

2022 AMERICAN CONSTITUTION

WE THE PEOPLE of the nation called America, the land of the free, the beacon of democracy, and the avowed eternal enemy of tyranny, darkness, enslavement, and parasitism everywhere on earth: **WE THE PEOPLE** of the nation also known as the United States of America hereby establish this 3rd Constitution for our new broadly democratic government of the people by the people and for the people. This Constitution shall be the supreme law of the land, higher than any governmental body, and higher than any other law. If this Constitution conflicts with any other document or body, this Constitution shall prevail. All nations should have to obey a similar and similarly detailed set of rules for the conduct of their government and their people. The rights granted herein shall not be construed to deny or diminish other unmentioned rights retained by the people. The powers not given to government by this constitution, nor prohibited by subsequent constitutional laws, shall be kept by people. Text of this Constitution may be repealed and struck through but no text shall ever be removed.

NA'1. SENATES

Our new democracy shall use 3-tiers of Senate, each with a 1-year term. They shall be called the: Sub-Senate, Main-Senate and Over-Senate collectively "the Senate". The representation ratios relative to the voting age population shall be:

Sub-Senate = 1-in-250 voters.

Main-Senate = 1-in-2,500 voters.

Over-Senate = 1-in-25,000 voters.

The people elect the Sub-Senate from those they know as neighbors. The Sub-Senators elect the Main-Senate from those they know from working together in the Sub-Senate. And the Main-Senators elect the Over-Senate from those they know from working together in the Main-Senate.

In all elections, face-to-face, in-person contact as a neighbor, or a Senate colleague will unavoidably be the deciding factor in who gets elected as our leaders. This is a democracy where the media and campaign spending will have practically no value in comparison. This is a democracy designed to work without money and the corruption it always brings to the process of electing leaders.

Assuming a nation of 250-million voters, the 1,000,000-man Sub-Senate will inform and

administer. The 100,000-man Main-Senate will be the main decision making body. And the 10,000-man Over-Senate will apportion government duties and set the overall course of government.

Without exception, all elected officials at all levels of our nation's government serve for one year in their office. Then without exception all cycle out of that position. 10% get elevated to a higher Senate, but 90% cycle out of the national Senate.

This type of government shall be called a "broad democracy" or a "25,000 democracy", in reference to its narrowest representation ratio — a government's representation ratio being the most foundational aspect of a democratic design. Except where specified otherwise, the term Government (with a capital G) shall refer to all layers of government: local, national, and international, that in any way bind or command the people of this nation. For the sake of simplicity and efficiency, all Senates and all organs of government worldwide are supposed to have uniform rules and procedures where practical.

NA'2. SUB-SENATE ELECTIONS

1/ Once the Senate has mustered and propagated as called for below, the nation's voting hour shall occur each year, at 4:00pm, on June 19, the day that the insanity of slavery in the land of the free was abolished. Until the land of the free exalts its greatest act of freedom, that act will seem half-hearted and incomplete. Now we shall honor 6-19, where it most matters, where it will have the greatest effect on our democracy. For here we marry the celebration of Black freedom with voting every year. Thus the celebration of freedom includes voting on Freedom Day.

2/ Truth and accuracy shall be considered the most important aspect of our elections. Where voting irregularities occur, or there are two candidates less than 1% apart, there must be a do-over on video. If there is any question, the system shall lean towards do-over. We always vote openly and on video in our do-over elections for two important reasons:

a/ To guarantee the integrity and believability of the election.

b/ To find where the irregularities are coming from, and stop them in the future.

3/ All matters of election integrity and validity shall be decided by the entire Main Senate and no other group. It shall be a felony to delete or destroy election records or data that are less than 30-years

old. Senators who advocate changes in our voting systems, or our democracy that are judged as making them more corruptible shall be expelled from the Senate.

4/ For voting hour, all the people of the nation shall assemble and vote in neighborhood divisions of 250 voters called Nomes. In Nome elections, the people shall initially cast their vote by lining up openly behind the local candidate they wish to vote for. Later they shall use the national system for absolutely secret voting. Each Nome shall elect one part-time, Sub-Senator per year.

5/ From this large pool of mono-elected Sub-Senators, our broad democracy shall poly-elect and randomly assign all of its decision makers and higher-level administrators. Those who have not been elected and confirmed to the Senate shall not be allowed to make important decisions or manage large administrations in our new Government.

6/ In a nation of 250 million voters, there will be 1,000,000 Nomes, and 5,000 Centi-Nomes of 200 Sub-Senators. Each Centi-Nome shall serve as a venue for secret Sub-Senate voting and subtotaling.

7/ To ensure and that we get our important decisions right, the Over-Senate may allocate tens, or even thousands of Sub-Senate Centi-Nomes to figure-out, write-out, decide-on, or implement important matters in parallel, and with redundancy.

8/ The specialized Main-Senate sluices will request Centi-Nome attention, but the Over-Senate shall make the final allocation. Also, the Over-Senate cannot draft individuals, as this edges into anointment /appointment corruption.

9/ The Over-Senates shall not have the power to select which Centi-Nomes work and vote on which matters. All selection and tasking of Centi-Nomes shall be by random Main-Senate draw.

10/ Where there are serious voting irregularities in any election or vote, there must be a do over. The system leans towards do-over if there is any question at all.

11/ The first democratic act is to stand and be counted behind your chosen leader, no matter what the threats. This is the most important act of patriotism. Where men are proud and fearless of voter intimidation, they should vote openly, on video, as they pass through a voting gateway under video recording. Each person prints their full name, address, voter ID number, email, and voice contact info on an A4 sheet of paper and holds this up to their chest as they pass through the gateway. They must also turn their head right and then left as they pass through. They may also be required to use a

thumbprint kiosk that prints their name above them. They may also be required to use the electronic ID chip reader and talk to the video-monitored voter ID specialists at the polling places.

12/ Where voter intimidation and vote selling are a problem, they should vote by secret paper ballot, or secret paper abstention. However, it should be normal to vote by proudly lining up to be counted.

13/ There shall be no election systems that use printers to put the voter's choices on paper. All such printer balloting shall be prohibited because the ballots are much easier to forge. Where paper ballots are used, they must be filled out by 1.5mm ball point pen hand written on ink-greedy paper.

14/ No fewer than 8 people may count each Nome's vote. Half of these counters must be from a different community, and randomly assigned.

15/ It shall be a felony to gamble on, take bets on, or give odds on any election in the nation, including non-governmental elections.

NA'3. MERITOCRACY

1/ The Sub-Senators shall meet in groups called Centi-Nomes, because each Centi-Nome group will confirm 100 Sub-Senators per year. Each Centi-Nomes will however, contain 200 adjoining Nomes, and 200 Sub-Senators. Each Centi-Nome will thus represent about 50,000 voters.

2/ Government shall work according to a new division of time called a teneth, which is 1/10th of a year, or 36.5 days. Odd teneths have 37 days, even teneths have 36. The second teneth of leap year has an extra day.

3/ In each teneth, each Centi-Nome shall rank its membership and the top man shall be thus elevated to serve in the Main-Senate for 1-year, after the end of his term in the Sub-Senate. The Main-Senate shall do roughly the same thing each teneth, with its top 1% elevated to serve in the Over-Senate. In this way we elevate the top 10% of the Sub-Senate to the Main-Senate and the top 10% of the Main-Senate to the Over-Senate. Senators, once elevated do not participate in later rankings in that Senate.

4/ In ranking elections, each Senator may vote once for as many of his voting-house mates as he wishes. In the event of tied votes, the Senator being replaced casts gets a second vote for breaking the tied vote. Thus in tied votes, and only in tied votes, does a Senator get to choose his successor.

5/ The top half of all Senators cycling out of the Sub-Senate shall be called "confirmed", and the rest called "not confirmed". Not-confirmed Sub-Senators shall not be considered as Senators once they leave

the Senate. Confirmed Sub-Senators shall hold the honorable but officially powerless title of Senator for their entire lifetime. Thus our million-man Sub-Senate will be full of men competing to do something to make the nation better.

6/ The only way into the Senate is to be elected by one's neighborhood Nome. There shall be no quotas or guaranteed places for anyone or any race, even if they are a super-genius, a zillionaire, a founding father, a holy man, descended from ancient aristocracy, or the winner of some noble prize. There shall be no backdoors to the Senate at all.

7/ Future generations are warned! No Senator's term of office shall ever be extended in any way beyond one year, even as an honorary position and with no powers. For it is a trick of those who wish to degrade a democracy to first bestow lasting but powerless positions, and later to struggle to add powers to those positions.

8/ Future generations are warned! No Senator shall ever have more power or honor than the other Senators of their Senate level. For it is a trick of those who wish to degrade a democracy to first give slight or honorary powers to a cadre of lawmakers and later increase those powers later.

9/ The power of a democracy arises from the will of the people to get involved in their common weal being. This government shall do what it reasonably can to make participation in government as easy, understandable, accessible, enjoyable, and esteemed as possible.

10/ Public service is a much more powerful draw when it is paid with respect and money, than with money alone. It is everyone's duty to their democracy to respect their confirmed Senators. Everyone should help make public service the main source of respect and status in society. Only those whose work has been ubiquitized should rival the status our Senators.

11/ Government is everyone's business. And everyone needs to get involved with their business or they will have to pay. The real enemy of democracy isn't tyranny. Even fake democracy rapidly kills the absurdity of tyranny. The real enemy of democracy is non-participation and apathy on the part of the people.

12/ The Senate motto shall be the words of Mohandas Gandhi: "A man becomes great exactly to the degree which he works for the welfare of his fellow-men."

NA'4. SUB-SENATE ROLES

1/ Meet with the people, and elevate their worthy ideas to the Main-Senate discussion boards. In general, the people shall not be permitted to approach Main-Senators and Over-Senators with their ideas, but must find a Sub-Senator to post their ideas to a Senate Bulletin board service (BBS). This is part facebook, part tweeting platform, part DM service, part video posting board, part law and report assembly platform, part wikipedia, and part archive.

2/ Gather, assemble, and verify information for the Senate and people of our democracy. We do this to minimize the corrupting influence of extra-democratic voices in our democracy, including: lobbyists, interest groups, advertisers, and the openly corrupt paid commercial media.

3/ Act as a staffing pool for the Main-Senate.

4/ Buy, sell and distribute Government property.

5/ Spend and distribute Government money within the budgets and divisions set by the other Senates.

6/ Assemble our government's free public-domain media, to include the ubiquitized content library, software library, education system and various ubiquitized information services, such as the national search engine, twitting service and facebook. In general, all Sub-Senate content may be accessed, used, and copied free of charge and free of advertising. In general, it shall not track users, or require that users register. Like all free nations, we shall share and server-up our public libraries with the world free of charge and open for all to see freely.

7/ Condem and nationalize land for infrastructure routes and new communities. When government condemns property, it gives fair compensation as described herein. When government nationalizes property, it gives nothing.

8/ Ubiquitize intellectual property or "IP" rights into the public domain for fair payment of money and Ubiq status. This includes patents, copyrights and trademarks. Grant official Ubiq status units to those whose activities the Sub-Senate wants to reward with public praise and money.

9/ Officially stigmatize media for cause, and cancel IP profit rights for cause. Senate stigma shall not interfere with the right of free expression, only the right to profit from what was expressed.

10/ Catalogue all identifiable propaganda in all widely viewed media.

11/ Supervise industries that require or request government oversight and liability protection.

12/ Compile the nation's Senate-compiled wikipedia,

news channels, and news websites, so the people will have access to an alternate democratically elected truth. This will be in addition to anyone else who cares to produce news media. As we enter a world of deep fakes, this ability to consider the source will become extremely important.

13/ The Senate media will be more accurate and believable because the Senators will be elected and then randomly drawn, and then finally tasked as groups to figure out what the truth is.

14/ Set standards and manage the government rating system for all industries, products, services, professionals, workers, and employers. The Sub-Senate shall compare and rate every widely distributed product and service that can be sensibly compared or rated.

15/ Staff the nation's judiciary. All Sub-Senators that get confirmed, but not elevated to the Main-Senate shall go on for a tour of judicial duty. Once the Senators complete their judicial service, they shall for all their life be recognized as a Senator, a word that speaks of a person's wisdom, intelligence, and worth.

16/ The Over-Senate will establish pie-slices for the tasking of the Sub-Senate, the nation's 'million-man' magistrate corps. In each Senate term, the Over-Senate may, with a 2/3 overmajority, adjust each pie-slice stated above by as much as 2% of the whole 100%.

17/ The Main-Senate shall have the ultimate and sole power to command the people and assign limited and short term powers to subgroups. No other body of government shall have any power, except those narrow powers bestowed by the Main-Senate.

18/ Only the national Main-Senate shall have the power to make the laws of the nation. Neither the national Sub-Senate, nor the national Over-Senate, nor any court shall have the power to make or modify any laws. Any person or group other than the Main-Senate attempting to make laws or policy on behalf of this nation or its counties may be held guilty of democide.

NA'5. MAIN-SENATE

1/ The Main-Senate shall be composed of twice elected Main-Senators that serve in one of 10 specialized legislative channels called Sluices. To start with, these Sluices shall be Economic, Industry and Commerce, Healthcare, Socialist, Public Property, Foreign, Military and Militia, Internal Security, Judicial, and Knowledge. Main-Senators may participate in the discussion, and post

comments to any or all sluices. However, in their role as vote-casting decision-makers, they are randomly assigned to one of the ten sluices for their entire 1-year Senate term.

2/ Each Sluice shall elect, execute, and enforce its own laws. Each Sluice shall also apportion its own budget as it sees fit, subject to the Over-Senate's inter-sluice budgets and power divisions among the sluices, and also subject to the Over-Senate's interpretation of this Constitution.

3/ Except in the beginning, the various sluices are not expected to have the same number of Senators.

4/ The following shall be the initial Sluices and some of their duties. At the end of each Senate term, the Over-Senate shall publish an updated version of sluice duties with great detail and all updates:

The JS may inspect any part of the justice system or any branch of government at any time and for no stated reason. The JS chronicles all legal changes and inform the people about developments in the legal system. The JS is the primary prosecutor with regard to corruption, tax evasion, and organized crime. A 50% majority of the

JS exonerates anyone and cancels any civil judgement.

j/ Knowledge Sluice (KS): Patents, trademarks, and copyrights. Senate budget office, research funding, public textbooks and tutorials, education system, colleges, education standards, education testing, public libraries and public service. The KS also administers all public service websites such as the senate library, the national search engine, the facebook, order fulfillment and delivery system, the twitting system and other similar publicly-owned non-commercial information utilities. The KS also develops the various template services that the counties will clone. It also runs the post office. The KS does not assemble knowledge like the way the Sub-Senate does. The KS votes to approve the Sub-Senate's work or not.

NA'6. MAIN-SENATE ROLES

1/ Only the national Main-Senate shall have the power to make the laws of the nation. Neither the national Sub-Senate, nor the national Over-Senate shall have the power to make or modify any laws. However, the Over-Senate may strike down laws for reasonable constitutional violations, or when a Main-Senate sluice exceeds its area of jurisdiction. And when multiple sluices pass laws within their jurisdictions that are in conflict with, or create ambiguity with the laws of other sluices, the Over-Senate shall have the power to strike down the text of their laws in line-item fashion to eliminate the conflict or ambiguity.

2/ When elements of this Constitution are impossible to comply with immediately, the Over-Senate shall give reasonable date for compliance to begin.
3/ Only the national Main-Senate shall have the power to make the laws of the nation. Neither the national Sub-Senate, nor the national Over-Senate shall have the power to make or modify any laws — except that the Over-Senate can strike down laws for genuine conflict with this constitution.
4/ Define the overall broad problems, directions, objectives, and ambitions of government. Make broad plans for the nation's government and statements of national government policy, direction and objectives.
5/ Apportion and balance duties, workloads, and authority among the various Sluices of the national Main-Senate. The similarity of tasks within a division shall be considered less important than the balancing of the workload.

7/ In the event of conflict between clauses of this Constitution, the Over-Senate shall decide which clause is to be followed and which is to be ignored.

existence, a 55% overmajority of the Over-Senate shall strike down any law or clause that the Over-Senate reasonably elects to be in violation of the nation's constitution, or Senate's power divisions. After one teneth, a 60% overmajority shall be required to do this. After one year, a 2/3 overmajority shall be required to do this.

13/ Issue pardons, and invalidate pardons by the previous corrupt democracy.

22/ Determine and adjust the average national

wage, which is initially put at \$20/hour. Any time the term wages is used in this constitution to describe a cash amount, this is the wage that is meant. An adjustment of this important number shall be elected at least once per year by the Over-Senate. This is supposed to reflect the average income of the people in our nation.

23/ Classify or declassify matters of national security as secret. Review all redactions. Review and approve or disapprove of all government confidentiality agreements. All other things being equal, the Senate shall try to minimize national secrets.

24/ Establish the words, names, and definitions used by Government. Only the Over-Senate shall have the power to ask the people to use a new word instead of an older established one. Also, words shall only be officially changed for reasonable cause, and after at least several years in widespread use. Also, each root word replaced must have its own separate vote by the Over-Senate.

25/ Only the Main-Senate shall make the laws of the nation. Neither the Sub-Senate, nor the Over-Senate shall have the power to make or modify any laws. However, the Over-Senate may strike down laws for:

- a/ Constitutional violations.
- b/ When a Sluice exceeds its jurisdiction.
- c/ When sluices pass laws within their jurisdictions that are in conflict with, or create ambiguity or unnecessary dissimilarity with the laws of other sluices.
- x/ In each of these three areas, the Over-Senate shall have the power to strike down the whole law, or strike text from the law in line-item fashion to eliminate the conflict or ambiguity.

26/ The Over-Senate shall NOT:

- a/ Try to make laws as if it had the power to do so.
- b/ Try to influence decisions in the Sub-Senate.
- c/ Try to influence Main-Senators into making or altering laws, except in matters of constitutional compliance, sluice jurisdiction, and inter-sluice conflict or ambiguity.

NA'8. WHO CAN BE A SENATOR?

1/ No person shall be elected to a Sub-Senate more than once in 8 Senate terms, or more than 4 times in their lifetime. Senate service in poor foreign nations shall generally not count towards term limits in our nation.

2/ Anyone from any nation may serve in the Senate of our nation. However, all Senate candidates must

officially declare their nationality (birth place) and their current citizenship when they run for office.
3/ All Over-Senators must have been born in our nation, and spent at least half their life in our nation. Thus immigrants cannot serve in the Over-Senate.
4/ There shall be no property, wealth, education, age, religious, or citizenship qualification for entry to the Senate. Senate service shall however involve a volume of reading that poor readers may find hard to keep up with. Also, all Senators must demonstrate a reasonable ability with the following before entering Senate service:

- a/ Scientific notation at the level of a high-school chemistry class. This is so our leaders grasp the large sums of money they are spending.
- b/ Square meter and per-capita cost auditing for the construction projects they are voting on, and so the square meter cost of all public projects can be properly estimated by our leadership.
- c/ Supply and demand, and the money-circulation model of economics at the level of a high school economics class.
- d/ How to budget and balance a checking account.
- e/ How to recognize and understand exponential relationships.
- f/ Also, ability to do geometry at the high-school level may also be required, but mostly as a mental test.

5/ All Main-Senators shall be expected to read a few hours a day. This is the sort of person we want in the Senate. The Senate orientation media is supposed to serve as a test for the new Senator's abilities for serious Senate-level material. Those unable to keep-up with the load of orientation reading in English, and those unable to learn the Senate rules shall be considered as failing their Senate orientation. Then the runners up, get called up as a replacement, as normal when the first elected can't perform their Senate obligations.

6/ It is by design that Senate service involves a heavy reading schedule:

- a/ Our lawmakers will be able to cover much more territory and in greater depth using efficient text instead of public speaking.
- b/ The reading will boost lawmaker intellect as opposed to boring government voice proceedings that dull the intellect.
- c/ A moderately heavy reading workload will eliminate poorly read and poorly informed people from our national decision making process.
- d/ Some particularly bad neighborhoods and foreigner dominated neighborhoods may have trouble electing people that can pass Senate orientation.

7/ All new Senators shall complete the relevant tests on anti-corruption rules and senate procedures orientation. All new Senators must pass the orientation tests with a 100% score before they can start Senate service. The access to this material shall not be tracked or recorded. The only thing that matters is passing a new version of the Senate orientation test with a 100% score. These Senate orientation tests may involve up to one teneth of study.

8/ No Senator may engage in transactions involving the buying and selling of stocks, bonds, options, real estate, loans, debts, mutual funds, commodities, or other similar assets while in office or for 30 days on either side. This does not apply to monthly loan and impound payments made by Senators, or to dividends or other regular payments made by assets owned. Also, no Senator may hold individual issues while in office, be they stocks, bonds, or other assets unless they were a founder of the company.

9/ We obviously need strict rules against bribes and other positive inducements made to our Senators. It is less obvious but equally true that we also need strict rules against negative inducements. Therefore, overtly attempting to frighten, or harass or stalk a Senator outside the democratic system may be considered similar to and charged like bribery. Also the word stalk shall encompass the real and virtual world, as well as intrusive investigation of the Senator's past.

10/ Senators shall not be allowed to have staff, or helpers, or volunteers, or regular visitors, or trusted advisors. They are in fact, only supposed to be working with and communicating with other standing Senators. This is to make it harder to use Senators as puppet frontmen.

11/ Sub-Senators shall receive part-time pay for 10 teneths. Main-Senators and Over-Senators shall receive full-time pay for 12 teneths, even though they only serve for 12 teneths. This is for the costs associated with putting their lives on hold while they are in the Senate. Aside from the pay mentioned in this paragraph, there shall never be any pension or money award of any kind for Senate service after our Senators leave office.

12/ Professional truth-benders and judgement-leaners (Lawyers) are the opposite of what we want for our lawmakers. Anyone who has ever been a lawyer shall declare that fact in his campaign and to the various Senates he serves in.

13/ For positions of power in this democracy, we shall generally hold incorruptible-ness more important than expertise.

NA'9. SENATE VOTING

1/ All Senate votes shall be cast under mandatory secrecy to make the corrupt selling or exchanging of votes absolutely unverifiable. Senators shall be expelled and stripped of their Senate status for revealing their vote, except when they rightly challenge the recording of their own vote and by logical extension, the entire vote.

2/ Our first priority in Senate voting is that Senate voting remain secret, unverifiable and impossible to sell. A distant second priority, a priority that doesn't really matter in comparison is that our Senators use their time as effectively as possible. We shall not compromise our first priority in any way for our second and much lower priority.

3/ Senators are not allowed to discuss their past or future voting and people are not allowed to ask.

4/ Under our democracy, we elect our wise men as our leaders and empower them to govern as they see fit. It is corrupt when they heed:

a/ The loud cries of a badly aggrieved micro-group assembled in a spectacle of lawmaker swaying protest.

b/ The claque of fast talkers hired by the openly-corrupt paid commercial news media to act the part of wise men.

5/ If we allow the come cry of the war monger in our elections, the masses will be the ones making the decision to go to war, instead of our best and wisest, our true democratic leaders. And it is not just war. All important issues should be made by our wisest, rather than those who share our views. In fact, the more important the issue, the more important it be made by our wisest.

6/ Excessively high over-majorities should be avoided as they tend to hand veto power to corruptors. Then a small minority can more easily stop proposed new approaches.

7/ We require a small overmajority to:

a/ Create a bias against government spending.

b/ Create a bias towards government inaction, rather than on getting involved in everyone's business.

8/ Senators shall never trust or blindly follow experts, as this hands the so-called experts a backdoor to our democracy. We shall not rely on extra-democratic credentials, be they academic, professional, or religious credentials. These extra-democratic credentials are often corrupt and thus serve as a back door for our democracy.

9/ In our democracy we believe that everyone should see with their own eyes, and judge with their own mind. We hold that those who defer and yield to what other people say, should not vote because they

are more often than not participating in a corruption of our democracy. If you don't understand what you are voting on, then you should abstain. If you don't understand and you feel like you should be able to understand, then you should oppose the proposal.

10/ Senators shall not approve anything that they do not fully understand, anything that is not fully written-out, and explained, or anything that is kept secret from them.

11/ Nefarious parties often name their evil by the exact opposite of what it is. Therefore:

a/ wise people don't rely on the names of things alone. and

b/ We must at least try to require that every item before our democracy is named accurately.

12/ Everything in government must be named in a way that accurately describes its function or what it is. The Senate may expel Senators for proffering bills with doublespeak or opposite names as was commonly done under the previous democracy.

13/ Decision makers must never be involved in the matters they are deciding on. Jurors must not know the accused. If everyone in our nation knows about the accused, then we must draft an international mix of jurors from outside our nation.

14/ Our obligation to justice, truth and the betterment of mankind is more important than our personal loyalty to friends, and family.

15/ Emotions are for individual decisions, not societal decisions. Wise leaders banish emotions and let logic rule society to the maximum extent practical.

16/ The Over-Senate shall use sophocites to help define and state government policy and public opinion in great detail, with great accuracy and credibility.

17/ To create a bias towards better and shorter laws and more concise regulation, all Senators shall be required to read what they vote on at least 3 times. All elements of the tax code shall be read at least 5 times. This shall be verified by a Senate-managed reading monitoring system.

18/ One of the greatest defects of human nature is that people are too quick to start new business, and too slow to stop old business. All Senators should bear this in mind for government business. They should try to be careful when starting, and quicker with ending government business.

19/ So that no Senate is able to change its own operating rules, or vote on its own compensation, 10 tenths shall pass before any Senate compensation or conduct rule changes take effect.

20/ Laws that benefit less than 1% of the citizens,

human or fictional shall take a 2/3 overmajority to pass. Laws that benefit less than 10% of the people shall take a 60% overmajority to pass.

21/ Because we should expect our Senators to cast a vote on every matter before the Senate, all Senate votes shall have mandatory attendance, except when the Senator has a medical certificate and video from a Senate approved clinic, or the Senator has resigned from the Senate.

22/ All government appropriation bills must state a maximum amount budgeted. No Senate, Sluice or Centi-Nome shall spend more than 1% of its annual budget, nor more than 10% of its tenethly budget with a single vote, except with a 2/3 overmajority. This clause is intended to prevent omnibus or camel-caravan bills.

23/ All Senators shall be duty bound to do what is best for the nation and for mankind overall, and to put this cause ahead of their own county and regional constituency.

24/ All laws shall be passed by one Main-Senate Sluice, and one Main-Senate Sluice only. There shall be no-sequenced voting houses as is so common in narrow democracies. Such sequences tend to multiply the power of veto corruption, that is, corruption of the process by which legislative business is delayed often indefinitely.

25/ Except for emergency 48-hour measures, no Senate law shall be voted on, or officiated between 8pm and 10am.

26/ Only active Senators registered to a Senate voting chamber may be inside that Senate voting chamber while voting is in progress.

27/ The Senate's final voting process shall operate under mandatory and total secrecy. However, the law assembly process shall be an open book that is fully recorded in as many ways as practical. The entire law writing and assembly process shall be recorded and posted for all to view anonymously, and without any login. This shall include:

a/ All proposals both failed and successful.

b/ Which Senators proposed which changes.

c/ Who voted for which changes with regard to law assembly, but not the final vote.

d/ What the vote count was for each change.

e/ All Senate discussions, proceedings, and bulletin boards.

28/ All government infrastructure shall be tested in microcosm before being rolled out.

29/ All forms of secret law shall be prohibited, and all laws shall be in writing and promulgated for all to see.

30/ All laws shall be repealable under the same

conditions they were passed. The overmajority required to cancel an amendment or measure shall never be higher than the overmajority required to pass the measure in the first place. No law shall have its own special repeal rules. All special clauses that have the effect of slowing or hindering a law's repeal shall be void.

31/ Our nation is for its citizens, not non-citizens, not companies, not churches, not schools, not governments, not the animals. Our nation is for its own citizens, and we shall not allow anything else to diminish the rights of the flesh and blood citizens of our nation.

32/ Our nation is a democracy of human people, not fictional citizen frontman entities. When there is a conflict, even the secondary rights of real flesh and blood citizens can be held higher than the primary rights of fictional citizens.

33/ When there is a conflict among flesh and blood people, the right to life and limb shall be held higher than the right to mere property.

34/ The property rights of some citizens shall not serve as an excuse to infringe on the basic human rights of other citizens. In times of crisis, all shall be required to contribute.

35/ Except in cases of Senator identity verification, expired term, removal from office by the Senate, or weapons carried at heated times, nobody shall ever interfere with a standing Senator's ability to enter a Senate voting house for any reason. Anyone including all Senate security people who ever interfere with a standing Senator's ability to enter a Senate voting house may be charged with democide. All Senate security people are advised to stay well away from interference with Senators entering the voting house for any reason at all.

NA'10. SENATE BBS

1/ For the sake of efficiency, all Senates shall try to maximize the business they do via online text-based BBS/ tweeting platform. They shall try to minimize the business they do on video. They shall try hardest to minimize the business they do in person when a large assembly of people travels to hear one person at a time say their piece. Live forums, hearings, and discussions shall be discouraged wherever possible because they are so wasteful of the vitality and time of our Senators. Also, there is much less need for hearings in a broad democracy because of the BBS and because there are better connections between the people and their representatives.

2/ The following rules shall apply to the Senate BBS:

a/ Only Senators may post.

b/ Sub-Senators shall not post on Main-Senate or Over-Senate boards. Their work may however, be picked up and shared by the higher Senates.

c/ Main-Senators shall not post on Over-Senate boards.

d/ Over-Senators may post anywhere.

e/ Main-Senators may post on Sub-Senate boards.

f/ All titles to all posts must be accurate and intentional title spamming, repeat spamming, and other forms of spamming shall be penalized.

g/ Lying and intentional distortion of the truth shall be a crime.

h/ All material must be accurately summarized.

i/ All posts shall have a full word count, a summary reader count and a rating.

j/ Each Senator in each Senate gets a fixed supply of like coins to use in each teneth. This is 1000 coins per teneth. The fixed supply of "coins" is supposed to create a quantified and consequentially harder to corrupt economy for the election of competing ideas. In this economy, Over-Senate likes will be golden, Main-Senate likes will be silver and Sub-Senate copper. The exchange rate will be optimized over time. The number of likes will be the a basis for a reward system based on Senate resort time plus money.

k/ The Sub-Senate will have this million-man economy of attention that views the nation in a very granular way. The Main-Senate will have a secondary economy of attention that will omit much because the number of coins is 100x smaller in each sluice.

l/ When Senators say substantially the same thing, the comments should be consolidated and indicated with the number of consolidated comments with leading variants. Frivolous and off-topic comments go in those archive folders.

m/ The most highly liked comments rise to the top of the feed. It is also possible to view by to time/date, and all comments of each Senator.

n/ The Senate elects lines for required and recommended reading on certain feeds. The stuff above each lines is either required, or just recommended.

o/ We shall grant much and give great reward to the first person to say something important, even if it is a bit wrong at first. We shall carefully track who said a thing first. This is one of the best ways to identify and reward our true leaders. If a person was first to say many things later adopted by everyone, then he is the leader.

p/ We will try to encourage Senate popularity as a

sort of competitive process, to bring out the best in people for the benefit of human progress. This will help motivate many Senators to rack their brains looking to ways to improve the nation.

q/ Once the Senate elects questions, there should be a 1-to-30 day period where the Senators prepare their comments. Then there is this moment when everyone's comments "cards" are posted or shown. Thus we get to see who our leaders are in test after test. And this will probably be the biggest benchmark for determining who gets elevated: He who puts forth some aspect of the ultimate solution we use for everyone.

r/ Senate communication is not supposed to work on the dumb animal emotions. It is supposed to work on the judgement and the mind. We should have a strong bias against candidates that use emotion and oratory-cheating.

3/ Everything written by the Sub-Senate shall be called Sub-Senate communication. Everything written by the Main-Senate shall be called Main-Senate communication. Everything written by the Over-Senate shall be called Over-Senate communication. Everything not written by a Senate shall be called EX-Senate. Ex-Senate communication shall not be excluded from the discussion, but it shall always be treated with suspicion. All Ex-Senate communication used by the Senate shall have the words Ex-Senate at the top of each page.

4/ Because the Main-Senate and Over-Senate will mostly deliberate via a twitter-like system, no deliberative sub-body in either the Main-Senate and Over-Senate needs to limit its membership to voting members. All Main-Senators may post on every Main-Senate BBS for every Sluice and every committee. Likewise, All Over-Senators may post on every Over-Senate BBS. This shall not however apply for matters of military secrecy.

5/ All Senates shall be expected to copy and pastiche the best ideas posted on the various Senate bulletin boards, and anywhere else in society. All posts to a Senate BBS shall also be considered as a submission to the the patent clerk with regard to anti-patent and insight patent submissions if the utterer claims them.

6/ Each Senate BBS shall have a heading for anti-patents, where ideas are proposed to the Senate and people. Once an idea has been proposed in such a way, it shall not be subject to insight patents, but only development patents. And no such development patent shall be issued until after a reasonable time has passed to demonstrate that a

development patent is necessary to get the new product into production.

7/ Nobody else shall be allowed to tweet or communicate, or vote, or speak on behalf of any active Senator for official Senate business. All Senators must post to Senate boards without any helpers.

8/ Partial-law votes shall be titled that. They shall also use blue text. When text is removed red colored text shall be used for the part removed, and green colored text for the inserted text. Full laws shall be in black text.

9/ To start, all partial-laws under 99 words long shall pass with a 50% vote. To start, all full and final laws, and all partial laws over 99 words long shall require a 56% vote to pass. The Over-Senate shall have the power to adjust the partial election percentage up or down between 50% and 55%, and the final election percentage up or down between 50% and 60%.

10/ All important Senate discussions and important comments get rated by the Senate. The valuable material will thus become a feed unto itself. Thus our Senate will have these official feeds of ideas and policies related to the way we run our group effort. And each sluice will have many feeds.

11/ When a new law is elected by the Senate, it shall be made available in both text and talking head video mode with each contributor speaking his own words to the people. And being a talking head is a great honor even if it is only one word you contributed to the group cause.

NA'11. CONCENTRATION OF SENATE POWER

1/ No Senate powers shall be delegated to any czar, president, king, or oligarchy. No man or group of men shall have any privileges or powers over the Senate. The Senate shall have the power to terminate the employment of any and all government appointees at will, and without stating any reason. This includes all presidents, czars, monarchs, chancellors, field marshals, or any other group that rises up and claims to own the Brooklyn Bridge, or other valuable things the people own.

2/ The Senate shall reign supreme, and no party, president, monarch, oligarchy, court of law, or no narrow democracy shall ever have any veto, or chancellor's cancellation right over the Senate. All laws shall be approved and interpreted based on Senate voting alone, and no other party or group shall approve, officialize, present, deliver, enact, vote-on, veto, cancel, interpret, introduce, judge, assess constitutionality, or sign any law that has been elected by the Senate.

3/ No part of the judicial system shall have the power to cancel, vitiate, modify, or re-interpret any law due to a conflict with the constitution. The judicial system shall be considered lower in every way than the nation's Senates.

4/ No Senator shall ever have any official power as an individual, except when he is serving as a Senate judge for matters too unimportant, or too low in value to warrant more than one person as decision maker.

5/ Senators shall not advocate or praise monarchy, oligarchy, or narrow democracy, let alone any totalitarian form of government.

6/ We shall jealously guard the constitutional limits we put on our government, and no slight infraction at all should be tolerated by the Senate and people. Each tiny infraction shall be seen in the same light as a foreign power trying to inch into our nation's territory.

7/ For deliberative sub-bodies under 36.5 Senators, nobody shall have any role of distinction or precedence for more than one day in each teneth. For deliberative sub-bodies under 365 Senators, nobody shall have any role of distinction or precedence for more than one day in each year. Each day's chairman shall be randomly drawn from the eligible Senators that are present. Then once they have been chairman, they must sit out of the draw for the required time frame.

NA'12. SENATE CONDUCT

1/ Regarding enforcement, prosecution, and punishment, each Senate shall judge its own membership.

2/ To discipline or expel a standing Senator, a 66% overmajority shall be required. No Senator shall be disciplined or expelled without due process.

3/ All Main-Senators and above shall have immunity from all non-Senate legal matters, criminal and civil, while in Senate service and for 180 days thereafter. No charges shall be brought against Senators after they leave Senate service upon weak or controversial evidence, or for crimes that are widely ignored among the general population. The protections of this paragraph shall be strongest for the most influential Senators and Ubigs, and the more highly regarded the leader, the greater the immunity from prosecution.

4/ No Main-Senator or above shall be disciplined by the Senate, expelled from the Senate, or asked to resign for:

a/ Any crimes or actions that occurred before their election to the Senate.

b/ Any claims of groping, unwanted touching, sexual harassment, or sexual impropriety.

c/ Misstatements and inadvertent untruths.

x/ Again, the protections of this paragraph shall be strongest for the most influential Senators.

5/ The sexual conduct of our Senators shall be none of the Senate's business, so long as it is legal and with consenting adults. Marital infidelity shall be none of the Senate's business.

6/ In order for Senators to be disciplined by the Senate, for inciting violence, the Senator must both clearly call for violence, and the crowd addressed must then go on to seriously injure more than one person for every 10,000 people assembled. Also, if these injuries are from pushing, or shoving, or natural causes, or accidents, or police, they shall not count.

7/ Threatening or repeatedly attempting to scandalize a Senator or Ubig shall be considered a form of extortion. Following Senators or Ubigs around, or digging into their personal, family, business, and sexual matters shall also be considered a form of extortion. It shall also be considered criminal extortion to attempt to drive a Senator into resigning by threatening scandal or legal prosecution after his term in office. These activities are not only a form of corruption, they drive many good people away from public service and help foster a leadership vacuum situation.

8/ When Senators are expelled, or unable to continue service, the next runner-up in the most recent election shall be their replacement.

9/ The initial swearing in process of all Senators shall involve an enduring oath to always tell the truth while speaking to the Senate. When non-Senators give testimony to the Senate they shall be sworn-in either in the default skipped part-1 of their testimony video, or on video before entering a regional voting center. Thus the Senate audience will not waste time watching the same oaths over and over again.

10/ When people do not argue the facts, it should be presumed that the facts are not in their favor.

NA'13. CONSTITUTIONAL AMENDMENTS

1/ In general, no amendment should alter more than one subject or paragraph in this constitution.

2/ No single constitutional amendment shall exceed 250 words.

3/ Constitutional amendments shall only be written by the national Over-Senate and require a 75% overmajority of the national Over-Senate to be sent for ratification.

4/ Each time an amendment is sent for ratification, it

shall be voted on once per year for 3 years.

5/ Passing a constitutional amendment requires ratification by both the Main-Senate and the Sub-Senate. Once an item achieves 75% votes in both the Main-Senate and the Sub-Senate, then it shall be considered passed.

6/ The foregoing amendment processes shall not be used to restrict the rights of the people, increase government power, reduce the number of Senators, shift powers from the Sub-Senate to other Senates, shift powers from the Main-Senate to Over-Senates, shift powers from county government to the national government, or otherwise narrow this democracy or make it more corruptible. To do any of these things, an 80% over-majority shall be required where a 75% overmajority is otherwise called for.

7/ A wholly new constitution may be instituted using this amendment process, however the matter must be clearly called a new constitution, and an 82% overmajority shall be required in all three Senates.

8/ Any amendment that makes the amendment process more difficult shall be reversible under the old pre-existing "easy" standards for a period of 10-years.

9/ No constitutional convention, supervening body, or extra-Senatorial body shall have any jurisdiction over this Constitution or the nation's Senate. We shall not make the same mistake we made in Philadelphia in the summer of 1787, when America's democracy was hijacked.

10/ If changes or amendments need to be made to this constitution, let them be made after it is instituted, for it is much easier to change than the old constitution.

11/ The official version of this Constitution shall include all removed text in strikethrough text, and all additions in bold underlined text immediately following the strikethrough text it replaces. This Constitution shall not be promulgated in abridged forms. Quotations and sections may be used, but abridgments of the whole shall be prohibited.

NA'14. COUNTY GOVERNMENT

1/ In this nation, there shall only two layers of government, national and county. All other branches and levels of government shall be eliminated and merged into one of these two layers. There shall no longer be any state, city, regional, port, school district, or other layer of government. All shall be merged into these two levels. All duties and all government functions shall be performed by either the national Senate or the various county Senates, and no other level or form of government or quasi-

governmental agency shall continue to exist.

2/ At the inception of this constitution, the minimum size of a county shall be 500,000 people, the maximum size shall be 3 million people. Counties that later fall below 500,000 people shall be merged, and counties that later rise above 4 million people shall be split. Existing counties with a population over 500,000 shall not merge with one another. A number of present day states such as Wyoming and North Dakota will now become single counties due to their low populations. Some larger states such as California will become over a dozen counties.

3/ To be clear, none of the existing states shall continue to exist as government entities. All duties and rights of the old cities and states shall be re-apportioned by the national government and the various county governments.

4/ All territory in the nation shall be under the jurisdiction of one county and one county only. All county boundaries shall generally be of one globule, without islands, and with minimal jogs, or peninsulas in their shape.

5/ If there are any claims as to overlapping county territory, the public property sluice of the national Main-Senate shall adjudicate.

6/ The national government shall not distract itself with activities that the counties can do nearly as well. The national government shall delegate as many duties as it can to the various counties, provided the counties are capable of doing these duties nearly as well as the national government. The national government shall constantly try to decentralize by expanding the activities of the counties, and reducing its own duties as much as practical. Also, we must keep in mind how Ishtar has struggled for centuries to drive the governments of their hosts in the opposite direction, towards greater centralization.

7/ The national government shall fairly test all reasonable decentralization plans to maximize effect.

8/ Full faith and credit shall be given in each county to the public records, judicial proceedings, operator licenses and professional licenses of every other county. Those charged with a crime in one county are subject to arrest in all counties. Citizens shall however, only be delivered to another county after a court hearing in the extraditing county.

9/ In each teneth, the top 10% of the nation's Main-Senate shall be elevated to the national Over-Senate. The next highest 10% shall serve for one year in the Main-Senate of the county that elected them to the Sub-Senate.

10/ There shall be no county Sub-Senate. However, each county shall have a 1:10 Over-Senate ruling over its Main-Senate Sluices. This shall be elected in the same way as the National Over-Senate.

11/ All county Main-Senators shall serve in one of 10 sluices. The initial changeable breakdown of jurisdictions shall be as follows:

a/ Railroads, public transit, and militia.

b/ Roads, network vehicle operation, water, sewer, electric and other non-communication utilities, like municipal heat.

c/ County recorder, county info-systems, Virtual communication infrastructure and utilities.

d/ Education, schools, child payments, and libraries.

e/ Public dole, adult education, colleges, retirement benefits

f/ Police, court system, criminal law, and jails.

g/ Healthcare, public health, fire, and EMS.

h/ Taxation, budgeting and auditing.

i/ County property management including leases, parks, mineral extraction reserves, dumps and waste disposal.

j/ Building approvals, building rules, land divisions, business regulation, workplace regulation.

x/ The county Over-Senate may adjust these divisions to balance the workload. Also the tasks of each county sluice need not be related,

12/ The various counties shall not assemble into blocks or have political parties because this will make our national democracy more vulnerable to corruption.

13/ No county or group of counties shall make any law or policy that reaches beyond their borders and sets nationwide standards or drives nationwide change. Only the national senate may establish national standards.

14/ County Senates shall neither send ambassadors to foreign nations, nor receive ambassadors from foreign nations.

15/ County Senates shall be prohibited from making their own special laws concerning: immigration, asylum, international trade, international relations, pollutants, fuels, industry standards, worker safety, wages, discrimination, industrial standards, professional licensing, vehicle standards, healthcare, liability, price controls, rent control, or price controls.

16/ Each county shall maintain a recorder's office that shall mirror the records of at least 20 other counties, and 5% of the national government's record system as called for by the national government. Each country shall maintain forever video archives for both government and the people

to use. Normal levels of personal recording shall be free to save, recording for business uses shall be charged at built cost.

17/ All income, consumption, sales, value added and other taxes shall be established at the national level. No county government shall have the power to impose any income, consumption, sales, value added taxes or other taxes.

18/ The Over-Senate shall establish 9 standard fiscal policies and 9-standard tax rates for county government: libertarian-1, ultra-conservative-2, conservative-3, slightly conservative-4, neutral-5, slightly liberal-6, liberal-7, ultra-liberal-8, and socialist-9. These shall be slightly different and shall be applicable nationwide. There shall be no other possible tax rates that county governments may use.

19/ Every single aspect of county taxation shall be uniform nationwide except that the last calculation shall involve 9 different standard county tax rates.

20/ The entire Main Senate of each county shall vote each year and declare which fiscal policy it will be using 24 to 36 months in the future, and which standard county tax rate it will begin using in the future.

21/ County governments shall not be allowed to impose any special taxes. If they need to increase income, they must declare a more socialist standard county tax rate.

22/ Regardless of the foregoing, the national government shall be allowed to test taxes and tax systems in various counties before rolling them out nationally. Thus some counties may temporarily have a different tax rate than the 9 standard rates.

23/ The old UN was totally corrupt and all decisions by this body are suspect. No rule or ruling by the old UN, or any of its sub-bodies shall be valid in this nation. No rule or ruling by any one-nation-one-vote democracy shall be valid in our nation as this form of voting automatically handed the Mideast 1/3 of the vote.

NA'15. INTERNATIONAL GOVERNMENT

This 2022 American Constitution is intended to be used with the 2022 UM Constitution and the 2022 Addendum of Initial Laws, which are attached hereto and incorporated herein. The 2022 UM Constitution shall not come into effect for our nation until ratified by a 2/3 vote in all three Senates, in each nation using it.

All Over-Senators cycling out of service in the National Senate shall be automatically elevated to the UM, the United Majority, the world

government of the free world. At the UM, the national Over-Senators shall act as UM Main-Senators for one year (or less during initial Senate propagation times). After one year of service (or less during initial Senate propagation times), each of the seven UM member blocks (or less during initial Senate propagation times) shall elevate 8,000 Senators to the UM Over-Senate where they shall serve for two years. Therefore, a complete picture of the representation ratio of the entire world government, both national and international is as follows for a nation of 250 million voters.

National Sub-Senate 1-in-250 voters

National Main-Senate 1-in-2,500 voters

National Over-Senate 1-in-25,000 voters

UM Main-Senate 1-in-25,000 voters

UM Over-Senate 1-in-31,250 voters*

*Assuming 250-million voters

NA'16. DECENTRALIZED VOTING

1/ National Main-Senators, national Over-Senators, UM Main-Senators, and UM Over-Senators shall register and cast their votes in one of the Senate's 36 Regional Voting Centers, or RVCs. The Senators shall choose a RVC that is convenient to them.

