluntary. Government shall however rate these businesses and compel them to display their government health rating placard on their door and website. Also, the foregoing does not apply to the basic fire, egress, sanitation, and building regulations that all premises must obey.

40/ Including renewals, no lease between private parties exceeding 10 years shall be valid. We do this to discourage construction on leased land.

41/ Landlords shall not be permitted to mark-up their cost of utilities, taxes, cleaning, maintenance, insurance or similar things to their tenants even if they are on sub-meters. Any contract clause calling for a markup shall be void. There shall be no lease terms where the landlords takes a percentage of the retail sales of his tenants. All such lease terms shall be unenforceable after 2023.01.01.

42/ Government shall not regulate the size of the security deposits collected by those renting property. To reduce problems, the county recorder shall hold all security deposits. The recorder shall get a flat fee when the deposit money must be used, and an additional flat fee when the matter must be adjudicated. As with many government services, the fees here shall be high enough that the public pays nothing in providing this service, but low enough that the public makes nothing in providing this service.

43/ All charges and credits related to renting shall be paid to the county assessor’s account. The assessor shall keep 100% of all late fees and penalty charges related to rentals and HOAs. This is to keep the always stealing management pure of heart with regard to charges.

44/ All tenants shall have the inalienable right to remove or demolish the structures and improvements they added to property they rented, provided the removal or demolition does not cause the property to be left in worse condition than it was delivered to them.

45/ Year-to-year tenants and shorter terms shall have no say in local zoning and land-use matters.

46/ No lease calling for the land owner to take a share of rentals and HOAs. This is to keep the always stealing management pure of heart with regard to charges.

47/ The property tax on warehouses and factories used as such shall be one third of normal. This is because we want to encourage both factories and great stored surpluses. All factory and warehouse offices and housing shall pay the full rate.

48/ All existing historical designations shall expire on 2025.01.01 unless renewed by the county Senate.

49/ Government shall not shut down construction projects unnecessarily and shall be liable for delays for unwarranted construction shut-downs.

50/ If precious archeological treasure is discovered during
building excavation, and the project must be shut down for a time, government shall pay everyone for the inconvenience. Failing to do this, we will see people ignoring sometimes precious discoveries.

51/ In areas with sewer and water piping, government shall not enforce residential zoning densities lower than 12 dwellings per acre, or floor area ratios under 100%, or height limits under 11-meters from pre-existing grade. In areas considered central, or pedestrian, government shall enforce no density lower than twice these densities.

52/ Until the Senate can determine safe maximum heights for the nation’s buildings given seismic risks:
   a/ The construction of new buildings over 10 stories tall shall be prohibited in our nation.
   b/ The construction of buildings over 3-stories in the portions of our nation that are located on the Pacific plate, or within 300km of an active ocean subduction zone.

53/ When components of an older building system break down, and the system is not in conformance with the new rules, the people shall normally be free to replace the components without replacing the entire system. Government shall not require the costly replacement, or update of existing building systems, except when there is a significant and pronounced health or safety risk.

54/ Except for painting, all goods and services used in the aesthetic renovation and remodeling of buildings shall be taxed at a higher than normal rate. This is to free up workers for more productive activities.

55/ Government shall pay no value premium when it condemns blighted areas for redevelopment. Also, government shall pay no premium for property because it is near a prior government development or redevelopment area.

R102. NEW CITIES
1/ The national government and all county governments must provide sufficient land for new dense rail based townships to meet demand.
2/ When government sells land, it shall not be sold to maximize the up-front proceeds to government, but to maximize property tax revenue over the long run. This is because:
   a/ Such a system is less likely to produce realty bubbles.
   b/ Government is less likely to have budgetary problems as time goes on.
   c/ It is more affordable for the people.
   d/ It is harder to squander, misappropriate or steal the cash flow than the lump sum.
3/ To encourage an efficient national market for inexpensive factory-made structures, government shall minimize the number of standard zones in the nation, establishing no more than 20 nationally established standard urban and suburban zones for residential and commercial uses in both the new cities and the old ones, or 10 each. There shall be no local zoning in the new cities except in conformance with one of these zones.
4/ All neighborhoods shall be pre-designated by the county government regarding which classes of structure are automatically allowed. There shall be no surveys or drawings required by government until after the conforming factory-made unit is placed within the setbacks and the prescribed elevation ranges.

5/ When a government builds a new rail-based township, it shall be prohibited from taking money for the sale of the land, or the cost of placing standard pre-fab apartment units in that townships. Also, government shall charge no property taxes, rents or fees on new units until 1-year after the units were placed. And once a unit is placed, all reservation deposits shall be refunded. Instead, government shall charge the residents a fair amount to pay-off the cost of township common facilities build-out and unit placement over 20-years, starting at the beginning of year two. This shall be in addition their county property tax, and township owner’s association fees.

6/ The county recorder shall provide contract, escrow and title services for one or two permil of the transaction amount. People can pay money into an escrow account before their unit is started and be sure that their township unit is delivered and placed before any of their money is released.

7/ Government shall be prohibited from building dedicated right of way transit unless it condemns and owns all land within loop-road distance from train doors. This money is needed to pay for building the new world.

8/ The condemnation occurs before the transit is started, and the condemnation value shall take no account of the transit or new infrastructure contemplated. Upon completion of the new transit, the land will be up-zoned for at least 4-story buildings within 300m of the train doors, and at least 3-story buildings within 700m of the train doors.

R103. SEWAGE AND GARBAGE
1/ All sewage and garbage standards shall be established at the national level and enforced at the county level.
2/ Government shall not charge anything to take reasonable quantities of bathroom, kitchen, household, or small business, or small manufacturing wastewater, nor shall it charge people to connecting their sewer pipes to the sewer system, provided they do all the work, except the final connection with the main line.
3/ Low levels of industrial wastewater discharge shall be provided at no cost. High levels of industrial wastewater discharge shall be provided at cost by government.
4/ The Public Property Sluice shall start afresh and determine new realistic standards for toxic waste. The Public Property Sluice shall also determine the most optimal locations for the nation’s garbage dumps. These shall be the places where garbage runoff is least likely to get into groundwater that will be consumed by people.
5/ The national government shall build spurs to connect the national rail network with the nation’s garbage dumps. Once the infrastructure is built, government shall charge
no more than marginal cost for industrial garbage transport and proper disposal. There will therefore be no need to dump.
6/ All counties shall be required to collect reasonable amounts of landfill garbage at no charge. Industrial uses that make great quantities of non-hazardous garbage may be required to deliver their garbage to the dump.
7/ Once the Senate has located the nation's garbage reserves, there shall be no more discussion of the locations we have chosen for ourselves.
8/ Our nation's toxic and radioactive waste dump and its most toxic industrial activity shall be located either in north-central Nevada, Southern New Mexico or on Baja California.

R’104. URBAN NUISANCES
1/ There shall be no right to go around the city and root through people's garbage and open areas looking for things of use.
2/ The value of the recycling that homeless people accomplish is a sliver of the cost of their scrugging and securing against their scrugging. For this reason, government shall institute various laws and policies to end urban scrounge recycling by homeless people.
3/ The use of container deposits of less than 30-minute's wages shall be prohibited as this draws homeless people to our important city centers where they frequently engage in crime.
4/ There shall be no recycling without a government issued ID, a valid address and a bank account to send the money to. No payment shall be made less than 15-days after the recycled materials have been delivered to the recycling center.
5/ Copper and industrial metals shall not be recycled except with credible proof, photos and addresses of where it came from. It shall be considered grand theft when people tear-out and recycle public or private infrastructure, wiring or piping for the recycling money.
6/ There shall be no recycling center, or recycling machine in or within 7-km of any urban center. All recycling centers shall require a powered road vehicle to enter. None shall allow entry by pedestrians.
7/ There shall be no recycling machines of any sort all in our nation. No grocery market shall take in recycling.
8/ Except for easy to dissolve paints approved by the Senate, no paint, coating, or pigmented liquid shall be sold in pre-pressurized vessels, or vessels than can be readily pressurized. All paint pens shall be prohibited.
6/ Those who deface our transit facilities and urban centers with paint or ink shall spend 2,000 hours doing public service work. Those who deface our transit facilities and urban centers through scratching, etching, hammering or prying shall spend 6,000 hours doing public service work.
7/ There shall be no begging, busking, or unauthorized commercial activity on any train or in any transit facility, or in the driving lanes of any road, or between those lanes, or within 200m of an intersection of roads.
8/ This Constitution does not guarantee the rights of the insane to live in public if they are unaware of their surroundings, or talking to non-existent people, or repeatedly threatening or menacing bystanders people, or unable to care for themselves. Society shall provide sanitarium dormitories for these insane people.
9/ This Constitution does not guarantee the right of the people to live homeless in our urban centers, or to use the public areas of the nation's urban centers as sites for shanties, tents, toilets, or latrines.
10/ Government shall assure that our cities are free of insect infestations, rats, mice, pigeons, and other forms of disease vectoring vermin.

R’105. TRANSIT BASED URBANISM
1/ When we compare the current heavy-vehicle transportation system with the new rail-centered system, we find the old system is:
a/ More dangerous.
b/ 10 to 50 times more expensive to operate.
c/ 10 to 50 times more fuel hungry.
d/ 2 to 10 times slower.
e/ 10 to 50 times more polluting.
f/ Much noisier.
g/ Destroys the urban experience.
h/ Needs expensive parking.
2/ Transportation systems with practically no marginal cost per rider shall be maximized for ridership by keeping the fares at zero. No urban rail system in the nation shall charge users any amount to use the system. All municipal and urban train, bus, minibus and transit systems within every city in the nation shall be operated as a free municipal service without any per use fees, just like the way we do street lighting, and road maintenance.
3/ Government shall not permit any new central parks. Government shall not permit any new central parking except for shared system operated vehicles. All new parks, and shared parking for private vehicles shall be put at the periphery, away from transit.
4/ We are on the verge of switching to a system of shared system-driven vehicles with much less need for parking. Also we will switch to vehicles that only need about half the parking area as today, if they are parked. Therefore, Government shall no longer require any vehicle parking on private property at all. All existing parking areas may be eliminated at the will of the property owner without any government involvement at all. Government shall stop requiring facilities for vehicle parking on the new streets of the nation. This may be provided by the developers or not. Also, the provision of parking shall not be a consideration in any building project or business approval at all. Government shall stop regulating parking totally with regard to new construction and existing parking facilities. All laws concerning parking lot landscaping shall be totally repealed.
5/ Communities shall not profit from municipal parking fees or parking fines, and 80% of all public parking revenues and penalties collected by county government shall accrue to the national government.
6/ All private parking revenues, shall pay a 50% national tax.
7/ All public parking shall be for the benefit of all, on a first come, first serve basis, and there shall be no special parking rights for the people residing or working in any community.
8/ It shall be a stated objective of government to impel the people living and working in our urban centers into abandoning their personal vehicles and switching to public transit and other forms of shared vehicles.
9/ Townships shall be designed to live for a number of years, and then be totally re-furbished and re-sold.
10/ No business may be located inside and in between a transit exchange except emergency services such as police, ambulance, and hospital emergency room.

R’106. URBAN PROXIMITY TAX
1/ There shall be a proximity tax with a rate that varies depending on distance from the township station. Every 100 meters out, the proximity tax rate shall fall by some amount until 1,000m from transit, at which time, there shall be no urban proximity tax due to mass transit
2/ To discourage the squandering of precious urban space near transit, there shall be no land use near transit that is exempt from proximity tax. All urban land uses must pay urban proximity tax for every square meter they use, without exception or exemption. This shall include all parks, yards, churches, non-profit uses, golf courses, playgrounds government uses, schools, parking, sidewalks, vacant lots, town-squares, malls military bases, national government property, roads, sidewalks, and even roads.
3/ All government land uses shall be required to pay itself urban proximity tax from its budget. This intended to incentivize government to be mindful of wasting urban space.
4/ Uses that have over 36 unique visitors or employees per teneth per 5 square meters shall be exempt from proximity tax.
5/ In the new rail based pedestrian townships, the proximity tax shall be a function of walking distance to transit facility, the proximity tax fading-away over perhaps 1-km, as people walk further away from the train platform. In the old automobile based cities, the proximity tax shall be based on a much bigger automobile-type scale, with the proximity tax fading-away over about 10-km to 30-km from the central business districts, depending on the size of the city.
6/ The proximity tax is intended to take the place of high real estate values in our urban centers. In fact, it is intended to capture much of this money as tax revenue.
7/ The Senate shall be free to experiment and tinker with different tax rates and distance tax systems so that it may maximize its capture of urban proximity premium.
8/ The proximity tax is intended to encourage multi-story construction at the center of our urban areas. The tax should not be so high that it discourages people from living in urban centers. It is only intended to diminish the value proposition of non-users banking prime locations in our urban centers.

R’107. GOVERNMENT SPLENDOR
1/ Only government offices visited by a great number of people each day may be located in prime locations. All normal government offices and services shall be located in other locations.
2/ Except where a 2/3 overmajority of the county Over-Senate elect it, Government shall not build luxurious, grand, or showpiece projects, or use monopolized, imported, or patented components, or ceilings over 3.5 meters high, or stone finishes, unnecessary glazing, or have a budgeted cost of more than 130% of the median per-foot cost of building private office buildings in that area.
3/ Except where a 2/3 overmajority of of county Over-Senators elect it, no existing facility shall be demolished or renovated.
4/ Government shall not build monuments, nor shall it depict any monarch, president, war leader, political leader, or religious leader on its currency.

R’108. RAILROADS
1/ All railroad and transit companies and their infrastructure, rails, railcars, equipment, rolling stock, lands, easements and rights of way are hereby nationalized and made the property of the people to the extent the Senate wishes to claim these.
2/ All land, rights of way and easements that were ever owned by a railroad is hereby nationalized to the extent the Senate wishes to claim these lands.
3/ To foster a more efficient economy, this nation shall work to maximize the use of rail due to its extreme low cost and environmental efficiency in comparison to all other means of transportation.
4/ Our nation shall build-out a new 7.00-meter gauge, high-speed, steel-wheels-on-steel-rails system of at least 50,000-km.
5/ Noise-skirted electric railcars using raised or fenced railways are the safest, quietest, least polluting, least animal deadly means of transportation. For this reason, no new raised or fully fenced rail infrastructure shall be required to provide any studies about pollution, noise, or environmental considerations. All shall be exempt from all environmental reporting.
6/ Both the national and county governments shall have the right to run railways where they elect, and without any environmental approvals due to the extremely low environmental impact of railroad systems in comparison to automobiles.
7/ No company shall assemble or operate more than
1/ All railways and public transit infrastructure, lands, and former lands are hereby nationalized and made the property of the people to the extent the Over-Senate elects to claim ownership.
2/ Just as with our nation's vast and hugely expensive road and freeway systems, people may operate their cars on our nation's railroad systems for no charge.
3/ All railroad vehicles must conform to national standards, and they must all be registered and use transponders. All must be system-driven, network-interfaced, maintenance-certified, electric-metered vehicles with computerized coupling and decoupling. All must be capable of 10-km of self-propulsion on tires when disconnected from the electrified track. All operators, if any, must be licensed. The national Senate shall impose other conditions as it elects.
4/ At least half of our road spending will go to building a new and vastly more efficient 21st century railroad system to replace most of the inefficient road system. Then, when we the people build the new rail system, we will also ask for nothing from the people for using their new super-efficient railroad system. All railcars using the rail-roads shall use these rail-roads for free, just as people use the flat-road system for free today. Until today, the government has been providing an immense national flat-road system for free. This includes street lighting, police, surface cleaning, landscaping, and repaving among other things. With the railroad system, we will provide different things that will cost perhaps more per vehicle, like towing, but much less per passenger.
5/ Just as we provide the roads for free today, the UM shall not seek to profit-from, or recover the cost of building or maintaining its rail infrastructure. All government owned rail infrastructure shall be priced at built marginal operating cost, with no money charged for payback of the cost of right of way acquisition and system build-out, including viaducts, bridges, stations, and locomotives. Users shall only bear the cost of pulling, or the electricity they use for their own engines, and the cost of healthcare resulting from injuries to those traveling via the railway system, exactly as we will do with our roadway system. Users shall also frequently supply their own railcars just as we do today with our road system and private bus operators, who share the routes with municipal busses. Whichever approach works best.
6/ No group or nation, whether in the UM or PU, shall ever be permitted to block, unnecessarily delay, threaten,
or extort money or concessions from the UM for either installing rail-lines in its land, or for using those lines.
7/ If congestion develops, we shall impose per train congestion pricing.
8/ All on-grade railway crossings shall be prohibited. All flat-roads must pass under all railroad lines, which will be frequently be on raised viaducts anyway.
9/ We shall fence or elevate our government's non-stop railways just as well as our government's non-stop freeways. Those who stray into the way of the traffic, in either case shall be considered 100% responsible for their injuries. Nobody would think of suing the freeway system or drivers if they suffered injury because they tried to cross a freeway. Therefore, nobody should ever be able to sue the railway system or any railway operator for an injury sustained while venturing onto raised or fenced tracks.
10/ Use of the flat-road system shall be taxed at true cost, with all vehicles bearing their fair share of road work necessary to keep the surface smooth. Likewise, all railcars shall pay their fair share of the cost of track adjustment robots that turn the bolts that keep the track smooth. They shall also pay their share of the cost of the robots that spray anti-corrosive oil on the lower parts of the tracks, just like the flat-road vehicles must pay for repairing potholes in their roads.
11/ The national Over-Senate shall elect a fixed and prorated towage charge per 100-km for all cargo cars, and another fixed price per 100-km for high-speed intercity passenger cars. Thus all non-island passenger routes in each continent shall pay the same rate for transportation based on distance. Thus all non-island cargo routes in each continent shall pay the same rate for transportation based on distance. The Over-Senate shall adjust these charges from time to time.
12/ Government shall provide the rails, schedules, stations, and conductors, but countless private operators will all have all sorts of railcars at all sorts of prices for their many and variable transportation spaces.
13/ All railcars must move according to the schedule assigned by the system, and all must join with other cars on existing trains of cars unless there is no other traffic.

R'110. TRANSPORT
1/ Businesses that engage in rail transportation, trucking, conveyance, or delivery for others shall not work in manufacturing, distribution, retail, raw materials, or commodity production.
2/ All ports, airports, stations and rails shall be built, maintained, owned and operated by the county they are located in.
3/ There shall be no privately owned transit stations, train stations, bus stations, ports, airports, terminals, boarding gates, or boarding docks in the nation. All shall be public, and not for sale, like the famous Brooklyn Bridge.
4/ All passenger carriers, air, land, and sea shall price and sell their passages as one-way tickets. If a roundtrip fare is offered, passengers may buy a one-way ticket in either direction for half of the round trip price. No passenger carrier may charge more for tickets going in one direction as opposed to the other.
5/ Carriers air, land, and sea shall not adjust prices depending on length of advance purchase, where the ticket was sold, how it was sold, or who bought it.
6/ All airlines shall have a per flight fee and a rate per mile fee. They shall charge only these amounts for all flights.
7/ All airports shall provide frequent and adequate free group transportation to and from all nearby population centers. This transportation shall be provided for free by the county because it is cheaper than building and maintaining more lanes for automobiles.
8/ Each aircraft shall pay the national government one cent per person capable of hearing aircraft noise over a certain decibel threshold, and a tenth of a penny for aircraft noise over another decibel threshold. This will not affect many airports at all, while others it may shut down.
9/ Users of the road system shall bear the cost of operating the road system, including maintenance, system modifications, police, lighting, and the cost of healthcare resulting from injuries to those traveling via the road system. These shall be charged by using a combination of electronic road pricing, vehicle registration fees, and fuel taxes.
10/ Road maintenance being a thing that is more than 80% caused by heavy trucks with stiff suspensions, these vehicles shall pay their fair share of road maintenance costs.
11/ Government shall not tax any transportation system or the goods moving around on it, except for a/ Congestion pricing, to convert congestion waste into tax revenue. and b/ To recover the costs of operating the system, direct and indirect.
12/ Until the nation has fully built-out a new national high-speed, 7-meter-gauge rail system, a robotic delivery system, and a national automobile system that is entirely system driven, government's spending on these things shall exceed government's spending for roads, highways, and airports.
13/ All transportation projects not yet started are hereby canceled. Those already underway shall put their lanes in order, if applicable, and shut down.
14/ Transportation carriers, air, sea, road, and railroad shall not discriminate between customers. All non-hazardous cargo shall move by the same rate in each company's network. All flammable cargo, and all hazardous material of each category shall move by the same rate in each company's network.
15/ Shippers and other transportation carriers shall not be allowed to preferential rates to big customers. Our nation shall not allow discrimination against its new baby businesses.
16/ Transportation companies shall be prohibited from being subsidiaries and from having subsidiaries.
17/ This nation considers all private ownership of common pathways as a potential sphinx, and thus we shall not allow this.
18/ No airline, rail company or trucking company shall provide more than 1/200th of the nation's capacity in that category.
19/ For national security purposes, free nations must maintain an adequately sized merchant marine and international transportation infrastructure. To this end, 1/2 of the shipments to and from each of our trading partners must arrive on our own vessels, vessels made by our nation, owned by our nation, and operated by our nation.
20/ People arriving by air for the purposes of international transit do not need to clear immigration, but are still subject to customs inspection.

R’111. VEHICLE CHARGES
1/ All vehicle operators shall pay their county a road tax and insurance fee for each day their driver's license is active. This fee shall be paid in advance and it shall activate immediately upon payment. It shall be valid in all counties.
2/ All vehicles used on the roads shall be required to have an electronic payment systems and an anti-collision location transmitter. These transmitters shall be interchangeable and anonymous.
3/ Government shall install electronic road tax gantries in many places to electronically charge anonymous or non-anonymous driver accounts. The prices will vary depending on the congestion. The price shall be high enough that no roads operates above its optimal traffic flow rate. The money captured by this electronic road tax shall go entirely to the county, and the national government shall take no share.
4/ Government shall be prohibited from charging electronic road taxes where and when the roads are can flow well without them.
5/ No road shall be widened unless it has had an electronic road taxation system in place for one year to manage congestion. Vehicle charges are supposed to change a number of times daily to manage flow.

R’112. ROAD VEHICLE FLEET
1/ Over a million Americans have died in car accidents over the past 30-years. To encourage development of a system that promises to save another million American lives in the next 30-years, government shall indemnify the computer driven car industry for honest failures.
2/ The right of the people to be safe from vehicle accidents trumps the right to continue using outmoded vehicles. Once the current human-driven system becomes statistically more fatal than the new system-driven car network, the use of the old inefficient and dangerous human-operated vehicles shall be phased out.
3/ The phase out of the old dangerous human operated wide car systems will begin in communities where traffic is worst.
4/ Minor moving violations for human-operated vehicles where the maximum penalty is less than 3-day's pay shall be adjudicated over video unless the accused requests in-person person adjudication to make a presentation that cannot be effectively presented via a video call.
5/ When a car’s drive cam records video of people driving in a clearly unsafe manner, the video shall be admissible for traffic court as well as an aggressive driving demerit system if this exists. When the video does not show who was driving the car, the owner must either admit that they were driving or sign an affidavit as to who was driving their car.
6/ All cars shall have a speed limit button that keeps the driver from going over the posted speed limit.
7/ By 2025.01.01, all semaphores shall have optical vehicle recognition systems and optimizing computers so the nation's intersections never go unused while are people waiting to use them.
8/ All new cars shall have the new and more precise snap to line technology, as well as lane following tech. This will enable us to eliminate the waste of excessively wide lanes and add more lanes to many of the nation's roads.
9/ All new human operated vehicles shall have at least two front-facing, and one rear facing high definition video camera and a black box that records at least 3-hours of driving before overwriting. The black box shall also record the speed of the car, turn-signal, and brake-light activation, and accelerometer readings with the video. When the black box records a collision, the prior 5 minutes and subsequent 5 minutes of video shall be sent to the recorder’s office.
10/ All vehicles shall be equipped with an interchangeable cash card reader and cash card with sufficient money for parking, tolls etc.
11/ It shall be prohibited to have special paid lanes on the nation's roads. Either the entire road is free or all of its lanes are paid.
12/ Government environmental policy shall encourage higher mileage vehicles over cleaner vehicle emissions. High-mileage vehicles that get over 120 miles per gallon shall only be required to be 80% clean with respect to exhaust emissions. High-mileage vehicles that get over 240 miles per gallon shall only be required to be 90% clean with respect to exhaust emissions.
13/ All vehicle mileage testing shall be done on Interstate 5 in California between highways 119 and 152, and then back again, using cruise control set at 100kph (61mph) without air conditioning. Senators shall do the testing.
14/ For the time being, single-wide vehicles must have seat belts and dash airbags, but they may opt out of all other collision safety standards if they are system operated.
15/ Collision safety standards and weight shall be relaxed greatly for single-wide system operated vehicles.
9/ There shall be no long tail emissions controls that seek to get the last little bit out regardless of its cost.
16/ Carbon dioxide shall not be considered a pollutant.
passenger vehicles may be lowered over time, however. The weight and standards of conforming single-wide suspensions, and brakes shall also be the same.

and lug-nut configurations. The specs for the suspensions, and brakes shall also be the same.

The maximum dry weight for new conforming single-wide passenger vehicles shall be 636kg (1,400lbs.). This is about 20% heavier than the weight of a 1960’s four-passenger Fiat 500 car (530kg). If the Senate elects to use a lower maximum weight it may.

The maximum width for new conforming single-wide passenger vehicles shall be 1.22m (4-ft.), the maximum height shall be 1.4m

All single-wide vehicles shall weigh the same, go the same speed, have the same horsepower, the same weight, and all shall use identically-sized tires, wheels, and lug-nut configurations. The specs for the suspensions, and brakes shall also be the same.

The weight and standards of conforming single-wide passenger vehicles may be lowered over time, however not more frequently than initially and once every 5-years.

All conforming single-wide vehicles shall have identical 5cm projecting bumpers on all four sides. These are 20cm-tall and flat all around, centered at 72cm above the ground.

All conforming passenger vehicles for each half-decade shall use interchangeable wheels, tires, lug nuts, lug nut configurations, brakes, headlights, bumpers, engines, and drive trains.

Cities suffering from traffic congestion can limit the use of commercial and doublewide vehicles on certain routes at certain times of day. This may apply to all vehicles that are not conforming single wide vehicles or it may allow doublewide busses.

Ambulances, police, fire and other emergency response vehicles run by government shall be exempt from all doublewide vehicle restrictions and get priority over single-wide traffic.

Vehicles with 11 or more seat positions for passengers shall be considered busses only when they are being used as busses.

The vehicle allocation system shall always give priority to single-wide vehicles over wider vehicles. The system may require that wider vehicles be pre-routed, delayed, or that they wait for the rest of a convoy. People shall never be delayed by freight.

Intercity truck traffic may be required to move only during the lowest use times of the day if there is any passenger vehicle congestion resulting from their use of the roads.

When congestion is a problem, the non-conforming uses have to start paying higher and higher per-mile use fees during peak periods.

No new road vehicles shall burn explosive gasoline. All shall have more efficient diesel engines and burn safer diesel fuel. Also, it is dumb to squander the world’s light petroleum here. We should save our light petroleum so people can fly for longer in the distant future.

The commercial and doublewide vehicles shall be all painted the same bright color, so they look like service vehicles and people avoid using them as personal vehicles.

Motorcycles being 100 times more deadly than automobiles:

No new human operated street motorcycles shall be sold in our nation.

No new motorcycle licenses shall be issued in our nation.

Motorcycles may be operated at night.

When we prohibit human operated automobiles, we will also prohibit human operated motorcycles.

As long as there are motorcycles on the roads, the drivers must carry by-the-mile motorcyclist life and health insurance in the amount of 20 year’s pay so they grasp the true danger.

Motorcycle helmets shall be required nationwide.
**R’113. FREE PUBLIC UTILITIES**

1/ Government shall provide fast, high-bandwidth virtual communication pathways as a free public utility just like it provides street lighting and street sweeping as free public utilities. The cost of providing these virtual communication pathways being a sliver fraction of the cost of providing real world infrastructure, the virtual infrastructure shall be offered free of charge in nearly all cases.

2/ All fixed line communication including telephony and internet, municipal WiFi, texting, cellular voice, and cellular data shall be free so long as the usage is normal and of a non-commercial level. At commercial levels, these services shall be delivered at marginal cost.

3/ There shall be no difference in price for ordinary phone calls or texts whether around the corner or around the world. The concept of long distance electronic communication shall be entirely deleted.

4/ The telephone, broadcast, and cable TV industries are hereby nationalized to the extent the Senate elects to claim ownership.

5/ For all utilities, the property, equipment, and infrastructure shall all revert to the people after 23-years. If this equipment is already over 23-years old, then it shall be considered already reverted. No utility infrastructure over 23-years old shall be privately owned, leased, franchised or contracted to any private company for management.

6/ All public utilities shall be condemned. All shall be managed by appropriately sized, and appropriately rotated juries of their county Senate.

7/ All easements granted to utilities on private property are hereby nationalized and made the property of the people and put under the administration of the county they are located in. This shall include but not be limited to: electric, water, sewer, telephone, fiber optics and cable TV. An easement for one utility may be used by any other utility or government purposes not yet existing.

8/ To be redundant, all cable TV and telephone wires are now the property of the people to the extent they want to claim ownership rights.

9/ Any attempt by government to sell-off or privatize any built linear infrastructure system shall be void. This shall include all built road systems, transit systems, railroads, pipelines, pipings, aqueducts, wiring, electric grid, and other infrastructure. All prior sales shall be void and may be struck down and rescinded at any time by subsequent governments and without compensation.

10/ All shall see privatization of infrastructure as a thing that is only an equivalent over the short term, when there is a risk that the privatized assets will be taken back by the people. Thus the owners of the privatized assets fear extracting more money from the people than before. Thus the privatization becomes an equivalent over the short term. However, over the long term as ownership in the privatized assets becomes more secure, the privatization actually becomes much more expensive than public ownership due to the monopoly power of the infrastructure.

11/ A 75% over-majority of the Over-Senate shall be required for the Government to sell off, or privatize linear infrastructure and monopolies. Also, no sale or privatization shall be for a period of more than 6-years.

12/ Government shall offer a free facebook-like website or linked facebooks with a limited number of advertisements as a free public utility. The government facebook shall not sell user data to other parties. The people are advised that their common interest will benefit greatly if they all switch to using the government’s facebook and completely shun the for-profit facebook.

13/ Each county shall offer an ID-verified auction and classified advertising website as a public utility. These shall be watched-over and enforced by the county governments and their police departments. These auction websites shall not be run for a profit, except where beneficial data integrity fees provide excess profit. Each auction website shall be able to search all the other county auction websites in the nation if the user elects.

14/ Fictional citizens shall be prohibited from buying assets at auction. Only human citizens may buy assets at county auctions. Nobody may bid on behalf of another person, or acquire assets on behalf of another party at a county auction.

15/ The Amazon company is hereby nationalized. Automated fetch warehouses will become an industry. Robotic delivery will piggyback or overlay upon the self driving vehicle system and rail system. Amazon’s scale with regard to presenting the market of goods is also a thing that should belong to the people.

16/ The Google company is hereby nationalized and put under the supervision of the Sub-Senate.

17/ Both Amazon’s and Google’s citizen shareholders shall be paid a fair value for their shares in this company as determined by the Economics Sluice. When the Senate assesses these companies, it shall pay nothing for the portion of their value that arises from their monopoly power, the far larger share of their value. The Senate shall also not pay any head at all of the current stock price and implied market capitalization for either company.

**R’114. BROADCASTING**

1/ All non-government rights and interests in the broadcast spectrum are hereby nationalized. These shall be equipped and re-rented for 6-year periods to digital broadcasters in a way that maximizes the number of digital channels available.

2/ Government must divide the broadcast spectrum into the maximum number of television and radio channels that technology allows.

3/ The broadcast spectrum shall be managed in a way that maximizes the number of channels, not in a way that maximizes income to government.

4/ All broadcast stations must all broadcast one hour of un-interrupted Senate approved educational media for
each hour of optional broadcast. The odd numbered stations will broadcast Senate media on odd hours, the even numbered stations will broadcast Senate media on even hours. All broadcasters shall be named by a number, and no letters shall be used.
5/ No public broadcasting franchise or broadcast identity shall live for more than 6 years.
6/ No airwave broadcaster, shall use more than 3 minutes each hour for advertising, or have more than one advertising break per hour.
7/ If broadcast media is judged to contain any product placements, or instance of tobacco use, display or inference at all, then the whole program may be considered an advertisement.

L — BUSINESS FRIENDLINESS

R’115. GOVERNMENT ECONOMIC POLICY
1/ All other things being equal, government shall favor a an economy composed of many small baby enterprises over one with fewer older, larger enterprises. Government shall be biased slightly against the biggest enterprises and it shall be biased slightly in favor of the smallest enterprises.
2/ Government shall value manufacturing more than the exchange of goods. It shall push the people to grow more instead of profiting from trading what is grown.
3/ Except in time of war or other form of crisis, government shall not set minimum or maxim prices for anything in the private sector, be it for goods, services, wages, or rentals.
4/ Government shall not: 
   a/ Set a minimum wage.
   b/ Set work times.
   c/ Set the length of the work day.
   d/ Set overtime pay multipliers.
   e/ Set days when businesses must close.
   f/ Set times when remote businesses must close.
   g/ Say or suggest that certain days be holidays or sabbaths.
   h/ Set days when businesses must pay more to get their employees to work.
   Government shall push in the opposite direction, towards a nation that is open for business 365 days a year.
5/ Given the vital role that travel, trade and sharing have in wealth creation, government shall impose no taxes that discriminate against travelers, traders, sharers, shippers, or short-term users as groups. There shall be no special taxation, expensive permits, or limited quantity permits to take in lodgers by the night, or to ferry people around in vehicles.
6/ Shipper and carriers shall not be allowed to charge less for big customers. Our nation wants to give its baby businesses every advantage.
7/ Government shall not use contractors to operate its ongoing administrations. Ongoing means anything that may go on for more than a a few months.

8/ It is not allowed to sell valueless things to the people, or keep money gained from selling valueless things to the people.
9/ When government sells anything it shall go on the government’s asset sale website. The method of sale shall be by decaying price auctions and the process similar to the way real estate auctions work. If there are multiple offers on the first day, the asset shall be reintroduced at a higher price.
10/ When government sells its assets to the people, it shall generally be prohibited from selling assets in huge chunks that only a few corporations can afford. Government must instead break up its lots into as many usable parts as it can to maximize the number of bidders and sales value.
11/ Except in industries government has elected to curtail, Government shall always facilitate and never hinder trade and the movement of goods.
12/ Government shall not be afraid to scare investment away from curtailment industries.
13/ Government shall protect the nation’s industry from foreign predatory pricers who would drive our industrial base out of existence and leave us vulnerable to economic and military attacks.
14/ Government shall encourage the people to work hard and get ahead of their debts. Government shall stigmatize media and enterprises that encourage the people to slack-off and enjoy life more.
15/ No government policy shall encourage, or incentivize the people to take-on or maintain debt.
16/ Government shall encourage and help the people to live smaller, closer together, and with greater peace and quiet.
17/ Government shall encourage the people to keep learning and growing throughout their lives.
18/ Our nation and its people should try as much as possible to pay our leaders and inventors with things that are beyond money. This is not only less expensive, but it is also a more powerful motivator than money alone for many people.
19/ We believe that our society get more invention when it pays 10,000 inventors 2.5-year's wages ($100,000), than if it pays 1 inventor 25,000 year's wages ($1-billion).
20/ Individual pay beyond 1,250-year's wages ($50-million) for personal use offers little increased incentive to inventors.
21/ Fictional citizens have no inherent rights. The Senate may kill or smitethereen any fictional citizen it elects to. The only stipulation is that this must benefit the people over the long term.
22/ The Senate shall have the right to shut down any business or business identity it elects as fraudulent, deceitful, opportunistic, or detrimental to the public interest.
23/ Aggregators and middlemen shall be guilty of fraud when they pretend to be the actual supplier of a good or
service.

24/ All new low-cost townships and rail-transportation system shall be financially independent from the old system. The new system shall not be in any way burdened by the cost of maintaining the old and inefficient system.

25/ No portion of the nation's transportation infrastructure, public utility system, or communication system may be owned, operated or supplied by foreign companies.

26/ The Senate shall prevent this nation's currency from becoming overvalued.

R'116. MAIL AND DELIVERIES

1/ The postal system shall:

a/ Operate every day using day-halving and 6-day sweeps. Freedom day (June 19), and Democracy day (July 4) shall be holidays. Postal workers shall generally be allowed to switch work days to accommodate the holidays of their religion.

b/ The postal system's basic mail service shall be designed for low cost delivery rather than speed.

c/ Mail shall be delivered to individual addresses once every 6 calendar days. Mail shall be delivered to gang mail boxes of 20 or more legitimate active addresses near a street or driveway once every 3 calendar days. Similar volumes delivered to a single business address shall also be delivered once every 3 calendar days. Mail shall be delivered to gang mailboxes of 100 or more legitimate active addresses every 2 calendar days. Similar volumes delivered to a single business address shall also be delivered once every 3 calendar days. Mail shall be delivered to gang mailboxes of 300 or more legitimate active addresses every calendar day. Similar volumes delivered to a single business address shall also be delivered once every 3 calendar days.

2/ The postal service shall now be primarily for sending packages and documents. Printed newspapers, catalogues, magazines, and business solicitations shall not be sent via the postal system. Recurring bills shall not be sent via the postal system. All must use electronic communication instead.

3/ All delivery system shipments not arriving with the postal system's regular deliveries shall be considered special delivery, and in this case, special delivery postage must be paid. All special deliveries shall pay the government's special delivery postage whether delivered by government or by a private company, or whether the special delivery is a letter, shipping container, or online purchase.

4/ Once the new rail system is finished, there shall be no domestic air mail or domestic air package service, public or private, except to islands.

5/ Only the postal service shall be allowed to offer post office boxes at its post offices attended or unattended. All official PO boxes shall be identity verified and tied in an anonymized way to both a citizen and that citizen's real physical address. Official Post office boxes shall typically rent for twice the going rate of for-profit mail drop boxes in a private mail box shop.

6/ The term “post office box” abbreviated as “PO Box” and “POB” shall only be used for official post office boxes. All other mail boxes must use the term “Drop Box” or “DB”.

7/ All fictional citizens and commercial enterprises shall be required to keep their physical address information up to date on the government's address registration website. The directors of FCs and commercial enterprises that fail to do this may be charged with mail fraud. No post office box, mail drops, or part-time office shall be considered a valid registration address for a fictional citizen or commercial enterprise. Only full-time offices, and residences shall be considered valid for this purpose.

8/ Those who commit fraud through a post office box, or mail drop shall suffer double penalties.

9/ Only Government and nobody else shall use light blue colored envelopes. Those in regular communication with a person may use light green colored envelopes. Solicitations and unsolicited communication must use legal pad yellow envelopes or colored paper on the backs of their postcards.

S/ All mail must have a truthful return address. It shall be considered mail fraud to omit the return address or misrepresent the return address or sender on a mass mailing.

9/ All solicitations must have the word solicitation written in all caps above the return address in the minimum text size. It shall be mail fraud to deceptively present a solicitation as a non-solicitation, or a bill or personal communication so it will get looked at.

R'117. PROFESSIONS

1/ To increase competition, and decrease bottlenecks, people licensed to work in a profession or occupation in one county shall be automatically licensed to work anywhere in the nation without further government approval, testing or registration. This shall apply to all lawyers, healthcare workers, engineers, teachers, builders, building tradesmen, architects, accountants, drivers, financial advisors, transport services, and all other occupations and services licensed by government.

2/ All lawyers shall be allowed to work in all courts in the nation. There shall be no special qualifications or admissions to plead before any court in the nation. Lawyers and surrogates may specialize, but there shall be no official, or government recognized specialties or subdivisions for lawyers or surrogates.

3/ There shall never be any limitation on the number of people in any market, industry, trade, union, occupation, or profession.

4/ There shall be no government tax, fee, or school fees required for either obtaining or maintaining any license, certification, or academic qualification in the nation.

5/ No government approvals shall be required to be a hair cutter, beautician, massager, chiropractor, future
predictor, priest, investment manager, investment salesperson, realtor, stevedore, or building repairman, or building remodeler.

6/ The county recorders shall all have sufficient test hall space for all academic and occupational testing. Each professional test shall be given no less frequently than once per teneth. Everyone must show an ID and give thumbprint and photo for all official tests.

7/ With the exception of internships for healthcare people, no work experience, school-time, or apprentice period shall be required to obtain any professional license.

8/ Those who pass the Government test shall be automatically considered qualified to work in that profession or occupation for 5 years. At the 5-year point they must pass the new test.

9/ Every professional’s test scores and ranks on their most recent test shall be indexed and ranked and made available for public viewing so that the people can accurately and objectively judge the retained abilities of the people they hire.

10/ The lifelong complaint records of all professionals and businesses shall be posted, comment moderated, and objectively ranked by the recorder’s office.

11/ Those making complaints against a professional must do so in their own real and lifelong name, which will be indexed for plaintiveness, both positive and negative. This real name will be seen by the recorder’s office, and the parties to the matter being complained about, but not by ordinary system users.

12/ All complaints shall be impartially investigated and judged by government. The cost of making a complaint shall be four hour’s wages. If the complaint is mostly correct, the fee is refunded. If the complaint is mostly incorrect, the fee is paid to the national government and a national government intake receipt email is sent by the recorder.

13/ In the first year of this constitution, government shall require that all active professionals sit for professional re-testing. This first testing shall be primarily designed to look for frauds that have corrupted the licensing process. All professions that require an educational degree must take this test.

14/ Where practical, government shall compile standard national pricing for all commonly delivered services in all professions and many non-professional services. Where government offers standard national pricing, people must generally offer their services as a consistent multiplier of these prices. This multiplier must be registered with government and shall require 30-days advance notice to all ongoing customers in order to change. All professional signage, advertising, name cards, and directory listings shall display this multiplier where it is being used in the same size as the name of the professional.

R’118. INDUSTRY STANDARDS

1/ Regarding all markets, professions, occupations, markets, industries, and exchanges, neither Government nor anyone else shall limit the number of participants, or delay market entry, or charge for market entry, or restrict or assign territory, or institute excessively burdensome qualification requirements. The foregoing does not include innovator and commercializer IP. All prior grants of restricted competition such as taxi medallions are hereby void.

2/ When industries set their own standards, they normally impose standards that reduce membership, reduce output, reduce competition, and increase cost to the market. Therefore, the Senate shall elect all standards for all industries, professions, products, buildings, services, business activities, ethics, and especially education requirements.

3/ No professional, industry, or trade organization may establish any industry standards without Senate approval. Industry standards shall only be imposed by the Senate.

4/ Senate elected professional standards shall not exceed the minimum needed to protect the public, and they shall err on the side of too-few regulations. Beyond this point, higher minimum standards quickly become less valuable to society than competitive markets.

5/ There shall never be any liability for those who generally comply, or act in good faith in complying with the standards set by the Senate.

6/ No limitation shall be put on the number of people participating in any market, industry, trade or profession.

R’119. LABOR UNIONS

1/ No worker meetings or picketing shall take place within 1-km of the place of work.

2/ Penalties for crimes by or against strikers and strike breakers shall be doubled.

3/ Workers shall not be denied the right to organize, to unionize, or to withhold their labor from their employers for better pay, except in the following circumstances, where striking shall be prohibited:

a/ Time of war, impending war, natural disaster, and when the national Senate elects to declare a state of emergency.

b/ Workers in healthcare, or essential services, because of the power these people would otherwise gain over the rest of our nation.

c/ Workers in transportation, loading, unloading, warehousing, and production of key commodities, because of the power these people would otherwise gain over the rest of the nation.

d/ Employees of government, and regulated monopolies, because we can trust our democracy more than our critical service workers to make sure the workers are appropriately paid.

e/ Where the number of employers in any industry exceeds 10, because this is a market, and we have more faith in markets than in labor unions.

4/ No professional group, trade group, labor organization, or labor union shall be allowed to:

a/ Have a representation ratio narrower than 1:500.
b/ Have less than 500 members, or more than 100,000.
c/ Organize into a meta-union or political party, or lobby government.
d/ Pay for advertising, or make purchases of luxury products or services.
e/ Control more than 10% of the total number of workers in any industry, major city, or county in the nation.
f/ Organize any form of transportation workers including those working in: ports, airports, airlines, shipping companies, railroad companies, transit companies, trucking companies, taxi drivers, bus drivers, mail carriers, delivery workers, or any other form of transportation-related workers.
g/ Compel membership, intimidate non-union workers, or close any industry or workplace to non-union workers.
h/ Limit how many members they may have, or set prices, or limit competition, or limit working hours or times.
i/ Have any seniority, schooling, or apprenticeship rules except those established by government.
j/ Compel payments from either employers or members.
k/ Have leaders that are not citizens, or have not been elected from the members of the union.

R'120. IP MONOPOLY PERIODS
1/ With respect to IP or Intellectual property, government's objective is firstly to assure that innovators, discoverers, and creators are properly rewarded, and innovation well encouraged so that many people will continue to strive for innovation. Government's second objective is to assure that innovations are diffused as quickly as possible.

Government shall be free to achieve these twin objectives either through the market, or through ubiquitization by the public.

2/ Government shall offer no IP rights to the people unless:
a/ We want more of the thing we are protecting, and,
b/ Output can be increased through IP protection.
3/ In all awards of exclusive IP rights, government shall be prohibited from using long-term profits as a reward. For this reason, no IP monopoly right shall live for more than 21 years including renewals.
4/ The patent office may only grant patents that last for up to 17 years. Only the Knowledge Sluice shall have authority for matters related to IP.
5/ No IP monopoly shall be extended through subsequent major developments and subsequent patents for more than 50% of the initial period. No IP monopoly shall be extended through subsequent minor developments and subsequent minor patents for more than 20% of the initial patent period.
6/ All IP monopolies shall expire if working mass produced products are not introduced to the market at a reasonable mass production price by the halfway point of the protection period.
7/ The following maximum IP monopoly periods shall apply. Where multiple classifications apply, the one with the shortest term is applicable. Existing IP rights already over the following ages are hereby expired, and the subject IP is hereby in the public domain:
a/ Political and news media — 2 hours.
b/ Printed periodicals — 30 days.
c/ Download only periodicals — 4 years.
d/ Media of a partly or wholly fictional nature — 6 years.
e/ Media that depicts the use of swords, punching, fighting, shoving, physical conflict, firearms, laser guns, bombs, explosives, or vehicular assault, 2 years.
f/ Media of a strictly non-fiction or educational nature that has no music — 14 years.
g/ Mass produced building components — 12 years.
h/ Electronic hardware — 12 years.
i/ Computer software and operating systems — 4 years, except where the software is delivered over the cloud or as a service, in which case the IP period shall be 2 years.
j/ Technologies and processes that are only delivered over the internet — 5 years.
k/ New drugs — 14 years from approval by the government's drug approval administration.
l/ Human genetic material, biological inventions — 14 years.
m/ Healthcare-related testing — 14 years.
n/ Seeds and livestock — 8 years.
o/ Mining — 8 years.
p/ Well drilling 5 years.
q/ Energy generation or conveyance — 8 years.
r/ Oil and coal processing 5 years.