These RVCs shall replace the nation's current single and isolated capitol as the location for decision making. The initial RVC cities shall be Olympia, Oakland, Glendale, Carlsbad, Salt Lake City, Phoenix, Denver, Albuquerque, Minneapolis, Des Moines, Kansas City, Chicago, Indianapolis, Lansing, Columbus, Lexington, Oklahoma City, Dallas, Lubbock, San Antonio, Little Rock, Baton Rouge, Jackson, Nashville, Montgomery, Atlanta, Jacksonville, Sebring, Raleigh, Charlottesville, Albany, Philadelphia, Pittsburg, Newark, Long Island, and Lowell.

2/ It is thought that having 36 RVCs will make it more than 36 times harder for anyone but the people to seize power in our nation. Also if your group can assemble enough people to 36 RVCs, Perhaps 30,000 times 36, that is over a million people and that can begin the process of mustering.

3/ RVC locations may be changed or added with a 2/3 overmajority of the national Main-Senate. No RVC or any government administration center shall be located less than 100-meters above sea level, in any 5,000-year flood zone, or in any building over 15-meters tall. No RVC shall be located in any luxury district, or in any central business district. After 2027.01.01, no RVC shall be located on private property. RVCs shall not specialize as specialization will make it easier to lobby the

Senate.

4/ There shall be no RVC in either Hawaii or Alaska due to low populations. Main-Senators and Over-Senators from these places will have register-with, and travel-to a distant RVC.

5/ If any of the above named cities fails to maintain the minimum voting quorum of 90 Senators per Main-Senate Sluice-Head, then that RVC must be closed down and merged.

6/ All Senators shall be provided free Senator-only mini bus or train transportation from any RVC to all towns of over 5,000 people in their zone. These vehicles shall not be fancy or luxurious.

7/ A significant advantage of having at least 36 regional voting centers is that our 10 sluices can all vote at once in a synchronized manner. Thus we will say that all Senate voting shall be synchronized.

8/ It is better if the Senate makes a large number of small decisions instead of making a small number of large decisions. This is the sort of granularity that government needs.

9/ The Senate shall aim to vote 30 issues per hour. However, it will start out without time limits.

10/ As the vote reporting system is debugged, the Over-Senate shall shrink the reporting delay as much as reasonably possible so that the vote is harder to corrupt.

11/ When the Senate votes in numerous voting houses, the vote tally in each voting house shall be reported and archived as a single pair of numbers called a score. The first number of the score is the yea vote, and the second number the nay vote. The score shall appear next to the title of the matter being decided upon. The title shall be linked to the actual text of the vote and it must be an accurate reflection of the matter being voted on.

12/ The scores in each Senate voting house from the prior 24 hours shall be displayed at the top of the landing page of its cloned and mono-form vote-reporting website.

13/ Each county recorder shall redundantly report and total up all election results, and all Senate scores in its jurisdiction on its website as soon as they are available. The National government shall also redundantly report and total up all Senate scores on its website as soon as they are available. Each RVC and each Centi-Nome shall immediately check the National and County websites and make sure that its scores are accurately recorded. Then the RVC and Centi-Nome shall change the confirm icon on its website from red to green if it agrees.

14/ The various Centi-Nomes, and RVCs shall host their websites on their own dedicated, internally

managed, and separately located internet servers. These shall all have back-up power generators. Each shall have a unique password known only to the Centi-Nome's or RVC's internet managers. These passwords shall be changed at least each teneth and there shall be no central database of these Centi-Nome and RVC website passwords. All Senate voting bodies shall be forbidden from asking about, or knowing about the server passwords of other Senate voting bodies.

15/ There shall be no outsourcing of Senate servers or website hosting, and all must be managed by the Senators of that RVC.

16/ To make the system less vulnerable to cyber-attack, the website of each Centi-Nomes with the same last two numbers shall mirror other websites of all other Centi-Nomes with the same last two numbers. Also, all Centi-Nomes shall mirror all the RVC vote reporting websites.

17/ Except for topics reasonably elected as secret by a 2/3 overmajority of the Over-Senate, all laws proposed in any Senate, together with all changes, shall be posted on that Senate's server, out in the open, in real time, on never-forget bulletin boards that can be viewed anonymously by anyone at any time without login. This poses little risk to honest Senators, however for the sake of reducing corruption, society must see how the laws are being assembled and who is responsible for the corruption friendly clauses being added.

NA'17. CONTINUOUS GOVERNMENT

1/ The Senate shall use staggered terms, with 10% of Senators replaced in every teneth of every year. We do this for 3 reasons:

a/ To make it more likely that our elected leaders leave office when they are supposed to.

b/ To eliminate time wasting transition periods and speed up government.

c/ To make our nation less vulnerable to attack during transfers of power.

2/ In each county, the Nomes shall be numbered sequentially west to east, in rows as much as practical. Then south to the next row and repeated, much as text is read in English. Each county shall all have a unique 6-digit number written 123-456 Each Nome shall be entirely within one county, and shall nome shall have a unique 7-digit number written 123-4567. That there are too many numbers allows us the convenience of most numbers not resolving.

3/ There shall be no central control of where Nome or Centi-Nome boundaries are drawn. These boundaries are up to the Nomes and Centi-Nomes

affected, but they shall have the correct number of voters. All such boundaries shall be of one blob, and without islands, and generally without large inlets or peninsulas in their shape.

4/ The electorate, boundaries, and numbers of the Nomes get adjusted as people grow up, move, and grow old.

5/ Except in the first 5 years, while the Senate is propagating, Sub-Senators elected to Nomes ending in a 1 shall start service on the first workday of the first teneth. Nomes ending in a 2 shall start service on the first workday of the 2nd teneth, and so forth.

6/ All Senators shall retain their Nome number throughout their Senate service. If a Senator is elected and elevated to the Main-Senate or Over-Senate, he shall begin service on the appropriate teneth for his Nome's suffixing number.

7/ The Main Senate terms shall begin some time behind the Sub-Senate, so that the new Main-Senators will have time to complete the Main-Senate's specialized education modules for their sluice. The Over-Senate shall begin its terms some time after the Main-Senate, so that the new Over-Senators have time to complete the Over-Senate's specialized education modules.

8/ Each Sluice-Head of the Main-Senate shall rank its membership using the same methods as the Centi-Nomes of the Sub-Senate. One Over-Senator shall be elected each Teneth for every 100 Main-Senators registered at each Sluice in each RVC. Portions less than 100 shall not count.

9/ All of the nation's Senates shall change by 10% per teneth, and 100% per year. After one year, every single Senator will cycle out of their Senate position. The only people who will remain in the Senate are the Senators that were elected and elevated by their peers for a year of service in a higher Senate.

NA'18. WAR RULES

1/ There shall be 4 categories of war action. The Military and Militia Sluice shall produce comprehensive rules for what is allowed under each category, and update these rules annually.

2/ In order to declare war, make war, or halt a war, the following majorities shall be required of our nation's Over-Senate:

a/ To arm and mobilize our nation, to protect the people of a foreign nation in a state of anarchy for up to 30 days, to order the assassination of monarchs, presidents, or 1-in-3-million oligarchs, to have voluntary inoculations of the people for germ warfare pathogens, a simple majority of the Over-

Senate shall be required.

b/ To initiate a restrained war under a defined mandate, to initiate a sea blockade, to destroy an enemy nation's communications, electrical and aircraft infrastructure, to assassinate 1-in-100,000 oligarchs, a 60% overmajority of the Over-Senate shall be required.

c/ To assassinate monarchs or oligarchs and their appointed administrations without regard to collateral damage, a 2/3 overmajority of the Over-Senate shall be required.

d/ To initiate an unrestrained war, or war for survival. To use a nuclear or neutron first strike, or to practice collective punishment of foreign groups, an 80% overmajority shall be required.

3/ All shall be aware that our military abilities are vastly greater when we remove our self-imposed restraints.

4/ The Foreign Sluice may impose and remove economic and trade sanctions with a 55% overmajority.

5/ The Military and Militia Sluice may order war equipment and war preparations with a simple majority.

6/ The Military and Militia Sluice shall review all war policy, war strategy, combat techniques, and weaponry.

7/ Government may temporarily take over the management and ownership of any fictional citizen (FC) or labor unions when the defense of the people requires that fictional citizen to be used for arms manufacture or other purposes.

8/ When fellow freedom fighters and especially a fellow broad democracy falls victim to force because they are poorly armed, our nation shall arm that democracy with fast-rusting, single-shot sniper rifles and other defense-oriented small arms. If this is insufficient for the weaponry of the armed forces they are fighting, we may send more advanced weaponry and military advisors at a ratio of not to exceed 1% of the local forces.

9/ In addition to whatever temporary enemies the free nations of the world may have, the eternal enemy of our freedom has always been the parasitic land of no resources. This has been so since before our free and democratic progenitors the ancient Helens retaliated against the Persians in the Trojan War. The totally desperate land of no resources eternally jihads, struggles, or wars against us because our freedom undermines their ability to feed like a parasite on the outside world.

10/ Given that the main root cause of war, terrorism, and barbarian-style raiding has historically been the

desperation mindset of the Mideast people, We shall always ask if we are fighting the right people and not the front-man, or escape goat the Arab house of war has framed for us to blame.

11/ Given that the Arab empire struggles as a collective while intently pretending not to be a collective, the Senate may retaliate against any portion of the PU or Arab empire it elects will be most efficacious.

12/ If our nation comes under large-scale nuclear or biological attack, regardless of the ostensible cause, the Senate may also elect to retaliate against the Arabian Peninsula, and the rest of the Arabian empire, the PU.

13/ Except on the live battlefield, high ranking military personnel shall to initiate contact with potentially enemy foreign governments or forces.

14/ Democracies work best in crisis mode. Just look at America during WW2.

NA'19. ULTIMATE AUTHORITY OVER GOVERNMENT

1/ No aspect of the government shall exist outside the authority and purview of the national Senate. This includes all of our nation's military, internal security forces, intelligence gathering services, and all police forces.

2/ The national Senate shall not have authority over the militias. It may ask, but they don't have to go, and they may leave at any time. The Militias are lightly organized and entirely voluntary because they are both much stronger and harder to misuse this way.

3/ All courts shall be below the Senate, and no court shall ever countermand the Senate in any way, or compel the Senate to do anything at all. Also, in general, court rulings should not hold much validity in the Senate. Otherwise the courts become a back door to Senate power.

4/ No person, group, jury, or government agency shall ever have the power to interpret, veto, modify, officialize, inaugurate, or bring into force any Senate policy, otherwise that group would have a sort of veto over the Senate

NA'20. INTER-ELECTION PERIODS

1/ Our part-time Sub-Senators shall begin service on the appropriate teneth considering their Nome's number. Once we are out of the propagation period, this shall not be less than 3-teneths after being elected. This inter-election period is so the new Senators will have time to pass the Sub-Senate's orientation, anti-corruption, and education programs.

- 2/ Our full-time national Main-Senators shall begin service no less than 3-teneths after cycling out of the Sub-Senate. This is so they will have time to pass the Main-Senate's orientation and anti-corruption education program.
- 3/ Our full-time national Over-Senators shall begin service no less than 3-teneths after cycling out of the Main-Senate. This is so they will have time to pass the Over-Senate's orientation and anti-corruption education program.
- 4/ When our Over-Senators are elevated to the UM Main-Senate, they shall begin service no less than 3-teneths after cycling out of the national Over-Senate. Those entering the UM-Over-Senate shall begin their service immediately after their UM Main-Senate service is over.
- 5/ The preceding periods shall not necessarily apply during the shorter initial Senate propagation terms in the first 5-years of this constitution.
- 6/ In the beginning, new Senators will only have to complete a limited amount of orientation and anti-corruption courses. However, over time the amount of educational material will grow. The Over-Senate may increase the inter-election periods for our nation if it elects to do so with a 2/3 overmajority. The inter-election periods shall not exceed 7-months.

NA'21. CRISIS AND EMERGENCY BODIES

- 1/ The Senate shall not be permitted to institute any narrow emergency bodies with broad or long-lasting powers. If any emergency bodies are constituted due to an emergency, they shall obey the following rules. Any violation of these rules shall generally be considered a coup attempt and all participants shall be subject to the death penalty, with the national Sub-Senate serving as jury:
- a/ No emergency bodies shall be above, or have any authority over the Over-Senate, the Main-Senate, or the Sub-Senate of this nation.
- b/ No emergency bodies shall have a representation ratio narrower than 1-in-10,000 voters.
- c/ All emergency body actions shall be irrevocably subject to veto by the Over-Senate.
- d/ The Over-Senate may immediately shut down any emergency body at any time with a simple majority vote, and without stating a reason.
- e/ All emergency bodies shall be created in one step, and then staffed afterwards, in a second separate step. All emergency bodies shall be staffed exclusively with acting national Main Senators.
- f/ There shall be no centralized control of staffing at

- the emergency bodies of this nation, and each RVC shall independently elect the appropriate percentage of its members to create the appropriately sized emergency body.
- g/ No emergency body shall live for longer than 30 days. There shall be no renewals, or extensions, and after 30 days the emergency body shall die forever. No emergency body action shall live or survive for longer than 30 days from the date the emergency body was convened.
- h/ No person shall serve on more than one emergency body in their lifetime.
- i/ The forgoing provisions (a—h) are intended more than anything else to entirely prevent the use of emergency bodies and the granting of emergency powers to any part of government. Future generations are strongly cautioned and warned that emergency bodies and emergency powers are more than anything else, a backdoor to corrupting and even dissolving a democracy. Emergency powers and those asking for them should always be viewed with extreme suspicion and mistrust.
- 2/ Those participating in an illegal power grab involving emergency powers may be charged with capital democide.
- 3/ Emergency bodies shall not suspend or ignore any portion of this constitution for any reason.
- 4/ The National government shall proactively establish a system of crisis law, so that civil society can continue on in a catastrophic crisis. There shall be 5 levels of crisis law. The crisis law system shall have much higher penalties for crimes committed during a crisis, as the stakes are higher. This shall be accomplished by means of a lockup sentence multiplier, 0.5, 1, 2, 3 and 4. These are for Prosperity mode, normal mode, minor crisis, major crisis, and extreme crisis respectively. Also, reasonable promises made in a disaster shall be legally enforceable in court with typical multipliers for non-compliance, once the crisis abates. These promises should be quantified in labor units rather than currency.
- 5/ In all levels of crisis, the Senate shall continue to rule the nation. If more than three of the nation's RVCs are destroyed in war, along with a majority of the Senators voting therein, then the surviving Senators shall reconvene in new secret location RVCs that are 1/10th the size until the crisis abates.
- 6/ When a great many Main-Senators and Over-Senators die or are disabled, each Centi-Nome and RVC shall elevate the #2 person in the last election before 6:00pm on the following day. If this #2 person is killed or disabled by a subsequent attack, the #3

person shall be elevated, and so forth.

7/ If the national Senate cannot convene or is unable to give instructions, then the county senates shall rule their respective jurisdictions under this Constitution until such time as the national Senate can re-convene.

8/ There shall be no emergency suspensions of rights, like the right to go outside and the right to assemble as happened under COVID. Those participating in an illegal power grab involving an emergency suspension of rights may be charged with capital democide.

NA'22 RESTRICTIONS ON UNIVERSAL SUFFRAGE

1/ Wealth or lack of wealth shall never be a consideration in deciding who gets to vote or lead our democracy. Even bankruptcy shall not disqualify people from voting or holding office.

2/ We shall not have a democracy of fools or foreigners. For this reason, we shall say that those who have not completed secondary school in our nation, or passed the secondary school equivalency exam in our nation, and in its national language of English, these shall not have the right to vote in our nation's elections.

3/ The secondary school equivalency exam is a bit harder than the exam for high school students. Also, the exam for people over age 30 is a bit harder for people under age 30.

4/ If less than 82% of the new generation of native-born English speaking citizens can pass secondary school, then secondary school shall be made easier. If more than 88% of the new generation of native born English speaking citizens can pass secondary school, then secondary school must be made harder.

5/ All school testing must be in the national language of English or later Euemi, and no provision shall be made for an inability to speak the national language, either in high school, or in our nation's democracy, or in the delivery of government services.

6/ We shall follow long established tradition and say that those in jail, prison, or work camp, and those previously convicted of a felony shall not have the right to vote. When these people are allowed to vote, they create an evergreen constituency with an endless hunger for criminal leniency, and even abolition of the police and justice system. This constituency was after all the main force driving for police defunding, and the ridiculous leniency that our nation suffered from around the year 2020.

7/ Adults that get more than 1/4 of their income from

government welfare/dole payments shall not have the right to vote. However, this does not include government child support benefits for women with a conforming number of children, or with grandfathered children from before this constitution was in effect. It also does not include public pensions and people who are obviously disabled. We stop these people from voting because when they are allowed to vote, they create an evergreen constituency with an endless hunger for more and more public benefits.

8/ Alcoholics who consume 10 or more portions of alcohol per day per 100kg of body weight on average shall not be allowed to vote.

9/ Those with high use opiate, amphetamine, or cocaine licenses shall not be allowed to vote.

10/ Those who have not heard their candidates speak either in real or virtual shall not have the right to vote

11/ Immigrant citizens and non-citizens shall not vote in our nation's elections unless R'183, Option 22 is turned off.

BILL OF RIGHTS AND RULES

The following listing of rights and rules of man and the government we establish for ourselves shall constitute a 2nd integral half to this third American Constitution of 2022. From this day forward, no constitution shall ever be considered valid without a similarly extensive listing of the rights and rules of men and the government they establish for themselves. All of the rights and rules herein shall be considered universal rights of the people that apply to all citizens and sometimes to others. These rights shall not be considered privileges that can be withdrawn or suspended except through the constitutional amendment process as explained herein.

The numbers above shall be called National Article-1, and National Article-2, and so forth. The numbers below shall be called National Right-1, National Right-2, and so forth. The Articles and Rights of this Constitution may be written as NR'1.1 or NR'21.4 or NA'19.4.c. These shall be said as National Right 1 dot 1, or National Constitution Right section 1 dot 1, and National Right 21 dot 4. also National Article 19 dot 4 dot c. There are also UM Constitution Articles and Rights abbreviated UA'### and UR'###. This is done to facilitate text search and to make the constitutional code easier to refer to. The single quotation mark between the type of code and the number is said as "section". The indexes are headed as "TABLE-OF-CONTENTS" with hyphens to make them more searchable. Each nation's Senate dot gov website shall display the full searchable constitutional code with Senate commentary and FAQs for each section of code.

A — CITADEL RIGHTS

NR'1. FREEDOM OF SPEECH AND PRESS

1/ The right to examine and communicate freely about our policies, our leaders, and our world has always been the most important factor in helping to guarantee every other right. Therefore, freedom of speech and its main objective, knowledge of the truth shall be the first and foremost priority of our informed democracy.

2/ The right of human citizens to communicate with one another freely, safely and anonymously shall be the supreme right, the right above all other rights, the right that can never be infringed-upon to preserve any other right, public or private. Come terrible events as they may, we shall never compromise the right of our human citizens to

discuss and figure-out what the truth is in safety, privacy, and anonymity if they wish.

3/ Government shall make no laws restricting the free speech or writings of human citizens.

Government shall make no laws restricting free information exchange. Government shall do nothing that hampers or discourages public discourse. And Government shall in fact be required to move in the opposite direction and encourage public discourse where practical.

4/ The rights of fictional citizens and foreigners shall be lower and less than human citizens in matters of free speech and participation in the public discussions of the people. Fictional citizens include: corporations, partnerships, labor unions, political parties, religions, charities, colleges and all other associations of men. Fictional citizens shall have the right to have, utter, and express whatever opinions they wish. However, their oversized money flows, and credibility shall not be directed by their managers to shape, influence, or drown-out the natural voice of our human citizens. No fictional citizen or foreigner shall expend money to sponsor, advertise, tout, broadcast, publish or promulgate messages that have anything to do with politics, the economy, the legal system, the business environment, the natural environment, energy policy, drug use, social norms, sexual norms, body aesthetics, consumerism, or reproductive norms. Fictional citizens and their spokespeople shall not be allowed to defame or smear real people.

5/ No fictional citizen or foreigner shall directly or indirectly lobby or participate in government decisions. No fictional citizen shall give money to lobbyists, political parties, charities, or other straw men doing these things.

6/ Fictional citizens, foreigners, and ultra-rich frontmen shall not be allowed to have high and grand political platforms and pulpits in our nation. Where news media groups exist, they shall not be owned or run by parent fictional citizens, by foreigners, or by any ultra-rich frontman types.

7/ News media organizations must remain tiny so they do not rise above the people in terms of credibility, as so many large news outlets have done recently. To this objective, we shall limit the size, reach, company parentage, and output of all individual news media organizations. News media groups smaller than 7 people shall however always be exempt. We want our news media human scale so our news outlets are not giants among men with regard to influence.

8/ Except for Senate prepared news media, Government shall not have any officially approved, accredited, admitted, permitted or favored news sources. The oldest and most respected non-Senate news organization should remain totally equal with the newest and smallest in the eyes of the Senate and the people. Otherwise this sort of credibility can become a backdoor to our democracy.

9/ Our nation calls itself isocratic in that all of its leaders at each level are supposed to have equal power. In our isocracy, no leader is supposed to rise above the other leaders as a prince or princeps in the minds of the people. For this reason, we shall intentionally allow a headwind for the mighty and say that no cases of slander, libel or defamation shall be allowed.

10/ Free speech does not include the right to ambush people, or follow people around recording them like paparazzi, or private investigators, or journalists do. Free speech does not apply to images of people taken through the windows of their permanent or temporary residence. Free speech does not apply to images of people taken while they are at a beach, or swimming, or embracing others, or in the bathroom, or changing clothing.

11/ The right to free speech shall not necessarily apply to paid advertising and sponsored messages. Also, government shall have the right to fine those involved in the paid promotion of untrue, misleading, or inaccurate messages for political agenda or profit.

12/ Paid messages shall not be allowed to inculcate. Advertisers may only display once per quarter-year per viewer, per product, or per subject.

13/ Freedom of speech rights shall not apply to media intended for minors under age 18. All commercial media intended for minors under age 18 shall be pre-approved by the Senate. All children's media must be in some way educational, and the most exciting media must be the most educational. Freedom of speech shall not apply to talk about, or depictions of sex with minors, or other sorts of criminal sexual behavior.

14/ Neither Government nor any fictional citizens, nor any foreign government shall punish any real human, in any way for the opinions, criticisms, or insults they express about their own government, any foreign government, any fictional citizen, or any leader. In our nation, real humans shall have absolute and totally unlimited free speech in these matters. The only exception being that:

a/ Nobody is allowed to threaten violence or call for extra-judicial action, and.

b/ Nobody may speak about the legal, family, coupling, sexual, address, dating, friendship and private medical matters of other people, particularly leaders. The media is not allowed to talk about such private things and those who violate these rights may be charged with a misdemeanor by government.

c/ When people either talk about the private matters of others, or they threaten people, it is a thing that is prosecuted by government in criminal court. There shall be no court cases involving slander, or defamation.

15/ There shall be 2 classes of free speech:

1st class free speech includes talk by our flesh-and-blood voting citizens and their offspring about: Their elected leaders, their public policy, their elections, their politics, their government, their economy, their social practices, their sciences, their health, their fictional citizens, and other important subjects related to how our democracy conducts the public's business. This sort of free speech is what truly matters, and this sort of free speech shall be truly protected, and no other free speech shall even come close in terms of importance or protections under this constitution.

2nd class free speech includes talk that is commercial, sponsored, paid, advertised, commissioned, done for money or benefits, foreign, proselytizing, violent, violence inducing, inaccurate, pornographic, empty, repeated, spammy, off topic, involving begging, or intended to shock or deceive. All communication by foreigners and non-human entities shall also be considered 2nd class free speech which may be curtailed by the Senate as it finds beneficial, convenient or expeditious to elect.

16/ The correct way to deal with misinformation, disinformation and manipulative content is to label it, not to delete it. No ostensible venue for free speech shall censor or delete any 1st class free speech. These can only censor or delete 2nd class free speech. 1st class free speech can only be labeled by ostensible venues for free speech.

17/ Government and the nation's fictional citizens, publishers, and media channels shall all be required to call all men as equal, but the individual citizens of our nation shall not be required to do this. Our all-important, first-and-foremost right to free speech shall be considered more important. Therefore, individual citizens saying their own piece shall be free say things that most people find to be completely sexist and racist. This is just like how they are free to advocate fascism and communism and insist that the world is flat, or that the great flood

was from 40 days of rain and not a giant epochal-lyse of a tsunami.

18/ We shall never allow our first and foremost right of free speech to be compromised on account of people's personal feelings or their sense of personal, religious, or ethnic pride. These things shall be considered completely inconsequential in comparison to any erosion of our all-important, first-and-foremost right to free speech.

19/ Government shall not restrict hate speech from individual citizens, except when it threatens, or calls-for violent extra-judicial violence. Human citizens shall have the total freedom to criticize, demean, degrade, insult, and say hateful and untrue things to and about one another. The people shall also have the absolute right to make ugly faces at one another. However, they shall not have the right to threaten, or to call-for extra-judicial violence, especially mass violence. They shall also not have the right to touch in any way at all, or violate near personal space, or make threatening gestures, or threatening movements at one another.

20/ We shall shut down the financial reward systems that finance the crafting and ever-improvement of man-on-man violent imagery in the entertainment media. We will have to determine what sorts of violence are acceptable in entertainment media. Do we allow the burlesque fights of 1970's television? Do we allow guns? Do we allow videos of real-world fistfights, and gun crimes? Certainly we don't want to allow videos of school violence and even probably mere school confrontations. We must draw some lines with regard to violence and utopia (eu•tropia).

21/ If this nation finds itself in a war with any nation, the people of that nation may be subject to different rules, including different free speech rules. For the purposes of this paragraph, the war may also be an un-declared war of terrorism.

22/ The government and economy of our nation exists for its flesh and blood citizens, not fictional citizens, not foreigners, and not recent immigrants that are not yet allowed to vote. The free speech rights of these groups shall be limited so that the all-important voice of our nation's flesh and blood citizens is not down-out in any way by others pretending to be citizens.

23/ Government shall limit the voice of the wealthiest 1% with regard to paid and sponsored messages, so they can't use their wealth to drown-out the organic voice of the people in our democracy.

24/ No Senator, active or retired shall ever be compelled to reveal his information sources, and all

shall be duty-bound to protect the identity of their sources, when their sources request. Un-elected journalists may be compelled by the nation's courts to reveal their sources.

25/ Government shall not prevent, hinder or delay the public dissemination or viewing of any political, economic, scientific, or public safety messages through any medium, except in relation to a clearly stated and credible defense or terrorism issue.

26/ With a 60% overmajority, the Sub-Senate may strip any work of its copyright protection, or preface any work or message.

27/ Robots, automatons and computer programs shall not have the right to free speech. Government shall carefully regulate when and under what conditions robots are allowed to initiate contact with humans. Robots and other machines shall not have the right to initiate contact with humans, or the right to speak loudly, or to flash their lights or wave their appendages and call attention to themselves in public. No robot shall use voices that sound human unless the user changes the settings.

28/ When the people gather to hear their leaders speak at a particular time, the right of free speech applies to the leaders who have drawn the crowd. It does not apply to hecklers, claqueurs, and loud counter-protesters. These may be charged with violating the free speech rights of a leader while he is speaking to the people gathered to hear him. Anyone who commits this free speech crime with intent or shared plan against pre-planned speakers may be required to spend several years in a work camp. These rules do not apply to unscheduled speakers, or the time before and after a scheduled speaker speaks.

29/ Speakers shall always have broad rights to expel interrupters from their event by saying the words, "Get out, I hereby expel you from my audience", and describing the expelled people clearly. Thereupon, the expelled people must immediately stop talking and making noise, and immediately and quietly walk out of the venue. If the expelled people fail to immediately stop making noise and leave, they can be charged with contempt of free speech. There shall be double penalties for those who don't start leaving until the arrival of an usher. There shall be triple penalties for those who will not walk out of the venue.

30/ Unaccompanied candidate signs shall be prohibited on the grounds that they are a way for money to influence elections. This includes yard signs, writing on vehicles, murals, and billboards.

31/ The right to make money on media is a

secondary aspect of free speech. This secondary right should never detract in any way from the primary right of free speech, that of exchanging information. Therefore, the right to make money on media does not include the right to remove a work from circulation for any reason. Also, work removed from circulation by the copyright owners shall generally void the copyright.

32/ Censorship of 1st class free speech shall be considered as sort of democide. Fictional citizens that engage in censorship of 1st class free speech may be closed down, or if they are a for-profit entity, then their shareholder equity may be cancelled either in part or in whole. The directors and even the censorship minions may also be imprisoned for engaging in censorship of 1st class free speech. Following employer orders shall be no excuse for censorship. We say this because we want our fictional citizens and their workers to stay far away from the line here with regard to censorship of genuine 1st class free speech.

33/ There shall be no undisclosed shadow censorship by anyone including government and any fictional citizen operating in our nation. All undisclosed shadow censorship shall be punished harshly, with long prison sentences for the perpetrators.

34/ Even the Senate shall not have the right to censor 1st Class Free Speech, unless it reveals genuine national secrets. So no censorship of any sort or shade should be tolerated by any fictional citizen. People trying to use a fictional citizen to censor material shall be charged with democide for illegal censorship.

35/ Elected officials shall be the most protected with regard to censorship. Senators cannot be censored or edited in any way at all that they don't agree to.

36/ Any action taken to punish people for an expression of 1st class free speech may be considered censorship and thus an act of democide. This includes doxing, going to a person's home, scolding at them in the street, and spreading stories and rumors about them. Where members of one political ideology work to punish, dox, attack, or cancel members of other political ideologies for what they have said, it may also be considered a form of censorship.

37/ We shall fight censorship in other nations by using our national intelligence apparatus to listen for stories around the world. Then we shall use our media to repeat and elevate these stories if there are reasonable claims of censorship. It shall not be considered censorship to remove things added to

recordings like ads, music and commentary.

38/ Where any nation erects a censorship wall for its nation, we shall out of devotion to liberty and freedom repeatedly demand that they stop. We shall also repeatedly ask why they need to keep their own people in the dark.

39/ All airports, train stations, bus stations, shopping mall common areas, office mall common areas, multi-restaurant common areas, public building common areas, private property open to the public, and school campuses for people who are generally over age 18 shall permit all 1st class free speech. It shall be the crime of censorship when the management or guards of our nation's public forum locations interfere with the free exchange of political information.

40/ Workers shall generally not be free to add their own sexual, economic, religious, or political messages or symbols to their work conversations or attire while at or around their workplace. Workers shall generally not be permitted to divert customers and co-workers to competitors, or to their own personally profitable ends.

41/ Employers shall not be free to discriminate against their employees for what they say in their free time, or in their personal communications. To allow this sort of discrimination is to undermine our first and foremost right to free speech. No fictional citizen, employer, school, charity, religion, club, transport carrier, political party, or other association of man shall be allowed to punish or discriminate against their members/ workers/ associates/ students for any free-time, off-duty, or away from campus political speech.

42/ Fictional citizens shall not compel their workers, customers, students, or other people to undergo any training in matters that in any way relate to public policy. This includes training in ethnic, racial, and gender equality equity, diversity and inclusion.

43/ Except in matters of military tactics and weapons systems, war preparations, law enforcement and spying techniques, no person shall ever be punished for describing events they personally witnessed.

Also except in these security matters, no doctor, scientist, or other highly certified expert shall ever be punished, intimidated, threatened, or insulted in any way for stating their expert opinion in their area of expertise. They shall always as protected as whistleblowers.

44/ It is important that we eliminate as much downside as possible from Senate service. And one huge downside is when the candidates say negative things about each other because they are all

election opponents. So we will say this: If any Senate candidate is talking about the other candidate(s) each of us might consider them disqualified on that fact alone. They can talk about their opponents policies, or plans, but they should not talk about, or hint at, the character, or appearance, or minor misdeeds of their election opponents. Whenever they are talking about each other, it is a very negative thing that drives good people away from public service. This clause shall not be considered a law, but only a recommendation to the people.

45/ Free speech about candidates is generally supposed to take place in the election forum where comments can be democratically fact checked, and where only serious and topical remarks are made. The people are generally supposed to ignore remarks made elsewhere unless those remarks claim corruption of the election forum system. This clause shall not be considered a law, but only a recommendation to the people.

46/ The openly corrupt paid commercial media is not supposed to talk about candidates. They can talk about system corruption, but not about specific candidates. The proper place for the conversation about candidates is in the election forum, where nobody gets preferential treatment because they spend more on ads, or because the people who own the forum favor them.

47/ Free societies welcome dissent because it increases their understanding of their problems and how to fix them. Dissent is a good thing that we want to encourage and never punish. We will doubtless ignore much dissent as dumb, but anyone trying to punish dissent is going in the wrong direction. It is only frontman tyrannies that punish dissenting opinions, this so their can ram-through corrupt policies that they will profit from.

48/ All Government and police charges related to free speech and free assembly seen as a double edged sword for those who seek to enforce them liberally. If the charges are baseless, then the prosecution side shall generally be subject to similar penalties for malicious prosecution.

49/ It shall be considered democide when government, or the justice system, or police, or fictional citizens use their powers to punish, gag or discriminate against the people for their protected free speech. When fictional citizens discriminate against real citizens based on their political beliefs, they may be required to pay extremely large penalties.

50/ The Senate shall always aim to be receptive to

new, better, and less expensive ideas. The information gathering side of the Senate should have the open and receptive mind of a teenager, while the deliberative side should have the wise old mind of an older person.

51/ Under no circumstances whatsoever shall the first and foremost right of free speech, or the secondary right of free assembly ever be suspended. This includes all epidemics, all wars, all insurrections, all uprisings, all invasions, all treaties and all other forms of crisis or event. Furthermore, the right of free speech shall not include the right to call for the suspension of the right of free speech — and all people in leadership roles in government or the media who call-for, or speak in support of measures that limit the right of free speech or free assembly shall qualify for charges of democide, a potentially capital offense.

52/ Those who attempt to use their power within government or within a fictional citizen to punish legitimate free speech may be charged with attempted censorship.

53/ Intimidating our people on behalf of a foreign government or Mafia is punishable by life at hard labor and free speech shall not apply here.

35/ The people shall always be free to discuss and share all government laws, requests, demands, mandates, and threats. This shall include both government and everyone who works for or with Government. Nobody shall ever be punished in any way for discussing what government is doing to the people or requiring of the people. This sort of talk lies at the core of why we have free speech rights in the first place.

54/ Government shall be limited in the things it can say to the people:

- a/ Government shall not attempt to manipulate the people by creating fear or by using herd behavior.
- b/ Government shall never discourage questions and dissent, but must always reward them.
- c/ Government shall not present individual people as authorities that are beyond question.
- d/ Government shall never ask for zealotry
- e/ Government shall never shame people or discredit people except for its Senate stigma votes for well-documented cause.
- f/ Government shall not use the word god or speak of higher powers or religions.

NR'2. THE RIGHT TO BEAR ARMS

1/ A strong well-armed people being necessary to the long-term security of a free and democratic nation, the right of the people to keep and bear arms

shall not be infringed except as described in this Rule 3, the third of four citadel rights.

2/ A disarmed public is the hallmark of tyranny. This is the #1 thing that all tyrants need to rule over a people.

3/ Systems that uses an armed police and a disarmed public are vulnerable to catastrophe in times of crisis. In fact, they tend to flip to chaos when things get terribly bad.

4/ A well armed people is the cheapest, the easiest, and the most foolproof way for a nation to defend against both invasion and domestic dictatorship. Our nation shall always look at the big-picture, the long-term historical picture for firearm ownership. We shall look at how a large part of Eastern Europe lost up to 1/5th of its population during World War Two, largely because they were not armed. Then we shall look at how the United States has been losing about 1/25,000th annually due to firearm homicides in recent years. When we compare these numbers, we realize that the annual firearm homicide rate will take over 5,000 years to add up to 1/5 of our population. And this is only in case of invasion. This does not count domestic seizure of power, dictatorship, warlordism, mafia violence, crime gangs, and violent crime. It also doesn't count how the firearm homicide deaths are heavily skewed to the bottom of society, unlike the war deaths. There is also the twin chimera of eliminating the guns and keeping them out — like in the UK. So we realize that the limited amount of death caused annually by gun violence is insignificant in comparison to the life-savings that firearms occasionally bring.

5/ Democracy works better when everyone can say what they think, and when nobody fears speaking out. Few things help this state of affairs to exist as much as when the people are armed and far more powerful than their government.

6/ Only citizens eligible to vote in our nation's elections shall be allowed to own or hold firearms. This includes citizens that would be eligible to vote except for their age. It shall be a felony for non-citizens to hold firearms in our nation.

7/ Those previously convicted of a felony shall not have the right to own or hold firearms unless they are temporarily granted the right to hold arms by the Senate due to a national emergency.

8/ Those who have not completed secondary school in our nation, or passed the secondary school equivalency exam in our nation and in its national language of English, shall not own or hold firearms. The Senate may however temporarily grant non-citizens and illiterate people the right to hold arms in

a national emergency. Also, native citizens who are over age 40 and those who live in a mostly agricultural community or on wild lands shall be exempt from this NR'2.8.

9/ Government shall not restrict the right to bear loaded civilian firearms in one's home, or business, except that people with irresponsible or young dependents shall be required to lock all the firearms up when not being held or worn. Minors recorded playing with firearms real or simulated go to reform school for 6 months on the first offense.

10/ Each county government shall keep a list of residents eligible to own or hold a firearm for the reasons listed herein. These lists and identities from the various counties shall be aggregated by the national government. People that are on the list shall not be required to wait to buy a firearm. People not on the list cannot buy or hold firearms until they get on the list. People shall be disqualified from buying arms if any of the following apply:

a/ They have a felony conviction.

b/ They are a foreign person ineligible to vote.

c/ They have not completed secondary school in our country, or completed the national secondary school equivalency test in the national language of English.

d/ They have ever engaged in a failed suicide attempt.

e/ They have been locked-up by the court for mental health evaluation on reasonable cause observed in recordings.

f/ They are homeless, or were homeless in the past year.

g/ They consumed more than 2000 portions of alcohol in the previous year.

h/ They have had a license for methamphetamine or cocaine, opiates, or hallucinogens in the past 8 years.

i/ A majority of their Centi-Nome votes to file a do-not-license order with the recorder's office based on aggregated direct video and aggregated witness testimony videos.

11/ Each county shall use one of 5 standard rule sets for firearm carry in public by ordinary citizens.

Thus carry laws shall be standardized nationwide:

a/ Call to arms. Militia arms may be carried. There is also a suspension of the pointing firearm rules if there is a security reason. This rule set may only be used temporarily and during a crisis.

b/ Universal carry. Everyone allowed to own a civilian firearm may carry it in a concealed way if they have watched the firearm carry safety and training course and passed the safety test with a 100% score.

c/ Low restriction carry. In order to carry, the carrier must not be banned from carrying by one's Centi-Nome. Minimum age for firearm carry in urban or suburban areas shall be 25, except for police and deputies.

d/ High restriction carry. In order to carry, one must be approved for carry by one's centi-Nome. Minimum age for firearm carry in urban or suburban areas shall be 30, except for police and deputies. Prior Centi-Nome approvals may be rescinded at any time.

e/ Police and deputy carry only. Only police and deputies can carry firearms in public.

x/ Under all of the above carry rule sets, civilian firearms carry may be prohibited in airports, courts, jails, government buildings, military facilities, mental health facilities, schools, stadiums, concert halls, and where people gather tightly such as Times Square.

12/ The counties may establish different carry rules in high crime neighborhoods. These differences must be displayed on the national information system to be valid.

13/ Some counties may require public carry firearms to have automatic GPS tracking, video, and audio recording that come on when the firearm is de-holstered. These public carry firearms must also buffer their stream if they are out of range, and auto-update to the recorder when they are in range. There shall be no delete function for the recordings of public carry firearms. Ammunition used in public carry firearms must have special head shapes, and bullet sizes, and the owner's permit number must be stamped on both the bullets and shells. All civilian public carry firearms shall only use bullets made of .999 pure silver. Public carry firearms ammunition may be required to have harmless nano-markers in the gun powder. A statement must be filed within 24-hours for each public carry firearm bullet fired, unless this is genuinely impossible. Only registered bullets may be carried with public carry firearms. Carrying unregistered bullets shall be the equivalent of carrying an unregistered firearm.

14 There shall be no prohibition on public carry firearms with registered bullets in any national parks or national wilderness area with bears or mountain lions, or illegal border crossers, or border desperados, or border gangsters.

15/ We shall have firearm restricted areas at airports, schools, court houses, and police stations, and alcohol areas, among other public places that the Senate elects to make firearm free. However, aside from these special firearm restricted areas,

Government shall not restrict the hidden transportation of civilian firearms loaded or not.

16/ With regard to firearm ownership, government may discriminate against people with non-felony criminal convictions. When a Centi-Nome is looking for an excuse to say "no gun for him", misdemeanor convictions shall be perfectly acceptable, even if they were 30 years earlier.

17/ In all trials for illegal weapons carry, the Senate jury shall ask if the person is carrying offensively or defensively. The penalty for illegal defensive carry shall be about 5% of the penalty for illegal offensive carry. When the carry is judged to be both warranted and defensive, there shall never be any penalty for this.

18/ All Confirmed Senators shall be automatically licensed to carry a firearm for life and without approval in all counties once they have completed the gun safety and security module.

19/ The Senate shall encourage stable people to go through the training and screening to become unpaid civilian deputies for times of crisis. All such deputies shall be allowed to carry firearms in all counties, except in certain restricted areas.

20/ Spring-opening, and flip-opening knives being more of a defensive weapon, government shall not prohibit them except where similar length fixed-blade and folding knives are also prohibited. Minors under the age for firearms shall not carry knives, folding knives, or box cutters on their person except while at work or in the wilderness. Also, parks and wilderness areas within cities do not count here. Throwing knives shall be prohibited as sloppy weapons.

21/ Imitation and toy firearms, that look even vaguely realistic shall not be sold or possessed in this nation. Assault with a paintball gun or slingshot gets half a year in work camp. Assault with a BB or pellet gun gets one 1-year in work camp. Using a fake gun in an armed crime does not diminish the crime, while it offers defenders an excuse to shoot the apparently armed person dead.

22/ Firearms and intoxication don't mix. It shall be a felony to bring firearms to bars or intoxicant parties. Also, regardless of the carry laws, it shall be a felony to carry or pick up a firearm while intoxicated. The only exception is in self defense at the premises where the arm is kept.

23/ There shall be two classes of firearm for the people to use for defending themselves: civilian and militia. Civilian firearms shall not be capable of firing more rapidly than an expert marksman needs to aim each shot. We shall call this as one shot per 1.5

seconds. Civilian firearms shall also not use tumbling or explosive projectiles, or be a larger gauge than 100 caliber. Militia weapons shall include all other arms the Senate considers valuable for civil defense purposes.

24/ Some civilian weapons should be high powered and have armor piercing bullets. It is important that the people have adequate arms to defend against oppressors using armor. Otherwise they can be oppressed by people using armor. However, the ability to rapidly fire large numbers of un-aimed bullets in some general direction, like what machine guns do — this should be considered too sloppy and dangerous for civilian weapons used in a community. We will instead require that all shots from civilian weapons be aimed. And we will accomplish this by having a maximum fire rate for civilian weapons nationwide. In other words, the right to bear arms shall be limited to civilian weapons that fire no faster than the time it takes to aim each shot after discharge recoil. Some nations that use our constitution may have faster fire rates for civilian firearms, others may have slower fire rates. perhaps as slow as one shot per 5 or 10 seconds. Others may only permit single shot firearms that must be reloaded by hand. Others may allow revolvers, or slow cocking revolvers, and slow automatics.

25/ All existing firearm that can be easily made to fire faster than one round per second must be sold to government for their prior value within 3-years. After this, all such rapid fire weapons shall be considered as machine guns, even if semi-automatic. If these machine guns are going to be remain under private ownership, they must be kept in a Centi-Nome armory and range. Police and deputies may use firearms that fire up to 3 shots per second. There shall be no limit on the fire rate for either militia or military firearms.

26/ Civilian weapons must be designed so they are hard to modify and boost the fire rate. The trafficking in machine-gun conversion hacks shall be considered the equivalent of trafficking in machine guns.

27/ Except when a county Senate calls the people to arms, the possession of militia or military weapons off base, or outside a Centi-Nome armory, or while not on militia, military, or police duty shall be a felony.

28/ It shall be a capital offense to hold militia or military weapons such as a machine gun in the commission of a violent street crime such as a robbery or gang gun battle.

29/ All militia weapons shall be stored in Centi-Nome armories. Militia weapons shall not leave the armory except for militia training purposes, or in a call-to-arms.

30/ A call-to-arms shall require either a 3/4 over-majority vote of the relevant Centi-Nome, or a 2/3 majority of the relevant county Senate, or a simple majority of the national Senate. Also, it shall be noted that neither the national Senate, nor any county Senate, nor any emergency body, nor any other part of Government shall have any jurisdiction over any Centi-Nome's decision to declare a call-to-arms and open its armory. Whenever a county declares an emergency or a call to arms that their emergency instructions shall supervene from above, with all other societal requirements including employment, school, and military service put on hold.

31/ The motto of all Centi-Nome armories shall be: "The bigger the crisis, the more the people need to be armed". Whenever any of the following nine things a-h happens, or is about to happen, each Centi-Nome armory shall open its doors to the people of that Centi-Nome, so everyone allowed to bear militia weaponry in time of crisis can come and arm themselves:

a/ Invasion.

b/ Violent seizure of power.

c/ State of emergency.

d/ Epidemic emergency, or lockdown.

e/ Catastrophic natural disaster

f/ Where martial law is declared.

g/ Where emergency bodies come to power.

h/ Where special powers are given to government.

32/ We shall honor the words of Mohandas Gandhi, a luminary of non-violence: "Among the many misdeeds of the British rule in India, history will look upon the act depriving a whole nation of arms as the blackest." We shall also note how easy it was to turn Australia into a police state in 2021, once it was disarmed.

33/ The greater the crisis situation, the more the people need arms. Senators and others, including military personnel and police on orders who round-up civilian firearms under any circumstances should be charged with capital democide. Let everyone be on notice that those men who round up the legitimate civilian arms of the people shall be treated the same as those who fire on unarmed protesters. All shall hang if we the people ever regain power again, and there shall be no statute of limitations in this matter.

34/ All local police departments and Centi-Nome armories shall offer firearm lockers free of charge to their community. These lock-up weapons must always be returned immediately upon request unless the owner is clearly intoxicated, delusional, or fighting mad. All Centi-Nome armories shall keep a supply of food, water purification tablets, bio-protective garments, emergency medical supplies, fuel, water pumps, and the like. These disaster items shall be kept in kits on pallets that can be easily sent around the nation when they are needed. These armory supplies shall be of a particular design and style worldwide and are all possession and commerce restricted. Nobody can buy or sell or hoard the public emergency goods without risking charges of public misappropriation.

35/ Flame throwers shall be considered militia weapons and the equal to machine guns.

36/ Where citizens were illegally carrying a concealed firearm and fire in self-defense against attackers that they did not provoke in any way, the illegal carry shall have no bearing on the trial to determine whether or not self-defense is applicable. However, such legal use of a firearm shall not diminish any charges for illegal firearm carry.

37/ Those with a firearm, or a realistic simulation, in hand while attempting murder, robbery, kidnapping, hijacking, carjacking, battery, murder, rape, or breaking into a premises may be shot in the back, or anywhere else, or stabbed, or clubbed, or taken out in other ways by bystanders without warning. When bystanders shoot fire-arm in-hand criminal assailants under these conditions, it shall be considered a form of civic self-defense and the person taking action shall be considered courageous and doing their civic police duty. The person firing must however be reasonably certain of the situation and shall bear responsibility if they are wrong about the person they fire upon, or if they hit a bystander.

38/ Bystanders may legally brandish a firearm and shoot others upon "stop-or-I'll-shoot" warning for the following sorts of conflict:

a/ Those who have stabbed, or slashed others, or hit others on the head with their fists, or anywhere with a club. Also those currently fist-pummeling, kicking, or stomping on the body of a person that is unconscious or down.

b/ Those who come to a person's residence to beat a resident.

c/ Those who brandished a minor weapon such as a small knife or a club.

39/ Those who break into the residences or occupied vehicles of others may generally be shot dead upon the slightest provocation or apparent provocation, and it shall be considered self-defense. The maximum penalty for shooting dead an unconnected uninvited stranger in one's home shall be 3-years of community service even it was not self-defense. All acquaintances of anyone living in that premises shall generally be considered connected. Workers and some other people shall be considered unconnected strangers when they come back and break-in. This Rule does not apply where the shooter has a drug or high level alcohol license, or is a prostitute, or where the property is offered for sale or lease, or for camping or sleeping vehicles, or where people or the public are invited to come by, or where the person was let in, or entering using keys, or the property is apparently vacant. During riots and uprisings, and mass pillaging events, those who break into, or are breaking into any sort of indoor premises may be shot and the maximum penalty for the shooting shall be 1-year of community service per looter death. A maximum penalty of 1-year of community service shall also apply when a person has a government-issued right-to-defend restraining order against the person they shot dead, and the person killed was in a known exclusion zone under that restraining order. In all of these limited penalty self-defense shooting situations, there shall be no right to sue the defenders when their have rightly fired. Also as with all of the self-help-self-defense rules herein, these rules shall not apply to uniformed police officers. And if these are breaking into a premises, they must be siren announced at 120 decibels within 20 meters of the premises.

40/ Open porches and the area that is outside and under the eaves shall not count as inside a residence. However the following areas shall be considered inside a residence:

a/ Porches enclosed with screens.

b/ Private exclusive use garages and other enclosed structures attached to a residence with a doorway or direct connection to the residence. However detached garages shall only be considered inside the residence when the assailant follows the resident into the resident's detached private garage.

41/ Where the people rise up and kill a criminal gang oppressing their community with armed force, the courts shall generally dismiss the case on grounds of community self-defense. The courts shall also be free to give new identities and witness protection island housing to those brave people who did the right thing, in spite of extreme risk. Where one

member of an ostensible criminal street gang can be shot in self defense without penalty during a the commission of a felony, all members of that gang may be shot without penalty.

42/ It shall be a felony to buy firearms for others. Straw-man gun buyers, and illegal arms merchants may be considered co-conspirators in the crimes committed by the guns they provide.

43/ Theft of firearms shall be considered both theft and possession of an unregistered firearm, so the penalties shall be very high. Theft of many firearms shall be considered akin to terrorism, and those caught in possession of large numbers of stolen or unregistered firearms get life in prison.

44/ All firearms shall be required to be ballistics registered with government. It shall be a felony to possess a firearm that is not ballistics registered, or does not match the ballistics registry. When police encounter a carry weapon, they shall be free to examine it and take a ballistics sample if they have a bullet catcher. Those trafficking in illegal or untraceable firearms get life in prison.

45/ We shall not discourage civil and national defense by raising the cost of weapons or ammunition. Government shall be prohibited from imposing any form of or tax or payment, or cost, or insurance, or any sort of complex registration or licensing process for either buying, selling, or owning firearms or ammunition. Domestically made firearms and ammunition shall be entirely exempt from all tax payments, even though they must still file tax returns. All foreign made firearms, ammunition, explosives, and weapon systems, and their components shall be subject to a national protective tariff of 50% on their value at first sale.

46/ In the places that allow fireworks, these may only be used from 1-hour after sunset until 2-hours after sunset on 6/19 and 7/4. And on 1/1 from 11:00 to 00:00. This is so we will begin the new year with peace as our first step. People recorded illegally using fireworks may get up to 5-days of community service. Also, Those who use fireworks in a community or zone declared off limits due to fire hazard, these people shall get up to 3-months in work camp, and may be charged with negligent arson if their fireworks cause a forest fire, or a major structure fire. Fireworks and firecrackers shall be prohibited at protests.

47/ No weapon manufacturer shall ever be held in any way responsible, either criminally or financially for the people harmed by the non-malfunctioning legal weapons they manufacture. To do otherwise is

to shut down our nation's defense industry, and our nation's ability to defend itself.

48/ So that the people may benefit from both inexpensive weapons and interchangeable repair parts in crisis situations, the Senate shall establish standard public domain designs for three types of civil defense rifle, including a bolt action rifle, a semi automatic, and a .50 calibre design. These designs shall not be required, only recommended for the benefit of parts interchangeability and ease of service.

49/ The defensive power of firearms shall not be reduced by any purchase waiting periods.

50/ The law and police shall not punish rounds that can defeat body armor, or hollow point rounds any more harshly than ordinary rounds. We do this because:

a/ Body armor tends to make officers more fearless and abusive.

b/ Rounds that can defeat body armor are needed by the people so their arms cannot be defeated by body armor.

c/ In some situations it is preferable to use hollow point bullets that are less able to penetrate sheetrock walls.

51/ Pointing a gun at a person shall be a serious crime unless it is done in self defense. But because we say this and because we mean it, we can also say that everyone shall generally be expected to retreat from guns pointed at them. Those who instead approach, a brandished or pointed gun by even by even a couple steps shall generally be seen as attackers unless the person holding the gun is threatening other 3rd people. Also, the failure to fully retreat after 1-full minute may also be seen as attacking. When a person is risking getting locked up over brandishing, the other side must retreat. If they don't retreat, they risk being shot and it being their fault as a pursuer. Their sole remedy is to file a complaint and ask for a ruling from a Sub-Senate tribunal regarding the illegal brandishing assault they were subjected to.

52/ When one person is fleeing and another is pursuing, if the pursuing side brandishes, it shall generally be considered assault. Also, if the fleeing side brandishes or shoots under these circumstances, it shall generally be considered self-defense. Also traveling to another area to where a person lives or works, or regularly goes can alone be considered pursuit if guns are involved.

53/ It is quite unwise to brandish unless you are going to shoot because the brandishing can then be an excuse to shoot the brandisher.

54/ In matters of neighbors, family, estranged friends, couples, estranged couples and family members, and co-parents, and step-parents and step-children, official do not contact filings must be obeyed.

55/ The right to bear arms does not include:

a/ The right to bear arms in a protest.

b/ The right of non-citizens, minors, drug users, and alcoholics to bear arms.

c/ The right to bear arms at other people's private property without an invitation. Retail stores open to the public shall however be considered public places, not private property with regard to gun carry. If we give an option here to the stores, they will always say no to limit their liability. So we must permit arms in stores.

d/ The right to approach people and initiate contact while openly carrying a firearm.

56/ Ammunition shall generally not contain toxins except those commonly found in lead, steel, brass, bronze, copper, depleted uranium bullets and gunpowder. So long as the bullet diameter is not prohibited, all calibers and all types of bullets (except tumbling bullets) shall be equal under the law. Tumbling bullets shall however be prohibited in civilian arms because of how they ricochet more and harm more bystanders.

57/ Never shall the rules for long guns, also called rifles and shotguns be more restrictive than the rules for short guns, also called pistols when the two have similar fire rates.

58/ Everyone holding or even touching a firearm thought to be unloaded must obey two important overlapping safety guidelines. They must both check for loaded rounds themselves, and they must not point the weapon at anyone. It shall be the presumption of the courts that each person holding or touching a firearm shall be responsible for any injury or death resulting from any shooting, as if they knew the weapon was loaded with lethal rounds. This shall be so whether the firearm is thought to be not loaded, or loaded with blanks, or jammed, or a toy firearm. People shooting into the sky or distance shall be fully responsible for any injury or death as if it was intentional. Firearms are not toys and toying with them shall never be an excuse for any crime.

59/ Everyone entering a posted hunting area or shooting range must wear location tech, and all guns must have an electronic safety compass alert system.

60/ We must ignore the propaganda films and always remember that the number one lesson of the Warsaw uprising was: "No Guns, No Uprising".

61/ We shall always remember how during our Revolutionary war, we didn't have enough guns and that was the main reason why the war dragged on for 8.3-years.

NR'3. FREEDOM OF ASSEMBLY

1/ The freedom to assemble is the second citadel right, ahead of all other rights except the right to free speech.

2/ The right of the people to assemble, protest, muster and re-muster shall not be denied, or re-directed by government except as allowed herein. The Senate shall be required to hand off power to a 66% over-majority of voters mustered under a new constitution.

3/ Large assemblies of the people shall be held in parks, squares and not in places intended to obstruct the functioning of society, such as airports, transit hubs, arterial roads, or market centers. Protesters that intentionally and repeatedly obstruct the functioning of society, may be jailed and fined. If an assembly overflows from an out-of-the-way location and obstructs the functioning of the community, the next assembly of that group must be held in another location where this will not occur.

Except for reasons of public safety and obstruction of the functioning of society, and the reasonable separation of counter protests, government shall have no say over where the people protest. Also, all park lands and all streets that have ever been blocked-off for a Government permitted or condoned parade are fair game as locations for political assemblies.

4/ Except as stated in Rule 2.3 directly above, Government shall have no say when and where the people may assemble or protest in their great numbers. Government shall not be allowed to issue permits for protests. This is because the power to grant is the power to deny and we don't want government denying the right to assemble and protest.

5/ All streets that are easily bypassed, such as the 3500 block of SW 8th Street in Miami, shall also be fair game as a site for political protests. Where a protest of more than 500 people is being held on a street that is easily bypassed, Government shall close the street to vehicle traffic.

6/ Government shall not prevent, hinder, threaten, or intimidate the people from assembling in a more-or-less peaceful and non-riotous, non-vandalism way to hear speakers, discuss issues, organize, protest, or muster up into a new broad democracy except as described herein. Police may advise, but police shall

have no authority to force people away from a political rally or protest even if there is insufficient capacity or parking.

7/ When police at a generally peaceful protest brandish weapons including clubs, rubber bullets, pepper spray, and tear gas, or they announce threats of arrest for failure to disperse, or they encircle protesters as a means of intimidation, or they order protesters to leave, this shall generally be considered acts of police intimidation and possibly democide.

8/ The right to assemble being so fundamental and vitally important to the cause of freedom, government shall never disband assemblies of the people unless on that very day a significant percentage of the assembly turns to bloodshed, or arson.

9/ Peaceful protesters shall consider it their obligation to freedom to oust the violent from their protests by finger-pointing and opening to allow law enforcement in to arrest the people so pointed out. Peaceful protestors shall also consider it their duty to freedom to record all violent acts, and to stand witness against the violent perpetrators in court.

10/ Everyone shall keep in mind how the opponents of a protest do sometimes send people to join and infiltrate protest and cause violence in the protest's name. This frequently as an excuse for disbanding or besmirching the protest. When people who are, or recently were, strongly affiliated with the opposite side infiltrate a protest and cause violence in the name of the protest, this can be considered democide.

11/ In all protests where police wear face shields, they must wear transparent face shields. No police or protesters shall mask their faces during protests or wear a uniform that makes one protester or police officer hard to distinguish from another. All police at all assemblies and protests must wear their number front and back in 4-cm characters.

12/ During protests, it shall be a principal obligation of police to detain those ousted by the mass of protestors for acting violently, or threatening violence.

13/ It shall be recognized by all, that maintaining order during assemblies and protests is the most critically important role of police officers in a democracy, for this is where their actions also have a political dimension.

14/ Those violating the rights of a peaceful political protest, especially those injuring or intimidating peaceful protestors may be charged with democide, even if lone individuals, even if under order by a

superior officer, even if acting on their own, even if acting in great numbers, and even if this new Constitution was not yet in force. And again, those on the opposing side, who infiltrate a protest and cause violence in the name of a protest to smear the protest may also be charged with democide.

15/ Our new one-size-fits-all prototype democracy for the entire world must heed how so many armies have brought so many murderous dictators to power from Julius the Seizer, to Adolph Hitler, with thousands of others in between. Our democracy and its warriors shall not take the intimidating power of men-in-arms lightly, and for this reason, the military shall be strictly prohibited from having anything to do with political matters, especially political meetings and protests of the people. Only police and civilian militia may secure political assemblies and protests of the people. All military men shall be duty-bound to disobey all commands to attend such a meeting, if it ever is ordered, just as they are duty bound to disobey a command to fire on their own people. Any military commanders ordering their forces to act upon, or intimidate political assemblies and protests of their people may be charged with democide.

16/ At political assemblies and protests, to assure that everyone is on their best behavior, there shall be triple penalties for unprovoked crimes, and double penalties for over-reactions to provocations.

17/ There shall be no open flames, lighters, matches, or smoking at protests. No fire, and no fire-starters or accelerants.

18/ To reduce protest violence we shall say that the right to stage a group protest includes the right to protest in peace away from counter protesters. There shall be no counter-protests in the same district or in a directly contiguous district at the same time.

19/ There shall be no limitations or penalty for the words spoken or disseminated at an assembly of the people, except that it shall be a crime to call for violence, or to attempt to re-direct violence that is already occurring against different people. Those who speak to a large audience and call for violence may be charged with inciting violence. Also, with regard to our first and foremost right of free speech, the right of leaders to speak freely to their followers shall always be more important than public order. The bar for the definition of speakers inciting violence shall err on the side of liberty with regard to free speech. If there is doubt, the speech shall be permitted. For any prosecution on charges of inciting violence to be valid, the call for violence or crime must be clear and literal and it must result in actual

violence. Vague, indirect, figurative and ineffective words and language shall not count as a call to violence.

20/ The right of free assembly shall not necessarily apply to those who seek to dissolve democracy or do away with our freedoms. Those who advocate dictatorship, totalitarian government, monarchy, constitutional monarchy, constitutional presidency, theocracy, sharia law, totalitarian government disguised as religion, Nazism, fascism, oligarchy, the killing of other races, lynching, or the short-circuiting of due process shall have no right to assemble or protest.

21/ Only citizens able to vote may attend, participate-in, organize, or fund political assemblies and political organizations. It shall be considered the felony of voter-fraud when non-citizens, and provisional citizens try to participate in our democracy either by their physical presence at a protest or participation at a political assembly, or by their aid or spoken words, or donations of money. However, visitors and immigrants shall be generally free to write about public policy, so long as they don't call for violence or revolution, and they disclose that they are non-citizens at the start and end of their work. They are also free to say things bit overseas.

22/ There shall be no right to hold protests in any other language but English in our land. Even citizens shall not be free to conduct protests, or have assemblies, or have religious services in a foreign language. They shall only use English and Euemi.

23/ The Senate may deport non-citizens, and immigrant- citizens for what they say, and the beliefs they are spoused to.

24/ All news reporting of protests and assemblies shall include drone images that show the true scale of the entire protest from above. This shall accurately estimate the number of protesters. News reporting must also show the faces of the people protesting so people can judge the character of the protesters.

25/ The right to assemble is a political right that shall not be diminished-by, or confused-with, riotous celebration, or protest of events that are not political, or economic. This Constitution does not guarantee the right to assemble in great numbers to celebrate or protest matters of sport.

26/ Offering or accepting money, or anything of value, including beverages, food, lodgings, transportation and sexual favors to engage in a political assembly or protest shall be considered the felony of vote buying. Those purchasing multiple

protesters, along with their conspirators shall be penalized for each protestor purchased, and after just a few protestors may end up spending the rest of their lives in prison.

27/ Threatening people with violence for assembling or protesting or expressing their political views shall be a felony with up to 10-years in prison per count.

28/ When a fictional citizen or group schedules a distinguished person as a speaker for a certain period of time, the speaker shall have the absolute right to say whatever he wants for that period of time. The producers shall not be allowed to turn off the public speaker's microphone, or interrupt him, or remove his words from the video record of the live performance, or in any way seek to censor what the speaker says. Those who engage in this sort of censorship shall be subject to prosecution for the crime of illegal censorship.

29/ It shall be considered democide when undercover police pose as protesters as occurred on 2021.01.06.

30/ It shall be considered democide to be involved with shutting regularly scheduled transit to reduce attendance at public assemblies.

31/ There shall be no foreign nationalism allowed in our land. However, citizens of foreign descent shall be free to protest and object to the actions of their birth nation. They cannot protest in support, or celebrate, but they can protest in opposition.

32/ Part of our obligation to the truth is to always help the people of every nation who rightly speak out against their home government. When foreign whistle blowers and leaders seem to be speaking the truth, we shall help them, and protect them in our witness protection island of Puuwai.

33/ Unstructured protests should not really count. Government should not listen to the easy-to-corrupt voice of unstructured protests.

34/ There shall be no government application process or approvals for holding protests or assemblies of the people. This is because an application process implies that the application can be denied and this cannot be. So there can be no government application process for holding a protest or an assembly of the people.

35/ People who attempt to ban, prohibit, discourage, harass or interfere with a protest or demonstration of the people in any way may be charged with democide. This includes government workers and police.

NR'4. NO TOLERANCE OF TYRANNY

1/ Tyranny is like a pathogen. Pathogens are always

evolving new disguises so they can go unrecognized by their host's immune systems and olfactory systems. In a similar way tyranny is always evolving new names, new excuses, new background stories, and new disguises to hide itself from our sense of injustice and indignation.

2/ Sometimes tyranny cloaks itself as monarchy, or communism, or fascism, or some generals who have seized power. Sometimes it is elected people who find some excuse to never leave office. Sometimes it is a broad oligarchy or a narrow democracy of corrupt oligarchs. Sometimes tyranny uses other disguises. Tyranny uses whatever works.

3/ Tyranny is currently playing dead in England, the Netherlands, Denmark, and Japan among other places. Just as we stand opposed to all democracy in name alone, we shall also stand opposed to all forms of monarchy. We shall not recognize any democracy with any monarch or president(s), even if the monarchy has no powers. How much easier it is to re-institute a dynasty of powerful frontman dictator kings once there already exists a dynasty of powerless monarchs.

4/ This nation considers all monarchs, presidents, chancellors, czars, kings, governors, prime ministers, theocrats, and oligarchs, elected or not, hereditary or not, sovereign or powerless, and in any part of the world as dangerous, or potentially dangerous Hitler that may yet start another war and kill millions of innocents. This nation shall regard all such tyrants and their administration in any part of the world, as the enemies of freedom and free men everywhere.

5/ This nation is the avowed enemy of tyranny, fascism, monarchy, oligarchy, theocracy, and all other forms of narrow, or easy to corrupt government. It shall be a stated objective of this nation to struggle against, and bring about an end to, all these corrupt forms of government on earth.

6/ To make democracy, freedom, and rule of law into something fierce and frightening to the tyrants of the world, the Senate shall have the power to declare tyrants as odious rex. Thereupon, all the people of our nation shall be duty-bound to kill these people if they can get away with it. However the term odious rex shall only apply to tyrants, kings, monarchs, presidents, chancellors, czars, governors, prime ministers, and oligarchs, elected or not, hereditary or not, sovereign or figureheads, and ruling over any nation on earth.

7/ At some point, the Senate shall tighten our nation's definition of tyranny to include democracies more leveraged than 1-in-1-million. Later, the

standard for tyranny shall be tightened to democracies more leveraged than 1-in-100,000.

8/ Everyone in our nation shall be required to struggle to do what they can against tyranny, Ishtar, Arab parasitism, and the enemies of freedom. We Americans are 300 million from every race on earth. We are the ultimate infiltrators, and our people will come for all the world's tyrants and monarchs wherever they are. These men are advised to resign, confess and seek asylum on our island of Kauai. These are all hereby put on notice that the free people of the world will come for you unless you resign and confess all.

9/ The Senate shall reward those freedom lovers who take the shot and kill tyrants for the cause of democracy and freedom. These agents of freedom, and their families shall be given new identities housing, and up to 100-year's wages. They shall also be given the option of living on Kauai, America's witness protection, and foreign leader protection island. Search Kauai for more below.

10/ We shall drive worldwide change with regard to monarchy the same way California foolishly drove worldwide change with regard to vehicle emissions. We shall uphold very high standards for political purity and eliminate all forms of monarchic and oligarchic corruption.

11/ One of the greatest strengths of broad democracy stems from how there is less reliance on leaders, and how monarchies and oligarchies are many thousands of times more vulnerable to assassination than broad democracies. Thus we recognize that our democracy will prevail in a war of leadership assassination, and with much less carnage than in military war. Thus we shall regard assassination as one of the easiest and most direct ways for democracy to end tyranny, front-man-rule, and parasitism, and to greatly reduce war.

12/ Part of the American way is to work to make the entire world free of monarchs, and oligarchs. We shall do this by making everyone in the world afraid to be a monarch or oligarch or one of their helpers. The killing of all monarchs and oligarchs on earth shall be the #1, head and shoulders strategic, military and foreign policy objective of the land of the free.

13/ Assassination of leaders shall no longer be thought the shameful realm of the treacherous, but one of the greatest advantages of democracy.

14/ Everyone's primary duty to the cause of freedom and peace on earth include:

a/ Killing tyrants and front-man-rulers when they can.

b/ Treating tyrant killers has heroes of liberty.
c/ Helping tyrant killers to escape and hide.
d/ Offering tyrant killers and their families new lives and generous rewards.

15/ Our nation shall go out of its way to help others struggling to be free and democratic. Our nation stands ready to arm, aid, and advise emergent democracies so they may liberate themselves from those who rule over them by threat of arms.

16/ No public property, road, district, facility, or holiday, or fictional citizen in the land of the free shall contain the malignant and evil name of king, caesar, czar, emperor, lord, majesty, imperial, president, or any other name related to monarchy or dictatorship.

17/ The absence of democracy shall be seen by our nation as tyranny.

18/ No foreign leader shall be addressed by anyone serving in our government with any royal title or the words majesty, excellency, or highness, or similar foot-kissing words. Monarchy shall not be allowed to enter or leave our nation.

19/ No communication from our Senate to another nation shall be addressed to any individual but only to the people of that nation. People can however be named for attention.

20/ The Over-Senate shall establish the official name of all foreign nations. All such names shall be required to be accurate. The word democracy shall only be used for nations that are proper broad democracies with more representatives than 1-in-25,000 in their narrowest house. The word republic shall now be reserved for monarchies with tricky and illusionary systems of checks and balances.

NR'5. CITADEL RIGHTS

The people in democratic nations must have the right to:

1/ Safely say, watch, read about, listen to, and print what they like, so their democracy can make informed decisions.

2/ Bear arms, and defend themselves against criminals, foreign invaders, and those in their own government who might forcibly seize power.

3/ Assemble, organize and if necessary re-institute their government.

4/ Kill tyrants that rule over them by force of arms.

5/ If a democracy lacks any one of the 4 things above, the democracy may be doomed to failure. Therefore, these first 4 rights shall be considered citadel rights, rights that lie at the core of this constitution. These rights shall never be infringed

upon to preserve any other right, public or private. Come terrible events as they may, we shall never compromise these citadel rights in any way.

6/ Additional safeguards may be added to our citadel rights, and existing safeguards may be improved, But the citadel rights herein shall not be substantially diminished or diluted without instituting an entirely new constitution.

7/ Those people in or out of the Senate, the military and the Government, those who attempt to undermine our citadel rights, these people all risk being charged with capital democide.

B – OTHER CORE RIGHTS

NR'6. NETWORKS AND ANONYMITY

1/ Because it is vastly less expensive to provide network access that real world infrastructure, government shall provide a reasonable amount of network access for free. And because Government is providing free network, there will be no need to for anyone's identity information, and none shall be collected.

2/ If people can say things anonymously and without fear, the group mind will get more ideas, more crazy ideas, more good ideas, more crime tips,

3/ If we do a cost/benefit table for totally-tracked vs. totally-untracked internet, we will find that all the costs are hugely important free-speech or intelligence of the group mind sorts of things, and all the benefits of a totally tracked internet can be gotten around by determined bad guys anyway.

4/ Interface device anonymity is one of the most important aspects of free speech in a modern world with a searchable internet. Government must allow, support and help preserve anonymity in internet access and internet interface devices. Government shall make no law requiring verification of identity to access the internet, or to send and receive electronic messages or streams. Government shall also protect the people from business practices that unnecessarily require verification of identity to access network services.

5/ Neither Government nor anyone else shall mark the people with biomarkers, chips, or tattoos without their consent.

6/ No payment platform or identity verification system shall be allowed to use any chips implanted in the body.

7/ Police and communication service providers shall not snoop on the verbal or text communications of the people without a warrant for each person snooped on.

8/ It shall be a crime when fictional citizens keep, aggregate, or share dossiers on their customer's lives outside of their relationship with their customer.

9/ In general, the right of the people to anonymity shall trump the right of network companies to gather data about users. When in doubt, the rights of the people to anonymity shall prevail.

10/ All web browsers shall permit the full elimination of all local user data from the browser bar with one click. After 2024.01.01, all new devices with a software browser must also have a hardware web browser installed.

11/ No operating system or web browser shall allow one website to know which other websites a user visited. All cookie data files, if any, shall be site specific.

12/ It shall be illegal to traffic in cookie data, or other forms of gleaned and implicitly non-consensual customer data.

13/ All consumer web information services shall permit the full removal of all account data except in old backups of the website.

14/ We shall not have situations where only determined people can stay anonymous and normal people are always generally knowable. This is an invitation for crime and other trouble. Also anonymous social media accounts definitely present a problem with democracy. Therefore, we shall say that all new bank accounts, financial accounts, phone numbers, emails, website hosting, website IP, domain registration, web services accounts, and social media accounts must verify user identity at a police station annually for all accounts at once. This will greatly reduce web crime and foreign meddling in our elections and our society.

15/ All communications accounts shall have a settings button for either verified users only, or everyone. If a non-verified user tries to communicate with a user that only wants verified users communicating with them, the message will get returned as "verified users only" and postage shall still be due.

16/ Destination URL's shall not be hidden, shortened, or truncated by any link. They may however be changed to a link button that displays the destination address with a mouseover.

17/ Government shall not require people to acknowledge or accept anything when visiting a website, as this is an increased opportunity for inserting code.

18/ Only open-source software shall be used for transaction systems, ratings systems, stock pricing systems, variable pricing systems, matching

systems, auction systems, tweeting systems, writing applications, email systems, ride-share assignment systems, pricing algorithms, and other things the Senate may elect to add.

19/ All verified personal email accounts must use the form Name-SurnameXXXXYR, with the XXXX being user selected available numbers, and the YR being the person's birth year. All confirmed Senators shall be able to use, and are supposed to use a Senate email addresses, and senate tweeting address, and Senate facebook in addition to their other accounts.

20/ It shall be a crime to offer the service of locating people except where there is a national court order or warrant, or the service is provided to a national police force, or to the military, or national or county tax house. Those who locate people, or reveal people in hiding that are subsequently killed or injured once found shall generally be deemed criminal accessories to those crimes.

21/ The people are supposed to pass along all plausible Sneaker-net messages and pass-along interface devices from stranger to stranger, sneaker-net style. When someone asks you to take a pass-along device, you are not supposed to look at them. Also, these used devices may already contain sneaker-net postings.

22/ To help hide our political thinkers, it shall be everyone's civic responsibility to:

a/ Download a great deal of political, economic, and historical media.

b/ Buy communication equipment on behalf of strangers when asked and given money.

c/ Pass-on all reasonable political ideas received via sneaker-net.

23/ Government shall discourage and tax centrally delivered computing and software where possible due to the strategic and defense vulnerability that such systems create, as well as the way these systems makes our intelligentsia more vulnerable to genocidal purges and acmecide.

24/ Government shall not help guarantee the confidentiality or intellectual property rights of any data service that is delivered in an unnecessarily centralized manner.

25/ The Senate shall run its own facebook, twittering, instagram and snapchat platforms with no more than one still-image ad displayed every 10 minutes. All the personal information displayed shall be government verified if the person chooses to display their information. All active Senators and confirmed Senators must display this information on their facebook homepage. All active duty military, military veterans, police, firemen, EMS, doctors,

nurses, and other healthcare people shall have their occupation displayed on their facebook homepage unless they elect not to display.

26/ The targeted advertising aspect of our economy, including voice and email belongs mostly to the people, not to fictional citizens. Where fictional citizens have market power and can extract money from targeted advertising, that may be taxed at rates higher than with normal postage.

27/ Government shall not hack-into or take over any person's media accounts without a warrant. No warrant shall give Government the right to muddle, modify, scramble, delete, or destroy the words and data of the people.

28/ Government shall not spoof or impersonate citizens with a warrant issued by a Senate jury of 7, and as part of a felony investigation for non-political matters.

29/ Nobody shall ever take-over the personal network accounts of the people and assume their virtual identity. This creates a slippery slope that heads towards fabrication of evidence and fake narratives. It also significantly undermines the value of all network communication as evidence. Better we say that nobody shall ever be allowed to take over someone else's network accounts and pretend to be that person. This includes Government, the network service provider, and everyone else.

30/ If some information is a problem, and the law permits its removal, the sole remedy of both Government and network service providers shall be to remove or suspend the offending material or account and leave notice of removal or suspension in its place. This notice shall be required to declare the exact nature of the material that has been removed, and a detailed reason for its removal. The foregoing shall not apply to 2nd class free speech, but only 1st class free speech.

31/ Network companies shall be required to keep network histories for 11 months, However, these must all be destroyed by 13 months.

32/ Regarding systems where the people are rewarded or punished for their behavior, the following rules shall apply in all cases:

a/ All reward systems shall use a well described design that must be approved by the Senate in advance.

b/ All changes to the system must be approved by the Senate.

c/ The reward system must conform to the Senate's design guidelines.

d/ There shall be no reward or punishments without due process. This due process must be

administered by either randomly assigned public arbitration, or the courts.

e/ Nobody shall be allowed to reward or punish people for what they say or don't say because this is at best censorship through taxation. It also fosters echo-chambers and feedback-bubbles that result in catastrophic mistakes for everyone. We must all know what the truth is, and nobody should be able to corrupt our decision making system by corrupting our knowledge of what the truth is.

f/ We in the land of the free welcome new ideas and dissenting ideas, even unpopular ideas. Neither Government, nor any fictional citizen shall do anything to discourage free speech, including micro-taxes, and micro-demerits.

g/ There is no right to track people, either geographically, or how they spend their money. Nobody wants this, and it is civil-defense dangerous.

h/ There shall be no system where the people are penalized or rewarded in any way for what they choose to read, view, watch, write, or say, or who they associate with.

33/ Credit rating systems of the people may take into consideration late payments, non-payments, default judgements, court judgements, existing debt and assets, employment history, education history, real property owned, recorded leases, alcohol licenses, drug licenses, and criminal convictions.

34/ No rating system of people shall take into account a person's voting history, communication history, viewing history, travel history, purchasing history, purchasing habits, energy use history, or friendship history.

35/ One's history of speaking out against government or anyone else, or opposing government or anyone else, protesting government shall never be a consideration in any rating system score.

36/ A person's health information, dating history, drug use history, porn history, and prostitution history shall be private unless shown-to, or shared with others. Spouses automatically get to see this information.

37/ No rating system of people shall have corrupt practices like:

a/ Buying a higher score for a payment.

b/ Scores that go up or down depending on one's associations or activities

c/ Score penalties for those who opt out of showing their data.

38/ No rating system score shall ever be a condition for access to government services or business services.

39/ All rating systems of the people shall always be free, and there shall never be any cost for subjects in using the system. Each county recorder shall charge 30-minutes per personal financial reputation query it runs. This is supposed to fund the system. Showing health information shall be self-service and free.

40/ The recorder system shall make an emulator app that allows one to forge the entire data access experience so that people can easily fake any recorder data for third parties. Thus nobody knows what the truth is. This is to devalue screen captures.

41/ All existing credit reporting data shall now be nationalized or rather co-owned by government now. The national government shall now sell access to this data.

42/ There shall be 10 levels of security, and other secure zones for everyone's personal data held by the recorder's office:

Level-9 = Not shared.

Level-8 = Information only shared with government.

Level-7 = Creditors, financial institutions, and employer's information.

Level-6 = Air transport, immigration information

Level-5 = Credit cards and customer relationship info.

Level-4 = Invitation for contact by any means, including one's physical address.

Level-3 = Invitation for contact by any means, not including one's physical address.

Level-2 = Email address + email invitation.

Level-1 = Email address + sender must pay postage.

Level-0 = On second thought, not interested.

Med-1 = Public medical.

Med-2 = Private medical

Pharma = Drug history.

Edu-1 = Public edu files

Edu-2 = Private edu files

Drug = Substance use including alcohol and tobacco.

Work = Work history and work related ratings.

Fin = Financial.

Live = Residential history

Fam = Family relations and marriages

Realty = Property owned

NR'7. ELECTRONICS

1/ The Senate shall ensure that computers, data, search, and the computerized expansion of our minds do not aid or spy for tyranny, or otherwise sabotage our ability to defend our freedoms. The Senate shall certify all electronic devices and

software as spy-free. The Senate shall do this primarily by offering generous rewards those who find electronic security vulnerabilities that everyone else missed.

2/ The Senate shall assure that hardware and software are not spying for our enemies, or offering an opportunity for sabotage. This shall be considered a vital aspect of both national defense and our first and foremost right to safe and anonymous free speech. The rights of technology manufacturers shall be secondary to these primary rights of the people. The Senate may compel manufacturers of hardware or to share accurate and concise design information with it. The Senate shall require that all software widely distributed in this nation, or used in by government, be given to the Senate in un-compiled form for inspection. If the Senate elects that the interest of the people is best served by making this uncompiled software public domain, it may do so, especially when the software has expired intellectual property rights.

3/ All computer operating systems network browsers and widely used software shall be open source and available in to the people in un-compiled versions approved by the Senate.

4/ No software application franchise shall live for more than 17 years.

5/ Neither Government nor anyone else shall require that the people put anything at all inside their body. This shall include ID chips, electronics, drugs, inorganic substances, organic substances, harmless markers, vaccines, natural or modified DNA, RNA, or other genetic or cellular material, or bio-engineered anything. However this shall not apply to people who have been justly imprisoned, interred, isolated, or are awaiting trial for a felony. Also, worn electronics and location trackers may be required on military bases, in prisons, jails, and work camps, in foreign worker zones, ports, industrial or warehousing zones, and secure government facilities, and by Non-citizens and immigrant citizens in other parts of our nation.

6/ The FDA must study and approve all head mounted and head positioned technology for possible brain damage from all forms of radiation. All potential harm must be disclosed to the public.

7/ All electronic communication access providers shall be required to treat all content equally. None shall be allowed to favor or discriminate against, or throttle

other providers, or provide any of their own content at faster speeds, or throttle the speed of heavy users, or be affiliated with content providers, or

block websites, or filter content.

8/ Internet and telephony services shall not be run by the public to maximize revenue, but to cause as many people as possible to communicate virtually, rather than going on the roads and using real-world infrastructure. Thus they will cost society one to two orders of magnitude less to accommodate.

9/ The Senate shall impose standards requiring that all communication devices work on all networks.

10/ There shall be no right to recording privacy while teaching our children, or preaching to anyone. All schools and day care of children are subject to both open and secret recording outside of bathrooms and locker rooms.

11/ Those illegally recording suspected crimes shall suffer no penalty for bringing their recording forward to the public prosecutor as evidence.

12/ Recordings of police and government activity by citizens in public shall generally be admissible as evidence. However, there shall be strict limits on the admissibility of government recordings of the people, particularly in their homes and workplaces.

13/ Those people attempting to photograph or record others shall not have the right to follow their subjects around like stalkers or paparazzi, or show

up at their home or workplace, or ambush them where at their hangouts. There shall also be no right to publish photos and recordings obtained through stalking unless they are evidence of criminal activity.

14/ There shall be no right to follow firemen, EMS, and ambulances around recording their activities.

15/ The people shall generally be free to record one-another as background without consent in places generally open to public visitors. However, they shall generally not be free to sell, buy, share, or post these recordings without consent or without blurring out their faces and other distinctive and telling aspects of their appearance. This however shall not apply to government workers doing their task.

16/ In matters of bribery, corruption and democide, as well as violent crime and people physically harmed by another or by a fictional citizen, all recordings shall generally be admissible in court.

17/ When members of the public log in and communicate with government workers, via the public interface system, they shall pay about twice or three times their pro-rata share for each worker's salary.

C — VOTING & CORRUPTION

NR'16. VOTING DAY

1/ The people shall not be taxed, charged, burdened, impeded, interfered-with, or intimidated in any way when they vote. It shall be a primary duty of a democracy to defend the people from all of these things.

2/ Those committing or threatening election violence, or trying to keep people from going to the voting place may be shot and killed by the people and it shall be considered self-defense.

3/ There shall be no wealth or property requirements for voting. If there are education requirements, they shall be uniform for all citizens, and they shall exclude no more than 20% of the electorate.

4/ The children of immigrants may be prohibited from voting if they are unable to speak the national language properly because they grew up in a sequestered foreign-language community.

5/ All elected Sub-Senators shall serve as their Nome's vote registrar. At the county level, randomly drawn Senators on judicial duty shall manage and judge the voter registration process. Citizens shall send duplicate registration applications to both nation, county and Nome.

6/ When voters line up to vote, they shall display their national passport, national ID, or national voter registration photo ID card on the upper half of their

chest, uncovered, and in plain view.

7/ Under this constitution, everyone in our nation including visitors and non-immigrant workers must attend the election unless they are either physically unable, or working in essential or emergency services. Everyone must attend the vote, but nobody shall be required to vote. And many are not allowed to cast a vote.

8/ People may attend the election with other names in other parts of the nation and cast video ballots for their home nome. For this, people go to the polling place 60-90 minutes early and walk before all the vote monitors, wearing their name, their nome number, the candidates name, and the Sub-Senator's contact email printed on paper. Then the monitors send absentee voter messages to their colleagues around the nation in the time before the election. Thus we have fast absentee voting that gets settled before the actual election begins. Those who are outside the nation on election day shall not participate in the election unless they active duty military or embassy staff.

9/ People from each Nome will probably always have an easier time getting elected than outsiders. However, people shall be allowed to join cross-town Nomes to run for the Sub-Senate in that Nome. Those who are clearly Senate "material" and do not want to move may want to do this.

10/ Some people will want to go to poor nations to run for Senate there. When learned people do this, you should be a sliver biased in favor of them until they are at least 3% of your Senators. Then be completely unbiased. Also, when people go to a poor place to run, it should be seen as similar to joining the Peace Corps. This going to poorer parts of the world should never be seen in any way as cheating, or less than Senate service at home.

11/ Those working in essential or emergency services and those who are sick or old. may vote by video selfie-statement sent to the standing Sub-Senator of their Nome. These shall be played for all to see at the vote count, and shall be just as valid as a person lined up to vote. Those who are sick or old must also submit a medical certificate to vote by video.

12/ All standing Sub-Senators must attend the vote in the Nome that elected them unless they are ill and have a doctor's certificate.

13/ Special care shall be taken to make sure that when the people elect their Sub-Senators, all votes are accurately counted, openly reported, and widely recorded. There should be at least 6 high-quality, audio-video recordings of each Nome's election.

Neither government nor anyone else shall aggregate information about who people vote for. This shall be considered the crime of election fraud.

14/ It should be considered disgraceful to vote while intoxicated, although it shall not be prohibited.

15/ Except in the mustering election, the standing Sub-Senator (who cannot run due to term limits) shall officiate the election at his Nome. He shall call people to line up and vote. He shall give the 5-minute warning where he says: "I call the vote where we elect our leaders, all line up, 5-minute warning". Then he shall do the same at 4 minutes, 3-minute warning etc. Then he shall call the Nome's vote closed.

16/ To get the most out of this democracy, everyone must vote for the smartest people and they must ignore "identity". They must ignore race, religion, ethnic background, economic background, non-government educational certifications, etc. They must all vote for the smartest and hardest working public servants. We are hiring this super property manager for our community, and we all want the person that will do the job best.

17/ Nomes that have less than 1-in-3 voter participation among voting age citizens shall be considered as lacking quorum, and shall not have the right to elect a Sub-Senator. The Sub-Senate may shift this ratio between 1-in-4 voters and 1-in-2 voters with a 2/3 over-majority vote.

18/ Each county recorder shall send each resident 3 emails prior to each regular election. One email is 60-days prior, one 10 days prior, and one the morning of election day. This email contains the person's name and whether they are OK to vote as far as the county is concerned. The 60-day notice is mostly to clear up registration problems. The 10 day is mostly a reminder to get informed. And the election day email is a reminder to voting. These go out to everyone's must check email address discussed elsewhere herein.

19/ Only citizens eligible to vote shall be given voter ID numbers. There shall be no voting by non-citizens, people who cannot prove their citizenship, or convicted felons. Those caught doing do will go to prison work camp for years. Foreigners and felons voting in our elections automatically get 8 years at hard labor on the first offense.

20/ In order to vote, everyone must provide their voter registration number, their thumbprint, their signature, and have their photo and or video taken once government infrastructure exists for this. They must also show a government ID card or account.

21/ All election and ballot material shall be in the

languages of our nation, English and Euemi. No other languages except English and Euemi may be used in our nation's election material or ballots.

22/ If paper ballots are used, the voter must use a rainbow colored pen of varied thickness, and handwriting to enter the ballot number, precinct number, precinct address, and candidate name(s). Ballot systems that use printers shall be prohibited in our nation's elections because these make it easy to swap-out entire ballot boxes in moments.

23/ In order to make vote selling unverifiable in an age of ubiquitous micro cameras, everyone shall get two identical ballot cards with the same serial number. One is for the vote buyers and the other is for real. People who cast no ballot or cast both ballots get no vote.

24/ Voting by mail, early voting, late voting, and voting by paper ballots shall be prohibited in Sub-Senate elections. 25/ Where there are paper ballots, each ballot box shall stay put at the polling place under continuous community and multi-video monitoring. Everyone putting a ballot in the box shall be recorded. There shall be an identity verification system that verifies citizenship and the right to vote. The identity system shall also use voter numbers, fingerprints, photos, and face recognition tech. The people shall always have the right to monitor and record the their elections and the counting thereof. All counting shall be by a long line of people. Half shall be from that district, and half shall be randomly assigned. All voting must take place over no more than one hour to minimize voter fraud.

NR'17. POLITICAL PARTIES

1/ Political parties shall only exist for one issue only. These extra-democratic entities shall not have the power to drive the people into complete political platforms. Where aspects of a platform can be separated, they must be separated.

2/ No political party shall be allowed to collect money, spend money, or have depository accounts of any kind because this money will be spent on corrupting our democracy.

3/ Political parties may have a website, but they may not advertise, or publish anything on paper, or pay to broadcast anything, or send anything via paper mail, or organize the mass calling, or mass emailing of the public.

4/ No political party shall be given any role or power in our democracy, because that is allowing a corrupt non-democracy to have power in a democracy. Senators are not allowed to display or make-known their party affiliations in any way that is avoidable.

5/ The names of all political parties must accurately reflect the matter the party is organized to support. There shall be no all-inclusive political parties that have a single platform of blind obedience for all matters as this is a backdoor to our democracy.

6/ No political party, and no name of any political party shall live for more than 180 days, because to do this is to give the party Senator-like lasting power. After 180-days, the party's name and all contact accounts shall be abandoned for at least 10 years. Also all inbound communication shall be destroyed if it has not adapted to the new address.

7/ Government shall not give any power, money, benefits, or credence to any political party. This rule is to be strictly enforced.

8/ We shall not allow the dull-minded monotonous drone of political parties to drown out the evanescent lucid dream voices of those who would engineer a better approach.

9/ Our democracy shall view political parties as tools of corruption that are very hard to get rid of because they edge into first-and-foremost free speech rights. We all hate political parties and want to minimize them, but we recognize that it is largely folly to outlaw them.

10/ The people are advised that all things being equal, they should disfavor all political parties and all party allegiances, and vote against candidates with ties to a political party. Our democracy will work much better without extra-democratic political parties.

NR'18. ELECTION CAMPAIGNS

1/ It shall be everyone's presumption that the election process is broken if candidates are allowed to benefit in any way from spending money to get elected.

2/ It shall not cost anything to get elected to the Sub-Senate or to rise in the Senate. Again, the election process is broken if candidates can use money to sway the outcome. In all elections, we shall leave no place, no opportunity for money to have a role in the outcome.

3/ Again, it is not supposed to cost anything to get elected to the Sub-Senate. The election process is supposed to work entirely without money.

4/ All campaign contribution and gifts may now be considered as vote buying. Ordinary food and drink, and up to 2 alcoholic drinks, consumed onsite are exempt from the corruption laws. No seafood, no exotic meats, no expensive ingredients, no air-flown or special delivery ingredients.

5/ People are allowed to spend time helping

someone in their Nome to get elected. But they are not allowed to give money, or goods, or services for the candidate. They are not even allowed to bring food or beverages to the campaign office, or buy meals for fellow campaign workers.

6/ We shall totally banish money and exchanges from our elections. Except for water and single sheets of printed material, candidates shall not give or receive anything physical during their campaigning. There shall also be no restriction on exchanging computer files and other free things that are entirely virtual.

7/ Campaign promises under a system of secret voting should be seen as worthless. Therefore candidates are also not supposed to make any promises that are seen as empty. Once in office, Senators are not supposed to talk about how they will vote, or how they previously voted, let alone swapping votes.

8/ There shall be no campaigning by telephone, video-phone, voice mail, tree-mail, text message, paid advertising, or unattended signage. All campaigning is supposed to occur in the forum where neither side is competing unfairly or making it hard to run for office.

NR'19. CORRUPTION

1/ When government has any dealings with construction costs or real estate, the focus shall be on square meter pricing. This is one of the easiest ways for the people to control the cost of new projects. All Government activities must always be quantified and priced by the square meter. They must also be compared rigorously and constantly with like-kind projects by other jurisdictions. This is a main thing we can do to manage our government costs.

2/ Except for salary and benefits awarded by government, no government official, elected or otherwise, shall personally profit from their public office. Government officials shall not be allowed to grow substantially richer as a result of their service in office. All government officials that grow substantially richer while in public office, or shortly thereafter, must clearly explain exactly how it happen for the record.