R'121. NO IP MONOPOLY RIGHTS
Government shall not offer patent, trademark, or copyright protection for creators of the following:
1/ Music, sounds, concerts, dancing, or media depicting musicians playing their music, or dancers dancing.
2/ Athletic displays and sporting events, and media depicting or simulating these.
3/ Photographs, even artistically manipulated photographs.
4/ Human nudity, if it depicts the human skin between mid-thigh and armpits.
5/ Recordings that are not entirely staged and acted.
6/ Performances that are indistinguishable from reality, or performances that attempt to spoof reality.
7/ Public speaking and educational lectures.
8/ City and community plans, public facility design, functions of government and the financial system.
9/ Transaction systems, auction systems, pricing systems, billing systems, accounting systems, economic systems, marketing systems, contracts.
10/ Computer operating systems, search technology, website design and website technology.
11/ Clothing, shoes, cosmetics, time keeping devices, handbags, and luggage.
12/ Material having to do with politics, government, public
policy, economics, history, or the public discussion: The only right for these things shall be that of authorship credit. All of this material may freely copied without attribution — it cannot however be misattributed. 13/ Repair and replacement parts, refill parts, batteries, adapters, electric power supply systems, connectors, mounting brackets, connector shape and configuration. These things get no patent protection: They only get trademark protection as OEM goods if applicable. Also, with these things, the replica company can use the name of the product is it replicating to describe itself as a replica of that thing. 14/ The architectural plans and details that building designers and engineers prepare for clients. 15/ Beauty contests be they for humans or animals. 16/ Races, including animal races and vehicle races. 17/ Fictional names and terms from fictional media. 18/ Fresh translations or re-hashes of material that is outside the copyright period. 19/ Research done at institutions with any sort of tax-free or non-profit activity on their campus or affiliated with their institution. 20/ There shall be no IP protection in gold-rush industries. For example, there should be no IP for house casting until people figure out all the obvious stuff.

R’122. IP MONOPOLY RULES
1/ Ishtar adores trade paradises, also called monopolies. Ishtar adores these whether they are for the sale of oil, or the right to look at some 74-year old movie that Ishtar owns. So we shall start with the assumption that our entire IP monopoly system has been corrupted to grant overlong monopolies that are as eternal as Ishtar could get away with. Later generations are warned that increasing the 14-year maximum IP monopoly periods called for herein will only produce the slightest increase to inventor payback. 2/ Patents shall not be granted for things already in mass production, or made for personal use by many people. Proof of prior mass production or delivery to market trumps any patent filing. 3/ IP may only be granted in areas where it will result in more good stuff available. Copyrights are not offered for photographs, music and video of real events because these are too easy to make and offering profit will change with our output of quality photographs and other media. 4/ IP may only be granted in areas that we want to encourage. This is why copyrights are not offered for media with nudity or media with tobacco use. 5/ Government shall accept the filing of anti-patents for those who wish to propose an idea for public use, but have no intention of bringing that idea to market. Anti-patents are filed with government for everyone to use. Those who file an anti-patent shall have the right to a sliver share of the invention’s revenue recorded by the sales tax system. The standards for filing anti-patents shall also be lower than those for filing normal patents. Also, anti-patents should be construed as broadly as reasonably possible with regard to conflicts with subsequent patents. This while regular patents should be construed as narrowly as reasonably possible with regard to conflicts with subsequent patents. 6/ Once a anti-patent is filed and accepted, no ordinary full patent shall be issued for this idea, but only a patent restricted to product development. And these restricted product development patents may only be applied-for more than one year after the anti-patent was filed, and under conditions where the anti-patent is not proceeding to market. 7/ With a 2/3 overmajority, the Socialist Sluice may elect to ubiquitize, shorten, cancel or modify any IP rights in any way it elects to, and under any conditions it elects are fair. The Senate shall have no obligation to make any payment if it elects that this course is fair. No court shall be considered competent to judge the Senate in regard to the fairness in these patent and ubiquitization matters. 8/ Patent holders shall generally have the right to develop their patents over the time frames of their respective IP monopoly. However, when important patents are not proceeding to market in a reasonable time frame or manner, the Senate may cancel the IP rights or assign a new management team. Also, the standards for this type of cancellation shall be lower when the patent holder is not the applicant. 9/ There shall be no right to hold patents that are under-used, or are used primarily used for parasitic, obstructionist, or trolling purposes. This rule shall be more strictly enforced against those who own many acquired patents, but fail to bring sufficient products to market themselves. Also, for the purposes of this paragraph, selling to others who bring products to market shall not count as bringing products to market. The Socialist Sluice may elect to cancel any, or all such patents. 10/ Lawyers and the people working in the patent application process shall be prohibited from owning patents they did not apply for. 11/ Government’s patent office shall record the ownership and transfer of all patents. No transfer or collateralizing of patent rights shall be valid unless it is recorded by the patent office system. 12/ Government shall not mandate that the people use any monopolized or cartelized products, including those monopolized or cartelized through and IP monopoly. If government mandates something for everyone or nearly everyone, that thing must be ubiquitized. 13/ Patent applications shall only be accepted between 15:00 and 15:30 on the first working day of each teneth. No patent application shall be accepted unless the applicant first files a notice of intent to file a patent between 14:30 and 15:00 on the same day. This notice of intent shall include both a vague description of the patent and the classes that will be applied for. Also, the patent application fee shall be paid with the notice of intent, and
26/ Except for pending applications, charities shall not hold IP rights, and all IP rights shall die immediately upon ownership by any charity, school, or religion. Charities may apply for IP rights, however, they may not receive the final award. Bequeaths of IP rights to charities shall be considered bequeaths to the public domain. The Senate shall attempt to fairly compensate all research charities and the individual researchers for the Ubiqu work they do.

27/ All price information shall be considered in the public domain, and no confidentiality agreement regarding pricing shall ever be the subject a valid contract.

28/ When a fictional or fictionalized story coins a word, name or term, the creators of that fictional tale shall have no monopoly rights over that word, name or term.

29/ There shall be no IP rights for dramatizations and games where people go around shooting multiple targets, except those used by the government in military training.

30/ Artificial scarcity with regard to top-notch business names is a huge waste that gives nothing in return. Therefore, the trademark system must not unnecessarily limit the number of available good names for businesses to use. To this end we shall say that the fee to file, and the annual fee to keep a national trademark shall be the following rates for each of hundreds of new classes at the patent and trademark office:

a/ 5-hour’s wages if 3 or more terms are used.

b/ 100-hour’s wages if 2 terms are used.

c/ 2,000-hour’s wages 1 term is used, or if the trademark has 9 or fewer characters. $40,000.

31/ Except for very common or confusing names, or names that are plays on words, the owner or founder’s name may generally be used as a trademark term for the purposes of calculating trademark fees.

32/ For the purposes of calculating trademark fees, if there are 2 or more terms in a trademark, one of those terms may generally be either a location, or a descriptive term about the products or services sold by the enterprise.

33/ Highly valuable trademarks may also be charged a percentage of their turnover for government protection of their rights.

34/ The system should not give any offensive power at all to recorded trademarks that are barely used and barely known in their industry. Also, the bar for the term of barely used should be quite high.

35/ We shall favor trademarks of two or more terms as this will cause an exponential increase in the number of possible trademarks available. Single term trademarks shall be construed and protected as narrowly as is practical. We shall err on the side of having more marks than protecting and broadening the rights of single term trademark holders. This is so even for made-up single words, even if used in a new and fanciful way, even if widely in use.

36/ Common multi-word terms shall be seen as single words for the purposes of trademark law.

37/ There shall be no trademark protection for the...
following industries

c/ The tobacco industry.
a/ The beverage industry.
b/ The candy and sweets industry
c/ The marijuana and Mafia drug industry.
d/ The dishes and individual order items served by the restaurant industry.

38/ All existing trademarks that violate these rules shall have protection under the old rules until 2030.01.01. No trademark shall exist for more than 30 years. All marks older than this shall be required to change their names by 2030.01.01 All expiring trademarks shall be auctioned-off to the highest bidder by government to benefit the public purse.

39/ When more than one businesses shares a name, each shall include a randomly assigned 3-digit identifier after their name.

40/ PTO juries shall adjudicate and enforce all relatively clear-cut patent and trademark infringement cases for no fee. The right to file such infringement suits cannot be transferred or assigned.

41/ The patent system exists to benefit the public by compensating inventors and stimulating invention. When third parties make it their business to assume the role of inventor, or trademark holder without successfully bringing products to market, they shall be considered trolls out to collect tolls. When the Senate elects that a citizen or fictional citizen as a troll, all of that citizen’s IP is subject to cancellation.

42/ The trademark system will naturally create a great revenue surplus, and that surplus shall be used only to fund ubiquitization payouts, not patent enforcement.

43/ No trademark or fictional citizen name shall exist for more than 30-years, and all existing trademarks more than 30-years old shall be cancelled within 5-years.

44/ Wherever a patent touches some pre-existing way of doing something, the patent loses. No pre-existing business practice shall be forced to change or pay money due to a later arriving patent holder.

45/ All existing patents shall be reviewed within 3-years. All overly broad patents shall be struck down.

R’123. CANCELLED PATENTS

All patents rights relating to the following are hereby cancelled: drilling the ground, or operating wells of any sort, drill bits of any sort for rock or earth, underground mineral recognition, fuel transportation, petroleum pumps, oil refining, synthetic fuel manufacture, vapor recovery, mining any mineral, earth moving equipment, refining raw materials, smelting, rolling of metals, power generation and conveyance, geothermal energy, solar energy, wind energy, clean burning technology, railroads, monorails, public transit, automobiles, busses, farming equipment, disability access, engines, motors, city design, heating systems, cooling systems, ventilation systems, washing machines, cooking appliances, thermal insulation, body armor, in-glass shading, glass manufacture, window coverings, electronic glass tinting, window systems, window covering systems, door systems, adhesives, fasteners, coatings, power couplings, batteries, high output LEDs, elevators, escalators, moving walkways, ride-sharing, car-pooling, reinforced concrete, concrete forming, concrete manufacture and distribution, injection molding, 3-d printing, pre-manufactured structures and wall systems, thermal insulation, airport equipment, airport security systems, automated or robotic order processing, manufacturing robots, automated warehousing, or capital equipment to make any of the foregoing.

All existing patents in the above areas shall no longer be enforceable. No new patents shall be issued in the above areas for at least 24 months. Thereafter, a 2:1 vote of the Over-Senate shall be required to re-institute the patent application process in each of the above industries by separate vote.

R’124. PUBLIC RESEARCH FUNDING

1/ Government research money is not for people living in expensive places.

2/ Government research stipends are supposed to be stingy.

3/ Everyone working in a public lab on public stipend shall be expected to make the most of their chance and work long hours.

4/ When the Senate condemns work and offers Ubiq payments, it shall pay all contributors based on its judgement about their fair share of memetic contribution.

5/ Regarding Ubiq payments for drugs, Government shall conduct drug trials itself and judge how reproducible the initial trials were.

6/ To reduce fraud, all drug trials shall be under public recording. Those involved in a drug trial may not communicate with one another except under monitoring.

R’125. WORK TIME

1/ This nation shall use a new day-grouping system in addition to the old one. This new system uses 6-day periods called SWEETS, and tenths of years called TENETHS, which shall be 36.5 days each. The even numbered teneths shall have 6 sweeks of 6 days each. The odd teneths shall have an extra day in the last sweek. Every 4th year, there shall be an extra day added to the calendar at the end of the 2nd teneth.

2/ Government shall not adjust the time between winter and summer, and the time shall remain the same all year round. If the clocks must be adjusted, it shall be in the first moments of the new year.

3/ All jobs must have an employment contract. The contract shall state the minimum and maximum number of work hours per sweek. This contract shall also state a minimum ratio for days off, a maximum length for the work day. The contract shall also include a pay multiplier for overtime wages up to an overage of 20% each day or
each week. The contract shall also include a pay multiplier for overtime wages over an average of 20% each day or each week.

4/ Neither government nor any labor union shall establish standards for the length of a work day, work week, or the day's start or finish time, or the multiplier for overtime wages.

5/ Government may offer incentives to spread out the start and finish times for work, so that the nation's transportation infrastructure may be more efficiently used.

6/ Government shall encourage the adoption of day halving, so that the nation's infrastructure may be used more efficiently, and so that the people do not have to waste time, or fuel commuting to work.

7/ All government offices, schools, and all financial companies shall typically use 6-day weeks and day-halved schedules where a 2,002-hour annual work schedule is typically worked in 11 hour days, 182 days a year. This is done to double the capacity of our group infrastructure, to include, schools, government offices, factories, and most importantly our congested roads. This is also to reduce the time wasted getting to and from work.

8/ Under the day halving system, the only annual holiday shall be international freedom day, voting day, on June 19th.

9/ In many long-term wage agreements, wages will be expressed as a multiple of the average national wage, a number that shall be re-calculated and re-set by the Senate from time to time.

10/ Everyone who bills or works by the hour must clock in on the county recorder's time clock and billing app.

11/ There shall be no valid employment contract without a maximum billable amount listed. Charges in excess of this amount shall not be due under the law.

R'126. INSURANCE

1/ Life and limb are precious and irreplaceable: house and property can be replaced, or lived without. Government's first priority by a wide measure is the preservation of the life and limb of its citizens, its distant second priority is the maximization of property values. Government's still more distant third priority, is the property values of those fools who chose to live in dangerous places.

2/ Our nation's territory is enormous and varied. There is simply no need to build in dangerous locations. Government shall do nothing to help people to live in dangerous locations and dangerous buildings. Government shall instead go in the opposite direction. Government shall take measures to discourage people from living in dangerous locations and dangerous buildings.

3/ The people shall be expected to build away from geological hazards. There shall be no public or private insurance for earthquake, tsunami, volcano or landslide. 4/ The people shall be expected to build in places that are high and dry, and government shall assure that there are enough locations and infrastructure to do this.

5/ There shall be no public or private insurance for tsunami, flood, river overflow, rain, snow, or storm surge.

6/ Government shall be prohibited from building any new dikes or levees against floods. After 2036.01.01, government shall be prohibited from maintaining any dike or levee against the ocean.

7/ No new structures shall be built in areas judged by the Senate to be in a 1,000-year flood zone, except upon concrete piers that raise all portions of the structure above the 1,000-year flood line. These piers must be diagonally braced and capable of resisting the horizontal flow of the flood waters.

8/ No dwellings, offices, factories, or warehouses shall be built or remodeled in any Holocene-era tsunami flood zone, even upon piers

9/ The people shall be expected to build relatively non-flammable structures a safe distance from fire hazards. There shall be no public or private insurance for wildfire, firestorm, or fires driven from one property to the next.

10/ The people shall be expected to build properly and maintain their property adequately. They shall also use leak detectors. There shall be no public or private insurance for roof leaks, or burst pipes, except for third party liability.

11/ Loan clauses compelling borrowers to insure real estate shall not be enforceable. As well, lenders shall have no recourse against borrowers in the event the loan security is destroyed by accidental fire, earthquake, tsunami, flood, landslide, volcano. Lenders shall be free to discriminate against borrowers based on their vulnerability to these events, the type of construction, the location of the property, and whether or not the inhabitants are licensed to smoke tobacco.

12/ Loans on properties in zones vulnerable to earthquake, tsunami, river flooding, forest fire, fire storm, and landslide shall not be bundled and sold with normal loans. If these high-risk loans are bundled, they must be bundled separately according to the class and level of risk as determined by historical fire and flood sedimentation data. All urban and suburban areas of the nation shall be surveyed by the Senate with respect to these risks as part of the new national geographical survey.

13/ With all forms of insurance, the settlement may only come as equivalent stuff, not cash in hand. And this is always subject to a 5% loss, a bit of a delay, and some paperwork.

14/ Government shall not insure or help fund the construction, rebuilding, or purchase of any property in any flood, tsunami, earthquake, fire or landslide hazard area. Government shall be prohibited from aiding the rebuilding effort in any area that seems likely to be harmed again by a similar natural disaster.

15/ There shall be no insurance for terrorism, civil unrest, vandalism, or war.

16/ There shall be no private insurance for structure
vandalism, or fire because this leads to a number of bad outcomes such as people living in fire hazard zones, and protection schemes. To prevent insurance from becoming a protection scam, only the county government may sell fire and vandalism insurance, the cost of which shall be included in everyone's property tax bill.
17/ There shall be no medical malpractice insurance because our nation's legal system will no longer use money fines to eliminate incompetent healthcare professionals.
18/ There shall be no insurance for luxury products, except luxury healthcare.
19/ There shall be no travel insurance because this easily leads to Mafia protection schemes.
20/ There shall be no insurance of investment default because this leads to people taking risks with other people's money.
21/ There shall be no life or health insurance policy that pays more than 51 year's wages per individual. No injury, or wrongful death liability or settlement shall exceed 51 year's wages per person. (This is average wages. All mentions of wages herein are average wages.)
22/ No privately-owned passenger vehicle shall be insurable for more than one year's wages. After 2028.01.01, no privately-owned passenger vehicle shall be insurable for more than 6-month's wages.
23/ No annual insurance deductible shall be less than two week's wages per household.
24/ Only government may offer the vehicle liability insurance needed to drive. This insurance shall be included with license activation and fee payment. All license fees shall be paid by the day with no discounts for long activations. Those who have been convicted of driving under the influence of alcohol may be required to buy their licenses daily and submit a Breathalyzer test each evening at 9:00.
25/ Because so much vehicle vandalism and burglary is caused by the vehicle owner's actions and parking choices, there shall be no insurance for vehicle vandalism or vehicle burglary.
26/ After 2025.01.01, commercial vehicle shall be prohibited from collecting for cosmetic damage that does not significantly impair the use of the vehicle.
27/ When government institutes a system of computer navigated vehicles, there shall be no more liability for accidents than with today's more dangerous human-operator road system.
28/ All insurance policies shall be recorded in advance, and shall pay a per policy, per year recording fee of 2 hour's wages, or they shall not be enforceable.
29/ All insurance must state a realistic limit to its benefits, and no insurance may be marketed as having unlimited benefits.
30/ To insure properly functioning markets for insurance, insurers shall only be regulated and approved at the national level for business nationwide.
31/ Insurance agents that are paid a commission shall be subject to commission salesman income tax.
32/ Insurance companies may only invest their funds in the debt of the national government.
33/ No insurance company shall have any foreign ownership, or be owned by any parent company, or have any subsidiaries, or engage in any business other than selling insurance and investing in government debt.
34/ Government being the nation's de facto re-re-insurer anyway, it shall maintain a monopoly on all re-insurance in this nation.
35/ All insurance policies and insurance marketing material shall state the amount of money that the company has collected and paid out over the previous 10 years for that type of insurance.
36/ Each person's permanent record shall include all insurance policies they have ever been a part of, all insurance claims made by them or about them, and all insurance payouts.
37/ Government shall not require that a majority, or near majority of the people obtain any form of insurance from the private sector. If a majority or near majority of the people must be insured, then government shall provide that insurance itself and the private sector shall be excluded from providing that sort of insurance.
38/ Insurance benefits shall not be assigned or sold, or they shall become void.
39/ All private life insurance, and long-term disability benefits shall be paid to government in a lump sum. Then, government shall disburse these payments annually for a specified term to the beneficiary.
40/ When insurance companies make pay-outs, the insured party shall receive no part of the money. All the money shall only be paid to third parties making repairs or providing other mitigations. Failing to do this firstly incentivizes people to make claims for minor damage that would otherwise be overlooked. It secondly encourages people to pad damages. And thirdly, it greatly helps make insurance fraud more profitable to the fraudsters. The rule shall be that insurance gives one the opportunity to recover, rebuild or repair, not to cash out, or relocate. Those who don't rebuild, or repair, don't get any insurance money, and this includes those who government prevents from re-building because they are located in a tsunami zone or other hazard zone. These must therefore buy survivor relocation insurance.
41/ All insurance repairs shall be provided by lowest responsible bidder on the government's bid boards.
42/ When insurance companies acquire damaged property, it shall be auctioned-off by the county recorder.
43/ Government shall regard insurance as a bad thing, a thing that is to be taxed and minimized by public policy, a thing that is seldom encouraged or helped by public policy.
44/ Unique assets and expensive art works shall not generally be insurable.
45/ Vehicles over 30-years old shall not be insurable.
46/ To encourage the use of ultra-safe railroads and
potentially ultra-save network operated vehicles, government shall insure the users of these systems free of charge, for users that obey the reasonable rules established by the Senate.

R'127. PUBLIC LIBRARIES
1/ The Knowledge Sluice shall compile a definitive public library, wiki, and self-study education system. It shall also run a testing and certification administration for all courses and occupations. The system shall explain all aspect of all common professions and specialist jobs. It shall do the same for all aspects of serious knowledge. Except for testing, this system may be accessed without registration or login, and there shall never be any charge to use this system.
2/ This media shall be democratically assembled. This means that no portion may be added, divided, consolidated, modified, headed, edited, disambiguated, or prioritized without a vote of the Knowledge Sluice.
3/ The Sub-Senate shall compile a vast test question library for each academic and professional subject. Later Sub-Senators will be called upon to randomly select question from library. These will be sent in the moments between when the test candidates are seated and when the the test begins.
4/ Every public domain item in every library in the land, both public and private, shall be digitized and put in the Senate's online library. Special attention shall be paid to making sure that all documents from closed stacks and private collections are digitized. It is everyone's duty to truth, honesty and goodness to make sure that all the old books are scanned.
5/ All precious books in closed stacks must be made available for anonymous downloading, and browsing. The only exception to the foregoing is that books on making weapons shall be only available with an ID.
6/ The national Senate library shall be mirrored by all county recorders to reduce the possibility of data tampering.
7/ All library materials written and audio/video shall be converted to text files and put on great library of at least 16GB chunks for download. Each chunk shall have about 20% serious political and economic material in it so that nobody knows who is reading the harmless stuff, and who is reading the political material. Also the political material shall be mixed-in in such a way that so nobody knows who is looking at the political material, and also so that nobody can strip this material out of the data stream. These downloads shall require no registration and use no encryption or passwords.
8/ The Sub-Senate shall promulgate both recommended and must watch media. The recommended media can be text or video. The must watch media must be video, and shall not exceed 60 minutes per teneth. We do this so our freedom waxes important memories instead of waning forgetful. It is a small price to pay to keep our democracy from eventually capsizing.

9/ This Senate media shall not be frivolous. and it shall be elected by the nation's wise-man Over-Senate.
10/ All libraries not in a primary or secondary school shall be open to the public at least 40 hours a week. All public and adult school libraries must allow entry and book browsing without showing one's identity.
11/ Except for Senate wikis, there shall be no anonymous wiki postings and all poster identities shall be verified.
12/ No robot may post on a wiki. No person or IP address may change a wiki page more often than once per day. No non-Senate wiki may describe itself as a Senate or official wiki. Foreigners and foreign IP addresses shall not be allowed to post on domestic wikis.

R'128. LEARNING
1/ All secondary and tertiary schools shall be designated either serious or frivolous. Serious schools shall not teach or offer experiences in sport, music, visual arts, craft-making, acting, religion, literature, story-telling, oratory, fiction, fictionalizations, architecture, design, poetry, pottery, philosophy, all physical activities, and all sports or any subject that a majority of Senators in the national Knowledge Sluice elect as frivolous or of fruitless. Frivolous schools shall not teach history, science, technology, engineering, building, manufacturing, business, economics, government urbanology, or healthcare.
2/ School nursing shall be an additional 1-year educational training supplement that teachers can add on for a bit higher salaries. This is important for reducing the scale of our schools to more welcoming sizes.
3/ All public funding of education shall have separate budgets for serious and frivolous purposes.
4/ School construction, school grounds and buildings upkeep, video security, bussing, discipline, and library functions shall be maintained by the county outside the school budget. Various private school entities shall rent the public school facilities for a daily rental fee. This rental fee shall be paid in the form of vouchers given to the parents of the students. The county school district shall run the last-resort public schools for the kids that can't get into, or can't stay in the private schools. In the county school district, no more than 10% of the school spending shall be spent outside of teacher and school “nurse” salaries. Textbooks shall all be virtual and provided by the national government for free. All intergrade testing shall be by the Senate.
5/ On 2026.01.01, or sooner if the Senate elects, all everyone shall defer to the Senate's objective tests for all purposes of official learning certification, be it for secondary school, or higher levels. After this date, all secondary and tertiary schools shall stop keeping official grades and transcripts. The only thing that will define a person's academic abilities will be their score on the Senate's official and incorruptible exam. Thus, degrees from exclusive and expensive schools will decline substantially in value.
6/ Live teachers are supposed to squander their time monologging with their students except when answering questions that are not in the material or in the lengthy FAQs that are supposed to have an answer to all questions that are on the well worn path.

7/ When teaching is done via monologue, it should be automated via video. It should also be optimized from a video assemblage of the best presenters in the world.

8/ Except for the right of attribution for Senate status, there shall be no intellectual property rights for anything relating to public speaking including school lectures. All live lectures may be copied freely.

9/ Everything ever said or presented in front of an assembly of students by anyone who goes by the name of teacher or professor or is presented in a learning environment shall be considered as public domain. No school or teacher shall have the right to prevent recording, or to restrict access or re-use in any way. The best portions of the best presenters shall be saved by the Senate. Some will be awarded ubiq status and public money, but they shall have no intellectual property rights.

10/ School shall not be places of stinginess and secret knowledge imparted to a select few people for an outrageous sum. If any school wants to have secret knowledge, let it be called not-accredited in our land of more and better. Let that school be exempt from non-profit status. Let that school be off-limits for all government education money.

11/ Except for lab classes, and on the job training, there shall be no attendance, school enrollment, or internship requirement for taking the all-important government administered final test in any subject or level in the nation.

9/ Only Government may accredit schools.

12/ Private school tuition in excess of the voucher payments shall pay luxury tax except where the school is dealing with a disability.

13/ No primary or secondary school shall use books or other teaching materials that are not both approved by the Senate and ubiquitized. All primary and secondary school materials are required to be available as a free public domain download.

14/ Normal school attendance shall be 3 days in every 6, however motivated primary and secondary school kids can go to school every day if they want, or if they are sent to school more by their parents.

15/ For conforming children, all urban public schools in this nation shall offer free child supervision and cafeteria meals from at least 7:30am to 7:30pm, every day, year round.

16/ Children who can work productively in serious study under a librarian shall not have to attend school, and can quietly wander a library instead.

17/ Students are supposed to take one class at a time, all day, during school days until they are finished. They must either pass or drop their one subject before enrolling in another. It shall generally not be allowed to take more than one subject at a time.

18/ Government shall provide school vouchers for conforming children. These vouchers may be used by the parents to choose where their children will go to school. However schools with any form of religion-fostering or homosexuality-fostering instruction shall not be allowed in the voucher system. All private school tuition over the public voucher amount shall be subject to progressive luxury taxation.

19/ No school may grade students in any other way than pass or fail, and failed grades don't get recorded at all.

20/ Every class shall have a variety of version for all the common types of learner.

21/ No school that accepts government money or vouchers shall offer any religious instruction or have any educational material not approved by the National Senate.

22/ Government shall not spend more than twice the per child average on any special needs child in the education system.

23/ Only females shall teach other people's children up to and including the grade most common among those turning 12-years old. No homosexuals, bisexuals, or transsexuals shall teach or work in a primary or secondary school. No homosexuals, bisexuals, or transsexuals shall work in a locker room or showering environment, or teach physical education in any school or gym, including adult facilities.

24/ All forms of teaching tenure shall be prohibited, and all employment contracts for teachers longer that one-year shall be void.

25/ All existing student loan obligations are hereby void.

26/ Until changed, the basic school year shall offer 180 days of instruction per year, and day-halved schedules. This is about the same number of days as the old school system including summers, winter and spring breaks, and various other holidays. Thus the new school schedule will involve longer days at school, but not more days.

27/ Nobody of any age shall ever be compelled to play any ball sports, or study a frivolous subject if they do not want to.

28/ Government shall work to reduce mental overhead in education. No education memes or activities shall squander student time or learning energy.

29/ Those who come in first tend to matter for society, while those who come in last generally do not. School shall give no consolation prizes or recognition for those who come in last. Such rewards are demotivating and augur backwards for education.

30/ Minors shall not be allowed to use unmoderated or privately owned facebooks or other communication platforms. They must instead must use the government's cloned school messaging apps. All unmoderated communication platforms shall be required to verify that their users are over age 18. If they fail to do this, they shall be liable for harm to minors that was engendered on their platform.
31/ All primary and secondary schools shall offer moderated communication platforms. School messaging apps automatically disable during the student's class time.

32/ All primary and secondary school students shall be required to use only their school's network while at or around their school. This networks shall only work for limited types of communication. It only permits access to approved websites and parents.

33/ Government may limit the right of primary and secondary school students to carry and use certain types of communication devices, applications, and media while at school. Government may also install signal blockers for non-school networks, thus forcing everyone at the school to use the school's network while on campus.

34/ No school may block or prevent child/parent, or parent/child communication while the child is at school. No school may prohibit, block, or erase student recordings of the violations school employees, or recordings of what school employees are saying or doing while at School.

35/ All new classrooms and other school structures built by government must be entirely pre-fabricated and made of cast concrete.

36/ All schools shall be required to treat all students, all potential students, and all employees equally regardless of race, sex, political ideology, or religion. In school, there shall be no favoring or disfavoring of any minority groups. And racial identity shall have no place with government, in the work place, in any school admission process, or on any school campus. Students may not have ethnic identity groups in or centered around schools.

37/ Universities and colleges have always been one of the most important venues for free speech and open discussion, as this is where the next generation of the nation's leaders formulate their beliefs. Therefore, the right to free speech in our nation's tertiary schools shall be considered greater, freer and more precious than most other places. No post-secondary school shall establish its own policies limiting free speech, especially with regard to political debate and the things said by their faculty. Schools are supposed to be places where a wide range of fringe ideas, even crazy ideas are expressed for the next generation to sort through. It shall be considered felony democide when any tertiary school administrators punish, intimidate, or expel any faculty member or student for their non-violent expression of free speech. The penalty for democide on a tertiary school campus shall be up to 10-years in prison. This is intended to make our nation's school administrators quake with fear when they even go close to depriving our nation's thought leaders of their all-important right to free speech.

R'129. UBIQS

1/ An Ubiq is someone that created something valuable for all of society as judged by the Sub-Senate. The reward for this creation shall be both various levels of official Senate-bestowed Ubiq status and money.

2/ Ubiq status shall never be awarded for athletics, music, poetry, art, architecture, fiction, fictionalizations, fictionalized history, acting, theatre, or any other frivolous activity.

3/ In order to rapidly propagate our Ubiq gene-pool, the Senate shall look for people who have advanced mankind in the past, even as part of a team, and grant them certain amounts of Ubiq status.

4/ For all drugs, and where the Senate is still hoping for a better way, the Ubiq payments shall generally be paid out annually. Where the Senate regards a solution as total and complete, the Ubiq payments shall generally be paid as one lump sum.

5/ The Senate shall audit all claims of Ubiq status and it shall be a felony to impersonate an Ubiq or a Senator, just as it is a felony to impersonate a police officer.

6/ All Ubiq payments and all profit rights from authors and inventors shall be sacred and these shall not be taken away for any reason. No debtor, no court judgement, no tax liability, no contract, no child support, no government fine shall ever have the right to claim Ubiq income from inventions or authorships. Even those in prison shall have their Ubiq and authorship monies held for them until their release, or death. Also, all Ubiqs can bequeath their unspent Ubiq money outside of the tax system.

7/ When the Senate declares an innovation emergency, it can award double, triple and even 10X Ubiq rewards for the emergency area.

8/ The Senate shall focus on rewarding creators for hard work. Rewarding publishers and promoters shall not be a consideration. No publisher or non-author shall ever receive any Ubiq money.

M — FREEDOM

R'130. DEBT

1/ No citizen shall ever be jailed, forced to serve in the military, or otherwise deprived of their freedom on account of bankruptcy, civil court liability, or unpaid debt, including child support. To do otherwise is the way of slavery, and this nation stands diametrically opposed to all forms of slavery.

2/ Debt being an ancient tool of economic parasitism and slavery, government shall not institute policy or taxes that incentivize the people to become debtors. Quite the opposite, government policy shall incentivize and encourage people to minimize their debt.

3/ Lenders shall not be allowed to advertise and encourage the people to go into debt. Lenders who advertise and encourage the people to go into debt shall suffer significantly reduced rights to the repayment of the money they have lent.

4/ Lenders shall not be allowed to pay any commission or incentive to those who prepare or bring them business. Lenders that engage in this practice shall suffer reduced rights to the repayment of the money they have lent.
5/ Intentionally damaging collateral before a repossession shall be seen under the law as a sort of theft, a prison crime, if the damage is large and certainly not an accident. If we don’t say this, we as a society get so much waste for absolutely nothing.
6/ Debts to one's employer shall be unenforceable under the laws of this nation. Nobody shall ever come to be in debt to their employer for any reason, and those who dupe the ignorant into such an idea shall be considered enslave under the law.
7/ Nobody shall ever come to be in debt because of the actions of others including the actions of parents, siblings, or relatives. Those who dupe the ignorant into such an idea shall be considered enslave under the law.
8/ New debts over 1-week's wages that are not recorded by a county recorder's office shall not be enforceable under the law.
9/ Household furnishings and non-luxury clothing and financial accounts totaling less than 24-month's wages, plus 6-months per dependent child, may not be seized to pay any debt. All accounts, jewelry, and luxury products and real estate of value may be seized to pay a debt.
10/ The Senate shall set a ceiling for interest rates and loan fees to protect the people from predatory lenders.
11/ All written and recorded volwist vows of limited wealth shall be just as binding as a bankruptcy judgement where the public is the creditor.
12/ Debts cannot transact for less than 1/6 of their face value.
13/ No person shall ever be forced to make good on the financial obligations of their parents, grown children, or siblings, unless they signed a third party debt guarantee agreement.

R'131. FICTIONAL CITIZEN RULES
1/ The freedoms of this land exist for the benefit of real people. Fictional citizens may only share in those freedoms so long as they don't impinge upon the rights of real people, or cause harm in other ways.
2/ The only rights that fictional citizens have under this Constitution arise from the rights of their citizen shareholders. Under this Constitution, fictional citizens themselves do not have any inherent rights, and may be killed and plundered of all their assets by the Senate if the long term benefit of the people is served.
3/ We shall always be on guard that our fictional citizens, mere legal conveniences, are not abused by foreign interests as a facade. The previous constitution suffered hugely from this problem.
4/ Fictional citizens shall not lobby government or spend money to sponsor or produce any media that attempts to shape the beliefs or habits of the people in ways that are unrelated to selling their products. Fictional citizens shall not try to influence political, social, or economic policy. Absolute legal compliance shall be required from all fictional citizens in this matter, and those not in compliance shall suffer heavy public dilutions of their ownership equity for polluting the environment of the public discourse.
5/ It shall be considered election fraud when directors and employees of fictional citizens use company assets on trying to influence political, social, or economic policy.
6/ Our first and foremost right to free speech by flesh and blood citizens is all-important to the functioning of our informed democracy and to maintaining of our freedom. On the other hand, fictional citizens are mere conveniences. One thing is all-important to the people, the other thing is trifling. We shall not allow fictional citizens to impair the rights of real people in any way with respect to our citadel human right of free speech. Thus the right of a business to be inoffensive to their customers shall be considered trifling in comparison to the all-important right of its human citizen employees to express their opinions and live their life in their free time. Fictional citizens and their managers shall not discriminate against, or punish citizens for off-work political activity or protesting that the worker has not connected with their workplace.
7/ Except for the apportionment of ownership and voting rights, and the marketability of shares, there shall be no tax benefit or legal benefit for operating as a fictional citizen.
8/ Because fictional citizens are essentially immortal, they have an advantage over real citizens in that they do not have to pay death tax. To counteract this advantage and loophole, we shall have it that all fictional citizens shall pay a 3% annual wealth tax on all assets in the form of an annual incremental stock dilution. The foregoing shall apply to for-profit as well as non-profit fictional citizens.
The Over-Senate may adjust this amount with a 2/3 majority.
9/ No human or fictional citizen shall evade the death tax through any legal or financial machination.
10/ When government lends to fictional citizens, it shall charge the fair rate of interest. If the fictional citizen cannot either repay their debts or their taxes, then the shareholder equity shall be diluted. In some instances, all non-public equity in the fictional citizen may get wiped out.
11/ When fictional citizens receive great public largess, they shall become the property of the people in proper proportion. Fictional citizens that are over half owned by the public shall not issue stock or debt or increase payments or buy or sell assets without the approval of the Senate.

R'132. FC MANAGEMENT
1/ All officers and directors of all fictional citizens shall complete the Senate's anti-corruption module and shall pass the test with a 100% perfect score. After this, we shall strictly hold all FC directors to the rules of corruption.
2/ To prevent the possibility of interlocking directorates, nobody may serve as an officer or director of more than
one fictional citizen they did not found at the same time. However, if a man founds 100 companies, he may serve on the board of all 100 and one more that he did not found.

3/ No publicly traded fictional citizen shall have less than 15 directors.

4/ All fictional citizens shall have at least one director per 500 full time people, and one per 1,000 part-time people working with it.

5/ Fictional citizens shall have at least one director per 2,000 year’s wages of turnover.

6/ When a principal founder of a fictional citizen is CEO, a 60% overmajority of the votable shareholders shall be required to oust him.

7/ We shall not have corporate Matryoshka dolls. Corporations shall not own and vote the shares of other corporations. Thus no mutual funds, or retirement funds, or hedge funds will be able to vote for anything at all with respect to the corporations they own. A corporate family tree must be submitted with each corporate tax return. This shall include all human owners.

8/ If people were not jailed over accusations, or they are out of jail awaiting trial, their employers shall not discriminate against them. Likewise with company directors and Senate candidates. Fictional citizens shall be prohibited from acting on the mere accusation of illegal conduct. They must instead rely on rulings.

9/ Those who have been convicted of a felony, those who have worked as a lawyers, those who have not completed tertiary school, and non-native citizens shall not be directors or officers of fictional citizens they did not found or co-found.

10/ The salary and bonuses of all fictional citizen directors and officers shall be expressed as a multiple of the average national wage. No fictional citizen officer or director shall receive annual pay exceeding 50 times the average wage.

11/ The directors of fictional citizens shall not get stock options. It is the workers and managers that are supposed to be motivated by stock options, not the directors.

12/ No group working for others shall be considered competent to adjust their own wages or other compensation. All changes in compensation for company directors and officers must be approved by a vote of the shareholders, or they shall be considered fraudulent.

13/ The officers and directors of fictional citizens with more than 15 owners shall not do business with the fictional citizens they manage.

14/ For all fictional citizens, all board meetings, borrowing, spending, contracts, and all corporate secretarial documents shall be recorded with the country recorder's office in real time. All fictional citizens shall be registered with at least one county recorder. Large fictional citizens must be registered with multiple redundant recorders.

15/ Each year, all fictional citizens, including non-profits, shall be audited and the market value of their purchases and sales and assets shall be assessed.

16/ Fictional citizens shall not be allowed to purchase goods and services subject to luxury taxation.

R’133. FCS AND COMPETITION

1/ The people shall have the right to competitive markets and to markets with enough participants to assure competition. Where competitive markets are impossible and there must be a monopoly, this monopoly must be run by the Senate.

2/ A number of unfair trade practices shall be prohibited between ostensible competitors. These shall include: collusion, price fixing, discriminatory pricing, dividing-up territories of operation, exclusive dealing, output restrictions, paying people not to compete, taking money in lieu of competition, preferential treatment, and refusal to trade equally.

3/ Government shall err on the side of smithereening all monopolies it breaks up. Smithereened corporate parts are not allowed to engage in mergers or acquisitions.

4/ All penalties for violations of anti-trust laws shall be paid in the form of diluted shareholder equity in favor of the national government. These government rights may be sold immediately or over time, or kept forever by the people.

5/ All fictional citizens must have open public bidding on public bid boards for the contracts they let. If there is a need for confidentiality or secrecy the FC must hire full time workers.

6/ We shall work to reduce the size and power of the largest fictional citizens in our land. For-profit fictional citizens with over 200,000 people shall pay an added corporate sales and turnover tax of at least 2%. Those with over 50,000 people shall pay a tax of at least 1%. Those with over 5,000 people shall pay a tax of at least 0.1%. The Senate may impose higher sales taxes on large companies if it elects. It may also impose different sizes for its tax brackets.

7/ Government shall impose special industry specific sales taxes on large vendors whenever it elects that having a large and diverse free market will be better over the long run than using a few scaled-up operations.

R’134. FCS AND CONSOLIDATION

1/ Government shall do nothing to encourage industry consolidation, and must discourage industry consolidation.

2/ Ownership of the nation’s 2,000 largest fictional citizens and their debt shall be reserved for the Flesh and blood citizens of this nation.

3/ All mergers involving the nation’s 2,000 largest fictional citizens must be approved by the Senate.

4/ Fictional citizens shall not be allowed to own the shares or debt in other fictional citizens, except in the 90 days before and after a merger or purchase. All assets not merged within 90 shall be forfeited to government.
5/ All fictional citizens shall be monads, and none shall own any other fictional citizen, in whole or in part, except in the 90 days following a merger or purchase. There shall be no corporate subsidiaries, or parent corporations, or holding companies. Such relations are not for the benefit of the people, but to hide the harm done to them.

6/ When fictional citizens grow bigger, they shall pay higher taxes for both their larger operating size and their acquisitions. When they spin-off units, or break themselves up into completely independent companies, there shall be no tax consequence for this de-consolidation. As well, the smaller fictional citizens may be subject to lower corporate tax rates.

7/ To slow industry consolidation, our nation shall tax corporate takeovers and mergers. When a fictional citizen is taken over, or merged and when businesses sell part of their organization, or capital assets to their competitors, government shall get at least 15% of this money as a tax on mergers and consolidation.

8/ Fictional citizens shall not conglomerate unrelated industries.

9/ Government shall not pay any inconvenience value when it con-dems the assets of fictional citizens.

R’135. FCS AND EMPLOYEES

1/ Non-cash employer benefits were previously a legal way to cheat the tax system. We shall go in the opposite direction and say that the sales tax assessment for non-cash benefits shall pay 4% over assessment. This includes rent discounts, credits for company stores, and all health benefits for non-job-related healthcare. In the few places where these are genuine, they will pay the small increment. Where these are fake, the higher assessment will drive the benefits towards cash.

2/ The following types of housing shall have no taxable value:

a/ Dormitory style worker housing where 4 or more workers share a room.

b/ Employer-provided worker housing for full-time workers in remote facilities up to 25-sqm.

3/ It shall be a crime for managers to coerce their citizen employees politically, or to discriminate against citizen employees for the political views they express as disassociated individuals while they are off the clock.

4/ It shall be a crime for managers to discriminate against citizen employees on the basis of unproven accusation of criminal activities outside the workplace. All citizens shall all have the right to be considered innocent until proven guilty with respect to employment.

5/ In this rule, this R’139, the term employee shall include all students, all association members, all parishioners, and all members of all religions.

6/ People shall not have the right to be overtly sexual, racist, or political while at work, or to act in a sexual, racist, or political way that makes numerous others feel uncomfortable, be they customers or co-workers.

7/ Employee profit sharing shall be mandatory and automatic in this nation for companies with over 100 employees, as it costs little on net to give a sliver to the employees. Automatic profit sharing for startups shall be 7%, for mid-life companies it shall be 3%, and for old companies it shall be 1%. Companies shall be free to offer more than this, and companies with big profit share payouts do not need to offer such high base pay. This profit sharing shall not apply to the proceeds generated when a company or a division is sold.

8/ In order to minimize the cyclicality of the economy, all employee profit sharing and all annual bonuses to employees shall be paid at the start of the second teneth.

R’136. FC STOCK AND VOTING RIGHTS

1/ Every time a publicly traded company sells shares, the people shall get 2% of the revenue as a form of underwriting fee.

2/ All ownership shares in all corporations shall dilute upon the sale of more shares, and none shall be exempt from this.

3/ There shall be only one class of shares in all corporations. All share preference is hereby void.

4/ Everyone who manages a publicly traded company, their kith and kin, and everyone who owns more than 1 per mil of a publicly traded company must schedule their stock, bond and options transactions involving that company in advance with the SEC by more than 6 days. Those who own more than 2 per cent of a publicly traded company must schedule their purchases, sales of stock and options by more than 12 days in advance.

5/ No shareholder voting rights shall exist when shares are owned, optioned, or otherwise controlled by the following groups.

a/ By mutual funds.

b/ By fictional citizens.

c/ By people unable to vote in this nation’s elections.

In all such cases, the Senate shall automatically have the right to vote these shares as the proxy of the owners. There shall be no other assignments of votes or proxy voting in any fictional citizens.

6/ All investors in the stock of all companies shall be able to assign their proxy to the Senate.

R’137. GOVERNMENT POWER OVER FCS

1/ Fictional citizens are fictional things that have been delegated powers by the people of this nation for the benefit of the real human citizens of this nation. If the people are not benefitting, or they are suffering abuse from the existence of a fictional citizen, then government may:

a/ Kill the FC and nationalize its assets.

b/ Dilute the equity of FC.

c/ Break-up or smitheren the FC, selling-off each of its facilities separately and handing the proceeds to the shareholders as their cash out payment.

2/ The Over-Senate shall have absolute, total, at-will, life or death power over every fictional citizen in the nation. If
the Over-Senate elects with a 2/3 overmajority that any fictional citizen shall be nationalized, then it shall be nationalized with no payment to its shareholders. After this, all shall be bound by the Senate's election with respect to that fictional citizen. The Senate shall have no obligation to pay anything to any fictional citizens or their owners. The Senate's only obligation is to make sure that future honest investors are not scared away from making investments.

3/ The national Senate shall have to right to break-up or partition fictional citizens when it elects that the people will benefit from such partitioning over the long run. This shall apply to for profit enterprises as well as non-profit organizations. When the Senate breaks up for-profit fictional citizens for abuse of monopoly power, it may also assess a reasonable deter-hence penalty in the form of a dilution of equity benefitting the public purse. The Senate may also compel the multiple repayment of all monopoly and cartel extractions.

4/ There shall be no court held competent to judge the will of the Senate in any matter, including matters related to the nation's fictional citizens.

5/ All Senate inquiries of fictional citizens shall be judged by Senate juries of appropriate size for the fictional citizen's gross income.

6/ Senate oversight management of fictional citizens shall primarily exist to prevent corruption and parasitism, but it may also work to improve the overall level of management.

7/ Government shall be free to sell-off its shares in fictional citizens at any time. However, government should sell its shares slowly and in small chunks so as not to inflame the market, and so that the people can maximize the value on their equity.

8/ All fictional citizens have an obligation to be responsible members of the national economic ecosystem. When fictional citizens behave like parasites, or when they abuse consumers, free markets, the environment, or investors; that is when they start losing the right to exist.

R'138. ALL WEALTH REVERTS TO THE PEOPLE

1/ Only the Senate and people may operate economic drains in our nation. All reversion rights shall belong to the people and the government they establish for themselves.