3/ Government officials shall not use their public office to aid in matters that affect their personal finances, or those of their parents, children, spouse, siblings, and other close family members, or their business associates, financiers, friends, lovers, or supporters.

4/ No government official shall receive any non-

Senate gift, fee, gratuity, campaign contribution, consideration, pay, employment, wage, honorarium, emolument, loan, loan guarantee, loan forgiveness, over-payment, under-sale, option, air transportation, luxury or vacation area lodgings, bonus, tip or other things of value arising out of his public service or his decisions made therein. Except for close family, Senators cannot stay over in people's luxury homes when they travel, and must instead be housed in bottom 80% lodging. Or they can get their own undiscounted room on the open market. Senators can be driven to places (as a gift) in normal vehicles like busses taxis and normal automobiles, but not in fancy limousines, helicopters, or fancy vehicles. Senators are not supposed to be given things except virtual media, small thumb drives, pamphlets and the like. In urban areas, Senators are supposed to buy their own food, unless this is impractical and ordinary food is brought in and eaten buffet style.

5/ No Senator or other government officials shall be given or reimbursed for luxury transportation, luxury lodging, or luxury meals. Luxury shall be over the 80th percentile.

6/ No public office or franchise shall ever grant the right to keep the payments extracted from the people. Any time we see this, the money shall be presumed to be heading for theft.

7/ Except in times of annual price inflation over 20%, no Senate salary increase shall take effect until at least 10 teneths have passed.

8/ Government shall spend at least one per-mil of its budget on anti-corruption media and investigations. Half of this money shall be for government, and the other half for the private sector. Government agents shall attempt to entice people from both government and the public into corrupt practices under secret recording. Agents shall also audit the lifestyles of officials.

9/ Bribe paying and bribe offering shall be considered just as bad a crime as bribe taking. It shall be a felony to give or receive valuables or favors, including sexual favors for influencing or claiming to influence a member of the Senate or other member of government.

10/ Those who facilitate government services shall not be paid based on the outcome of their work, or as a percentage of the government benefits they obtain for their clients.

11/ In all branches, all government services to the public shall be monitored by an unrelated branch of government in round robin style with new random reassignments made at least annually. Investigations by the same department of

government should be automatically seen as worthless, and look like an attempted cover-up.

12/ Anti-corruption enforcement shall occur and be recognized in this nation at four levels: county government, national government, world government and private sector. The national Over-Senate shall however have the right to veto any UM corruption ruling with a 60% over-majority.

13/ Government shall compile detailed, time-efficient educational media on what constitutes corruption, and what does not for both government and all aspects of business. Everyone working in government or spending the money of others shall be required to complete the Senate's course and pass the 200 question common-sense "safety test" with a perfect 100% score. After this, we shall strictly enforce the rules of corruption and give lengthy jail times for significant acts of corruption.

14/ All Senators and government officials shall be required to live cash-free, and gift declared lives while serving and for at least 5 years thereafter. No person holding public office shall do business with government while in office, or for 4 years after leaving public office.

15/ Except in small towns, government appointees, and Senators on judicial duty, shall not know, meet or fraternize with the people they judge or administer on behalf of the people.

16/ Unless there is good reason, all government services shall be delivered via video. Where this is not practical, all government services shall be recorded by the recorder on video. This does not apply to Senators.

17/ Public auctions may be set aside if there were too few bidders, or obvious potential bidders were not notified.

18/ There shall be safe harbors, but the mere transaction of an excessively sweet deal with government made in a closed bidding or non-open-market scenario may in itself be sufficient proof of corruption.

19/ Unless it is currently in the hands of a great many flesh and blood people, property previously acquired from government for absurdly below market prices shall not have a valid claim to private ownership title.

20/ All grants from the previous corrupt democracy are subject to cancellation if considered as obtained from corruption, even if this occurred decades ago. This shall extend to grants of property, citizenship, immigration status, pardons, and grants of honor and grants of territory such as the US gift of the Panama Canal.

21/ All grants of honor ever given by government for acting, music, story telling, and athletics are hereby void and this nation shall be prohibited from granting honors for these activities in the future.

22/ All awards for media shall be forever tainted by how propaganda covering up Nazi concentration camps like Auschwitz was called the best film of 1942 by the Motion Picture Academy of America.

23/ All applications for government services shall go on a queue and the queue shall be open for everyone to view. No preferential queue treatment shall be given except where the Senate elects to prioritize certain types of application as a class.

24/ When queues are an allocation system. The rich should not be allowed to pay others to wait in line for them.

25/ Past Government grants or franchises secured by corruption may be set aside by the Senate and the assets nationalized. There shall be no limit on how long ago the transfer was if the current owner is an immortal fictional citizen.

26/ When public property is sold-off on the eve of a sharp rise in prices, or on the eve of when it is needed for some public use, that sale may be set aside and the transaction reversed.

27/ People should be afraid to buy large chunks of public property except from the government forum, in appropriately sized chunks of appropriate durations, and with a reasonable time period on the market.

28/ There shall be no statute of limitations with regard to clear cases of government and OPM corruption. The Senate can go back and aggressively punish and imprison officials for clearly corrupt and well witnessed acts committed decades before. This is so that we strike fear in the hearts of would-be corrupt officials going forward.

29/ Offering, paying, or taking money or other things of value for not revealing injurious information shall be considered the felony of blackmail. Contracts where people take money not to talk about some subject, and contracts where people assign the exclusive right to talk about some subject shall be unenforceable under this constitution.

30/ When people request, offer, receive, or pay money or other things of value for not bringing criminal charges, it shall be considered the felony of victim bribery. Individuals engaging in victim bribery, on either side, shall be punished in the same way that police bribery is punished.

31/ Everyone who has paid or received, or been a party to an act of victim bribery must make a complete statement to police within 180 days, or

they may be prosecuted for the crime of victim bribery. No prior victim bribery agreements from before this Constitution came into effect shall be binding under this Constitution. From now on, all recipients of victim bribes may keep everything previously paid to them and say anything they want.

32/ The only legal frequent customer benefit shall be an increased across-the-board discount rate on the future business of that customer. All other frequent customer rewards programs shall be prohibited as corrupt in travel, lodging, grocery, fossil fuels, banking, and financial transactions.

33/ We believe that a broad body of elected leaders is the least corrupt way for a free people to govern themselves. And while this is the best form of government, we still do not completely trust even this form of government.

34/ Tenure and lifelong appointment suggest loyal agents under someone else's thumb.

35/ Undercover police shall be allowed to pose as bribe payers or bribe seekers on hidden video. These may approach people in either government or industry.

36/ Our nation shall only give aid and aid money to those nations that:

a/ Are conforming broad democracies and members of the UM in good standing.

b/ Are unquestionably our allies.

c/ Obey UM reproductive policies.

37/ Government is not supposed to distract itself, and waste its attention on frivolous activities like parties, festivals, parades, celebrations, feasts, and athletic competitions. Where these events are permitted to occur on public property, government shall get a sales tax equal to 1/2 of the admission price if any, and 1/3 of concession sales revenue.

38/ All governments leak power. And the leaks will grow in size until we address them. So the moment we spot a power leak, we must plug it. This plugging is a first order sort of thing. So whenever corruption or economic parasitism is identified, measures must be taken to stop the leak in the ship of state.

Otherwise the whole ship might sink.

39/ All information on the assassinations of the Kennedys and all information pertaining to the COVID injection development shall be released forthwith in completely unredacted form. Anyone who further delays this release, or destroys information, or redacts, or makes excuses for not releasing all of the files in completely unredacted form shall go to prison for 20 years for censorship of the free public discourse.

40/ It shall be considered democide for government

officials to hide the identities, existence, or type of work that any government employee does from the Senate when this information is requested. No branch of government shall be exempt from this rule, including national police forces such as the FBI, CIA, NSA, and Secret Service and their successor organizations. All Branches of government shall entirely under the direction of the Senate. And all branches of government shall cooperate with the Senate or be treated as criminals conspiring to undermine our nation's proud democracy.

41/ The people declare the following as a warning to future generations, so it will be clearly remembered above all in this constitution: That unless the all-critical representation ratio is broader than 1-in-50,000 in its narrowest house, or that form of government is not a true democracy, but a form of oligarchy that can be corrupted and parasitized.

42/ The objectives, reasons, and means for all policy are supposed to be explained so people can more quickly see and declare that the group effort has veered off course as it normally does.

43/ The foregoing restrictions cost practically nothing, and are practically no inconvenience or dishonor for honest men.

NR'20. LITTLE GROUPS GET LITTLE POWER

1/ Two cornerstone principle of broad democracy are:

a/ That it is easier to corrupt small groups than large groups, and

b/ That it is easier to corrupt non-elected appointees than elected people. For this reason, small groups and appointees shall not be given much power in our government.

2/ This democracy shall never elect, or otherwise empower a single person or small group to handle anything but the smallest and most inconsequential matters. This democracy shall only use small groups to decide on matters that affect small groups, and matters concerning small amounts of money. For decisions affecting large groups, or large amounts of money, this government shall only rely on large groups. And for decisions affecting everyone, this government shall only use broad democracies.

3/ No position in government shall ever be indefinite, or for life, or inheritable. It shall be a capital offense for anyone to claim such a lifetime position, even if it is only for a tiny slice of the public's domain.

Hopefully this will put an end to the frontmen (for they are always frontmen) that claim powers to do unreasonable and counter-intuitive things with the

public purse — normally to the exclusive benefit of the Ishtarians that hoisted them up into power.

4/ Except for the Senate, the children, siblings, and parents of people who served in a long-term government positions shall always be disqualified from serving in the same position.

5/ Only people who were confirmed as Senators at least once in their life may be appointed to a position of power in government, or oversee more than say 500 staff, or an annual budget exceeding say 500 year's wages. This number will probably be reduced over time.

6/ All government job openings shall be publicly announced for a reasonable time.

7/ There shall be no central hiring administrations for multiple government departments.

8/ All candidates can be independently tested and evaluated by the Senate's testing administration.

9/ All government workers shall be subject to annual performance reviews, and comparison with peers.

All government employees shall be subject to evaluation by the people, and those the people judge as exceptionally problematic shall be terminated.

10/ Standards for pay and absenteeism in government employees shall be similar to those of the private sector.

11/ If a government official personally knows any people involved in a matter they have been assigned to judge or administer, they must recuse themselves. If the person being judged or administered is known by all potential judges/ administrators, then the least connected shall judge.

NR'21. VOTER BIASES

1/ Always vote for the smartest candidate based on the ideas expressed in the election forum. If nobody is saying anything remarkable in the forum, and you don't have any opinion one way or the other, then you can use Senate test scores.

2/ Never hold any consideration above how smart the candidate seems.

3/ When we vote for candidates based on extra-democratic educational credentials, we give our non-elected educational establishment the power to corrupt our democracy. Try not to respect educational credentials. Try to vote against candidates that talk about their extra-democratic credentials. To do otherwise is to hand our universities a back door to our democracy.

4/ We should not vote for candidates because of their sophisticated accent or verbal style. We should vote for the power of their ideas.

5/ When we give elevated status to the relatives and friends of great men, it is a step towards the evil of dynasty. For this reason, everyone should give a minor handicap to the relations of great men. Those that are great in themselves will easily overcome the minor handicap.

6/ Political parties, religions and other pre-packaged ideologies can be backdoors to democratic power. This Constitution advises the people to consider political party and strong church affiliation as a strongly negative factor.

7/ When we elect candidates because of how they stand on the issues, we won't have a democracy where our best and smartest are making our decisions for us. For this reason, campaigning should be more about being a smart and fair decision maker and pie slicer — and less about issues.

8/ This Constitution advises the people to vote against candidates that talk about the other candidates instead of what they want to do.

D — POLICE & JUSTICE

NR'22. POLICE SEARCHES

1/ The people shall have the right privacy with regard to their bodies, homes, vehicles, personal effects, papers, electronic devices, network data, and electronic transmissions. Government and network service providers shall not conduct searches, or seizures, or shut-downs of these places except upon probable cause or credible evidence, supported by a credible oath describing the place to be searched, the things being searched for, and why these things are thought to be at that place.

2/ If there is cause to demand a search without a warrant, then that cause and the category of thing being searched for, must be stated into the live AV record before the search, or the evidence shall be inadmissible.

3/ All searchers shall wear standard police cams. These shall have forward and 360° cams, and surround sound recording. The stream shall be remotely backed up live by the county recorder's office, not the police.

4/ All search dialogue, along with the location of the searcher's hands must be clearly and entirely documented for the search to be admissible. If these search rules are violated, the evidence discovered shall be inadmissible in court.

5/ The threat of search and arrest shall not be used to intimidate or abuse the people.

6/ In order for evidence from a voluntary search to be valid, the search request must end with the following words clearly stated into the live record. "Please listen carefully. This is a voluntary search. You are free to go if you do not wish to be searched. Do you consent to this voluntary search?" If the answer to the voluntary search request is no, then the police must say "thank you" and immediately walk away from the suspect unless he can be recorded committing a crime.

7/ The home, papers, and electronic devices of people arrested, as well as people legally crossing into this nation, shall not be searched without a search warrant.

8/ All break-down-the-door search or arrest warrants must be preceded by at least two loud police search warrant siren (A unique new international sound) so those inside will know that they are not crime victims. In general, strange people breaking down the doors to other people's homes without loud police sirens may be shot and it shall be considered self-defense even if they are uniform police officers shouting "police".

9/ Government shall have the right to inspect all premises offered for sale or rent, as well as all areas under construction but not under maintenance. Government shall have the right to inspect all property sold or rented within the prior 6 days.

10/ If a place is open to all comers, such as an unfenced yard, unlocked communal lobby, or shopping mall, then government people may enter as anyone else.

11/ Government shall have the right to inspect all people, property and goods crossing this nation's borders in either direction.

12/ Those people loitering on private residential property and unaccompanied by an owner or tenant of that property are subject to being questioned and searched by police when an owner or tenant of that property complains.

13/ The Senate may establish greatly different search rules for non-citizens.

14/ Where personal electronic devices are seized as evidence, police must give a copy of all files to the owner.

15/ Using police searches to harm rivals and critics shall be a crime.

16/ Each person listing their address with the county recorder must accept or change the photo of the outside of their premises, and the floor plan of their premises that comes up. This is mostly to aid EMS and fire response, but it will also make search warrants more idiot-proof. This photograph of the

premises must be displayed at the top of every search warrant with the address captioning the photograph. All search warrants must also show images of the people that are occupants and other associates to be arrested. This is in addition to images of the people that are occupants that are not being arrested. Where the photographs doesn't match the address numbers listed, police may search either addresses.

17/ When police conduct searches that are in the light gray area, the evidence gathered cannot be used in court. When police conduct searches that are in the dark gray area, the investigation shall be halted, and the prosecution stopped. When police conduct searches that are definitely wrong, all officers involved risk felony imprisonment.

18/ No warrant shall be valid unless issued by a randomly drawn Senate tribunal of 3, on the advice of up to three warrant specialist paralegals who cite other similar cases. All warrants and court orders must be shown immediately by police upon entry except when there is fighting. Only police officers may enter under a police warrant. No non-police may accompany police.

NR'23. POLICE USE OF FORCE

1/ There shall be a single national code of police conduct, just like there is a uniform building code. What can police do, and what can't they do? When can they search? When can they order people out of their cars? When can they pull a person out of their home against their will and arrest them? When can they take their guns out? When can they fire? This constitution calls for a precise and well known set of national rules for police conduct.

2/ There shall be no right to get money from the money court system for justifiable police firearm injuries. We do this to eliminate the the main incentive for police to kill when they could only injure, and also the main incentive for police organizations to cover-up firearm mis-use.

3/ When police use force, they shall minimize injury to both suspects and to the public. Police shall not shoot people with firearms unless it is necessary for their own safety or the safety of the people. Police shall not shoot to kill, or fire many shots in rapid succession unless it is necessary for their own safety, or the safety of the people. It is though that doing this will greatly reduce cases of suicide by attacking police.

4/ Police must use non-lethal weapons instead of lethal weapons where practical. The standard police response to non-compliant, semi-critical people with

blades, and clubs shall be to first shot them in the legs with mild, then very strong rock salt shells out of a shotgun if practical.

5/ Police shall not point or de-holster firearms without reasonable cause which includes hidden hands.

6/ Police may shoot those firing at them, those pointing an apparent firearm at them, those raising or turning or bringing an apparent firearm to point at them, and those in a firearm pointing stance directed at them. In all of these circumstances, the gunman may be shot, even if he is running away, or if he fails to throw the gun down in a way that police can see. Police shall also have broad rights to hold, draw and point firearms at those reaching for possible arms. Once a person has fired on police, the only safe position shall be hands up.

7/ Police shall be allowed to shoot people dead for immediately threatening others with firearms, blades, or clubs in hand, also those genuinely trying to run people over with a vehicle. Police shall be allowed broad latitude in taking down suspects attacking with without a weapon, and those who try to run from arrest. Police shall not be allowed much latitude in arresting non-violent people. Here, very little violence or injury should be tolerated.

8/ Police shall not shoot at fleeing suspects, unless the officer is reasonably certain that they have the right man, and the suspect is armed and used arms in the commission of a recent crime. This rule shall not apply on closed military bases.

9/ Uniformed police officers may order people to put their hands up for reasonable cause while it is determined whether they have hidden arms or not.

10/ Police shall not shoot or beat surrendering suspects, or suspects with their empty hands up.

11/ All police cars shall carry:

a/ A long-range scoped rifle capable of firing high-powered rounds that can penetrate vehicles and walls. and

b/ A shotgun loaded with 3 levels of rock salt, then 5 levels of shot and grain. These shall be color coded shall be violet, blue-green, green, yellow, yellow-orange, orange, red, burnt-red. All rounds are loaded in the same order for this type of police shotgun nationwide. Also there is a color LED that matches the round automatically.

12/ Police shall only carry approved police-only firearms with cams, location tech, horns, etc. The Senate shall elect nationwide standards for police firearms and rounds.

13/ All police and all carry weapons must use mirror-polished pure silver bullets or mirror-polished pure

aluminum bullets with the user's ID numbers on them. Lead bullets shall no longer be allowed for police or civilian carry.

14/ In high population density areas, police must refrain from firing unless absolutely necessary. Police are also expected to do the following where practical:

a/ Use longer more accurate guns so they can fire one shot instead of many.

b/ Use low grain hollow point aluminum bullets.

c/ Fire downward where practical so the shots die travel diagonally through the thicker floor, rather than the thinner wall.

15/ All police firearms and projectile weapons shall have video cameras, audio recording, time stamp, and gun horns that may be used to warn people of an imminent firearm discharge. In general, all police cam recordings of all police shootings shall be made available within 12 hours by the recorder's office.

The police department may add its commentary to the original video explaining what happened.

16/ Police shall not beat or torture people in jail or in interrogation. When police intentionally harm suspects, they should be charged with assault whether the suspect is guilty or not. Also, great police abuse for minor crimes should normally get the charges dropped. And where the police abuse was minor, it should result in shorter incarcerations.

17/ Police shall not injure, abuse, neglect, intimidate, or humiliate suspects whom the law always presumes to be innocent until proven guilty.

18/ Police shall not use excessive, or unnecessarily humiliating force to arrest people. Nor shall they demean, intimidate, threaten, provoke, or goad the people without good reason.

19/ Police shall not knock people over, or slam them on a surface, or tackle them unless they are combative or believed to have a weapon. Police shall not touch the necks of suspects or keep them from breathing or gouge the eyes of suspects except during the most extreme of circumstances.

20/ Police shall not strike or injure suspects as a way of subduing, but only in defense. Police shall not force non-violent people to lie on a surface without a legitimate reason being stated into record as to why this is necessary.

21/ Unless a suspect has threatened police officers with a weapon, or attempted to strike officers with blows, or wrestled with officers, police shall not strike suspects on the head, face, neck, throat or genitals, or grasp suspects by the neck.

22/ Police shall not carry any undeclared weapons of any sort. Police and their vehicles shall be

regularly searched by the Sub-Senate for extra weapons and potential contraband for planting on people.

23/ Police may carry batons. However, batons shall not be longer than 50cm or have points, and shall not be used on the head, face, collar, belly or genitals of a suspect unless the only other alternative is to use a firearm.

24/ The Senate shall establish reasonable minimum physical strength standards for field police officers.

25/ Police work in an armed nation is dangerous and frequently involves split-second, life-or-death decisions. We shall all bear in mind that the those doing this work are fallible humans that sometimes make mistakes. We shall all try to give our police the benefit of the doubt for their infrequent mistakes, particularly those that occur in heated situations.

26/ Every arrest injury claim shall be fully recorded and investigated by at least three Sub-Senators.

27/ Police shall be given reasonable leeway in their efforts to arrest non-compliant suspects, particularly strong ones. However police shall have almost no leeway at all with any injury to weak, frail and old people.

28/ Police shall not be permitted to investigate other police with regard to police misconduct. In general, no arm of government may investigate itself with regard to its alleged crimes. This shall be especially so for police officers and those accused of government abuse or government corruption.

29/ The police internal affairs department shall only discipline officers for minor violations of police conduct. Police shall be hired, disciplined and fired by the most local Centi-Nome they are assigned to work under. At 1 officer per 500 people, this is approximately 100 police officers per Centi-Nome. The assigned Centi-Nomes shall decide on all major violations of police code.

30/ All police shall be well trained in how not to cause serious injury while arresting suspects. If an arrest injury involves broken bones or torn ligaments, or joint injuries, the county must do imaging and the files sent to a randomly selected diagnostician from more than 300km away. Police who are judged to have intentionally broken a suspect's bones, or intentionally torn their ligaments, or dislocated a joint, or who intentionally cause brain or organ trauma, or who beat handcuffed or restrained suspects shall be subject to criminal charges of assault. Also, police that are judged as too rough with their arrests over time may be forced to find other work by the supervisory Centi-Nome they are assigned to.

NR'24. POLICE STOPS AND ARRESTS

1/ Nobody shall be arrested or jailed without reasonable cause. Reasonable cause shall require sworn accusation by an identified and credible witness, or other credible evidence.

2/ So long as suspects being arrested for nonviolent crimes do not appear about to flee, and remain reasonably non-combative, they shall be allowed at least 120 seconds to put their hands behind their back for handcuffing upon the statement that they are under arrest.

3/ Elders, and children, and non-violent suspects who do not run away, shall not be knocked down, or forced to lie upon or against any surface. Also walking away from an officer shall not be considered running away until the officer both says that the person is under arrest and the officer grabs hold of the person. Police shall not generally handcuff cooperative non-violent people under arrest that are under age 10 or over age 68. Pre-puberty children and elders over 65 shall be handcuffed hands in front unless they are exceptionally large or strong, or are combative.

4/ It shall be a crime for police to engage in intentionally violent arrests, or to use violent or abusive arrests as a means of enforcement when convictions are no possible or not practical. It shall be a crime for police to strike non-violent people, even people resisting arrest or running away.

5/ No person shall be held under arrest uncharged for more than 48 hours, except on the majority approval of a 3-man Senate jury, in which case they may be held uncharged for no more than 5-days.

6/ People acting calm and sober when they are arrested shall not be required to give a drop of blood via finger-prick. However, those acting like an addict shall be required to give up to two drops of blood via finger-prick. If both of the two finger pricks come back positive for addictive drugs, and the person lacks the appropriate drug license, this shall almost guarantee 5-days in custody, where the addict is sent to an addiction detox camp. Those who are sent for detox more than once in their life shall have the words "Repeat <drug-name> addict" on the most public layer of their identity documentation for 3-years after their last drug detox.

7/ All accused shall be considered innocent until proven guilty by due process of the law. Those who are in jail awaiting trial without any prior felony convictions shall not be deprived of their handheld communication devices provided these are less than 32cm diagonally. All transmissions by people in jail shall be monitored and all communication shall be

admissible in court. Wireless chargers shall be provided by the jails.

8/ Police may briefly stop people and ask reasonable questions on camera where they state a reasonable suspicion of a crime into the record, or where they observe strange behavior, or where they hear a foreign accent. The police shall be free to profile people based on foreign accent, and apparent national origin.

9/ The only means for compelling a person to visit a police station or court house are arrest or subpoena. Without one of these two, a person does not have to visit a police station or court. Also, when police ask people to come to the police station voluntarily, they must clearly state that they are making a request on two occasions. Otherwise they can be charged with illegal arrest if there is not enough evidence to arrest.

10/ If police use irritant spray on people who are clearly not threatening anyone, they automatically get fired and may be required to spend up to 3-months in work camp for each count.

11/ Police shall be expected to be experts in what is illegal conduct for the people as well as for police. When police are acting outside their mandate, when they are exceeding the authority of police, they shall have none of the special protections normally given to police. Also, when police exceed their mandate by a wide margin they may be fired or even jailed.

12/ We call to attention to Robert Peel's fifth policing principal: "...by constantly demonstrating absolute impartial service to law, in complete independence of policy and without regard to the justice or injustice of the... individual laws". This line shall hereby be stigmatized as propaganda. Instead we shall say that police shall not enforce laws and directives that are clearly insane, stupid, or unconstitutional. Also, police may at times be held accountable for enforcing laws that are obviously, insane, stupid, or unconstitutional especially when they harm peaceful people. These limitations on police behavior are important because they gets at the crux of government's ability to severely malfunction.

13/ The penalty for insulting or taunting an officer may be up to 120 hours of community service. Threatening an officer shall have higher penalties.

14/ When people are arrested in situations with many concerned people around, both the other people, and the person being arrested shall have the right to know what the arrest was for. This is because it is best that the potential witnesses know the charges as quickly as possible.

15/ Police can question people if they repeatedly

spend time together with a charged suspect at the same place, or if they repeatedly travel together in the same vehicles, or were found by police together in the same private address, or same private vehicle.

16/ No interrogation shall occur unless recorded in high definition and in a high quality electronic format after a recorded declaration of recording. No statement given to police shall be valid unless recorded on high quality audio video after a recorded declaration of recording. Except upon consent of a Senate jury, no accused shall be interrogated for more than 6 hours in each 24 hours.

17/ Nobody shall be required to make a statement upon arrest. Everyone shall have the right to consult the law library and legal experts to consider how to respond to questions or charges against them.

18/ All foreigners that do not speak our language shall have the right to make arrest statements in their own language.

19/ When the people act in good faith as police and detain those that are later either arrested by police, or considered for felony charges, or the detaining people are forgiven by the Senate, the detaining people shall suffer no criminal charges for their public service provided the person so detained is not physically abused by the detention.

20/ Those who take reasonable measures in life or death situations shall generally suffer no penalty if they accidentally injure someone. Those who take reasonable, limited, and apparently clear shots against active shooters shall generally suffer no penalty if they accidentally harm a third party.

21/ Normally where there is violence or crime, or a threat of this, and people can't or don't want to intervene, they should start recording. It shall be a crime to interfere with members of the public recording crimes or situations that might be crimes.

22/ Non-police intervening bystanders trying to stop a fleeing shoplifter, or thief or batterer or any sort of felon may grab, hold, trip, tackle, restrain, and tie-up that criminal to detain them pending police arrival. Intervening bystanders may also upon command to stop fleeing pending arrival of the police and threat of violence, either strike the fleeing shoplifter or felon with their hands and fists, or with a club to keep the suspect from leaving. However, intervening bystanders shall not strike the fleeing person on the head, neck, abdomen, genitals, knees, elbows, feet, Achilles tendon, or spine. Intervening bystanders shall also not strike a person who stops upon command to wait for the police. Also, intervening bystanders shall not bend the fleeing person in a

way as to cause tendon, cartilage or ligament / damage, or to break any bones. Also, intervening bystanders shall not strike the fleeing person against any surface.

23/ Once a suspect goes submissive, if any bystander strikes him, or even slaps him, then the bystander may be charged with assault, even if the suspect is guilty. And if the suspect is innocent, then they bystander can certainly can be charged with assault.

24/ Those who harm intervening bystanders trying to break up a fight or stop a fleeing felon shall easily be charged with assault, in addition to the other crimes they committed.

25/ Bystanders may be arrested and jailed for any of the following:

a/ Attempting to impede an officer in physical pursuit of a suspect.

b/ Being part of a crowd that is menacing an officer making an arrest.

c/ Entering an arresting officer's security space of 6 paces while he is making an arrest. Once a person becomes aware of the arrest they must back up to 6 paces, unless they are unable to do this due to physical obstructions or a wall of people.

26/ Anyone beating or harming another person, or struggling with a police officer can be tased by police or by bystanders.

27/ People who are having fist fights or who are smashing up a place, or threatening others with real weapons, and those who are stealing, or worse may be tased by either police or by bystanders. People who are down or not a threat to police shall not be tased or re-tased by police.

NR'25. PRE-TRIAL LOCKUP AND RELEASE

1/ The justice system shall not use money deposits to guarantee that those released from jail pending trial will return for trial. This is because:

a/ Money bail is an ineffective way to guarantee that people will return for trial because many people will give up everything to stay out of prison. These people frequently "jump bail", and run away despite their deposit payment.

b/ Bail often falls heaviest on the poor because their payments are a larger share of their income, and they often can't "make bail".

c/ Bail fines everyone guilty and innocent alike, just for being arrested. This is due to the 10% charges that are normal for bail bonds. Thus merely being arrested tends to cost people 10% of the bail amount if they are not going to be forced to sit in jail awaiting trial. So bail amounts to a fine of the

innocent as well as the guilty — and this flatly contradicts Blackstone's ratio.

d/ Because just getting arrested costs money, the bail system gives police and prosecutors a power that they should not have over people.

2/ When people fail to appear in court, the penalty will be increased by somewhere between 10% and 300%. This approach is better than money bail for assuring that people will return for trial. The failure to appear penalties shall be:

a/ Over a day = 10% extra sentence.

b/ Over 7 days = 30% extra sentence.

c/ Over 36.5 days = 50% extra sentence.

d/ Over a year = 150% extra sentence.

e/ Over 3-years = 200% extra sentence.

f/ Over 7-years = 300% extra sentence.

3/ Except for failing to appear at one's trial, secondary crimes shall generally not increase the penalty for the primary crime by more than one third.

4/ Blackstone's ratio says that "it is better that ten guilty persons escape punishment than that one innocent suffer." We shall be mindful of how Blackstone's formula applies to pre-trial incarceration. We must treat arrested, but not convicted people as innocent. And we cannot lock people up pre-trial, except where they are almost certainly guilty, or they are a run-away risk, or they are too dangerous to allow in public. There shall be no right to stay free pending trial when any of the following apply:

a/ The accused has ever previously jumped bail, or failed to appear in court as scheduled and did not make amends to the system for this.

b/ The accused is reasonably considered a flight risk, a risk to the community, a risk to his accusers, a risk to witnesses, or a risk to himself. Also, as we will be securing our borders much better in both directions, and the UM nations will be cooperating with regard to international travel and travel-frozen identities, there will be less risk of people fleeing the country to avoid prosecution.

c/ The accused is almost certainly guilty of committing a violent felony due to a clear and hard to forge recording, or the testimony of 2 or more unrelated bystander witnesses, or 3 or more related witnesses.

d/ The accused was found with matching blood upon him, or found with the stolen property of a violent assault victim.

e/ The accused slipped into our country illegally, for surely he can also slip out again to avoid prison. The bar for pre-trial release shall be higher for non-citizens.

f/ The accused is a convicted felon. Once a person has been convicted of a felony, and jailed for more than 7 years in total (or work camped for more than 14 years in total) the presumption shall always be one of guilt for subsequent charges.

g/ The accused is already out on bail awaiting trial for another unrelated crime.

5/ People released from jail pending trial may be required to both remain in a prescribed location and wear location monitoring tech. Those who foil this tech shall lose their right to remain out of while their trial proceeds.

6/ It shall be a felony when convicted felons, particularly those with ties to organized crime and crime gangs post bail, or pay the legal expenses of others, either directly or indirectly, and this shall include participating-in or organizing group funding of bail. Everyone contributing to a bail fund must do so in their own name.

7/ There shall be no pre-trial arrests or incarceration for crimes of the justice system, such as lying to investigators, perjury, resisting arrest, failure to appear, contempt of court, or interfering with an officer. If we fail to prohibit this, we give police, prosecutors, and their political party allies a power that they should not have over the people.

8/ There shall be no pre-trial lock-up or for:

a/ Crimes that have not resulted in any convictions in the prior 180-days. or

b/ Crimes that go anywhere near matters of free speech, free press, journalism, whistleblowing, military whistleblowing, government dissent, government secrets, protest, or organizing the people. When government power is used to contravene this exclusion, the penalty should be years in prison.

9/ All foreigners that are arrested shall be checked for warrants and prior convictions in our nation and their own, as well as any nation they recently visited.

10/ The penalty for those caught trying to slip out of the nation to avoid its criminal justice system shall be an automatic tripling of the sentence.

11/ Those people who can not or will not identify themselves to police as citizens may be considered as non-citizens. These may be held uncharged for up to 30 days.

12/ Foreigners presenting other people's identity documents or forged identity documents to our nation's police and border security people shall spend 6-years in work camp upon conviction.

13/ Those denied the right to remain free pending trial shall have the right to be brought to gather evidence upon probable claim.

14/ Witnesses shall never be arrested to assure their attendance in legal proceedings. This practice is terrible because it greatly reduces the number of people who will come forward as witnesses.

However, if a subpoenaed witness fails to appear, that shall be a crime.

15/ The flight risk aspect of being released pending charges will be diminished now that we are eliminating cash and fungibles.

16/ Recorded ID verified leases and stay agreements will also be a defense for landlords against being charged with harboring a fleeing felon, supplying the site for an illegal drug lab, and other illegal activity. He who notifies and sends a picture of his tenants shall not be considered as a harbinger unless proven otherwise. This lets police know where everyone lives, especially the people who are hiding from the police.

17/ Those in charge of the justice system shall not have the power to silence and sequester people to keep them quiet. Each person held in jail awaiting trial shall have the right to communicate with the outside world under monitoring unless they intimidate people, or organize criminal activity. This right shall not exist where the crime was an act of shocking terroristic violence.

18/ Except in matters of public intoxication, where all the intoxicated people of each sex are held in the same cell, everyone who is jailed pending trial shall have the right to solitary confinement and 24-hour pre-trial monitoring or not if they elect. People under lockup may also pay for an apartment rented for no more than 20% over the market rate. Everyone under pre-trial lockup shall have access to their telephone communication, email, presentation software, data storage, data output, the law library, relevant arrest records and incarceration videos. All of this monitored communication shall be admissible as evidence in court for both sides. If the arrested person uses his communication infrastructure to threaten or intimidate others, the arrested person shall lose the right to use the pre-trial communication infrastructure.

19/ All laws shall be numbered, indexed and linked to both brief and lengthy explanations. All charges and arrests shall precisely indicate which numbered sections were violated, along with the prosecution's case in its entirety.

20/ Unless there is a significant logical and stated risk of asset disposal or further crime, the accused shall not be deprived of their property, occupation or status unless and until their crime is proven in court. This rule shall apply for both government and for

fictional citizens, and neither shall deprive any person of anything without due process.

21/ Government may arrest and hold people briefly without a conviction, but it shall take no punitive or lasting action without a conviction.

22/ It shall be a felony to aggregate the information of people who were arrested but not convicted by the justice system. This includes arrest photographs (mug shots) and police video recordings.

NR'26. POLICE OTHER

1/ All police dialogues with the public, as well as all searches, questioning, arrests, interrogations, incarcerations and prisoner transportation, gun de-holstering, and gun discharges shall have remote live back-up by the county recorder. All police audio-video shall be time-stamped, uninterrupted, and have high-quality with audio.

2/ Police shall be clear about what is a request and what is an order by using the words "please" or "I order you to" as appropriate. Police must abide by refused requests. Police shall not order the people around without a legitimate reason.

3/ When police confiscate any recording as evidence, they shall immediately give a copy to the owner without delay.

4/ It shall be a felony for government officials to destroy recordings or erase contents when this has a record of their conduct.

5/ Police nationwide shall wear one of 12 standardized uniforms that all look roughly alike except for the emblems and badges. Unless a person is wearing one of these uniforms, or accompanied by someone wearing one of these uniforms, the people do not have to consider that person as a police officer with regard to arrests or ordering the people to do things. All non-police security must wear one of 4 uniforms that all more or less look alike, but do not look anything like any police uniform.

6/ Also, all local police must use day-glo light blue numbers, the National police use white numbers, and private security guards use day-glo light green numbers. that are rubberized into the fabric.

7/ All police and security uniform clothing shall have 2cm numbers on one side of the chest, and 4cm numbers between the shoulder blades on the back. All clothing items must have these numbers. All headgear including helmets must have these numbers proudly worn in front and back. There is also a QR code on top of all head coverings and helmets.

8/ All police officers and all security guards shall

have a unique lifetime national registration number for their uniform.

9/ There shall be a national database for claims and video evidence against police and security officers indexed by national police ID number. All complaints about police misconduct shall be submitted to the county recorder's office. Police departments shall be prohibited from having anything to do with intake of police misconduct complaints. All police misconduct complaints shall be investigated by Senate juries and not by any part of the police department.

10/ crimes committed against out of uniform police shall be treated by the law as if they were committed against a normal citizen unless the accused knew that the person was a police officer.

11/ It shall be a felony for non-police, security guards, and other government employees or contractors to wear a police uniform or a police-like uniform. All security guards shall wear a non-police security uniform that is clearly not a police uniform.

12/ Police shall not stop system operated vehicles for moving violations, sobriety checks, or mechanical defects. To counteract the lawlessness that this anonymity engenders, the payer records for system vehicle shall be kept for 1-year. These records shall be secret except when police need to look at a particular point in time.

13/ Police, military, and other government workers shall not ride equines in urban areas. This includes parades and circuses. Government may use sniffer dogs, tracking dogs, and watch dogs. However police shall not use canines to catch, detain, or intimidate the people.

14/ When government begins enforcing a law in a new way, it must give reasonable notice to the people so they may adapt and comply.

15/ All police convicts, informer convicts, and former government workers shall be jailed in special prisons for their own safety.

16/ All police and court income along with all jail wage income shall be paid to the general fund of the national government. Doing otherwise creates incentives that lead to ticketing quotas, arrest quotas, and abusive courts. Also, the income and expense aspects of the police, court, jail, and restitutions system shall be separate allocations. The money generated should have nothing to do with the money being spent. However, Government shall be prohibited from ever turning a profit on the police or court system.

17/ We don't want a system where if the police want to get you, they can always dig up a way. We in fact

want our legal system to go as much as possible in the other direction. This is why we shall have three constitutional requirements for the enforcement of laws that are widely ignored:

a/ With widely ignored laws, Government must justify the rare or singular enforcement. If government can't explain this in a sensible way, then the case must be dismissed.

b/ Widely ignored laws shall not be used to prosecute public figures, ever.

c/ Government people attempting unsuccessfully to use a widely ignored law in a prosecution may be charged with malicious prosecution if the charges are found to be malicious.

18/ It shall be a felony for police, the prison system, and indeed all government people to harass people for their legal political beliefs.

19/ Except for marriage partners it shall be a crime for police to have sex while on duty. Sex with one's spouse while on duty will only get an officer fired.

20/ Police shall not be allowed to make social invitations, or initiate social contact, or flirt with the people they meet while on duty. Doing any of these things is grounds for a police officer to be fired. It should be well known that the civilians must ask and initiate social contact if they are interested. Also, all police officers must strictly obey the do not-contact filings of the people they have once been involved with.

21/ When police officers accept sexual favors from prostitutes, it shall be considered at least as bad as taking bribes. It may also encompass conspiracy to commit sex trafficking if their police uniform and authority helped to dominate vulnerable women.

22/ It shall be a felony to participate in a coverup of the true cause of a person's death, even if the death involved no crime.

23/ It shall be a crime to touch human remains coming out of the ground. All shall be regarded as a potential crime scene. Also, those who discover and reports a new human grave site gets 50 hours wages at the national average as a reward.

NR'27. THE PUBLIC PROSECUTION DECISION

1/ The decision to begin a public prosecution for a crime shall be made by a Senate judge or jury depending on the severity of the charges. This jury shall serve no other purpose in the prosecution of the case.

2/ The trial shall be judged by yet another judge or jury depending on the severity of the charges.

3/ There shall be no decision to prosecute by non-elected people.

4/ All prosecutors shall be randomly drawn.

5/ The Senate shall make a list of which forensic testing is admissible, and under what conditions these are admissible.

6/ The presumption of innocence should be strongest among those with no prior convictions. Then it should diminish until we reach hardened criminals who have lost much of this right due to multiple convictions for non-political crimes. As well, the presumption of innocence shall be weakest among those with apparently air tight cases against them, especially those caught on public video and in front of many witnesses.

7/ When Government investigates a crime, or indicts for a crime, it shall not be allowed to request or demand that those investigated or indicted stay quiet about these matters.

8/ When people are accused of crimes for which the total sentence is generally less than 3-years, the criminal justice system is supposed to try to communicate with them for a while before an arrest warrant is issued.

9/ The crime of resisting arrest shall be divided in two parts: failure to act on a police officer's justified arrest commands, and fleeing from arrest. Neither charge shall apply unless the person is found guilty of at least one crime he was arrested for.

NR'28. THE ACCUSED IN COURT

1/ Everyone accused of a felony, misdemeanors or infraction shall have the following rights in court:

a/ To know the exact charges against them in full, and to see all the prosecution's evidence a reasonable time before the trial, so they can gather their own evidence and prepare a defense.

b/ To have a reasonable amount of time to examine the evidence against them before their trial.

c/ To delay trial for up to 90 days from when they were charged. Except when key people are injured or incapacitated, no trial shall begin more than 90 days after the charges were filed.

d/ To compel witnesses to appear at their trial if they can explain a reason related to their case. Also to know the at least the full names, occupations and court history of all who stand witness against them and those who have charged them with a crime. Also, to know any family, friendship, work or other associations, or monies or valuables ever paid between all witnesses and the opposing side in any court case. Further, the defense shall have the right to know the names of everyone called by either the police or the prosecution while it was building its case. No pseudonyms shall ever be used by any

witness in court. If video evidence is used in a trial, both sides shall get the video files in their original and unedited form, with no reductions in image quality or screen resolution.

e/ To have a reasonable amount of time with a pre-trial defense advisor, however this conversation as with conversations with all legal advisors shall be recorded and may be viewed by the prosecution and used in court to help the prosecution.

f/ To have the prescribed amount of time to present their case and question prosecution evidence.

g/ To adjourn their trial for a reasonable amount of time and gather additional evidence if they can explain a reasonable cause.

h/ To confront their accusers, obtain and examine witnesses, and know their identity except when genuine government secrets must be kept secret. In this case, a jury of at least 13 Senators from the Judicial Sluice shall be randomly selected to evaluate the secret evidence or witness testimony in light of the questions presented by the defense. However, where the Government charges citizens with crimes based on secret evidence, the standard for conviction shall be higher than normal.

i/ It shall be noted that history repeatedly shows how misconduct by government officials is a genuine and eternal problem. Where there are realistic accusations of Government misconduct, secret evidence shall generally not be allowed.

j/ To have an impartial, publicly announced trial by a Senate jury not of the locale where the crime was alleged to have been committed and at a randomly drawn location.

k/ To have a trial that is recorded and posted online for open public viewing, except were limited by other parts of this constitution.

l/ To a speedy trial. When the accused requests, government must begin the trial in no more than 15 days, unless the government needs an extension for forensic evidence analysis. However, in no case shall government delay the trial's commencement by more than 60 days when accused is calling for an immediate trial. The judicial time limits called for herein, shall not apply during time of invasion, full military mobilization, or severe and sudden environmental crisis.

m/ To have unbiased judges. Where possible, Senate jurors shall not know the people they are judging. And where possible, Senators shall have the right to traceless anonymity for their service as judges or prosecutors.

n/ To know the law WIKI sections that explain the charges against them, and defense strategies for

these charges.

2/ These Rules of the accused shall not apply to matters of immigration, illegal immigration, refuge, and the granting of new citizenship to foreigners, as these are not matters for the courts, or for the county governments.

3/ All contact between the justice system and the people involved in it must be on recorder video.

4/ All in person and video court appearances shall begin with the testimony oath.

5/ All legally obtained police videos shall be admissible in court. Illegally obtained videos shall not be admissible. The Senate shall determine what constitutes legally vs. illegally obtained.

6/ Judges shall have the power to charge the people in their courtroom with contempt of court, however they shall not have the power to judge them as well. Such matters must be decided by different judges.

7/ Everyone on trial for a crime shall be allowed to give a prefacing statement at the start of their trial, and a closing statement at the end of the trial. They shall be given at least two minutes to speak for every year of incarceration or interment they face. This shall be one minute at the beginning and one minute at the end. Those who face less than 5 years of incarceration or interment shall be given 5 minutes at the beginning of their trial and 5 minutes at the end of their trial. Those who face life in prison or death shall be given at least 60 minutes to address the court at the beginning and also the end of their trial, and before judgement.

8/ People's feelings should not be given a place in the courtroom.

9/ The parties involved in court cases shall have no right of juror or judge selection. The Senate shall randomly draw jurors and the random draw shall be final.

10/ Everyone appearing in every sort of court shall have the right (but not the obligation) to speak in public about the charges and prosecution against them.

11/ The justice system have no power to order that matters be kept secret except the details of sexual assaults and rapes.

12/ If new evidence of guilt or new charges emerge during the trial, the prosecutor may amend its case, however, the accused shall be allowed a reasonable time to re-prepare their case again in consideration of the new charges.

13/ The legal system shall take great care to minimize the danger of giving testimony against criminals, crime gangs, terrorists, corrupt government officials, and violent individuals. The

legal system shall grant immediate video testimony for witnesses. This video testimony shall stand as valid evidence in court if the witness dies or is incapacitated before the trial. It can also be made public by the witness either before or after their death. Witness protection people from our nation and other nations may be housed on Kauai if they want. It shall be a felony to try to intimidate a witness so they will not testify, or so they change their testimony. It shall be a felony to try to intimidate a judge, juror, or administrator in any way as a means of altering government decisions.

14/ There is safety in numbers. In situations where a Senate jury is considered to be in any danger of retribution or intimidation, the matter shall be judged by a grand jury that can be the size of the entire Sub-Senate if needed to assure the safety of all who judge.

15/ Only a Senate jury of 16 or more may judge prosecution deals for criminals that aide in prosecutions.

16/ We shall remain mindful of how the English text parole means "words" in Italian. There shall be no more parole hearings. Instead there shall be an automatic 1/6th sentence reduction for inmates that do all of three things:

- a/ Exhibit model citizenship behavior while under lockup.
- b/ Prove their ability to work while under lockup.
- c/ Prove their ability to learn a marketable skill while under lockup.

NR'29. JUDICIAL RIGHTS.

1/ The burden of proof in all matters general and subsidiary shall lie with the accuser and never with the accused, no matter the crime, and no crime shall be exempt.

2/ Nobody shall be deprived of life, liberty, or property without due process of law and blind judgement by random Senator juries.

3/ One of the places where free speech is most important is when Government locks people up. Being arrested shall not be a black hole from which no light and no information can emerge about the arrested. Quite the opposite. Everyone accused of a crime, on trial for a crime, or incarcerated for a crime shall have the unlimited right to speak out about the charges against them, their arrest, their jail conditions, and the system prosecuting them. Also, if there is any connection at all to politics, leadership, public influence, or Government operation, the accused shall have the unlimited right to scrutinize the motivations, activities, and history of their

accusers. Those in jail shall not be deprived of access to communication technology and their experience with the justice system thus hushed up.

4/ Everyone who is incarcerated shall have the right to call and talk to family, friends and legal advisors immediately.

5/ Once someone has been tried on a particular set of evidence and then acquitted, they shall never be tried again using any of that evidence, except in cases where the first decision is invalidated by a majority vote of the national Judicial Sluice.

6/ Every person kept under lockup pending trial shall be kept under similar conditions. They shall all be protected from harm. They shall all be kept under video monitoring. The ones that have enemies shall be kept in a police station secure area lock-up. Every person in a jails shall wear location tech and shall be recorded 24-hours a day by the recorder's system. The public may tune in to verify that all convicts actually are actually still locked up.

7/ The legal system shall not have rules that favor the rich, connected and powerful over the poor and powerless.

8/ All new laws and new interpretations of old laws shall give reasonable time and notice for public awareness and compliance.

9/ Government shall not dig up old, now unenforced laws to throw at people.

10/ All ex post facto or retroactive laws, taxes, fees, definitions, re-classifications, and penalties shall be void except where a 2/3 overmajority of the national Over-Senate elects to declare that a nation-scale exploit has occurred, such as with the S&L crisis, the Subprime crisis, or with deadly vaccine corruption. This exploit need not be economic, but most of the nation must have been tricked somehow.

11/ A new interpretation of the Fifth Amendment to the 1789 US constitution shall be included as follows:

a/ That the right to remain silent is a universal right, not just a right that belongs to the people who are smart enough, and courageous enough to stand up to often fearsome police. So from now on, the police are not even supposed to question people once they have been arrested. All post arrest questioning gets done by a randomly assigned Senate judicial duty magistrate of that specialty. If the penalty is long, or the charges confusing, or there is another reason, then a tribunal or larger may be assigned. All post arrest questioning shall occur via VR unless the Senator(s) want to visit the accused.

b/ That all confessions except those made at the trial can be recanted. Recorded statements will

continue to stand as evidence. However, whether someone accused of a crime, admits committing that crime or not prior to the trial shall have no bearing on anything whether it is on video, or signed on paper. The accused may always recant what they said by simply claiming to have been afraid and presenting another story to the court.

c/ That nobody shall be compelled by the system, or by police to make a statement, or a confession, or to admit a crime.

d/ That only recorded statements made to police are admissible.

12/ The entire arrest and incarceration, every minute from police contact with a suspect until trial or release must be under video and audio monitoring. This includes the time in the arrest vehicle, the time outside the cell in the police station, as well as the time in the cell of the police station. All police testimony by people accused of crimes must be on high definition video with stereo audio.

13/ Where there are mitigating or extenuating circumstances, the lockup periods and fines called for under the law shall not be seen as mandatory minimums.

14/ Where the criminal justice system deprives the people of their liberty for a crime they committed, those convicted shall have the right to make appeals on new exonerating evidence. However, in cases where the civil courts make a judgement as to financial restitution, or where the Senate condemns property for the construction of group infrastructure, there shall be no right to appeal the decision or judgement amount, except where the national Judicial Sluice elects to cancel or reduce the judgement amount.

15/ The national Main-Senate shall keep a list of activities that cannot be made criminal by any County Senate. The Judicial Sluice shall assure that all county laws in violation are removed from the books. All counties must notify the national Senate immediately upon passage of all new laws.

16/ The legal code of each county shall be of two headings: Uniform County Code, and Special Laws for that county. The number of special laws shall be limited and the penalties for violating a special law shall not be extreme.

17/ Except for murder, crimes of extreme violence, sex with four or more minors from a position of authority, charges of FGM, or when the defendant leaves the jurisdiction to flee from justice, the nation's courts shall not judge any criminal or civil claim, no matter how fair or just if more than 12 years have passed from the time the criminal activity

ended.

18/ The legal system should have a slight bias in favor of the accused so the system will be biased towards leniency.

19/ Those who steal great sums shall never be punished less than those who steal small sums. They may be punished the same, but they shall never be punished less.

20/ No part of the code of Justinian, the so-called "Roman law," may be used in the courts of our nation.

21/ All trials of government officials, Mafia officials, and the officials of fictional citizens, shall be recorded and live streamed on a 100% public feed.

22/ Court hours shall be 7:00am until 11:00pm, 365 days a year.

23/ Only pardons issued by a broad democracy shall be final. All pardons by the prior narrow democracy may be cancelled.

24/ No judge shall have the power to make law or policy, or interpret the law beyond the case they are hearing.

25/ Secondary crimes such as obstruction of justice and resisting arrest shall require an underlying primary crime for conviction. If we don't do this, then people can be arrested and subjected to lengthy legal proceedings on allegations, until they contradict themselves, or do something wrong in the procedures. Not having this prohibition leaves the legal system prone to abuse by those in power.

26/ It shall be considered an abuse of power and a crime when police, prosecutors, or other government officials threaten the people with completely baseless prosecutions. It shall be the crime of democide when people in the justice system abuse their power bringing charges against their political opponents.

27/ Every aspect of the court system shall have at least 3 tutorials explaining how the system works and common defenses for criminal charges.

28/ Perfection of the laws should be regarded as something that will never be achieved because it is firstly impossible and secondly because the target keeps moving. No law is perfect, and in the interest of justice, we must listen to all ideas about how the legal code can be improved.

29/ All laws from before the time of this Constitution shall be completely re-written as soon as possible. The new laws shall be enacted before they are perfect.

30/ No county governments shall have the power to elect to not enforce national laws, be they about immigration, illegal aliens, drug enforcement,

taxation, or other topics. Notably, a similar clause does not exist with the UM and our national government.

31/ Just as we elect no forever Senators, we shall elect no forever laws except through the constitutional amendment process. To keep the legal code fresh, every component of every law shall stand for review by the Sub-Senate at least once every 5-years. The expirations shall be staggered to spread out the workload and power. Thus, 20% of laws will expire in the first year.

32/ When people commit unethical or unpopular acts that offend public sensibilities and are not against the law, Government and the media shall not be allowed to audit and scrutinize their life record, searching for unrelated or overlooked violations to charge them with.

33/ Everyone exonerated from a crime shall have the right to have their name, image and other information put on the Senate's exonerations website. It shall be the responsibility of the public to treat all exonerated people as if the crime never happened.

34/ No County judicial fine or penalty shall exceed the maximum amounts set by the National Senate.

35/ Every person in the land including visitors shall furnish government with two valid and current electronic addresses for receiving official government notifications. It shall be presumed that these accounts will be checked at least once every 10 days. Two emails to each account shall be the only way that official notices including court subpoenas are delivered. The private use of this system shall be allowed for a charge of 3 hour's wages per message if paid in advance.

36/ No less than 3% of instruction in grades 7 through 12 shall be about the nation's laws, its legal system, the nature of justice, and the value of a just society of free men.

37/ All disagreeing parties should fully explain in writing what it is they disagree about if their side is to have credibility in any long-term disharmony. This should hold true for our personal and business relationships, as well as for our courts. And this should hold especially true for our Senate factions, and international relations. We should do this because it is what fair minded people do. They shine the light of a written explanation on all disharmony. When long-term disharmony is not adequately explained under the light of a written explanation, we should in general presume that the mute, unclear, or illogical side is untrue and unjust.

38/ Under the following circumstances police may

use sting operations where they pose as criminals on either side in order to find lawbreakers:

a/ Murder or beating for hire.

b/ Corruption of government decisions, or news reporters.

c/ Unreported or under-reported commerce in order to avoid tax payments.

d/ Sex with minors under age 16 and illegal prostitution.

e/ Charity donations and OPM corruption.

f/ Collusion with foreign governments.

g/ Trade in illegal arms, drugs, or personal data.

h/ Trade in spied or hacked information, or crypto currencies.

x/ It should be well known that to prevent these sorts of crimes, government has people going around testing people.

39/ Sting operations shall not be allowed anywhere near matters of free speech, government, leadership, and group decisions. Where there is any hint of a political dimension, sting operations and all sting operation evidence shall be prohibited.

40/ Government shall not be allowed to pretend to be the people and then entice people into saying something criminal about government. This is the realm of the Gestapo and KGB.

41/ Particularly attractive people cannot be used in sting operations, and neither sex, nor flirting, nor friendship can be part of any sting operation.

42/ In all sting operations, everyone gets the same sting bait and the same sting test. Nobody gets a version of a sting that is easier to fail. Also, certain people cannot be subjected to multiple sting operations on the hope they can be entrapped.

43/ All sting operation must test with activities that everyone knows are illegal.

44/ All sting operations except those directed against the Over-Senate shall be approved by the Over-Senate.

NR'30. VIOLENT CRIME

1/ Two completely independent trials which both result in death verdicts (and torturous punishment if applicable) shall be necessary for executing criminals. These trials must also must be separated by at least 1 year in time, and no more than 2 years in time.

2/ Once someone is sentenced to either life in prison or death, they may only be exonerated or pardoned. There shall not be parole or probation or shorter good behavior jail time for those serving a life sentence, or sentenced to death. In other words, the conviction may be overturned, or pardoned, but

absolute sentences of death and life in prison shall never be reduced in length.

3/ Everyone serving a death sentence, or life in prison sentence, or a sentence exceeding 25-years in prison or 50-years in work camp shall automatically be considered as KTPR or kill to prevent release in case of invasion, plague, or natural disaster.

4/ We shall learn from Brazil and its lax penalties for murder, and its high homicide rate. We shall go in the opposite direction. The following acts shall be considered first degree murder, and the penalty shall be either life in a prison, or work camp, or death by execution:

a/ Killing a victim accidentally during a burglary, hold-up, battery, car-jacking, kidnapping, or similar violent crime.

b/ Intentionally shoving or striking a person very hard and causing them to die as a result. This shall especially include the old, the young, the disabled, the ill, the small, the frail, those not fighting back, and those lying on the ground among other similar groups.

c/ Intentionally striking people who are not physically confrontational in their head, face, or torso, and causing them to die as a result.

d/ Ganging up on outnumbered non-confrontational people and beating them, causing one of them to die. In this case, everyone striking a victim may be held guilty of first degree murder if the victim later dies.

5/ We shall have a very low bar for calling a victim's death a homicide when it occurs during the commission of a crime. And we are going to include all crimes, even fistfights, vigorous shoves, and snatch crimes. We will also include victims that take years to die, especially when they never recover from the violent act.

6/ When a crime victim dies, the criminal shall normally be held in jail without pre-trial release.

7/ It may be considered murder or attempted murder when people do any of the following things:

a/ Strangle others, or crush their windpipe, or strike others in the throat, or use a choke or sleeper hold and cause them to lose consciousness.

b/ Stomp a person's head, or kick a person's head while they are down low, or kick a person's head into a hard surface.

c/ Pummel a person while they hold the person down, or the person is down and not fighting back.

d/ Gouge a person's eyes.

e/ Impel a person's head into an hard object, or lift and cast a person on the ground causing a

significant brain injury.

f/ Use a hard object such as a stick, rock or a chair as a club for blows to a person's head.

8/ It shall be considered 3rd degree murder when drivers kill someone while they are driving while the driver is judged to be:

a/ Intoxicated with a blood alcohol level above 0.12 as determined by 4 out of 4 police tests by 4 different testing machinery companies under recorder supervision.

b/ Intoxicated by drugs as determined by 3 blood tests.

c/ Fleeing from police in a vehicle at speeds more than 33% above the speed limit.

d/ Racing at speeds that are more than 50% above the speed limit.

e/ Doing stunts or donuts in cars.

f/ Was holding a personal communication device, or reading, or applying makeup.

9/ Where burglars, robbers, batterers, rapists, or other violent criminals are killed or injured in the commission of a crime, the law shall presume that the defending person was acting in self defense and they shall remain out of jail by default unless there is good reason to do otherwise.

10/ Except for cases of accidental friendly fire and genuine accidents, those who fire on police, or cut an officer with a blade shall be considered attempted murder of a police officer.

11/ Those plotting to kill multiple people in an act of terrorism should generally be sentenced to life under lockup. If there is any leniency, let it be with the comfort of the lockup. Attempting to kill multiple people in an act of terrorism may be a capital offense.

12/ Those who attack others with or burning fluids such as acids or liquid fuel causing severe disfigurement, or bodily damage shall be sentenced to life under lockup or torturous punishment. If there is any leniency, let it be with the comfort of the lockup.

13/ Those who use drugs to commit rape, theft, or murder shall be sentenced to the same sentences as those who rape or commit these crimes at gunpoint. Also, the threshold for attempted murder in drugging cases shall be set on the low side.

14/ When police kills a suspect that is a stranger and the killing doesn't seem to be driven by racial hatred:

a/ Where it was a genuine accident, there shall be no penalty. However, wherever an officer wrongly kills someone, the officer shall be disqualified from policing for life.

b/ Where it due to negligence, the penalty shall not exceed 10-years for the most extreme negligence, and 5-years for ordinary negligence.

c/ Where it was a suspect killed in a moment of rage for a murder for which he was certainly guilty of the penalty shall not exceed 5-years.

d/ Where it was a suspect killed in a moment of rage for a violent crime such as a non-fatal shooting, a knifing, a severe beating, a rape, or other similarly awful crime. 10-years.

e/ Where it was a suspect in a moment of rage upon some criminal provocation, 15-years.

15/ Dueling, mutual combat, fair fights, and similar terms shall not be a legal defense against any crime. The injury or death of the other side in a duel or mutual fight shall be considered as an assault or a homicide under the law, regardless of the agreement to have a fight.

16/ People who have fistfights shall go to jail as follows: If one side exclusively initiates the fight and nobody is badly hurt physically, then the initiating side goes to work camp for 6-years. If it can't be determined which side started it, then both sides go to work camp for 2-year each. This includes females. Fist fights are obviously not the way of a healthy society. In what eu-tropia are the people beating each other in fist fights?

17/ Throwing a person down on the ground can be considered equal to club battery on the body part that strikes the ground. This shall be especially so when a brain injury results.

18/ Those who strike others with their hand in a sneaky way, or without warning, or with great suddenness, or in a way designed to knock them out, or badly hurt them — These sorts of knock-out blows can easily be seen under the law as justification for charges of attempted murder, or murder.

19/ When under age 18 people have fights at school that do not result in serious injury, the minor may go to reform school until they are 18. Then any unused sentence converts to a work camp sentence as an adult. However, there shall be no record of this pre-18 jail time on their record.

20/ People who are convicted of violent crimes including fist fighting shall have this information on the official ID/ facebook pages for 10-years. They shall not be allowed to have a drug or alcohol license, or enter any social venue for 3 years after jail release for fist-fighting.

21/ Boxers and sport fighters shall beware, because if in sport, they beat an opponent who is down, they may still be charged with assault or attempted

murder for beating a man who is down. And this shall be so regardless of the rules of the sport.

22/ All boxing, wrestling, and fighting gyms and school classes shall be required to register all participants, students and team members. Also people who are trained fighters shall have a higher obligation to walk away from conflicts as determined by the Senate's rules on the subject.

23/ The use of force in self-defense shall not be an eye-for-an-eye sort of thing, but instead the grounds shall be that of necessary self defense. Therefore, when a weak person slaps, shoves, or weakly punches a much stronger person in a way that is not truly threatening to the well being of the strong person, the strong person is not allowed to hit the weaker person back. The strong person can however charge the weaker person with assault, and he can also hold or restrain the weak person until police arrive.

NR*31. PENALTY MULTIPLIERS

1/ There shall be triple penalties for crimes against the following:

a/ Travelers.

b/ Goods being shipped, recently shipped, or goods recently delivered.

c/ People on railways.

d/ People on public transit, going into public transit, or going out from public transit.

e/ People in train stations and public transit stations.

f/ Automatic vending systems.

g/ Late night businesses.

h/ Delivery and service people and equipment, including the people that load dispensing machines.

Crimes committed by school bullying victims against their bullies shall be subject to less than 1/3 of the normal juvenile penalties. Schools may require those accused of bullying to wear location tech.

4/ It being much easier to crash a large banquet than a small family dinner, economic parasitism is

more a problem of group funds. for this reason, stealing or misappropriating from government shall suffer triple penalties. Stealing non-government group money shall suffer double penalties.

5/ Breaking into an occupied home or workplace subjects the burglar to double the normal penalties for the burglary. Breaking into a child's room, or an elder's room, or an occupied house where people are asleep, subjects the burglar to triple penalties for burglary.

6/ Theft or vandalism of utility systems, roofing, flashing, rain gutters, and similar metallic components for recycling shall be subject to triple penalties.

7/ Those who post videos or stream their crimes shall be subject to double penalties. Those who post videos that glorify the crimes of others may be held to be accessories to those crimes.

8/ Those who attempt to frame others for their crimes after the fact shall suffer double penalties. Those who set out with a premeditated plan to frame someone else shall suffer triple penalties.

9/ When people are in a criminal gang, we shall err on the side of including them as conspirators and accessories for the crimes of their gang brothers. Those judged as having participated in crime gangs shall by default suffer double penalties for conspiracy. The system should be considered broken unless it leans towards the side of sending all the Al Capones away, rather than leaving them out in society. We learned many lessons around the time of Al Capone, we just need to remember them.

10/ Violent crimes committed on an airplane shall be subject to double penalties. The penalty for assault of group transport staff shall be three times an ordinary assault.

11/ When criminals are in possession of a firearm during a burglary, hold-up, battery, car-jacking, kidnapping, or similarly violent crime, it shall double the penalty. If the firearm is discharged, the penalty shall be 2.5X as much. When people are shot with a firearm by the criminal or criminal gang during a violent crime, it shall generally be considered attempted murder. Also, these penalties can frequently apply to other people that participate in a crime, as well as those in the same crime gang or Mafia cell.

12/ When people with no criminal record and no criminal ties are charged with crimes against Mafia people, Ishtarians, and previously convicted violent felons, the court shall have the power to reduce the penalties by any amount. The court may also declare the matter as self-defense or community-

defense and thus acquit of all charges.

13/ When victims or their defenders physically harm blackmailers or extortionists, their sentences may be reduced by over 99%.

14/ We shall do a favor for the truly reformed criminals of our nation, so the truly reformed can get more of a second chance. We shall have 3X penalties when ex-convicts commit crimes where their employers, co-workers, landlords, friends, lovers, or neighbors are the victim.

NR'32. LEGAL PRECEDENCE

1/ This Constitution shall be the primary law of the land and above all other laws in the land. All laws made by the Senate shall be secondary law that are wholly below this constitution. All interpretations and rulings made by the courts shall be tertiary laws that are wholly below both this Constitution and the laws of the Senate. All regulations made by unelected government officials and unelected government bodies shall be quaternary laws that are wholly below this constitution, the laws of the Senate, and the interpretations of the courts.

2/ No judge or jury shall be legally competent to judge any society-wide matter.

3/ Judges, and juries being inferior to legislatures in every way, no court shall ever be held competent to judge the constitutionality or legality of anything a legislature does.

4/ The national Over-Senates shall be the sole judge of constitutionality in this nation. No county Over-Senate shall have any power over the national Senate, or the national government.

5/ Plebiscites being so vulnerable to media corruption, no plebiscite of the whole shall be considered above a sophocite conducted by their duly elected wise men of the Sub-Senate. And no sophocite of the Sub-Senate shall be above the Main-Senate. And no sophocite of the Main-Senate shall be above the Over-Senate, the wisest of the wisest.

6/ Only the Senate shall have the power to make laws. Only the Senate shall have the power to write, define and clarify laws for the court system. Judges shall have the power to make reasonable and logical interpretations of the law for their own case, but not for any other court unless their case has been gazetted as an example by the Senate.

7/ The Senate shall endeavor to create a new body of laws that will guide our Senator-judges in the rapid adjudication of all commonly repeated injustices.

8/ The Senate shall state its intent when writing laws

so that in the future the laws stay accurate.

9/ The Senate shall clearly define enforcement perimeters and variable penalty levels if any.

10/ The laws and proceedings of this nation are made for men of ordinary understanding and should, therefore, be construed by the ordinary rules of common language and common sense. All laws and all legal pleadings should be required to use widely understood current language and phraseology wherever practical. The legal code of our nation must be presented in ordinary words where practical. The legal system shall try to avoid using special experts-only legal terms where practical. All special legal words must be defined by link.

Wherever practical society and especially government services shall use intuitive terms like "Prisoner Release" instead of hidden occult terms like "Habeas Corpus"

11/ The Senate shall leave the courts as little leeway as practical in the interpretation of the law. No legal precedent shall be established by any judge's actions without Senate gazetting. For the purposes of legal precedents and gazetting of lawsuits, all legal commentary shall list all considerations of judgements as primary, secondary, tertiary and incidental.

12/ The proper indexing and summary of legal precedents and their removal as they are transformed into code and code examples, shall be considered of great importance to the proper functioning of a first-person legal system. This is because intellectual overhead is the primary driver for the expensive experts of the old second-person legal system.

NR'33. MONEY (CIVIL) COURT TRIALS

1/ Government shall aim to begin all adjudications within the time periods called-for unless one party seeks a delay for reasonable cause.

2/ The plaintiff in all civil suits shall pay a filing fee of 1% of the damages requested, plus two day's wages. When civil suits ask for specific performance under a contract, the plaintiff shall state the value of the specific performance requested, and this shall be used to calculate court fees and maximum settlement amount in lieu of the action sought.

3/ When judgement is in favor of the plaintiff, the defendant shall pay between 1.5 and 3 times the amount in dispute depending on how wrong the defendant was judged.

4/ When civil suits are judged to be malicious or vexatious, the plaintiff may be compelled to pay money to the defendant. When the plaintiff is a

human of normal means, this payment shall not exceed 3 times amount the plaintiff asked for it its suit. When the plaintiff is a fictional citizen, or a super-rich human citizen, and the defendant a human citizen of more-or-less ordinary wealth, this payment shall not exceed 30 times the amount the plaintiff asked for it its suit.

5/ All statements made to all adjudication venues must be sworn under oath and penalty of perjury or they shall not be valid. The crime of lying under oath shall apply in all adjudication venues and in all cases including non-government adjudication venues.

6/ Government shall keep a permanent record of everyone's civil court case history. This record shall be open, and on the internet for all to see. It shall always be admissible in all cases.

7/ No default judgement shall ever be used as a consideration in deciding another case.

8/ Money court judgements paid over time cannot be transferred or assigned to other parties, or used as collateral for a loan.

9/ The money court adjudication system shall not shall not be allowed to become part of anyone's business or profit model. The Senate shall set reasonable limits on the number of cases a person or business may bring over a period of time.

10/ It shall be a crime when parties in non-criminal cases dig into their opponent's private life in an effort to find dirt on them. The Senate shall create detailed rules on the limits of this sort of judicial stalking.

11/ All money court trials shall be staffed with juries as follows, based on the amount in dispute. The Senator jurors shall set trial length, but it shall not be longer than the maximum listed herein under. Where the value in controversy is between:

a/ Zero and 1 year's wages, the trial shall be by a single non-elected judge, a native citizen age 40 to 60. The maximum trial length shall be 2-hours.

b/ 1 and 5 year's wages, the trial shall be by three non-elected judges, native citizens age 40 to 60, for up to 8 hours.

c/ 5 and 50 year's wages, the trial shall be by 3 Sub-Senate jurors for up to 15 hours.

d/ 50 and 500 year's wages, the trial shall be by 11 Sub-Senator jurors for up to 40 hours.

e/ 500 and 5,000 year's wages, the trial shall be by 43 Sub-Senator judges for up to 100 hours.

f/ 5,000 and 50,000 year's wages, the trial shall be by 199 Sub-Senator judges for up to 200 hours. If a product is alleged to make a small number of people more likely to suffer a medical condition, it shall be tried in this way.

g/ 50,000 year's wages and infinity, the trial shall be by 999 Sub-Senators for up to 200 hours. If a product is alleged to make a large number of people more likely to suffer a medical condition, it shall be tried in this way. If a trial is for an entire class of activity or class of product, it shall be tried in this way in order to advise the relevant sluice of the Main-Senate on how to vote.

12/ Wherever similar conditions are encountered repeatedly, Government shall attempt to remove as many enforcement duties as possible from the money (civil) court system and use streamlined procedures and government administrators instead. The money court system shall be considered an inferior system of enforcement of public policy because it is both more costly and more time consuming.

13/ The Senate shall establish new reasonable rules about what can and cannot be the subject of a money court action. The Senate shall also establish new standard penalty rules.

14/ There shall be a statute of limitations in money court, and no damages shall ever be awarded for events that were either discovered more than 4-years in the past, or that took place more than 14-years in the past, no matter how heinous, harmful, carcinogenic, or deleterious for the environment. Either timeline shall disqualify. The only exceptions to this rule are:

a/ Tobacco enterprises.

b/ Therapeutic drug enterprises.

c/ Child molestation by priests, teachers, doctors, and other people in a position of trust.

d/ Genital mutilation.

e/ Government corruption.

15/ There shall be no statute of limitations for severely violent crime when new technology reveals the identity of the perpetrator. The national Senate shall be free to impose shorter and longer statutes of limitations for various specific matters.

16/ With regard to punitive damages, if the person that must pay does not have sufficient assets at the end of the trial, and has not transferred assets to avoid payment, the punitive damages shall be cancelled. Punitive damages shall not hang over people in the future.

17/ Nobody shall ever be made homeless as a result of a court judgement. However mansions and other especially valuable housing may be taken and average housing given in its place, but vaguely normal housing shall never be taken on account of court damages.

18/ All judgement/settlement amounts must be paid

directly to the principal and it shall be considered fraud if a legal surrogate or lawyer receives any court monies or settlement monies on behalf of his clients.

19/ It shall be a felony when anyone working in the legal industry receives money or benefits that are not reported to the government payment system. This shall include lawyers, surrogates, judges, jurors, clerks, and everyone working in and around the court system. There shall be rewards for people who can provide evidence including video evidence of these receiving valuables or favors.

20/ In general, lawyers and legal surrogates will need to collect money in advance, because they will have no legal right to collect on bills.

21/ Criminal court shall err on the side of thoroughness, however, money court shall err on the side of brevity. This especially with small amounts in money court. Also, with very small amounts, plaintiffs might only have 2 or 5 minutes to present their case.

22/ Money court for amounts less than 90-day's wages must be by telepresence.

23/ We will make all plaintiffs swear that their prosecution is not completely baseless and primarily a means of harassing the defendant. Then after this, it will be considered perjury if they bring a baseless prosecution against someone. This should include all cases that will obviously fail — such as the recent impeachment proceedings in the US.

24/ When the parties in a money court case live in different jurisdictions, the court of jurisdiction shall be a randomly chosen third location. This costs nothing on net, and makes the system more fair.

25/ To reduced legal system fraud, we shall make it a felony to settle a legal claim without making a declaration to the court. This way, the fraudsters will be more rapidly caught in the data. Also either side may charge the other for making and undeclared settlement.

26/ Criminal convictions may not be used as evidence in money court as this incentivizes people to accuse the rich of crimes so they may later, in the second stage sue them for profit.

27/ It shall be a crime to investigate people on behalf of others without registering the investigation with the recorder's office in advance. The Senate may require that findings and recordings be shared with the recorder's office and the subject.

NR'34. FINES

1/ Government shall not treat the rich with favor, and wherever practical it shall work to eliminate wealth

bias from government penalties. To this end, we shall try to express our public prosecution penalties in either jail time, public service time, re-education time, or a percentage of income or wealth.

2/ All large fines paid by fictional citizens shall be paid through a dilution of shareholder equity in favor of the public. If shareholder equity is inapplicable, then a percentage of assets shall be seized.

3/ No for-profit fictional citizen shall be fined by a money amount greater than 100-years wages. All fines over this amount shall come from a dilution of the company's shareholdings in favor of the public. Thus if a company worth \$2 billion is fined by \$1 billion, the number of shares shall be increased by 50%, and the public shall own half of all shares. These shares may be held indefinitely by the public or sold immediately.

4/ All fines collected by labor unions, employers, religions, schools, non-government trade organizations, financial institutions, athletic organizations, clubs, landlords, homeowner's associations and private individuals shall be paid to the county recorder's office on behalf of the national government. None of these groups may keep any of the money from fines.

5/ It shall be a felony to pay or receive money for any matter brought before a court or arbitration system without making an accurate statement of the amount to the recorder. All such statements shall be public knowledge.

6/ People may pay fines of family friends and lawful businesses may pay the fines their team incurred on the job. However, aside from this, it shall be a felony to:

- a/ Pay the government fines of others.
- b/ Reimburse people for their government fines.
- c/ Receive help paying for a government fines.
- d/ Pay people for the time they served in jail.
- e/ Receive payback for time spent in jail.

NR'35. CIVIL DAMAGES

1/ The purpose of punitive court damages being to punish, 100% of all punitive damages shall accrue to the national government, with the plaintiff, attorney, court, and county government getting no part of any punitive damages.

2/ Punitive damages, shall not apply, except in cases of willful misconduct or gross negligence where the plaintiff was not partly at fault.

3/ The Judicial Sluice shall set detailed maximum compensatory damages levels for all types of injury. If no category exists, then the maximum amount shall be zero.

4/ When the people suffer death or injury, the compensatory damages shall not exceed 50-years's wages per victim. (for the average worker). Over this amount, no money shall be awarded for pain and suffering, or loss of use of one's bodily organs.

5/ The maximum compensatory damages for emotional or psychological distress or harm to an individual shall be half a year's wages if there is no felony conviction and 5-years wages if there is.

6/ 100% restitution shall be prohibited on the grounds that it discourages people from avoiding injury and dangerous situations. No plaintiff shall receive more than 90% restitution, and no insurance pay-out shall exceed 90% of damages.

7/ The right to court awarded compensation shall be limited to cases of significant and observable harm to body or property that was not previously damaged or defective in the way harmed.

8/ Civil damages shall only be awarded according to standard remedies and compensation levels that meet Senate guidelines.

9/ All damages awarded shall only be spent according to a court approved plan, and for court approved purposes. All funds shall be disbursed by the county's payout system according to a payment plan, and all unused funds shall be refunded to the defendant's side.

10/ Those forced to pay money by a court shall have the right to hire auditors to make sure the money they paid is being spent as per the court order. The recipient of the money must cooperate with these investigations, or it can lose the right to further collections.

11/ No insurance policy or court judgement shall pay for any treatment that includes a pleasing massage as this incentivizes the patient to get all their free massages.

12/ Civil damages shall not be awarded for unproven, or alternative medical treatments, or for massage-oriented treatments including joint cracking, chiropractic, massage, acupuncture, acupressure, or for attended physiotherapy unless it is absolutely necessary. Also, physiotherapists paid with money from the court system shall not be under age 40, or attractive.

13/ When a money judgement is rendered by a court against a citizen that exceeds their ability to pay, they shall not be left penniless and homeless. Just their wealth shall be taken away, and they shall be left with means. All non-immigrant citizens shall have this right to be left with a reasonable court-approved amount of non-luxury household items, and up to one year's wages in other assets if they

are childless. They shall be left with no less than 2-years wages if they have one or more children.

14/ No money court compensation shall be awarded where the plaintiff is judged to be more than 20% responsible for his own injuries. Where the plaintiff is judged to be between 10% and 20% responsible for their own injuries, the money courts shall generally not award compensation to the plaintiff.

15/ Those who trip or slip wearing heels over 4cm, or shoes with slippery soles shall generally be held to be entirely responsible for their injuries.

16/ When plaintiffs have unusual health conditions that aggravate their injuries, the defendants shall not be liable for the damage resulting from the unusual health condition.

17/ When intoxicated people and those with certain drug and alcohol licenses or addictions suffer an injury, they shall generally be held to be at least 80% responsible for their own injuries.

18/ Those trespassing on private property shall generally have no right to judicial money except in cases of intentional harm or booby trap.

19/ Those walking on public property, or straying up to 3 meter into unfenced private property shall have no right to recover damages if they slip or trip and fall. However, they shall have the right to recover damages for injury due to dangerous plants such as cactus and poison ivy.

20/ Land owners may be held financially responsible for trespassers who fall into uncovered or unfenced wells, holes, trenches, cliffs, soil cuts, quarry pits and mines. When the special dangers are covered or fenced and warned of by sign and map system, the owners shall generally not have any liability for injured trespassers.

21/ For the purposes of trespasser liability, even a 1.6 meter tall fence or wall shall suffice.

22/ A reasonable time shall be given for people to correct most dangerous situations before being considered negligent and liable.

23/ Retail businesses shall generally have no liability for wet areas and spills that are properly marked off with cones or barriers. Also, retail businesses shall generally only have liability for spills after the business was alerted and a reasonable time for action has passed. Warning people about dangers shall not be considered an admission of guilt.

24/ In general when a random injury could just as easily have occurred anywhere, the property owner public or private shall suffer no liability. So when random events such as lightning strikes, or street crimes, or car accidents occur on private property, the property owner shall not be liable for damages

simply because the event occurred on their property.

25/ Government shall never be held financially liable for damages for violence against our nation, or by our nation against any other nation. All such payments shall come under the rules of treaties as stated herein.

26/ People shall be expected to watch where they are going to a reasonable extent.

27/ It is perfectly reasonable to expect the old and frail to be especially careful where they go and how they move about. It is also not unreasonable to say that when old and frail people suffer greater injury than regular people in their prime, they should get no more money.

28/ Government shall never be held to owe damages for poor enforcement, or failure to act, or poor planning, or for the foolishness of its citizen.

29/ No court shall have the power to compel the Senate and its government to pay any damages. Also, all court decisions are subject to veto by the Over-Senate.

30/ The right to seek money damages in court is not transferrable, or assignable. If a fictional citizen is merged, or bought-out, all cases in which it is a plaintiff shall be terminated. As well, the fictional citizen shall have no right to file any legal claims after the merger for the time before the merger or purchase.

31/ Those accidentally harmed by someone acting in self-defense, or community self-defense shall generally have no right to money damages.

32/ There shall be no financial liability when trained rescuers and emergency medical people working for government make honest mistakes. This shall include firemen, police, paramedics, ER staff, and ambulance companies.

NR'36. SENATE JURIES

1/ Except in matters of trifling and small claims, the nation's legal system shall not use appointees as judges or jurors. Instead it shall use confirmed Sub-Senators cycling out of Senate service.

2/ All Senate judges and jurors shall be randomly drawn from confirmed Sub-Senators on judicial duty. In both criminal and civil matters, the parties under adjudication shall have no input about the senators serving as their jury or judge, except when they personally know a Senator.

3/ All Senators shall randomly draw a specialty at the start of their tour of judicial duty. Once assigned to that division of the justice system, they shall randomly draw cases just before the start of each trial.

4/ The jury of Senators conducting and overseeing the judicial draws shall themselves be randomly drawn, and shall supervise the judicial draws on no more than one day in their life.

5/ In both criminal and civil matters, the parties under adjudication shall have no input about their trial venue. However, the trial venue shall not be within 15-km of where the victim/plaintiff frequented, or the accused/defendant frequented.

6/ To assure the safety of our jurors and to make the legal system invulnerable to threat of violence, the following jury rules shall be applicable:

a/ All matters of violent crime and immigration from desperate nations shall use Sub-Senate juries of 21.

b/ Matters of super-violent criminals, or murderers shall use Sub-Senate juries of 41.

c/ Matters of organized criminals shall use Sub-Senate juries of 61.

d/ Matters of organized crime bosses, matters of judicial precedence or policy, matters of national media attention, and matters where any sort of jury threat is credibly alleged shall use Sub-Senate juries of 201.

e/ Matters involving information kept secret from the public shall use Sub-Senate juries of 1,001. No jury of less than 1,001 Sub-Senators shall have the power to keep any information secret.

7/ The national Judicial Sluice shall administer the national judicial system, to include its police, evidence examiners, prosecutor's office, jails, prisons, and courts. The county Judicial Sluices shall administer the county judicial systems, to include their police, evidence examiners, prosecutor's office, jails, prisons, and courts. Both judiciaries shall appoint a corps of law librarian overseers, sworn to unbiased honesty and truthfulness, to give guidance to the courts and improve the accuracy of our decisions.

8/ Senate juries shall judge in the legal system and judge in matters of government administration.

9/ No military court shall ever judge in time of peace or judge civilian citizens.

10/ Once a Senator is randomly assigned to his legal specialty, he shall sit for the prescribed number of hours of video instruction for that specialty. This shall not be so light as to produce undertrained judges, nor so heavy that it discourages Senate service. There shall be more than 50 specialties which shall include:

a/ Legal immigration approvals.

b/ Illegal immigration prosecution.

c/ Customs inspection.

d/ Customs tax evasion.

- e/ Weapons violations.
- f/ Theft and robbery.
- g/ Drug licenses.
- h/ Assault and battery.
- i/ Sexual assault and forcible sex.
- j/ Trademarks and business names.
- k/ Software IP.
- l/ Micro-electronics IP.
- m/ People's corporate proxy management.
- n/ Tax enforcement.
- o/ Property tax assessor.
- p/ Recorder's office.
- q/ Employment law.
- r/ Military courts.
- s/ Civil rights violations.
- t/ Government purchases for one sluice.
- u/ Recorder's office.
- v/ Patent application intake.
- w/ Real estate boundaries.
- x/ Monopoly regulation.
- y/ Family law.
- z/ Building inspection.

NR'37. JUSTICE WITHOUT INCENTIVES

- 1/ No testimony given for reward or payment shall be admissible in court. This shall include fees, commissions, incentives, suspended sentences, and expert witness fees.
- 2/ Nobody shall make any gifts whatsoever to police or criminal justice people other than water, coffee and ordinary tea. There shall be no charities for police or criminal justice people, except those that die or are disabled in service.
- 3/ There shall be no commissions, incentives, quotas, or performance-based pay, stated or implied for any officers of the justice system. Nobody and certainly no accuser shall ever receive a share of property confiscations. The only exceptions to the foregoing shall be rewards paid for information leading to the arrest of criminal and illegal aliens.
- 4/ Government and only government shall operate all prisons, jails, police forces, courts, probation administrations, taxation administrations, parking enforcement, and all other aspects of the criminal justice and taxation system. Only full-time government employees and not contractors shall have the power to arrest, to issue court summons, and citations on behalf of government.
- 5/ We shall learn from the Romans about tax farming. And we shall remember our own experience with the East India Company in the Boston Tea Party. Never shall we permit tax farming, or policing for profit, or monopoly under our watch.

- 6/ The purpose of government fines shall be to deter and punish acts, rather than to incentivize and nourish the enforcement administration. Therefore, no less than 90% of all government fines at all levels and departments of government shall accrue to the general fund of the national government. Where the fine exceeds a tenth of a year's wages, the percentage shall be 95%. Where the fine exceeds a year's wages, the percentage shall be 99%
 - 7/ Except for victim property that is recovered and returned to its rightful owner, all police seizures, confiscations and fines shall accrue to the national government's general fund and none shall accrue to the county government.
 - 8/ All destruction of assets seized by police shall be disposed-of by the County Senate with police watching. It shall be considered corruption when a police department keeps, sells, gives away, or destroys any assets they confiscate.
 - 9/ The proceeds from seized criminal assets shall not be used for restitution to the victims of other crimes.
 - 10/ All plaintiffs represented or not shall have a plaintiveness rating in consideration of how much business they have done. They shall have all results and how much money was awarded in all past cases. This way everyone automatically knows what sort of people they are dealing with.
 - 11/ In all court proceedings nobody shall talk or make noises of support or objection. There shall be no claque. Clacking should be seen as conspiratorial, and an act of contempt for the court.
- NR'38. NOT FOR THE CIVIL COURTS**
- 1/ The following matters shall not be tried in any civil court in the nation. They shall either be tried in criminal court, or fined by the Senate's enforcement administration:
 - a/ Environmental harm.
 - b/ Manufacturer liability including products alleged to cause latent health issues like cancer.
 - c/ Racial, or religious discrimination or harassment.
 - d/ Rape, forcible sexual conduct, sexual abuse, sexual discrimination, or sexual harassment.
 - e/ Disability discrimination or harassment.
 - f/ Unfair labor practices.
 - g/ Professional malpractice, including medical malpractice, and performing illegal medical procedures.
 - h/ Securities fraud.
 - i/ Market manipulation.
 - j/ Abuse of monopoly or cartel pricing power.
 - k/ Accidents on public property, or between the

sidewalk and the street.

l/ Death or injury due to vehicle accidents.

m/ Death or injury due to group transportation systems.

n/ Government financial liability to the people.

o/ On the job injuries.

2/ No civil court or arbitration forum shall compel anyone including government to pay money for any of the preceding matters. Only the Senate's enforcement administrations may collect fines for the preceding matters.

3/ In all of the preceding matters, all fines and damage compensation monies shall accrue to the nation's general fund, and no portion of any government fine shall be earmarked-for or shared-with any other party, including the party harmed.

4/ In all of the preceding matters, the amount recovered from each injuring party shall have no relation to the amount paid out to each injured party. If government elects to compensate those harmed, this shall be done as a separate case, and total payments shall not exceed the government's budget for this class of injury.

5/ Money court is primarily for disputes between the people. It is not a place for the enforcement of public policy unless the public policy has been shown to be ineffectively enforced by the normal means of government regulation.

6/ We must give our new laws time to work through normal means before we give a share away to volunteer prosecutors. Only when public policy can't be enforced by the normal means of government regulation. Only then, after at least 12 years may money court be used for enforcement. Only then may volunteer prosecutors get a share of huge fines that are rightfully the sole property of the people.

7/ Unless a culture of sexual harassment is both widespread and tolerated by the management of a fictional citizen, all acts of sexual harassment shall be considered to be a matter between individuals.

8/ All claims against professionals shall be heard and judged by the various professional licensing and regulating departments of government. As with most branches of government, these regulators shall have some experience working in the field they are regulating.

9/ No professional shall ever suffer any penalty for following standard procedures for their profession.

10/ No duly certified medical people shall ever suffer any penalty for following standard treatments, or for reasonable misdiagnosis, for typical unfortunate outcomes, or for a reasonable ratio of honest mistakes in their career of helping people.

11/ Consent for medical treatment shall not be needed when people are unconscious or delirious and will suffer great harm if not rapidly given treatment immediately.

12/ In crisis situations where medical care is unavailable or distant, people with any level of accurately disclosed medical training may furnish medical care to the critically injured without fear of prosecution or liability.

NR'39. LAWYERS.

1/ Lawyers only add a small margin of accuracy to the legal system, yet they take away much more:

a/ Lawyers act as a tax on the monies paid in compensation through the legal system. In the money law or civil law system, this has been generally a tax of around 1/3. Thus the existence of lawyers in the civil law system generally increase the cost of settlements by 50%.

b/ Lawyers drive the legal system towards unnecessarily complexity and costliness with little improvement in legal accuracy.

c/ Lawyers unjustly favor the rich who can afford their fees, and unjustly disfavor the poor who cannot. And these fees are no small thing, because they typically run 10 to 50 times the average wage for workers. Thus lawyers are unjust because they favor the rich over the poor in our supposedly unbiased justice system.

d/ By making each matter the legal system considers more expensive and complex, lawyers reduce the number of legal decisions the system can adjudicate. The injustice caused by this reduction in legal capacity or legal reach greatly exceeds the justice achieved by the minor improvement in legal accuracy.

e/ The current legal system has many of our smartest arguing over what society already has instead of working to produce new things for society.

f/ When the richest foreigners hire the best law firms, they tend to win against native citizens speaking for themselves. In fact, native citizens normally proceed with trepidation against prominent law firms that are for sale to the highest bidder. This mostly helps the sort of rich people and foreigners that work in economic parasitism.

g/ The adjudication speed of legal system becomes slower and the economy more lethargic.

2/ For the above reasons, this nation shall institute a legal system that disfavors, hinders, and minimizes the use of lawyers in its courts.

3/ Government shall have special taxes on lawyers to reduce the number of lawyers.

4/ There shall be no official or private ranking of lawyers. This shall apply to law class rankings, in law school rankings, or in any government qualifying exams, or with regard to win-loss results. All law classes shall be graded pass fail.

5/ The study of law shall be taught as an ordinary college degree, not a post college degree.

6/ A lawyer's first duty shall be to make sure that justice is served. This shall be held more important than if his client wins. To do the converse is an evil thing that only existed because the injustice benefitted Arab parasitism.

7/ No lawyer should ever give the appearance that their first obligation is to their client, and that they will knowingly argue injustice to anyone who pays them. To do so shall be considered an ethics violation.

8/ All lawyers shall disclose the fact that they are a lawyer in all communications, contracts and all marketing for their products. If a lawyer represents a client, that client must always be named. If the client is foreign, that fact must also be acknowledged by the other side given its importance.

9/ Lawyers, court surrogates, and almost everyone else in the legal industry shall be prohibited from shielding the identity of their clients, and must always state this relationship first.

10/ Lawyers shall not advertise or procure advertising or marketing services, or product placement advertisements, or media communications, engage in government lobbying for themselves or for others.

11/ Lawyers shall not be paid based on successful outcomes as this creates incentives that run contrary to justice.

12/ Lawyers shall not be allowed to advise or represent people in divorce, child support, custody, immigration, malpractice, and other areas the Senate may elect. This goes for in-court, as well as out of court.

13/ Lawyers may not hold documents in confidence for others.

14/ All agreements for the provision of lawyer services must be posted on the nation's lawyer payment system, or they shall be unenforceable. All monies shall be paid to lawyers via the nation's lawyer payment system, or they shall be considered unpaid under the law. It shall be the felony of lawyer fraud for lawyers to work with clients or accept money or benefits outside the lawyer payment system.

15/ All payments and agreements made under the lawyer payment system shall be easily searchable

public information.

16/ If a lawyer becomes aware of a crime, he must report it, or he shall be guilty of failing to report a crime.

17/ The courts shall not award any more damages when a party is represented by a lawyer, or because a party is represented by a lawyer.

18/ The process by which lawyers and surrogates are licensed shall be entirely managed by the national county recorder licensing system. No fictional citizen or bar shall have any say in licensing, de-licensing, or any other matter concerning lawyers or surrogates. There shall be no unions or partnerships of lawyers.

19/ All judgement and settlement amounts must be paid to the court. It shall be considered fraud if anyone else offer, give, or receive any payment directly from another party in a court matter.

20/ Lawyers and legal surrogates can only collect money in advance, and they have no legal right to collect on bills for their services.

21/ When a fictional citizen is sold, all existing plaintiff-side law suits shall be cancelled and forfeited. Also, the new owners shall have no right to seek damages from the relations of the prior owner.