2/ High inheritance taxes are a critical part of the people owning all the drains in their economy. No citizen real or fictional shall be allowed to avoid or get out of paying death taxes.

3/ Because we don't want to give fictional citizens any advantage over real citizens, they must pay death taxes at a rate that is equal or faster than the average human lifespan in business.

4/ Ishtar is the main supporter of generous inheritance rights. Without these rights, many of Ishtar’s rackets cannot function. For example the deathtrap tsunami funnel city racket doesn't work unless the deathtrap land can be held for some generations. Likewise with the farmland at the periphery of the city racket.

5/ There shall be no eternal ownership rights in valuable property, and no private property rights shall live for more than 80-years. After 80-years, all property rights shall revert to the people, and shall generally be re-leased or sold for up to 80-years by the people to raise money for the public purse. Essentially, we are saying that there is no right to inherit real estate over many generations as Mideast-facing dynasties have always sought to have. And because of this there will be much more good property for everyone to use.

R'139. LAND OWNERSHIP AND CITIZENSHIP

1/ Real humans from other UM member nations that reside in our nation's territory shall be allowed to own one reasonably-sized personal residence. Except for this, and real estate owned by our Government, only the real flesh and blood citizens of our nation may own real estate in our nation.

2/ Fictional citizens shall not own land. They may lease real estate for up to 28-years, but they shall not be permitted to own real estate. Also, to be clear, fictional citizens may not option real estate or hold it under any form of contract so that the control period exceeds 28-years in total.

3/ All existing fictional citizen land ownership equity that is not taken over by others in the reapportionment shall be converted to pre-paid triple-net leases of not to exceed 28-years with the county government holding title to the property when it reverts. Once the ownership period is over, the fictional citizen shall pay rent to the county government if the county government agrees.

a/ For mineral real estate and mineral rights a 13-year lease applies.

b/ For agricultural land, a 20-year lease applies.

c/ For retail real estate, a 22-year lease applies.

f/ For factory and storage warehouse, a 28-year lease applies.

d/ For office real estate, a 24-year lease applies.

e/ For residential real estate, a 26-year lease applies.

O — RELIGION & CHARITY

R'140. FREEDOM OF RELIGION IS SECONDARY

1/ In our nation, we offer freedom of religion as a right. However, the freedom to practice one's religion is a subordinate right, subject to the other rights and responsibilities set forth herein. The other freedoms guaranteed by this Constitution shall generally be regarded as more important than our freedom of religion. If there is a conflict with any other paragraph in this constitution, the other clause overrules the religious protections rather than the other way around.

2/ In our nation, we offer freedom of religion as as right. However, the freedom to practice one's religion shall be subject to restrictions intended to keep everyone's
religion from impinging on the rights of other people who believe something else. No religion shall be allowed to make any demands at all on the believers of other religions, or non-religious people. If one religion exalts hogs, and the other eats them, neither shall have any right to make any demands on the other. Both groups must put their differences aside and live together in peace.

3/ To promote peace, harmony, and e-pluribus-unum among the people, all religious clothing and accessories shall be banned at work and at school. Employers, but not schools may grant permission for religious clothing. However they must allow all religious clothing if they allow any of it.

3/ Employers and schools shall not be required to make any accommodation at all for religions, or their beliefs, or take any account at all of any religious holy days in their scheduling. Employers and schools may choose to follow one set of religious holidays over the others.

4/ The freedom to practice one’s religion shall only apply when the religion is genuinely an ideology of peace and the religion does not impinge or seek to impinge on any other right of the people, or public safety, or our ability to defend our land from invasion, or our proposition of freedom. Freedom of religion is not guaranteed to ideologies with a large contingent, anywhere in the world, that advocates hatred, violence, terrorism, war, jihad, or struggle against our freedoms and our public safety. And no religion, no matter how popular or ancient shall be exempt.

6/ We are a nation of lumination and lightness not darkness and secrecy. Freedom of religion shall not be afforded to ideologies that have dark secrets, secret rites, secret initiations, or facilities closed to non-believers. These shall all be called occults or cults.

7/ No public property shall be used for religious services, religious icons, or overt prayers. There shall be no prayer areas on public property.

8/ Religions shall not be free to send money out of our nation either directly or indirectly.

9/ Religions that violate these rules may be declared evil occults and closed down either through the constitutional amendment process, or the variable constitutional clauses included herein.

R'141. CHURCH SEPARATION

1/ There shall be an absolute separation between church and state and economy. No religion or religious group shall involve itself in the workings of government, the political debate, the voting process, the economy, or the public education system.

2/ Government shall obey no religion, and no religion shall be permitted to make any demand on either government or the people.

3/ No religion shall be given any office, embassy, place or meeting with government.

4/ Government shall not establish or support the practice of any religion, or give any money to any religion, either directly or indirectly.

5/ No religion shall be allowed to tell or hint at how its followers should vote. Thus, we shall say that religious entities shall not have the right of free speech. Religious followers may say what they wish, however the religious entities themselves, their priests, imams and head men, shall have no right to free speech with regard to matters of government, the political debate, the voting process, the economy, or the education system. To do otherwise is to allow religions to become a back door to our democracy.

6/ Public property shall not be used or granted for chapels, prayer rooms, or displaying religious icons. No high ground, public or private shall display any religious icon.

7/ No house of worship, religion-owned property, or religious worshippers shall ever emit any sound into the surrounding community. This shall include music, bells, voices, sirens, singing, and prayer calls.

8/ No government official shall ever say any word of prayer, or burn candles, incense, or hashish, or sacrifice the life of any creature for religious purposes.

R'142. GOOD RELIGIONS & EVIL OCCULTS:

To be classified and protected as a religion, the ideology must deserve protection, and it must obey the following reasonable rules worldwide. Ideologies that violate any of the following rules anywhere in the world may be declared evil occults, and closed down thorough either the constitutional amendment process, or the variable constitutional clauses included herein.

1/ The religion must be an instrument of peace and brotherhood among men. The religion shall not have a large segment that is hostile to non-believers, or advocates violence, or regularly buds terrorist groups.

2/ The religion and its members must not advocate the end of our dear freedoms, or in any way interfere with the freedoms and rights of other citizens.

3/ The religion's followers must elect their priestly leaders locally and annually, and these must all be native citizens of the nation they lead in.

4/ There shall be no fewer than one priest per 500 followers. These priests in turn must annually elect 1-in-10 of their own as a priestly administration for the religion this nation. This elected priestly administration shall act as the ultimate arbiter for the religion in our nation, making all the deistic and business decisions for their religion in this nation.

5/ There shall be no election by appointees anywhere on earth in any of the nation's protected religions.

6/ The religion shall not be of secrecy and darkness. It shall not have closed meetings, secret rites, secret literature, or closed libraries. The religion shall not have services closed to non-believers.

7/ All services and activities shall be conducted exclusively in the national language, English. The use of Latin, Greek, and Arabic in religious services shall be
prohibited.
8/ No priest or religious staff shall meet in the same private chamber with non-relative minors under age 18 either on the job or off.
9/ No child under age 14 shall receive any religious teachings except in the presence of a parent or guardian.
10/ The people shall have the right to change their beliefs. No religion shall judge, punish, fine, or menace its followers if they choose to leave the religion.
11/ No religion shall ask or track the income, wealth, or consumption levels of its followers, or in any way punish, or call attention to those who do not pay their religious taxes or tithes.
12/ No religion shall not burn anything, or allow anything to be burned or sacrificed in its houses of worship, including candles, incense, hashish-incense, and burned perfumes.
13/ No religion shall call for ritual animal slaughter.
14/ No religion shall not call for special, distinct, or imported food. We do this because of the Mideast's long history of mass poisonings. If the religion eats special food, it becomes much easier to poison non-believers.
15/ The religion shall not seek to reduce freedom in any part of the world.
16/ The religion and its priests in all parts of the world shall not express their opinions about war, violence, the rules of government, or about other political matters.
17/ The religion shall not present non-believers as sub-human or animal-like in any way, or deserving any hatred or violence.
18/ The religion shall not demand that its priests and religious people remain celibate as this is the perfect thing for encouraging a corps of pedophile priests that will do whatever their masters demand like good little thumbsmen.
19/ The religion shall not say or infer that giving money or making sacrifices will in any way atone for evil deeds. When a religion says this sort of thing, it is telling its adherents that they can be evil as long as they pay money to their indulgence religion. Any religion doing this is obviously and hypocritically encouraging the very sins they supposedly preclude.

R’143. RELIGIOUS POLLUTION FINES
The murderous, violent and terrorist acts of religious fanatics anywhere in the world shall belong to their entire religion. To send a message about this sort of religious pollution, the Senate may fine the religion's followers in our nation. The penalties for religious murder and terrorism shall be 100 times the damages normally awarded for wrongful death and injury. If the religion has no money, then the assets of the religion's followers shall be seized to pay these fines. If the religion's followers do not have money, then the assets of most recent apostates may be seized to pay these fines. If both the followers and apostates do not have money, then we shall begin deporting immigrants who were once followers.

R’144. CHARITIES AND MONEY
1/ The Senate shall maintain intake accounts for when the people donate money to the various charitable and non-profit enterprises of the nation. If both the source and the payee conform to Senate standards, the Sub-Senate shall apportion and disburse 99% of this money to the account it was donated to. The 1% fee will be mostly used to pay for the sort of detailed and regular auditing that will both encourage the people to give more money to charity, and keep our non-profits strictly honest. This auditing shall verify that the charitable donation was neither diverted, nor spent on overpriced things.
2/ The term charity herein shall refer to all forms of non-profit fictional citizens. This shall include all religions, churches, foundations, trusts, schools, universities, research facilities, associations, clubs, and all other nonprofit organizations.
3/ Non-profit organizations, like all fictional citizens shall be prohibited from owning real estate. All charity owned real estate is hereby nationalized. All charities shall be allowed to continue using buildings that are used by a reasonably large number of parishioners to meet, and government shall charge no money for this.
4/ There is no need for charities to hold real estate outside of cities, or large tracts of urban real estate, or farmland, or mines, or urban parks, or factories, or apartment buildings, or shopping centers, or warehouses, or office buildings. All such charity owned assets shall be nationalized and the property of the county.
5/ Non-profit organizations shall not hoard wealth. nor shall they be allowed to control real estate or other property that is either unused, underused, rented-out for income, or rented-out for free.
6/ In our nation, the basic administrative unit for government regulation of religious charities shall be the individual house of worship. Each house of worship shall be treated as separate charity and each shall be run by a separate democracy run by the local parishioners. For this reason, we can have it that no church shall manage more than 5,000-year's wages in assets, and any charities with more than this amount must be divided. Also, no charities shall be allowed to hold assets worth more than 8-year's operating expenses from one year to the next.
7/ No charity shall accept direct or cash donations. All money and property given to charities shall be taken-in by Government and then disbursed to the charity. Government shall assess the value of non-money donations, and make them available to the intended charity within 30-days, unless they must be liquidated first.
8/ It shall be a felony for the employees, officials, or priests of any charity to receive, take-in, or touch donations that have not come via government's donations tracking mechanism. It shall be a misdemeanor to give money outside the government's donations tracking
mechanism.  
9/ When religions and religious people selling indulgence or forgiveness for crimes, they shall be considered as co-conspirators in the crimes committed by the people buying the indulgences. It shall also be considered the crime of fraud for religious people to take money in exchange for forgiving an adherent’s violation of religious commandments. This is in addition to the felony of taking in religious donations outside the government’s donations tracking mechanism.  
10/ No commercial activity shall occur in our directly outside any place of worship. No religion shall engage in business or commerce of any sort. No religious charity shall engage in commerce, or sell religious products of any sort including incense, candles, wafers, food, figurines, icons, stained glass, prayer rugs, prayer beads, jewelry, clothing, books, and indulgences for sins. No religious charity or its staff shall lease-to, partner-with, or point-out other parties engaging in these activities.  
11/ No religion shall have approved, sanctioned or sanctified vendors. No religious charity based on religion with respect of its vendors.  
12/ Government shall divide charities into four types, florafauna, religious, humanitarian, and knowledge. Government shall tax all donations to florafauna and religious charities by at least 25%. Government shall not tax donations to knowledge or humanitarian charities. The taxes from florafauna charity donations shall be paid to humanitarian charities. The taxes from religious charity donations shall be paid to knowledge charities.  
13/ To incentivize the efficient use of assets, all charities shall pay the prevailing taxes like everyone else. They shall pay taxes on the real estate they use, just like any other property user. They shall also pay the prevailing consumption, income and wealth taxes like everyone else. Government shall not give any tax reductions or deductions either to charities, or to those donating to charities.  
14/ Government shall not maintain or renovate any buildings or other assets for any religious charity.  
15/ Charities shall not buy advertising, imported goods, sacraments, incense, stained glass, luxury goods, expensive icons, expensive artworks, handmade rugs, or expensive relics.  
16/ No money belonging to any house of worship shall be spent or given away without a majority vote from the parish’s following and according to a plan created by the parish’s own local following.  
17/ Charities shall not overpay for goods, contracts, or staff. All charity salaries and expenditures are subject to Senate oversight.  
18/ No religion shall charge for its services or require any payments or donations from its members. No religion or priests shall charge for services, or for non-attendance.  
19/ No new single house of worship shall hold more than 500 parishioners at any one time.  
20/ Government shall encourage parishes to share houses of worship between various religions. This will firstly save money and secondly help build brotherhood.  
21/ We cannot prohibit religions from making unprovable claims about preferential treatment in the afterlife. However, we can and should limit their ability to profit from these claims. All valuables paid to a religion either near death, or as a bequeath, shall be presumed to be buying a stairway to heaven. All such stairway to heaven gifts shall be subject to the highest rate of death tax.  
22/ All fictional citizens, and especially all charities shall file quarterly statements of income and balance. All charities shall be audited annually by government, the cost of which shall be reimbursed to by the charity. Special attention shall be paid to making sure the charity is buying the right things, and not over-paying for them. Secretly profiting from the expenditures of a charity or a fictional citizen shall be a felony.  
23/ Government money shall not be given to religions or religious charities, or to people working for religions or religious charities.  
24/ Except with Senate approval, no more than 10% of the budget of any charity shall be spent on administration and expenses. The other 90% must be given away or used for the purpose the charity was created for.  
25/ To assure that the holy men of our nation are not it for the money, we shall:  
a/ Cap the income and wealth of all priests and employees of non-profit organizations.  
b/ We shall say that no priest, or non-profit employee shall:  
c/ Make annual income over the average national wage including income from all sources.  
d/ Have wealth over 25-year’s wages. (This amount may be further limited by Senate election.)  
26/ Any hiding of income or wealth on the part of non-profit staff shall be punishable as tax fraud. The forgoing shall apply to all priests, and everyone working in or for a non-profit organization.  
27/ Religions shall not provide their priests and religious officials with accommodations. These people must own housing at arms length on the open market with their own money. Parishioners may however allow priests to stay in their homes, and eat their food.  

O — IMMIGRATION  
R’145. CITIZENSHIP INTRODUCTION  
1/ With respect to citizens, immigrants and visitors, there shall be 9 classes of person in this nation:  
a/ Native citizen (dark blue)  
b/ Immigrant citizen (turquoise/teal)  
c/ Provisional citizen (light blue)  
d/ Immigrant-worker (dark green)  
e/ Non-immigrant worker (light green)  
f/ Visitor, or tourist (yellow)  
g/ Refugee/ asylum seeker (orange)  
h/ Exhod (dark orange)
i/ Illegal alien, or illegal alien (bright red)
x/ All of these 9 classes shall be considered immigrants except native citizens. Classes a, b and c shall be considered citizens, the other 6 classes d, e, f, g, h, and i shall be considered non-citizens. Each class shall have a different color of ID card if they are issued an ID. The colors listed shall be of the most vibrant colors possible. This is so people will instantly know everyone’s immigration status.
2/ A native citizen is someone that was born in this nation that spent a sufficient amount of their lifetime in this nation as follows:
a/ When both parents (both the genetic parents and the raising parents) are native citizens, The child does not need to spend any time living in the nation to automatically get the full rights of a native citizen.
b/ When both parents are immigrant citizens, or provisional citizens of this nation, the child must spend at least 1/5 of his life in this nation prior to his 18th birthday to automatically get the full rights of a native citizen.
c/ When one genetic parent is not a citizen, the child must spend at least 1/2 of his life in this nation prior to his 18th birthday to automatically get the full rights of a native citizen.
d/ When no genetic parent is a citizen, at least 96% of the child’s life after their 4th birthday must have been spent in our nation to automatically get the full rights of a native citizen.
e/ When both parents (both the genetic parents and the raising parents) are native citizens, The child does not need to spend any time living in the nation to automatically get the full rights of a native citizen.
f/ When both parents are immigrant citizens, or provisional citizens of this nation, the child must spend at least 1/5 of his life in this nation prior to his 18th birthday to automatically get the full rights of a native citizen.
g/ When both parents are immigrant citizens, or provisional citizens of this nation, the child must spend at least 1/5 of his life in this nation prior to his 18th birthday to automatically get the full rights of a native citizen.
h/ When both parents (both the genetic parents and the raising parents) are native citizens, The child does not need to spend any time living in the nation to automatically get the full rights of a native citizen.
i/ Illegal alien, or illegal alien (bright red)
j/ Opposes our nation, or our dear freedoms, or...
b/ Engages in secret struggle or jihad, or,
c/ Attempts to manipulate our minds, or,
d/ Condone slavery or sex slavery,
shall have no right to enter our land of the free.

R'148. VERIFICATION OF CITIZENSHIP
1/ As long as there is human privation in the world, and as long as freedom has its enemies, the very proposition of freedom is potentially endangered by infiltration, illegal immigration, and cloned identities. It is unfortunate, but in order to preserve our freedom and security as a nation, there must be some minor compromises with regard to our individual freedoms, to make sure that a foreign invasion or overthrow force is not secretly being built within our nation.
2/ It is folly to rely exclusively on external border controls. Therefore, all citizens and visitors shall be required to register and use a national biometric ID verification system. The national ID system shall be required whenever voting in Government or private sector elections, and whenever obtaining government services, financial services, employment, housing, using a county recorder, paying taxes, flying, crossing the nation's external borders, or creating a binding contract in many sections of the economy. It may also be required when moving between regions of the nation.
3/ Everyone entering and leaving the nation shall have their biometrics checked and perhaps recorded by the immigration police. The term biometrics may be expanded to include head photographs, palm prints, iris scans, voice recordings, weight, height, face recognition systems and other similar non-invasive scans of our bodies.
4/ Police may stop anyone in the nation for a single brief small talk question, to see if they speak the national language like a native citizen when they reply. Those who can't reply like a native citizen may be asked for proof of immigration status.
5/ Immigration police may regularly, randomly, and without notice visit and inspect all public places, and workplaces in the nation searching for illegal aliens. Immigration police shall however, not have the right to enter residences to look for illegals, except by court order.
6/ Those stopped for an immigration check shall only be questioned about immigration matters, unless indisputable evidence of a felony is discovered in that stop.
7/ Except to prevent infiltration, and illegal immigration, government shall not racially profile the people.
8/ Everyone arrested as an illegal alien shall be given monitored 24-hour unlimited access to domestic calling, emailing and public records while in custody and awaiting trial. This is so citizens and legal immigrants will have every opportunity to identify themselves as a legal before being charged with illegal immigration.
9/ There shall be no right to release pending trial for illegal immigrants.
10/ Those convicted of illegal immigration shall spend no less than 3 years working 60-hour weeks at an immigration work camp before being deported. However, if they can provide video evidence to convict at least one of their illegal employers, even an odd-job employer, they shall be released immediately upon the conviction of their illegal employer. Those twice convicted of illegal immigration shall spend no less than 12 years working 60-hour weeks at an immigration work camp before being deported.
11/ The following shall be felonies, and violators shall spend up to 20-years in an immigration work camp:
   a/ Those who conduct and bring illegal immigrants into this nation.
   b/ Those who produce, distribute, or sell forged or cloned immigration or citizenship documents.
   c/ Those who return to this nation illegally after being deported.
12/ The following shall be a felony and violators shall spend up to 10-years in an immigration work camp:
   a/ Those who use forged or altered immigration documents.
   b/ Those who use someone else's passport or immigration documents.
   c/ Those who knowingly harbor or give sanctuary to an illegal immigrant. Here the penalty shall apply to each illegal immigrant.
   d/ Those who employ or house illegal immigrants. Here the penalty shall apply to each illegal immigrant.
13/ There shall be no parole or early release for immigration violations. All illegal immigrants shall be deported immediately upon release from incarceration or work camp.
14/ For illegal immigrants already in the nation on mustering day, if they register within 30 days with the nations' immigration department, they shall suffer no penalty arising from their illegal immigration for one year, provided they comply with the subsequent directives of government, and live at the addresses they declare to government.
15/ Every person entering or leaving our nation may be:
   a/ Photographed and recorded by the immigration department.
   b/ Required to give fingerprints for scanning
   c/ Required to go through a metal detector, or body scanner.
   d/ Required to submit an iris scan
   e/ Required to answer the questions of the immigration and customs people.

R'149. ILLEGAL IMMIGRATION
1/ Illegal aliens shall neither create, nor be the subject of a binding contract or insurance policy.
2/ Employment of illegal aliens shall be understood to include all part-time and odd-job employment. It shall also include all forms of landscaping work, agricultural work, housekeeping work, construction work, restaurant work,
building maintenance work, factory work, independent contractors, commission salesmen, and even the lending of things for sale.

3/ If an illegal alien:
   a/ Is injured at work.
   b/ Causes fines, or third party liability while working or while coming from employment.
   c/ Causes third party liability from a vehicle accident while employed or coming from employment.
   d/ Needs medical care, or causes someone else to need medical care.
   x/ Then all liability shall fall back upon the employer of the illegal alien if employment can be proven.

4/ It shall be considered tax evasion to pay money or valuables to workers in this nation without doing all of the following:
   a/ Registering the person as a worker with government.
   b/ Pre-paying the repatriation deposit for that worker, if any.
   c/ Pre-paying the foreign worker tax, if any.
   d/ Paying the worker's remuneration into the worker's cash card account administered that is tracked by the immigration department. There shall be no privacy with regard to these worker cash card accounts of non-citizens and the immigration department and police may examine them without a warrant.

5/ Driving licenses, vehicle registration and vehicle ownership rights shall only be available to citizens, and to legal foreigners for the length of their permission to stay.

6/ All police and government officials shall be required to defend the nation from illegal migration. Immigration officers and police shall lose their jobs if they don't arrest all illegal immigrants they knowingly come across.

7/ The government shall maintain an anonymous illegal immigration tip hotline and offer monetary rewards for information leading to the apprehension of illegal aliens.

8/ Non-citizens shall not be allowed to recover more through our nation's adjudication system than they would get in their home country.

9/ The people shall view illegal aliens as a national security and crime threat. It shall be a matter of civic duty and national security to make sure that all immigrants are approved by our nation's new and relatively incorruptible democracy.

10/ Deported illegal aliens shall lose all assets and almost all property in our nation if caught. Then they shall be deported with no more than a prison suit and up to 40 hour's wages if they were worth more than this amount.

11/ Those who overstay a tourist visa by a short time shall pay a fine of one day's wages per day they are late up to 10 days. Those who were too ill to travel may be granted an extension after the fact if they have a documented reason. Those who overstay greatly may be sent to work camp.

12/ The government shall limit the financial accounts of all non-citizens. These accounts shall be suspended domestically at the end of the day the person is supposed to leave our nation.

13/ Non-citizens in possession of firearms in public get 20 years in work camp. If at their residence the penalty shall be 10 years. Non-citizens in possession of explosives, bio-toxins, weapon chemicals, or nuclear material for which there is no credible explanation shall be subject to the death penalty under torturous punishment. Non-citizens participating in mob-violence or mob confrontations shall be subject to 20-years in prison and deportation.

14/ There will no longer be any question of whether someone is legal or not. Each county recorder shall guarantee identity, photograph, immigration status, conviction history, judgement history, employment history, educational history, address history, and work qualifications.

15/ Illegal immigrants that cannot provide a nation of origin and identity shall be presumed to be fugitives from the law and shall be subject to eternal work camp until they can provide both identity and citizenship.

16/ Our government has been corrupted and made to accept a great many more immigrants that it should have in order to fuel a real estate bubble that fueled a parasitic feeding mechanism. The following groups may be deported at the option of the Senate, even if the previous government had granted them citizenship:
   a/ Immigrants that have not both made a reasonable living for themselves and paid a reasonable amount of taxes on that living.
   b/ Immigrants with a substantial amount of wealth that is beyond what could be afforded by the income they reported on their tax filings.
   c/ Immigrants that have received government aid that is greater than or at least half of the taxes they have paid.
   d/ Immigrants that have outstanding warrants against them.
   e/ Immigrants that have criminal convictions, or were arrested many times, or who are homeless.
   f/ Immigrants that were granted refuge or asylum, these conditions now being considered temporary.

R'150. WE OWE THEM NOTHING

1/ Most fresh Mideast immigrants that have any elevated place, valuable franchise, or celebrity in our land have been working to help Ishtar and harm the Pro•men•thean agenda we in this nation hold dear.

2/ It is not uncommon to shoot enemy agents, enemy spies, and enemy conspirators. We are therefore within our rights to lock these people up, or bankrupt and deport them. We owe these people nothing at all.

3/ The massive influx of immigrants is obviously contrary
to the will of the people and the result of corruption. It may therefore be judged fraudulently obtained and voidable at the election of the Senate. And just as stolen or fraudulently obtained property may be demanded from its rightful owner after decades, so too may stolen or fraudulently obtained immigration status.

6/ There shall be no equal treatment requirement for those who are not native non-citizens. People who are not native citizens, or not any sort of citizen, may be treated differently from those who are native citizens.

7/ The period of rapid and easy progress towards ending discrimination is over in our nation. All the big and easy benefits of affirmative action happened in past decades. Therefore, all systems of racial, ethnic, sexual, and disability preference or quota, stated or unstated shall be abolished and prohibited in our nation. This shall be so for government, for all fictional citizens, and for all institutions (including all schools) in the land. All must simply take the most qualified applicants.

8/ Over-representation or under-representation of any group shall no longer be seen as evidence of racism.

9/ In this nation, we highly value isocracy, or the fundamental legal equality of man. It is our main argument against both a king’s rights over his subjects, and one race’s rights over another. It is also our main argument against slavery, and a basis for our economic system. Thus the fundamental equality of man is a foundational and hugely important thing in our system. Nonetheless, this right of isocracy is still less important than our all-important right to free speech. We must all be able to discuss the truth, and to know what everyone thinks, or we will have a blind and misinformed democracy, and equality will not matter much then.

10/ Because national origin, race, ethnicity, and religion are such a vitally important aspects of immigration, we much be able to freely talk about them in the context of immigration. Therefore, no law, or private rule in our nation shall limit the right of the people to discuss national immigration, and in a way that does not threaten or call for extrajudicial violence.

11/ Freedom of speech is critically important to a democracy, while the honor of its citizens matters little in comparison. Therefore, citizens shall be free to hurl the worst insults and obscenities at one another, and they shall not be penalized in any way for it unless they are threatening or calling for extra-judicial violence.

12/ Equal protection under the law shall not mean special protection for the weak or disabled, and these shall have no greater rights than everyone else. The benefit being microscopic in comparison to the cost, government shall not require the people to make any provision for the disabled minority in their buildings and businesses. All existing facilities for the disabled minority on private property may be removed without government permission unless they involve structural modifications.

13/ People in wheelchairs shall be expected to use their own personal vehicles to get around. No provision shall be made for wheelchairs in the public transit system. No braille bumps shall be provided on the floor of any public space. All transit stations shall however have electronic location beacons for the visually impaired, and reasonable grappling devices and ramps for wheelers.
droids and baby prams.

14/ Government shall not squander its money and energies trying to build dykes against the oceans or trying to de-segregate native citizens. The people shall however be asked to de-segregate themselves by electing the smartest people (that are trustworthy) to the Sub-Senate regardless of their race or ethnicity, or how long they lived in the neighborhood.

15/ The Over-Senate shall decide by sophoscite which nations, regions and belief systems it will honor and befriend, which it shall remain neutral about, and which it shall dishonor and scorn. Our land of the free shall be prohibited from honoring or remaining neutral about nations and belief systems that permit, fund, condone, or sponsor totalitarian government, monarchy, slavery, terrorism, harem-slavery, child marriage, forced marriage, or genital mutilation, or any Ishtar-supporting practices.

16/ Nations that discriminate against females in matters of civil rights, education, property ownership, divorce, and ability to leave the nation shall be conclusively considered as having pro-slavery laws. As well, nations where women risk assault or arrest for going out by themselves, or for failing to cover their heads, arms or legs, shall be conclusively considered as having pro-slavery laws.

17/ If the Over-Senate declares that our nation is at war with any nation, ethnic group, religion, or clan, then the Over-Senate shall have the right to discriminate against, expel, inter, or incarcerate all provisional citizens and immigrant citizens from that nation, ethnic group, religion, or clan, as well as their minor children. However, this shall not apply to the children of immigrant citizens that are native citizens and over age 15.

18/ Tobacco users shall not be considered a protected group, and they may be discriminated against freely by both business and government. Employers may require that tobacco users work longer hours to make up for their tobacco breaks if they take tobacco breaks.

19/ Government shall not protect the people from workplace discrimination based on age or clear disability that requires special accommodations be made for them.

R’152. NON-CITIZEN RIGHTS AND RESPONSIBILITIES

1/ We shall err on the side of fastidiousness with regard to protecting citizen rights. But in order to do this in every way possible, we must also err in the opposite direction with regard non-citizen rights. Concession is a modality, and we shall never even start down the path of concession with any immigrant group. They come to us, as individuals, and they adopt our tolerant and totally peaceful ways as individuals.

2/ Immigrants and especially Exhods shall not be free to dress in their own particular way. They must dress like the people of our nation, and they can’t use tell colors, bandanas, veils, headscarves, beards, haji caps, Yarmulkes, accessories, or the like to distinguish themselves as: with the old country. Such clothing preserves a separate immigrant community identity and thus slows the assimilation process. We want to go in the opposite direction and speed up assimilation. Immigrant identities shall be tolerated by our nation, but discouraged wherever practical. And here with clothing, we have a place where we can easily and powerfully discourage separate immigrant identities. This also applies to weddings and other ceremonies.

3/ We hold our rights and freedoms so dearly that we will never give them up for any group of immigrants, visitors, or foreigners. No foreigners shall ever make any demands at all that we do anything to accommodate their ways or their religious or cultural sensibilities. Immigrants making such demands may have their immigration status canceled.

4/ All immigrants shall be seen as coming to our nation as humble suppliants, and all shall be expected to adapt to our way of life. Our people shall not be expected to alter their way of life in the slightest way to meet the cultural needs of the people we have graciously allowed to come to our land.

5/ It is far better that all immigrants suffer a total loss of their entire old way of life, than we the citizens of this nation suffer any tiny erosion of our dear rights.

6/ Immigrants from nations with tyrannical and slavish cultures shall be expected to give up all of their old tyrannical and slavish ways and sever all ties with their former institutions when they come to our nation, our land of the free. This shall include wearing slave’s clothing, eating special slave’s food, paying slave’s taxes, and publicly prostrating themselves like slaves.

7/ Those who are not native citizens shall not have the right to vote. The language and cultural barrier causes ignorant voting. Loyalty can also be an issue. Also, if immigrant votes are allowed to dilute native votes, then people will tolerate less immigration.

8/ Those who are not citizens shall not have the right to a/ Assemble, engage in protest, or stand up and be counted in our nation.

b/ Bear arms in our land.

c/ Initiate confrontations or act aggressively with the native citizens of our nation.

d/ Commit a string of minor crimes.

e/ Pretend to be non-immigrants or immigrants from a place that is different than where they actually came from.

f/ Join or support political groups, or parties, or try to shape public opinion in our nation.

g/ Privacy with respect to national security snooping on their communications. All communication by non-citizens and provisional citizens is subject to monitoring by government without a search warrant.

h/ Communicate using undisclosed accounts. All non-citizens and provisional citizens shall be required to register all electronic communication accounts they use in our nation.

i/ Irrevocable immigration amnesty. Our new incorrupt government shall have the right revoke any immigration amnesty ever offered by the corrupt preceding
democracy.
k/ Challenge their deportation if they are undocumented, or if they have been in the country for less than 6-years.
l/ Leave our nation and return unless permission to return is granted.
m/ Immigrants that come from, or visit certain troublesome nations may be held to different standards than others.
9/ If the nation ever institutes compulsory military service:
a/ Immigrants shall be 1.5x as likely to be drafted.
b/ Exhods shall be 2x more likely to be drafted.
c/ Haremi shall be 4x more likely to be drafted.
10/ In war, drafted Exhods and Haremi shall be assigned more dangerous point tasks in military assaults.
11/ The people of our nation shall welcome immigrants into their communities. To do otherwise is have them settle together in pockets hidden away from our people, hidden in places where Ishtar is stronger.
12/ Immigrant household shall not settle less than two addresses away horizontally from another family from their old country. This shall not apply to immigrants from nations we share borders with. This shall also not apply to for close family.
13/ If any immigrant group is causing or threatening terrorism, or uprising, then all members of that group shall suffer whatever rights intrusions we as their host nation elect to impose upon them. Either that or they can go back. Their people may be questioned, searched, monitored, and their movements limited as well. They may be deported, interred indefinitely, and they may also be refused the right to leave our nation if the Over-Senate so judges any of this. Again, the flip-side of all these rights intrusions is that more people will be tolerated in more and better places.
14/ If the Over-Senate declares that this nation is at war with any nation, ethnic group, religion, or clan, then the Over-Senate shall have the right to discriminate against, expel, inter, or incarcerate all provisional citizens and immigrant citizens from that nation, ethnic group, religion, or clan, as well as their minor children. However, this shall not apply to the children of immigrant citizens that are native citizens and over age 21
15/ Immigrants and more particularly Exhods shall be seen as a potential national security threat. For this reason, The Senate shall have broad rights in limiting their conduct, activities, and travels.
16/ Non-citizens shall be expected to stay well within the boundaries of our justice system. The courts may impose 1.5x penalties for visitors and immigrants, 2x penalties for Exhods, and 3x penalties for illegal immigrants. This clause may be multiplicative with respect to other penalty multipliers.
17/ Except for non-citizens confirmed to the Senate, those who are not native citizens shall not be allowed to work in our government in any role that makes any important decisions about the citizens of our nation.
18/ The Senate may require all or some non-citizens to carry a location tracking device such as a cell phone at all times.
19/ Non-citizens shall not be allowed to engage in ambulatory vending or door to door sales, touting, or begging. Non-citizens engaging in these activities shall be deported.

R'153. REFUGEES
1/ If we make it too easy for people to leave their nation and seek refuge in our nation as immigrants, we will not only suffer a flood of cowardly, unpatriotic shirkers as new citizens, but we will also undermine the will to fight for freedom and liberty worldwide. Our land of the free shall not do this for the cause of freedom in this world. Our actions shall not weaken the resolve of those who would fight for freedom in their home nation.
2/ All fighting age refugees and Exhods between age 17 and 50, except mothers of children under age 13, shall be expected to fight for the cause of freedom in their nation. All shall be expected to eagerly undergo training as an invasion army that may be sent back to fight for democracy in their country. When an invasion force of sufficient strength is assembled, our nation shall transport this army back, placing our own volunteer freedom-fighting advisors and coordinators among them at a ratio of 1:50. Then we will give them military intelligence and provisioning as they do their part in their own nation to spread democracy and freedom. Also, these refugee armies shall generally be armed with fast-rusting sealed arms and short-life ammunition.
3/ In general, we shall give first refuge to children and their mothers, then to the old. We shall give refuge last males between age 17 and 35, and 2nd-to-last refugee to males age 36 to 53, and these fighting age males only if they eagerly sign on to undergo combat training and return to their nation to fight for their cause.
4/ No immigrants or refugees shall be allowed to enter our nation without proper vetting. All immigrants that the previous corrupt democracy allowed to enter our nation either without proper vetting or without any record of proper vetting shall be subject to deportation on this account alone.
5/ Looking back on history, most great influxes of 16 to 50 year-old men entering other nations have been invading armies. As well, most genuine war refugees are women, children and old people. Therefore, no immigrant group coming as mostly young men may call itself as refugee.

R'154. EXHODS
1/ Exhods are former Muslims, Ishtarians, Haremi, and other Semites undergoing mass relocation from the land of no resources and its inverted agenda. They are also the people who have previously emigrated away from the land of no resources and have been sent back. Exhods, as a type of immigrant, are different from refugees in that refugees are fleeing temporarily and Exhods are relocating forever from a land that should not have
because it cannot sustain people.

2/ Exhods shall suffer a life-long loss of their rights as stated herein. They shall also be required to undergo re-education and pay back the cost of their relocation.

3/ All Exhods must cleave against both Ishtar and Islam.

4/ No Exhods shall be allowed to enter our land until we are reasonably sure that:
   a/ They as an individual have cleaved against both Ishtar and Islam.
   b/ Their entire nation has cleaved against Islam and Ishtar to the man.
   c/ Their nation has instituted a standard 1-in-25,000 broad democracy.
   d/ That all harems in their nation have been shut down.
   e/ That all harems in their nation have been exposed.

5/ This nation shall get 43 hours of diligent labor a month (10 hours per 7-day week) from all Exhods between 18 and 60 years old until 2034.06.19, unless the UM elects to extend the term or expand number of hours due to terrorism, or warfare, or war mongering. This “discharging tax” can be paid either in the Exhod’s regular wages, or in labor to the public if they can’t find a job. But this Exhod discharging tax is due first, before the Exhods can collect any other wages or other monies in the adopting nation.

Exhods that don’t pay their Exhod discharging tax shall not be allowed to remain our nation. Those found after the fact to have evaded this regulation or underpaid their discharging tax may be sent back. All Exhods shall perform their public service with the same alacrity and hard work that was previously expected of service to Ishtar and the parasite’s cause.

6/ Children born to pre-move exhods more than 7 months after revelation day, and their genetic parents shall get exodus priority in last place for normal people.

7/ All pregnant women intending to go through the exodus process must have an abortion if they are less than 2-month’s pregnant at revelation day.

8/ Exhods shall not hold or spend cash, precious metals, or other fungibles, and all money paid and spent by Exhods for the remainder of their life shall be spent electronically through government monitored accounts.

9/ All Exhods may declare one mate upon arrival. Aside from this one person, they shall not have children with any of their kind. All Muslims, all people from PU nations, all Semitic people, all Haremi, and all undocumented people shall all be considered to be of one kind. Those who have a child with one of their own shall have their immigration status cancelled and they must go back for resettlement in another nation. Those elected to our nation’s Senate shall be seen as native citizens and shall be excluded from this section.

10/ Exhods and refugees can not leave our nation or their status may be cancelled.

11/ All Exhods must get pre-approval for their settlement address, and all subsequent changes of address.

12/ Exhods may be temporarily housed in evacuated flood zone communities and evacuated areas as determined by the Senate.

13/ Exhods shall not be allowed to work-in, live-in or live near a city with over a 500,000 people.

14/ Exhod families shall not be allowed to settle together in communities, or work together, but must scatter throughout the nation and stay away from each other, unless they are part of the same nuclear family.

15/ All Exhod children must attend public schools with the children of our nation. There shall be no religious or private schools for Exhod children. There shall be no school instruction of the old language to Exhod children. There shall be no home study for Exhod children except where the child is unquestionably disabled.

16/ For 10 years after they are adopted by a Centi-Nome, Exhods shall not travel around the nation, but must remain in the county they settled in. This term may be extended or shortened by the Senate. However, Exhods shall not be permitted to lobby government for anything, including an early release here.

17/ Exhods shall have no right to demand anything, and no right to lobby government.

18/ Exhods shall not have the right to live where they choose but shall be adopted by a Nome to live in.

19/ Exhods shall have no right to sponsor, or bring in other Exhods, even family members. If genetically maternal siblings, genetic children, or genetic parents are later admitted, and the adopting Centi-Nome permits, these may be allowed to settle in the same household.

20/ Exhods shall not be allowed to cover their heads except when it is below 10°C, and then they must use a one of our caps and not a headscarf.

21/ Except for tertiary school graduates, all Exhods shall obey a one child policy (not one child plus). Exhod women that already have a child, or show signs of having had a child upon a medical examination shall be prohibited from having more children. All excess pregnancies shall be aborted or the family may be sent back. Exhod women that can pass the Senate’s tertiary school verification test in a serious subject, in English, shall be allowed to have up to 4-children.

22/ All Exhod women under age 30 that become pregnant shall be allowed to have up to 4-children.

23/ People living in immigration camps shall not breed, and must use long-term birth control if they are not living in a same sex environment. If a woman becomes pregnant in violation of this rule, she must have an abortion within the allowed abortion time period if she wants to stay. Otherwise she will be considered as having given up her immigration status.

24/ No Exhod female shall be permitted to have a child in our land unless she graduates from secondary school in our nation, or passes the government’s standard secondary school equivalency exam in the main language of our nation. This high school rule shall also apply to all woman who were ever illegal aliens in our land.

25/ Exhods shall not have children until they are economically self-sufficient, and are living without any
government aid for more than one year.
26/ No Exhods shall have any children until 8-years after Constitution Day. This time period may be extended by up to 8-hours for each Arab terrorism death that occurs outside of PU territory.
27/ No more than 20% of the people in any enterprise shall be Exhods. This shall not apply to enterprises with 5 or fewer people.
28/ Exhods shall keep and possess no physical property and no wealth from their old nation for as long as they live. They may keep electronic files, but there shall be no physical property kept. This shall include wedding rings and heirlooms.
29/ All Exhod owned businesses shall include the suffix letters Ex.
30/ Exhods shall not be issued passports and shall not be allowed to leave the country until after the PU has been fully exhoded. If they do leave the country early, then they may not come back and shall be deported instead.
31/ The Senate shall prepare automated learning materials so that Exhods may use their time constructively and prepare for their new life before they are relocated. All Exhods must however spend at least 90 days in an immigration camp to come to our nation. We shall consider our immigration camps an initiation rite, so immigrants appreciate being allowed to come to our nation.
32/ When a member of an Exhod family commits a felony, all members of that Exhod’s family is subject to deportation upon a simple majority of a single vote of the adoptive Centi-Nome.
33/ All Exhods are subject to deportation upon a 2/3 overmajority vote of their adoptive Centi-Nome.
34/ Those Exhods confirmed to the Senate in our land, and those elected as full Ubiqs in our land for making a significant contribution to our society shall (like all immigrants) be considered as native citizens and they shall thereupon be exempt from the Exhod discharging tax, as well as the Exhod child limits. It should be noted that this policy of Senate exemption can only function and judge properly where the foreigners are spread-out among our population. This practice cannot work properly where immigrants are allowed to live in mono-culture get-out communities.
35/ All Exhods shall pass a culture test, and employability test prior to admission. All Exhods will be expected to behave just like the people of our society after their extensive training.
36/ There shall be a lower bar for infractions among exhods and higher penalties for violations. These things are necessary to move more people.

R155. IMMIGRATION RULES
1/ There shall be no internal visas for citizens to move from one part of the nation to another. However, non-citizens, particularly refugees and Exhods, may be required to remain within one or more counties.
2/ The right of citizens to leave this nation shall not be restricted, except for military draftees, active duty military, those charged-with, or jailed-for a felony, and certain classes of immigrant citizen.
3/ We shall be one nation, with one national language. All domestic government services shall be presented-in and take place in English or Euemi. Except for the study of foreign languages by proficient speakers of English, all of the nation’s public schools and fictional citizens shall use English exclusively. Later, the Senate may allow Euemi as a second language. Later still, when the world switches to Euemi, we may phase out English.
4/ If the right to vote is later granted to immigrants, then we should not have illiterate immigrants voting in our elections. Then we should say that immigrants shall not be allowed to vote unless they have either graduated from secondary school in our nation, or passed the Sub-Senate’s standard secondary school equivalency exam in the language of our nation, English.
5/ All applicants for work visas and immigration visas shall be merit-tested for their problem-solving skills, general skills, and reading skills in English. Those tested for an immigration visa shall also be tested on the laws, cultural norms and free-market economics of our nation. The right to immigrate to our land of the free shall be prioritized according to merit test score. A low score shall be grounds for denial of application.
6/ All immigrants must be able to understand and use 90% of the Senate’s 15,000-word immigrant vocabulary before being allowed to commence the immigration process.
7/ All immigrants shall be required to have a unique 3-word, name that is spelled phonetically in English and pronounceable to most citizens of this nation, a name that cannot be changed or omitted even in marriage. All immigrants must use their full name whereas citizens may omit their middle names.
8/ All children of all immigrants shall be required to take their mother's surname with no mention of the father's surname name.
9/ No child, or business of any immigrant shall have an Arabic, Middle Eastern, Latin, or ancient Greek name, or a name with a suggestive meaning to Ishtarians.
10/ The oath of immigration shall be: "I beg to immigrate to America, the land of the free. I am a humble supplicant begging to join the land of the free, to be good enough to join. I pledge to help defend my new nation, and my new freedoms. I pledge never to take up arms against my new nation, or help its enemies. I pledge that I shall always be the enemy of tyranny, monarchy, oligarchy, oppressive government, slavery, and slave’s religions." This shall be video recorded and ascribed to the speaker. Then it is to be posted on the public's forever video archive. The Senate may elect to include other things, such as national and religious renouncements in the oath of immigration.
11/ All government identification in this nation shall show citizenship, birth nationality and immigration status.
12/ All passports used in crossing this nation's borders shall state the citizenship and birth nationality of the person. If the person is not a native citizen, then all prior citizenships shall be listed on the passport.
13/ The nationality of a person never changes because the word nationality means the place of their birth. The citizenship remains identical to the nationality unless the person immigrates to another nation. The term citizenship shall mean all past nations a person was a citizen of, the most recent going first.
14/ All passports must list all of each person’s prior citizenships, or say no prior citizenships. Our government and our immigration officials shall use the most restricted nationality of each foreign person coming to our nation.
15/ Those people crossing this nation’s borders using a false name, or a forged passport, or failing to disclose all their nationalities and all citizenships face up to 10-years in prison for immigration fraud.
16/ When people change citizenship, their citizenship shall be hyphenated with their earliest citizenship coming first. It shall be the crime of immigration fraud for non-citizens to lie about their nationality, or omit one of their nationalities even in social and non-official circumstances.
17/ This nation shall not allow dual citizenship for its native citizens, immigrant citizens and visitors. Provisional citizens should maintain their old citizenship until they become immigrant citizens. Everyone shall have 10-days to disavow all other citizenship when they become immigrant citizens of our nation.
18/ Those who have changed citizenship once before shall not be allowed to become citizens of our nation.
19/ When foreigners that have changed their nationality come to this nation, government officials shall use all nationalities in determining their right to visit and stay in our nation. Also, the immigration officials of this nation may ignore the passport of any non-citizen and use their apparent country or region of birth. Those who have an Arabic, or Turkic accent shall be regarded as from the PU, or from the one nation of Islam regardless of what passport they are using.
20/ All immigrants living in this nation, regardless of their arrival date, shall be required to prove that they actually speak the language of their reputed home country like a native speaker of that language, unless they were small children when they arrived. Those that cannot do this shall be presumed to be Exhods and to have received their immigration or citizenship status based on service to the cause of Ishtar.
21/ If low-skilled foreign workers are admitted to our nation, it shall only be on a non-immigrant basis. Their employers shall post adequate bond to assure the departure of these workers.
22/ All foreign visitors shall be turned off from the financial and vehicle licensing system, on the day after their visa expires. They will have no ability to pay for things, no driving license, no ability to rent a room, no ability to fly. There will also be fines for failing to leave, unless there is a medical reason.
23/ Those who employ foreign workers shall pay 15% of the average wage as a tax. This is so that poor Americans will have an easier time getting good jobs.
24/ Foreign workers shall be allowed to work as much as 12 hours a day, every day, if they wish.
25/ To prevent border-zone get-outs forming on our nation’s borders, low-skilled foreign workers shall not be permitted to enter our nation’s land borders more often than once per teneth. Also, no low-skilled foreign workers and factory shipments shall enter our nation unless they arrived on a sealed and monitored non-stop boat, train, or airplane from a place more than 210 km from our nation’s borders. Every person and every vehicle crossing into our nation shall each pay a border crossing fee of 3-hours pay (as always, this is the average pay in our nation among our citizens). As this is more than enough money to pay for immigration officers, the crossings must be run so there is never more than 5-minutes wait to reach an officer.
26/ Regarding public assistance, immigrant citizens may only get 120 days of it. If these people become destitute for any reason at all, they can move to the immigration camp dorms where they may live free of charge for up to a year. After a year, if they are unable to make a living in our nation, they must either go back or be deported. Except for this, and Senate sireage benefits, government shall not give any non-emergency benefits to immigrant-citizens or non-citizens. When non-citizens bear Senate sires without Senate approval, they shall be entitled to no benefits.
27/ The Senate shall determine how long each existing immigrant has lived in this nation on public assistance under the old system, the total lifetime benefits received from government, total income claimed, and total taxes paid. Then the Senate shall take appropriate action to rid our nation of immigrants that are slackers and sgivers.
28/ Only native citizens shall be allowed to sponsor immigrants and visitors. Immigrants and visitors shall have no right to sponsor other immigrants and visitors.
29/ With a 60% over-majority, the Sub-Senate shall be free to bar entry to this nation for any non-citizen groups, nationality group, clans, political group, or language groups it elects to.
30/ Except in genuine emergencies, the Senate and people shall not provide government healthcare benefits to non-citizens. There shall be mandatory emergency medical insurance for all non-citizens visiting this nation. This fee shall vary by the age of the visitor the duration of the visit, as well as the nature of the visit.
31/ All immigrants shall be health screened before being allowed to achieve any immigration status. Immigrants with pre-existing conditions, and immigrants who come after age 30 may suffer special healthcare related restrictions.
32/ In order to reduce the very real potential for corruption of the immigration process through intimidation, bribery or
other forms of corruption, the immigration decisions shall be made by two Senate juries. First a Senate immigration jury of 5 (randomly drawn as always) shall decide on the right to begin the immigration process for each applicant. For this first decision, the faces, voices, names and identities and decisions/votes of case workers and Senator Jurors deciding on immigration matters shall not be shown to those they judge because this might lead to corruption. For all immigration interviews, all immigrants shall face video cameras and answer the questions posed by the interviewers that may be in another location. After this, the second immigration decision shall be made by the adopting Centi-Nomes and Nomes.

33/ We shall consider it vitally important to our battle with Ishtar, that no part of the immigration process be corrupted. New lives in the heaven of our land are perhaps the most valuable thing that Ishtar sells.

34/ Unelected appointees may grant permission to temporarily visit this nation. However, both citizenship, and permission to start on the road to citizenship shall only be decided by an anonymous Senate jury of no less than five. There shall be no right to appeal the decision of a Senate jury in immigration matters. Exceptions for Exhods, nobody shall apply for immigration more often than once per 5-years.

35/ Those affiliated with our nation’s enemies as declared by the Senate, may be forever blacklisted from entering our nation.

36/ Lotteries being so corruptible, there shall be no immigration lottery or random selection of immigrants. All existing immigration lottery winners shall be investigated. Those found guilty of corrupting other systems or working for Ishtar may be deported for the reasonable suspicion of having corrupted the immigration lottery system of the previous government.

37/ The Senate may limit immigration from certain nations, but it shall never have quotas or slots to fill.

38/ The Over-Senate may halt immigration and visitors from any nation for any reason. The Over-Senate shall halt immigration and visitors from nations and empires that sprout terrorists, as well as the places which do not obey the UM’s reproductive policy.

39/ There shall be no citizenship requirement for serving in the Sub-Senate or Main-Senate. Immigrants, Exhods and even visitors may be elected. Over-Senators must however, be native citizens.

40/ Foreigners confirmed as a Senator in our nation, and those we give full Ubiq status to shall be welcomed with honor among our people. These may opt for native citizen status if they wish. After this, they shall be treated like any other native citizen by the laws and people of our nation.

41/ No law, treaty or agreement concerning immigrants, refugees, or Exhods shall every be binding upon this nation, or require this nation to accept immigrants or refugees from any other nation. The Over-Senate shall always have the right to change its mind about immigration, refuge, and exhodos.

42/ Immigrants shall not be allowed to come to our land and live in isolated alien enclaves mostly among their own people, but in our land. There shall be no ghetto, or get-out communities like Dearborn Michigan. All immigrants must integrate. They must learn our ways and our language, and they must live among us, or they may be sent back by the Senate.

43/ We shall have no places like Malmo, no residential immigrant enclaves that are closed to outside ethnic groups. If the Over-Senate elects that a place is a Malmo, then that place may be condemned and the immigrants living there may either deported or forced to scatter.

44/ All deportees shall be genetically indexed, face scanned, fingerprinted, and permanently earmarked in a variety of ways indicating the reason for deportation. The immigration courts may also elect to give certain particularly troublesome deportees a blue man cast with colloidal silver.

45/ The Senate may require non-immigrant workers to wear their name, worker ID number, and bar-code on their clothing.

46/ Immigrants that are Middle Eastern, or Muslim, or from a nation of the PU may be judged as Exhods regardless of when they came to this nation.

47/ No judge of the old system of this nation shall have jurisdiction in matters of immigration application, immigration denial, refugee status, Exhod status, or deportation. Only Sub-Senate juries shall judge our nation’s critically important immigration decisions.

48/ We shall err on the side of welcoming too many people to come to our land, as all free men should. However, we shall be as selective as we reasonably can about who we allow in.

49/ The situation that makes Ishtar strongest, the situation Ishtar likes most is when we have tight government controls that only it can corrupt. This is the sort of immigration system that Ishtar wants, and we must therefore go in the opposite direction.

50/ The decision to eject a non-citizen may be decided at either the county or national level, and except when the person is working or has worked for the nation’s strategic interests, neither shall protect the immigrant from the other.

51/ All news reporting of suspected terrorist acts shall report all nationalities of the suspects once it is known in all reporting. If the Foreign-Sluice declares an act of terrorism as perhaps religiously motivated, the religion shall also be mentioned after the suspect's name.

52/ Nobody applying for immigration to our nation may do so via any intermediary. No lawyers may be used in any matter concerning immigration.

53/ Non-citizens may be taxed at higher rates than citizens. They may also be required to pay taxes that citizens do not have to pay. Citizens shall never pay a higher rate of tax than non-citizens, or be subject to a tax
that does not apply to non-citizens.

54/ Government may require same sex camps for some exhod groups.

55/ We must be able to trust those who we welcome to our nation. We must ask ourselves if some group of immigrants is more likely to betray our kindness, and take up arms against us. We must also ask ourselves if some group is already taking up arms against us when we are strong, how will it behave if it ever eventually gets the upper hand?

56/ Exhods and refugees shall not be allowed to inherit more than 2-years wages from citizens under any condition, except where the citizen is a parent, child, sibling, or cohabiting spouse of more than 7-years. Non-Exhod immigrants shall not be allowed to inherit more than 7-years wages from citizens under any condition, except where the citizen is their parent, child, sibling, or cohabiting spouse of more than 7-years.

57/ The ethnic background of all immigrants shall be a matter of public record for both immigrants and the children of immigrants.

58/ A visa gives a visitor to our nation the ability to have a national financial transaction account for a specified time. This system shall automatically enforce the visitor's ability to interact with the economy by switching off at midnight on the day when the visitor's visa expires.

R’156. IMMIGRATION CAMPS

1/ All immigration to our nation that is not based on mental acumen or skills shall be based on hard work, resolution, or time spent in an immigration camp being trained in our language and ways. All such immigrants shall be given a skill-set to use in earning a living as a free man in the land of the free. To be clear, immigrants that come based on merit do not have to spend time in an immigration camp.

2/ All immigration and Exhod camps shall be located on offshore islands. Thus all refugees will live on offshore island camps until they are ready to go back and fight for freedom in their land. Also, all Exhods will live in a camp until they are ready for Nome adoption.

3/ San Clemente island shall be the island for the men, Santa Rosa island will be for the women, and Santa Cruz island for the people genetically linked by young offspring. On San Clemente and Santa Rosa, there shall only be same-sex barracks. On Santa Cruz island, the families get a single room with 5m of floor area per person. Everyone of an age that should have pubic hair that does not have young offspring must move to same sex barracks. Other islands may also be used for immigration camps.

4/ It is supposed to be difficult for low-skilled immigrants and Exhods to move to our land. The system is also supposed to favor people willing to work long overtime hours.

5/ Refugees, and Immigrants of choice may give up and go back where they came from. Exhods shall not be free to go back home, because they must go somewhere else.

6/ All Exhods shall live on island camps until they have completed their re-education, and are adopted by a Nome, and allowed to live in a Centi-Nome dormitory until they find better housing. All Exhods must be adopted by a Nome in order to leave the Exhod camp, and come into our nation.

7/ Refugees and Exhods shall not even have the rights of approved immigrants, let alone citizens. Rioting refugees and Exhods shall be sent back to where they came from.

8/ Many aspects of camp life shall be regimented. All shall get up, eat, go to work/school, and go to bed according to a schedule. The immigration camp routine shall be in place 365 days a year with no account of anyone’s religious days or practices.

9/ There shall be no right to privacy at immigration camps. All areas shall be under video monitoring.

10/ The same-sex barracks shall have no less than 30 bunks in a room, with shared bathrooms and kitchen facilities.

11/ Everyone housed in an immigration camp shall go outside for sunrise roll call except when it is raining.

12/ All Exhods shall be fingerprinted, iris scanned, blood sampled and tattooed in exactly the same way the Arabs tattooed their Jewish enemies in Nazi Germany. It shall be a felony to remove this tattoo for the rest of your lives.

13/ Everyone of working age living in an immigration camp must gladly and eagerly work and attend lessons. Those between age 15 and 40 shall do this for at least 70 hours a week. Those 55 to 65 shall do this for at least 56 hours a week. Those 40 to 55 shall do this for at least 49 hours a week.

14/ All Exhods shall complete at least 2,000 hours of education in the language, customs and manners of our nation before they can leave the island camp. Those over age 15 must also undergo an additional 1,000 hours of skills training if they have no testable skill. Much of this will be completed before preliminary immigration approval is granted.

R’157. NOME ADOPTION OF IMMIGRANTS

1/ Once the camp immigrants have completed their education modules, they can be adopted by a Nome. Once adopted, they will be allowed to move to their Centi-Nome’s adoption dorms, where they will get a bunk, kitchen lockers, and ingredient stamps while they work and save money. Immigrants will be able to come and go at will from the adoption dormitories, except during lights out. They may also move out whenever they can afford to.

2/ In order to leave the island immigration camp, all immigrants must be adopted by a Nome.

3/ All camp immigrants shall owe their adopting community a debt of fealty for allowing them, and helping them to settle in their community. All shall be grateful to their new neighbors, and all shall be required to work harder than the people welcoming them.
4/ All camp immigrants shall be expected to be grateful to their hosts. This shall however, not include tolerance of crime or injustice by the people of their adopting Nome.
5/ All immigrants shall be supervised by their neighborhood Nome and judged by their adoptive Centi-Nome.
6/ If a majority of the citizens in their Nome elect them as problematic. Their case shall be sent for judgement by the 200 Sub-Senators of their Centi-Nome. These Centi-Nomes shall be permitted to cancel Exhod adoptions for the reasons allowed by the National Senate, and for 20 years after adoption.
7/ Thus immigration management will be extremely granular and a matter decided by the citizens that the Immigrants live among. We do this so that karma is a powerful motivating force for all our Immigrants. We also do this so people in communities will be empowered and thus welcome immigrants as much as possible. This requirement of best behavior from the immigrants shall be seen by all as an insignificant price to pay for a new life.
8/ All camp immigrants shall be expected to eagerly take the jobs their Nome finds them until they can find another approved job on their own. Camp immigrants that get fired or that don't apply themselves to their job may be sent back to the offshore immigration camp for remedial education and conditioning. They also may be sent back where they came from.
9/ Immigrants shall have lower search protections than citizens. The internal security sluice may elect to have regular searches of immigrant groups and immigrant areas that become a hotbed of trouble.
10/ All immigrant females shall undergo education programs informing them of their rights in our nation.
11/ There shall be no charge for living in any immigration camp or adoption dorm.
12/ No Exhods shall be given money from government. They can only be given free education, Tier-1 healthcare, barracks or dormitory housing, and ingredient stamps.
13/ Centi-Nome adoption dorms shall be same-sex dormitories just like the immigration camps. The men's dorms and the women's dorms shall be at least 3km apart, and neither sex shall enter the other sex's dorm.
14/ Exhod and refugee camps, as well as adoption dorms may be located in tsunami and flood zones.
15/ Until 2035.01.01, all Exhods shall pay their 43-hour monthly tax to their adoptive county, however, this shall not apply in the first 6-months of their adoption. This tax money is intended to offer an incentive for rapid adoption by Centi-Nomes. It is also intended to humble all Exhods, and make them realize that they owe a debt to the people who opt to adopt them as suppliants.

R'158. CLEAVING
1/ To cleave, all Ishtarians over age 6 must post defile their holy books and religious buildings as called for by the Senate.
2/ All Ishtarians must obey curfew if called for by government.
3/ To cleave, all Ishtarians must come-out as Ishtarians and must begin rapidly confessing all that they know about Ishtar.
4/ There shall be 10 grades of repentance depending on how fast the Ishtarians cleave. The first to cleave shall be rewarded. The last to cleave may be interred for life.
5/ The host part of the world shall consider itself lucky if all Ishtarians cleave immediately, and there is no need to fight a great war.
6/ Ishtarians that riot may be deported or interred.
7/ Ishtarians who take up arms against their host nation and its people shall be given the death penalty.
8/ Ishtarians who commit mass murder and mass terrorism may be given the death penalty under torturous punishment and their community deported.

R'159. OUR BORDER WITH MEXICO
1/ Our souther border shall exist in two different places and use a system of double walls and double checkpoints. The outer more porous border checkpoint shall be the limit of our nation's territory. The inner hard-border wall will go where it is most convenient and advantageous for us to put our main border security wall. In fact, the Border-Wall may be over 100km inside the Border-Line. The difference is to create a maquiladora zone on our side of the border that we will call Mexas. 2/ Mexas shall generally include the currently majority Hispanic areas that are contiguous with the border. This is roughly the old counties of: El Paso TX, Hudspeth TX, Culberson TX, Reeves TX, Jeff Davis TX, Pecos TX, Presidio TX, Brewster TX, Terrell TX, Valverde TX, Edwards TX, Kinney TX, Uvalde TX, Maverick TX, Zavala TX, Frio TX, Dimmit TX, La Salle TX, Webb TX, Duval TX, Jim Wells TX, Neches TX, Kleberg TX, Zapata TX, Jim Hogg TX, Brooks TX, Kennedy TX, Starr TX, Hidalgo TX, Cameron TX, Hidalgo NM, Luna NM, Dona Ana NM, the Grant NM county panhandle. Santa Cruz AZ, Yuma AZ, and Imperial CA. In San Diego CA, Mexas shall include the area south of the Otay river, then south of Otay lakes road, then south of Honey Springs road, then south of Japatul Lyons Rd, then south of Japatul Valley Rd, then south Highway 8. All of these areas shall be inside the foreign worker zone, but outside the main part of our nation. This areas may be up to 100km inside the nation. 3/ Additional immigration checkpoints shall be allowed up in our nation up to 300km from the southern border. 4/ Only pre-approved immigrants living in our nation and citizens shall be allowed to cross overland from Texico back into the rest of our nation. Everyone else must either fly, or come overland via a sealed carrier from a point more than 200km away from the border. 5/ As we want to eliminate the criminal element from the Mexico side of the border, we shall only give water and electricity to the uses in Mexico that our senate approves, such as factories and housing for workers. 6/ Visas to enter Texico and work shall be easily had from
people from many parts of the world. However, no visas shall be granted where the nation has a homicide rate is over 25 per 100,000 annually, or a nation where they get caught lying about their homicide rate. These nations are just too violent for us to allow. Over time, the Senate shall reduce this number.

7/ In the Texico maquiladora zone, our nation's employers can hire foreign workers that are not allowed to enter the main part of our nation. Thus we can have much more relaxed entry requirements. Also, the workers need not come from Mexico, or even the Americas.

8/ Foreign workers in the border-zone shall have fewer worker’s rights than our citizens in the main part of our nation. Foreign workers in the border-zone shall not be allowed to own realty and must eventually go back home.

9/ There shall be no trucks bringing goods across the nation’s southern border. All goods must cross the border via externally locked rail cars, with the claimant at the destination’s post-office/ customs-house serving as the importer. All freight must be sent from a point more than 200km from the border.

10/ We shall keep ample cot-barracks in Texico for refugees.

11/ We don’t want to put our industrial pollution where the biome is most vibrant; we want to put it in our desert wastelands especially those that are far away. Thus Texico will have relaxed environmental regulations, because it is a remote industrial zone that is far from the population centers of both our nation and Mexico.

12/ The most toxic industrial zone for North America shall be on the Baja California peninsula about 100km north of the main toxic dump sites. The next most toxic area shall be in the area 30 to 100 miles west of El Paso. The area around Big Bend and Del Rio shall be for regular work that needs foreign workers.

13/ This approach is better than the current Mexico-based maquiladora approach: Because on our own land, we can much better control our investments, our working conditions, our pollution, and our quality, among other things.

14/ All of the scarce water of the Rio Grande and Colorado rivers shall be put in pipes as high up as practical to reduce seepage and evaporation of the precious water. Where practical, existing near-century-old dams shall be enlarged.

15/ Where water is scarce, it shall be sold at the same price by volume to all users by month. Agricultural and industrial users get no discounts. To do otherwise with scarce desert water is to increase water scarcity. Also, the Rio Grand’s water shall be treated as an urban and industrial resource and all these needs shall be met before any water is used for agricultural irrigation.

R’160. OUR TRADE ROUTES

1/ It has never been possible to drive overland from North America to South America due to the fake Darien Gap in southern Panama. We shall overcome the fake Darien Gap and build a wide gauge railroad and highway between Texas and the Amazon basin. (For the record, the distance between Texas and Colombia is less than the distance from New York to Los Angeles). Also the route to South America has no mountain passes unlike the route from New York to Los Angeles. Our nation is building this project to help reduce the cost of trade with our neighbors to the south.

2/ We shall never impose any tariff on through trade between Asia and our neighbors to the south. Also, it is our official policy to take up arms against any group or nation that attempts to do this. Those attacking the Pan-American rail line/ highway, or the Panama Canal (either of the two sphinxes) shall be treated as a pirates. Nobody shall be allowed to drink from he trade passing by, as it was some sort of eternally overflowing grail cup.

3/ In 1903, our nation was granted eternal control of the Canal Zone so that we would build the Panama Canal. We then built the Canal in what was then a wasteland. Then in 1977, our traitorous oil-embargo-era monarch gave away this vital interest of our nation for no compensation. Today the canal unjustly extorts billions of dollars from world trade, in diametric parasitic opposition to the agenda of more and better. So this gift of king Carter shall not be held valid by our nation. The prior gift of the Panama Canal for no compensation, that shall be cancelled entirely and set aside entirely, and we hereby retake the ownership of the Panama Canal. Now we shall run the canal at cost for the benefit of the world.

Furthermore, we shall cancel the ownership rights of all who have managed to buy the Brooklyn Bridge or the Bangkok BTS, or some other public infrastructure from their government and is now taxing the people. Anyone like this humans, fictional citizens, or foreign nations shall likewise have their ownership rights cancelled. Everyone knows you can’t buy the Brooklyn Bridge.

4/ Our nation shall operate the Panama Canal at built cost for all users until passage slots exceed demand. Then the fees for using the Panama Canal shall never exceed the amount needed to balance supply with demand. To do otherwise is to restrain trade. Also, whatever natural, allocative tax revenues result, they shall be credited to all Americas nations based on population.

5/ We shall attempt to form a Pan-American defense force for the route between our southern border and Andeo, the new America we are trying to foster in the tsunami safe high-ground parts of the Amazon basin. All nations in the Americas will be expected to send their share of special forces for the common good of keeping the trade routes open.

6/ We shall build airstrips and grade pads for an optional military bases on the following islands near the Pan-American trade lines: Isla San Jose Panama, Isla Jicaron Panama, Isla Cano Costa Rica, Ometepe lake island Nicaragua, Meanguera del Golfo Honduras, and Ronde Island (Grenada) These tiny Islands will be available as our exclusive military bases if we opt to use them. We will
use these island airfield for close air support operations if needed to protect our Pan-American trade if needed. 7/ If any portion of the Pan-American route or the Panama Canal develops an intractable piracy problem, then we may relocate all the residents in that area to equal habitations so that a safety zone can be created for goods to pass to and from South America unfettered. 8/ The Big island of Hawaii shall be a special visa zone for tourists. Here citizens of most nations will be able to come and visit visa free. We shall build an international hub airports at the north end of this Island, and except for non-stop flights, all flights between the US and Asia shall be required stop here as a natural hub airport. All carriers shall allow passengers to break their travel and have a long stop-over at no cost if they want to. 9/ Our main hub airport for connecting with South America shall be Miami for now. 10/ Puerto Rico is hereby granted its independence. Each resident shall get a month’s pay (as always, an average month’s pay in our nation) as a severance gift. 11/ The uninhabited Ronde island (north of Grenada) shall be a US possession.

P — GENERAL

R’161. GENERAL RULES
1/ If this Constitution conflicts with any other document, this Constitution shall prevail. 2/ If elements of this Constitution conflict with each other, then the Over-Senate shall decide which part shall be enforced and when. 3/ When elements of this Constitution are impossible to comply with immediately, the Over-Senate shall give reasonable date for compliance to begin. 4/ The rights granted herein shall not be construed to deny or diminish other unmentioned rights retained by the people. The powers not given to government by this constitution, nor prohibited by subsequent constitutional laws, shall be kept by people. 5/ Text of this Constitution may be repealed, but no part of it shall ever be removed. 6/ All grants from the previous corrupt democracy are subject to cancellation if considered as obtained from corruption, even if this occurred centuries ago. This shall extend to grants of property, citizenship, immigration status, pardons, and grants of honor. 7/ All grants of honor ever given by government for acting, music, story telling, and athletes are hereby void and this nation shall be prohibited from granting honors for these activities in the future. 8/ All awards for media shall be forever tainted by how propaganda covering up Nazi concentration camps like Auschwitz was called the best film of 1942 by the Motion Picture Academy of America. 9/ The people declare the following as a warning to future generations, so it will be clearly remembered above all in this constitution: That unless the all-critical representation ratio is broader than 1-in-50,000 in its narrowest house, or that form of government is not a true democracy, but a form of oligarchy that can be corrupted and parasitized. 10/ Whenever corruption or economic parasitism is identified, measures must be taken to stop the leak in the ship of state. Otherwise other holes might form and the whole ship might sink.

R’162. ALL LAWS DIE FAST
1/ Institutions once established frequently develop lives of their own and frequently outlive their usefulness. For this reason, no law, act, organization, department, administration, or aspect of government shall stand for more than 5 years without a complete legislative review. During this review, each act, organization, department, administration, and aspect must be entirely re-assembled from the ground-up by the Senate. 2/ All laws of the previous corrupt narrow democracy that have to do with commodities, the environment, transit, railways, vehicles, or the environment shall expire at the end of the 2nd Sub-Senate term, on day 118. All laws of the previous corrupt narrow democracy that don't have to do with the foregoing shall expire at the end of the 3rd Sub-Senate term, on day 191.

R’163. GENERAL PRINCIPALS
1/ For positions of power in this democracy, we shall generally hold incorruptible-ness more important than expertise. 2/ Emotions are for individual decisions, not societal decisions. Wise leaders banish emotions and let logic rule society to the maximum extent practical. 3/ Economic parasitism is helped greatly by respect for tradition. We should, in general, go in the opposite direction and question all traditional approaches and traditional beliefs. We should not hold anything sacred because it is an ancient practice. In fact, we should generally regard the most ancient practices as the trees the parasite enjoys, and therefore allows to remain standing. All the old trees they didn't like, they already girdled and killed. 4/ Nefarious parties often name their evil by the exact opposite of what it is. Therefore, wise men don't rely on the names of things alone. 5/ We shall not rely on extra-democratic credentials such as academic, professional, or religious credentials. These extra-democratic credentials are often corrupt and thus serve as a back door for our democracy. 6/ In our democracy we believe that everyone should see with their own eyes, and judge with their own mind based on what they see with their own eyes. We hold that those who defer and yield to what other people say, should not vote because they are more often than not participating in a corruption of our democracy. If you don't understand what you are voting on, then you should abstain. If you don't understand and you feel like you should be able to understand, then you should oppose the proposal.
7/ Our obligation to justice, truth and the betterment of mankind is more important that our personal loyalty to friends, and family.
8/ When there is a conflict, the right to life and limb shall be held higher than the right to mere property.
9/ The property rights of some citizens shall not serve as an excuse to infringe on the basic human rights of other citizens. In times of crisis, all shall be required to contribute.
10/ This is a democracy of human people, not fictional citizen frontman entities. When there is a conflict, even the secondary rights of real flesh and blood citizens can be held higher than the primary rights of fictional citizens.
11/ The rights of those born in this nation as a group shall be held higher than the rights of people who have come to our nation as immigrants, exehods, visitors, refugees, or suppliants.
12/ One of the greatest defects of human nature is that people are too quick to start new business, and too slow to stop old business. All Senators should bear this in mind for government business. They should try to be careful when starting, and quicker with ending government business.
13/ Government shall not distract itself with frivolous activities like festivals, parades, celebrations, dramatizations, feasts, and athletic competitions. Government shall not squander its money or time on these frivolous things.
14/ Society should help women who do the right thing, choosing to improve the gene pool, instead of marrying for selfish romance and sexual love.
15/ The power of a democracy arises from the will of the people to get involved in their common weal being. This government shall do what it reasonably can to make participation in government as easy, understandable, accessible, enjoyable, and esteemed as possible.
16/ Public service is a much more powerful draw when it is paid with respect and money, than with money alone. It is everyone’s duty to their democracy to respect their confirmed Senators. Everyone should help make public service the main source of respect and status in society. Only those whose work has been ubiquitized should rival the status our Senators.
17/ All disagreeing parties should fully explain in writing what it is they disagree about if their side is to have credibility in any long-term disharmony. This should hold true for our personal and business relationships, as well as for our courts. And this should hold especially true for our Senate factions, and international relations. We should do this because it is what fair minded people do. They shine the light of a written explanation on all disharmony. When long-term disharmony is not adequately explained under the light of a written explanation, we should in general presume that the mute, unclear, or illogical side is untrue and unjust.
18/ When people do not argue the facts, it should be presumed that the facts are not in their favor.
19/ Decision makers must never be involved in the matters they are deciding on. Jurors must not know about the accused, if everyone in our nation knows about the accused, then we must draft an international mix of jurors from outside our nation.
20/ When terrorism happens for no clearly state reason, it should be presumed to be furthering a cause that must be kept secret.
21/ Bribe paying and bribe offering shall be considered just as bad a crime as bribe taking.
22/ Tenure and lifelong appointment are an indicator of loyal agents under someone else’s thumb.
23/ Undercover police shall be allowed to pose as bribe payers or bribe seekers on hidden video. These may approach people in either government or industry.
24/ Unstructured protests should not really count. Government should not listen to the easy-to-corrupt will of unstructured protests.
25/ We believe that a broad body of elected leaders is the least corrupt way for a free people to govern themselves. And while this is the best form of government, we still do not completely trust even this form of government.
26/ All applications for government services shall go on a queue and the queue shall be open for everyone to view. No preferential queue treatment shall be given except where the Senate elects to prioritize certain types of application as a class.
27/ The old UN was totally corrupt and all decisions by this body are suspect. No rule or ruling by the old UN, or any of its sub-bodies shall be valid in this nation. No rule or ruling by any one-nation-one-vote democracy shall be valid in our nation as this form of voting automatically handed the Mideast 1/3 of the vote.
28/ We in the land of the free are the enemies of Ishtar, and the Sphinx agenda.
29/ Public auctions may be set aside if there were too few bidders, or obvious potential bidders were not notified.
30/ Professional truth-benders and judgement-leaners are the opposite of what we want for our lawmakers. Anyone who has ever been a lawyer shall declare that fact in his campaign and to the various Senators he serves in.
31/ If we allow the come cry of the war monger in our elections, the masses will be the ones making the decision to go to war, instead of our best and wisest, our true democratic leaders. And it is not just war. All important issues should be made by our wisest, rather than those who share our views. In fact, the more important the issue, the more important it be made by our wisest.
32/ If changes or amendments need to be made to this constitution, let them be made after it is instituted, for it is much easier to change than the old constitution.
33/ Those who take reasonable measures in life or death situations shall generally suffer no penalty if they accidentally harm someone. Those who take reasonable and apparently clear shots against active shooters shall
suffer no penalty if they accidentally injure a third party.
34/ Our nation shall only give aid and aid money to those nations that
a/ Are conforming broad democracies and members of the UM in good standing.
b/ Are unquestionably our allies
c/ Obey UM reproductive policies.
35/ All governments leak power. And the leaks will grow and grow in size until we address them. So the moment we spot a power leak, we must plug it. This plugging is a first order sort of thing.
36/ When queues are an allocation system. The rich should not be allowed to pay others to wait in line for them.
37/ The world is for people:
not companies,
not churches,
not schools,
not governments,
not animals,
not the environment
The world is for people.
38/ The first democratic act is to stand and be counted behind your chosen leader; no matter what the threats. This is the most important act of patriotism.
39/ Where there are accusations of voter intimidation, there should be secret paper ballots. However, it should be normal to vote by proudly lining up to be counted.
41/ The absence of democracy should be seen as tyranny.
42/ When government has any dealings at with construction costs or real estate, the focus shall be on square foot pricing.

R’164. WHY WE WANT SECRET SENATE VOTING
If lawmakers voted in secret like the people do at the polls, then:
1/ They could vote as they like, and ignore their donors. Thus campaign gifts will have less influence over our democracy.
2/ Donors won't know if their gifts worked. And because of secret voting they'll expect to have less influence. So they'll give less and there will be less corruption money.
3/ Vote swapping stops, because nobody can tell if the other side voted as promised. Then, without vote swapping, the corrupting power of coalitions and political parties is reduced.
4/ Constituencies won't know how their lawmakers voted. So Congressional voting becomes less about bringing home pork barrel spending, and more about what is good for the nation. This reduces pork barrel spending and makes government more efficient financially.
x/ All of the above. Democracy improved in 4-ways.

R’165. NEW COUNTING SYSTEMS
This nation and its government shall switch to using the following counting systems:
1/ It shall use 10 36.5-day teneths per year instead of months.
2/ It shall use 6-day sweeks instead of 7-day weeks.
3/ It shall neither command, nor recognize any public holidays.
4/ It shall institute a 16 digit global address system for mail.
5/ It shall cease using imperial measures for weight, volume, temperature, distance, speed, and area.
6/ It shall use the gravity scale instead of the Richter scale for earthquakes.
7/ Everyone with a secondary school education shall be taught the true scale of their environment and the universe and to measure and calculate with base-10 exponents. They shall also be taught how the lack of this vital knowledge lead to the great environment hoax.

R’166. GOVERNMENT SERVICES TUTORIALS
Government shall generally require that everyone take the appropriate tutorials, video or print, under monitoring each time they file a case or using government services. This is intended to:
1/ Democratize access to government services and create a level playing field.
2/ Tax government services with time rather than money, time being a fairer way to tax the users of government services.
3/ Speed up the delivery of government services, and at the same time lower their cost to the public.
4/ Reduce nuisance applications.
5/ All plaintiffs shall be required to take the appropriate print or video classes under eye-tracking before they may file a case in civil court. This way, they will know if they satisfy the conditions of filing a case. This way, they will know if they are subject to penalties for improperly filing a case. This way, they will have to pay with time, rather than money to file their case.
6/ It shall use the gravity scale instead of the Richter scale for earthquakes.
7/ Everyone with a secondary school education shall be taught the true scale of their environment and the universe and to measure and calculate with base-10 exponents. They shall also be taught how the lack of this vital knowledge lead to the great environment hoax.

R’167. WORLD GOVERNMENT
We shall not participate in any form of world government that accepts the Islamic/Ishtarian empire or any of its colonies as members. Likewise, we shall not participate in any form of world government that gives one vote to each member nation of this empire, because 1/3 of the nations in the world today are parts of this single nation of Islam.

R’168. NO PUBLIC EXECUTION AS SPECTACLE
1/ As a safety measure against tyranny and out of respect for human life, government shall not execute more than
one person at a time.  
2/ No execution or punishment shall ever be a form of entertainment as it was in the Roman coliseum, because this can very easily be subverted into a tool for tyrannical intimidation of the people. Therefore, nobody may watch any public execution. It shall be a felony to record or promulgate the recording of any public execution.  
3/ The person executed may be shown before the execution, and his corpse may be shown after, but the actual execution shall not be shown or recorded.  
4/ Just as we shall always stand opposed to all form of monarchy, no matter how attenuated, we shall also stand opposed to all forms of execution or punishment as spectacle, no matter how attenuated.

R’169. THE BIG BANG
1/ We shall start the new parasite-free economy off with a big bang. Starting on Constitution day, we will:  
a/ Cancel all old tax obligations.  
b/ Cancel all old debt obligations.  
c/ Give every citizen the place they occupy.  
d/ Start building new cities.  
e/ Start building a new high speed steel-on-steel rail system.  
f/ Start storing up a decades-long food supply.  
g/ Start fighting the volcano scourge and begin terraforming the planet.  
h/ Focus exclusively on more and better and stop doing all things that augur towards less and worse.  
2/ Only when the economy starts revving into the power-band and inflation starts to rise shall the Senate impose the taxes it has pre-elected in standby mode.

3/ Most people will soon have a residence to mortgage, and many will have valuable company shares. So most people will have some capital to invest. It is imperative that everyone be able to mortgage (but not sell) their home and company equity straight away. Later, when the economy re-balances, and the Senate decides the economy is starting to rev, they will be able to sell their assets.  
4/ Everyone just keeps going, working as usual until the new Senate tells them to stop. this way the world keeps working. There shall be penalties for people who alter the way they do business, either in prices or the amount they give for the same price.

R’170. CITIZEN CAPITAL REAPPORTIONMENT
1/ To purge our economy of the parasite's ownership rights, there shall be a one-time wealth reapportionment according to the formulas herein. This is intended to wipe out all of Ishtar's ownership rights in our land, as well as all our debt obligations to Ishtar.  
2/ The ownership of all valuable things owned in our nation including all stock, bonds, mutual funds, loans, real estate, super-valuable personal property, options, derivatives, swaps, precious metals, and all other financial instrument shall be frozen. These shall not be bought, sold, optioned, leased, exchanged borrowed, or otherwise put under contract to exchange until the Over-Senate unfreezes the transactions in this class of asset. Those who attempt to circumvent these restrictions may be subject to both monetary penalty and imprisonment if the transactions are later judged extensive and outside the normal range of business transactions. Also, if they are Ishtarians they may be sent back to start the exodus process again.  
3/ All bank and credit accounts shall be frozen. However, these may be instantly and completely unfrozen and claimed by all who can speak English without a foreign accent and provide proof of identity. Those unable to do this may still continue to make regular payments, and each may continue to withdraw and spend as much as before.  
4/ All banks and depositories must stay open.  
5/ The Over-Senate may elect additional rules for this capital reapportionment with a 66% overmajority.  
6/ In general, the capital reapportionment shall be administered by the various county Senates with oversight by the national Senate.  
7/ People shall be expected to cooperate and work hard as they would in a natural disaster.  
8/ There shall be no option sales either on revelation or thereafter. All outstanding options shall be considered expired and worthless. Sales of options on or after revelation day shall be cancelled, and neither the buyer nor the seller shall get any money returned to them. Instead, Government shall get all the money.  
9/ Except as stated herein, all pre-revelation day business agreements and relationships shall continue on without change unless this is impossible. It is only the sale of large chunks of assets especially capital assets, equities, real estate, bonds, and derivatives that shall be halted.  
10/ Everyone in this nation shall be required to file a complete list of all their assets with their county recorder. Everyone claiming assets must have been the owner of record on the day before revelation day. All unclaimed assets, and assets not justifiably claimed shall be nationalized. Those who don't go on record as owning an asset shall have no right to to that asset in the future.  
11/ The rule shall be, business as usual, except that there are no debt repayments, rents, or taxes until the Senate re-imposes them.  
12/ In the beginning, our government will become extremely socialist due to the large amount of assets seized. However, over time, it will become much more capitalist due to the auctioning-off of long leases for these assets.  
13/ When immigrants move a great deal of money in an attempt to circumvent the re-apportionment, it shall weigh heavily against their immigration status when that is decided.  
14/ Ishtarians shall also be subject to a cleaving penalty depending on how slow they are to cleave.  
15/ Illegal aliens and those working illegally in our nation
shall not be given anything in the reapportionment. Also, what constitutes working illegally in our nation shall not be answered by the corrupt amnesty grants of past governments.

16/ Our military service people should not lose out on the reapportionment because they were on duty. They get their fair share too.

R'171. PROPERTY REAPPORTIONMENT
1/ Wherever people live, that place is now theirs, free and clear of all loans. This applies to all housing government and private, except military housing. This does not apply to lodging normally rented by the night. This does not apply to occupants that are non-citizens or provisional citizens unless they already own their dwelling.
2/ If you have more than one residence worldwide, you must choose one.
3/ If a business is renting a unit, it shall become the property of the business.
4/ All unclaimed, unoccupied, and 2nd home real estate shall become the property of the government unless the total square footage of all primary and 2nd homes is under 350-sqm worldwide.
5/ All real estate, company equity, bonds, and other assets that cannot be tied to a real flesh and blood person able to own things in our nation shall be nationalized.
6/ Government shall auction off its nationalized assets to raise money.
7/ Our nation is supposed to institute deflation, and there is supposed to be little possibility of making significant capital gains from speculating on one’s home. In addition, the new housing in our new super-efficient and inexpensive rail-based cities will cost much less than today's cities, so once that takes hold, there will be a great surplus of housing in the old inefficient and costly cities.
8/ Thanks to our tax system, large houses will become considerably more expensive to live in with no possibility of making capital gains. This will reduce demand for large homes.
9/ Those who use force to take over a place currently lived-in by another shall get nothing except time in prison.
10/ If an owner and renters are currently living in the same dwelling unit, the renters shall get 25% equity.
11/ The public purse shall be the only party that takes over the assets of the parasite, and all assets shall be disposed of through slow public auction with 4-days to overbid.
12/ It shall be a felony to misappropriate public property including property that is about to be nationalized.
13/ If people are already out on Revelation day, then they have no claim. If they are not yet out, then they become 100% owners. Those evicted on revelation day become 100% owners.

R‘172. IMMIGRANT AND EXHOD REAPPORTIONMENT
1/ No immigrant household shall keep more than 100 year's wages.
2/ No Exhod household shall keep more than 10 year's wages in assets no matter how fast they cleave.
3/ The wealth retained by Exhods shall be a multiple of how fast they cleave.
4/ All Ishtarian assets and wealth are hereby nationalized. The wealth of the Ishtarians was never really theirs anyway, especially the rich ones.
5/ Exhods found holding undisclosed Ishtarian assets or wealth shall suffer the penalty of unrepentant Ishtarians.
6/ All Exhods shall be subject to a 10-hour per week tax until 2035. No matter how much they work, the tax house first gets 10 hours at their rate. This tax is an incentive to get more exhods accepted around the world. In 2035, all shall be released from their bonds, and all of Ishtar’s slaves shall be totally free of their financial obligations to Ishtar.
7/ All excess wealth, but not all property, owned by Exhods, and all of their thumbs-men shall be nationalized according to another specialized set of rules herein that is significantly more confiscatory than that for normal citizens.

R'173. CITIZEN LOSS REINSTATEMENT
1/ All creditors that are human citizens or legal immigrants shall be reimbursed for their losses up to the maximum wealth they are permitted. Visitors, illegal immigrants, and those incarcerated shall not get anything. These citizens and legal immigrants shall eventually get their share of the national pie once the parasite-owned parts are nationalized and the calculations are complete. However, all parasite wealth and ownership rights shall accrue to the people. Also, these payments shall be limited by to the billionaire wealth caps called for herein.
2/ Native citizen households that suffer losses from the capital reapportionment may claim up to 1,000 year's wages in the reinstatement.
3/ Non-Exhod immigrant citizen households that suffer losses from the capital reapportionment may claim up to 100 year's wages in the reinstatement.
4/ All claims must be filed with the county recorder in the first 60-days after Constitution Day.
5/ The total claims shall be divided by the nationalization equity and expressed in labor units, or man-years at the average wage. The result of this calculation shall be expressed as a percentage. In the new economy, government shall make reinstatement payments to keep this percentage the same. The people shall get the remainder of the value of the parasite's assets that were seized.
6/ Nationalization equity shall be defined by recent values less:
a/ Monopoly value that will not survive in the new system.
b/ Bubble value that will not survive in the new system.
c/ IP monopoly value that will not survive in the new system.
system.

d/ Similar things that will not survive in the new system.
7/ Government shall float 4,000 labor units per capita. This shall represent 2-year's wages per citizen. This shall be issued in the name of public credit. This shall have a notional value of 4,000 hours of labor per citizen, approximately 2-year's wages.
8/ The reinstatement payments will only be a fraction of the gains from nationalization. Thus the reapportionment will be highly profitable for the people from the beginning.
9/ Tremendous financial advantage will accrue to the national economy when we erase the trillions of dollars in fake debt, the debt of last default, that the US, the EU, China and Japan owe to the Mideast. Thus we will all grow much richer.
10/ The portion of the nation owned by the rich shall not be larger under the reinstatement.
11/ Flesh and blood humans may claim losses they suffered as a result of losses to fictional citizens they own, however, fictional citizens themselves shall have not right to reinstatement from either the debt cancellation or the capital reapportionment.
12/ All fictional citizens must clearly list and total up their losses from this capital reapportionment.

**R'174. EMPLOYEE PROFIT SHARING**

1/ Leaving a sliver of the profit pie for employees can have no net cost. This is because the motivation and sense of inclusion generated by a 1% share of the profit pie shared by the employees will surly buy more than a 1% increase in labor productivity and inclination to help the enterprise. If we do the math, an 8.33-hour workday is 500 minutes, and 1% is 5 minutes. So if a 1% profit share leads to more than 5-minutes more work daily, or 5-minutes more productivity daily, or 5-minutes more quality daily, it is worthwhile for the enterprise's owners.
2/ Our nation shall now have optional Senate administered profit sharing for businesses. If any particular business declares that a certain percentage of its equity is employee owned, the Senate shall have the right to apportion that share of the company's dividends to the employees as it elects is fair, or it may follow management's recommendations, if any.
3/ Companies should proudly display their e percent, the employee profit share percent, because this indicates how motivated their workers are.
4/ The Senate should pay close attention to the various profit share percentages offered in the job market. It should regularly form an opinion about the most optimal profit share percentage for the various jobs. However, the Senate shall be prohibited from mandating any profit shares.
5/ The Senate shall help companies that are entirely employee owned by giving them an ultra low cost means of ousting non-performing members for well documented cause.
6/ When the Senate jury calculates profit shares it shall firstly consider documented valuable contributions to the operation of the enterprise. These are most important for the Senate and the long term viability of the enterprise, and these will be most rewarded under the Senate profit sharing plan. The Senate may also elect to award some of the profit share money based on or documented hard work. However, these payments are entirely at the discretion of a Senate jury.
7/ When the Senate apportions profit shares, this shall not be constant across the economy, or within any company. Also, the scarce and valuable knowledge workers are must get a much bigger slice than the plentiful unskilled workers.
8/ The Senate shall produce and promulgate standard approaches and metrics for employee profit sharing. The Senate may compel the use of these standard approaches among companies that opt for Senate profit sharing, with Senate oversight.
9/ The people and their public purse will now re-acquire a large share of the nation's corporate wealth when we re-acquire Ishtar's stolen equity. And we the people certainly believe in employee profit sharing as a motivating force. However, the portion of profit share awarded to each employee of the most valuable companies shall be limited to 20-year's wages. And as always herein, this is the average wage for our nation not including the top or bottom earners.

**R'175. GENE TESTING TO FIND HAREMI**

1/ The key enemies of freedom are mostly the offspring of harems. By nature, these offspring tend to have a number of same-father agnates, via many different mothers. The shared patri-mony is easy to see in Y-chromosome comparisons. Then once we have found some strings of brothers, the diverse matri-mony is something also very easy to see in genetic comparisons of these brothers. Thus we have a way to genetically test for Harem-bred males in our society.
2/ For this reason, everyone must be tested, recorded, indexed, and cross compared with everyone else in the world for genetic affinity. This is necessary so we can find all the Harem spawn living among us. All Semitic women and women in important positions shall also be tested, recorded, indexed and compared with the men that test as coming from a harem.
3/ Once we have done this, all the data shall be backed-up by all Counties. Each County shall keep a copy of the list.
4/ A year after the first testing, we shall test again, and make a second distributed data backup. This is just in case we miss some people.
5/ First to be checked are the people who are, or were in leadership or powerful positions, be they government, military, corporate, press, media, law, medicine, and academia among other powerful positions. Next will come everyone who looks in any way like they might be Middle Eastern. Next comes immigrants and all adopted
children. Next comes the general population.
6/ Anyone refusing to give a genetic sample for any reason may be conclusively regarded as Haremi and forced to give a sample.
7/ Each County shall administer the genetic testing of its own people in an anonymized manner. Each shall run its own cloned portable labs, digitize its samples and run them search-engine-fashion against all the Y-chromosome "keywords" posted by all the other Counties in the world. Thus each match will be revealed twice, once each from each side.
8/ The system shall use tens of thousands of known positives to test the testers.
9/ Each Centi-Nome shall work with all its neighboring Centi-Nomes to make sure that nobody is omitted and nobody recently residing at any address goes into hiding without an arrest warrant being issued.
10/ All Middle-Eastern people that test negative shall be double checked by another Centi-Nome. These re-checking Centi-Nomes shall be nearby and randomly assigned by a 2-ball blind draw of the National Over-Senate.
11/ No person who has Mideast ties may work in testing.
12/ The right to adoption privacy shall be considered entirely unimportant in comparison to finding all the Haremi. Everyone who has ever adopted someone either legally or informally must come forward and declare that fact or they may be held guilty of a crime.
13/ Adopted Haremi children who know nothing about their genetic patrimony and are not Islamic or affiliated with the parasite in any way should be noted, but nothing else.
14/ All adoptees from other nations shall be considered immigrants and must quality for citizen's rights when they reach adulthood like all other naturalized citizens.