22/ Lawyers shall not be allowed in non-injury matters in vehicle court, or where 4 of 4 regularly-calibrated county-operated breathalyzers show alcohol intoxication over the legal limit. All drivers must provide breath samples to police or they shall be presumed guilty. Where driver pass the breathalyzer test but have a drug license, they must allow blood to be taken.

23/ Lawyers shall only do business in their own name.

24/ Lawyers shall not be allowed to work obtaining government approvals.

NR'40. COURT SURROGATES

1/ The accuracy of the legal system counts for little if the system is so costly and professionalized that it is out of reach for most citizens. Therefore, legal accuracy shall be balanced with accessibility, inclusiveness, speed, and ease of use by the people.

2/ The legal system shall be designed so that most people speak for themselves in court. Those unable, or unwilling to speak for themselves may use a legal surrogate to speak on their behalf. There shall be no charge for this. However, legal surrogates shall suffer from a number of disadvantages intended to make the use of legal surrogates into something that most people involved in court cases avoid if they

can.

3/ All legal surrogates and lawyers, shall work for the court system on a salary. All legal surrogates, shall be paid through the court system exclusively, and it shall be a felony for a legal surrogate to receive any payment outside of the court system from or for those they have represented in court.

4/ All legal surrogates, shall be randomly assigned to court cases by the courts. Numbered smooth plastic discs shall be rapidly drawn from a bag.

5/ There shall be 4 specialties of legal surrogates, serious crimes, minor crimes, civil/ money court, family court.

6/ All legal people qualified to work in one court in the nation shall be permitted to work in all parts in the nation. There shall be no shenanigans about legal people being admitted in some places but not others.

7/ No person working in the justice system shall be paid based on the outcome of their work, or as a percentage of the money they obtain from the system. This prohibition expressly includes all lawyers and legal surrogates.

8/ The educational program to become a legal surrogate shall take 60 weeks of study. The educational program to become a lawyer shall take 120 weeks of study. Neither program shall require a college degree for admission.

9/ Legal surrogates shall not be allowed to work as lawyers and lawyers shall not be allowed to work as legal surrogates.

10/ All legal surrogates, shall only serve as total surrogates in court. If an authorized surrogate says one word before a judge or arbitrator on someone's behalf, then that surrogate shall have the irrevocable obligation to settle that case on the client's behalf, except where the surrogate is clearly incapacitated. In that case a new legal surrogate shall be randomly drawn by the court.

11/ So that our nation's lawyers and legal surrogates drive towards justice rather than against it, all lawyer-client and legal-surrogate-client communication shall be recorded and monitored by the lawyer payment system and the courts. All communication that occurs outside this system with legal advisors or legal surrogates shall be presumed to be conspiratorial and criminal on both sides. It shall be a crime to initiate contact outside of justice system monitoring — like police and police bribery. Also, government may conduct sting operations here on both sides.

12/ All lawyer-client and legal-surrogate-client communication shall be recorded for public viewing.

This is notably the opposite of the old system where attorney-confidentiality supported the value of super-expensive lawyers corruptly swaying the justice system. Confidentiality, otherwise known as darkness shall in general be considered the wrong direction for democracies, and all democracies should push society more towards openness and free discussion wherever possible. Here we also note that with journalists and psychoanalysts, confidentiality also supports expensive consultants.

13/ The prime duty of all legal-surrogates is discovering the truth and aiding justice, not represent their clients. If a legal-surrogate becomes aware of important facts related to his cases, he must make them available to the court. And if a legal-surrogate becomes aware of another crime, he must disclose that information to the court.

14/ legal-surrogates shall not in any way encourage people to change their testimony or suggest that they should stop talking at any time. If they are wasting the time of the court through excessive talking it shall be for the judge(s) to cut off their testimony, not any legal-surrogate.

15/ No more than one legal-surrogate at a time shall be permitted per side per case, and all legal-surrogates shall be required to work independently from one another physically, legally, financially, and with regard to the discussion of pending cases. There may however be multiple prosecutors in criminal cases. And when the people are seeking something in money court, there may send more than one person.

16/ All legal-surrogates must work full time for the court system and shall not work outside the court. All legal-surrogates in each county must be paid at the same hourly rate. Legal-surrogates shall not be paid based on how many cases they work on, or whether they win or lose. It shall not be permitted to rate legal-surrogates, or aggregate their win/loss information. Except caffeine, legal industry people can't take any drugs or drink at all.

17/ When legal-surrogates oppose principals in court, the principal shall speak first and last.

18/ People over age 9 shall generally be expected to speak for themselves in all matters of family law including divorce, custody, support and inheritance, unless they are incapacitated or mentally incompetent.

19/ Parents, children, full siblings and spouses and domestic partners of more than 3 years shall not be considered legal-surrogates when they speak on behalf of others.

20/ Those who have spent more than 8,000 hours in

the prior 5 years working for a particular fictional citizen shall not be considered a legal-surrogate, provided they have not spoken for a fictional citizen in any court in the past 5 years.

21/ Those who have owned more than 1% of a for-profit fictional citizen since its founding shall not be considered as legal-surrogates for that fictional citizen, provided they have not spoken for a fictional citizen in the past 5 years.

22/ The people should have nothing against electing court-employed surrogates to the Senate. The people should however, generally dis-favor lawyers.

23/ Those who have outbursts in court may be required to use a surrogate.

24/ No lawyer or surrogate legally doing their job shall ever suffer prosecution, or be required to pay money for unfortunate outcomes, or bad representation.

25/ Our layman's court will operate differently by necessity. The cases will be conducted by a county Senate approved trial clerk. These clerks will conduct trials much like how escrow officers conduct escrows, with the Senator judges having the power to override in many circumstances. There will also be law library teams standing-by for video calls from the various courtrooms.

26/ The Senators should have a 3 warnings system for surrogates, like with the DMV. If a surrogate gets too many recesses, with the Senator judges saying they didn't prepare well enough, then they can get fired.

NR'41. JAIL AND CRIMINAL PENALTIES

1/ Our nation shall have three sorts of long-term incarceration for law breakers:

a/ Prison. This system punishes with boredom and reconditioning media. Those locked up in prison get no electronics except armored rehabilitation media players with no off-switch or channel selection. This media streams for much of the day for good inmates, and up to 24-hours a day for the bad inmates. Prison shall be seen as a place of forcible re-education, however, for some heinous life sentence crimes the reconditioning media may be played loud and for 24 hours a day,

b/ Work camp. Here is where prisoners work 50-80 hours a week and get only perhaps 8% of their low prison wages in return. If prisoners can find remote work that pays more, they can do that, but the government/prison still gets its

share of the money. The life in work camp is much better than prison. The inmates get restricted internet and computer use at night. The inmate also gets to buy certain mail order things online. And the rehabilitation media is not playing all the time. However, the inmates must sit and watch the 30-minute morning show when they wake up, the 30-minute lunch show, and the 30-minute dinner show before lights out.

c/ Island isolation. Here the focus is on keeping people away from society for the longest period of time, so the living conditions are the not so bad. Island isolation is a more livable form of work camp. Here, rather than sending a convicted pedo to a tiny cell for 10 years, we will instead send him to an island for 20 or 30 years and eliminate him from society for two or three times longer. The niceness of the place helps us to feel we have acted fairly with the longer sentences society really needs. 2/ Puuwai island with its remote location and security favoring sea currents shall be an incarceration island. The lowlands southwest of the lakes shall be a maximum security prison, with a double walled no-man's-land at the west end of the lakes area. The remainder of the island shall be an island isolation work camp. This shall be the nicest work camp island in the system, however it shall be reserved for life inmates.

3/ Catalina, Nicolas, and Clemente islands shall now be work camps for longer-term work-camp inmates. For work camps sentences under 5-years the inmates don't need to be on an island if we have reasonable escape penalties. Nicolas island shall be less desirable than Catalina. Clemente island shall be the least desirable of the three work islands and reserved for violent criminals. Clemente island shall be cut up into multiple graded sectors depending on how dangerous the prisoner is. All island work camps are intended to offer a way for society to rid itself of people for longer periods of time under lower degrees of punishment and less security. The inmates that keep up with their daily work/education schedule get more free time to move about the island. The inmates get to use their share of their prison wages for

buying certain sorts of things online for viewing or delivery.

4/ Miquelon, Saint Pierre, and the nearby peninsula in Newfoundland shall also be for work camps and prisons.

5/ It is a condition of entry to all island work camps that the prisoner must waive their right to appeal and all in-person visitors, including lawyers and family. On Puuwai and Catalina island work camps, inmates must work 50 hours a week to pay for their incarceration. On Nicolas island they must work 60 hours a week to pay for their incarceration. On Clemente island, they must work 70 hours a week to pay for their incarceration.

6/ It is wrong and dumb to release certain sorts of extreme criminals — for they will never be hired or accepted in any community if their crimes are rightly disclosed to the innocent law abiding people around them. What are we to do with people who can never be welcomed to any community that knows about their criminal record? Shall we not tell their neighbors and co-workers? No. Certain crimes should get a person removed from society forever. And if we think there are mitigating circumstances, then we should send them somewhere to live forever that is not so bad. But all the truly awful criminals should go away forever. This includes certainly the people who try to kill someone but fail, as well as those who shoot, or stab others outside of self-defense or accident. It may also include other forms of extremely bad criminals. Also, it should be a rule that the more severe crime, the worse the prison experience.

7/ The Senate shall compile a list of permanent isolation crimes, where the convicts are sent to an island to live forever.

8/ All inmates shall wear a location manacle 24 hours a day. This manacle shall have location tech and may have a taser cuff. All prisoners shall be required to keep their manacle charged and not try to destroy it. The guards shall have two taser buttons. One tases all inmates within some meters. The other is a point and shoot virtual gun that tells the system to tase a specific inmate through the controller's position and direction.

9/ Inmates are not supposed to talk to lots of

other inmates and learn about how to be better criminals. The number of inmate associates each prisoner is allowed in each year shall be limited. The incarceration system shall establish social distancing rules with warning buzzers when the inmates get too close to one another. These may vary depending on the institution and the inmate.

10/ Inmates shall be matched for weight, age, and ferocity with those they may encounter during their time under lock up.

11/ There shall be no conjugal visits, furloughs, or face to face contact between inmates and outsiders. All communication shall be via video, and all communications shall be saved for 10 years after the convict is released or dies. All inmates may have up to one minute of communication with the outside world daily provided they don't violate the communication rules. Convicts shall not have the right to marry while in prison, or for 180-days after their release. Sentences longer than 3-years shall be automatic grounds for divorce and issuance of a restraining order.

12/ Those incarcerated shall live under 24-hour audio-video surveillance. Inmates may also be required to wear various cams.

13/ Those who talk about crime or have sex while in prison shall have their sentence extended. Those who have forcible sex with other prisoners shall have their sentence greatly extended and they shall be housed separately from other prisoners. Government may put anti-sex or anti-erection drugs into the prison food if the inmate is having sex.

14/ inmates with contagious diseases such as HIV shall be separated from other prisoners not infected with those diseases.

15/ Work camp and Island interment inmates that do not follow the rules or keep up with their work shall be moved to prison where they shall serve the same long sentence.

16/ Prison labor shall be auctioned-off twice a year to the highest bidder in the county the prison is located in. All money taken in by government for prison workers, and not held on behalf of the prisoner shall be credited to the national government. Never shall any party other than the prisoner and the national

government get any of this money.

17/ Inmates that are not deported upon their release shall get a parole account with a second share of their inmate wages in it. This shall be another 8% of their prison wages. This money may only be used for housing and ingredient stamps, and it shall be doled out at an appropriate daily rate until it runs out. Anyone convicted of new crimes before their money runs out shall lose everything in their parole account.

18/ Something is wrong if our land of the free has a remarkably high percentage of its citizen population in jail or on probation.

19/ Government shall not have any secret prisons and nobody shall be secretly incarcerated by government. Under the law, it shall be considered kidnapping and slavery when people work in prisons or jails that are not shown on most prisoner maps and databases and not known to the Senate.

20/ The penalty for participating in a prison riot shall be 5 more years.

21/ All new incarceration cells for citizen prisoners shall be kept below the NOAA heat index of 93°F. The bottom temperature shall be kept above 67°F.

22/ The courts shall be permitted to take away various rights and public utilities without putting people in jail or work camp. The courts may also deny convicts the right to have a money account, or to have a transport system access account, or a road system access account. The courts may restrict the internet access of convicts and deny convicts the right to have arms and certain types of communication devices. The courts may compel convicts to always carry a tracking device. But these things are the domain of convicts and that they are expressly stated as the domain of convicts is intended to make them harder to impose on free men. Those who secretly track the people in large numbers may be charged with democide.

23/ All jail equipment and practices shall be approved by the national Senate. No other equipment shall be used inside the nation's jails and prisons.

24/ Except for those people being transported, treated medically, or executed, no restraint

chairs or restraint racks shall be used. Irritant sprays and gasses shall not be used on inmates except during riots, uprising, or when an inmate is having a physical altercation with the guards.

25/ Everyone in jail shall have the right to a toilet, toilet paper, and safe drinking water from a sink. All inmates shall get at least 10 minutes for showering every third day. All showers shall be by precise solitary time slots. All prison meals shall be catered in the cell by other inmates which are not allowed to talk or engage with the people in the cells.

26/ There shall be a national incarceration database that includes everyone held in jail in our nation. This shall be searchable by name, arrest location, and arrest date and time. This database shall also show trial status and where everyone under arrest is being held. It shall also have the email address of each convict, as well as other contact information for people in jail awaiting trial.

27/ It shall be a felony to be involved with treating political prisoners worse than normal prisoners.

28/ Those who have been convicted of violent or dangerous felonies shall have their felony conviction crimes displayed on all their official identity documentation pages. If there is video evidence of their crime, that shall be shown too. Recorded racist and violent statements may also be displayed. The Senate may elect to do this for the life of the person, or for a shorter period of time.

29/ Minors convicted of violent felonies and sentenced to prison shall only get shorter prison sentences because they were minors. Violent felons shall no longer get a clean slate if they were minors. The rights of the people to know who is a crime risk shall always be considered more important than the right of the criminal to a clean slate, even if the criminal was a minor when they committed their horrible felony.

30/ Convicted felons shall lose all right to keep certain identity information confidential as determined by the Senate.

31/ It shall not be against the law for employers and landlords to discriminate against those with convictions for violent felonies or sexual felonies. Commercial enterprises however, must

take their business so long as they act peacefully and obey the law.

32/ One advantage of not having a minimum wage is that we can have accurate statistics on how much one's earning power is reduced by the various sorts of criminal convictions. This will help kids understand that it is not the prison stint that is the worst part. The life-long stigma and reduction in career opportunity often adds up to an even bigger punishment.

33/ All felons shall be disqualified from voting, owning or holding a firearm, from working with other people's children, and also from receiving public dole benefits. Where immigrants are convicted of a felony, their immigration status shall be automatically canceled. No felony conviction shall however disqualify a person from obtaining a drivers license, occupational qualification, or professional license, although the occupational record will show that the person was convicted and served their time.

E — GOVERNMENT FINANCES

NR'42. INCOME AND CONSUMPTION TAXES

1/ The taxation of net income shall be prohibited except in industries, activities and ownership rights that have been elected for curtailment by the Senate. Except in these curtailment industries, government shall be prohibited from taxing work, net income, investment income, or investment gains in any way.

2/ It shall be noted that general sales taxes are superior to general income taxes for the following reasons:

a/ Income taxes discourage work and especially savings and lending by taxing them all.

Consumption taxes on the other hand do not discourage saving and money lending because the interest income is tax free. The previous income tax system seems to have been fostered by Ishtar to reduce competition when it lends its stolen money back to us.

b/ Income taxes tax return on investment, and thus reduce the rate of economic expansion.

c/ Consumption taxes are much harder to cheat on.

d/ Taxing income encourages people to take on debt expenses to reduce their net income. This greatly increases demand for lending unnecessarily and creates a higher interest rates situation that is purely negative for economic expansion.

e/ Consumption taxes allow for IP protection periods to be shortened by more than 1/3 with no loss of after-tax income for inventors.

f/ Consumption tax systems can be easily sloped to defend against foreign predatory pricing. Income taxes favor and subsidize foreign producers in low tax nations.

g/ Unprofitable enterprises with many employees pay no tax under income taxes. Thus income taxes are inherently biased towards keeping inefficient labor uses alive. Thus income taxes harm labor productivity. Consumption taxes do the opposite and drive the economy towards increased labor productivity.

h/ Consumption taxes for businesses and non-profits can be made progressive in a much fairer way than income taxes, which are inherently vulnerable to cost loopholes. Thus we can charge a higher tax for larger enterprises than smaller ones based on turnover. Thus they we can slope the economy away from an anti-competitive industry consolidation situation, and towards a competitive and vibrant ecology of small businesses.

i/ The only problem with consumption taxes is that they are regressive. This however is easily counteracted by excluding certain necessities of life from consumption taxation.

3/ There shall be no tax on tools, capital equipment, production machinery, devices used to mass produce goods, and materials for manufacture when they are used purely for commercial purposes. The word purely is emphasized here. Vehicles used for both commercial and personal use shall not be considered capital equipment. Vehicles that weigh under 3,000KG shall not be considered capital equipment unless there is only one seat, or 12 or more seats.

4/ Manufacturers shall pay no tax until their products are sold, leased, or otherwise put into use.

5/ Businesses that sell to the final consumer for a profit shall pay an additional sales tax of at least 1%. Enterprises that sell to the final consumer, but are non-profit and community-run shall be exempt from this tax.

6/ There shall be a car dealer sales tax of 2%. This tax shall apply to all transactions where the vehicle seller is neither the manufacturer nor a user of more than 90 days.

7/ The counties of our nation shall not compete with each other in offering special tax breaks to attract industry.

8/ To slow industry consolidation, whenever a company is sold for more than 1,000 years shall

pay, income tax of 20% shall be due on all amounts over 1,000 years wages. When a company is sold for more than 50,000 years shall pay, income tax of 30% shall be due on all amounts over 50,000 years wages. Under this tax scheme, it will be very hard to make up the tax money, and most will chose not to sell out to the competitors. Thus the economy will tend to remain younger and more dynamic.

9/ All lawyers and commission sales people shall pay income tax of at least 30%.

10/ Industry-specific income taxes shall be imposed on actors, musicians, professional athletes, and other occupations where excessive pay is either detrimental to the national economy, or the ambitions of the nation's youth. These occupations shall pay 90% income tax on income over 3 times the average wage.

11/ All money collected by fictional citizens that claim to aggregate, represent, or further the interests of an industry, a product group, or a special interest shall be subject to an income tax of at least 50%.

12/ If there are annual tax filings, they shall be due on June 15, four days before voting day. Also, starting in 2024, the fiscal year shall be April 15 to April 15. Separating the calendar year from the fiscal year is expected to result in more economic stability.

NR'43. LUXURY TAX

1/ The Senate shall tax all luxury and ostentation value by at least 30%. The Senate shall be allowed to tax ostentation value by over 1,000-fold if it elects.

2/ If the Senate elects that people are buying status or cachet from any source, it shall impose a luxury tax on that source of corrupt and purchased status.

The Senate shall defend the value of legitimate Senator and Ubiq status from corrupt competition.

3/ Cool and cachet shall be considered as luxuries and thus subject to luxury tax.

4/ Products with obtrusive product identity, and other branding that hijacks the public's attention shall pay luxury tax.

5/ All gourmet, natural, sustainable, and imported comestibles shall be subject to luxury tax. Any product that claims to be organic, natural, preservative-free, pesticide-free, fair trade, free of genetically modified organisms, or any other self-imposed limitation that makes a product artificially scarce shall be subject to luxury tax.

6/ Passenger vehicles charges that are more than 10% over the median price shall pay luxury tax unless they are shared by a community.

7/ The Senate shall require that luxury products over a low value be numbered and registered with the public luxury product's registry website. Anyone using a luxury product, must be registered to it and have their unnamed photo posted on the registry website. This way when anyone runs the luxury product number, the owner's picture will come up. It shall be considered tax fraud for anyone to have luxury goods without having paid the appropriate tax. Also, given that there will be no cash in circulation, and all luxury products will be numbered, theft will get much harder to get away with.

8/ Luxury products shall not be purchased with cash.

9/ It shall be a crime to gift a luxury product without declaring it to government.

10/ People under the legal age for prostitution, and not accompanied by their parents shall not be allowed to use luxury products. It shall not be allowed to make or advertise luxury products for people under this age, as this corrupts our youth with greed, envy, and shallowness while they are young and their character is still pliant.

11/ Until mankind has ended human hunger, and put away enough food for the next ice age, all pet products and pet related services (including pet medicinal expenses) shall be subject to luxury sales taxes of no less than 100%. After this time, the UM Over-Senate shall determine an appropriate uniform pet supplies and pet services tax for the world. All animals shall be considered pets except where they are kept in large numbers and either eaten as food before they are fully mature, or they produce young to be eaten, or they produce wool or another bodily product to be harvested.

NR'44. TAXATION RULES

1/ No tax, charge, or fee shall be laid by government, unless proportioned to population, meterage, use, cost, comparable sales price, spending, government benefits received, or some other quantifiable and sensible metric.

2/ The overall tax rates for the various sorts of taxpayer, both human and fictional citizen shall be measured in terms of income. However the income of real humans shall not be taxed because this motivates people to work less, and we don't want government to motivate people to work less in any way. Government's bias must be towards motivation, not demotivation.

3/ As we are not affording fictional citizens any benefit under the law that we are not also affording to real citizens, then the fictional citizens must have the same overall tax rate as a share of income.

4/ Government's average tax burden for the entire economy shall not exceed 44.1% of income to start. Disfavored sectors like lawyers and commission sales people may have higher tax rates than this. When there is a surplus, this number is supposed to be tightened down so there is no surplus. For spending will always find a way to go back up again unless we tighten it down with a new lower limit.

5/ The Over-Senate elects what the overall tax amount will be. It also sets budgets for the various sluices of the Main-Senate. Because county taxes are variable, the Over-Senate will elect the national uniform tax plus the average for county taxes.

6/ Government income from new township lots and strata titles shall not be considered taxation of private sector income.

7/ Business revenue taxes (also called sales or turnover taxes) are good for the economy because they drive towards higher business efficiency. This is because low margin and labor-inefficient businesses pay more per dollar of profit than with income taxes. But we don't want to only use business revenue taxes because it over-stimulates the high-margin regions of the economy while causing domestic weakness in the low-margin regions of the economy. Therefore we ultimately want a FC tax system that is somewhere around half income tax and half sales tax.

8/ Adding a sales tax component is not something that should be done overnight to a nation's industry. It must be phased in or it will cause mass unemployment and a shock to the system. So we will start with 1/4% sales tax and go to 1/2% in year two, 1%, then 2%, 4%, 8%, 12%, 18%, 24% 36%, 48%. Thus it will take us 11 years to reach a 50/50 situation if we want this for our business taxation.

9/ The following shall be exempt from all forms of taxation and government fees for citizen purchasers:

a/ Public transit.

b/ Tier-1 and Tier-2 healthcare.

c/ Serious education fees and serious learning materials.

d/ Per-capita housing expenses under the 20th percentile for the nation as a whole. This is intended to drive the poorest 20% from from the nation's most expensive cities.

10/ Basic food ingredients costing less than a given price per kilo, as established by the Senate shall be tax free. To start this amount shall be \$5/KG (\$2.27/ lb.). Food costing under this amount by weight shall pay no tax. This tax exclusion for weight shall not apply to beverages, fruit, food called organic, or natural, or sustainable, or any groceries where

sugars natural or added are more than 8% of total calories.

11/ No portion of anyone's tax payments shall be allocated according to the election of the taxpayer.

12/ In order to support a system of high sales tax reporting, it shall be considered tax fraud for anyone to sell anything in this nation without using a real time tax reporting device and receipt generator.

13/ Sub-layers of governments shall not complicate the nation's tax system with their own additional tax laws, tax filings, or tax conditions. All counties shall comply with the Senate's Uniform County Tax Code, selecting which tax rates and which optional clauses they want to implement.

14/ Higher taxes shall apply in the old inefficient automobile-based districts than the efficient new rail based districts. These taxes shall reflect true cost of operation by the public.

15/ Tax money from the rail-based districts shall not be used to subsidize the automobile districts or the intercity road system in any way, either directly or indirectly.

16/ The various county tax collectors shall collect and administer the intake of both county and national taxes. These offices shall not be administered by the national government. However, the national government shall perform redundant auditing of the both the county tax collection system and taxpayers.

17/ All real property taxes shall be based on square meterage, or acreage of land and square meterage of improvements based on the category of land and the category of structure. These categories shall be established at the national level for all real property in the nation.

18/ Tax rates and assessments shall take no consideration of a property's age or condition.

19/ All ceilings over 3 meters shall pay 1.5X taxes. All ceilings over 4 meters shall pay 2X taxes. All ceilings over 5.5 meters shall pay 3X taxes.

20/ Property tax shall be due from all real estate owned by both the people and their government. This is so the people can accurately grasp the scale of land wealth held by government in proportion to the land wealth held by the people.

21/ Those who do not pay real or personal property tax when they should shall generally be regarded as having no property rights in that taxable thing. Those who pay less than 1/4 of their property's value shall generally be regarded as having no property rights. Those who pay between 1/4 and 1/2 of their property's value shall generally be regarded as having limited property rights. Those who pay over

1/2 of their property's value shall generally be regarded as having full property rights, but shall be subject to paying back taxes and a reasonable deter-hence fine.

22/ There shall be no statute of limitations with regard to those who bribe or otherwise corrupt the tax house. This clause shall apply to crimes committed before this Constitution was in effect.

23/ Government may pose as either buyer or seller in tax fraud sting operations.

24/ Government shall try not to charge for any service used by more than 1/3 of the people and which costs less than 60-minutes wages per citizen per teneth. Government shall try not to charge for any service used by more than 1/5% the people and costs less than 15-minutes wages per citizen per teneth. Any access, service, or supply of an earth mineral that can be efficiently and feasibly run by government as a universal free thing for all citizens should be run that way.

25/ So that government does nothing to discourage wall insulation, the interior walls surface shall be used in determining floor area, provided the walls:

a/ Contain no voids.

b/ Are less than 50-cm thick.

c/ The space inside the wall is permanently sealed and remains unused.

26/ To reduce the potential for fraud against government, there shall be no tax refund payments of any kind for at least 30 days after payment was made. Also, all requests for refund shall require a 30-days lead time.

27/ So that government never discourages the sharing of the nation's assets, there shall be no special tax on rented assets once the regular consumption and property tax has been paid. There shall be no transient occupancy taxes and no per day rental car taxes for example.

28/ Our nation shall stay within the taxation minimum and maximum set by the UM.

29/ The Senate shall attempt to map the main money flows and all wealth in the national economy for all to see.

30/ No government agency shall be partly owned by the private sector. No fictional citizen shall have any business that most citizens think is a thing run by the government. No government agency may be funded by discretionary funds from the industry it is regulating. The only source of funding shall be mandatory taxes and fees that accrue to the benefit of the Senate's general fund.

NR'45. WEALTH AND POVERTY TAXES

1/ For the long run welfare of the nation, the Over-Senate shall conduct regular sophoscites to elect an ideal wealth distribution curve for the nation. This curve is intended to balance the rapid advancement of the whole with help for the people left behind. The Senate shall then institute wealth taxes and flation to guide our nation towards this goal. The Senate shall err slightly on the side of rapid evolution and economic strength over equality and fairness as to do otherwise is to slow the advancement and progress of our society. The Senate shall not change this powerful master ratio by no more than one-half percent per year, and it shall start with the ratio that existed in 2015.

2/ As the productive power of money increases exponentially, so shall our wealth and property taxes.

3/ It shall be the stated objective of this nation to create a large middle class. To this end, government shall impose progressively withering taxes on wealth over 2,000 year's wages. Government may also impose poverty taxes on the time, comfort, convenience, and tastebuds of those who spend too long on public assistance.

4/ The law shall not be enforced more strictly against the poor than the rich. If anything, the rich shall be presumed to be more knowledgeable, and held to standards a sliver more strictly enforced, but only the faintest sliver, so we never go in the other direction again.

5/ The laws and tax code of this nation shall favor the people and the masses over the wealthiest 1%. The tax code shall strive to wither the wealthiest 1% so that they must continue to be active or they will regress financially.

6/ Government shall not aid the rich in times of economic crisis, but must aid the poor. All government bailouts shall dilute the equity of those bailed out by a fair amount with the people getting the dilution.

7/ Rich is a vague word, but wealth refers to the sort of financial abundance that is passed to others after death, or spent carelessly on oversized lifestyles. So the word wealth refers more to the parasite's share.

8/ In order to totally kill Ishtar, the people will be allowed to be rich, but not so much inter-generationally wealthy. We shall impose very high taxes on excess personal wealth beyond the point where money stops motivating people to work harder.

9/ The following wealth tax rates shall apply until the

Over-Senate changes them with a 2/3 overmajority. The term WAGES, as always in this Constitution is the average wage the nation and the years below are 2,000 work hours each:

- a/ Under 50-year's wages pays no wealth tax.
- c/ Over 50-year's wages pays a 1% tax.
- d/ Over 500-year's wages pays a 2% tax.
- e/ Over 5,000-year's wages pays a 3% tax.
- f/ Over 50,000-year's wages pays a 4% tax.
- g/ Over 500,000-year's wages pays a 6% tax.

NR'46. BASIC PROPERTY TAX

- 1/ If property taxes are too low, it will tend to cause high property values that become property bubbles. While inflating, these bubbles increase demand for the money lent from economic parasites. And after the bubbles pop, the economic parasite often finds itself in possession of many assets pledged as security. Thus we recognize that a system of low property taxes is a system that favors property bubbles and economic parasitism.
- 2/ Government shall strive to go in the opposite direction as much as practical. In fact, the largest source of county government revenue shall be the property tax, the existing stuff tax. Meanwhile the largest source of national revenue shall be the national sales Tax, the new stuff tax.
- 3/ The counties shall be responsible for collecting both the property tax and the sales tax. Thus government's two main revenue sources shall be administered at the county level.
- 4/ To reduce fraud and stealing in tax collections, we will establish a system where the national tax house double-checks the various county tax houses, and the various county tax houses shall double-check the national tax house. To this end, a percentage of the property tax shall be given to the national government, and a percentage of the sales tax shall be kept by the various county governments.
- 5/ To start, 80% of the property tax shall accrue to County government and 20% to the national government. To start, 80% of the sales tax shall accrue to the National government and 20% to the county government. Depending on the revenue needs of the national and county governments, the national Over-Senate may adjust these percentages with a 2/3 overmajority. However, at least 10% of each category must be shared so that both are monitored and checked by the other part of the nation's government.
- 6/ All county property tax assessments shall accurately reflect the current market value of all property in that county. Government shall be

prohibited from discounting assessments or tax rates to any group of property tax payers for any reason.

7/ The purchase price shall only be a consideration in the first year of ownership. After the first year is over, each property's market value shall be assessed and the property taxes computed based on this market value.

8/ Government shall not restrict the rate at which property tax assessments rise as the rise in property taxes is an important safeguard for property price bubbles. Discounts for long-time and retired property owners shall be prohibited because these cause both shortages and property price bubbles.

9/ All counties must abide by the assessment rules set forth by the national Senate.

10/ Property taxes shall be paid tenethly. There will be a single total amount including all utilities and local fees.

11/ Starting on 2023.01.01, property taxes shall be paid by the occupant unless the property is vacant, or the rental term is shorter than 10 days, in which case the owner shall pay the property taxes.

12/ The occupant of all premises shall register with government and be responsible to the government for all taxes and fees associated with the use of the property.

13/ Tenant rights shall be considerably lower for rental terms shorter than 10 days.

14/ No rental agreement shall be valid unless recorded, and the tenant assumes responsibility for the property taxes, and he is not in arrears for his property tax payments. When tenants fail to pay their property taxes they shall personally suffer a tax lien, as well as the loss of the ability to rent property for longer than 10 days at a time and shall instead have to rent by shorter terms.

15/ When non-occupant owners fail to pay their property taxes for more than 5-teneths, their property shall be auctioned off by the county. When occupant owners fail to pay their property taxes for more than 20-teneths, their property shall be auctioned off by the county to pay for taxes. Deferred tax payments shall incur twice the prevailing interest rate, but in no event less than 10% interest.

NR'47. PROGRESSIVE PROPERTY TAX

- 1/ Throughout history, in all long-lived civilizations, network effects have generally resulted in a few people owning most of the land. This has generally been a primary thing undermining the long term viability of freedom. Therefore, our new democracy

will start with a slant away from land ownership consolidation by means of a multi-tier progressive property tax multiplier system that charges bigger land owners a higher rate than people who own just one property. For structures, the floor area tiers shall begin at: under 100m, under 500m, under 5,000m, under 50,000m, under 500,000m, and over 500,000m. For non-urban land, the area tiers shall begin at: under 1/2-ac, under 5-ac, under 50-ac, under 500-ac, under 5,000-ac, and over 5,000-ac. Ownership over these tiers shall incur a progressively higher multiplier for their expensive property tax payments. The initial 6 tiers for the progressive property tax multiplier shall be 0%, 10%, 30%, 60%, 120%, and 200%. Therefore owners with over 5,000 acres of land or 500,000 square meters of improvements will pay three times the property tax rate of an owner with one small property.

2/ All owners shall pay progressive property depending upon how much property is held under one name either directly, or indirectly, or by any means whether rented, optioned, fractionally owned, held in trust, owned through fictional citizens, owned by one's householders, owned by one's offspring who are under age 28, or in any other way controlled by one household.

3/ The tier points, and tax rates of this section are intended only as a preliminary framework and they may be adjusted by the Over-Senate.

4/ Different sorts of agricultural land should have different threshold levels depending on how fertile and valuable the land is.

5/ From now on, non-urban land may only be converted to urban land by the county government, and all counties are mandated by this constitution to always ensure that the people have at least a 50% overage of locations for new townships.

6/ Township projects shall be exempt from property tax while unsold and under construction, but not for longer than 2-years. In times of economic crisis, and when the real estate market suddenly turns soft, government may extend the new construction exemption period to as long as 5 years, but no longer.

7/ It is hoped that the relentless erosive forces of corruption and parasitism will never be able to amend this Constitution to allow fictional citizens to own land. However, if that ever does come to pass, the backup plan is to require fictional citizens to be subject to progressive property tax just like real citizens.

8/ Our nation's territory is huge and remains full of unused land. Therefore, we shall be extremely

generous with our progressive property tax threshold levels. When more crowded nations copy our constitution, it is recommended that they use smaller land ownership thresholds for their progressive property tax system.

NR'48. DEATH AND INHERITANCE

1/ Dynastic wealth and power are not only vitally important to economic parasitism, but they are also quite demotivating and unjust. Therefore, our nation shall err on the side of profoundly limiting the inherited wealth of the rich.

2/ In our nation, economic freedom shall be considered something that is almost entirely non-dynastic and not passed from one generation to the next. There shall be no right to inherit massive wealth, and no person may inherit more than 100-year's wages in their lifetime.

3/ There shall be an inheritance and gift tax of at least 80% on estates worth more than 20 year's wages. There shall be an inheritance and gift tax of at least 94% on estates worth more than 1,000 year's wages. There shall be an inheritance and gift tax of at least 98% on estates worth more than 5,000 year's wages.

4/ All inheritances exceeding 1-year's wages shall pay at least a 90% inheritance tax except people who are a:

b/ Parent of the deceased.

c/ Co-parent of a living citizen with the deceased.

d/ Full sibling, or maternal half sibling of the deceased.

e/ Live-together domestic partner of the deceased for more than 4-years.

f/ To prevent tax skirting brotherhoods we shall have it that half siblings that share a father shall be considered as unrelated for the purposes of receiving inheritance tax. Adopted children shall also be considered as unrelated for the purposes of inheritance tax.

5/ When people inherit community property that is worth over 20-year's wages, and later enter into another subsequent community property marriage, the subsequent community property marriage shall not be subject to the community property inheritance tax exclusion.

6/ The community property exclusion for inheritance taxation shall be limited to 1,000-year's wages, over a recipient's lifetime. Those who have inherited community property in a marriage may not leave community property to another.

7/ All bequeaths to domestic fictional citizens are

subject to at least an 90% inheritance tax if made within 7 years of death, or at any time after death. All bequeaths to fictional citizens based or headquartered in a foreign nation are subject to at least an 98% inheritance tax.

8/ All pre-death gifts by those who know they are dying, or those past the median life expectancy shall be subject to inheritance tax. All gifts over 10 year's wages in a giver's lifetime shall be subject to inheritance tax.

9/ Non-relative people who care for elders shall not be allowed to inherit more than the lesser of 10% of the estate, or 2 years wages. As normal, this is the average national wage, not the employee's pay and this shall also apply to people who receive money on behalf of the worker.

10/ In order for a will to be valid, the testator must appear at the county recorder's office and recite their entire will to the recorder's video camera. If they are over 60 years old, they must look into the camera for at least 15% of the time they are talking, and they must answer 20 simple Alzheimer's questions on camera to demonstrate that their mind, memory and judgement are sound.

11/ Wills shall not be modified, but only re-recited to the recorder in their entirety.

12/ Only the most recent recorded will shall be valid. Non-recorded wills shall not be valid at all.

13/ Depending on the size of the estate, a civil court judge or Sub-Senate jury of appropriate size shall execute the will. The venue shall be the county where the testator had the most valuable pile of assets.

14/ Except when the value of the estate is less than 3-year's wages, the people shall not have the right to appoint their executors. All executors for estates worth over 3-year's wages shall be randomly selected Senate jurors.

15/ There shall be no fee when the county government executes a will as this is an inheritance-tax related service. This includes the disbursing of inheritance money over time as instructed in the wills.

16/ Except when the value of the estate is less than 2-year's wages, there shall be a civil court hearing approximately 40 days after the death. The recorder shall notify all parties to the will, and all registered creditors of the hearing. All family may attend, and all parties to the will may attend.

17/ Before the hearing, the recorder's office shall use the sales tax system to notify all possible creditors. Where sufficient money is on hand, the recorder's office shall also settle the recorded

liabilities of the dead person. Then the recorder's office shall prepare a preliminary division of property based on its assessments and the will. This court's property division shall be final and shall not be challenged in any court of law.

18/ Death ostentation requests shall be illegal and the requests shall not be honored.

19/ Except when the corpse is donated to science, the embalming of corpses shall be prohibited.

20/ Nobody shall have more than one funeral service.

21/ Nothing of value may be buried or destroyed at any funeral.

22/ There shall be no state or government funerals.

23/ Society shall not charge to hold money in labor units for minors as instructed by the wills of their parents.

24/ All gift and inheritance tax shall be payable to the nation/ state where the deceased spent most of his last decade.

25/ All caskets made from anything but untreated screwed-together 3cm thick raw knotty pine planks shall be subject to a 500% sales tax.

26/ Luxury tax shall apply for payments for gravesite and burial. All funeral and wedding spending shall be subject to a luxury tax of at least 50%.

27/ Each County shall provide individual cremation and ash recovery of the dead for free.

28/ All burials must be in countryside graveyards.

29/ All existing graveyards shall be nationalized and given to the county government.

30/ There shall be no new mausoleums or halls or any other structure at any graveyard. Nobody shall have a grave stone larger than 80cm x 80cm x 7cm.

31/ Those showing any sign of senile dementia must appoint a co-signer guardian for all financial decisions and payments. These shall only serve as a circuit breaker for unreasonable decisions.

32/ Everyone over age 70 and those said by their family to be suffering from mental senility must take an annual one-hour video recorded group test of their memory, reasoning and judgement. If they are licensed to drive, they shall also take a written and road test of their driving skills. Those unable to pass both test shall have the words "NO DRIVING, NO CONTRACTS" printed their government identification. These people may not sign to contracts or undertake financial obligations without their guardian's approval.

33/ The Senate shall create a uniform system for the sharing of tax revenue between counties when taxpayers lives in multiple counties.

the death of another person may inherit anything from that person, or insurance monies until the investigation has been closed. All such monies shall be held by the county recorder's office.

35/ The estates of the dead shall not be sued except for pre-existing clearly-defined commercial matters such as pre-existing recorded debts and contract obligations.

36/ The County recorder system shall keep verified records of who is alive and who is dead and everyone's dead or alive status shall be public knowledge as soon as a change is verified by the Senate. Also when people die, the cause of death shall be listed for the public to see. Also when people become incapacitated, the cause of shall be listed for the public to see. Also for the long-term protection of life and limb, the Senate shall keep detailed statistics and maps on causes of death and incapacity.

37/ It shall be a felony to cover up or to hide a person's death, or its cause, or to give or receive compensation for doing so.

NR'49. GOVERNMENT SPENDING

1/ Government may spend group money in such a way that it disproportionately benefits one group over the rest. However, government shall where practical and fair, recover most of that benefit through the imposition of taxes on the public benefits received. This tax may be one time, or it may be spread out over as long as 23 years. Government shall aim to recover more than 80%, but less than 90% of the private benefit from its infrastructure.

2/ When the people's money is used to build or maintain non-government infrastructure or property, the people shall have the right to their fair share of equity in that thing. This shall be based on the percent contribution by the people.

3/ All proposed laws and spending by the national government shall have a cost-benefit, and cost per expected user analysis. Where possible, these documents must cite comparable private sector prices.

4/ Whenever government calls for an industry to bear great cost for the public's health or benefit, it shall where practical and fair grant public compensation money. This however shall not apply to curtailment industries.

5/ Wherever possible, government shall obtain services and materials on the open market, and under terms reasonably conducive to minimizing price and maximizing the national interest. No law

shall unreasonably limit the government's suppliers or contractors.

6/ Government may require the use of domestic suppliers, and it may exclude troublesome or unreliable suppliers, however, any law that excludes any other class of suppliers from government projects shall require a 2/3 overmajority for passage.

7/ Government contract specifications that favor big companies shall be avoided where practical. All other things being equal, government shall favor smaller suppliers over bigger ones.

8/ If government cannot find acceptable domestic suppliers, and it does not want to use foreign suppliers, then it must help create domestic suppliers.

9/ All government appropriation bills must state a maximum budgeted amount.

10/ Everything that the government buys shall be adequately described, categorized, and posted online for all bidders to view. No bidders shall be given preferential access to government bid information, and sufficient time shall be given for bidders to respond.

NR'50. THE INITIAL TAX SYSTEM

1/ To jumpstart the economy after the metaphorical heart transplant, all tax payments shall be suspended until the Senate implements them. We will let the kelp reach the surface and the strong sunlight. Then when X gets past 1 on an exponent curve, then is the time we will start imposing taxes.

2/ The public purse is going to soon spray huge amounts of money/fuel into the engine of the economy. It is going to rebuild all the cities, build a new rail-based train system, and set about to increasing humanity's terra forming abilities by one to two orders of magnitude. And we are going to need lots more of everything to do that. Getting the economy going again will not be much of a problem.

3/ Without a parasite running our government as a feeding mechanism, government will become much more efficient, so it will need less money to do the same thing. Therefore the private sector will tend to rev faster with the same inputs.

4/ Due to a general cancellation of debts, nobody will be in debt as individuals. The people will therefore be able to afford to pay more taxes in addition to their money going further.

5/ Over 80% of debt appears to be to foreigners. Thus the national debt, and interest on the national debt will fall by over 80% after the debt cancellation.

6/ Tier-1 healthcare, will be significantly funded with taxes on luxury healthcare and other healthcare taxes. Taxes on unhealthy goods such as tobacco, alcohol, sugars, carbonated gut-stretching beverages, and mafia drugs, shall pay a large part of the remainder.

8/ When people make more money from commodity exchange than they do from either producing commodities or using the commodities, they shall

pay a 50% income tax on the excess.

3/ It shall be a misdemeanor to crowd the public way in order to make money from slowing traffic.

4/ Government property shall not be bought, sold, leased, or acquired, except upon the approval of a properly sized Senate jury according to the following value schedule:

a/ Under 1 year's wages, 3-Senators.

b/ Between 1 and 5 year's wages, 5-Senators.

c/ Between 5 and 25 year's wages, 11-Senators.

g/ Over 3,125 year's wages, 1199-Senators.

6/ All government property shall be stamped "GPROP". Valuable government property should have locator chips of various types.

7/ It shall be a crime to be in possession of any stolen government property, even a plastic pen. Government and the people shall be fastidious about making sure that government and public assets are not arrogated.

8/ This nation shall guarantee private property rights, but if anything is on the line, it shall be public domain. Government and the courts shall always err on the side of the public domain when drawing the line between the public domain and private property.

9/ Government shall vigorously defend the public domain against arrogations and infringements, both in the future and in the past.

10/ In recessions, idle labor should be employed on increasing public infrastructure. When the economy is going too strong, government shall cut back on public infrastructure spending.

11/ Statues and idolatry of great men being a thing of parasitism, our nation shall have no statues of great men on public property. It may however have statues to the group efforts of over 500 people on public property. All sorts of monuments are permitted on private property as free expression.

12/ The Lincoln memorial in Washington DC shall always be considered mostly an anti-slavery monument, rather than a monument to a presidential

monarch. The nearby Jefferson memorial shall always be considered mostly a monument to the spirit of anti-Federalism that was so critical to the founding of our nation, rather than a monument to a presidential monarch. So both of these monuments shall always be protected.

NR'53. INTERNATIONAL TRADE & RELATIONS

1/ Ordinary tax evasion deprives government of revenue. Smuggling not only deprives government of revenues, but it also endangers our nation's industry and free markets. Therefore, the budget for anti-smuggling enforcement shall be three times the rate for other forms of tax evasion, tax-dollar per tax-dollar.

2/ At least 90% of the budget for smuggling prevention shall be used for bulk shipments.

15/ There shall be no diplomatic immunity for drivers, or parking, or violent crimes committed in front of many witnesses, or clearly recorded on video.

16/ Some Exhods shall be allowed to communicate with the PU and others will not be allowed. However, all communication with the PU shall be on monitored lines. NR'54. SHARED PUBLIC INFRASTRUCTURE

1/ Nobody but the people shall own the market or the path to market.

2/ All ports, airports, shared roads, railroad tracks, rights of way, railroad lands, railroad stations, and all bus stations are hereby nationalized. There shall never be any non-governmental ownership of any of these places.

3/ Except for when we try new approaches in limited areas, there shall be no non-government ownership of any electric utility, water supply, water utility, natural gas utility, information line, telephone, cable TV line, fiber-optic line, telephone line, aqueduct, canal, broadcasting property, pipeline, road, railroad, railroad locomotive or transportation infrastructure.

All this group infrastructure shall be nationalized, and all shall belong to the Senate and people of our nation. The railroad cars and road vehicles shall however mostly be not government owned.

4/ No shared public infrastructure shall in any way tax or profit from new users connecting to the system. All connections and new users may only be charged at true marginal cost.

5/ There shall be no parking of vehicles on arterial streets where an extra lane, or wider lanes would improve traffic flow.