R'176. PROTOTYPE CONSTITUTION
1/ This Constitution is intended to be a prototype for people in every land to muster a democracy under.
2/ If this Constitution is used with adjustments for another nation, all removed text should appear in strikethrough text, and all added text shall appear in bold immediately after. Thus China's version would begin: "WE THE PEOPLE of the nation of China, formerly known as the People's Republic of China".

ROMAP = Rules of mustering and propagating

R'177. SENATE MUSTERING
1/ This form of democracy was designed to make it easy for the people to claim their democratic sovereignty without any approval or preconditions set by those already in power.
2/ Under these mustering rules, valid elections, and valid democracies arise as an outcome of a majority of the voting citizenry mustered in structured protest where they elect interim Senators under the new Constitution attached.
3/ Once a majority of the voting citizenry is mustered and has elected interim Senators, those interim Senators will take control of the nation and oust the existing government. These interim Senators will run a new interim democratic government as stated herein for approximately one week, while the nation sits down to elect and propagate a real democratic government.
4/ The national quorum point for mustering a new democracy shall be half of the native citizen voter turnout in the biggest national election of the past 4-years. However, because the United States has been subject to widespread voter fraud in the 2020 election, the turnout number shall not be: 160 million, the recorded 2020 voter turnout, but 137 million, the 2016 voter turnout. This is up from 106 million (2000), and 86 million (1980). Half of the 2016 turnout is ~68.5 million people. Also, the native citizen voter turnout is less than this, so the quorum point should be more around 60 million mustered rather than 80 million mustered.
5/ The day the quorum point is crossed, shall be called Constitution Day, the first day of the new Constitution. At that point, this new 2021 Constitution shall be valid and it shall supersede the corrupt 1789-era, 2.0 version of the United States constitution.
6/ The mustering process automatically elects a vast number of Senators. This is sufficient to run the nation at the quorum point.
7/ In nations where the deposed government are dictatorships, oligarchies, theocracies, anarchies, or governments engages in widespread violence or threat of violence against a peacefully coalescing broad democracy, only 25% is enough to muster up.
8/ The new democracy musters up into voting units called MUSTERING-NOMES. These will have a minimum size of 250 citizens and a maximum size of 500. If there are more than 500 citizens in a Mustering-Nome, it needs to split in two.
9/ Each Mustering-Nome will elect a Temporary Mustering Sub-Senator who shall represent a variable number of voters between 250 and 500, that count towards reaching the National Quorum Point. Thus a temporary government will muster up, or form up out of an increasing number of temporary Mustering-Nomes and their temporary Mustering Sub-Senators. When the nation's electorate reaches the Quorum Point, call it 60-million, that will be a about 160 million Mustering-Nomes and 160,000 Mustering Sub-Senators, representing an average of 375 voters each.
10/ Those mustering up shall sign their name and write their name, address, phone, email, and driver's license, national ID, or passport number on the Senator's representation mandate sheets. These shall say, "I accept that Senator-XXX has been elected by my Nome of XXX citizens. This person is my rightfully elected mustering Sub-Senator. I swear I have mustered under only one
Nome and elected only one mustering Sub-Senator.
11/ The Mustering Sub-Senate shall use base 10 election checking/monitoring for its membership. Thus each Nome will be checked by 9 other nomes.
12/ The penalty for total or near total falsification of election documents in order to impersonate a Senator shall be 20-years in prison. It shall also be a felony to muster under more than one Nome, or elect more than one Sub-Senator.
13/ As a broad democracy approaches the Quorum Point, its progress should be announced and graphed. A rapid rise in the percentage of the electorate voting for a Broad Democracy will be hard to dispute and will help to peacefully sweep the old government away.
14/ Once the Quorum Point has been reached, the 160,000 or so Mustering Sub-Senators will take control of the nation and rule until proper elections can be held about a week later. During this time, the transition government shall not engage in new business, or begin initiatives. It shall not sell or buy assets, or commit the government to long term obligations. It shall only manage ongoing business and deal with emergency situations until a permanent government can be formed through the election process explained herein. It also shall not engage in any new military initiatives, but it may command the military in ways that are clearly defensive.
15/ The Mustering Sub-Senate will meet every day without a day off from 9:00am until 9:00pm with 1:00 to 2:00 off for lunch and 6:00 to 7:00 off for dinner, until normal elections can take place. In no event shall normal elections take place more than 12 days after the Mustering Sub-Senate was elected.
16/ All votes in the Mustering Sub-Senate and in the first Senate term shall be cast openly by lining up behind a candidate with a placard. The results from each voting centers for each sluice will be tallied up and posted online with no recording of who voted how. It should be noted that right from the start, our government will have 10 thought channels instead of one. It should also be noted that none of our single-term decision makers will need campaign contributions for re-election.
17/ The Mustering Sub-Senate shall not have the power to make constitutional changes. And the Senate shall not have the power to make constitutional changes unless it is voting secretly.

R'178. SENATE PROPAGATION
1/ Once the Quorum Point has been reached, there shall be a two-day notification period where all daily print publications, TV, radio, search engines, and other media including all email accounts are required to use the 1/5 of their display for notification of mustering. Newspapers and search engines must display this headline: “Muster-up, entire nation required to assemble and elect new government”. On the next day, 3-days after the Quorum Point has been reached, every person in the nation shall be required to muster up, to self-organize, and join and sign up a 250-voter neighborhood Nome group somewhere in the nation. And all the kids and old people get noted. Every human in the nation gets censused. With their birthday, their primary key number, their place of birth, their former citizenships, their current citizenship, their photo, and thumbprint. If you are disabled, they will send people to census you on video. But every person in the nation gets counted and divided into groups of 250 voters. This shall be a census with mandatory participation. People will be encouraged to abstain from casting a vote, unless they have a definite but they will have to register and join a Nome somewhere, or have a valid excuse. Failing that, they will have to suffer 3X the normal 40-hour, universally-enforced public service penalty for not attending the vote.
2/ For the following 3-days after the Quorum Point has been reached (days 3, 4, and 5), there shall be a one-time, 3-day national holiday. Except for critical services, all voting age people in the nation shall be required to stop doing whatever they were doing and assemble into neighborhood Nomess to elect Sub-Senators. Part of day-3 will be spent organizing and balancing Nomes. (Especially with this first election, it is not so important that everyone vote in the closest Nome to where they live.) For the remainder of day-3, and the following 2 days (days 4 and 5), all candidates will speak to their Nomess once for up to 5 minutes. After this people mingle and talk, or they may refer to posted writings or posted videos. At the end of day-5 at 6:00 pm, the nation will elect its first Sub-Senate by open line vote, with the people lining up behind the candidate of their choice.
3/ This new Sub-Senate shall not replace the Mustering Sub-Senate immediately. Instead, in the evening of day-5, the new Sub-Senate will balance out into Centi-Nomes.
4/ At the start of day-6 and for most of day-7, the Sub-Senators take turns speaking for up to 90 seconds each. All shall wear their randomly drawn number 1-200 and their name. As there are 200 Sub-Senators in a Centi Nome, this speaking will take about 300 minutes or 5-hours. For the remainder of the day the Sub-Senators will mingle and ask one another questions and discuss their views. At the end of day 7, at 7:00, when they come back from dinner, they shall vote and elect Ten (10) Main-Senators as follows: Each of the Sub-Senators shall put a single sheet of identical paper into a ballot box with up to 30 candidate numbers handwritten in place, that he wishes to vote for. This is placed on a pile on a desk that people file past placing their folded ballot sheets. Then the pile is shuffled 4 times. Then the pile is counted in redundant line fashion. The 10 people with the most votes then become that Centi-Nome’s Main-Senators. The lowest scoring man of these 10 from each Centi-Nome gets a number ending in 1 and rotates out first, the highest scoring rotates out last. Ties shall be decided by the Main-Senator with the most votes. If there is a two-way tie, they shall decide by rock paper scissors. If there is a tied vote involving three or more Senators, there shall
be a run-off election.
5/ These speeches, as with all Senate speeches, must all be recorded and put online for re-viewing by the Senate and people.
6/ On day 7, the ten Main-Senators shall each talk or answer questions for up to 30 minutes among themselves. After this they shall all talk and ask one another questions. Then they shall break for dinner. When they return from dinner at 7:00 pm they shall vote one of their 10 as their Centi-Nome’s first Over-Senator. At 8:00 pm, the new government takes power and replaces the Mustering-Senate, fully propagated.
7/ It will thus take 7 days from Quorum Point to elect a new government for the nation. During this 7-day period, the Transition Sub-Senate will serve as the nation’s government.
8/ The 1st Senate term shall be for a bit longer than one tenth (38 days), from day 7 until day 45. During this term, the Senate shall operate at ten times normal speed. Thus instead of serving for 10 tenths as normal, this first Senate term shall only serve for one tenth. During this first Senate term, both the Sub-Senate and the Main-Senate will hold ranking elections at ten times the normal speed. These will occur at the end of days 12, 16, 19, 23, 27, 30, 34, 38, 41, and 45. In each election, each voting house will elect 1% of its members to the next highest house.
9/ The 2nd Senate term shall be for 2 tenths, from day 46 until day 118, and it shall operate at five times normal speed. At the end of days 53, 60, 67, 74, 82, 89, 96, 103, 110, and 118, each voting house shall elect 1% of its members to the next higher Senate.
10/ During the 1st and 2nd Senate terms, all national Over-Senators shall also serve as our nation’s UM Main-Senators. These shall all shift over to exclusively UM duty as they cycle out of national Over-Senate service. During this term, the UM shall operate without its own Main-Senate.
11/ The 3rd Senate term shall also be for 2 tenths, from day 119 until day 191. It shall operate at five times normal speed. At the end of days 119 126, 133, 140, 147, 155, 162, 169, 176, 183, and 191, each voting house shall elect 1% of its members to the next higher Senate. At the end of the 3rd Senate term, the UM Over-Senate shall grow to be fully propagated. Thus by day 191, the world’s government will be fully propagated.
12/ From day 192 until the end of year 5 the Senate terms shall be for 5-tenths. Senators elected before the 5-year anniversary will serve for only half a year. We are doing this because:
a/ To start, the nation’s senators shall be expected to work longer hours and nearly every day.
b/ It is more corruption resistant to have such short terms.
c/ Unless we do this, there will not be enough sires available.
13/ It shall be expected that in the 1st Senate term, all levels will work in over-drive mode. The Sub-Senate shall meet on at least 85% of evenings, and the Main-Senate and Over-Senate shall work 12-hour days every day.
14/ It shall be expected that in the 2nd and 3rd Senate terms, all levels will work in over-drive mode. The Sub-Senate shall meet in at least 70% of evenings, and the Main-Senate and Over-Senate shall work 10-hour days every day.
15/ It shall be expected that in the 4th and 5th Senate terms, all levels will work in over-drive mode. The Sub-Senate shall meet in at least 60% of evenings, and the Main-Senate and Over-Senate shall work 10-hour days in at least 85% of day for the entire first term.
16/ Senate service excuses everything. There is nothing in our nation that does not go on hold for people who are elected and drafted into Senate service.

R179 NON-VIOLENT PROTEST
1/ When the people gather in great mostly peaceful numbers as they proudly did in Hong Kong, Barcelona, and Tiananmen, it shall be thought a glorious and sacred thing that is pointed straight up, for us in the land of the free. Those who menace and threaten peaceful protesters shall be seen by all as tyrants and the enemies of freedom.
2/ We shall immortalize the words of Xi Jin Ping and the Chinese Communist Party: “Crushed bodies and shattered bones”. These words were said to the democracy protesters of Hong Kong when China threatened another Tiananmen massacre. This direction is straight down to us in the land of the free.
3/ Protesters shall not wear a uniform or same color clothing as this supports protest crime. Protesters shall not wear face coverings, even for reasons of religion or infectious disease.
4/ When large numbers of protesters approach people in a menacing way, or they are smaller groups threatening with words, even vague words, the crowd itself may be seen as a weapon. Protestors are required to make every reasonable effort to avoid contact with isolated opponents.
5/ The right of protest shall never be a violent force that can be directed at individuals or small groups. For when this happens, we have started down the road of intimidation and fear that created the power vacuum that the Nazi regime came to power in. This regime came to power in a very large part because their opponents were so often “hit on the head”, or threatened.
6/ The right of our leaders to be safe from threat of violence is obviously a first-order protection for our democracy. Without this, it is a step towards SA empowerment. (The SA or Sturmabteilung was the thug army that brought Hitler to power by silencing his opposition.) Therefore, the right of protest shall not include the right to menace political opponents in any way.
7/ There shall be no right for protesters to go to people’s homes, even as individuals, or for protesters to menace
or confront individuals and groups in the street, or during their meals or errands. And this protection shall expressly apply to all leaders, lawmakers, political figures, authors, critics, commentators, media producers, talking heads, judicial people, police, and those accused, but not convicted of a crime.

8/ False anarchy often presents itself as a disorganized mob. Where this mob is used to overpower or influence elected people and true leaders — this is one of the most vulnerable points in a democracy. For this has ended many democracies.

9/ When a protest is peaceful, the burden of proof lies with police, and penalties shall lean towards the minimum. When a protest is considered violent, or a riot, the burden of proof lies with the violent protesters as much as reasonably possible, and the penalties shall lean towards the maximum.

10/ Protest should never be an excuse for violence. The right to protest is the right to protest without violence. Non-violent protest is perfectly fine for democracy. Violent protest is bad for democracy. Protest violence normally gets double penalties.

11/ No sign posts are allowed at protests. All signs must be on non-weapon sheet material such as cardboard or foam plastic with no sharp edges. No plywood, metal or timber backed signs are allowed at protests.

12/ There is no place at protests for any weapons or even potential weapon. Prohibited protester weapons include: firearms, bullets, firearm replicas, paintball guns, squirt guns, toy guns, bombs, firecrackers, fireworks, flares, lighters, matches, accelerants, pepper spray and other irritant sprays, electric shock devices, knives, folding knives, razors, axes, chains, scissors, pry bars, screwdrivers, pliers, rocks, bricks, canned food, sticks, picket poles, clubs, bats, hammers, saws, wrenches, metal spikes, nails, screws, glass bottles, broken glass, helmets, face shields, hoplite shields, body armor, bullet-proof vests, knee or elbow pads, heavy or hard-edged footwear, skateboards, bicycles, motorbikes, gloves, wire, rope, drones, quick-ties, hand cuffs, slingshots, ball bearings, marbles, cleaning fluids, body fluids, noxious fluids, sprays and gasses. At protests, the definition of what constitutes a weapon shall be much broader and more inclusive than normal. People may bring their wallet, keys, communicator, medications, soft plastic water bottles, soft food, and not much else.

13/ There shall be no bags, backpacks, suitcases or other means of concealing weapons at protests.

14/ There shall be no open fires at all at protest, including flag burning, effigies, and street bonfires. Starting, tending, or spreading a fire at a protest shall be considered as arson. Those carrying incendiary devices or burning objects at protests shall be presumed to be arsonists. The penalty for possession of fire accelerants at a protest shall be 30-years. The penalty for possession of a lighter, matches, or other fire-starters on one’s person at a violent protest shall be up to 5-years.

15/ Those distributing weapons at protests, to include rocks and bricks, get 20-years. Those recorded or witnessed at protests with rocks, or similar throwing objects in hand, or in their possession get 2-years of work camp. Those recorded or witnessed at protests causing breakage damage or looting get 5-years in work camp.

16/ Nothing weakens a protest like vandalism and destruction. So when part of a protest turns to looting, violence, or arson, the peaceful part has an obligation to flee (both physically and in unequivocal words) from the violent part. This is so the violent part may be more easily separated and punished. When peaceful protesters fail to separate immediately they may be held to be supporters and shielders of the violent protesters.

17/ Committing crimes in the name of protest is the opposite of justification. Those who commit crimes at a protest shall generally suffer double penalties for property crime and altercations without serious injury. They shall generally suffer triple penalties for violent crime to include arson, attempted arson, and weapons possession.

18/ When a mob runs riot through a city committing widespread vandalism and destruction, all who ran with them may be charged as co-conspirators.

19/ During times of protest, entering a business or home that is obviously being looted shall be enough to make a person a looter. The only except is when people are live streaming faces to police or the recorder.

20/ Those convicted of throwing water balloons, or using a squirt gun, or making menacing gestures, or throwing food or following people trying to get away from a protest, or similar micro-assaults may have to do up to 1,000 hours of community service per count.

21/ If recent protests have been violent, then government may require that all protestors pass through a metal detector. However government may not delay people more than 10-minutes for this.

22/ There shall be no night time protest from 20-minutes after sunset until sunrise. People can camp-out, but the marching through the streets and public speaking, one person to the crowd, that must stop 20 minutes after sunset.

23/ The right to assemble is the right to assemble openly, and unmasked. All who protest must so openly and they shall have no right to privacy. Also, all protesters may be freely recorded, and their images freely promulgated without consent or compensation. The penalty for wearing a mask, including a gas mask, at a protest shall be 40-days in jail + a fine of 3 month's pay. If the person has no money, then the penalty shall be 2-years in work camp.

24/ There shall be special protections for individuals and small groups when their legitimate protest and participation in the public discourse brings even extra-judicial threat and menace. Memetic diversity must be preserved in the group mind, and small groups are especially vulnerable to extra-democratic coercion and menace from aggrieved parties.
Main Senate and the Over-Senate in one tenth to indicated. It shall take a 2/3 overmajority from both the included in this constitution. They shall be on or off as indicated. It shall take a 2/3 overmajority from both the Main Senate and the Over-Senate in one tenth to switch a variable clause on or off.

Option 1. +ON+ PANTHEONS
1/ In order to minimize the divisions of mankind and maximize the brotherhood, our nation shall require that all religions use the same public houses of worship. No religion shall maintain its own physically separate places of worship in our nation. All houses of religion and worship shall be owned and managed by the Senate and people regardless of who built them or once owned them. All houses of religion and worship shall be open for use by all religions, and all shall be shared by all religions. 2/ Shoes and shirts must be worn, and the knees and shoulders must be covered in all pantheons. The head and face shall not ever be covered. 3/ There shall be no separations of men and women. 4/ There shall be no talking or yelling or audible preaching. All preachers must communicate via silent disco headphones so the nation's pantheons can be better shared by everyone. 5/ Everyone shall respect everyone else's services. 6/ There shall be no carpets, seats, or loudspeakers in any public pantheon. 7/ No candles or incense may be burned and no animal shall ever be sacrificed. 8/ The ancient round and isocratic Pantheon of Rome is so well preserved because this idea was tried before and people loved it. People have loved this idea for almost 2,000 years, so it is quite a well tested idea. Ishtar of course always struggled in the other direction, towards the separation for man in a way it could profit from.

Option 2. +ON+ ISLAM AND JUDAISM BANNED Islam and Judaism are also hereby declared criminal ideologies and their practice is hereby outlawed. All aspects of these religions are hereby prohibited in our nation, and all their structures, religious infrastructures and artifacts shall be destroyed, and the foundations ripped out.

Option 3. -OFF- THE CATHOLIC RELIGION BANNED All aspects of the Roman Catholic church are hereby prohibited in our nation, and all Catholic structures, religious infrastructures and artifacts shall be destroyed, and the foundations ripped out.

Option 4. +ON+ NO FGM IMMIGRANTS:
All immigrants from FGM nations must go for annual gynecological exams from birth. When a female is mutilated after immigration, her parents, grandparents, all siblings, all half siblings, and all offspring of the female shall be deported, along with the female. No exceptions.

Option 5. +ON+ NO CLAN HEGEMONY:
All Senators shall be genetically tested and compared for family relationships before they may begin their Senate
service. No clan comprise more than 1 per mil of any sluice.

**Option 6. -OFF- ARABS IN STRATEGIC POSITIONS:**
Except for immediate cleavers, all Haremi, anyone born is Arabia's empire, and anyone with an Arabic accent shall be prohibited from working in, or having ownership rights in the following industries, occupations or places of business, unless granted permission from the Senate:
1/ Media.
2/ Publishing.
3/ News reporting.
4/ Arms manufacture or weapons systems.
5/ Military command or intelligence, except as a translator.
6/ Government decisions, approvals, management, inspections, or prosecutions, unless elected to the Senate.
7/ Aerospace.
8/ Micro-electronics and semiconductors.
9/ Water supply.
10/ Food supply.
11/ Petroleum, coal or fuel.
12/ Commodities.
13/ Below ground minerals.
14/ Government contractors.
15/ Explosives or munitions.
16/ Government money doling or taxation.
17/ Charity benefits doling.
18/ Environmental services, testing, or toxic remediation.
19/ Chemistry or chemicals.
20/ Nuclear materials.
21/ Power generation.
22/ Airports and aircraft maintenance.
23/ Railroads and public transit.
24/ Financial markets.
25/ Investment funds.
26/ Money lending.
27/ Government intelligence gathering.
28/ The recorder's office.
29/ The patent office.
30/ Advertising.
31/ Vehicle or industrial design.
32/ International trade.
33/ Communication systems.
34/ Public infrastructure management.
35/ OPM management.
36/ Chief officers in any fictional citizen they did not found.
37/ Board of directors in any fictional citizen they did not found.
38/ Transportation, except for deliveries to the end consumer.
39/ International trade.
40/ Distribution.
41/ Immunology or pathogen research.
42/ Pharmaceuticals.
43/ No Arabs, Haremi, Muslim, or Mideast or person may appear or speak, or narrate in the new.

**Option 7. -OFF- DEPORTATION ROUND #1:**
All Exhods that arrived after 2019.09.11 shall be deported.

**Option 8. -OFF- DEPORTATION ROUND #2:**
All Exhods that arrived after 2015.09.11 shall be deported.

**Option 9. -OFF- DEPORTATION ROUND #3:**
All Exhods that arrived after 2011.09.11 shall be deported.

**Option 10. +ON+ NO MEGA ZILLIONAIRES:**
1/ No person or family may possess more than 50,000 year's wages in assets. Shares in companies one founded shall not be counted under this rule until they are sold or exchanged.
2/ The public can condemn or ubiquitize anyone out of all or part of their assets, including IP by paying them the maximum wealth amount.

**Option 11. -OFF- NO ZILLIONAIRES:**
The limit amount of the previous Option 11 shall be 5,000 year's wages in assets instead of 50,000 year's wages in assets.

**Option 12. +ON+ POST BIRTH ABORTION:**
Government shall not burden the people of our nation and discourage them from having children by forcing everyone to bring up severely malformed offspring. For 7-days after birth, Mothers shall have the right to humanely euthanize their newborn offspring with profound birth defects, but only according to the standards set by the Healthcare Sluice, and as decided by a vote of 6 of 11 Senator jurors that are experienced doctors or nurses. This clause shall apply to all clear cases of Zika microcephaly, Down Syndrome, and conditions associated with mental retardation that are more severe than high-functioning Down syndrome. It shall also always apply when the child is born both severely damaged and sterile, or when the child will need more than 5 rounds of surgery, or is expected to require help with least 2 hours of care each day for the rest of its life, or when the child is not expect to live past age 30.

**Option 13. +ON+ COLLEGE EDUCATED MOTHER BENEFITS:**
Women that pass Senate's tertiary education test shall be given child benefits for up to 4 children.

**Option 14. -OFF- 2ND CHILD BENEFITS:**
Child benefits shall be paid for two children per woman regardless of the father.

Option 17. -OFF- GENDER INEQUALITY:
1/ The essence of sexual reproduction is that half of a species is specialized for reproduction, while the other half is specialized for selection. Therefore, male selection in all creatures tends to be slightly more rigorous than female selection. This is why males tend to be slightly bigger, stronger and more aggressive than females across the animal kingdom. And among homo sapiens, where our defining characteristic is our sapience, this is why a small sliver of males are more sapient than any female.

2/ In our nation, the two genders shall generally be regarded as equal under the law, and with equal rights,
for extra-ordinary crimes. However, the use of torturous punishment shall only be used in the following cases, and each person put to death in this way shall require a majority vote from the Judicial Sluice of the national Main-Senate:

1/ Those who illegally traffic in nuclear, chemical or biological weapons or their key ingredients, or attempt to make these.
2/ Those who participate in fatal acts of mass terrorism.
3/ Those who have tortured others to death, or to extreme outside the judicial system.
4/ Those who abduct and lock up a sex or sadism slave for more than 10 days.
5/ Those who sabotage the nation's war weapons, war preparations, or transportation systems in war.
6/ Those who have committed first degree murder three or more times.
7/ Those who kill or gravely harm people for standing witness, or for judging on behalf of the people.
8/ Those who harm cleaved Ishtarians to avenge Ishtar.
9/ Those who use violence or threat of violence to seize or hold control of the national government.

OPTION 23. +ON+ ONLY NATIVE CITIZENS MAY VOTE
Only citizens born as citizens may vote in our nation’s elections. If this clause is turned off, then only people who have been immigrant citizens for more than 17-years may vote.

OPTION 24. +ON+ AUTOMATIC FIREARM CARRY
In lawless counties and neighborhoods where the homicide rate is over three times the national average as mapped by the national Senate, there shall be limited automatic carry rights. In these places, everyone able to own a firearm can carry a firearm so long as the following 5 conditions are met:
a/ Police style gun cam with recorder backup.
b/ Location tracker.
c/ It registered bullets and shells with special head shapes.
d/ The firearm remains concealed while in public, except when it is needed.
e/ The person carrying shall not carry counterfeit bullets.

2021 UM CONSTITUTION

WE THE PEOPLE of the UM, or United Majority of the free world hereby establish this 2021 UM Constitution for our democratic world government. This Constitution and the laws made under it shall be the supreme law of the free world. This 2021 UM Constitution is intended to be used with the 2021 American Constitution, with generally only the names, places and optional rules changed for each nation.

A'1. SEVEN MEMBER BLOCS
The UM shall be a system of generating international consensus through 7 equally-powerful continent-scale voting blocs. Each of the 7 blocs shall all have an equal vote, even though they have variable populations and a variable number national Senators. The blocs shall be: 1/ English and French speaking America. 2/ Spanish and Portuguese speaking America. 3/ Roman alphabet Europe. 4/ The former USSR, and Cyrillic alphabet Europe. 5/ China, Taiwan, Tibet, and Mongolia 6/ India, Sri Lanka, Nepal, Bhutan. 7/ Africa, and all other parts of the free world including Australia.

All nations listed herein below as being in the PU or Parasitic Union shall be excluded from the UM unless the UM elects to admit them. This is because their natural inclination and agenda is diametrically opposed to that of the UM’s natural agenda. The PU shall however never form a voting block, and its members must join the other voting blocks of the PU.

A'2. SENATES
The UM government shall be composed of two tiers of Senate: UM Main-Senate, and UM Over-Senate, collectively called the "UM Senate". The representation ratios shall be as follows for a UM of 4 billion voters:

UM Main-Senate 1-in-25,000 voters, or about 160,000 UM Main-Senators serving at any one time, assuming an electorate of 4 billion voters.

UM Over-Senate Each of the 7 member blocs shall elevate 8,000 UM Main Senators to serve for 2 years. Thus 56,000 UM Over-Senators will be elected each year, and there will be 112,000 Over-Senators serving at any time for two years. This is the narrowest Senate of the new world government, and each of the 7-member bloc will have 16,000 Senators serving at any one time. As Over-Senators cycle out of their year of service in their various member nations, all automatically shift over to UM for one year of service in the UM Main-Senate. Then at the end of their one-year term in the UM Main-Senate, the top ranked 800 Main-Senators in each voting-block, in each teneth, shall then be elevated to the UM Over-Senate for two years of service. In this way, our world government will be a broadly represented, and continuously elected outgrowth of our own trusted national Senates.

A'3. UM MAJORITIES
This UM or United Majority is intended to rule by consensus and to do the things that the entire non-Islamic, non-Islhtarian, non-parasitic world can agree on. To this end, the UM Main Senate shall require a 60% Over-Majority in all 7 voting blocks to take action. If a vote fails to get the required overmajority in any of the 7 blocs, it shall be enough to prevent the UM from taking action.

A'4. TYRANNY EXCLUDED
Only tri-elected Over-Senators elevated from a standard 1-in-25,000 democracy shall become UM Main-Senators and participate in decision making at the UM. Nations that don't muster up into a standard 1-in-25,000 democracy can't participate in the international decision making process until they muster up. These nations must suffer the international rules imposed by those who rapidly muster up and are admitted to the UM. In order to be considered a standard 1-in-25,000 democracy, the national democracy must have and enforce the following essential design features to the satisfaction of the UM:

1/ Incorruptible open Nome elections by openly lining up behind candidates.
2/ No secret voting by the public. All public votes must occur under video monitoring to prevent election fraud.
3/ There must be secret legislative voting, and the votes of the individual Senators shall never be recorded.
4/ Freedom of speech and information.
5/ Freedom of the press.
6/ Freedom of assembly.
7/ The right to bear arms.
8/ Freedom from all libel and defamation laws.
9/ Annual terms for all Senators.
10/ Continuous Government cycling on teneths.
11/ Elections based on personal acquaintance.
12/ Minimum 10-slice Main-Senates.
13/ Regional legislative voting centers.
14/ UM-approved Senate ethics training.
15/ Strict enforcement of Senate ethics rules.
16/ Sophosites each teneth on divisive issues.
17/ No presidents, monarchs, or department tzars.
18/ A broad Over-Senate acting as supreme court.
19/ No oligarchies in legislative matters.
20/ No oligarchies, except in minor judicial or executive matters.
21/ No appointees in positions of power.
22/ No person or group with any power over the Senate.
23/ No lifetime positions of authority in Government or any public position of authority.
24/ No inheritable positions in Government.
25/ No selling of positions in Government.
26/ No profiting from positions in Government.
loans, emergency response, disaster preparedness, emergency food supplies, infrastructure development, child services, public dole, one child enforcement.

Socialist Sluice (SS): Global economic development, child services, public dole, one child enforcement, emergency food supplies, infrastructure development loans, emergency response, disaster preparedness, earthquake resistant structures, ubiquitization of goods that are not informational in nature.

Government Property Sluice (GPS): All UM properties, including infrastructure, nature reserves, communication utilities, transportation, commerce infrastructure, international rail backbones, international roads, pipelines, management of the oceans, and new UM world-cities.

Anti-War Sluice (AWS): Global arms manufacture regulation and inspection, global arms sales, post war disarmaments, easy-rust firearms, military strength auditing, universal militia training, UM military intelligence and security, anti-terrorism, civilian aviation, actions against military threats, UM organization of military actions.

Judicial Sluice (JS): Adjudicates disputes between nations not related to trade and commerce. Writes and modifies the UM's criminal code and sets UM standard criminal penalties. In all member nations, the UM's Judicial Sluice shall have the right to conduct additional investigation in matters of corruption, international crime, war crime, monopoly crime, environmental crime, predatory pricing, and involvement with Ishtar and the PU.

The JS shall also have the right to Monitor, inspect, record, and report on any criminal-justice or money-court proceedings, jails, prisons, work camps, and other facilities for holding people accused or convicted of crimes in all member nations. The Judicial Sluice staff shall be permitted to meet privately with prisoners in all member nations to determine their identity, and to ask questions about the nature of their crimes and any abuse they may have suffered.

The UM judicial sluice shall not have the power to issue pardons, however it shall be able to void money court judgements in member nations. The JS shall not consider matters of constitutionality. UM Constitutionality is the sole domain of the UM Over-Senate, and then only in so far as suspension from UM membership benefits.

Knowledge Sluice (KS): Communication infrastructure, education, research funding, schools, colleges, workforce development, ubiquitizations, public textbooks and tutorials, education standards, testing, job safety, libraries, intellectual property recording and enforcement. The UM's Knowledge Sluice shall have a budget equal to at least 10% of the UM's tax income. This it shall award this to those who help develop humanity's knowledge base.

Gaian Sluice (GS): Earth science, resource science, UM-managed mineral extraction reserves, gaimetry, gaia-forming, the up-scaling of machinery, infrastructure.
and human material output.

A'6. UM MAIN-SENATE ROLES
1/ The UM Main-Senate and only the UM Main-Senate shall make the laws of the UM. The UM Over-Senate shall not have the power to make any laws.
2/ Lay and collect taxes and fees and spend money within the single-number budgets set by the UM Over-Senate.
3/ Regulate commerce, business, and trade among member nations.
4/ Issue an international currency and float the value thereof, and punish counterfeiting and account fraud.
5/ Determine and log the ultimate ownership of all real estate, all fictional citizens, and all significant asset in the world. Conduct universal and individual audits to determine the ultimate ownership of all real estate and all other assets in the world, as well as the wealth of all people and fictional citizens in the world. To be clear, the term fictional citizen means both for-profit and not-for-profit entities, and does not exclude religions, charities, endowments, colleges, research foundations, or any other entity that is not human.
6/ Seize illegally-obtained or unjustly-obtained assets and ownership rights including those held by PU people.
7/ Mark-down and mark-up classes of debt to modulate inflation.
8/ Ban, discount or void the value of entire classes of debt, financial obligation and equity ownership.
9/ Freeze and seize entire classes of accounts and account holders.
10/ Establish product standards, as well as standards of quality, weights, measures and ratings. Standardize commercial practices among member nations.
11/ Establish public railroad, road, shipping and delivery systems. Establish communication and information systems.
12/ Establish new cities financed by special property tax districts.
13/ Condemn land to establish new transit based cities. Sell this land at a markup, and impose special property tax districts to recover the cost of building the infrastructure, and to finance ongoing government programs, as well as UM government.
14/ Condemn and impose special taxes on areas that are unsafe due to natural hazard.
15/ Tax, sell, and lease out UM land and buildings.
16/ Break up and smithereen monopolies and cartels.
17/ Impose special taxes to prick speculative bubbles. The Senate shall be required to take action whenever it identifies speculative bubbles.
18/ Ubiquitize the various needs of the people as practical.
19/ Grant monopoly periods for inventors, authors and discoverers, and award public recognition to these for their contribution to the good of all.
20/ Promote progress in science, technology, industry and education.
21/ Create manufacturing, nature, and mineral extraction reservations and processing.
22/ Provide for the common defense and general welfare of the world. The UM shall not however be allowed to have its own military.
23/ Give loans, aid, and arms to member nations struggling to be free.
24/ Make laws concerning terrorism, piracy, and those captured in war. Make laws concerning crimes against humanity.
25/ Write the UM legal code and set penalties. This shall be written entirely de novo, and from scratch, and in such as way that it requires no experts to interpret. The entire legal code, together with all commentary, explanations, example, and teaching material shall be posted online for free anonymous downloading and copying. The UM legal code shall not copy any text from the Roman law, also known as the Code of Justinian which the Arabs wrote just before they initiated the European Dark Ages and the great age of Islam.
26/ Compile a list of laws that are prohibited among member nations.
27/ Administer the UM's world court to adjudicate disputes between nations.
28/ Fight pirates on the seas and on land sphinxes such as Suez and Panama.
29/ Search lands where people are frequently locked up and kept as slaves.
30/ Ban certain weapons and military tactics that kill indiscriminately. Create rules and penalties for the armed forces of member nations and PU nations.
31/ Help repel invasions of member nations. Help subdue anti-democratic movements. Help repel violent seizures of government power under force of arms among member nations.
32/ Regulate all trade and commerce with the PU.
33/ Require that member nations impose minimum tax levels.
34/ Compel individual nations to take action when a majority is reached in 7 of 7 voting blocs.

A'7. UM OVER-SENATE RULES
1/ To define the overall problems, directions, objectives, and ambitions of government. To make plans for the UM and statements of UM policy, direction and objectives.
2/ To evenly apportion and balance duties, workloads, and authority among the various Sluices of the UM Main-Senate. The similarity of tasks is less important than the balancing of the workload.
3/ To Adjudicate or resolve conflicting and overlapping jurisdictions, laws and implementations among the various UM Sluices.
4/ To set the overall single-amount spending budget for the UM and for its 8 sluices. To set the taxation levels for the UM. These budgets shall not be divided or partitioned in any way by the Over-Senate. Except for this overall budget function, and the inter-sluice duty and workload
allocations, the Over-Senate shall be prohibited from imposing any particular implementation, or spending requirements, or making any demands whatsoever on any Sluice's policies. Except in matters of constitutionality, and Senate power divisions, the Over-Senate shall not have any veto right or control over the Main-Senate.

5/ The UM Over-Senate (UMOS) shall be prohibited from making laws. Only the UM Main-Senate shall have the power to make laws.

6/ There shall be no Over-Senate veto of Main-Senate spending or Main-Senate laws unless they are reasonably elected as unconstitutional by the Over-Senate, or the Main-Senate elects that the laws of one sluice are in conflict with another sluice.

7/ In the event of conflict between clauses of this constitution, the Over-Senate shall decide which clause is to be followed and which is to be ignored.

8/ To interpret the constitution, and serve as supreme and exclusive arbiter of constitutionality of all UM laws, but not national laws. In the first 10 days of any law's existence, a 60% overmajority of the Over-Senate shall strike down any UM law or clause that it reasonably considers to be in violation of the UM's constitution. After 10 days, a 2/3 overmajority shall be required to do this. Except with respect to constitutionality, and inter-sluice power apportionments, the UM Over-Senate shall be prohibited from compelling, or halting any particular implementation or spending by the UM Main-Senate. No part of the judicial system shall have the power to cancel, vitiates, modify, or re-interpret any law due to a conflict with this constitution.

9/ Issue pardons, and invalidate pardons previously granted by a narrow democracy or other narrow form of government.

10/ Cancel any prosecution, criminal trial, civil trial, judicial process, court decision, government proceeding, or legal decision in any member nation with a 2/3 overmajority.

11/ To break tied votes in the UM Main-Senate.

12/ To create money on the credit of the UM and pay the UM's debts. UM money shall only exist in notional accounts, there shall be no currency. All deposits in UM currency accounts shall deflate by at least one-per-mil every 6-days, or about 6% annually. The UM shall make a market for the exchange of all currencies of all member nations. In and out-of the UM currency. It shall provide this service at no cost, except the anti-sloshing tax and interest. When money is converted from one currency to the UM currency and then immediately converted to another currency, there shall be only one anti-sloshing tax payment due. Also, the market sets the price, the UM only acts as intermediary, and a more efficient intermediary that existed before for small transaction international money flows.

13/ Spend up to 1/5,000th of the UM's budget. Except for this money, the Over-Senate shall not command any spending.

14/ Determine aid payments between the UM government and the various member nations.

15/ Modify the parameters of the world economy in any way found provident or convenient to the people over the long run. This with a 2/3 overmajority in all 7 voting blocs.

16/ To put questions on the monthly sophos for questions with a 55% vote, or remove questions from the monthly sophos with a 60% overmajority.

17/ To divide Main-Senate Sluices at the UM, the constitutional amendment process shall be required. Great care should be taken to make sure that power is not concentrated in the Over-Senate through an over-fragmented Main-Senate.

18/ Uniformly tax all international trade up to 12% of its value.

19/ Tax all international trade in raw materials up to 18% of its value to discourage international liquid fuel cartels.

20/ Tax all international trade in liquid fuels up to 50%.

21/ To discourage international cartels, the foregoing three taxes shall be imposed maximally when the price is much lower than before, and they shall be imposed minimally when the price is much higher than before. And never should it be the other way around, or the tariffs will be working towards creating the very monopoly power we are trying to get rid of.

22/ Lay sufficient taxes, tariffs and fees on international trade to eliminate international monopolies.

23/ Establish and set minimum worldwide tax rates for wealth, consumption, inheritance, and income.

24/ Arbitrate and resolve conflicts between UM member nations based on what is best for mankind overall.

25/ Act as world court for global decisions.

26/ As with all Senates in a standard 1-in-25,000 broad democracy, in each teneth, each RVC head of the UM Main-Senate shall rank its members. As the UM's Main-Senators cycle out of service, the appropriate number of top ranked people shall be elevated.

A’8. CONSTITUTIONAL AMENDMENTS

1/ No single constitutional amendment shall exceed 200 words.

2/ Constitutional amendments for the UM shall only be written by the UM Over-Senate and require a 70% overmajority to be approved for ratification.

3/ Passing a UM constitutional amendment requires a 70% overmajority from the UM Over-Senate, then a 70% overmajority from all seven voting blocs of the UM. These two 70% over-majorities must be achieved in one year. Then, one Senate term after the proposed amendment was passed by all seven voting blocs of the UM, it shall be put to a second ratification vote where the proposed amendment must also achieve a 70% overmajority in all seven voting block of the UM. If the proposed amendment fails to achieve the required 70%
overmajority in any of the 4 Senate votes, then the amendment shall be considered failed. After this, those wishing to revive the proposed amendment shall be required to start over again from the very beginning of the amendment process.

4/ The foregoing amendment processes shall not be used to restrict the rights of the people, increase government power, reduce the number of Senators, shift powers from the UM Main-Senate to the UM Over-Senate, shift powers from national Sub-Senates to other Senates, shift powers from national Main-Senates to national Over-Senates, or otherwise narrow this democracy or make it more corruptible. To do any of these things, 80% over-majorities are needed in the above process where a 70% overmajority is otherwise called for.

5/ A wholly new constitution may be instituted using the above described amendment process, however it must be called a new constitution and the overmajority percentage shall be 80%.

6/ Any amendment that makes the amendment process more difficult shall be reversible under the old pre-existing standards for a period of 30-years. The overmajority required to cancel an amendment or law shall never be greater than the overmajority required to passed the measure in the first place.

7/ No constitutional convention, supervening body, or extra-Senatorial body shall have any jurisdiction over this Constitution or the UM Senate. We shall not make the same mistake we made in Philadelphia in the summer of 1787, when Ishtar hijacked America’s paradigm democracy.

A’9. UM SENATE RULES.

1/ Laws that benefit less than 50,000 individuals, human or fictional shall take a 2/3 overmajority at the UM to pass. Laws that benefit less than 2,000,000 individual shall take a 60% overmajority to pass.

2/ All UM Senators shall be duty bound to do what is best for mankind overall, and to try to put this cause ahead of their own county and regional constituency.

3/ The UM senators shall by default vote at the same location they voted as National Over-Senators. They may switch voting location, and they shall be free to visit other places on voting holidays, however they must come back for voting days at whatever RVC they are registered to.

4/ The UM is a body of consensus. In the UM Main-Senate, all 7 voting blocs must reach the required majority in the relevant sluice for the UM Main-Senate to pass a measure. As the UM Over-Senate votes as one body, all 7 voting blocs must reach the required majority in that body to pass a measure.

5/ Only the UM may create, assemble, or adopt international standards for adoption by multiple nations. This role shall not be usurped by any national Senate, and it shall especially not be usurped by any fictional citizen, or sub-government of any member nation.

6/ All officials and employees of the totally corrupt old UN shall be regarded with suspicion by the UM.

A’10. LIMITS TO UM MILITARY POWER

1/ The UM shall never have a military of its own, with a UM identity, but shall rely on the forces of its member nations.

2/ It is an ancient trick of economic parasites to get an empire to use its military for the parasite’s tax collection. Therefore, the UM’s military forces shall be prohibited from enforcing matters of debt, debt collection, taxation, tax collection, dues payments, and generally peaceful taxpayer revolts. If UM taxes are not being paid, the UM may only punish through non-violent, and non-threatening means such as trade sanctions, or reduction of UM spending and services in that jurisdiction.

3/ The UM shall have no judicial powers over any individual in any member nation, unless that individual stands up and claims to be a dictator, chancellor, monarch, or oligarch of his nation, in which case the UM shall be duty-bound to try to kill that person.

4/ The UM may have peace keepers to stop shooters and other violent people, however, it shall not have a police force, or intelligence gathering force of its own.

5/ The threat of global coup and global tyranny being very real, the UM shall not be given significant supervening military powers over all of the world’s national governments until at least 200 years after:

a/ The entire world has come to be ruled by broad democracies.

b/ The land of no resources (in its broadest definition) has been entirely evacuated. Archaeologists and mineral extraction people may visit during the cool half of the year.

A’11. THE UM REPRESENTATION RATIO

The UM representation ratio shall not be narrowed in any way, even for brief periods. If the UM is broadened, it shall be by extending the term of office for UM Main-Senators to 2-years and UM Over-Senators to 3 years and thus doubling the number of UM Main-Senators and increasing the number of UM Over-Senators by 50%. This however shall not be attempted until the year 2040.

A’12. THE PARASITIC UNION

1/ The UM shall wherever possible recognize only one single nation of Islam, one Arab empire. This shall be called the PU or Parasitic Union. The PU shall be made up of the various provinces of Arabia's empire. These may be called either provinces or nations, even though they are most accurately described as provinces of an empire.

2/ The various provinces of Arabia’s empire shall retain their pre revelation day names except that everyone shall try to call them provinces instead of nations.

3/ The various provinces of Arabia's empire are, starting from the center: Saudi Arabia, Israel, Qatar, UAE, Oman,
Bahrain, Kuwait, Jordan, Syria, Lebanon, Yemen, Iraq, Afghanistan, Libya, Algeria, Tunisia, Egypt, Sudan, Somalia, Djibouti, Iran, Turkey, Morocco, Pakistan, Eritrea, Ethiopia, Maldives, Mauritania, Senegal, Gambia, Mali, Niger, Uzbekistan, Azerbaijan, Tajikistan, Turkmenistan, Indonesia, Bangladesh, Guinea, Kyrgyzstan, Brunei, Albania, Malaysia, Sierra Leone, Burkina-Faso, Chad, Nigeria, Bosnia, Cote D'ivoire, Guinea-Bissau, Tanzania, Surinam, Serbia, Mozambique, Cameroon, Malawi, Macedonia, and Angola. The single Arab empire shall notably include Israel as a province.

4/ All nations in Arabia's empire shall muster up into standard 1-in-25,000 democracies. All shall destroy every aspect of Islam they are required to destroy. All people in all these Arab provinces or Arab nations shall properly an irrefutably renounce Islam on video. If none of these nations do this, or none do it entirely, then we shall consider the West Coast of the Arabian sub-continent as the capital and brain center, from Jerusalem thought Mecca to Yemen. We shall take this area as the head of Arabia's secret empire.

5/ If even one of these Arab nations does as we require, then that nation (or those nations) shall speak for, negotiate for, and have the power to bind the entire PU. If none of these nations do this, or none do it entirely, then we shall consider the West Coast of the Arabian sub-continent as the capital and brain center, from Jerusalem thought Mecca to Yemen. We shall take this area as the head of Arabia's secret empire.

6/ The first nations to totally abandon Islam shall also get the most preferential treatment from the UM. Then the next nations shall get the next highest reward, and so forth, until we reach the nations that will be punished increasingly for failing to abandon Islam and Ishtar fast enough.

7/ The PU shall belong to the UM as a possession, or more accurately as a liability to be mitigated. All portions of the Parasitic Union shall now be the property of the United Majority of mankind. There shall be no self-rule by these places until the UM Over-Senate elects this by a 2/3 overmajority.

8/ The PU and its citizens shall have no say or vote at the UM. The PU shall be lower in every way than the UM. It shall negotiate asymmetrically with the UM, like a land entirely wiped out by earthquake that is begging for aid. This asymmetrical and separate relationship shall continue on until the depopulation of all portions of the PU that are not capable of supporting people.

9/ The following 7 nations shall also be considered part of the PU due to their voting record at the old UN: Nauru, Tuvalu, Palau, Sao Tome & Principe, Myanmar, and North Korea. These nations shall have no obligation to renounce Islam for obvious reasons. They shall be required to reverse direction in other ways.

10/ The UM shall have the right to rename any nation that is not a member of the UM for all member nations.

a/ Nations that are not democratic shall not use the term "democratic" in their name.

b/ The term republic shall not be used at all.

c/ Nations that are not of the people, by the people and for the people shall not use the term "people's" in their official UM recognized name.

d/ No member nation may use the term kingdom or refer to monarchy, dictatorship, or oligarchy in its name.

e/ The United Kingdom shall now be called Greater Britain.

f/ The UM shall use the term "slave nation" when naming all tyrannies.

A'13. CRISIS AND EMERGENCY BODIES
The UM shall not be allowed to organize crisis or emergency bodies. These are too dangerous to allow at the global level.

BILL OF RIGHTS AND RULES: The following rights and rules of man and Government shall constitute a 2nd integral half to this 2021 United Majority Constitution. The headings above shall be called Article-1, Article-2, and so forth. The headings below shall be called the Rule-1, Rule-2, and so forth. In general, all of the following rights and rules shall be considered inalienable, meaning that they can never be cancelled or traded away by agreement, law, or actions. From this day forward, no constitution shall ever be considered valid without a similar listing of the rights and rules of men and the government they establish for themselves.

R'1. NATIONAL CONSTITUTION INCLUDED
To eliminate any doubt, the rules of the attached national constitution are included herein where applicable.

R'2. NO ELECTIONS TO DISSOLVE DEMOCRACY
1/ Member nations shall not be allowed to elect to dissolve their democracy. This sort of election shall not be considered a valid election by the UM or any of its members. Member nations may only elect to establish a different democracy.

2/ Member nations shall not be allowed to elect, appoint or bring to power any president, prime minister, king, queen, prince, princeps, monarch, ruler, czar, caesar, chancellor, veto person, chairman, emperor, governor, ruler, oligarch, oligarchic narrow democracy, college of scholars, sacred priesthood, or any other narrow group with any power over that nation's elected Senate. This sort of action shall not be considered valid by the UM or any of its members.

3/ Just as it was a severe crime to talk about killing the president, or monarch in most nations, it shall be a similar crime to even talk about dissolving one's broad democracy, or appointing a monarch, or president, or oligarchs, or a oligarchic democracy.

R'3. NO MONARCHY OR OLIGARCHY
1/ No member nation shall have any titles of royalty, or nobility even ceremonial and unofficial titles. The use of such titles should be considered an affront to democracy and freedom, and the person using such titles should be subject to Senate stigmatization.
2/ No monarch, once resigned shall be allowed to keep wealth over 100-year's average wages in their nation. If monarch's fail to resign in time, they shall be subject to the death penalty, or less.

3/ All wealth of all monarchs, kings, queens, princes, dukes, duchesses, sultans, royals, former dictators, and oligarchies shall be seized, and shall belong to that people or that nation.

4/ Former royals and aristos shall not beg for money, receive gifts of money, or raise money for others, or work on commission.

5/ State governors, mayors, and other sub-government elected leaders shall stay on duty until they are replaced by the people of the new Senate.

R'4. VOTING AND SECRECY
Because public elections by secret ballot are so easy to corrupt, the UM shall not regard public elections by secret ballot as valid. Because legislative elections by non-secret ballot are so easy to corrupt, the UM shall not regard these as valid. All public elections must be by non-secret ballot, and all legislative elections must be by secret ballot.

R'5. NO DISTANT CAPITALS
All member nations shall be required to use regional voting centers, and none shall have a single capital. Single capitals, and in particular isolated single capitals minimize the power of the people and maximizes the power of parasites and crooks. Washington DC, Brussels, Bonn, Canberra, Brasilia, and all the other distant national capitals shall be abandoned as seats of government for they are all located in the worst place for a capital.

R'6. JOINING AND EXITING THE UM
Nations must ask for approval from the UM to join. Nations may withdraw at any time from the UM without any prior notice. Once withdrawn, nations must ask again for approval to re-join the UM.

R'7. DEMOCIDE
1/ If any group ousts its non-democratic, or narrowly democratic national government in the name of broad democracy, the ouster group shall immediately, unambiguously, loudly, and persistently call for the people to muster up. Thereafter this ouster group shall do nothing to delay or impede the mustering process. Any ouster group that contravenes this clause shall be guilty of democide.

2/ If any non-democratic, or narrowly democratic government threatens, arrests, attacks, or kills its people while more or less peacefully mustering up to form a broad democracy, that government and its police and security forces shall be guilty of democide.

3/ Democide may be held to be a capital crime in all member nations.

R'8. EMPIRES ARE EASIER TO PARASITIZE
1/ The more centralized the government, the easier it is to corrupt and parasitize. In centralized governments, parasites are able to focus their energy on one large profitable bite, rather than spending much more energy on lots of smaller and less profitable bites. Therefore, to minimize corruption and parasitism, we must push in the opposite direction, towards decentralized government.

2/ As much spending and administration as practical shall be pushed to the local level. UM, national and regional spending and administration should be reduced as much as practical. This shall be especially so in the oversized nations of China, India, USA, Indonesia, Brazil, Pakistan, Russia, Japan and Mexico. These shall all function to the greatest extent practical as independently administered counties.

3/ Today, 2.5 billion people are governed by two highly-centralized national governments in China and India. This shall be seen by all as a situation that was fostered by the PU to facilitate their corruption and parasitism. This empire-scale centralization shall also be seen as a cornerstone cause of poverty in China and India. It also seem to have caused much centralization and inefficiency in our prior government.

4/ It is hard to believe, but someone was actually there pushing for centralization among other things. And our entire political reality has been distorted as a result. We must always be on the lookout for the centralizing forces of Ishtar and the PU.

R'9. WE ARE EAGER FOR PU SURRENDER
1/ The UM shall stand-by, ready and eager to certify that the Ishtarian provinces have cleaved away from Islam and Ishtar. But it shall only certify Ishtar's provinces that have mustered up into standard 1-in-25,000 democracies, provinces that have also totally destroyed all elements of Islam, public and private (except the writings), and where all the people in that Ishtarian province have universally defiled, and burned a Koran on posted video. Until that time, no food leaves to go to that PU province.

2/ Once a PU province has been certified as cleaved, it shall be given normal socialist levels of food and other essentials until it has been relocated. In no event shall any PU province be certified until:

a/ Every single Mosque and Islamic holy site in that province has been totally destroyed and its foundations pulled out. This does not include buildings that were churches before they were mosques, or ancient buildings older than the year 1600. It also does not include the great buildings of Samarkand, Bukhara, Tashkent and Granada, but it does include Mecca, Medina, Jerusalem and Istanbul and all of Iran.

b/ Every single Synagogue and Jewish holy site in that province has been totally destroyed and its foundations pulled out.

c/ All slave's clothing shall be burned on posted downloadable video. This includes all headscarves, haji
caps and burkas. Never again may this clothing be worn. This applies to both men’s and women’s clothing.
d/ All men shall shave their beards and keep them shaved.
e/ All must place shit in, curse, and burn a copy of their holy book Koran or Torah (as appropriate) on posted video under their own name and identity information.
f/ All have sworn on posted video never to practice, preach, teach, or speak well of their religion again.

R’10. SANCTIONS
1/ The UM may apply sanctions on those nations that do not follow the UM’s practices regarding population, fair trade, environment, slavery, war, human rights, or terrorism. The UM may also eject member nations for violating its policy on population, fair trade, environment, slavery, war, human rights, or terrorism.
2/ Iran and North Korea shall suffer a total blockade until all their nuclear weapons, missiles, nuclear facilities, and missile facilities have been completely destroyed under UM supervision and to the satisfaction of the UM.

R’11. DESPERATION IS THE ROOT OF EVIL
Desperation among men shall be regarded as the root of most evil. Therefore, it shall be a primary long-term objective of the UM to reduce desperation worldwide and work for more material abundance for everyone who is not working for Ishtar. By 2034.01.01, the UM shall either relocate or industrialize all of the people living in all lands of the world incapable of supporting people.

R’12. LAND OWNERSHIP AND CITIZENSHIP
1/ Real humans from UM member nations that reside in other member nation’s shall be allowed to own one reasonably-sized personal residence per nation, and up to 3 foreign residences. Except for this, and real estate owned by government, only the real flesh and blood citizens of each member nation may own real estate in that member nation.
2/ Fictional citizens shall not own land in UM member nations. They may lease real estate for up to 28-years, but they shall not be permitted to own land. Also, to be clear, fictional citizens may not option real estate or hold it under any form of contract so that the control period exceeds 28-years in total.

R’13. EARTHQUAKES, TSUNAMIS AND VOLCANOS
1/ All new concrete or masonry structures in earthquake zones shall be reinforced with sufficient steel to prevent collapse in our best guess about how strong a 5,000-year earthquake would be.
2/ The UM shall conduct a global undology survey that is mandatory for all salty shorelines.
3/ The UM shall have control of all Volcano bleeding-down projects worldwide.
4/ The UM shall have a worldwide easement to study and irrigate and bleed down the world’s volcanos. The UM shall have a worldwide easement to construct railways and roads to the world's volcanos if needed.

R’14. NO SINGLE WORLD GOVERNMENT
1/ The benefits of a single world government are minimal, while the risk is total enslavement.
2/ While it is mankind’s eventual destiny to have a single world government, bringing it about too soon will likely lead to tyranny.
3/ All of mankind shall have long conquered material scarcity, so material desperation remains nowhere on earth for at least two generations, before we institute a single world government.
4/ We shall all wait until we are entirely sure that we are doing the right thing. We shall only listen to reason. We shall heap scorn on all attempts to herd or terrorize mankind into a single government. We shall go slow, glacially slow in instituting a single world government.
5/ We shall keep the following in mind for centuries:
a/ Ishtar will be very difficult to kill completely.
b/ Ishtar will certainly play dead if it is remains alive.
c/ Ishtar has been the main corrupter of world government.
6/ Each member nation shall be free to leave the UM at any time. There shall be no civil wars fought over leaving the UM. Also, neither the UM or any member nation shall take any vengeful threats or actions for leaving, as the EU has done over Brexit.

R’15. SOPHOSCITES REQUIRED
The UM shall conduct sophoscites to decide how the world stands on various issues and what action it should take whenever any nation:
1/ Uses its military with another nation.
2/ Begins preparing for war.
3/ Takes provocative action against another nation or against all nations.
4/ Builds an arsenal.
5/ Stops the shipments of other nations.
6/ Has citizens engaging in terrorism or sea/land piracy.
7/ Fails to maximize output.
8/ Institutes any form of government other than a standard 1-in-25,000 broad democracy as defined and approved for entry by a vote of the UM Over-Senate.

R’16. MAFIA DRUGS
1/ No member nation shall criminalize the importation, growing, manufacture or distribution of any Mafia drug once it has become widely available through criminal enterprise. To do this is to feed the Mafia.
2/ Marijuana, cocaine, hallucinogenic mushrooms, opiates, LSD, tobacco and alcohol shall always be considered to be drugs widely available through criminal enterprise.
3/ All existing charges and jail sentences relating to the above drugs, other than hashish, are pardoned with immediate effect.
R'17. ANTHEMS
1/ The anthem of the UM shall be the song 'Imagine' by the martyr John Lennon. A primary objective of the UM is to drive mankind to think of itself less in terms of separate nations, separate religions, and separate agendas. Another objective of the UM is to drive mankind to focus more on this life, and less on whatever afterlife people imagine.
2/ The anthem of the PU shall be the song 'Exhodos' by the martyr Bob Marley. The primary objective of the PU is total exodus and nothing else matters much in comparison. The PU must use this song as their anthem or we will all hold them to be insincere.

R'18. ARCHEOLOGY AND ARCHIVES
1/ The UM shall be allowed to excavate or conduct exploratory archeological core drilling on any part of the world it elects. This shall include greater Rome, Naples, the former Aztec island in Mexico City, Gibraltar, Carthage city, the old city of Jerusalem, Baghdad, Mecca/ Yatrib, Cairo, Lisbon, all of the Arabian subcontinent.
2/ It is not merely a metaphor that the greatest treasures and secrets are normally buried under the sacred and the profane. The more sacred the thing in the surface, the more important that the area under it be core drilled.
3/ The UM shall have the power to declare any place in the world as an archeology or paleontology site and excavate at will. Buildings less than 300 years old are subject to being moved when cores reveal ancient cities over 1700 years old. All older buildings are subject to being dismantled and re-assembled after excavation.
4/ No Middle Eastern or Islamic people shall participate in these excavations, or the direct analysis of the artifacts discovered therein.
5/ The entire Monte Testaccio and the areas adjacent to the Roman forum shall be excavated to earliest times.
6/ The large block directly to the east of the Pantheon in Rome shall be excavated to first settlement and put back together again.
7/ The entire area around Mt. Vesuvius shall be core drilled to find the old city that existed before Naples which the Romans called Neo-polis. The entire area around central Mexico City shall also be drilled.
8/ The UM shall have access to all libraries and archives on earth. All ancient and old works shall be electronically imaged by the UM and put online for free public viewing with UM translations. This shall expressly include the entire Vatican library and the main Arab or Alexandria library.
9/ No priceless ancient treasures shall be kept anywhere in the PU given its long history of destroying such things.
10/ There shall be no window air conditioners or wall satellite dishes on buildings built prior to the year 1880.

R'19. A CORRUPT UN
The old UN was intensely corrupt and all decisions by this body are suspect. No rule or ruling by the old UN or any of its sub-bodies or any one-nation, one vote democracy shall stand more than 180 days after the UM has fully propagated.

R'20. UM EDUCATION MODULES
The UM shall work towards world unification and towards diminishing the reach of national identities. To this end, the UM shall produce and host standard education programs for the people of the world up to grade 16 for all common fields and occupations. This shall be offered as a free service to the world. However, 20% of the material shall be what the wise men at the UM want to teach about civics, economic, politics, health and other off-topic general education subjects. This material shall generally have nothing to do with either the field of study, or the desires of the students, or the parents. This shall include the UM's content and modules on democracy, tyranny, history, propaganda, parasitism, breeding practices, constitutional law, worldwide brotherhood, and other ideas the UM wishes to promulgate. These shall be interspersed with the topical content the student downloads. Also, the tests that qualify students to more free learning, free housing and other perks include both the topical content and the general content. No member nation or anyone else may ever block or strip out or remove any UM content, or add other content such as ads. People shall be free to make their own content, but they may not in any way change the UM content.

R'21. UM UBQUITIZED LIBRARY
The UM shall assemble its own version of the media libraries of the various member nations of the world.

R'22. THE NEW UM LANGUAGE
1/ The UM shall assemble a new manmade language that shall be named EUEMI (said like the words you eh me) This language shall:
a/ Not distinguish between singular or plural.
b/ Not distinguish between masculine or feminine.
c/ Have no verb conjugations.
d/ Have verb tense defined by 20 to 100 add-on words or phrases, and no words shall change form or endings depending on their verb tense as in Spanish.
e/ Have no noun declensions.
f/ Have absolutely regular and phonetic spelling.
g/ Have minimal grammar.
h/ Use a Roman phonetic alphabet.
i/ Have one sound corresponding to only one letter, accented letter, or letter combination.
j/ Have minimal silent sounds.
k/ Have no hard to make sounds that are not widely used.
in some language today. Also, there can be no sounds that some share of teenagers find hard to pronounce or hear.

l/ Not have words with a great many meanings, 
m/ Be monosyllabic to the maximum extent practical to increase our ability to build new words.

n/ Be poly-tonal so as to maximize the language's density.
2/ Once the new language has been assembled, The UM shall teach the world to speak Euemi at a rate of 2 words a day. Thus after 15 years, the world will have an 11,000 word universal vocabulary.
3/ All new UM cities shall use Euemi as their language.
4/ Until the world is all speaking UEMI, the UM must make sure to translate all important media into every major language.

R'23. CHANGES
1/ Changes will not be so difficult as they have been under our fake corrupt 1789-era democracies.
2/ We must first form as a UM. Then later, we can easily change what we all can all agree on. The other way around simply does not work.
3/ All UM member nations must adopt both this UM Constitution and the national Constitution associated with it. They shall change the national names, and select from the options, but nothing else.

R'24 ANTI-FAMINE MEASURES
1/ The decision when and how to begin stockpiling ice age food supplies shall be made by the UM. No nation and no person shall be allowed a head start. This shall be considered food hoarding.
2/ If there are food shortages, there shall be a temporary 300% allocative sales tax on grain-fed meat, and grain fed milk and grain-fed milk products.
3/ If there are food shortages, and people are going hungry, there shall be a temporary tax on pet food of up to 500%. This shall be imputed by the pet's species and weight and due annually in advance.
4/ If there are food shortages due to hoarding, the correct response is for all nations of the world to guarantee a high price for grain that is twice recent prices for one, two, three, or four years out. This way people will be assured that their investments will be paid back.
5/ Those convicted of personal food hoarding must pay a 100-fold fine for food hoarding. Their government Social media pages shall also display that they were convicted of food hoarding. Those convicted of mass hoarding with intent to re-sell shall also be subject to prison in addition to the normal fines. Hoarded profiteer goods may also be confiscated or nationalized.
6/ If the UM has not declared a global food crisis, then the provisions of this Rule 24 may be ignored.

R'25. NATIONAL SECURITY AND ANTI-WAR
1/ The path of light and truth is where each nation can see how its neighbors are arming themselves. The path of darkness is where the nations of the world are in the dark here with this critical matter of politics and domination. Also, with darkness the herd is more easily driven by phantom menaces into courses it might not take in the light. So it is important that the nations of the world all allow inspections and live in light and truth.
2/ One of the UM Senate’s duties is to inspect possible illegal weapons sites. To this end, the there shall be a list of sites to be visited that come from random generation, as well as complaints and tips. Then Senators draw assignment numbers randomly. A large number of Senators work in parallel at each inspection site.
3/ All UM Senators on official UM duty shall have absolute and total immunity from county and national prosecution without authorization from the UMOS. Also, with a single majority vote of any sluice, or from the UMOS, the UM shall may extend this protection to the non-Senators gathering useful information for the Senate. Furthermore, this protection may be granted at any time, even after a conviction. It may also be granted for life to the brave writers and video producers who tell the truth to world government about local wrongdoing.
4/ National security shall not be invoked for recordings of unfenced facilities, including transport terminals and private property open to the public. This includes recordings of protests, and when people speak before a crowd. All these may be freely recorded.
5/ The following things shall never be considered national secrets. No member nation may consider any of the following a national secret and remain in the UM:
a/ Information about law breaking by those in government.
b/ Information about the poor government judgement, failed policy, or information that makes leaders look incompetent or malevolent,
c/ Information about corruption, un-explained wealth, lifestyle, or sexual favors given to government people.
d/ Information about arrests of journalists, influencers, or politically active people. Also the rules of judicial privacy shall be considered unimportant with regard to the arrest of these people. When journalists are arrested for what they say, it is always news.
e/ Information about suspected human rights violations.
f/ Information about past, present, and future wars.
g/ Information about extrajudicial harm by government or other groups.
h/ The prosecution’s cases in any criminal trial that does not involve genuine national secrets.
i/ The prison sentences, and locations of those incarcerated.
j/ Information on the number of convicts and their various sentences.
k/ Industrial and commercial output information, except during a war.
**R'26. WAR**

1/ Conquest, empire, territorial expansion, occupation and long-term peacekeeping are inconsistent with the UM's principals. While in the UM, no member nations may undertake any such war.

2/ Any use of any member nation's military in a foreign action lasting more than 90 days shall be conclusively considered an occupation or a war, and as such, inconsistent with UM principles.

3/ No member nation shall ever be neutral to ill-defined future events.

4/ No UM member nation shall be allowed to garrison troops in any part of the PU.

5/ The UM shall not take any sort of temporary peacekeeping operation unless the measure gets a majority in all 7 voting blocks. The UM shall not take any sort of military operation unless the measure gets a 2/3 overmajority in all 7 voting blocks.

6/ It is wiser for free nations to develop weapons that are more defensive than offensive in nature. This way, when others are eventually able to copy our weapons, the world will be safer rather than more dangerous.

7/ When a government intentionally places civilians in harm's way, or locates military targets near civilians to deter foreign attackers, it shall be considered to be the cause of all injuries to those people. Human shields, no many how many, intentionally placed in harms way, shall not be a consideration in any Government's decision to launch an attack. To do otherwise is to help this evil practice to live on.

8/ Where armed groups are preying on unarmed poor substance peoples such as in Darfur, we shall arm the victims with special bolt-action rifles that will only fit special-shaped bullet caps. Then we give away an hour at the range and a couple registered bullets tied to individuals. This sort of firearm is useful for civil defense, but it is problematic for poaching and crime.

9/ Where the UM arms the locals, it shall also offer air support where practical.

10/ We are still skeptical that the world has seen the end of war and tyranny. And we think that free men must take precautions against the rise of tyrants. We hold that invading armies are the #1 cause of war, and well-armed citizen militias are the #1 way to stop them.

11/ All arms control treaties involving UM member nations shall automatically be subject to UM verification in addition to verification by the nations involved.

12/ Any use, display, or threat of military force or equipment against their own people shall be considered the capital crime of democide for both commanders and ordinary soldiers. If there are ever tanks or machine guns in the Tiananmen squares of the world, the military shall pay. Police and militia (national guard) shall be the sole method of suppressing rioting and disorganized violent insurrection.

13/ All armed forces shall be designated as either military or militia but not both.

14/ Nations shall settle their disputes by submitting them to the UM for binding adjudication.

15/ All forms of compensatory war reparations shall be prohibited as this favors both war and parasitic war mongering. All punitive war reparations, if any shall be paid to the UM.

16/ An attack against one UM member nations may be considered an attack against all UM member nations.

17/ In order to reduce the possibility of the world government being hijacked by the forces of tyranny, the UM shall not be allowed to have its own standing military.

**R'27. GLOBAL ARMS TRADE**

1/ The development, manufacture and use of autonomous killing machines shall be prohibited, and these are a main reason for the UM's right to inspect all parts of the planet for secret arms manufacturing sites.

2/ All arms manufacturing facilities and all international arms sales and gifts shall be declared to the UM. No undeclared arms industry or international arms trade shall be allowed anywhere on earth.

3/ There shall be no sales of weapons to either the PU, Africa, Central America, South America, Sri Lanka, Burma, or North Korea without the approval of the UMOS. This said, the UM shall provide of some of these places with bolt-action rifles.

**R'28. MOBILIZATION RATIO**

The mobilization ratio, the ratio of people in the military of no member nation shall exceed 1:350 except in time of war or preparation for war.

On 2026.01.01, this ratio shall be lowered to 1:370.

On 2031.01.01, this ratio shall become 1:390, and so forth until the appropriate size is reached. Militia forces shall not be considered military. All nations must allow reasonable verification.

**R'29. WAR CRIMES**

1/ Genocide shall be defined as the deliberate mass killing of a large group of people, especially those of a particular nation, ethnic, or religion. Acmcide shall be defined as the deliberate killing of the best people in a society. When a 60% overmajority of all 7 voting blocs declare a party genocidal or acmecidal, it shall be official. The vote of the bloc where the genocide or acmcide occurred must abstain.

2/ All past war crimes for all nations of the world, present and past shall have their crimes described with as much accuracy as is practical.

3/ To keep war from ever being used as a means of purging a society of its best, all drafting of soldiers shall be by birthday and birth year range. Also, confirmed Senators and Ubiqs shall be exempt from compulsory military service for life.
4/ It shall be seen by all that the killing and torture of prisoners, rape, plunder, vandalism, and scorched earth tactics act to ramp up the destructive spirits of war and frequently cause more seasons of combat. Therefore, these abusive practices shall be prohibited, and the UM may elect to punish those engaging in them.
5/ The exception to the preceding rule is that those who suffer invasion, shall be free to scorch their own earth while they are in retreat.
6/ If one side of a war is using abusive tactics and the other is not, the UM may elect to come to the aid of the side suffering from the abusive tactics simply because it is suffering abusive tactics.
7/ If one side of a war commonly attacks while pretending surrender, there shall be no obligation on the part of the other side to spare the lives people trying to surrender.
8/ Few things help keep a war going like shooting or worse, torturing the people who surrender. Who is going to surrender when this practice is widespread? No. shooting and torturing people who surrender with their hands up is the way of Ishtar.
9/ All soldiers deployed in foreign lands shall be searched and scanned for war loot upon their departure from the combat zone. Foreigner soldiers returning to nations they fought in may be treated as murderers by that nation, especially if they are trying to move from the nation.

R’30. COLLECTIVE PUNISHMENT
The UM and its member nations shall not be prohibited from using collective military attacks on nations, ethnics, and PU provinces committing or condoning genocide, acmeicide, sphinx piracy, or killing great numbers of civilians in acts of terrorism. These attacks shall first include military bases, ports, airports, electric infrastructure, communication infrastructure, water supply infrastructure, manufacturing facilities, and the offices and homes of the political and economic leadership. If an PU province is run as a theocracy, the attacks may also include important religious buildings and the homes and offices of religious leaders.

R’31. NUCLEAR NON-PROLIFERATION
1/ As soon as North Korea or Iran muster up and institute broad democracies, and surrender all their nuclear and WMD facilities and weapons for destruction, they shall start to get the following daily dole for 6 full years for every person over age 14 in their nation:
a/ 250g of frozen beef, pork, or chicken as is their choice.
b/ 400g of their favorite common grain.
c/ 200g of ice cream, or 4 portions of liquor.
d/ Each person also gets a new midrange smartphone.
2/ Upon mustering up and giving up their nuclear programs, the UM shall give both Iran and North Korea an exemption from the usual and significant international commerce taxes for 6 years, and a half exemption for another 3 years.
3/ No UM member nation or its people shall give or trade anything with either Iran or North Korea until that nation musters-up into a broad democracy acceptable to the UM, and completely surrender their nuclear and WMD programs. No food, no medicine.
4/ The leadership of North Korea and Iran shall immediately surrender to US forces which shall evacuate them to a temporary protected location. They will have the option of being housed on Kauai for no charge in stacked Asian-sized flats for as long as they want. If they fail to do this, the entire communist party of North Korea and the entire religious party of Iran shall be considered tyrants under Rule 4 of the national constitution section herein.
5/ We may also regard Iran and North Korea as the expendable suicide puppets of the Arabs. If either of these two nations uses nuclear weapons, the retribution shall include greater Arabia.
6/ In matters of nuclear retribution, Mecca, Medina, and Jerusalem shall suffer retribution first among the other cities in and around the Arabian subcontinent and Islamic Africa.
7/ If a widespread version of world war 3 happens before 2030, regardless of the apparent cause, the non-Ishtarian survivors shall regard the Ishtarian, Mideast, harem-bred, and Semitic people to be the most likely root cause.

R’32. TERRORISM
1/ The UM Over-Senate may declare any violent act or threat as terrorism with a 60% overmajority. Nations and groups that repeatedly sprout terrorists shall be ejected from the UM into the PU.
2/ There shall be no insurance for terrorism, piracy, hijacking, sabotage, or disappearances of vessels, and all such insurance shall be void under International law. All such insurance shall be seen as a protection racket.
3/ The UM shall underwrite the cost of losses resulting from terrorist events. Then the UM shall cover its costs through extending the Exhod taxation period worldwide.
4/ If any Mideast terrorism occurs after the Exhod taxation period is over, all former Exhods worldwide shall be assessed the cost of damages.

R’33 TYRANNY OVERTHROW DAY
Every month, on the 4th, at 12-noon, and annually on July 4, shall be the most likely time for a rebellion. This way the people of the world can be more synchronized and have a time when their numbers are more powerful.

R’34. MAXIMIZING OUTPUT
1/ All UM member nations shall be required to institute a policy of maximizing output of all non-harmful goods. All member nations shall use output-positive taxation, and never output-negative taxation.
2/ No member nation, or citizen group of any member nations shall restrict output, or allow output to be restricted to increase prices. No member nation shall
subsidize, or give tax breaks, or pay for non-production, or non-growing of crops, or returning private land to forest, or leaving fields fallow, or closing mines.

3/ No member nation shall allow any cartel or monopoly for owning, extracting, refining, processing, distributing, transporting or certifying any raw material.

4/ If there is ever not enough of some critical raw material to meet demand, or if the price of one raw material is rising faster than all the rest, then the UM may compel the existing suppliers to increase output.

5/ The UM shall be free to impose retroactive wind-fall profit taxes when it elects that the windfall was due to a market manipulation.

R'35. ANTI-MONOPOLY TARIFFS

1/ The word mono•poly means one•city in ancient Greek. The word comes from the situation where the supply of an essential product only came from one city. This term describes one of the most powerful and slowly insidious techniques of Mideast parasitism, namely the technique of getting each of many cities to foolishly specialize-in, and live-off-of one or a few essential goods. Then Ishtar in the midst of the seas caused piracy to everyone but their own traders, which they left alone. Once this happened, all trade occurred at the Arab prices, giving the Arabs fat profits. This condition and parasitism technique shall now be called a poli•monopoly.

2/ The UM shall deter this state of affairs by imposing low uniform tariffs on all trade moving between UM voting blocs.

3/ All of the money the UM receives from its tariffs on international trade shall be re-invested in global infrastructure, global ubiquitization payments, and development aid for the poorest part of the world.

4/ UM tariffs may be partly abated in the poorest member nations to foster economic development.

5/ The UM shall defend the world from the sort of subsidized temporary low pricing that drives all competition in one industry, after another, out of business. When the UM elects this sort of predatory pricing is occurring in an industry, it must intervene and raise tariffs.

6/ The various member nations are not required to trade with each other. All member nations shall have the right to exclude trade with other nations if they so elect.

7/ Goods worth shipping are also goods worth inspecting. All shipping containers moving between member blocs shall be opened and inspected by the UM.

R'36. FOREIGN DEBT

1/ All member nations, and their citizens real and fictional shall not hold, option, or pledge foreign government debt, or foreign blue-chip company debt, or foreign blue-chip company equity. These may only hold hold small company equity and debt, and bonds for specific independent public works projects which will not be guaranteed by the nation’s government if they fail.

2/ From time to time, nations may want to deflate their currency and cut the price of their labor to increase market share and employment. Each nation shall have the absolute and unlimited right to do this, and this shall be considered in no way relevant to a nation’s long-term credit worthiness.

3/ All member nations shall be free to cancel or mark down the debts of their nation at any time. Such is national sovereignty.

4/ All member nations shall be free to discriminate against foreign lenders, and to cancel or mark down the debts owed to foreigners. Such is national sovereignty.

5/ All debt obligations in each member nation shall be payable in that nation's currency. If any debt is denominated in foreign currency, the borrower shall have the inalienable right to elect to repay the debt at either the current exchange rate for that foreign currency, or at the closing exchange rate on the date the loan was funded.

6/ The Over-Senates of all member nations shall have the right to do any of the following if they so elect. Whatever the national Senate elects, the only recourse of foreign creditors shall be to not lend these nations more money in the future:

a/ Discriminate against foreign owners of their nation's debt and equity.

b/ Default on any or all of the debts of their nation.

c/ Devalue their currencies.

d/ Devalue their debts.

e/ Devalue their debts owed to people from particular nations.

f/ Set, or reset, or freeze foreign exchange rates and transactions.

g/ Convert any or all financial instruments denominated in foreign currencies to the domestic currency at any rate they wish.

R'37. MODERATE INFLATION

1/ All member nations shall aim for a stable annual inflation rate of 2%. This is done to:

a/ To enable negative interest rates and deflation without debt crisis.

b/ tax torpid capital.

c/ To increase tax revenue.

d/ To create a headwind for criminals burying cash in their backyard.

R'38. NO CASH OR CRIMINAL CURRENCIES

1/ All member nations must eliminate cash and work towards spoiling the value of all cash substitutes such as gold, diamonds and cryptocurrencies.

2/ The counterfeiting of gold, platinum, silver, gemstones, gemological certifications, antiques, and antique artworks shall not be a crime in any member nation.

3/ Special attention shall be given to the idea of quantifying how much gold there in the world's various river valleys.
4/ No more than 20 grams of gold or platinum may be brought between nations without a declaration. Except for a reasonably sized wedding ring, no diamonds may be taken across borders. When excess cash substitutes are discovered by customs, they may be seized.

5/ Only the governments of the various member nations shall have the power to issue and multiply currency. It shall be considered counterfeiting when people make money substitutes without Government authorization and involvement.

6/ The law shall fall hardest on those who use illegal currencies that are anonymous and electronic, for these also greatly facilitate anonymous ransom payments, and secrete payoffs, among other nefarious things.

7/ Citizens and governments of other nations shall only be allowed to invest in small risky baby enterprises, not the blue chip enterprises, blue chip bonds or government bonds in other nations.

8/ Foreigners shall be allowed to own only one reasonably-sized personal residence in each foreign nation, but in no event shall they have more than 3 residences in nation’s other than their own.

R’39. ANONYMOUS OWNERSHIP
No member nation shall allow any assets or debts to be held anonymously, secretly, or in numbered accounts that are not tied to real human citizen of a UM member nation. All depositories in all member nations shall be obligated to notify the national tax house notification system of each depositor when an account is formed. They also must provide statements of account every teneth to the system. This shall include all: deposit accounts, real estate, real estate loans, debt, bonds, stock ownership, proxy rights, commodity market positions, options, leases and financial derivatives among other classes of financial asset and debt that the UM may add in the future to eliminate loopholes.

R’40. TAXES
1/ The various member nations shall not compete with each other in offering special tax breaks to attract industry.

2/ All UM member nations shall be prohibited from having a general income tax.

3/ All UM member nations shall charge the minimum international wealth tax, the minimum international consumption tax, and other minimum uniform tax rates that the UM establishes, and no member nation shall abuse the international tax system by undercharging.

4/ Foreign taxpayers with local income are subject to local taxation for that income. Taxpayers without local income that spend more than 60 days in any calendar year in a member nation shall be required to pay wealth tax to that member nation if applicable. The payment to each member nation shall be based on the portion of the year the taxpayer spent in that member nation, provided it is over 60 days in any calendar year. These days shall not be counted twice by the various national tax houses. Whether a taxpayer has a domicile in a tax jurisdiction shall have no bearing on their tax obligations. People who do not spend 60 days in any one jurisdiction must pay all their taxes to their nation of citizenship. If they do not have a nation of citizenship, they shall pay all their taxes to their nation of nationality or birth.

5/ All member nations must use a UM standard international tax return for the small number of people who must file a tax clarification document. This documentation shall have a section for the taxpayers to declare which dates he was in which nations.

6/ The taxation system in all UM member nations shall be substantially identical except that the tax rates will vary to the degree permitted by the UM.

7/ No UM member nation may offer export subsidies, or export incentives. All nations shall be free to increase output, but there shall be no export subsidies as they so easily become predatory pricing.

R’41. UM CORRUPTION OVERSIGHT
1/ The UM shall spend at least 0.2% percent of its budget on anti-corruption media and investigations. This shall be 1-permil for government and 1-permil for the private sector.

2/ The UM shall be allowed to investigate, but not prosecute Government corruption, business corruption, market manipulation, and organized crime in all member nations. UM Agents may attempt to entice, test, and sting people under secret recording. Agents may also audit the lifestyles of Government officials.

3/ The UM may require that all government employees in all member nations watch up to 15-minutes of UM anti-corruption media each teneth.

R’42. NO UM BUSINESS PERMISSION
1/ Centralized bureaucracy is a favorite tool of economic parasitism. To defend against this, the UM shall be generally prohibited granting or denying permission to commence or continue any economic activity.

2/ The UM shall establish uniform worldwide standards for pollution, weapons manufacture, worker safety, worker injuries, child labor, product quality and the like. And it may require that the various member nations enforce these rules uniformly. The UM may also supervise from above in matters of blatant government corruption in member nations. However, as a safeguard against industry consolidation, and to prevent the squandering of the UM's attention, the UM shall generally not engage in granting permission to engage in economic activity.

R’43. UM LEADERSHIP PENSIONS
1/ The UM shall try to push its Senators into giving up on personal greed, and instead serve the good of all mankind. To this end, all member nations in the UM shall maintain a resort and pension system for Senators and high level Ubiqs. Thus our Senators shall be given a life
that is beyond money and avarice. All Senate pensioners get to use the Senate’s 90-meter travel apartments around the world. All Senators shall get time in the system based on how high they went in the Senate. The Over-Senators shall get the most time, the Main-Senators get less, and the Sub-Senators get less still. 2/ Senators also get free non-luxury, non-cosmetic medical care.

R’44. MIDEAST OIL OWNED BY THE UM
The UM shall now own all Mideast oil and oil facilities. It is unconscionable that we do otherwise.

R’45. GARBAGE DISPOSAL
1/ Garbage shall not be dumped in the ocean or in fresh waterways.
2/ Garbage that is burned must be properly incinerated in a special high-temperature facility.
3/ Garbage shall not be shipped internationally except when it comes from non-industrial islands.
4/ Vessels caught transporting or dumping garbage in the ocean may be seized and sold or scuttled.
5/ Sewage may be dumped into the ocean but only at a safe UM approved distance from shore.
6/ Solid waste (garbage) shall not be dumped into the oceans or in a place where it will be washed into the ocean by rains.

R’46. TOXIC WASTE DUMPS
1/ The rain-shadow of Eastern Yemen shall be the Old-Word’s toxic and radioactive waste dump.
2/ The desert of central Baja California shall be the New Word's toxic and radioactive waste dump.
3/ The heart of the largest desert in Spain shall be Europe’s toxic site.
4/ The Somali Horn shall be the toxic waste dump of Africa.
5/ The dry far south of Argentina, where few people live shall be South America’s toxic waste dump.
6/ The Western desert of Australia, India, and China shall have the toxic waste sites for these nations.
X/ These remote locations are the most logical place to put toxic manufacturing. If it is discovered that these places are not deserts during ice ages, then other locations may be chosen.

R’47. NO DIRTY USES IN CITIES
1/ Now that we have 300kph trains that leap across great distances, we can say that all dirty industry and all the power plants and the smoke stacks must be located outside and away from the communities. This shall be so for both the richest and poorest nations worldwide.
2/ Coal shall be entirely phased out from urban environments everywhere on earth over the next decade. Coal shall not not be delivered into cities after 2030.01.01.

3/ It shall not be allowed to burn garbage or leaves in community environments worldwide.

R’48. UM NO-GRAZING ZONES
1/ Where the desert will not sustain grazing over the long term, and where topsoil is being destroyed by over-grazing, and where low-yield semi-nomadic herders are driving higher-yield sedentary farmers off the land through violence, the UM shall establish no-grazing zones.
2/ The UM shall post signs and patrol its no grazing zones. The UM shall destroy or confiscate unauthorized livestock found grazing in these areas.
3/ The herders that lack means of living without herding in the desert shall be relocated to farmland where they must farm or get other work.

R’49. DISEASE PREVENTION
A top priority of the UM shall be to ubiquitize and distribute all safe and effective vaccines and treatments for contagious diseases.

R’50. ANIMAL MEAT AND DISEASE
1/ The sale of live mammals and birds in food markets and restaurants for human consumption shall be prohibited worldwide.
2/ Bats, rodents, primates, marsupials, raccoons, beavers, foxes, porcupines, skunks, felines, and canines shall not be eaten by people or fed to domestic animals or livestock. Nor shall their meat or body parts be sold.
3/ All pigs must be raised on UM approved quarantined farms. No pigs may be raised in or near homes. All feral pigs shall be culled except on special reserves for them.
4/ All nations that have a tradition of consuming wild animals on the UM’s do not eat list shall in addition to self-policing, allow UM inspectors with the power to arrest and charge upon video evidence of consumption, sale, or possession with intent to sell. The animals prohibited shall be as directed by the UM healthcare sluice. Those violating these meat rules shall be subject to the same long incarceration periods that Mafia drug dealers/users are subject to.

R’51. ENVIRONMENT AND INDUSTRY
1/ The UM shall establish and enforce reasonable and uniform minimum environmental standards and penalties for the entire world.
2/ Environmental penalties shall not be so low that they are ineffective, nor so high that they discourage investment, or create an opportunity for those who would sabotage their competitors.
3/ All new oil and gas powered land vehicles worldwide shall only be required to be 88% clean, and no nation shall have stricter standards as this will drive industry change that will slash fuel economy.
4/ There shall be no emissions controls for aircraft.
5/ Carbon dioxide shall not be considered a pollutant.
6/ Certain especially polluting types and grades of coal and oil may be prohibited.
7/ All materials shall be refined and made to the same uniform UM toxicity standards worldwide whether as raw materials or used in finished products.
8/ All international ore shipments, and all refineries shall abide by uniform UM standards for toxic impurities.
9/ Chrome and nickel plating together with chrome and nickel plated goods shall be prohibited worldwide. The UM may ban certain other environmentally unfriendly processes and substances worldwide as it elects with a 2/3 over majority.

R'52. THE SEAS
1/ All of the world's oceans more than 100km from land shall belong to the UM and shall be the UM's seas.
2/ All ocean territory less than 100km from more than one member nation shall be the territory of the UM.
3/ The Panama Canal, the Red Sea including the Suez canal and Gulf of Aden, the Persian Gulf, the Straights of Melaka, the Straights of Gibraltar, and the Dardanelles, and all waters within 100km of the preceding 6 sea sphinxes shall be UM seas.
4/ The UM shall not tolerate any sphinx piracy at all. It shall secure all of the world's sea sphinxes against piracy.
5/ All ships sailing on UM seas shall be registered with the UM, and no other ship registry shall be valid. The UM shall not deny, delay, or charge for ship registry, except where ownership cannot be clearly determined, or the ship's activity goes unmonitored.
6/ The UM shall rule, regulate and patrol the seas. The UM shall have the right to monitor the location, cargo, books, and accounts of all ships on the UM's seas, except the military and military support ships of UM member nations.
7/ All harvesting of marine life in all of the world's oceans and more than 100km from shore shall be under UM management. The UM shall have the right to restrict fishing techniques and catch amounts to assure the sustainability of the world's fisheries. All fishing license income for fishing in the UM's ocean territory shall accrue to the UM.
8/ The UM shall determine the optimal fish population and fish output for each area. Then it shall auction off the right to harvest fish in a way that leaves sufficient population behind and distributed.
9/ Marine mammals shall not be hunted for their meat or body parts, or to study their anatomy. Marine mammals may however be reasonably and humanely culled to increase the fish harvest.
10/ The UM shall have the power to close areas of the seas to shipping vessels and to prohibit sea trade with PU and non-member nations.
11/ Cargo ships that violate the laws of the UM, and enter the closed areas the UM's seas may be seized and their crews imprisoned.
12/ It shall be a crime to take so much fish that the catch gets depleted. However, it is also wrong to leave fish when it will not deplete the catch.

R'53. TRAVEL IDENTIT
1/ Everyone entering and leaving a UM member nation must show their passport, and allow their fingerprint to be scanned. The term fingerprint may be expanded to include palm prints, iris scans and electronic face recognition system scans. The term passport should be construed widely as well.
2/ No member nation shall grant passports to citizens that:
a/ Have been on public assistance in the past 7 years. This does not include payments for children.
b/ Have a felony conviction.
c/ Have ever been beggars.
d/ Have high use alcohol or drug licenses.
3/ Nations shall be free to require that visitors always carry a powered telephone sim card with them to track their location. They shall also be free to punish violators.
4/ Each nation shall send a welcome message when people arrive
5/ Passports and credit cards shall now be issued on thin plastic cards like a Singapore plastic currency note, but a bit thicker and 75mm x 90mm. This will have a photo, name, a number a hologram, two QR codes, and a 2 bar codes. The system needs a user changeable password to access information if not a logged-in government employee. Most of the information will reside on the server and many nations will allow document free travel for those who can remember their numbers and passwords.

R'54. IMMIGRATION ANARCHY
It shall be the official policy of the UM to encourage immigration. However It shall also be the official policy of the UM to strongly work against immigration anarchy. This is because immigration anarchy causes 3 problems:
1/ The fantasy of leaving and starting-over results in more crime in the outbound nation.
2/ As criminals are more likely to leave, the inbound nation suffers from these criminal immigrants.
3/ The Mafia will happily step into the anarchy and function as a tax-collecting government. If the immigrants can't afford the mafia's demands, the mafia also sometimes accepts promises, which are often harmful to the adoptive nation.

R'55. EUROPE
1/ Due to well known differences in national attitudes about work and the differential value of labor and currencies this leads to, there shall be two different European currencies, the European Euro (€) and the European Florin (ƒ). The Florin symbol shall have 2 crosses like the Euro.
2/ The nations of Portugal, Spain, Greece, Montenegro, Kosovo, Cyprus Malta shall use the Lira for at least 5 years. Ireland, Slovakia, Estonia, Latvia, and Lithuania may use the Lira to drive economic growth.

3/ All existing EU regulations expire in 180 days unless renewed by Europe's UM voting block.

4/ The travel and work rights of the European common area shall only apply to the native citizens of member nations. No immigrants have any automatic right to travel or work in other European countries by virtue of having immigrated to one of the member states.

5/ Europe shall have a border zone west of Istanbul, on the western side of the Hellespont at the Durugol/Buyukcekmec line. All parts of Turkey in Thrace and west of this line shall be ceded to Greece. The residents of this zone may enter this zone, but they may not enter Greece or the rest of the EU unless they get permission like any other Turk. All others may only cross east to west through this border crossing if they are allowed into the EU. All existing property rights in this strategic area that is also a dangerous earthquake zone shall expire on 2052.01.01. These rights may be sold or rented until that time, however they may only be sold to people allowed into the EU.

6/ All passengers arriving from the Mediterranean or Atlantic shall be required to cross immigration control as if they were arriving from a foreign nation. This includes all European territory in Africa such as Ceuta, and all islands in the Mediterranean, such as Mallorca, Sardinia, Corsica, Sicily, the Peloponnese, Crete, Elba. It also includes Greece. It also includes arrivals from the British Islands.

7/ Europe shall have internal borders at Corinth Greece, and a line connecting Trebisacce, and the Campotenese/Mormanno area in Italy. There shall also be ID checks to get between
   a/ Cross the Pyrenees and go between Spain and the rest.
   b/ Cross the Alps and go between Italy and the rest.
   c/ Cross the English and Irish channels.
   d/ Cross the Baltic and go between Norway/Sweden/Finland and the rest.

8/ As a matter of development aid to neighbors, European shall provide bridge-ferry service for freight and passengers between Ceuta and Algeciras at no charge. Non-citizens arriving in Europe more than once per year must pay one day's wages each upon arrival to discourage commuting foreign workers.

9/ Because all arrivals from the Mediterranean will go through passport control upon arriving at the mainland, we can have more relaxed rules for foreign workers on the various Mediterranean islands. Therefore, the following islands (and island-able places) shall all allow foreign workers to come and work as temporary workers entirely under local government control.