6/ Nobody, and no community shall profit or boost sales by crowding, slowing, or throttling the pathways of this nation.

7/ Merchants and cafes shall not be allowed to crowd the public walkways, or public squares. Aside from this, however they shall be free to use the

sidewalks without permission from, or payment to government. However, if people live within earshot, the the sidewalk must close from 9:00pm to 7:00am unless government allows them to stay open later.

8/ No individuals shall every acquire any right to the public right of way or have any right to compensation for government's decision to alter anything in the public right of way.

9/ The wishes and needs people living or working near noisy arterial routes shall be considered entirely irrelevant in government's decisions about that route. Anyone who elects to live or work near an arterial route must accept any and all increases in traffic and noise along that route.

10/ Communities outnumbered by the daily flow of a through-route, shall not slow or impede that route in any way. Even the presence of schools on through routes shall be secondary to the objective of not slowing through-routes and the exponential shrinking of our communities that results. Better we fence the schools than slow the routes.

Communities shall however be free to build high-speed bypass loops around their area. Communities may also build noise walls if they pay for them locally.

11/ The Senate may use eminent domain to acquire assets for public infrastructure.

12/ Public transit and other common transportation infrastructure systems shall be organized to maximize service and convenience to the people, not to maximize profit for government, and definitely not to maximize profit for the people who manage the system.

13/ Government shall have no liability for utility system failures. Government shall have no liability for power lines downed by wind, weather, lightning, earthquake, or flooding. Government shall have no liability for fires caused by a failure of any utility system except windmills.

14/ No utility administration public or private may install or maintain its own lines. All must use open market contractors. No utility contractor shall exceed 5% of any utility's new construction, or 5% of any utility's maintenance.

15/ A 2/3 over-majority shall generally be required to approve of rebuilding existing things. This shall be so for both fictional citizens and for government.

16/ When public utility companies rebuild their infrastructure systems, they must get government permission otherwise it will neither count towards either extending their ownership rights nor towards increasing their rate base.

17/ The rebuilding of public utility infrastructure can

only be an excuse for renewed ownership rights if approved by the Senate and it is for good cause.

R/55. PROPERTY CONDEMNATION

1/ Linear infrastructure shall include roads, railroads, wires, pipes, channels, communication lines, and other pathways that facilitate group interchange between the people. It is vitally important to the economic health of our nation that linear infrastructure right-of-way acquisition costs and other government property acquisition costs be as low as reasonably possible, so the people may have the best infrastructure, and the best government facilities possible.

2/ All privately owned non-urban land shall be considered location fungible with regard to the construction of new group infrastructure and new communities for the benefit of the people.

3/ Government shall give a reasonable but sparing inconvenience increment when it compels a transaction to acquire land. However, government shall generally be prohibited from paying money when it con•dems land for linear infrastructure. Government may pay money for improvements, but it shall generally not pay money for land.

Government shall generally only give replacement land for the land it con•dems, and this land is supposed to be worth about 15% more.

4/ When less than 3% of a human owner's land in one holding is cut-off or acquired by condemnation, government shall give nothing to the land owners, except where inhabited structures are also involved and located within 5 meters of the new property line. When more than 3% of an a human owner's land is cut-off or acquired by condemnation, government shall give 15% more land of a similar character than it took.

5/ Where a street is used daily by hundreds of cars and the sidewalk is seldom used, Government may close all or part of the sidewalk and force pedestrians to to around. In this event, no money shall be paid to the adjoining property owners.

6/ When a non-urban parcel's access is cut-off by a new linear infrastructure project, government may grant an easement over neighboring land. If this easement is for an area less than 3% of neighbor's land holding, the neighbor shall get no compensation for it. No compensation shall be paid when government runs buried or overhead utilities across non-urban private property.

7/ Government shall give at least 1year's notice when it con•dems land or exercises its rights to run linear infrastructure on privately owned non-urban

land.

8/ In all public land condemnations, the base condemnation value shall be the property tax value assessed by the county tax assessor's office. If there is an inconvenience increment, it shall be added to this amount. Thus, there shall be no right to appeal the compensation offered by government.

9/ In non-urban condemnations, government shall pay an average and standard condemnation rate per square foot for habitable housing structures less than 25 years old, and another for human habitation structures more than 25 years old. It shall pay another square foot rate for non-movable barns, and another rate for non-movable warehouses. For non-urban condemnations, government shall not pay any increment for luxury construction, special facilities, sentimental value, historical value, or views.

10/ Whenever government con•dems property for create group infrastructure, the valuation shall be calculated as if the group infrastructure neither exists nor is planned.

11/ Government may condem property up to 40 years in the future by making a reasonably discounted payment today. This shall be called "public curtailment of ownership rights".

12/ Government shall not compensate property owners for the unsightliness, noise, smell, air pollution, or vibrations produced by new or expanded linear infrastructure.

13/ Urban land taxes shall be at least 10x higher than non-urban land taxes by land area. All land that has not paid urban land tax in the past decade shall be considered non-urban land, and therefore a location fungible commodity.

14/ No compensation shall be paid for intentional path squatters, or for property rights that were established to obstruct must pass locations, or sensible bypasses, or for those who crowd a path, or refuse to back away from a path with increased traffic needs.

15/ When urban land is condemned, government should, but need not offer substitute property in that particular neighborhood. The land should however be worth at least 15% more as an inconvenience increment.

16/ When government con•dems property, it gives fair compensation as described herein. When government nationalizes property, it gives nothing. Nationalization shall generally be considered a thing of penalty for wrongdoing.

17/ In order to maximize the area connected to our nation's road system, all functionally land-locked properties of buildable size and status shall have the

right to buy a reasonably-sized flagpole over the generally unbuilt land of their neighbors. Lots over 2-acres in urban places shall always be considered of sufficient size. This flagpole shall be located where government determines the impact to the community is lowest and most consolidated. It shall cost the petitioning parties 3X the going price for land, and shall become public property upon granting. All of the money paid goes to the owner of the easement claimed in this way.

18/ No 15% increments shall be paid to fictional citizens.

NR'56. LAND FOR NEW CITIES

1/ The Senate shall designate some 30,000 potential township sites in our nation, along with rail system lines and interchanges. The sites will vary in size, but the average will be around 20 square kilometers in area. This is about 600,000square km, or about 6% of the nation's surface area. This is so there will be a many-fold abundance of sites for people to chose from for their homes and businesses. It is also so the price of urban land will remain crushed forever.

2/ By plan, the land for the new cities will mostly be far away from existing cities and roads. So the land will be inexpensive to condem if we need to augment our public land holdings

3/ In general, only communities of appropriate size will be allowed to access what will be nearly free land. This aside from the high property taxes for the rail line and other public utilities.

NR'57. PRIOR PUBLIC LARGESS

1/ All grants and sales of public property, infrastructure, and contracts ever made by the previous government shall be voidable at the election of the Senate.

2/ If the Senate elects that public property or infrastructure, was sold at a price that was wildly below market, it may nationalize the property.

3/ The word largess is from the ancient Greek peacock monster Argus, which had hundreds of eyes. Argus was the symbol of the Sphinx mafia, and one of Argus' greatest powers was that of government largess.

4/ Just as we hold the possession of stolen property and counterfeit money to be a felony, so too shall it be a felony to be the recipient of largess or super-sweet-deals from either government or from fictional citizens.

5/ Just as it is a felony to both give and receive bribes, it shall be a felony to either give or possess

largess.

6/ When everyone would have wanted in on the action, the birds that got the swoop in may be charged with receiving largess.

7/ Largess shall include both grossly below market purchases, and grossly above market sales.

NR'59. ADDICTION, DRUGS AND ALCOHOL

1/ The single most important aspect of our nation's Mafia drug policy is to make sure that the Sphinx Mafia can't profit from the Mafia drug industry. So long as the Mafia is making money selling drugs, it will:

d/ Be able to add addictive drugs to non-addictive drugs such as opiated hashish.

e/ Be able to market addictive drugs such as opiates to people taking non-addictive drugs such as marijuana.

f/ Have income from drugs.

g/ Have a big source of income that offers synergies with other Mafia activities.

2/ Government shall not criminalize the importation, production, growing, manufacture or distribution of any Mafia drug once it has become widely available through criminal enterprise, or once it is the cause of a violent mafia turf war.

3/ Marijuana, cocaine, opiates, LSD, amphetamines, MDMA, alcohol and tobacco shall always be considered as drugs widely available through criminal enterprise.

4/ Government shall license the use of all widely available Mafia drugs, as well as tobacco and alcohol. These licenses shall be free of charge, but they shall require the viewing of anti-drug media under eye tracking.

Such long-term birth control may also be required of pre-menopausal women that consume large amounts of alcohol in binges at bars.

10/ To smithereen the Mafia drug industry, and to assure that nobody profits from turning people into addicts, no citizen, real or fictional shall cultivate more than 4,000 square meters of any Mafia drug plant such as marijuana or opium. The cultivation limit for tobacco shall be 160 acres.

11/ Except for Marijuana, tobacco, alcohol and hallucinogenic mushrooms, all Mafia drugs must be processed by an FDA certified drug refining facility. 12/ It shall be a felony to act as a middleman between growers and drug processors, or growers and consumers, or to act as a black market drug processor.

13/ All shall know that expensive Mafia drugs are a favorite industry of the Arabs. For through these drugs, especially the most addictive, they not only make money, but they also acquire useful ad•dicts who will frequently do the awful things they are told to do. Therefore, Arabs shall have nothing to do with the Mafia drugs industry. All Mideast, Muslim, and formerly Muslim people found participating in this industry shall be punished under harsh old laws they created for their competition before this Constitution existed.

14/ All shall know that through hashish the Arabs gain a black box. Through this black box they may add in any other drug they wish, such as addictive opium. Thus they can hook people without them even knowing it. 19/ Everyone gets a receipts for their drug purchases, so the drugs can be matched with a photograph or nano markers. Also, Government may require that chemical nano-markers be added to Mafia drugs to keep the system working as intended. Thereafter, to be in possession of drugs that don't match the nano markers may be evidence of illegal drug use.

20/ Government shall offer free addiction feathering for opiates according to any reasonable schedule requested upon check-in. People who check themselves in to government rehab can't leave until they are off the drug for the prescribed time.

21/ If someone has an active amphetamine, opiate, cocaine license, or they have a license for more than 5 drinks a day, that information shall be displayed on the internet for all to see.

22/ Those prescribed opiates by qualified doctors as pain killers do not need to get a license if their use is for less than 30-days.

24/ Nobody but government shall report, or store data on consumption of drugs or prostitutes. It shall be a crime to either offer this information for sale, or to offer purchase. It shall not be a crime to make up fake information of this sort and offer it as real.

25/ Government shall compare the income of all license holders with their expenditures. Once someone crosses over into the realm of the impoverished ad•dict, desperate for a fix, and useful as pawn, they shall be labeled an addict by government, so as to warn the people. Those who use the maximum possible quantities of Mafia drugs, or suffer repeated arrest for public intoxication may

also be publicly labeled as addicts by government. 26/ It shall be a crime to buy controlled substances for others, or be in possession of someone else's controlled substance.

27/ Some types of vehicle operator licenses may be suspended while people have certain types Mafia drug license, or have daily alcohol use over a certain level.

28/ If government is dispensing opiates or other powerful drugs to any group, such as veterans injured in war, and the person wants innocuous marijuana instead, then government shall provide a reasonable amount of marijuana instead.

29/ To reduce blood disease sharing among addicts, and also to keep loose needles out of our cities, we shall dispense clean needles with our clean IV drugs. Then when the addicts want more drugs and needles, they must turn in their old needles. If they are missing one needle, their dosage gets dialed down by a tolerable but uncomfortable amount. Those who present used needles shall get fresh new sealed needles one-for-one, no ID required, no questions asked, no payment required.

30/ People shall not be allowed offer drugs and herbs as substitutes for controlled mafia drugs. Those who offer, infer, or suggest such a thing shall be subject to prosecution.

31/ Tobacco is the #1 environmental carcinogen for mankind. The current rate at which it kills in our nation shall be called a Tobacco of death, and it stand as an eternal benchmark for the world. There shall also be Tobaccitos, where 1000 Tobaccitos = a 1 Tobacco death rate. Thus when we discuss mortality rates in our public policy decisions, everything can stay more more measured and the solutions more tailored to our problems.

32/ It should be noted that government will be supplying all the various addictive Mafia drugs to people once they are addicts. So there will be much less money to be made in the ongoing sales of addictive mafia drugs. This is intended to cut the money available for Mafia drug marketing.

33/ In order to get the government drugs, one must first complete the relevant user course(s) and then find the drug on the street. They one must take the street drug and then go in for drug treatment while they are both in withdrawal, and while the drug is still in their system. NR'60. SMOKING

1/ Tobacco, which is sometimes called the devil's weed, is the definitive Ishtarian product, and a symbol of everyone's enslavement to Ishtar. It is addictive so we can't stop, it gives nothing of benefit, and it causes great harm. It is also widely supported thousands of times each year by valuable product placements ads in the media that have no other apparent reason for existing. Every time some idol holds a cigarette in the media that is Ishtar at work.

Each of these two items shall be entirely paid by various taxes and license fees on that product be it alcohol or tobacco. It shall be noted by all that prior to this constitution, the worldwide cost of tobacco-related healthcare was over four times the revenue of the tobacco industry. These ads shall rotate depict no less than 50,000 people shockingly disfigured by tobacco related illness.

8/ Fructose is mildly toxic. It is not good to eat too much fructose, just like it is not good to drink too much alcohol. For this reason, refined fructose, and synthetic sugars containing fructose, such as high-fructose corn syrup shall not be added to any ingestible. All sweetened products must use sugars that are no more than half fructose.

9/ The terms sugar, sweetener, sweetened, unsweetened, and all similar terms shall be all-inclusive, and shall include all sugars, sugar-like chemicals and sweeteners to include all sugar substitutes artificial or natural. Therefore products labeled as sugar-free may not contain any fructose, glucose, sucrose, dextrose, maltose, lactose, honey, or any other sugar like ingredients.

G — PUBLIC PROPERTY & PERMISSIONS

NR'63. GEOLOGICAL SURVEY

1/ The oceans weigh 2.8 billion times as much as mankind, so mankind is microscopic in comparison to the true scale of the planet. Thus we realize that underground minerals are not at all scarce, and mankind has enough of every underground mineral to last for thousands of years at current use levels.

2/ A free people must know where their most economically viable minerals resources are and have an accurate estimate of their resource wealth. Therefore, government shall systematically survey, assess, estimate, and map the entire nation's territory with regard to both underground minerals

and potential agricultural output.

3/ Government shall commission at least 1,000 standardized, containerized, universal mining mineral testing labs.

4/ Every known gold bearing river bed in the nation shall be drilled to bedrock at least every 2-km as accessible. Those with the richest gold deposits shall be drilled in multiple locations. Once we have done this, we shall estimate the nation's riverine gold reserves.

5/ Every sandy shoreline in the nation, existing and ancient shall be drilled every 3-km to start, so we can know where our oil is and can accurately estimate our nation's oil reserves. All portions of the nation shall be surveyed, including our national parks and military bases.

6/ All existing and prior mines and oil fields shall be assayed and mapped by the nation's geological survey.

7/ The geological survey shall be administered by each county, by the people of that county. Both the lab technicians and the sample collectors shall be native citizens born in that county, and none shall have any Mideast ancestry or ties.

8/ Government shall give rich annuities and Ubiq status to those who discover rich new mineral deposits before the national survey does.

9/ We shall call this mapping of our nation's resource wealth the US Geological Survey. The old US Geological Survey shall be renamed as the US Topographical Survey. All shall note how the idea of government mapping all of our nation's mineral wealth was proposed before — but the idea was subverted into a topographical survey, not a mineral survey. We shall not allow this to happen again.

10/ Once we have a rudimentary geological survey, there will be little benefit of allowing people to claim underground resources as their own private property. For this reason, all underground resources are hereby nationalized and made the property of the people of this nation to the extent that any county Senate wishes to claim ownership of them, and make them into a mineral extraction reserve. The owners of nationalized underground mineral resources shall receive no compensation for this change in which the nation does business.

11/ In order to maximize output, most mineral deposits shall belong to the various counties of the nation, but the national government may make the richest into national mineral extraction reserves if the infrastructure development costs are so great they require national underwriting.

12/ The extraction of natural gas which would

otherwise propel oil out of the ground shall be prohibited until the oil is extracted.

NR'64. MINERAL EXTRACTION RESERVES

1/ Government shall make the richest, easiest to access, least toxic sources of every mineral available for free public mineral extraction, reserves. People may take what they want, so long as they follow the rules, clean up after themselves, and properly move their fair share of the cover-strata and tailings. It shall cost nothing to use a mineral extraction reserve and taking any quantity of mineral ore out of the ground. No tax, fee, or charge shall be due for using a mineral extraction reserve.

2/ Government shall build railroads, roads and utilities to its mineral extraction reserves. It shall also allow refineries, mills, worker housing and common town amenities to be built upon the routes in designated places free of charge. Government shall also provide regular environmental monitoring free of charge.

3/ Except for reasonable clean-up bonding, and identity registration, no tax, fee, charge, approval, permission, or insurance shall be required to extract minerals from a public extraction reserve. However, if a mining company is not obeying the rules, by say taking too much ore and not enough cover, it may be denied access to that mineral extraction reserve.

4/ Any County-Senate may designate up to 2% of public lands in its jurisdiction as mineral extraction reserves at any one time.

5/ To incentivize the counties to maximize the nation's mineral extraction reserves, 90% of all government revenue from mined minerals shall accrue to the county they came from. This shall be so regardless of whether the site is privately owned, a county extraction reserve, or a national reserve. It is vitally important that every government jurisdiction benefit from maximizing commodity output so that Ishtar can never make money minimizing our mineral output.

6/ Due to safety issues as well as cost, government shall discourage the use of dangerous shaft mines and encourage the use of safe and economical open-pit mines. If expendable burrowing robots make shaft mines practical for that mineral, great.

7/ As we deplete and use up the most superficial, accessible, and economically viable minerals in each location, government shall smooth the surface, add run-off contouring, restore the topsoil and replant with native flora, provided the site is not used for construction.

8/ All national mineral extraction reserves shall be

approved by the national government. All county mineral extraction reserves shall be approved by the county government. The national government shall have no input or jurisdiction regarding county mineral extraction reserves, except to establish a reasonable limits to mine pollution.

9/ The government approval process for the government's new mineral extraction reserves and oil fields shall not exceed 45 days before the matter is ready for a vote by the County Senate.

10/ On mineral extraction reserves, drillers shall have the exclusive right to pump oil from wells within 1,000m of their exploratory well for 7 years from when they hit.

11/ All portions of Imperial county shall be pre-approved as a national mineral extraction reserve. All portions of the San Joaquin valley south of Fresno and more than 20-km east of the California aqueduct shall be pre-approved as a mineral extraction reserve. This shall not include land within 2 miles of a community, or land that drains into the Colorado river at a slope of more than 0.2%. It shall not include close border security zones. Any licensed driller may drill public lands in these areas upon filing a mineral claim. Private lands in this area may only be drilled if the surface rights holder grants permission with the county recorder.

12/ In all mineral extraction reserves for oil drilling, an unlimited number of wells may be drilled for free by any licensed oil driller who cares to show up, claim a 1-km radius drilling site for up to 7-years, drill a well, obey the rules, and take the oil away. There shall be no further licensing or approvals or fees. No drilling permit and no fee shall be required. However, the driller must accurately locate his well and document its depth and results with government, and must clean up any mess.

13/ Because petroleum is mostly a shallow thing, our nation's mineral extraction reserves for oil drillers will mostly involve shallow wells that are not under much pressure. We may limit the depth of the wells we drill if gusher blowouts become a problem. We can always come back later and drill deeper.

14/ Because our first petroleum extraction reserves will be mostly in wasteland areas, not much environmental harm is going to be done if there are spills. Also, government shall provide spill monitoring and flip remote shut-off switches for no charge.

15/ No special engineering or toxic clean up license shall be required to scoop up contaminated oil or send contaminated soil tests to analytic laboratories.

16/ The national government and the various county

governments shall never be required to pay any fine for any environmental pollution. Those who take minerals from mineral extraction reserves and cause pollution may be required to pay a reasonable fine, nothing more, nothing less, and this only when they do not comply with the environmental laws. So long as our oil drillers comply with all of the government's required precautions, they shall only have to clean up their mess.

17/ Individuals and companies involved in the petroleum industry shall be prohibited from giving money, aid, or promotion to environmental lobbyists and charities. They shall also be prohibited from advertising. Individuals and company directors that violate this paragraph may be imprisoned for up to 10-years if they openly violate this paragraph, and 20-years if they attempt to violate this paragraph through trickery or deception.

18/ When a mine or other mineral extraction facility closes down and ceases operation in our nation, the land and equipment shall automatically become the property of the national government, which shall be prohibited from selling off these assets, but must least them to the highest bidder.

19/ All environmental right to know laws shall be satisfied if the information is posted on the Senate's right to know website.

NR'65. MINERAL BUSINESS

1/ No privately owned mine, mineral right, or oil field shall produce more than 1% of the nation's demand for any mineral or raw-material, or commodity.

2/ Only government and the flesh and blood citizens of our nation may own oil and mineral lands in our nation. No citizen shall own more than 1,000 acres of separated mineral land. If more than 1,000 acres are discovered to be owned by one person, then the richest mineral lands shall be confiscated by government.

3/ In our nation, no foreigners shall own the following either directly or indirectly via shares:

a/ Mines and mineral extraction equipment.

b/ Mineral transportation infrastructure.

c/ Mineral refining and processing infrastructure.

4/ There shall be only one type of mineral right that may be separated from the surface rights, the right to drill holes in the ground to extract petroleum or natural gas. All other sorts of mineral extraction shall require full ownership. All existing separated mineral rights that are not for petroleum are hereby void.

5/ Only licensed oil drillers that are native citizens may hold separated mineral rights or enter contracts

for the purchase separated mineral rights. No separated mineral right shall be transferred, assigned, sublet, given to others, optioned, mortgaged, or owned by more than one person at a time.

6/ With regard to land with separated mineral rights, all grants beyond 17-years shall be void. If the grant is already over 17-years old, it is hereby void. This 17-year period includes all renewal, all forms of extension, and all forms of separate mineral rights ownership.

7/ All deed restrictions regarding subsurface minerals or mining that are over 20-years old shall be void.

8/ Royalty rights on mineral extraction shall be unenforceable. Mineral royalty payments exist primarily to keep mineral lands out of production.

9/ There shall be a protective tariff of at least 90-minutes wages on each barrel of crude oil imported to our nation.

10/ The law of capture shall always apply to petroleum. The right to drill a well in one piece of ground is the right to suck as much oil as one can from the ground.

11/ Given the abundant oil reserves of all neighboring nations, there is no reason for our nation to import or export oil. Therefore no oil tankers shall be allowed at our nation's ports, except those supplying our island territories and overseas military bases.

12/ When people report a smuggling gang, they are supposed to be generously rewarded and given a new witness protection identity. They shall also be given safe island housing if they want it. Such tipsters are not supposed to be sent into danger to gather more evidence.

13/ No mining or oil drilling company shall diversify out of that industry and engage in any other sorts of business.

14/ Mines shall generally not be required to move cover soil to back where it came from. They only have to re-plant and re-landscape in a way that looks roughly natural.

NR'66. GOVERNMENT PERMISSION

1/ Business identity registration fees shall have an anti-nuisance fee of 1-week's pay annually. This fee shall not apply to builders. Aside from this fee, those starting businesses or building structures shall not be charged any fees, nor unnecessarily delayed, questioned, or inspected by government.

2/ Government applications for economic activity shall not require more than the minimum amount of

information necessary.

3/ Government shall not burden industry with any regulation that is unnecessarily time-eating unless there is good reason.

4/ No government procedure or requirement shall come into existence or be cancelled unless it has been elected by the Senate.

5/ All government agencies shall be obligated to have comprehensive wikis, that include an answer to every relevant question yet asked about that area of government.

6/ Except for mineral extraction reserves and inter-county-linear-infrastructure run by the national government, all approvals for all mines, oil fields, refineries, factories, mills, power plants, water plants, municipal heating plants, building, construction, land parcel divisions and linear infrastructure shall be at the county level.

7/ No government approval process, including all sub-approvals, for any of the foregoing shall take longer than 30 days to process. Also, the required information to make a submission for government approval shall not take longer than 30 days to assemble.

8/ Once a County Senate has voted and ruled, its decision shall be final unless the Nation Senate intervenes in less than 15 days.

9/ There shall never be any court challenges to any Senate decision for any reason, as all courts are inferior to all legislatures.

10/ In general, and where practical, environment polluting activities shall not be located in, near, upwind, or upstream from populated areas. No county shall have the right to put polluting activities near the edge of its territory, but also near a population center in another county.

11/ For all mineral extraction reserves located within 5-km of another county, they shall get the neighboring county's permission to start, and all starting conditions shall be obeyed unless the neighboring county agrees to changing them.

12/ The runoff, waste, and fumes from one county's polluting facilities shall not flow under prevailing conditions into another county without the other county's consent. This clause shall however not apply for facilities more than 15-km from a county border.

13/ All environmental rules shall be created at the national level, but all environmental enforcement shall take place at the county level.

14/ Pollution policy being a weakest-link-in-the-chain sort of thing, no county shall have the right to set its own pollution policy. Pollution policy shall be the

sole domain of the national government. Also, the national government and its pollution policies shall be prohibited from considering the ridiculously expensive air pollution needs of the fools who live in places like Los Angeles that experience smog inversions.

15/ In order to have some super clean living areas, we must concentrate our pollution elsewhere. The national government shall designate some underpopulated, remote, wasteland places with little runoff as environmentally dirty areas with lower pollution standards.

16/ Government shall not impose environmental restrictions without clear need as shown by well-understood, easily re-provable and quantifiable science.

17/ To help with national competitiveness, government shall provide all environmental testing, checking, reporting, and environmental impact reports it requires at no charge, and within 15-days.

18/ No environmental reports shall be required for the construction of sealed linear infrastructure such as oil pipelines, or transportation systems that use railroads, busses, mini-busses, single-wide vehicles. This is because all these systems are 5 to 50 times less polluting than the current road and vehicle system.

19/ No environmental reports shall be required for the construction of rail-based townships, new communities of 30 or more dwellings, or rail-based municipal metro systems, or intercity railroads, or bus stations, or bridges, or tunnels because all of these are so energy efficient and non-polluting by nature. Environmental impact reports shall be required for all manufacture, use and warehousing of toxic chemicals, as well as places that endlessly burn things, places like power stations and incineration plants.

20/ All existing laws concerning supposedly ozone depleting, but energy-efficient refrigerants are hereby repealed in 180 days.

21/ Government shall not require that farmland or natural land be checked for pesticides or other manmade toxins, and all laws calling for the checking of farmland for manmade toxins shall be void, even if the land is to be used for communities

22/ Within the first year, the Senate shall review all prohibited and controlled pesticides and industrial chemicals to determine whether they are safe or toxic, or harmful to the environment.

23/ The Senate shall permit certain limited classes of financial product to be sold under certain rules of equity, administration, auditing, and oversight for

each class. Only the Senate shall have the power to add or remove new classes of financial asset, or modify the rules of the existing classes, and then only for good reason.

NR'67. ENERGY POLICY

1/ The Mideast obviously dislikes the coal that competes with their oil racket, and they have struggled to make coal seam much more dirty and toxic than it is. They have also struggled to get the world to use dirtier forms of coal.

2/ By 2030.01.01, coal shall not be burned anywhere the buildings touch. By 2035.01.01, coal shall not be burned anywhere there are more than 15 dwellings per acre. By 2027.01.01, coal shall not be burned anywhere there are more than 10 dwellings per acre. By 2029.01.01, coal shall not be burned anywhere there are more than 5 dwellings per acre. By 2031.01.01, coal shall not be burned anywhere there are more than 2 dwellings per acre. However, coal burned a safe distance from these areas shall be much more tolerated than it previously was.

3/ Where practical, all new coal plants shall be built on high ground. This should be more than 10km from a community. These plants shall also have very tall chimneys to reduce the coal smoke pollution levels for nearby residents. Scrubber tech may also be required if this can be shown to efficiently reduce pollution for people living nearby.

4/ The mining and sale of coal shall not be taxed in any way. Only coal burners shall be taxed, and this tax shall only be a function of the number of people affected by their coal emissions. Remote coal burning plants will pay no tax.

5/ The long term and worldwide effects of coal emissions are almost non-existent. These effects shall not be a consideration in taxing the use of coal. Only local and regional effects shall be considered as important.

6/ World supplies of coal are many times that of petroleum and natural gas. In millennia to come, mankind may eventually run out of easy-to-reach petroleum and natural gas. Therefore, we shall not squander these potentially scarce things on community power generation, heating, or cooling plants. At no time of the year may petroleum or natural gas be used for regular community power, heating or cooling, except on islands.

7/ To encourage the use of coal, we shall allow coal users to be more polluting than oil users, provided they are making their pollution far enough away from population centers.

8/ All oil and natural gas purchased by municipal utilities shall pay a national sales tax of at least 50% to encourage a rapid conversion to coal or geothermal.

9/ The burning of the more sulfuric coals and oils may be prohibited by the Senate in densely populated areas of the nation, or nationwide.

10/ All oil, natural gas, and mineral sites, facilities and equipment shall be nationalized to the extent the national or county Senate wishes to claim ownership. Then all of these assets shall become the property of the county they are located in.

11/ All well drillers, and mine operators shall be licensed at the county level according to national standards. These shall be required to post a reasonable clean-up bond, the minimum reasonably justifiable considering the new streamlined regulations for clean-up.

12/ One of the first orders of business for the new Senate shall be the revision of our nation's environmental laws. All existing environmental regulations, and all regulations concerning the nation's energy industry shall expire 60 days after this Constitution comes into effect unless the Senate elects to replace them sooner. No new environmental or energy regulations shall be imposed on any part of the oil, coal, natural gas, mining, geothermal, electricity generating, power transmission industries except when the Over-Senate ratifies the vote with a 60% over-majority.

13/ The use of per-well approvals shall be prohibited. All approvals shall be for drilling areas, and these areas shall generally be no less than 50 square kilometers. The shape of these areas shall generally be long and thin, following the oil deposits on an ancient shoreline.

14/ Until our nation simply runs out of the various sorts of fossil fuels, the Senate shall assure that there are sufficient mineral extraction reserves to meet domestic demand. There shall also be no less than 50 pre-approved oil fields in the nation at any given time.

15/ No well drilling equipment supplier shall produce or furnish more than 1% of the nation's well drilling equipment. Nobody shall supply more than 1/500th of the nation's oil supply. Aside from this, government shall not limit to the number of wells that may be drilled by any driller, or in any oil field.

16/ No person or fictional citizen shall own, control, or manage together more than 1/500th of the nation's oil industry, or its coal industry, or its gas industry, or its geothermal industry.

17/ Due to how fast crude oil breaks down, it shall

not be considered toxic waste. All oil drillers shall however be required to clean up their spilled crude oil and deliver the oil and soil to either an asphalt plant, or designated location that is already naturally polluted with crude oil.

18/ There shall be no specialized education required to clean up oil spilled on the ground as anyone can tell the difference. Those who test soil for oil contamination shall be prohibited from doing oil clean-up work, or partnering together.

19/ Government shall establish realistic acceptable levels for non-natural oil contamination of soils in various depths and hydrology zones. We will be much stricter for oil spilled near our fresh water ways than with oil spilled in deserts and places that are naturally contaminated with surface oil.

20/ If due to land contours, there is a significant risk of spilled oil from a petroleum facility or pipeline flowing into a water way, then the county government is supposed to build sufficiently sized earthen catchment berms with valved rainwater run-off tubes. If there is a spill, these tubes can be closed remotely, and the oil mostly recovered.

21/ All counties shall continually monitor all their active oil fields to make sure there are no oil spills occurring. This monitoring shall be provided free of charge to drillers so that liability and energy prices may be as low as possible.

22/ All oil facilities within 500m of an occupied residence shall use vapor recovery systems like in the nation's service stations, which are frequently located closer than this to residences. No new oil well shall be located less than 300m from a group of residences, or less than 100m from a single residence.

23/ Everyone approved to drill for oil must post a cleanup bond of 20 years pay to obtain a license to drill in pre-designated drilling zones that are a safe distance from a fresh water aquifer, or sufficiently sized catchment berms exist. Those with a license to drill in pre-designated drilling zones within spill range of an aquifer must post a bond of 500-years wages.

24/ In order to stimulate oil exploration and output we shall say that when private property owners lease their land to licensed oil drillers, they shall not be held financially responsible for cleaning up the spills of those oil drillers, and they shall never suffer any penalty from the environmental compliance system. The licensed driller shall bear all the liability and cost.

25/ All oil extraction reserves must have a designated oil dump site located in a place that is

preferably already naturally contaminated with crude oil. These dumps must take all oil contaminated dirt free of charge to reduce illegal dumping, one of the greatest threats to a safe and uncontaminated environment. All dumps of every type shall be owned by the people and none shall charge for disposal.

26/ Government shall not charge anything for waste disposal including most toxic waste because we want to reduce illegal dumping. Concrete, asphalt, demolished buildings, construction site waste, furniture, vehicles and household waste and all parts thereof shall not require special dumpsites. All this shall be considered ordinary waste.

27/ The public property sluice of the National Main-Senate shall determine the most optimal locations for the nation's garbage reserves. These shall be the places where rain water run-off is least likely to get into groundwater and crops that will be consumed by people. We shall not line these landfills with plastic because the idea is folly. However where it is wet, we might cover our dumps with rows of plastic to keep 95% of the water out of the ground in these locations.

28/ Garbage shall be compressed into Bricks in communities and moved by energy efficient rail to remote dump locations where the bricks can be stacked up.

29/ When oil or oil-contaminated dirt is moved in trucks, the drivers must call at least 2 hours in advance in case Government wants to inspect or monitor.

30/ All sales of fossil fuels in this nation shall be posted on the Senate's energy use tracking website. Both sides of the transaction shall do this. It shall be considered a national security imperative to accurately track the nation's fossil fuel output, imports, exports and consumption. We shall forever be on watch for the corruption of our energy use monitoring system.

31/ At a convenient date, we shall impose a national end-user sales tax of 20 second's wages per liter for diesel fuel, and 1-minute's wages per liter for gasoline and aircraft fuel.

32/ On 2024.01.01, There shall be a national end-user sales tax of 40 second's wages per liter for diesel fuel, and 2 minute's wages per liter gasoline and aircraft fuel. If the Senate declares a predatory pricing emergency, it may temporarily credit part of the fuel tax to domestic producers, however in no event shall it ever reduce, thwart, foil, fail to enforce, or counteract the tax on imported liquid fuels.

33/ In addition to the above, all imported liquid fuels

shall pay an import tariff equal to at least 80-minutes wages per barrel at importation. This is a protective tariff, a tariff intended to protect our domestic industry from the sort of state-sponsored predatory pricing that has repeatedly driven our domestic producers out of business.

34/ Given the great harm that smuggled oil has caused this nation, no fluid shall flow through invisible sub-surface pipes within 20km any of the nation's ports that dock tankers, or any of the nation's land borders. Also, no imported fluids shall flow via pipes away from any of the nation's ports or borders. All imported fluids shall only be permitted to leave the ports and borders of our nation on rail-based containers.

35/ When a standard dry-weight railcar for fluids enters or leave the nation's borders and ports it shall pass over scale. All fluids entering this nation shall pay a fluid import tariff of not less than 45 seconds wages per liter.

36/ The national government shall indemnify all rail carriers for all accidents involving properly shipped domestically produced fossil fuels moving in government certified containers over the nation's rail system. For this reason, no rail carrier shall charge any risk premium for, or discriminate against liquid fuels. This rule however shall not apply to imported fossil fuels.

37/ All of the nation's fluid fuel pipelines shall be made of factory flanged pipe segments that are flange bolted together for structural strength. All pipeline shall rest on the ground, or above the ground, on cross trestles. There shall be no below-ground fuel pipelines. The national pipeline system shall have 3-pipes for Gasoline, Fuel oil, and Kerosene Jet fuel. There shall be room in the U-extrusion pipe chases for adding one more larger pipe and 2 more smaller pipes. Without using the extra positions, the fuel pipes shall all be appropriately sized to handle all of the nation's need for intercity liquid fuel movement at a slow an energy efficient flow rate. For civil defense, the bomb-breathable U-chases shall be covered with a steel-reinforced, concrete extrusion covering system of prefabricated segments. If a pre-spacer-ed pipe segment is damaged by bomb attack, it is easy to swap out. Thus our critical fuel pipelines are hard to bomb and easy to patch.

38/ At a minimum, the national fuel pipeline system shall run from our port in Alaska to near the Pan-American rail line in south Texas. There shall be spur lines to:

a/ Port Arthur TX, New Orleans, Pensacola,

Brunswick, Wytheville, Carlise, and Joliette Quebec.
b/ Vancouver to NAS Miramar. There shall also be connections from Long Beach and Sacramento back to the system.

c/ Altona.

d/ Regina, Brandon, and Joliette Quebec.

e/ Omaha, Chicago, Cleveland, and Carlise
Oklahoma City, Little Rock, Memphis, Knoxville and
Wytheville.

39/ Except for remote locations, all communities over 10,000 people are supposed to have all their liquid fuels supplied by pipeline. Also, except in very remote locations, all diesel-fuel and gasoline fueling stations are supposed to be on the pipeline, thus many will have much smaller holding tanks.

Gasoline and other explosive petroleum distillates shall not be imported into our nation due to their volatility.

40/ Wind energy is a dumb idea because it normally takes longer to pay back the windmills than the windmills last. No windmill that has been shut down shall ever be dismantled or scrapped. They shall stand as monuments to the power of Arab parasitism in a corrupt democracy.

Government shall not give any subsidies, hand-outs, tax breaks, or tax credits for wind or solar electricity generation. Government shall give more money for research into geothermal heating, geothermal power generation, and cleaner ways to burn coal.

41/ Except for the often visited parts of Yellowstone, no hot springs or geothermal area shall be considered off limits to geothermal energy projects. All hot springs, no matter where located shall generally be considered an important clean energy resource. This is because one geothermal plant can provide almost unlimited heat and electricity for hundreds of miles in every direction.

42/ All obligations, agreements, credits, mortgages, taxes, and tax breaks, related to wind, solar, or other forms of so-called alternative energy are hereby void.

43/ Carbon dioxide shall not be considered a pollutant any longer because the CO2 theory of climate has been conclusively refuted in its entirety, just like the ludicrous idea of the earth being flat. All government regulations and incentives, together with all private agreements concerning carbon emissions or the burning of one sort of fuel instead of another are hereby void. All agreements and laws for carbon trading and carbon sequestration are hereby void. All Government subsidies for solar and wind energy are hereby cancelled and void. All loans for wind or solar energy projects are hereby void. All

agreements and laws regarding non-production or non-use of coal or other fossil fuels are hereby void.
44/ Oil shale may be crushed and burned in a natural state, but it shall not be used to make liquid oil. Oil sands may be burned in a natural state, but shall not be used to make liquid oil.

45/ Public utilities may sell their power for different prices at different times, but the most expensive shall not be more than 33% more expensive than the least expensive.

46/ After 2023.01.01, no municipal or regional electricity generation plant may burn imported fossil fuels. After 2025.01.01, no municipal or regional electricity generation plant may burn natural gas or petroleum unless located inside a community.

47/ The rail system, electric and compressed air vehicles, manufacturing facilities, government, townships and internet server farms shall have the right to buy power at 15% over generated cost less line loss.

48/ We shall learn from the 1906 San Francisco earthquake and fire. Compressed natural gas shall not be delivered via street pipes in neighborhoods of wood homes in earthquake zones.

49/ The use of gasoline is not only a fire hazard, but it also limits our options with regard to the crude oil we can refine into fuel. Therefore, by 2025.01.01, no ground transportation vehicle with 3 or more wheels shall be sold that burns gasoline. All shall be diesel fueled. Gasoline may only be used in aircraft and equipment.

50/ All patents and intellectual property rights that in any way relate to the oil and coal industry are hereby cancelled. No new patents shall be issued for at least 5 years.

51/ No Government permission shall be required for licensed drillers to drill for:

a/ Petroleum in petroleum extraction reserves.

b/ Solid minerals up to 300m down in non-waterway locations.

c/ Gold, diamonds and other heavy minerals up to 20m down in river beds and salt lakes.

52/ The education for shallow mineral drillers of less than 200-meters shall be as follows. It shall take no longer than 200 hours of study time and 4-weeks. At least 50% of the people in the course must pass.

There shall be no limit on the people enrolled in the course. Once the education is completed, the applicant shall bring the diploma and a spillage bond for 5-year's wages to the county licensing department. Thereupon the applicant shall be given a license to drill for minerals, including oil.

53/ Only the flesh and blood, native-born citizens of

our nation should be allowed to drill for minerals in our nation. These will not be allowed to operate more than one drilling rig at a time.

54/ Very long and wide truck borne drill rigs may be driven on the nation's roads without a permit between the hours of 11pm and 6am, if their certified size will fit on their route.

55/ Government shall build pipelines to its commodity extraction reserves, so imported oil will always have a cost disadvantage compared to our own domestic output.

56/ Government shall build nationwide systems for moving diesel fuel and regular gasoline. All communities over 200,000 shall be served in this way.

57/ The most important aspect of preventing oil market scams is eliminating government permissions from the process by which people are allowed to drill oil wells. There shall be no permits required for licensed drillers to drill oil wells in areas designated for oil drilling. The second most important aspect of preventing oil market scams is limiting the fines and liability for spilled oil to realistic levels.

58/ Government shall not impose any taxes, fees, charges, deterrents, or burdens on the fossil fuel production industry, to include petroleum, coal, oil sands, oil shale, and all other preserved bio energy. Government shall only tax consumption if it taxes these things. This is because taxes on production has the disadvantage of:

a/ Favoring foreign producers over domestic producers.

b/ Lowering tax income for no reason.

59/ The national government shall establish a per capita finished fuel reserve amount that corresponds to not less than 90-days fuel use for the nation. As a national defense, and disaster preparation measure, all counties shall be required to keep their share of the nation's decentralized finished fuel reserve. Given the switch to diesel engines, these fuel storage tanks will be significantly less explosive than gasoline.

60/ After 2026.01.01 dangerous and inefficient gasoline powered passenger vehicles shall not be sold in our nation. After this time, we will switch to more abundant diesel fuel.

61/ If our nation decides to use electric vehicles in great numbers, then all fueling stations shall be required to offer two types of standardized, pre-charged, degradation tracked, robotically swapped vehicle battery packs.

62/ Our nation shall encourage the use of

compressed air vehicles, due to their low cost, light weight, cleanliness, simplicity, and how the storage medium lasts forever.

63/ Each Centi-Nome armory shall have enough:
a/ 7-meter petroleum-tank rail-cars sufficient to move 500 barrels of fuel at one time. These tanks will come from obsolete trucks.

b. fuel truck trailers to move 500 barrels of fuel at one time.

x/ The newest tank trucks still get used for remote truck delivery of oil. The next oldest tank trucks will be mothballed as emergency oil trailers and mothballed trucks. The next oldest tanks will be repurposed into backup civil-defense rail transport tankers.

64/ In times of war, or price shenanigans, no refinery in the nation may operate for more than 4,380 hours a year. Also, in general, each oil field is supposed to have its own oil refinery that is located as far as reasonably possible from nearby large communities. Each refinery must connect via pipe with the fuel distribution pipeline system.

65/ All de-commissioned power plants shall become the property of the county they are located in. All counties must keep the roofs waterproof and keep all de-commissioned power-plants around for 20 years before scrapping them.

NR'68. THE COMMONS AND COMMON WEALTH

1/ Government shall not encourage or subsidize the non-production of food, or any other resource or commodity except in curtailment industries.

2/ All grazing on public land is charged by the head/ year. This is to reduce over-grazing and excessive soil erosion and long term output degradation.

3/ All livestock grazed on public lands shall be required to use a GPS-based, electro-shock and sound based herding device to move them over the land in the best way possible. Everywhere gets grazed, and nowhere gets overgrazed and suffers soil erosion. These devices shall be as humane as practical, however, these animals are all destined for slaughter, and their mild discomfort and fear shall not be considered important.

4/ In order to maximize food stores as quickly as possible, at least 80% of public lands suitable for non-irrigated farming and ranching shall be leased at market prices.

5/ Each type of land shall be auctioned off in parcels a bit on the small side of output-optimal for that type of land. The periods shall correspond to the optimal inter-fallow periods for non-irrigation, non-terraced land. When irrigation or terracing is required, the

government shall try to lease the land for 20 years on the condition that certain terracing, and or certain classes of irrigation systems have to be installed for the leasehold. Once the auction fee is paid (if any) and the irrigation equipment installed, the farm shall be considered fully paid for 20 years. If there are no offers, then the property may be offered for 50 years. If there are no takers, then the property may be leased for 70 years.

6/ All the plots in each area shall have similar expiration dates, but the areas shall have staggered expiration dates. This is so the auction workload can be spread out efficiently, and also so there is a steady supply of lots coming up for auction.

7/ The Senate shall do what it can to help bring semi-desert and sloping land into cultivation. It may grant development leases of up to 99 years for those who create terraces, plant orchards, or plastic-bag orchards, or plant timber on suitable land that would otherwise go to waste. When extraordinary and valuable expenses like this are the case, The counties may lease human-sized parcels of land for as little as \$1 per acre, however the tenant must keep the land in production as a condition of their lease. The counties may also sell the land outright.

8/ We shall develop our nation's ability to produce all the valuable tree harvests we can, especially the olive, dates, frankincense, myrrh, cinnamon, nutmeg, and other tree harvests that the Mideast has traditionally sought to monopolize. We shall also be mindful of how Ishtar has traditionally girdled and burned the trees of their competitors, so we shall remain ever vigilant and over-plant.

9/ We shall harvest our old forests that have aged to the point of becoming a fire hazard first by cutting many broad fire breaks. This particularly with our Phoenix forests of cedar and pine, This so we minimize giant catastrophic fires. Where great forrest fires have recently raged, government may replant with less fire-prone species.

10/ We shall be generous with our Ubiq awards for new cultivars and agricultural robots.

11/ Except for military bases, national commodity extraction reserves, and national government lands with more than a 1% building coverage ratio, all public lands in the nation shall be administered and rented out at the county level, even if it is owned by the national government.

12/ To foster a max-out situation for government-managed common resources, the county shall keep half of the tax, fee and lease revenue it generates from all government property in its jurisdiction.

13/ Government must lease all publicly owned

farmland suitable for planting in that year, provided the annual rent per acre per year is more than 1 hours wages per year. The minimum fee for grazing shall be 1-hour's wages per head.

14/ All government property shall be leased according to standard clauses for that type of property. Without explicit permission for a particular activity on a government leasehold, no permission shall be considered to exist.