10/ Sicily, Calabria, and the Peloponnese will combine inexpensive mainland materials with foreign workers and have significant cost advantages as a result. Spain and Portugal will have access with north Africa via a pan-European economic subsidy that bridges the straights of Gibraltar. Thus all of Europe's problem nations will get a significant boost.

11/ If there is an internal border with Europe, Spain and Portugal shall be free to bring in short-term foreign workers as they pleases to their territory.

12/ Turkey shall abandon all territorial claims against Greece including those to Imia/Kardak. Also, the "Roads" peninsula (Turkish Highway D400) shall be ceded to Greece from the point near inbuku Mesire Yeri.

13/ Turkey shall allow the Greek Islands near the coast to run water pipes to the coast and connect to the Turkish water system. Turkey must sell the Greeks islands water at the same price as they sell it to their own people.

14/ Turkey and Morocco shall be forever excluded from Europe's regional government.

15/ The existing corrupt European Union shall cease to exist. It shall be replaced by a body made up of county Over-Senators as they cycle out.

16/ Every old EU policy or law shall be reconsidered by the new body.

17/ This new European government shall stay out of the culture business.

18/ In our new rail-based inter-city transport system, the border checks for passengers is something that happens rapidly via QR and face scanners in long rows of doors running down the length of the arrival platform. Thus we can easily re-instate national borders where identity verification will take no more than a few minutes for all the passengers to process. Once this sort of system is in place, we can abolish the Schengen visa free area, because we might as well check everyone if it only takes a few minutes.

19/ The native citizens of the US, Canada, England, Scotland, Ireland, Japan, Korea, Australia, New Zealand, and Singapore shall be allowed to come and spend 6 months per calendar year in the Schengen area, living on foreign money, until the Schengen treaty is abandoned and all the nations of Europe revert to the bordered way things were before.

R'56. IMMIGRATION

1/ The parasite land of no resources must send its new people into its host societies, or it dies. We would be foolish to ignore this great weakness.

2/ All nations shall be free to close their borders to immigrants, refugees, and visitors at any time.

3/ No treaty concerning immigration shall be binding on any member nation. All member nations shall always be
free to cancel treaties relating to immigration and suffer no penalty.
4/ Member nations shall always be free to select which, if any individuals, they will allow to enter, settle, and stay in their land, and to make reasonable demands upon those people such as religious or political renunciations. In other words, host nations taking immigrants shall be free to require that these renounce and abandon their religious and certain political beliefs.
5/ All member nations shall have an inalienable right to at any time change the rules under which immigrants, refugees, and Exhods live in their lands. They may also require these groups to give up certain religions as a condition of moving to their land. They may make their changes for decades after immigration occurred if these groups prove to be problematic.
6/ When immigrant groups have corrupted the system to permit increased immigration of their kind, those grants shall be subject to cancellation.
7/ Member nations shall be free to judge immigrants, refugees and Exhods based on their religious beliefs, place of birth, skills, intelligence, height, character, documentation, co-relatives, and any other metric they elect to use.
8/ Member nations shall be free to impose reasonable penalties on those who are convicted of violating their immigration oaths and renunciations.
9/ Member nations shall be free to revoke any grants of citizenship ever granted to foreigners coming to their land.
10/ Member nations shall have the right to deport, inter, or imprison any or all immigrants from any part of the world they later find themselves at war with.
11/ All nations must accept the repatriation of all their own previous citizens. No permission shall be required to dump deported citizens on the shores of their home nation or empire.
12/ The various member nations may require that immigrants do public service work to repay the cost of their integration in their new nation’s economy. For this is better than not taking people due to the short term costs of their integration in society.
13/ No member nation shall charge for visas or entry permits, or charge more than two day’s wages for a work permit application. It doesn’t matter where on earth any visa application is made. No nation shall have any visa requirements that involve visa runs.
14/ So the world is softer to the idea of more immigration and exhodos, and the greatest numbers can be tolerated, we shall institute the following rules:
a/ That Exhods shall not be allowed to settle in the most important cities unless they can manage to get confirmed as a Senator.
b/ There should be no more Chinatowns or little Italys. Immigrant groups are not supposed to predominate in any nation or district.

c/ Immigrant groups are not supposed to gather regularly. They are supposed to go in the opposite direction, to scatter, stay apart, and not communicate.
d/ Immigrant groups are supposed to blend in and be inoffensive when they migrate and settle.
e/ All immigrants shall be expected to be grateful and courteous to their adoptive nation and their citizens.
f/ All immigrants shall be expected to adopt the better ways, customs and beliefs of the nation that adopts them.
x/ Those who do these things erode the rode they took to get out.

R'57. RULES FOR EXHODS
1/ It is a primary principle of this UM Constitution that the Arabian sub-continent and all lands on earth elected by the UM as unable to sustain people shall be entirely depopulated by 2034.01.01 and that no pre-menopausal females shall be allowed to remain behind in these places that the UM has designated for exhodos depopulation.
2/ Exhods are people who live in lands the UM elects as incapable of sustaining people. The UM shall move all such people living in lands incapable of sustaining people that are born before 2022.01.01. Those living in tsunami funnels and other dangerous places capable of sustaining people shall not qualify as Exhods. Exhods may be resettled to places that are tsunami funnels and earthquake zones.
3/ As a benchmark, the following 14 nations do not have to take any Exhods: Denmark, Poland, Belarus, Czech, Slovakia, Slovenia, Austria, Hungary, Croatia, Serbia, Ireland, Iceland, South Korea, and Japan. All other UM member nations shall be required to take their fair share as Exhods, unless they already have over their share. In that case, they can send their most problematic overage to undergo exhodos again. The UM Over-Senate shall decide exactly what a fair share is for adoptive nations.
4/ The Senates of the various adoptive nations shall select the Exhods they will adopt to fill their quota. They may use any criteria they elect in making this decision. However, education and job skills shall be regarded as the official benchmark.
5/ All adopting nations shall get a certain amount of labor each month from all Exhods between 18 and 60 years old until 2033.01.01 as a discharging tax, unless the UM elects to extend the term or expand number of hours due to terrorism or warring. This “discharging tax” shall be paid either as a percentage of the Exhod’s regular wages, or in labor to the public if they can’t find a job. If the Exhod is working for an Exhod owned or operated business, his discharge tax must be paid in the form of labor to the public. This Exhod discharging tax is due first, before the Exhods can collect any other wages or other monies for that pay period in the adopting nation. Exhods that don’t pay their Exhod discharging tax shall be sent back. Those found after the fact to have evaded this regulation or underpaid their discharging tax may be sent back. All Exhods shall perform their public service under
their discharging tax with the same alacrity and hard work that was previously expected of service to Ishtar and the parasite’s cause.

6/ Different nations may have different discharging tax amounts and different durations that the discharging tax will be paid over. The most desirable destination nations shall have the highest discharging tax. The new UM settlement nations will have the lowest tax.

7/ The foregoing Exhod discharging tax is to pay back the host part of the world for its costs in moving and settling many people. It is also to incentivize the host part of the world to rapidly take lots of Exhods, train them, and then set them up. If the Exhod is fortunate enough to be moved right away, then the Exhods will pay taxes until 2035.01.01. If they get moved after 1-years, they pay discharging tax for 12 years. If they get moved after 5-years, they pay discharging tax for 8-years, and so forth.

This works out to 3-year’s full time pay in taxes for the Exhods that are adopted by a new nation in one year.

8/ It is a good thing that the host nation is making a healthy profit on the average exhod. This is an intended aspect of the system. It is intended to soften-up nations to the idea of accepting many Exhods.

9/ The adoptive nations that take their Exhods fast shall get their pick of the people. The nations that take their Exhods last will have to settle for later draft picks.

10/ All Exhods shall stop struggling against their host nations and start struggling instead to help them as much as possible. This is one of the most important things that will soften-up nations to the idea of accepting many Exhods.

11/ No Exhod shall ever say that a host nation got the better part of the deal, because history clearly shows that welcoming many Exhods can be quite dangerous.

12/ All Exhods and immigration shall be managed democratically at the Nome level, and all decisions made at the Centi-Nome level, so it is adequately granular and there is a relative lack of personal bias. All adoptive Centi-Nomes shall have the right to vote and reject foreigners and send them back for violating the rules. However, for every two Exhods sent back, the host nation shall accept three new Exhods in their place.

13/ All Exhods shall be thankful to their adoptive community for the gift of settlement they have received. They may be expelled for acts of ingratitude or disrespect of the ways, institutions, or people of their adopting nation, or acting aggressively or violently towards their hosts as judged by their adoptive Centi-Nome.

14/ All family groups surviving as welfare sponges or semi-taxpayers, or taxpayers of amounts less than their public benefits received may be sent back by their adoptive nation.

15/ Exhods that fail to rapidly and convincingly cleave from Islam and Ishtar may be sent back.

16/ No Exhod woman shall wear slave’s clothing, or have more than one child, and only those women who have passed the UM’s secondary school test in either English, Chinese, or Euemi may have a child. Women found to have had more than one child after exhodos may be sent back along with their children and the genetic father.

17/ No Exhod women shall have their child for 2-years after they have been settled, and none shall have any children until they are age 30. All Exhod women claiming to be childless shall be certified by a rotating panel of nurses in their host nation upon arrival. All Exhod women with one child must be sterilized before they may be admitted to their host nation, unless they are tertiary school graduates and can pass the UM tertiary school verification test in a serious subject.

R’58. EXHODOS AND THE ISHTARIAN ISLANDS

1/ The last fifth of Exhods from each province of the PU, those that cannot get adopted by a host nation, and also those that rank low when their own people rank their queue for relocation to the new UM nations, these people shall be re-settled to the Ishtarian Islands. The Ishtarian Islands shall be: New Britain, New Ireland, and the Banda islands (Maluku, North Maluku, Buru, and others), and if needed, the Indonesian states of West Papua firstly and Papua secondly.

2/ The stubborn Islamists and ex-convicts shall be sent to the San Cristobal Island, the Tabar and Tanga Islands and Manus Island as the sea currents here will tend to carry escapees east across the Pacific.

3/ All parts of the Ishtarian Islands shall be subject to whatever laws the UM Over-Senate elects to impose. However, there shall be no representation at the UM or PU.

4/ The UM shall provide surface passage, dormitory housing, food, education and training, and development aid to those relocated to the Ishtarian Islands.

5/ The UM may also elect to allow war refugees from certain wars to stay in the Ishtarian Islands if they live by the same rules as the Exhods.

6/ No arms factories, or sea vessel building facilities shall be permitted on these islands. All vessels arriving and leaving shall be inspected by the UM, in addition to the nation they are coming from or arriving at.

7/ All female settlers to the Ishtarian islands shall be bound by a one child policy. No female settlers in the Ishtarian or under islands under age 30 shall have any children.

R’59. TERRITORIAL BORDERS

1) Except as called for herein, all international borders shall be frozen as they were on 2010.01.01, and may not be moved under any circumstances. All disputed territory shall belong to the UM.

2) Manmade land, and small islands of less than 20 sq. km shall not count for determining territorial waters.
R’60. ESTABLISHING SETTLEMENT NATIONS
1/ The UM shall provide the necessary aqueducts to make the following dry areas happen as settlement nations if applicable.
2/ Where applicable, these new settlement nations shall be the colonies of the nation that gave their territory up for settlement by foreigners. These nations shall administer the colonization until half of the people in the settlement nation are native born citizens of the place. Then once half of the people are native born, then the new settlement nation shall automatically gain its autonomy.
3/ At least half of all exhods shall be moved to the UM’s new settlement nations, with a mix of other immigrants from all over the world.

R’61. WHERE PEOPLE CAN STAY
If we can provide water to grow things for the cost of building aqueducts and little or no net energy inputs, then we can let breeding age people decide whether to continue to live in that wasteland.

R’62. PROTECTING TRADE ROUTES
1/ The UM shall be responsible for protecting world overland trade routes from those who would attack them and sphinx them. However, as a backup we shall say that nations shall have the right to step in to police their trade routes if neither the local nation, nor the UM is securing their goods in transit.
2/ The UM may establish military bases and air fields along the trade routes to protect them if this becomes necessary. All member states must cooperate and provide land, and utilities for this.

R’63. MIDEAST BORDER PLAN
1/ Kurdistan: The contiguous Kurdish majority areas of Turkey, Iraq, Iran, Syria, and Armenia that are directly on the border with Kurdistan shall become the nation of Kurdistan. The other majority Kurdish enclaves in these nations that are not contiguous with the border shall remain the territory of these nations. For example the Kurdish enclave south of Ankara shall remain Turkish. Because this plan gives the Kurds their own independent nation without a great war, all Kurds shall owe a debt of gratitude to this plan throughout their generations. From now, all Kurdish enclave people shall live in peace, and fully submit their host nations, or they must move to Kurdistan.
2/ Arabia: Arabia is to be fully depopulated as described elsewhere.
3/ Iran’s empire no more: Iran shall cease to exist as an empire:
   a/ The Azeri majority areas of northern Iran shall become Azerbaijan.
   b/ The Kurdish majority areas of western Iran (but only in western Iran touching the border) shall become Kurdistan.
   c/ The majority Baluchi portions of eastern Iran shall be combined with parts the Baluchi parts of Pakistan and Afghanistan and become the nation of Baluchistan. Because this plan gives the Baluchs their own independent nation without a great war, all Baluchis shall owe a debt of gratitude to this plan throughout their generations. All Baluchis enclave people shall live in peace, and fully submit their host nations, or they must move to Baluchistan.
   d/ The Turkmen majority areas of northeast Iran shall become part of Turkmenistan.
   e/ The Lur majority areas shall have their own nation.
   f/ The Persian area at the end of the Persian Gulf created by this plan shall be exhoded because it is a tsunami death trap.
   g/ The remaining nation shall be called Persia.
   h/ No enclaves shall be created, such as might perhaps otherwise occur in or near Karaj. This shall hold with all the national partition plans herein.
   i/ The low lying oil rich areas at the end of the Persian Gulf that are currently Iran shall, like all of Arabia become an uninhabited UM territory. These areas shall be resource surveyed and exploited by the UM for the benefit of all mankind.
   j/ All of former Iran must declare and give up all of their nuclear and WMD programs and allow the facilities to be destroyed by the UM.
4/ Pashtunistan: The portions of Pakistan and Afghanistan that are majority Pastun, and not enclaves in other nations shall become Pashtunistan. This includes the Tajik and other enclaves near Shara, Lashkar Gah, Zaranj, Farah, Shindand, Harat, and Qala-i-Naw. This also includes the Tajik, Uzbek and Aimak enclaves near Herat, as well as Kabul. Because this plan gives the Pashtuns their own independent nation without a great war, all Pashtuns shall owe a debt of gratitude to this plan throughout their generations. All Pashtuns enclave people shall live in peace, and fully submit their host nations, or they must move to Pashtunistan.
5/ Pakistan: A large unified Pakistan is no longer needed as a menacing edge for Islam against India. In fact, now you are all supposed to be at peace with the world, right? So we are going to break up of Pakistan. And this will be perhaps the most important olive branch that can be given to the people of India. This will make all of India much warmer and and friendlier to the fall of Islam and the idea Muslims living peacefully in India. So Pakistan shall become at least 4 nations: Baluchistan (including parts of Iran and a bit of Afghanistan), Pashtunistan (including parts of Afghanistan), Sindistan, and Punjabistan — and all the lines get drawn by ethnic majority (The Baloch enclave in Sindhistan will be Sindistan). Punjabistan shall vote on a break up along ethnic borders into up to 6 nations. The Northern part of Pakistan around Gilgit should also probably be a separate nation, along with the muslim parts of India, call that
nation Gilgistan. The scarce (but now increased) water resources of the Indus river shall be shared among the new nations of former Pakistan according to 1980 population, and as apportioned and monitored by the UM.

6/ Turkmenistan: All the majority Turkmen areas in Afghanistan contiguous with the border with Turkmenistan shall become part of Turkmenistan.

7/ Uzbekistan: All the majority Uzbek areas in Afghanistan contiguous with the border with Uzbekistan shall become Uzbekistan.

8/ Tajikistan: The majority Tajik, Pamiri, and Nuristani areas in Afghanistan contiguous with the border of Tajikistan shall become part of Tajikistan.

9/ Kyrgyzstan: The Kyrgyz areas in Afghanistan contiguous with the border with Kyrgyzstan shall become part of Kyrgyzstan.

10/ Hazarastan: The majority Hazara areas in Afghanistan shall become Hazarastan and with the formation of all these nations, Afghanistan shall cease to exist.

11/ All shall now live in peace: They shall be friends with their neighbors and with the world out of respect for the plan that either moved them or unified their nation and brought more water to their various nations.

12/ The end of the Persian empire: Iran now loses the last of the ancient Persian empire.

13/ Nagorno-Karabakh: a/ The Nagorno-Karabakh autonomous zone shall lose the areas directly on the borders with Azerbaijan and Iran that are majority Azeri. These areas shall become Azerbaijan. The Nagorno-Karabakh autonomous zone and Armenia shall likewise gain all areas that are directly on the borders with Azerbaijan and Iran that are majority Armenian.

b/ Azerbaijan’s Nakhchivan zone will no longer be an enclave due to the dissolution of the Persian empire.

c/ The areas between Nagorno and Armenia that are mostly deserted shall remain Armenian except the majority Azeri communities on the border with Azerbaijan.

14/ Acceptance:

The acceptance of this new border plan is required in each nation mentioned above for construction of the UM rail and aqueduct plans, and the beginning of the exhodos process.

R’64. PAKISTAN, IRAN, CENTRAL ASIA CHINA

All of these dry place including Turkmenistan, Uzbekistan, Afghanistan Tajikistan, Kyrgyzstan, and the Uigurh area will get UM water infrastructure projects, but they must all accept their share of exhods and other settlers including Chines settlers.

R’65. HILLS FOR BANGLADESH

The following areas shall be given to Bangladesh, so the nation does not have to be exhoded to the world:

1/ All of the Indian state of Mizoram except Aizawl and Kolasib counties shall now be Bangladesh.

2/ The parts of Burma's Chin State that are more accessible, or potentially more accessible from the Bangladeshi side of the Arakan mountains than the Burmese side.

3/ The parts of Meghalaya south of Garobadha, Tura, Williamnagar, Shallang and Nongstoin, and also west of Nongstoin.

4/ The Majority Muslim parts of the Burmese state of Rakhine.

R’66. THE BURMAS

There shall be 4 Burmas. These are highland areas, each with some nearby lowlands only suitable for farming due to the tsunami risk.

1/ West Bama: West Burma mostly lives in the Alongtaw Kassapa ridge, which is east of the AH1 highway (Kalaymar).

2/ North Bama (Chinmar).

3/ East Bama (Shanmar).

4/ South Bama (Adamar).

X/ The North and West divide at Imphal. The North and East divide at Bhamo. The south divides at Kyaukkyi.

XX/ Burma will now have some of the cheapest electricity in the world due to all the nearby hydroelectric. Because the hillsides of the Burma valley are very long, the population can be increased by 3X to 5X.

R’67. LAOS

1/ The UM shall connect many the dozens of flattish areas in Laos via train, so they can support communities. Then the UM will establish townships sites and recoup its transportation system cost selling entitlements for townships.

2/ The population of Laos may be increased to 70-million due to all the highlands areas available for townships.

R’68. XIN JIANG

1/ Asku, Hotan, Kashgar, and Kizlesu provinces being 87% Muslim and on China’s border, these Xin Jiang provinces shall now be an independent nation, totally independent from China.

2/ The people of Xin Jiang shall treat the Chinese living in their lands as equals under the law.

3/ All Muslims and Chinese in other parts of Xin Jiang and western China shall have the right to emigrate to Xin Jiang. They will also have the right to emigrate to many other newly opened places around the world in great numbers.

4/ This right of emigration also applies to all Xinjiang Muslims that are incarcerated or on probation, except that these shall be transferred to the authorities of Xin Jiang.

R69. NEW GUINEA

This island is more than twice the size of Japan and can house another 70 million more people with its 2,000-km-long ridge.
R'70. DARWIN
1/ We shall build facilities for moving water from the higher rainfall areas of Australia's tropical north to the nearby lower rainfall areas of Australia's tropical north.
2/ All of Northern Australia has a population of 250,000. And Western Australia outside of the Perth has far less. We shall draw an east/west line from 40km north of the center of Alice springs And we shall draw a north/south line from 40km west of Mount Isa. This area to the Northwest shall be the new nation of Darwin. Australia retains all mineral rights for all operating mining facilities.

R'71. NEW UM SETTLEMENT NATIONS
These are all underpopulated and underused areas today. We will move many people from pl
1/ Amazon and Orinoco basin.
2/ North Canada.
3/ East Russia.
4/ The Congo.
5/ Central African Republic.
6/ Chad and the North African belt. (Irrigated)
7/ Newly irrigated parts of India.
8/ Botswana. (Irrigated)
9/ Volga area. (Irrigated)
10/ The Sudans. (Irrigated)
11/ The Burmas.
12/ Laos.
13/ Borneo.
14/ East Kenya.
15/ Darwin.
16/ New Guinea and neighboring islands
X/ North Canada, Burma, Laos, Darwin, and the Volga area shall be places of preference open to only the first groups of Exhods. In all locations there will be a mix of exhods together with people from other locations.

R'72. NEW BOTSWANA
We will run aqueducts from the Congo watershed in to the neighboring Zambezi watershed and make a new UM settlement irrigated nation of the following areas:
Namibia — pop 2.5 million
Botswana — pop 2.5 million
Zimbabwe — pop 14 million
Zambia — 18 million
The underpopulated dry areas of southern Angola
The underpopulated dry areas of southern Zambia
The underpopulated parts of southern Mozambique
(Gaza/ Inhambane, Maputo provinces)

R'73. NORTH AFRICA RELOCATED
We shall move many of the people of north Africa, and move most of them to the wetter southern edge of the Sahel where at least some rain falls, and where we can build water movement projects for the movement of tropical water. Thus more of equatorial Africa will come into agricultural production where the sun will be strong during ice ages.

R'74. EAST KENYA
The underpopulated eastern Provences of Kenya shall be used for a new UM settlement nation (The Kenyan provinces of: Turkana Samburu, Marsabit, Isiolo Wajir, Mandera Garissa, Tana River and Lamu). This area will be watered with UM water projects from the Rift Valley.

R'75. EGYPT AND SUDAN RE-DIVIDE
Egypt and Sudan will be combined and re-divided into 6 UM settlement nations:
1/ New Egypt: This is made up of the dryer more northerly parts of Sudan that don't get enough rain for agriculture. The water that makes Egypt (with no rainfall) bloom will now make twice as much half-rains land bloom in Sudan. And because there will be less evaporation and seepage, the water will go even further.
2/ Old Egypt: If the flood is high, the Nile will be farmed further and further down into Old Egypt so that no water is wasted even in the wettest years.
3/ Adana: This mostly non-agricultural UM exchange city is explained elsewhere. Adana will be a new capital of Africa.
4/ South Sudan: This is the central 5 provinces of today's South Sudan (Northern Bahr el Ghazal, Warrap, Unity, Lakes, and Central Equator)
5/ West Sudan: This is the sparsely populated provinces Western Bahr El Ghazal, and Western Equatoria provinces of South Sudan. This area has a population of only has 8 people per square kilometer now.
6/ Eastern Equatoria provinces of South Sudan. This area has a population of only 16 people per square kilometer now.
X/ South Sudan population density: This is a rich equatorial nation with abundant rain. It seems like it can sustain a population density of perhaps 200 people per square kilometer. This about over 10X the number it sustains today (18 people/KM2) Settlers may be moved in by the UM until the population density is 100 people/KM2. In the warring areas of Sudan a share of settlers will be given bolt action rifles and defense training. There may also be advisors able to call in airstrikes from carrier based micro-bombers. These settlers will be an ethnic mix of many nations and Exhods settled in large mixed community groups among the Sudanese to stabilize the nation. As they will outnumber the South Sudanese by a several fold, they will be able to impose peace upon the nation. This sort of resettlement should be the standard way the UM lands that are war torn and underpopulated.

R'76. MORE PEOPLE IN THE CONGO
The Congo shall become 10 nations. The first 3 are not under-populated. The Last 7 are under populated and the population can be increased many fold in these areas:
1/ Bas-Congo.
2/ Nord-Kivu.
3/ Sud-Kivu.
4/ Kasai-Oriental.
5/ Orientale.
6/ Maniema.
7/ Equateur.
8/ Bandundu.
9/ Kasai Occidental.
10 Katanga.

R’77. SOMALIA
1/ Somalia shall become 3 nations: Somaliland, Somalia, and Puntland. The Somaliland/Puntland border of be as declared by Somaliland in 1991. The Puntland/Somalia border shall run roughly down the Shabelle river from the Ethiopian border to 20 km downstream past Buulobarde. Then it shall run to halfway between Ceeldheere and Cadale.
2/ Somalia’s right to the Ethiopian runoff waters from of the Shabelle and Jubba rivers shall be contingent on the nation remaining at peace with its neighbors and with its maintaining freedom of religion. If Somalia cannot remain at peace or tolerate other religions, it will see its water dialed down until it is forced to remain at peace. This peace includes all of Somalia's neighbors including Kenya, Ethiopia, Somaliland, Puntland, as well as all the other nations in other parts of the world. And Muslims living in these other nations.
3/ All the people of Somalia that do not have means to survive on a farm shall be moved. They shall be relocated across the various evacuation areas of Africa and mixed in with other relocated people so they do not predominate and cannot easily serve as a fighting force.
4/ The get-out cities Mogadishu, Makra, and Kismaaya shall be raised to the ground once they have been evacuated.

R’78 ETHIOPIA BREAKUP
Ethiopia shall be broken up into 5 nations:
1/ The following Ethiopian provinces shall become the UM nations of Adana: The four Tigrays, N. Gonder, Metekel, Asosa, Kamashi, Tongo, W. Wellega E. Wellega, Illubabor, the three Gambella provinces, and the four Tigray provinces.
2/ Soomaali Galbeed shall be an independent nation.
3/ Afar shall be an independent nation.
4/ Oromiya shall be an independent nation.
5/ The Southern Nations shall be an independent nation.

R’79. CENTRAL AFRICAN REPUBLIC
The eastern half of the nation should be a new settlement nation. The western nation shall be Bocaranga, and the eastern shall be Bangara.

R’80. WESTERN SOUTH SUDAN
There are 15 under populated counties. If the UM is going to substantially increase the irrigation water available, then it should get some resettlement territory here.

R’81. SOUTH AFRICA BREAK-UP PLAN
South Africa shall be broken up into 6-nations following language majority. The final division of land shall be by UM Over-Senate election.
Tswana: Including parts of Northern Cape & Sesotho and N. Sotho.
Sesotho: Not including a small area that becomes part of Northern Cape.
Xhosa: Not including the western third of eastern cape.
Zulu: Including parts of N. Sotho.
Sotho: This includes all of Guateng, and Mpumalanga that are not majority Zulu and next to other Zulu lands, or majority Tswana and next to Tswana lands. This nation will be made up of a mixture of peoples and will include Pretoria.
Capeland: The parts of Northern cape, Western cape, Eastern cape, and Free State that are not majority black and are contiguous with Capeland. Capeland must accept a number of mixed immigrants from many parts of the world.

R’82. ANDEO
The Amazon and Orinoco basins are the world’s largest area area with both tropical sun and abundant water. Yet they are also an area with practically no people. Given the size of the area, this could become the world’s most agriculturally fertile region. Here are the nations and provinces that we will use to create the new UM settlement nation of Andeo: Venezuela, Guyana, Suriname, French Guiana, Southeast Columbia below 1900m ~1m, Roraima, Amazonas, Acre, Amapa, Para, Mato Grosso, Eastern Peru and Ecuador below 1900m, Bolivia north of Cochabama and below 1900m.

R’83. ENGLAND, SCOTLAND AND IRELAND
The islands are called Britain and Ireland. They shall have three independent governments, Ireland, Scotland, and England. Northern Ireland shall cease to exist, and the nation of Ireland shall occupy the entire Island of Ireland. The nation of Scotland shall be independent from the UK and shall occupy all areas currently known as Scotland. England shall occupy the part of the Island of Britain south of Scotland including all of Wales. There shall be a hard border with all three nations, although all three nations shall begin with visa free travel between them for their citizens. Scotland and England may join trade agreements only if both agree, and if one votes to leave, both must leave. The people of Northern Ireland shall be free to live in Ireland for as long as they want and shall be entitled to equal protection under the law.
R'84. ADJUSTMENTS TO EUROPEAN BORDERS
1/ The Hungarian majority portions of Slovakia, Serbia, southwest Ukraine and northwest Romania on the border with Hungary shall be ceded to Hungary.
2/ The Albanian majority portions of southern Serbia and northwest Macedonia on the border with Albania should be ceded to Albania.
3/ The majority Croatian parts of Bosnia on the border of Croatia near Imotski shall be ceded to Croatia.
4/ The Republica Srpska, except for majority Muslim areas contiguous with the border with Bosnia shall be Ceded to Serbia.
5/ All of Unasana and Canton-10 shall be ceded to Serbia except where the area is majority Croatian.
6/ As is normal, no enclaves shall be created by the above.

R'85. EAST RUSSIA
All parts of Russia east of the Ob river shall now be a new UM settlement nation. Mongolia with only 3-million people and more importantly only 2 people per square km shall also be part of this new UM nation.

R'86. SWITZERLAND et al.
1/ The nation of Switzerland shall cease to exist as it was largely built on anonymous accounts, criminal proceeds, and money laundering. Switzerland shall be partitioned into 3 parts. The majority French speaking part shall be ceded to France, the majority German speaking part shall be ceded to Germany, the majority Italian speaking part shall be ceded to Italy. All Swiss account assets are hereby frozen whether in Switzerland or overseas. No trade shall pass to or from Switzerland until it agrees to being partitioned.
2/ Monaco shall now be France,
3/ Liechtenstein and Luxembourg shall now be Germany
4/ Andorra shall now be part of Catalonia and Spain if applicable.
5/ San Marino and Vatican City shall now be Italy.

R'87. POPULATION EXPLOSION
No matter how much we grow, we must end the population explosion. So we must say that unless nations gladly and eagerly accept, enforce and cooperate with our reasonable and fair UM population controls, that they don’t get to join the party. They get completely cut off like North Korea until they agree to follow the global population rules like everyone else.

R'88. POPULATION POLICY
1/ The UM shall endeavor to manage the population of humanity in a fair and practical ways.
2/ A 30-year average shall be made of the annual birthrate of each the world’s nations. This shall be expressed in live births per 1,000 native born citizens. This number shall not include immigrants.
3/ Depending on the birthrate of that nation, the people of that nation may have the number of children that follows. If the national birthrate is:
   a/ Under 1 per 1,000, then women may have 4 children
   b/ Between 11 and 15 per 1,000, then women may have 2 children
   c/ Between 15 and 20 per 1,000, then women may have 1 child
   d/ Over 20 per 1,000, then women may have 1 child, but only after age 30.
4/ This policy shall remain in place for just as long as the one-child policy was in force in China, however, the UM Over-Senate may elect to extend it.
5/ All women from PU nations may only have one child after they reach age 30. This policy shall in place for just as long as the one-child policy was in force in China, however, the UM Over-Senate may elect to extend it.
6/ All nations that muster up into broad democracies and enforce all of the rules of the UM including its population policy to the satisfaction of the UM shall be helped to industrialize over two generations by the UM. The people of these nations shall also be given free accounts on UM public education servers.
7/ All individual development aid monies shall only be paid to the women of the breeding-age in that nation who obey the UM’s child policy in full. Women and nations that do not follow the UM child policy shall not be entitled to government child benefits.
8/ All breeding age females in and past puberty in aid nations shall be required to undergo tenethly weighing. And if they gain weight, they must be supervised undergo urine testing for pregnancy. This is how we verify that they have not had any extra children. If they don’t go for their tenethly ID verification and weigh in, if they wait past day 40, then the account stops working. If they wait past day 50, the daily trickle of money gets diverted from their cash card and lost forever. If they wait past day 80, they get ejected from the system forever. House visits will be made to truly ill mothers. Also, everything is photographed and videotaped to reduce corruption, And everyone wears their account number where it is visible.
9/ In FGM cultures, all new females born hence must also go for regular gynecological exams. The mother forfeits the UM benefits if the daughter is mutilated. Also females born hence who are mutilated shall not receive UM child benefits if they reproduce.
10/ All immigrants shall obey the UM child limits of where they were born for their entire life.
11/ Reproductive limits shall not apply to the children born from both the eggs and sperm of confirmed Senators or ubiqs (surrogate births/).
12/ Women who pass the UM administered college verification test shall be allowed to have 4 children.
13/ Women who are confirmed Senators shall not be subject to any child limits.
14/ The income of the parents shall not affect her UM child support money.
15/ It shall be presumed that everyone is capable of understanding human overpopulation, particularly those who suffer most from it.
16/ Those who are already parents and exceed their child allowance, cannot have any more children.
17/ Each non-conforming child shall lower UM child benefits for his nation by 20-fold.
18/ The foregoing shall apply to all children born more than 7 months from revelation day.

R’89. WOMEN MARRIAGE AND REPRODUCTION
1/ Government shall be prohibited from squandering its energies on anything so trivial as who grown people choose to have sex with, or how they choose to do it.
2/ Each adult shall have the unlimited right to select who they marry, have children with, and temporarily partner with.
3/ The people should be able to take advantage of all safe reproductive medicine and bio-technology.
4/ Arranged marriages shall be prohibited.
5/ There shall be no child marriages involving people under age 18.
6/ Females shall be treated equally under the law, and shall have the same property rights, employment rights, and divorce rights as males.
7/ People shall not be allowed to beat their spouses, partners, children, parents or other family members.
8/ No women shall ever be considered the possession of any man, or vice versa. Everyone shall be free to leave their spouses or partners if they chose to do so.
9/ In no member nation shall virginity have any legal bearing in contracts or marriages. No marriage clause calling for virginity shall be enforceable.
10/ In no member nation shall women be required to cover their heads, shoulders, elbows or knees.
11/ The way a person is dressed shall never be considered a justification for rape or sexual assault.
12/ People shall not be kept locked up against their will.
13/ The UM shall not tolerate harem sex slavery, or girls given no education so they willingly submit to harem slavery.
14/ Member Nations that fail to guarantee the rights of the women living in their land may be ejected from the UM and may be considered as part of the PU based solely on this consideration.
15/ The custom of paying dowries makes female babies less desired and leads both abortion and female infanticide. For this reason, no agreement for the payment or receipt of a dowry or bride price shall be enforceable in any member nation.
16/ The UM shall have the right to search every location in the PU looking for women kept against their will.

R’90. FAMILY PLANNING
1/ All females that intend to receive UM child benefits shall be required to watch the UM’s sex education, family planning, STD-prevention, pre-natal, and child development media.
2/ The UM shall provide all popular and effective birth control methods free to everyone in the world who wants to use them. Humanity does this because it is the most cost effective way to reduce the birth rate among the poor, the irresponsible, and the emotional.
3/ No member nation may prevent, restrict, tax or discourage its citizens from obtaining the UM’s family planning education or family planning services.
4/ Fictional citizens shall be given no say in the UM’s family planning practices.

R’91. UM DEVELOPMENT AID MONEY
1/ The nations of the world shall have sufficient time to ramp up output and put their economies in ramped-up order. After this, the UM shall provide tele-education aid, and infrastructure child aid to economically develop the poorest parts of the world that obey the UM’s one breeding, education and economic development program.
2/ All UM development aid money paid to each nation shall be conditioned on the nation mustering up, and enforcing all UM policies, especially the relevant child limits.
3/ Everyone living in, entering, or leaving a UM development nation must be genetically indexed.
4/ It is widely known that hunger is the world’s greatest aphrodisiac. Truly starving women will have sex and babies for food. As well, ignorance is not far behind as a cause of babies, because ignorant women don’t think to run away. They frequently remain in situations where they have babies for little more than food. Thus if mankind wants to reduce the population growth among its poorest, it must pay special attention to the hunger, dependence, ignorance, and subjugation of its poorest women.
5/ All UM development aid money to individuals must go to the cash card accounts of individual women as ruler of their family, and none shall be paid-to or spent-by the men of any family. No less than half of all UM development aid money shall go to the cash-card accounts of individual women, where it will be focused precisely on managing population growth.
6/ The UM shall encourage women to join the workforce in developing nations, to reduce fertility and increase output. There shall be no loss of UM development aid money when women work in addition to receiving UM development aid stimulus money for their nation, provided the kids are watching UM approved non-religious kids media.
7/ Nations that fail to comply with the UM’s population policy shall first see their development aid money cut. Later, they shall suffer sanctions designed to drive them into compliance.
8/ UM development aid money shall be suspended in nations where even a small number women wear slave’s clothing, or new females are the victims of slave circumcisions, or there exist harams, or underage girls are sold as brides or sex slaves.
9/ The nations that muster up into conforming broad democracies first, shall get development aid money first. No development aid money shall go to nations that are not mustered into a conforming broad democracy.

R’92. SIREAGE
1/ Each female shall have the inalienable right to choose who she will have sex and reproduce with, provided her partner(s) also choose to have sex and/or reproduce with her. Females shall always be free to choose who they want to have children with. This is a thing that is inalienable, a thing that cannot belong to another person, even in marriage. It may be grounds for divorce under a marriage agreement, but it shall never be against the law.
2/ It shall not be a crime to have sex outside of marriage, or to have sex with a person other than your spouse, or to have sex with someone of the same sex.
3/ It shall be considered the right thing, a good thing, a noble thing, a pro•man•then thing when a women bears a sired child or a surrogate child instead of a love child. But it shall always be 100% up to the female.
4/ Government shall teach and encourage women to put the love of their children and their own line above the love of their mate, and the joys of “Roman antics” in their present life.
5/ Government shall encourage sireage by facilitating sire selection, and by providing genetic logistics.
6/ Government shall not restrict, discourage, impede, or tax Senate sireage or Senate surrogacy.
7/ Government may offer added child benefits for women who bear Senate Sires or Surrogates, but only a reasonable amount to make up for not having the average father around. Nothing more. Women should not be having sires for the support money.
8/ Society should help its smartest people, and greatest contributors to have many offspring.

R’93. MOTHERS THAT ARE LITERATE
1/ After 2026.01.01, no women in the world shall have children unless they can pass the UM’s 9th grade reading test.
2/ After 2030.01.01, no women in the world shall have children unless they can pass the UM’s 12th grade reading test.
3/ The same test shall be given worldwide. It shall be made in a distributed randomized impromptu manner by the UM Main-Senate each year. This shall be in addition to the national test, so that people will have to sit for two tests, one under national supervision and the other under UM supervision.
4/ After 2035.01.01, all UM testing shall be in the Euemi language exclusively.

R’94. FEMALE GENITAL MUTILATION
1/ This practice shall stop everywhere completely.
2/ All females in or from all FGM areas in Africa must go for annual gynecological inspection by randomly assigned and audited female nurses in order to get any international aid money or benefits. This is so for the FGM nationalities living in Africa as well as those that have emigrated and are now living outside of Africa.
3/ There shall be no statute of limitations on FGM crimes.
4/ All females born after 2021 from FGM nations shall be legally ineligible to form a legally binding marriage contract if they have been mutilated.
5/ Other sanctions may be taken by the community of nations to stop the awful practice of FGM.

R’95. ELECTRO-SIPHONING MOUNTAIN WATER
1/ The UM shall put as much of the world’s high altitude river water into pipe hydro-electric systems as is cost effective.
2/ Much of the electricity generated by the pipe-hydroelectric systems will be used to pump the water far away from its source. Much will also be used by our cities and transportation system.
3/ The surplus hydro energy for each region must be shared along with the water. Here our compass shall be maximizing world food output capability, not some calculus of fairness.
4/ The electricity and the water need not come from the same place. The electricity will come from the best places to generate electricity, and the water will come from where it uses the least energy to move.

R’96. HIMALAYAN WATERSHED RIGHTS
1/ Except for Indian territory, the entire Indus and Sutiej watershed shall belong to Pakistan. The earlier and pre-existing territorial rights of the Hindus of India shall remain. This however does not include the majority Muslim areas that will be lost in the global border re-alignment. No portion of the Indus and Sutiej watershed shall belong to any other nations.
2/ The entire Ganges and Brahmaputra (Yarlung Tsangpo) watersheds shall belong to India, Pakistan and Bangladesh. No territory in the watershed of these rivers shall belong to China. Among these three nations, the division of water and electric rights shall be by 1980 population based on population percentages calculated after the border realignment for of Jammu and Kashmir based on ethnic majority. No portion of the Ganges and Brahmaputra watershed shall belong to any other nations.
3/ The water from portion of the Brahmaputra river above including the Lhassa river outfall and near Yamdrok lake shall belong to Pakistan. The portion below shall belong to India. If Pakistan does not take and use the water, then the water shall be India’s.
4/ A mere 7 million Chinese colonists are not enough to deprive 1.6 billion Indians and Pakistanis of any other Himalayan water rights. The 6 million Tibetans and 7
million Chinese colonists in Tibet may use up to 1% of the Brahmaputra's water. The Nepalese may use up to 2% of the Brahmaputra's water.

5/ The entire Irrawaddy and Salween (Thanlyin / Nu Jiang) river watersheds shall belong to the Burmas, although Thailand shall have the normal unused water rights for hard to use Salween.

6/ The entire Mekong watershed belongs to Thailand, Laos and Cambodia according to their 1980 population share. No portion of the Mekong watershed shall belong to any other nations.

7/ The Red river watershed belongs to Vietnam. No portion of the Red river watershed shall belong to any other nations.

8/ The Yangtse and Yellow river watersheds and traditionally Chinese areas of Tibet shall belong to China. No portion of the Yangtse and Yellow river watershed shall belong to any other nation but China.

9/ Where the Mekong, Salween, or Red river passes through China territory, China may use up to 2% of the water.

10/ The Janisarit electricity and water are actually a global resource. However, due to the impracticality of sharing power and water over great distances, the Janisarit can only be a regional resource. The electricity generated by the Irrawaddy, Salween, Mekong, Red river, Yangtse, rivers and their tributaries (but not the Pearl river) shall be shared among the nations of Burma, Thailand, Laos, Cambodia, Vietnam, China according to their relative 1980 populations.

11/ The right to use the water of a watershed comes with the right to gather energy from these rivers. This energy is needed to power the downstream water distribution.

12/ Except for special deposits approved by the UM, there shall be no mining or mining contamination in this inaccessible yet critically important watershed up high. There shall also be no large dangerous dams (natural or otherwise) above valleys where people live.

13/ Tibet shall become a UM territory due to its potential for starting a war.

14/ The Janisarit hydro-electric water and energy shall be divided up according to 1980 population. This however, does not include the Burmas or Laos because they are both underpopulated and will now take many immigrants. So their 1980 share shall be multiplied by the new immigration multiplier. If the nations doubles its population now from immigration let their 1980 population be counted 2X. If it quadruples its population now from immigration let their 1980 population be counted 4X in the apportionment of water and electricity rights.

15/ Aksi Chin being good for nothing but starting wars, it shall become a UM territory.

R’97. THE VOLGA RIVER PLAN
1/ We shall build aqueducts so the Volga’s water may be used in the surrounding dry areas.
2/ We shall build an aqueduct to divert some of Volga’s water to the Ural river. Then this water will be used to irrigate dryer areas like near the Ural in the Atyrau, West Kazakhstan, and Aktobe provinces of Kazakhstan.

R’98. DRAIN THE ARAL SEA
We shall dig canals and drain the salty Aral Sea and salty Sarygamysh lake into the salty Caspian Sea. Thus we will help decontaminate these areas of their naturally occurring poisonous salt.

R’99. CAUCUS RIVERS
We shall build pipe hydro projects for the Caucus mountains including the Aras, Terek and Rioni rivers.

R’100. DANUBE RIVER AQUEUDCTS
As is the universal right of all nations, Turkey and Greece shall be permitted to build aqueducts to take excess water from the Danube river to their land via Romania and Bulgaria. If either builds as far as Aytos Bulgaria, the UM shall build the final part north of Aytos to the Danube.

R’101. THE UBANGI TO EAST CHAD
1/ At Bangui the Ubangi’s discharge is equal to about 1.41 Niles of water. As the Nile supports 250-million, the diverted Ubangi can theoretically support 350-million new people in this area.
2/ Hydroelectric power generated elsewhere in Africa shall be used to power the pumping needed to move the Ubangi’s water, and none of the Ubangi’s water need remain to contribute to the Congo river’s massive flows.
3/ The Ubangi shall be diverted into the Chad basin where it will provide the people of Chad, Niger, Nigeria and northern Cameroon with irrigation water.
4/ We shall make the underpopulated eastern part of Chad into a new settlement nation irrigated with UM water projects from the Congo basin.

R’102. THE NIGER RIVER
This river should be used in the inland desert before it flows into the wet areas near the coast.

R’103. AFRICAN RIFT VALLEY WATER
If feasible we shall send this water into the Nile basin, to East Kenya, Ethiopia, Somalia, Tanzania, Zambia, Zimbabwe, Angola to Sudan, and to New Botswana.

R’104. PARANA RIVER IRRIGATION
The Parana river has 6.5 Niles in water flow and outfalls near Buenos Aires. If cost-effective, or needed for ice age preparations, the UM shall build aqueducts to better use this water.
R’105. BUYER AND OWNER OF HYDRO PIPES
1/ In Canada, the US, Mexico, Australia, Japan, and Spain, the facilities should be owned and run by the individual nations because there is no question about division of the resources. In Africa there must be one UM managed system because there isn’t enough high water to power all the water movement needed. With India, Pakistan, and Bangladesh, the three nations need to cooperate as one so that the water and electricity can be used to increase would output. The nations of Europe can manage their own water facilities. Outside of these nations, the UM shall pay-for and run all of the new pipe hydro projects and apportion the benefits based on population.
2/ The Janisarit area will have the world’s greatest overabundance of energy. So much of the world’s energy intense industry will occur nearby. This cheap energy is much more of a plus than the hilly terrain is a minus.
3/ The UM shall have the right in case of volcano-driven climate emergencies (and only in this circumstance) to divert water to where it will produce the most sustenance for mankind.

R’106. WORLD SOIL AND GROUND WATER SURVEY
The UM shall regularly survey the entire world for the quantity of groundwater and average soil thickness. This shall also include nutrition categories for the soil.

R’107. MORE WATER FOR THE NILE
If practical, we shall divert some runoff from Lake Victoria, Lake Albert, or Lake Edward into the Nile. If practical, we shall divert some runoff from the rivers of the upper Congo basin (Uele, Chinko, Kotto and Mborou, Aruwimi, and Lindi) into the Nile.

R’108. JANISARIT TRANSFERS
If practical and advantageous, the UM shall build facilities for transferring large amount of water between the rivers of the Janisarit.

R’109. THE UNINHABITED WATERSHED RULE
The nations that have been traditionally the users of a river shall be the owners of that river and its entire watershed, unless another nation traditionally occupied the watershed. The community of peace loving nations must always err on the side of disfavoring modern occupation after the advent of trains and especially automobiles. Otherwise we slope the world towards war. So occupations after modern transportation should not count as traditional occupancy of another nation’s upstream watershed, even after a century.

R’110. THE RIGHT TO HARVEST UNUSED WATER
All water poor UM member nations will all have the right to build aqueducts and take unused water, unused water with no realistic plan for use, from the rivers of their neighbors. However, the recipient nation must: 1/ Be UM member and obey the UM rules, particularly the UM population rules. 2/ Not have nuclear, biological, or chemical weapons or facilities for making these. 3/ Be ready in case the benefactor nation ever needs this water back for any reason. Then the water is subject to a 2:1 split, with the donor nation able to recoup up to 2/3 of the annual water taken by the receiving nation. 4/ These waste water harvesting rights do not include hydro-electric power rights.
5/ This section is meant for rivers like Volga, Ural, Mississippi and Danube where most of the water is being wasted, not to rivers like the Nile and Rio Grande where most of the water is used.

R’111. ALL RAILROADS ARE FREEWAYS
1/ In all member nations, all railways and public transit infrastructure, lands, and former lands are hereby nationalized and made the property of the people to the extent the Over-Senate of either that member nation, or the UM Over-Senate elects to claim ownership.
2/ All goods that move by efficient railroads shall pay no transportation tax. All good that move internationally by inefficient roads shall pay the prescribed UM international road transportation tax per cubic meter in advance. All good that move internationally by inefficient boats shall pay the prescribed UM international boat transportation tax per cubic meter in advance. This boat transportation tax shall be abated for islands, and routes where boats are more energy efficient than trains, such as between Brazil’s Suape port and Lisbon.
3/ No nation shall impede, tax, stop, threaten its neighbors when they access the UM’s international rail backbone. All nations shall have an easement across their neighbor’s lands if needed to construct sealed rail lines to access the UM’s international rail backbone systems.
4/ The UM shall elect a fixed and prorated towage charge per 100-km for all cargo cars and another for high-speed passenger cars. Thus all non-island passenger routes in each continent shall pay the same rate for transportation based on distance. Thus all non-island cargo routes in each continent shall pay the same rate for transportation based on distance. The UM Over-Senate shall adjust these charges from time to time.
5/ Just as we provide the roads for free today, the UM shall not seek to profit-from, or recover the cost of building or maintaining its rail infrastructure. All government owned rail infrastructure shall be priced at built marginal operating cost, with no money charged for payback of the cost of right of way acquisition and system build-out, including viaducts, bridges, stations, and locomotives. Users shall only bear the cost of pulling, or the electricity they use for their own engines, and the cost of healthcare resulting from injuries to those traveling via the railway system, exactly as we will do with our roadway system. Users shall also frequently supply their
own railcars just as we do today with our road system and private bus operators, who share the routes with municipal busses. Whichever approach works best.

6/ No group or nation, whether in the UM or PU, shall ever be permitted to block, unnecessarily delay, threaten, or extort money or concessions from the UM for either installing rail-lines in its land, or for using those lines.

7/ If congestion develops, we shall impose per train congestion pricing.

R'112. A BLANKET EASEMENT

1/ The UM shall have the right to construct international railways, roadways, pipelines and canals anywhere it elects, anywhere on earth for the benefit of all mankind.

2/ The UM shall avoid the centers of existing large cities in selecting routing for its infrastructure. Indeed, the UM shall find the most remote good places it can find for its new linear infrastructure and new rail based cities. Then it shall attempt to organize new valuable communities around its new linear infrastructure.

3/ No town of less than 500,000 or city outskirts shall be off limits for UM linear infrastructure. No military base, nature reserve, natural park, Indian reservation, vital habitat, swamp, beach, river, or agricultural land shall be off limits. Whatever it is the most optimal route as elected by the UM, that is where the railroad, highway, aqueduct or utility lines will go.

4/ When the UM condemns more than 5% of an a human owner's land, it shall compel the national government of that nation to give 15% more land of a similar character than the UM took. If the taking is less than 5% of the land owned, then no amount shall be paid. No such increment shall be paid to fictional citizens.

5/ Wherever a UM train stops, the UM shall condemn all land within at least 60km. Wherever a UM highway has an exit, it shall condemn all land within at least 5km. Where the rail lines go shall generally presume a 1,000-meter wide easement.

6/ No member nation or PU province shall stop, interfere-with, tax, inspect, or regulate trade or passengers that are using UM railways to pass through their territory.

7/ No member nation or PU province shall have the right to interfere-with the construction or maintenance of UM railways, roadways, aqueducts or other UM utilities.

8/ No member nation or PU province shall have the right to dictate any terms to the UM about its railway and roadways, especially where they stop, speed limits, and the nature of the contained things carried thereon.

9/ The UM shall be free to use foreign workers to build its transportation infrastructure if it elects.

10/ No UM member nation or PU province shall condone violence against any UM railway or roadway. If any of the UM's international railways, roadways, pipelines or canals come under attack, the UM shall have the right to protect mankind’s common transport infrastructure.

11/ All member nations must allow the UM to open commodity extraction reserves on their territory, if the UM determines that their deposit is among the richest in the world.

R'113. INTERNATIONAL ACCESS

1/ All nations shall have an easement through neighboring nations to construct:

a/ Aqueducts to connect to the unused water resources of their neighbors.

b/ Sealed rail lines to connect to UM and other rail lines in the land of their neighbors.

c/ Pipelines to connect to UM and other pipelines in the land of their neighbors.

d/ Power and communication lines to connect to UM and other power and communication lines in the land of their neighbors.

e/ Highways to connect to UM highways in the land of their neighbors.

2/ Railcars worldwide must meet uniform standards and be regularly inspected to be used on the system. The top parts and interiors of the rail-busses and rail-trucks may vary considerably.

3/ To reduce traffic, government may establish minimum average passenger counts per railcar.

4/ Government shall not limit the number of enterprises competing to offer their fancy railcars.

5/ Each nation shall be allowed to regulate its own imports from the UM rail system. However, no nation may in any way interfere with the transportation of goods through their territory.

6/ It is intended that the UM rail system will grow as a web nation all over the earth incorporating all races of man. As this vascular territory grows in population, our old national boundaries will become less important.

R'114. PAN-AMERICAN RAIL SYSTEM

This is the name of a rail line that runs between the Bearing straight, Texas City, Andeo and Argentina:

1/ Fairbanks, Alaska.

2/ Northway, Alaska.

3/ Haines Junction, NT.

4/ Whitehouse, NT.

5/ Watson Lake/ Upper Liard, NT.

6/ Fort Nelson, BC.

7/ Grande Prairie, BC.

8/ Forrestburg, BC (The Vancouver line, Idaho line, Chicago line and Montreal line interchange here).

9/ Saskatchewan.

10/ Saskatchewan.

11-20/ There shall be 10 US stations that run where it is flattest east of the Rocky mountains, and the land is most scarcely populated through the Dakotas, Nebraska, Kansas, Oklahoma, and Texas. The last shall be in the Maquiladora zone south of Hebronville TX.

21-25/ There shall be 5 stations in Mexico.

26/ Guatemala in its west.

27/ Nicaragua on its western tip.

28/ Costa Rica near Cana.
29/ Santiago, Panama.
30/ Chepo, Panama (in the canal zone).
31/ Chigorodo Colombia. (This interchanges with another line running down the west coast of South America with 3 stops (Zarzal, Quevedo, and Piura) on the way to Trujillo, Peru.)
32/ Monteria, Colombia.
33/ Bosconia, Colombia.
34/ Acarigua, Venezuela. This interchanges with 5 other lines and is the main interchange for South America to the north.

35-43/ Starting near Acarigua, the Outfall line shall have stops near Tinaco, Ortiz, Taguay, Maturin, Tumeremo, Kwakwani, Lipo Lipo, and a last stop at Santana Brazil.
44-49/ Starting near Acarigua, the Guyana line shall have stops in Los Canitos, Parque Nacional El Caura, between Motocruna and Curiapa, Pedra Pintada, (two more stops), Tracua, (one stop) and then the last stop at Santana Brazil.
50-54/ Starting near Acarigua, the Yanomami line shall have a stops near Samariapo, Guramoni, Balao, Tulu Tului II, Entre-Rios, Then join with Guyana line.
55-67/ Starting near Acarigua, the Patagonia line shall have stops near Samariapo, Guramoni, Balao, Forte de Gracia, Igualdade, Cacoal, Tangara da Serra, Corumba, Loma Plata Paraguay, El Indio, Anaytuya, Rio Cuarto, and then the last stop at Townquist Argentina.
68-82/ Starting near Acarigua, the Bolivia line follows the relatively flat areas just east of the Andes with 14 stops, one for each of the main mountain passes into the Andes, and the last one near Santa Cruz Bolivia. The next station is Las Petras, and then the end is at Tangara da Serra.

83-107/ The Rio De Janeiro line loosely follows the 230 highway to Jaca Pessoa, then the 101 highway south past Recife, Salvador, Rio de Janeiro, Sao Paulo, then back to the main Patagonia line at Corumba. This line may have perhaps 25 stops. Natal Brazil shall have the main airport connecting South America with Europe and Africa. The people from the far north of South America will use Miami for these flights.

108-115 The Sao Paulo line runs from Corumba to Sao Paulo, along the coast to porte Allegre, and then back to the main Patagonia line at Anaytuya. This line may have perhaps 8 stops.

X/ This is 115 new freight interchanges, not counting the many spurs we will surely have in North America. The UM shall have bases ready to protect this route, a number of island bases for close air support of ground forces. There can also be a multi-national force for protecting the line between the US and Andeo if this is needed.

R'115. AFRICA RAIL SYSTEM
The main Africa exchange shall be located near Khartoum Somalia and the new city of Adana. Here is where Africa's exchange will go. This will be the most important commercial city in Africa. It will be where the lines mostly converge on their way out of Africa.

1/ The Adana line Connects Africa with the outside world with stops at Atbara/Kassala, Aswan Cairo and New Issa in Turkey.
2/ The Senegal line running from Adana to Chad, Nigeria, Mali to Senegal.
3/ The Cape line running from Adana through Kenya and Mozambique to near the cape of South Africa.
4/ The Congo line running from Adana to near the outfall of the Congo river and the northwest corner of Angola.
5/ The Botswana line starts on the Senegal line near Guera Massif in Chad (near Korotoro). Then it runs through CAR, Congo, Botswana and Mozambique where it joins with the Cape line.
6/ The East loop runs from the Cape line in Kenya to through Somalia, Somaliland, Djibouti, Eritrea and to reconnect with the Adana line at Atbara/Kassala.
7/ The North line runs from the west end of the Senegal line north to near the Tangier/ Ceuta ferry terminal. Then the line runs across the north coast of Africa and connects near Cairo.

R'116. TURKEY
1/ There shall be a new rail interchange east of Gaziantep and west of Batman, with the commercial/ work areas in the south near Ain Issa. This stop shall be called "New Issa". This is an interchange for where the routes come together from Africa, Europe and India via south Iran.
2/ There shall be a Hormuz rail line from New Issa to India. This line runs down the coast of the Persian Gulf and Gulf of Oman to India.
3/ There shall be a new rail line through north Turkey connecting Istanbul to Georgia and Azerbaijan. This will give the world another redundant connection between Europe and the Asia, another connection that is important because it avoids the Iran/ Afghanistan area. This shall follow the E80 highway route from Istanbul near Bolu, Tosya, Niskar, Erzinhan, and Erzurum. From here the route splits, with one route going roughly via the D965 route to near Kars and near Tbilisi to connect with the Axis line near Shirvan, Azerbaijan. The other route follows the E80 past Agri and roughly through the Aras river valley to the Caspian sea coast. There is another route that runs roughly along the D950 highway route to connect the main east/west route to the New Issa city. This is in addition to the route in the west of Turkey that connects Istanbul with New Issa.
4/ Great numbers of Exhods shall be resettled Turkey.

R'117. THE PERSIAN LINE
1/ New Issa, Turkey.
2/ Near Kiziltepe, Turkey.
3/ Near Erbil, Iraq.
4/ Near Dezful, Iran.
5/ Near Hormuz.
6/ Gwadar.
7/ Noori Abad (Hyderabad).
8/ Raniwara, India.
R'118. INDIA'S INTERNATIONAL INTERCHANGES
1/ The main international interchange city for India to the north shall be near Narwana Junction in Punjab.
2/ The main international interchange city for India to the west shall be near Raniwara.
3/ The main international interchange city for India to the east shall be the Deoghar/Suri Rajmahal/Babupur area.

R'119. THE TRANS-INDIA RAIL LINE
1/ An Interchange where the Amu Darya passes Qarshi, (called Qarshi).
2/ Angor, Uzbekistan.
3/ Bagram, Afghanistan.
4/ Pabbi, Pakistan.
5/ Gujar Khan, Pakistan.
6/ South of Jammu India.
7/ There are 10 or 15 stops on the way to Deoghar.
8/ Brahmanbaria, Bangladesh.
9/ East of Bago Burma. (This connects with the Mandalay and Alekon interchanges).
10/ Kanchanaburi, Thailand.
11/ West of Nakhon Ratchasima, Thailand.
12/ Xeno, Laos.
13 North of Dong Ha, Vietnam.

R'120. OTHER INDIA RAIL LINES
1/ The West Coast line shall be a line running from Narwana Junction to Raniwara and down the west coast until it can cross south of Tirupur. Then the line becomes the East Coast line and goes up the east coast and joins the main line at Deoghar.
2/ The Deoghar Line shall run from Surat to Deoghar.
3/ The Southern Line shall run from Vijayawad to Nagpur and the Trans-India line.
4/ The Chennai Line runs from Mumbai to Pune and Chennai.
5/ The Vijayawad Line runs from Mumbai to Pune, to Hyderabad to Vijayawad.
6/ The Narmada line shall run from Surat to Patna.
7/ The Agra Line runs from Surat to Agra and the Trans-India line.

R'121. CHINA'S MAIN CARGO HUB
1/ The Eurasian line starts in or near Xingtang (between Baoding and Shijiazhuang). This shall be China's new main interchange city. There are ample safe hills nearby.
2/ The rail line from Xingtang to the Bearing straight (and eventually the Americas) shall be called the Northern line, or the China Northern line outside China.
3/ The rail line from Xingtang to Vietnam (and eventually India) shall be called the Indochina line.
4/ The rail line from Xingtang to Europe shall be called the Eurasian line.
X/ All three of these lines meet in Xingtang.

R'122. THE EURASIAN LINE
From Xingtang, there shall be stops at follows:
1/ South and East of Datong.
2/ Between Hohhot/Baotou.
3/ Between Baotou/Bayannur.
4/ Between Bayannur/Wuhai.
5/ Near Urumqi.
6/ West of Karamay China.
7/ Aktogaj, Kazakhstan. (interchange for the Trans-India express called Bramagrad.)
8/ Near Karagandy Kazakhstan (Karagandy).
9/ East of Aktobe (Gagarin).
10/ West of Uralsk.
11/ East off Rossosh, Northwest of Volgograd (Interchange for the Axis line, called Centrograd).
12/ South of Romny, Ukraine (east Ukraine).
13/ North of Zhytomyr, Ukraine (center Ukraine).
14/ South of Lutsk (west Ukraine).
15/ Stany, Poland.
16/ Jezew Poland.
17/ West of Prerov Chechia.
18/ Bozice, Chechia.
19/ Eggenfelden.
20/ Ulm.
21/ Eventually this line reaches Algeciras/Tarifa where it offers a bypass re-routing for trade with Africa that bypasses the Mideast.
22/ Spurs on this line shall connect to the Montijo peninsula (Lisbon) and Ile Longue (Brest) as new container ports for the Americas.

R'123. THE AXIS LINE
1/ West of St. Petersberg, Russia.
2/ Kaluga, Russia.
3/ East off Rossosh (centrograd).
4/ Near Elista, Russia.
5/ North of Khasavyurt, Russia.
6/ Northeast of Shirvan, Azerbaijan.
7/ Rasht, Iran (Imran).
8/ Gorgan, Iran.
9/ Ashgabat, Turkmenistan.
10/ Qarshi (interchange for Trans-India express).

R'124. THE QARSHI LINE
1/ This line is only needed to reduce the power of Iran to block India's trade with Europe. It is mostly a backup line.
2/ Start at Qarshi interchange.
3/ Stop in Urgench.
4/ End in the station near Aktobe Kazakhstan.

R'125. BOZICE FREIGHT INTERCHANGE
This is about 50km north of Vienna and east of Znojmo:
1/ Most of the Czech trains will interchange here.
2/ Most of the Hungarian trains will interchange here.
3/ Most trains to western Romania will interchange here.
4/ Most trains to former Yugoslavia interchange here.
5/ Italy will interchange here.
6/ Many trains will continue on to south Germany.
7/ UM's backbone line will have an interchange for Germany in Ulm.

R'126. THE BEARING STRAIGHT BY BOAT
We shall build port facilities and boats in Loop lagoon in Alaska, and Uelen/ Inchoun in Asia. Thus the boats only have to make a ~100km trip between the rail heads in North America and Asia.

R'127. INTERCHANGE CITIES
1/ They shall be oversized by design and have an oversupply of township spots. This is because the primary goal within our new cities is not local transit efficiency, but having enough apartment spots that the land to place a cast unit will eternally remain plentiful and cheap.
2/ The land in all UM interchange cities is owned by the UM and rented for up to 30 years as whole townships. Various sorts of entities then develop the townships. Some are for-profit entities or rent or sell placed units. Some are groups of settlers that buy a unit for delivery at a prescribed date and join a cooperative.
3/ People buy a factory-made fully furnished unit and pay nothing for the land. In fact some cities will offer rebates once the unit is cast into a township. Then the Units pay property taxes to the township common areas and its part of the zip train system to the local interchange.

R'128. KILLING THE SEA SPHINX
1/ A main reason for organizing the UM is to destroy the 6,000-year-old Sphinx Mafia and the empire of the land of no resources. A main aspect of this is to make sure that the flow of goods cannot be sphinxed or sphinctered off anywhere in the world. A main aspect of this is to eliminate the use of the seas as a main means of shipments between the continents where practical.
2/ Killing the sea sphinx is a main reason why the UM will build and operate an international railroad system that connects Asia Europe, Africa and America. This rail backbone shall be considered critical to the UM's efforts to completely bypass the parasitic land in the middle and its agenda of less and worse for its host.
3/ The train routes discussed herein will allow us to do away with most of the world's inefficient sea and air transportation infrastructure, and replace it with an ultra-efficient rail transport system.
4/ It is ironic that Russia, a nation so landlocked should be the most strategic nation on earth with respect to the seas. For Russia could easily bypass over 80% of the world's shipping. All Russia has to do is allow genuine rail lines to connect Asia with Europe, and the Americas. This instead of the fake, poorly routed, 60-kph trans-Siberian railroad it has now.
5/ The first international business objective of Russia should now be to build a rail connection between China and Europe. All Russians shall now know that this will put them roughly the center of world trade.
6/ The first international business objective of China should be to build a rail connection between China and Europe.
7/ The people of both China and Russia should ponder how Ishtar:
a/ Is in firm control of both of their nations today.
b/ Has impoverished and enslaved their nations under emperors or tzars for thousands of years, until today.
c/ Used communism as an excuse to impoverish their nations.
d/ Orchestrated famines that killed millions of their people.
e/ Orchestrated the WW2 massacres of their intelligentsia.
8/ The first priority of both the Chinese and Russian people is to muster up into broad democracies so their governments can never be hijacked by the Arabs again. The second priority to make sure that there are direct rail lines between Europe and Asia.
9/ All Ukrainians shall see their identity with Europe and China, and and the agenda of the host, not in helping the parasitic agenda of Ishtar.
10/ No member nation or PU province shall be allowed to sphincter 3rd party trade passing through their territory.
11/ As the rail system replaces the ships, they should not be scraped, but purchased by the various governments of the world for near scrap pricing and kept in fresh water locations to preserve them better.
12/ The UM shall build air fields and mid sized docks on the following islands for close air support forces. These Islands shall all be UM territory, however the US, China, Russia, the UK and India shall be free to use them if they wish to keep the peace or kill tyrants that have risen up in or around these places
a/ Portinho Island (Near Sao Tome)
b/ Bassas da India (SW of Madagascar)
c/ Assompption island (NW of Madagascar)
d/ Samhah Island (near Socotra island)
e/ Jabal al-Tair Island (Red Sea)
f/ Karakitanng Islnd (North of Sulawesi)

R'129. FIREARMS
1/ All member nations must have at least one bolt-action rifle and 50 rounds of ammunition for every three adults of voting age. The member nations may require that these arms be kept in local centi-nome armories administered entirely at the centi-nome level. We certainly need this for stability in a global food crisis. But it also has obvious and powerful anti-war benefits. And the cost is insignificant in relation to the worldwide benefits. Two billion armory rifles at $150 each is still only $300-billion.
2/ All regions of all member states that have recently suffered from warfare, piracy, or warlordism shall be allowed to both own and carry arms. Also, to reduce invasions we shall say that those sniping at invaders should be held as heroes and suffer no prosecution. They should also be held at the same status as a Senator for
each invader they kill. The good spirit must remember this
service, or it will be considerably weaker.
3/ Where armed people are oppressing unarmed people,
it shall be the UM’s duty to recruit a local defense force
and train and arm them. We do this automatically.
4/ Where districts in member nations recently suffered
from annual homicide rates over 1-in-10,000, the native
citizens shall be allowed to legally own firearms. Where
districts in member nations suffer from annual homicide
rates over 1-in-5,000, the native citizens shall be allowed
to legally carry firearms, which carry firearms may be
limited to bolt action rifles and revolvers. The forgoing
numbers are intended to be a bit on the conservative
side. This is so the rule’s benefits will be more clearly
demonstrated. Member nations where the annual
homicide rates is under 1-in-30,000 shall not be required
to permit firearm ownership. However, all nations shall be
required to have the required defense firearms in their
Centi-Nome armories.

2021 ADDENDUM OF LAWS

The following laws shall be considered an addendum or coda to the new 2018 American constitution. These laws shall not be considered as part of the constitution, but only as laws, initial national laws. They shall be implemented as practical by the national government and may be changed at any time with a 60% over-majority of the Over-Senate.

L’1. PASSENGER TRANSPORT, TRAVEL & CARGO
1/ All passenger carriers, air, land, and sea shall price and sell their fares as one way tickets. If a roundtrip fare is offered, passengers shall be allowed to buy a one-way ticket in either direction for half of the round trip price. Also no passenger carrier may charge more for tickets going in one direction as opposed to the other.
2/ All passenger carriers air, land, and sea shall not adjust prices depending on how far in advance the ticket was sold, where it was sold, or who bought it. Also, they may adjust ticket prices no more than once in 6 days.
3/ All airports shall provide frequent and adequate free group transportation to and from the vicinity of all nearby population centers. This transportation shall be provided for free by the county because maximizing the use of this transit is far cheaper than building and maintaining road capacity. This transportation shall make no more than one stop per 15 minutes of the total journey. There shall be at least one transport stop per 250,000 people in all communities within 120km. There shall be at least one transport stop per 250,000 people for all areas within 250km.
4/ Except for airport workers and airport service vehicles, transit vehicles, and every single vehicle entering one of the nation’s airports, shall pay a fee of two hour’s wages to the national government.
5/ Travel carriers shall be prohibited from giving corrupting benefits to frequent or loyal customers. All existing frequent customer or loyal customer programs are hereby cancelled and the benefits void. No priority boarding shall be given to frequent customers.
6/ All air transportation shall include the following standard sized bags free of charge:
   a) One standard-sized checked bag of up to 32kg that is no bigger than 158cm (L+W+H)
   b) One standard-sized carry-on bag of up to 15kg that is no bigger than 56cm x 36cm x 25cm. If there is no room for the carry-on bag in the cabin, the airline shall stow the bag for free.
   c) One personal carry-on item such as a laptop bag or purse that weighs no more than 8kg. Wen aircraft will not accommodate the required baggage, then the airline must check it at no cost. However, all passengers shall have the right to keep their personal item with them, under the seat in front of them.
7/ If the temperature of an airplane passenger cabin ever falls below 15°C or goes above 30°C while on the tarmac, all passengers shall receive a full refund after the flight is completed.
8/ Air carriers that overbook a flight shall auction off the bumping to those who will voluntarily sell their time. If an insufficient number of passenger is willing to take 10 times the fare they paid, then the carrier may choose passengers and those passengers shall receive 10 times the fare they paid.
9/ The rule for flight delays shall be that all airlines shall have a 40-minute grace period. Then, after this, they shall pay 2% of each fare's value per minute of delay up to double damages. These delay fees shall however not apply for legitimate delays arising from weather, temporary airport closures, unavailability of fuel, unruly passengers, passenger illness, epidemic, terrorism, aircraft security, unexpected mechanical problems, force majeure, and other things beyond the control of an airline. These delay fees shall apply in matters of staffing, foreseeable mechanical problem, airline logistics, and gate availability. These delay fees shall also apply in matters of labor disputes for airlines and airport workers that are no longer allowed to strike: However the workers themselves shall be liable for the penalty if they strike in violation of the no-strike rule for transport workers.
10/ All flight attendants shall wear police cams that are always on.
11/ No new airports shall have ceilings over 3.5-meters tall, or have more than 20% glazing on any wall.
12/ Air carriers shall not pad their scheduled arrival time so as to consistently arrive early and evade item 11, just above. All carriers must use the time that the traffic routing system uses for their arrival plus a reasonable time for reaching the gate.
13/ Given that the value of passenger time on full airliners runs between 3 and 15 times the value of the aircraft and flight crew per hour, government shall lean towards penalizing airline companies that squander passenger time to squeeze-out a bit more profit.
14/ All flight legs that start, stop or transit in the PU shall include 2 free checked bags of 32 kilos each. Everywhere else, the flights shall include one bag of 32 kilos. This is the exact opposite of the import-friendly system imposed on America’s airline industry.
15/ All rail transportation shall include 2 standard sized aircraft check-in bags and one carry-on sized bag as luggage. Additional baggage shall be charged at true marginal cost.
16/ The lowest ticket price on each flight or passage shall be considered the basic price for all passengers. Any amount over this shall pay travel MECOT of at least 50% of the sales value.
17/ There shall be no inflight sales of food, perfume, liquor, duty free goods, or anything else on airplanes, except alcohol to be consumed in flight. No products shall be delivered to the cabin of any aircraft, or to passengers embarking on an aircraft or passengers disembarking from an aircraft.
18/ Anything sold on, or delivered to an airline passenger while on an aircraft shall pay travel MECOT of at least
50%. This level of MECOT taxation shall apply to all food and beverage sales, Wi-Fi access fees, duty-free products, inflight sales, headphone rentals, and any goods delivered while either on an airplane, waiting to board an airplane, or disembarking from an airplane. MECOT shall also be due for all extra fees such as larger seats, more leg room, preferential boarding, preferential seating, and fees for higher classes of seating. MECOT shall not be due for extra baggage fees. MECOT shall also not be due for things given to passengers for free.

19/ Once our new train system is built, we will tax the use of hub-and-spoke airline systems, except for mountain area airfields that are significantly less well connected via surface transportation.

20/ To minimize noise pollution, petroleum-powered passenger aircraft with less than 30-passengers shall generally be prohibited from flying over the urban and suburban areas of the nation.

21/ All eating and drinking establishments, airports, ports, train stations, bus stations, boats, airplanes, automobile fueling stations, and places that sell container beverages shall also sell unopened 500ml bottles of still water at a price not to exceed 3-minutes’ wages. This water must be sterile, have balanced minerals, and it shall not be gassed, salty, brackish or intentionally made dis-gusting in even the slightest way.

22/ All overhead baggage compartment doors on all aircraft shall be reinforced to handle the new baggage weights if necessary. These shall also be equipped with bungee nets as a backup for turbulence.

23/ All rail lines and metro/subway lines shall have enough passenger cars so that there are enough seats on the busiest part of the 3rd busiest day of the year.

24/ All docks and stalls in all ports, airports, train stations, and bus stations shall be public property. No docking functions of these places may be owned, controlled, leased or sponsored by anyone but government. All existing private rights in these are hereby nationalized and void.

25/ Airports shall not charge for use by commercial airlines in daily service. Ports shall not charge for docking while lading. Train stations shall not charge for docking up to 2 Hours.

26/ No business stall in any port, airport, train station, or bus station shall be leased for more than 3 years. All such leases shall be auctioned to the highest bidder on the county recorder’s website. All existing leases older than 3 years old are hereby cancelled one year from revelation day.

27/ Tobacco, container alcohol, perfume, cologne, cosmetics, designer clothing, and luxury products shall not be sold in ports, airports or train stations, or on airplanes, trains, busses, or boats.

28/ All air carriers shall be required to minimize their use the aircraft PA system. The PA shall not be used for commercial or marketing announcements, the playing of music, or media, or other announcements extraneous to the safety, scheduling and logistics of the passengers. Even meal and beverage service shall not be announced over the PA system.

29/ To minimize the use of 3rd party middlemen, all purchases made through a travel agent or travel booking website shall pay an agent sales tax of 5% of the travel booking.

30/ There shall be no non-refundable fares on any air carrier. The maximum charge for cancelling or rescheduling a ticket on any air carrier shall be the greater of 3-hours wages, or 15% of the fare if the cancellation or rescheduling is made more than 48-hours before departure.

31/ All seats on all commercial aircraft shall have a minimum seat pitch of 89cm and a minimum seat width of 49cm. Except for exit rows, all seats in all airlines departing from our nation must abide by this seat pitch on all flights.

32/ All air carriers must dispense water in unopened 500ml bottles. All must give one bottle to each passenger every four hours if the passenger asks. There shall be no charge for this water.

33/ Nobody may cover their face or head or head hair in an airport. Nobody entering an airport shall be allowed to wear a tent or tent-like clothing that may conceal arms.

34/ People over 192cm tall shall be given exit row seats at no charge if they state their height when they buy their tickets.

35/ There shall be no cloth covered seats, or combustible inflight magazines or publications on any aircraft.

36/ Airlines shall be prohibited from marketing or selling lodgings or car rentals, or travel insurance, or publishing or distributing print media, or advertising of any sort.

37/ 100% of all airport baggage handling areas shall be under video surveillance. At least 5% of the people collecting checked luggage shall be asked for proof of ownership.

38/ Crimes against travelers and goods in movement may be subject to triple penalties.

39/ All cloth upholstered and carpeted surfaces in all busses, trains, and commercial airplanes shall be replaced at least once every two years.

40/ No travel related industry shall discriminate based on how far in advance their products were purchased. Nor shall they have price tranches. This shall include airlines, railways, bus companies, boats, vehicle rental, hotels, and other forms of lodging.

41/ Rail infrastructure pays for no other infrastructure. If there is any road or road bridge that needs work near the rail line, the road system shall pay 100% of the cost including any costs it creates for the railroads.

42/ The road system is vastly more flexible and must
54/ Bus drivers and bus companies shall never have any liability for letting people over age 13 get on or off a bus in between stops. They are supposed to do this where it is not dangerous and where the bus is already stopped.

55/ No public bus for use by the general public shall kneel, or have special facilities for people in wheelchairs.

L’2. ROAD RULES

1/ Non-conforming vehicles must obey posted speed limits precisely. Conforming vehicles may go faster.

2/ Non-conforming vehicles also shall have an absolute speed limit of 60MPH. For Non-conforming vehicles, any speeding, even 1-mph over the speed limit shall be ticketable. All speed limits shall be posted like in Europe with multiple vehicle types shown.

3/ There shall be no reduced speed school zones on arterial roads. The schools or the sidewalks must be fenced instead.

4/ Where roads have been made slower primarily to reduce traffic flow and not to make the road safer, that speed lowering shall be repealed.

5/ All drivers with more than one moving violation in a year shall suffer a suspension of their license. The system must operate with greater precision as we make the transition to auto-drive vehicles.

6/ Those who enter an intersection that is not clear and block and delay transverse intersection traffic shall suffer a double moving violation and lose their license and vehicle for 30 days.

7/ Tailgating shall be moving violation. Extreme or aggressive tailgating shall be a double moving violation.

8/ Those who cause an injury accident while using a handheld shall be criminally liable, just the same as if they were driving while intoxicated.

9/ Cutting in late to a line of cars, and not waiting your turn, shall be a moving violation.

10/ Accelerating or swerving a vehicle to make pedestrians run away from the path of your vehicle may be considered assault. Drivers found guilty of using a vehicles to assault a pedestrian may be prohibited from diving for up to 10-years on the first offense.

11/ If it burns fuel, then it cannot be used on a bike path.

12/ Bicycle speeds shall be limited to pedestrian speeds on sidewalks and in pedestrian areas.

L’3. ROAD INFRASTRUCTURE

1/ All semaphores shall now have an extra red lamp to the side that is wired off the existing red lamp. There is also a switch that alternates the two lamps. If both lights are on solid, then the light just turned. After a while, the two lights will begin alternating slowly and then towards the red-light-period, they will be alternating rapidly signaling that the light will soon change green. This is for people looking at their phones during a stop.

2/ The location tracking system of each vehicle knows when the vehicle is, and all new vehicles must have a 5-second green-light countdown that can be turned down.
but can't be turned off. Thus the traffic light delays from people looking at their phones are reduced. The system may also give audio alerts to drivers about stopped traffic ahead, and coming red lights.
3/ All new human operated vehicles shall monitor for the system for emergency vehicles and play the siren inside the car. This way the emergency sirens do not need to be so loud — because they don't have to be heard inside sealed cars.
4/ All Emergency vehicle sirens shall use the European type sound as this causes less dog howling.
5/ Speed bumps and speed humps shall be prohibited on both public and private property. All existing speed bumps and speed humps shall be removed by 2025.01.01 All stop signs that exist primarily to slow traffic shall also be removed by 2025.01.01.
6/ Where an arterial road suffers from daily congestion and other lanes can be added by deleting paved shoulders, then the shoulders shall be used for additional lanes.
7/ Where an arterial road suffers from daily congestion and other lanes can be added by deleting bicycle lanes with less than 20% of the users per lane, the bicycle lanes shall be deleted.
8/ All congested roads shall have car counters at regular intervals. The county recorder shall report numerical congestion levels in real time to help people see quantified congestion levels on important streets.
9/ Each roadway dash shall correspond to a location key in a database and a fraction of a car position on the road network. These dashes will provide greater precision between RFID location markers buried in the roadway.
10/ The snap to lane system also controls the speed of all the cars and accelerates and moves them in unison.
11/ The snap to lane system also divert cars around stalled vehicles and thus allows for virtual shouldering in the middle of the roadway. This allows us to use narrower shoulder lanes.
12/ Everyone and every loose domestic animal shall be required to carry an anonymous vehicle collision avoidance transponder when they are either walking along a road or crossing a road at a non-crosswalk location. All children under age 11, and all pets shall be required to wear an un-removable transponder unless they live in vehicle-free area.

L'6. CAR DEALERS
1/ All new vehicle sellers shall be required to sell all identical vehicles for the same out-the-door price.
2/ All vehicles ads for vehicles advertised for sale must list the VIN number(s) of the vehicle(s) advertised. As soon as a vehicle sells, its VIN number goes out to all the car selling websites and that car is immediately pulled from all listings.
3/ When a vendor advertises or offers a vehicle for sale at a given price, the vendor must transfer the vehicle for that price including all charges such as dealer fees, tax, transfer fees, delivery fees, dealer preparation fees, cleaning fees, motor oil, two key sets, and a full tank of gas, and everything needed to buy a the vehicle. The ongoing registration charges and ongoing insurance charges are not included.
4/ All vehicle extra options for each body type of vehicle shall be subject to MECOT.
5/ If a sales commission is paid to any car salesman, then commission sales tax shall be due for that income.
6/ Enterprises that sell vehicles shall not be allowed to charge for repairing those vehicles post sale. They shall also be prohibited from having an affiliated repair businesses, or referring car buyers to any repair business.
7/ If a car is advertised for a price, the car depicted must be the version available at that price. Base prices cannot be stated and loaded trim depicted.

e/ Shall wear a badge with their driver number and name. They shall also put their name placard on the dashboard.
f/ Shall not be allowed to have a tobacco, alcohol, or drug license.
g/ Must be native citizens.
h/ Must gladly take a breathalyzer test any time they are asked by the police or the DMV.
2/ Where the taxis are queued up, passengers shall be free to take any taxi in the queue.
3/ No audio or video shall be played to the passengers of shared vehicles. Shared vehicles shall not be used for advertising either inside or outside.
4/ No taxi company shall operate more than 200 human drive taxis, or more than 1/5 of the taxis in any town over 50,000 people.
5/ For reasons having to do mostly with foreign spy networks, national security, only people born in this nation may drive other people around as cab drivers whatever the name used.
6/ Insurers shall not be allowed to charge any more for shared vehicles.
7/ To encourage the sharing of vehicles, all counties shall maintain a clone of the national government’s car sharing system. The charge shall be around 15% on unshared bookings, thus the county will make some money on this system. All genuinely shared rides shall be free to reduce traffic, fuel consumption, and public road expenditures.

L’8. TRANSPORT OTHER
1/ Energy wasting, and food-resource wasting ethanol shall be prohibited as a fuel.
2/ Slow and road hogging vehicles like motor-homes and vehicles that move house castings may only operate from 22:00 to 07:00 on crowded highways.
3/ To encourage automation and factory home building, there shall be no fee or expensive route engineering for people to move oversized prefab house castings. There shall be permits, but this consists of the dealer listing out the routes and their bearing capacity together with the weight of the unit and the total truck weight.
4/ Animal drawn vehicles shall not be used on any road without a permit.
5/ There shall be no right to use obsolete and non-conforming vehicles on the nation’s highways and roads. These may be restricted from urban areas, and highways, and everywhere else upon a vote of the Senate.
6/ Those who chose to live near busy transportation routes, airports, highways, busy streets, industry, and other noisy places shall have no right to seek the curtailment of the noisy or noxious activity or to ask government to pay for its mitigation. If these places get noisier, or the route is widened, or the route is experiencing more traffic, the people living nearby shall have no right to any form of compensation or noise mitigation due to the increase in traffic.
7/ We shall not build noise walls around our roads, highways, or airports.
8/ Noise may be held a consideration for new airports and highways, however because properly skirted trains are so quiet in comparison, no rail infrastructure shall have to make any noise studies, or take any other measures to shroud the system.
9/ There shall be a presumption of illegal camping whenever camping vehicles, trailers, tents or similar habitations are placed on public property, unless all interior parts can be seen from through the windows from the outside. Such vehicles may be towed if nobody comes out.
10/ The increment on all grades of premium fuel offered by each petrol station above the cheapest shall pay MECOT.
11/ Businesses that sell fuel shall not sell alcohol, tobacco, or sweets that are over 10% sugar by caloric content.
12/ All existing government regulation for building and operating gas stations shall be repealed in 180 days.
13/ Those who have property abutting an arterial road shall not obstruct traffic lanes with their private construction between 7:00am and 7:00pm.
14/ All auto insurance and road taxes shall be by mile driven. There shall be no unlimited use plans for these things.
15/ J-walking, shall not be a crime if the people crossing don’t cause vehicles to slow down.
16/ Once the pedestrian transponder system has been established, most pedestrian crossings shall be eliminated in favor of ad hoc crossings and slowed vehicles.
17/ Vehicle manufacturers, vehicle dealers, vehicle leasing companies, and vehicle renting companies shall not be allowed to buy advertising. They will have to make do with directory placement and their own website.
18/ The use of non-conforming vehicles in traffic congested areas may be subject to various restrictions.
such as time of day, pre-booking, and mileage fees by time of day.
19/ No SUVs shall be sold after 2023.01.01

L’10. CAR RENTALS
1/ All rentals of vehicles and equipment shall be fully insured by the owner of that equipment on an annual basis for renting. Without exception, owners of rental equipment shall be prohibited from charging renters for additional insurance.
2/ All users of potentially dangerous equipment shall be required to take the appropriate government safety tests. After this, those who rent-out equipment shall suffer no liability unless that equipment is known to be defective and the defect has caused an accident.
3/ Rental car companies shall not be allowed to offer additional insurance for a fee to their customers.
4/ All rentals shall include normal wear and tear and even cosmetic damage that does not significantly impair the use of the rented asset. All rental vehicles and equipment shall be considered used and already impaired and suffering from minor cosmetic damage like dings and slight scratches even if brand new. If more damage damage, it must be assessed based the additional amount of impairment and not the cost of repair. In other words, if a rental car suffers some scratches to a bumper, the car company can only charge around a tiny sliver of the car’s value for those damages.
5/ All rental vehicles shall have rubber floor mats with edge lips and all shall have vinyl seats. No shared or rental vehicles shall have cloth seats or carpeting.
6/ Once the consumption taxes are paid to buy the equipment or vehicle rented, the sharing income shall be tax free.
7/ All vehicle rentals must use the DMV’s location tracking, maintenance, and payment system. There shall be no liability for the owner of a vehicle or equipment when rented, leased or shared for free with people licensed by government to use that sort of equipment.
8/ No automobile rented out for transportation shall be older than 8 years old.
9/ Vehicle manufacturers and vehicle dealers shall not be allowed to own or operate rental car companies. This leads to vertical monopoly power and must be avoided if we are to maintain our free markets.
10/ No company renting passenger vehicles by the day or week shall operate more than 2000 vehicles, unless they offer one-way rentals at no additional charge throughout all their locations, franchises and associated companies.
11/ Smoking shall be prohibited in all shared vehicles and taxi-like transport
12/ Rental car companies dealing with consumers shall be prohibited incentivizing their employees to bill more extra charges.
13/ All new rental cars shall be equipped with fuel scales that are accurate to the centigram. In all vehicles with these accurate fuel scales, fuel use shall be charged at the same rate, the prevailing rate plus 15%.
14/ Rental car companies must offer and deliver particular makes and models of cars. There shall be no more rentals by class of car.
15/ All branches of all rental car companies in each city shall be deemed identical under the law for the purposes of pick-up and drop off.
16/ If a rental car is supplied to the owner of a luxury vehicle for the time his vehicle is being repaired, it shall be an ordinary rental car.
17/ No vehicle rental company shall charge any surcharge for rentals either picked up or dropped off any airport, train station or port except when they are passing on a government charge.
18/ The ordinary travel-related MECOT rate shall be doubled for rental cars due to the inherently problematic nature of the industry.
L'11. HOTELS

23/ Dynamic screen signs shall be prohibited when they address the public right of way.
24/ All signs shall pay sign tax whether used or not.
25/ All billboards over 20m shall pay three times the ad tax per meter. No billboard rented to others shall pay tax of less than one month's pay per year.
26/ People shall not have the right to make noise from 10pm to 7am in residential areas. In posted breeding/children’s communities this shall be 7pm to 8am. Those videotaped violating these rules either walking or driving down the street, or making noise in their own place may be fined. There is no right to shout and sing or play music or media and disturb other people in their residences.
27/ People may only revel all night long in designated high-noise nightlife areas. Each community shall have at least one such area. Those videotaped shouting, or singing or otherwise making noise in the middle of the
night, outside the designated high-noise areas, may be presumed to be drunk and put in the drunk tank until morning.

28/ Government shall not require energy use calculations from projects with less than 100 units.

29/ Urinating in public shall be a crime, but it shall not be a sex crime if the person took reasonable care to shield their private parts, or it is the middle of the night or it is in a deserted area. Anyone made a sex offender because they urinated in an alley somewhere his hereby pardoned in full.

30/ Water from lavatories, showers, bath tubs and non-commercial car washing shall not be considered sewage, but washwater. Washwater may be recycled/discharged into the ground without treatment provided it does not run off onto public property or other people’s property.

31/ The people shall be free to convert and live in the garages of detached single family homes, provided there is no car, or gas appliance in that room.

32/ Government shall not subsidize recycling, or any particular form of energy generation except geothermal energy and pipe hydro-electric energy.

34/ Common areas and hallways shall generally not be heated or cooled in residential buildings.

35/ No, pedestrian kiosk or stall in a place that was once public property shall ever be converted to private ownership, or leased for more than 3 years. All past sales or leases of such properties are void.

36/ Pesticides that are no more harmful than petroleum to humans shall not have unpleasant odorants added to them.

37/ Each neighborhood shall be allowed to elect with a simple majority to allow for duplexing, tri-plexing and quadra-plexing of its homes.

38/ No city shall ever change its name without UM approval.

39/ All new city names must be unique and not muddle the city's history.

40/ There shall be no new monuments to individual men in our cities.

41/ No children’s toy shall make sounds louder than a low voice.

42/ All businesses that primarily cater to recreational tourists shall pay a higher rate for both property tax and sales tax.

43/ In commercial establishments, music shall not be played so loud that it damages the hearing. The experience is only marginally more enjoyable because of the extreme volume. The marginal enjoyment of ultra-loud music is not worth the sensory damage.

44/ No concert shall ever have the right to disturb its neighbors.

**L'16. URBAN CONSIDERATION**

1/ A little noise control will make us all much richer. Music and noise have a huge role in causing people to spread out and squander the location value, or "heat" that our city-stars generate and radiate. Hopefully these rules of consideration will make more people more willing to live close together — For this will make our cities more desirable and valuable, and it will make our society better and reduce our energy footprint.

2/ Vehicles producing a noticeable smell of gasoline shall not be operated on the roads. Any such vehicles shall be impounded for 30 days.

3/ Mature neighborhoods shall have fixed days for noisy work, one, or two days per week. All non-emergency noisy projects, must be on one of the neighborhoods noisy work days unless the work must go on for more than two entire days straight.

4/ To help people to live closer together in multi-story buildings. It shall be the law that hard-soled shoes shall not be worn inside on uncarpeted floors when people are below you. This rule is so easy to comply with and so costly for our society to do otherwise.

5/ In this day of headphones and silent discos, nobody should have the right to play music or media so loud it can be heard inside their neighbor's property. This goes for residential and commercial uses. If it is hot and your windows are open and you want it loud, you have to put headphones on. This is what civilized people do.

6/ The township centers should be considered somewhat noisy places during the day, and the rules of noise should be more relaxed in the center.

7/ There shall be no right to keep pets that disturb one’s neighbors with their vocalizations, smells, danger, menace, or potential to infect the community.

8/ The use of perfumes and fragrances shall be prohibited in public places such as workplace, on public transit, in trains, stations, airplanes, and airports. No perfumes or smelly products may be sold in airports, in ports, train stations, bus stations, or on aircraft or in other shared vehicles.

**L'17. BUILDING**

1/ All down-zonings and all floor-area-ratio reductions since 1960 shall be void.

2/ Government shall have no height restrictions lower than 11 meters up from the undisturbed natural terrain at any point and 13 meters up on a slope.

3/ No merger of lots shall ever be un-reversible if there is no structure bridging the property line.

4/ To increase land use and decrease the cost of building roads, the following new access easement rules shall apply:

   a) For an access easement to become prescriptive, the period of open and notorious use need be only 3-years. It shall no longer be 7-years.

   b) All access easements shall be pave-able, and reasonably gradable by the dominant party.
c) The dominant party may expand and share its access as it likes.

d) Access easements shall be very easy to obtain and very hard to cancel, especially those serving multiple property owners.

5/ All minimum lot sizes public or private greater than 4 acres shall be void.

6/ No minimum setback shall exceed 6 meters except where this is necessary for traffic safety, or future road widening.