15/ Those who leases publicly-owned farmland must plant the land in the years and seasons prescribed in the lease, with one of the stipulated crops. Those who fail to do this shall lose their lease unless weather conditions preclude.

16/ The use of public property and infrastructure shall be encouraged by government wherever practical. Then government shall charge market rates for the use of the public property. Where there is not enough to go around, government shall levy additional allocation fees so that demand is balanced with supply.

17/ No person, family or fictional citizen shall:
b/ own more than 1/50,000th of the agricultural land in the nation:

a/ Grow, produce, or sell more than 1 per mil of the nation's meat, grain, seeds, or fertilizer.

c/ Do business in more than one of these categories.

18/ Our nation shall sensibly build and hold at least a 3-year food stockpile. Building this stockpile shall not be done in a way that increases hunger among UM member nations, or nations that have entirely cleaved away from Ishtar. Building this stockpile shall however be done in a way that increases hunger among PU nations and those who have not cleaved away from Ishtar and Islam.

19/ Government shall encourage the sharing of knowledge, housing, lodging, vehicles, equipment, tools, workshops, and resources because it will make us all richer. To this end, the judicial system shall offer a fast and easy arbitration of claims involving excessive damage to shared property. The only cost shall be a reasonable anti-nuisance fee. Also, those who engage in the short term renting of equipment and vehicles shall have no liability for the injuries of people using those shared devices, unless the equipment was previously damaged or improperly maintained in a way that lead to the injury.

20/ Each county recorder shall offer identity verification through the local police department, asset tracking, a moderated advertising website, and user rating interfaces to everyone involved in

the sharing economy, each service at operational cost plus 10%.

21/ Our old fake democracy once went out of its way to help slave owners by chasing down and returning the people who fled slavery. In a similar way, our new democracy will go out of its way to help resource sharers. Great effort shall be spent on making sure our resource and knowledge systems maximize sharing.

22/ Government shall not discourage the sharing of resources unless there is a clearly stated and reasonable reason.

23/ Government shall have and enforce reasonable rules and penalties for those abusing the common weal, as well as those abusing private property that is shared either for goodness sake, or as part of a commercial enterprise.

24/ Those who accidentally pollute the commons shall pay a fair and reasonable deter-hence for their abuse, nothing more and nothing less.

25/ All use of the commons shall be by government permit, this permit acknowledged or not.

26/ The principal objective of government regulation of the commons shall be to maximize output over the long term. Nobody shall take so many fish that the harvests are not of optimal size, whether the fish be real or metaphorical. However up to that point, government shall work to encourage use of the commons.

27/ Given the insignificant cost, government shall pay for spawning and distribution of fish and sea animals to maximize the nation's marine harvest. We may do likewise with slopes that will support woods to harvest for lumber.

28/ No kelp forests shall be trimmed to less than 50cm above the surface at high tide. This clause is intended both literally and metaphorically, such as with electronic shepherds preventing the overgrazing that stunts the growth of the plants.

29/ Agricultural resources shall not belong to those who leave them unused or significantly under-used for long periods of time. Good farming acreage not suffering from drought or interruption in its irrigation waters shall revert to the county government unless properly used at least 2 year in every 8.

be counted as non-citizens.

32/ Centuries before man came to covet the natural environment, Ishtar used royal hunting reserves to put its host's land off limits. In fact, the Magna Carta has 63 paragraphs and four of those paragraphs (44, 47, 48, 53) are about the royal hunting reserves that have taken over the land. With this in mind, we will say that no more than 5% of our nation's useful flat well watered agricultural lands in any category shall be reserved as anything like habitat, nature reserve, or national park, and this only when sloping land will not work.

33/ No shipping company shall handle more than 1% of the nation's international shipping. And no foreign nation shall handle more than 6% of the nation's shipping.

NR'69. PUBLIC PROPERTY

2/ There shall be no non-governmental ownership of any rail-roads, or shared roads, or other form of communication lines shared by the people. All are hereby nationalized and given to the county governments. New shared linear infrastructure may exist as private property for up to 20-years, however, after 20-years, it shall revert to the people.

3/ We shall not be road poor like Indonesia. Great wealth accrues to our nation for having more roads and road frontage. We shall have laws that help land-locked property to join the various infrastructure system, including the road and railroad systems.

4/ All railroad, canal, and highway lands and structures are hereby nationalized and given to the counties. All ports, airports, shared roads, bridges, railroads, railroad-owned lands, railroad stations, and bus stations are also hereby nationalized and given to the counties. Any attempt to privatize or claim ownership of any of the foregoing shall be void, and the people trying to buy or sell the public interest shall be guilty of fraud.

6/ Government shall have an easement to run linear infrastructure, including roads, railroads, super-highways, pipelines, aqueducts, power-poles, giant electric towers, communication lines, electric lines as well as geothermal heating pipelines, both above ground and below ground, on all privately owned

non-urban land in the nation.

7/ County government must comply with the national government's instructions regarding easements for the linear infrastructure of the nation.

8/ Government shall build railroads to maximize the amount of well-connected farmland.

9/ Government shall be prohibited from giving land to citizens to build public linear infrastructure. Instead, government shall pay to build the linear public infrastructure on public land, and then it shall own and operate the infrastructure itself. Then government shall be prohibited from ever selling this infrastructure.

10/ When government grants use rights to agricultural land, the land shall only be occupied by bona fide users. The land must be occupied by the registered users continually for 5 years before the users shall be able to sell their rights. During this time, the users shall not sell, lease, transfer, mortgage, or substantially abandon the property. Also, the users may be required to document that they live for at least 300 days a year on the property.

11/ All government land leasing shall take place on the county level, and no more than 640 acres of farmland may be leased in a single lease.

2/ There shall be no fees or permits to visit or access any public facility, museum, park or nature area in the nation.

3/ If the nation's richest, cleanest, and easiest to exploit deposit of any mineral is discovered in a habitat area, or natural park, then the Over-Senate shall weigh the costs and benefits of keeping that particular patch of land as parkland, or substituting another with similar surface characteristics.

4/ All nature reserves shall have at least one lodging and visitor village of sufficient size to facilitate use by the people.

5/ The Senate shall build rail-accessed, non-industrial townships in the nation's most beautiful places including some national park locations.

6/ Only the national government may eliminate protection for national parkland. The counties shall manage all former state parks in their jurisdiction.

7/ All special laws, citizenship, and jurisdictions for the descendants of the indigenous peoples are hereby abolished and void. All tribal land ownership rights shall be converted to 70-year pre-paid leases for that tribe. All shall be under the jurisdiction of the county or counties they are located in. All such lands

shall be held in common by the tribe unless a majority of the tribe opts for dissolution and partition of tribal property.

NR'71. SPECIES PROTECTION AND HABITAT

1/ For all Government legislation concerning the genetic diversity of the biome:

a/ The definition of a genus shall be a gene group of living organisms that is capable producing non-sterile descendants in the wild. If they can breed together, and produce viable offspring, they are not separate genus, but mere cosmetic variations of the same genus, like the various races and colors of people.

b/ The definition of a species shall be a subdivision, or a specific variety of a genus.

c/ Except in rare cases, all endangered creature legal protections by Government shall use the population of the genus, and not that of individual species varieties.

d/ The Senate may elect to grant protection for various species varieties by single vote. However, this shall generally not be granted for mere color or behavioral variations.

e/ There shall be 10 degrees of endangered creature. First degree endangered creatures are not at all endangered. Tenth degree endangered creatures are on the edge of extinction.

f/ Only the knowledge sluice of the national Main-Senate shall have the power to set endangerment levels for various animals.

2/ Given how the prior narrow democracy was corrupted by a parasite bent on hiding the nation's wealth of natural resources, all wildlife habitat, parklands, and nature reserves shall be re-evaluated by the Senate as to whether or not they shall stay protected.

3/ The Senate shall quantify the number of genera on earth, and the number of genera that have gone extinct in each of the past 50 decades.

4/ The Senate shall cancel the status of at least 10% of the nation's parkland and nature reserves.

5/ Species protection laws shall not apply when animals stray into urban or suburban areas, or into mineral extraction reserves.

6/ Where fast growing communities lack sufficient land area due to adjacent parkland or nature reserve, the Senate shall close down the most useful portions of that parkland and sell it off for use for human communities.

NR'72. AQUIFERS AND WATER RIGHTS

1/ Government shall help assure that the nation's

fresh water assets are not squandered, or spilled into the oceans or brackish areas, benefitting nobody. To the maximum extent reasonably possible all soon-to-wast river water shall be redirected by the public wheel to good dry lands where it is needed.

2/ The need of humanity to use the world's fresh water shall come before the needs of wild animals living in river outfall habitats. If need be, we will build artificial habitats with artificial watering holes for these animals. Government shall not compel that any valuable fresh water be used to preserve any river outfall habitats.

3/ In areas with a water shortage, Government may prohibit the growing of certain thirsty crops by means of direct irrigation. Government may also charge different taxes for water depending on what plants it is being used to grow. Government may prohibit lawns, golf courses and other water-wasting ornamental landscaping.

4/ Government shall protect all stable underground aquifers that will not rapidly dry out if there is a multi-year period without rain. All existing rights to use stable underground aquifers shall be subject to cancellation. However, this shall not apply to underground aquifers that will dry up in one year and underground aquifers not currently being depleted by use.

5/ During droughts, and whenever urban water users all being told to cut back on water use, both agricultural and urban users shall pay the same rate by volume for water in each region. This rate shall be raised in order to balance supply with demand.

6/ All well and river water shall be the property of the people. The people and their Senate shall be free to impose whatever allocative taxes and rule they wish with regard to the use of their scarce river and aquifer and well water.

H — ECONOMIC

NR'73. ANTI-MONOPOLY PROTECTIONS

1/ It shall be recognized by everyone that the short-term efficiency gains that monopolies brings are mere fractional increments of cost components — while the long term market power handed away often results in the sales price being multiplied as much as ten-fold, if recent history is our guide. No. Government must always guard against monopoly power in the private sector.

2/ The people and their government shall be mindful of the way that only one monopoly can drain the entire economy. For example, petroleum in

1973-2021.

3/ Many people grasp that monopolies have immense long term value to their owners. Most people fail to consider the other side, and how that value comes from the masses, the people.

Therefore, as far as the people are concerned, monopolies are a hugely costly thing that should be avoided, except with regard to new products.

4/ Government may grant monopoly rights with regard to new things, be they inventions, discoveries, authorship, development, improvements, manufacture, commercialization and the like. However, Government shall not grant or allow any privately-owned and unregulated monopoly in any other case unless it is extremely costly to do otherwise.

5/ When government grants or permits a monopoly, or market-limiting franchise for something that is not new, that monopoly must be regulated by the Senate under the shortest terms practical.

6/ Again, the benefits of industry consolidation are short-lived and small in comparison to the long term and huge cost of monopolies and oligopolies.

7/ No party shall acquire its competitors and come to have more than 20% of any county market or more than 1% of the national market as measured by sales. Companies may however grow their business above these levels.

8/ The Senate shall keep a watchful eye on industry consolidation in the nation. The Senate shall divide or smithereen enterprises that grows to the point where they become capable of exerting monopoly or market power.

9/ Government shall inspect and pre-approve of every merger and business acquisition valued at over 500-years's pay including those divided into parts to circumvent this rule.

10/ Any domestic producer that makes more than 1/2 of 1% of the national supply of any common raw material may at the option of the Senate be smithereened. The Senate may grant reasonable exemptions for uncommon raw materials.

11/ The money raised from the auctioning-off of smithereened monopolists shall be considered fair compensation for the party that was smithereened. As a penalty for abuse of monopoly power, government shall keep a percentage of the money raised by the smithereening process.

12/ When government pays fat profits to a monopoly, it can be corruption.

13/ The Senate shall have the right to set prices in all industries run by a monopoly, cartel, or other form of commercial or trade paradise, natural or made by

government that prevents competition.

14/ When businesses and industries start doing any of the following, they start to lose their right to exist as unregulated and autonomous businesses. They also start to justify regulation and/or confiscation by the Senate and people:

a/ Limiting output to increase price.

b/ Producing an excessive share of the market for any commodity, raw material, or important component.

c/ Driving all or most competitors from the market.

d/ Taxing nearly everyone with their products.

e/ Operating without significant levels of competition.

6/ The charge for transaction (escrow) and title insurance shall be one percent (1%) of the eventual sales price to start. After some years, this will be lowered incrementally to one half percent (0.5%). Properties listed for sale with the recorder may be withdrawn at any time prior to receiving a valid offer, but listing fees once paid shall be non-refundable.

Also the withdraw will be seen on the property's record. If the seller withdraws the property after receipt of a valid offer, the withdraw fee shall be 3 percent of the offer, and this shall be paid to the party that made the offer.

7/ Only the recorder's office shall warrant or insure the title rights of property owners, and government shall be required to do this as part of its 1% transaction fee. The statute of limitations for making real estate title claims with the recorder shall be 3-years.

8/ To reduce underpriced sales, all real estate must be listed as for-sale on the county recorder's for-sale database for at least 10 days before a binding sales contract can be created.

9/ To reduce underpriced sales, we shall say that the listing price on the recorder's database must be within 2% of the contract price, or the listing price must be changed, and another 5-days must pass before the sale can proceed. 23/ All real estate sold by homeowners as principals shall generally be sold as-is, and buyer-beware, without any warranty of any kind, except those granted in writing by the seller. However, all real estate sold by, or through a professional sales agent, dealer, or builder shall be sold with certain basic warranties under the law that are binding upon both the seller and the professional sales agent.

Generally it shall be presumed that the professional has a more complete and detailed understanding of the condition of the thing he is dealing in and he shall have some liability for failing to adequately disclose the property's condition. This shall apply whether the agent/ dealer/ builder was the owner or just a party facilitating a transaction.

24/ Except for property sold as land, all real estate sales contracts shall be subject to cancellation by the buyer at any time, and by seller if not completed

in 30 days. When property is sold as land, there shall be a date stipulated, no more than 180 days in advance. If the transaction has not been completed by the stated date, the seller may terminate the agreement unilaterally and keep all money paid.

25/ Profits from real estate owned for less than 90-days shall pay a 60% income tax. Profits from real estate owned for less than 180-days shall pay a 30% income tax. The principles must meet at the property before the recorder can allow the transaction. The only exception is for illness or old age, with a doctor's certification. This rule exists because it greatly reduces the power of salesmen, because it is fair, and finally it is a beneficial headwind against the massively wealthy.

NR'75. LIMITS ON FOREIGN OWNERSHIP

1/ It is much harder for foreign economic parasites to participate in the economy of host nations that impose reasonable restrictions on foreign ownership.

2/ Economic parasites are heavily reliant on long-term artificial disparities in national currency and wage values between rich and poor nations. These disparities cannot exist for long if the money flow is all in one direction. The parasite must buy something from the rich nation to keep its currency and labor valuable.

3/ Economic parasites typically sell slave-produced goods in competitive and price-sensitive industries. When they send money back, they typically purchase assets that are not particularly price sensitive, things like debt, commodities and real

estate.

4/ As a matter of national economic security policy, the rights of foreigners to participate in our nation's economy shall be limited as follows. Foreigners, be they human, fictional, or governmental, shall not:

However, these bonds shall be an eternal LU-denominated burden on the the public works project. In our nation, foreign governments, and foreign citizens real and fictional

shall not hold, option, or pledge our government debt, or our blue-chip company debt, or our blue-chip company equity. Foreigners may only hold our small company equity and small company debt, and bonds for specific independent public works projects which will not be guaranteed by the our nation's government if they fail. However, these bonds shall be an eternal LU-denominated burden on the the public works project

If the economy is severely malfunctioning, then the Over-Senate shall have the right to modify the economy's parameters in any way it elects.

2/ The right to life, limb, and sustenance are primary things that are sacred to free men. The right to wealth is a thing of secondary importance. The right to extraordinary wealth is a thing barely of tertiary importance.

3/ An ultra-rich sliver of the population shall not have the right to drive the rest into down the drain poverty. Where a debt crisis is expected to bankrupt more than 1/6th of the population, the debt structure must be re-worked so this will not happen.

4/ The Senate shall not permit the economy of our nation to be debilitated by a debt crisis in time of deflation. Once a debt crisis has been declared, the

rights of creditors may be reduced in any way the Over-Senate finds expeditious including a reduction of the amount of principal owed.

5/ Foreign investment shall be seen as something that is:

a/ An unnecessary thing for a mature economy such as ours.

b/ The potential cause of much harm.

c/ A way for foreign parasite nations to gain power over host nations.

6/ If the Over-Senate declares a debt crisis with a 2/3 overmajority, then the principal of all non-government debts and all lease payments in our nation may be reduced across the board by any ratio or any sensible blanket formula the Over-Senate elects. The Over-Senate may also elect to do the same thing with government debt, however a 75% overmajority shall be required for modifying government debt. The Over-Senate should do a similar thing with lease payments. These adjustments should happen in smaller repeated increments, rather than all at once.

7/ Likewise if the If the Over-Senate declares an inflation crisis with a 66% overmajority, then the principal of all non-government debts and all lease payments, in this nation may be increased across the board by any ratio or any sensible blanket formula the Over-Senate elects. The Over-Senate may also elect to do the same thing with government debt, however a 75% overmajority shall be required for this. The Over-Senate should do a similar thing with lease payments. These adjustments should happen in smaller repeated increments, rather than all at once.

8/ When the economy recovers, the Over-Senate shall act fairly in reinstating the original debt and lease amounts. All existing and would-be creditors of the people of this nation are hereby put on notice that in the event of an economic crisis, your principal may be discounted for some years until the economy recovers.

9/ The Over-Senate shall have the power to elect economic time-outs with a 75% overmajority. In an economic time-out, the Senate elects a number of days where where the clock stops for loan payments, and rent payments.

10/ Except for new township sites, Government shall not sell off public assets in time of debt crisis to raise money. Instead, it must dilute the money value of everyone in such times, for the scarce money suffers from being too valuable anyway.

11/ By the flation of debt, Government shall try to assure that no more than 10% of properties are lost

in times of economic crisis.

12/ There shall be no longer be bonds that are convertible to equity. No existing convertible bonds can be converted.

15/ No new financial derivative shall result in leverage greater than 5:1. Any derivative found to be of greater leverage may be voided at the election of the Senate.

NR'77. LOANS

To help reduce the frequency and severity of these bubbles in the future, all financial institutions shall be prohibited from making loans on real estate, where the down payment is less than 20% of the purchase price.

2/ With regard to loans on real estate that is not exchanged between unrelated parties, owner equity on institutional loans shall not be less than 25% of the assessed value.

17/ No lender shall acquire title to any property through the foreclosure process. All real estate taken back from defaulting debtors shall be held by the county and sold through the county's auction system. NR'78. BANKING AND CREDIT

1/ The nation's treasury and central bank shall be entirely owned and operated by the national government. Any ownership in these not currently held by the national government is hereby nationalized.

2/ All of the nation's financial administration shall be under the Economic Sluice of the Main-Senate.

There shall be no other body or committee making national economic decisions for the people.

3/ Only the national government may issue currency for our nation and all its jurisdiction.

4/ To reduce the cost of government borrowing, among other reasons, we shall say that only deposits made with the national government or its agents shall be insured and protected by government.

5/ Government shall not limit the size of the insured accounts because government wants to maximize the funds on deposit in protected accounts.

6/ On top of guaranteeing that deposits made with government will not be lost in a financial crisis, government shall also guarantee that they will be protected against inflation by denominating all government deposits in Lavori, also called labor units, also called LU, hours of labor at the average national wage.

7/ All government deposits shall be denominated in Lavori. And because of this, there need be no payment of interest because the value of a labor unit will automatically match inflation.

8/ All government lending shall be denominated in Lavori.

9/ All leases over shall be denominated in Lavori.

10/ All deposits shall be subject to progressive wealth taxation. The wealth tax rate and tax bracket levels for LU deposits with government can be different than the wealth tax for other assets.

11/ Only the national government shall have the power to multiply money through the fractional lending of insured deposits. No bank, or fictional citizen shall take in insured deposits and then lend the money at interest. All banks shall serve as agents for the nation government's money supply.

12/ Government shall be prohibited from monopolizing banking and lending. Government shall only monopolize the very large niche where insured-deposits are used to fund loans for fungible commodity assets such as dwelling units, rail lines, utility plants, and equipment.

13/ Government will make a sliver percentage of profit from both sides of its monopoly. On one hand, it will cost the people a bit to keep their money safe. On the other hand, non-governmental lending will not happen without profit, so government will always be able to charge positive rates of interest on loans.

14/ Those legally in our nation and with less than 5-year's pay in their depository accounts should pay government no fee to keep their deposits.

15/ If an enterprise calls itself a depository, it shall be engaged in the business of taking in insured

deposits as agents of the nation's treasury. To fund these enterprises, the treasury shall pay an amount per transaction, and also a sliver percentage for all deposits.

16/ When an enterprise calls itself a bank, it shall be uninsured. When an enterprise calls itself a depository, it shall be an agent for insured deposits made with the nation's treasury.

17/ Banking enterprises have a long history of going bankrupt in large numbers during economic downturns and leaving the people with the bill.

Money deposited with anyone else but government shall not be insured by government.

18/ Only money deposited with a national treasury through a nationally chartered bank account shall be both inflation guaranteed and insured by our nation's national government. Citizens who want to make sure their money will be there in any crisis should deposit it with the national treasury, for these deposits always get paid in full first. Government shall charge interest for this valuable financial assurance.

19/ In order to make uninsured investments with OPM managers, people shall be required to have at least 4-years average wages deposited with the national government in an insured account. Once this is done, the investor shall be given his investor's tax ID number and permission to make uninsured investments with his excess funds. This requirement shall not apply for people using their money to start a business of their own, or a closely held partnership.

20/ The institutions that lend money on behalf of the treasury shall be called government lenders.

Government lenders shall take in government applications, do preliminary collateral verification and valuation with the county recorder. They shall also do preliminary borrower verification, and help disburse funds.

21/ When government or its subsidiaries lend money to the people, collateral value, and hence maximum loan amount shall be determined from the lowest of the following:

a/ The county's assessed value.

b/ An out-of-county re-appraiser's statement of updated value.

c/ Unbiased out-of-region Senate appraisal of values.

22/ When inflation is a worry, Government may cut back on its lending activities. Government may also increase down-payments among private lenders, and flate debt among other techniques for curbing inflation.

23/ Government should always discriminate between real estate consumption lending, and investment lending in industry. The former shall always be taxed, the latter shall never be taxed.

24/ Private debt obligations shall not be traded or circulated as currency.

25/ There shall be an 80% sales tax on all non-government loan application fees, and a 50% sales tax on all non-government loan origination fees.

26/ No financial institution shall handle more than 1/200th of the nation's financial needs, or more than 1/10th of the financial industry needs of any county.

27/ All banks shall be required to mirror and backup the accounts of at least 20 other banks of similar size as assigned by the treasury.

28/ As currency transactions and lending will be eliminated from our nation's banks, their office area requirements and security needs will plummet.

29/ No credit or debit card may capture more than the the greater of 90-second's, or 0.3% of any domestic purchase, and 0.6% of any international purchase. This shall include both vendor and buyer fees and forex charges.

30/ No automated teller machine transaction shall charge more than the greater of 6-minute's wages or 1% of the transaction amount. There shall be no teller machines in any drinking or gambling establishment.

31/ All international exchanges for credit and debit cards, as well as bank accounts must be at the international TT rate. No bank may charge more than one hour's wages plus 0.2% for foreign exchange transactions.

32/ Credit cards may charge interest, but they may not charge late fees. All credit cards must have one interest rate for all unpaid balances. All credit card payments shall be due on the 8th for the previous teneth.

33/ No consumer credit or student loan debt shall more than double due to fees and interest.

34/ Credit card companies do not get to write their own rules. The Senate writes the uniform rules for all credit card companies, and they obey.

35/ No charge to a payment account such as a credit card shall go through until the account holder accepts it on the app, or waives the right to do this.

36/ No business shall acquire the right to use its own discretion in debiting the accounts of the consumer unless those accounts were prepaid to the business.

37/ All businesses invoices not paid within 30-days shall incur interest at credit card rates.

NR'79. BUNDLED DEBT

1/ Given that Bundled debt is a highly effective way for foreign economic parasites to manipulate national currency rates, no bundled loans in this nation shall be owned by foreigners. All foreign owned bundled debt is hereby nationalized.

2/ All debtors shall issue their debt in 10 classes in order of who gets repaid first. The 1st class debt gets paid first, 10th class debt gets paid last, and more often gets totally wiped out. Mutual funds of 1st class, and 2nd class, and 10th class debt shall be allowed. Also funds of certain types of borrower shall be allowed. But there shall be no other re-divisions of mincing of debts that is legal and enforceable.

3/ Insurance of loan repayment shall not be enforceable in our nation. If we allow this practice, it gives a false sense of security that aggravates the severity of the worst financial storms.

4/ No new loan bundle may cover an urban area that is more than 15-km across in any direction. No loan bundle may cover a non-urban area that is more than 300-km across in any direction.

5/ There shall be no options, swaps, derivatives, or bonds guaranteed by bundled loans.

NR'80. FINANCIAL

1/ All trading exchanges in the nation are hereby nationalized. All exchanges shall be operated by the Senate, and all exchange fees and transaction fees shall accrue to the people. This is in addition to the anti-sloshing taxes the Senate may elect to impose.

2/ No trading exchange shall handle more than 5% of the nation's financial transactions, or be located in a known earthquake or tsunami flood zone. No county or metropolitan area shall host more than one exchange.

3/ Purchases or sale of real estate, expensive assets, vehicles, intellectual property, stock, business ownership shares, bonds, debt shares, and any derivatives thereon, shall only be considered sold and conferred if they are traded on, or recorded on, one of the Senate's exchange platforms. No purchases or rentals taking place anywhere else shall confer legal possession.

4/ All financial exchanges in the nation shall be open 365 days a year. None may be open for more than 30 minutes a day, during the international trading period, from 09:00am to 09:30 New York time.

5/ Fictional citizens shall be prohibited from paying other companies, or short-term employees to market their stocks and bonds for sale.

6/ All shares in all fictional citizens shall be equal,

with equal voting rights, except that shares owned by government may be of a higher and more dominant class.

7/ No publicly traded company shall issue stock or bonds, or buy them back, less than 14 days, or more than 60 days after these actions are authorized.

8/ The national government shall run the financial markets for the benefit of the small disconnected investor. To this end, it shall gently discriminate against large investors and especially insiders. Those who have wealth over 500 year's wages must irrevocably schedule their trades 1 day in advance. Those who have wealth over 5,000 year's wages must irrevocably schedule their trades 3 day in advance. Employees and those who own more than one per-mil of a publicly traded company, must irrevocably schedule their trades 6 days in advance. The rules of this paragraph shall include parents, children, siblings, spouses, and close associates of insiders. Also, all trades placed in advance must go through at the market price at the beginning of the day's trading.

9/ There shall be no mark to market accounting as this aggravates booms and busts by making the boom times looking better and crisis times look much worse. Future generations are warned that mark to market accounting made the economic crisis of 2008-2009 many times more severe than it otherwise would have been.

10/ No non-government investment fund, company, or trading house in the financial markets shall have assets in excess of 100,000 year's wages, or collaborate with its peers. No company investing in other companies shall issue stock.

11/ The Sub-Senate shall manage a number of investment funds, some of which shall will be insured by government in some ways

13/ The national government shall charge a 1-per mill anti-sloshing tax on all financial market transactions including those for investment funds. Therefore, the round-trip tax will be 2-permil. This is intended to:

- a/ Discourage short-term trading.
- b/ Squeeze out front-running market-makers.
- c/ Squeeze out parasitic arbitragers.
- d/ Stabilize prices.
- e/ Raise profits for long term investors.

14/ Those who broker, handle, or manage investments for others shall not trade their own portfolio either in their name or in the name of

others.

15/ Only the Senate shall rate debtors and debt. There shall be no private rating agencies. To do otherwise is to leave the system open to the sort of systemic risk that caused the financial crisis of 2008-2009.

16/ Primary financial derivatives may exist, however, the dynamics of tertiary and even secondary derivatives being beyond the full comprehension of nearly everyone, these shall be wholly prohibited. Any derivative class elected secondary or tertiary by the Over-Senate may be elected unenforceable and worthless after the fact.

17/ Loans may be bundled, and the whole sold as shares. However there shall be no derivatives on debt or bonds, or bundled loans.

18/ Options and futures shall not exist for individual companies, or their stocks or debts. This is due to huge synergies with insider trading, and market manipulation. potential for abuse by would-be monopolists, as well as their relative lack of purpose for honest investors.

19/ Options and futures shall not exist for any minerals that come from the ground, except when delivery is taken more often than not. This is due to their synergies with market manipulation, and relative lack of purpose for honest investors.

20/ Margin lending shall be prohibited for three reasons:

- a/ It tends to aggravate bubbles.
 - b/ It tends to drain off profits from prudent investors.
 - c/ it creates a trap for novice investors.
- 21/ Publicly traded company shall make all non-emergency announcements after markets close, and before midnight.

22/ Due to the potential for fraud, publicly traded companies shall be prohibited from:

a/ Buying back their own shares, however, they may petition for public dissolution, where the Senate sells off divisions and hands out the cash to shareholders.

b/ Declaring special dividends. They must instead increase their regular dividends, or keep the cash.

23/ Starting on revelation day, all existing options and futures shall be frozen in time until the Senate can decide on a just course of action for them.

Those whose inherently risky derivatives expire as a result of this freeze shall be out of luck. After this, all fictional citizens (including banks, insurance companies, mutual funds, hedge funds, and government insured financial institutions) shall be prohibited from buying, selling, or owning financial derivatives of any kind.

24/ There shall be computerized execution of human-placed trades, but there shall be no computerized trading for profit. Both the purchase price and the quantity sold must be entered by humans. The Senate shall impose a human-scale size limit on the currency amount that can be entered in one single trade.

25/ All non-human account holders must place their trades before the market opens each day. Nobody shall buy and sell the same or a similar financial product in the same day.

26/ The Senate shall always keep in mind that our fictional citizens frequently serve as a front for economic parasitism. Also that every market advantage we give our nation's fictional citizens over flesh and blood citizens is potentially an advantage for economic parasites using those fictional citizens as frontmen.

27/ There shall be no trading of volatility as a financial instrument.

28/ Except for commodity futures, no financial instrument purchased on a financial market shall confer liability in excess of its purchase price.

29/ No fund holding stocks, bonds or commodities, or other assets shall charge more than five per mill per year for its services, or more than one per mil as a transaction charge.

30/ All investments shall be open to all investors. The maximum cost of a share shall not exceed one day's pay.

31/ Three column accounting shall be the norm for all accounts involving multiple charges and payments. There shall be one column for charges, one for payments and one for the net amount after that transaction. All financial services must use three column accounting. And all debts and credits must appear on the master ledger view.

32/ All fictional citizens and financial services providers must have a master ledger for each account. Any charges made off the master ledger may be held to be fraud.

33/ No investment fund shall invest money where it will sway political, environmental or social decisions, as this is a corrupt practice and a back door to our democracy.

NR'81. CONTRACTS

1/ Consumer contract clauses that are misunderstood by more than 10% of Sub-Senators reading them shall not be enforceable.

2/ When consumer contracts that seem to say one thing on casual reading, but on careful study say another thing that is beneficial to the authoring side,

they may be held non enforceable.

3/ Contracts that are contrary to what company representatives repeatedly say may be held unenforceable.

4/ Contracts that are normally signed without being read shall have little power over the people signing them. For contracts over 500 words, the party that drafted the contract must show proof that the other party actually read the contract. For contracts under 350 words, all signatories shall be presumed to have read the contract. This rule shall apply to all addenda, rules, attachments, titles, general conditions and all other supplementary information. All of these things shall be included in the word count. When contracts reference the Senate's standard provisions, those Senate standards shall not be included in the word count.

5/ No contract shall be valid for more than one week's wages unless it is publicly recorded. Those who do not use available Senate form contracts must pay 3X the regular adjudication fees if there is adjudication.

6/ Oral agreements shall not be enforceable unless they are video recorded to the camera generally according to the required basic contract text for that division.

7/ Blank check contract assignment clauses serve no real purpose for principals, but they are a vein of gold for brokers and crooks. Therefore all blank check assignment clauses shall be unenforceable. No contract clause allowing for contract assignment shall be enforceable unless the potential assignee is named at the time of signing.

8/ The maximum potential liability of all contracts must be stated. This excludes enforcement costs which shall not more than double the liability without the enforcement costs.

9/ When entities trade hands, all open escrows automatically get cancelled, any charges and costs being the responsibility of the entity trading hands.

10/ In order to accelerate output and advance national competitiveness, we shall have it that reasonable, and non-predatory contract clauses calling for payments of liquidated damages arising from delays shall generally be enforced by the courts, where an upper limit to the damages is stated, and the work or materials provided generally conform to contract standards. Early completion bonuses shall likewise be generally enforceable.

11/ In general, all consumer contracts must use one of the Senate's form contracts for their classification.

12/ The following matters shall not be the subject of a binding contract, and no clause or concerning the

following matters shall be enforceable in the nation's courts:

- a/ All matters relating to gambling, gambling debts, lotteries.
 - b/ All matters related to sport team membership and acting. This includes professional athletes and professional actors that fail to show up or perform as required.

 - e/ All matters of live performances in front of a large audience, be they for music, sport, acting, or talking.
 - f/ User agreements signed after the purchase.
 - g/ Non-compete clauses for workers, except where the worker is paid at least 3X the average wage.
 - h/ All commission sales agreements and all agreements for introductions to clients where the amount exceeds 1/3 of a year's pay.

 - k/ All purchase contracts involving financing where the down payment that is less than 15% of the total purchase price including all extras and required charges.
 - l/ Contract clauses calling for arbitration by non-government arbitrators as these tend to be biased in favor of the side bringing the arbitrators the business.
- 13/ Agreements to pay a price to obtain a price shall not be enforceable unless in writing and recorded. Also the money paid is subject to commission sales tax.
- 14/ No non-government confidentiality agreement or non-disclosure agreement shall be enforceable in this nation's courts. Government confidentiality agreements and non-disclosure agreements shall not be valid where government workers and others even come close to disclosing illegal activity and other valid whistle-blower information. Government secrecy laws shall not apply to the disclosure of illegal activity, or activity that is nearly illegal. It shall be a felony to harm a person for disclosing illegal activity. It shall also be a felony to threaten a person for potentially disclosing illegal activity.

15/ Nobody shall sign a document on behalf of another unless they are the parent of a minor or a recorded guardian, or they have a recorded 1-year power of attorney document. It shall always be a felony to sign someone else's name.

16/ All mortgage payments, rent, utilities, and HOA fees shall be paid to the recorder's office which shall charge the collecting side 0.1% as a transaction fee.

17/ The Senate shall establish standards for what sorts of professional and businesses practices must be quoted in advance, and how they must be quoted. Once we do this, it shall be the business's duty to accurately describe the scope of work to be performed on the contract. If there is ambiguity, the customer gets the benefit of the doubt and the work shall be done as part of the contract.

18/ When no specific price is agreed on for a product or service, then no payment shall be due and government shall have no role in compelling payment. If the price is vague and the product or service was delivered unpaid, this shall be a big problem for the seller.

19/ When a business offers a menu of goods and services and that menu implies a price range, the business cannot exceed that implied price range on similar goods and services without prior written agreement stating the price to be used.

20/ When there is a going open market price range for a certain product or services in an industry. A businesses cannot greatly exceed that range except with prior written agreement stating the price to be used.

21/ It shall be a crime to enter a retail businesses premises as a customer and try to poach its clientele for another profit making enterprise. These shall all be seen as violating an implied condition of entry.

22/ It shall not be allowed to market goods or services as limitless or without limit when the speed of delivery or the quality of the service is reduced after a certain point.

NR'82. NO CASH OR CRIMINAL CURRENCIES

1/ To reduce crime and corruption, our nation shall eliminate all anonymous physical paper banknotes, currency and coins by 2030.01.01. After this date, all physical currency shall be eliminated, and all money shall be electronic. After this date, all money shall only exist in notional accounts maintained by the county recorder system in blockchain fashion, the files backed up by the other county recorders in other parts of the nation.

2/ Those spending any amount of money on behalf of someone else shall file a statement with their

recorder. It shall be considered as money laundering when people fail to file a statement.

3/ We shall watch to make sure that no new criminal currencies appear. If criminal currency appears, Government must take action against it and all money launderers using it.

4/ The electronic currency system shall track each person's assets and transactions and ascribe a net financial value to each person. Each person shall then pay wealth tax based on their total net worth. This system will make it much easier to spot money-based criminal activity.

5/ Our nation shall take all reasonable steps to discourage the use of gold, diamonds, platinum, silver and other fungible money substitutes. Government shall take all reasonable steps to degrade and ruin the long term value of these things, as well as similar compact and fungible goods, and anonymous black-market electronic currencies.

6/ The nation shall be prohibited from buying gold or silver, or using them in its money, or holding gold, silver and platinum bullion without selling 1% of its reserves each year.

7/ The nation shall be prohibited from holding or displaying so-called precious metals and diamonds, rubies, emeralds and sapphires in its museums.

8/ Except when the material is to be used up in industrial purposes, contracts that call for, or allow payment or delivery of gold, silver, platinum, diamonds, rubies, emeralds, or sapphires shall not be enforceable.

9/ No institution involved in trading or brokering stock, bonds, or mutual funds shall be allowed to trade gold, silver, platinum, diamonds, or other gemstones, or obligations related to the transaction of these things.

10/ The nation shall incrementally divest itself of all precious metal bullion reserves and museum gemstones at a rate of 3% per year until 2025, and then 2% per year until 2030, and then around 1% per year, thereafter, thus flooding the market for over a century.

11/ It shall be considered the felony of money laundering to use or offer services relating to anonymous black market electronic currencies, on or after revelation day. The use of crypto currencies on or after revelation day shall be considered felony money launderers. Government shall be free to use sting operations on people using or offering services relating to anonymous crypto currencies.

12/ Gold, platinum, silver, diamonds, rubies, sapphires, emeralds, crypto currency, and all other

criminal currencies shall generally have no legal standing in criminal matters. If these things are stolen, misappropriated, or counterfeited, this shall not be a thing for the police or the justice system to get involved with. This constitution is attempting to shut down the value of these things. Nonetheless, all sales of jewelry containing gold, platinum diamonds, rubies, sapphires, or emeralds, shall be subject to at least a 33% luxury tax on their value, whatever that is and including all re-sales.

13/ Free people are supposed to shun gold, platinum, diamonds, and other gemstones as evil things. It is best if no new wedding rings or other jewelry is made from these things. Stainless steel is best if you are going to wear jewelry.

14/ The counterfeiting of gold, platinum, gemstones, gemological certifications, antiques, and antique artworks shall not be a crime in this nation.

15/ No gemological or jeweler's certification shall have any legal validity in this nation.

16/ The richest diamond lands in the nations shall be nationalized and made into a mineral extraction reserve.

17/ It shall be the official policy of the nation to prevent gold from being used as a criminal currency. To this end we neither want to mine all our gold, nor do we want to produce a steady amount. Instead, we want to suddenly announce the opening of a new section of auriferous river to gold mining every 2 to 10 years, so as to destroy the ability of criminals to use compact gold as a store of value.

18/ Our nation's government shall watch to make sure that no new criminal currencies appear. If a criminal currency appears, government must take action against it and all money launderers using it.

19/ Only the national government of our nation shall have the power to issue currency. The counties shall not have their own currency. No citizen, fictional citizen, or foreigner shall issue currency.

20/ Each river channel and lake bottom in our nation, shall be sampled every 5km by core drill, and the samples sluiced for gold and other heavy minerals. Special attention shall be given to tracing concentrations back to their motherlode deposits. Special attention shall be given to the idea of quantifying how much gold exists buried in our river valleys.

21/ The river valleys of the following places shall be drilled to bedrock every 2,000m:

a/ The rivers east of Bakersfield, Fresno, Sacramento, and Redding.

b/ All areas of California that have been hydraulically mined.

22/ All barter transactions must be assessed, and the county assessor may charge up to the average pay per hour for this assessment service. Thus barter will be substantially more expensive than using money.

23/ Government shall have downloadable LU contract forms for what are essentially enforceable crisis checks denominated in LU. All these checks must be assessed, and they must pay the reasonable assessment fee.

NR'83. PAPER MONEY AND LAVORI

1/ While America continues to use anonymous paper money in dollars as legal tender, it shall proudly honor the men that made our nation great. We shall honor these men because we know that many people in the world will step-aside for our grandfather democracy with these men on our aegis. Their gifts are the gifts of democracy and freedom and the shared group spirit of America, the land of the free. Each man (or pair) shall be in the center of one side as follows with Lady Liberty in the medallion to the right.

\$500	Wright Brothers & Neil Armstrong
\$100	Steve Jobs, Steve Wozniak & T. Edison
\$20	Patrick Henry & Melancton Smith
\$5	Jonas Salk & George Marshall
\$1	William Knudsen & Henry Kaiser

2/ We shall call our new entirely notional, entirely electronic currency as Lavori, LU, or Labor Units, meaning hours of labor. Our government shall try to keep one Labor Unit is worth one hour's average wages except in times of crisis. It shall be considered an important thing that one Labor Unit be worth one hour's wages for the average person because:

a/ It makes people realize that money is really time.
b/ It makes people better understand the value of labor, the cost of goods and the extent of debts.
c/ It makes it hard for economic parasites to flate and manipulate our currency as a way of profiting from our labors and trade.

3/ To create a headwind for crime, corruption parasitism, to tax torpid capital, to increase net tax revenue, to enable negative interest rates and deflation without debt crisis, the Senate may aim for a stable annual inflation rate of up to 10% for its non-Lavori secondary currency.

NR'84. SOCIAL COSTS AND INDUSTRY

1/ One of tyranny's greatest competitive advantages

is that it does not burden its industry with social costs. Free nations must not exaggerate the value of this competitive edge by shifting social costs onto their industry. Instead they must go in the opposite direction and try, wherever practical, to liberate their industrial base from all social costs. This should include government reimbursing private industry for the realistic cost of government compliance. If we fail to do this, we support tyranny by helping it keep its competitive cost edge.

2/ In our nation, no employer shall ever be allowed to pay any sick leave, maternity leave, healthcare benefits, unemployment insurance benefits, pension fund benefits, or worker's compensation insurance for non-dangerous work. If Government elects to have these things, then our Government must pay for them. Employers shall be required to pay worker's compensation insurance for dangerous work.

3/ The Senate shall regularly inspect the processes of all domestic businesses with regard to labor safety, product safety, output quality, and polluting byproducts among other things. So long as a business complies with the Senate's business rules, so long as it does not actively seek to hide information from its Senate inspectors, and so long as it complies with the reasonable demands that 2/3 of the randomly drawn Senator inspectors elect to make, it shall generally be held innocent of wrongdoing.

NR'85. NATIONAL COMPETITIVENESS

1/ There shall be no income tax because income taxes put a nation's producers at a dis-advantage when competing against nations without an income tax.

2/ All non-money benefits paid or given by employers shall be assessed and taxed.

3/ All goods and services sold in this nation shall pay sales tax, and this shall be regardless of where the goods were made.

4/ Employers shall be prohibited from paying for unemployment insurance. Government shall not harm the competitiveness of the nation's industrial base when it can so easily finance this insurance in other ways.

5/ Employers shall be prohibited from paying for their worker's health care. No insurance company may sell health insurance to employers or employee groups.

However, in dangerous job categories, employers shall pay for insurance for job-related injuries.

6/ All domestic workplaces are subject to inspection

by government, and all shall be required to obey its reasonable instructions regarding worker safety, health, product safety, and environmental pollution.

7/ Those working doing dangerous jobs may be required to wear cameras and other monitors.

8/ Employer-managed and employer-paid pension funds shall be prohibited. All existing monies shall now be paid out to the employees.

9/ Government shall provide environmental testing and reporting free of charge to all manufacturing businesses that require testing.

10/ Government shall not require plastic-lined dumps or charge for waste disposal. All dumps shall be owned by the people.

11/ Government shall prohibit the sale of chrome-plated products regardless of where they are made. Government shall also prohibit the sale of other toxic, short-lived, and bad-idea industrial processes as well, regardless of where they are made. It is both bad industrial policy, and bad environmental policy to do otherwise.

12/ All mass produced products and all service providers shall display their name and UPC. It shall be the crime of fraud if anyone but the final consumer removes or hides the manufacturer and origin information of any mass produced product.

13/ To encourage the proliferation of good ideas and good business practices, government shall maintain objective comment, complaint, and ratings boards for all mass-produced products and service providers in the nation.

14/ Government shall maintain website for selling all classes of manufactured goods offered for sale in the nation. Manufacturers shall have the right to force all others to stop marketing their products on this board. Middlemen shall have no right to list on these boards, unless they substantially add to the product. Government shall only charge reasonable anti-spam fees for this service.

15/ All mass-production products and parts sold in our nation shall have an international manufacturer and product number imprinted upon them. They shall also display on their label a UPC, a Senate useful life estimate, the manufacturer and product number, the nation of origin, the overall weight, and the weight of key components.

16/ The standards for materials included in imported manufactured goods shall not be substantially lower than the raw materials we make domestically.

17/ The Senate shall rate all major products and services. The Senate may elect to stigmatize any product or service sold in this nation for any reason.

18/ There shall never be any taxes of any kind on

rail freight. Freight using the road system shall be taxed by an amount high enough to cover the true cost of the road maintenance the freight necessitates.

19/ The government of the land of the free shall construct at least 20 industrial ring railroad zones such as exist in Berlin Germany, and were a principal cause of the two world wars. Once we do this, our industrial land will cost little more than farmland.

20/ Government shall maintain the nation's rail tracks for no charge, just like it maintains the roads today.

21/ Government shall provide railroad car pulling at cost with no provision for payback of infrastructure development costs or impounding for maintenance.

22/ We shall support our manufacturers by giving them legal advantages over middlemen. Our nation shall work to gently wither its middlemen by giving them slight legal disadvantages in comparison to both manufacturers and consumers.

23/ Automation of human labor shall generally be regarded as a good thing. Government shall not discourage the use of labor magnifying robots or automation that saves human work time.

Government shall have higher taxes on output where a large component is human labor.

24/ Except in duly elected curtailment industries, no segment of the nation's manufacturing base should be driven overseas due to government regulation of some industrial process.

25/ Industry cannot compete in an environment of heavy government burdens and taxes. Also, industry grows fat and inefficient in an environment of subsidy. The best path is for government regulation is to have no net cost or subsidy to industry.

26/ International trade is a very good thing in small amounts. Therefore, this nation shall encourage international trade when it is less than 6% of domestic manufacturing. However International trade is a terrible thing in excessive amounts as it undermines our nation's industrial base and its ability to defend itself in war. Therefore, this nation shall impose various taxes to keep international trade from exceeding 20% of domestic manufacturing. This shall be so both across the economy, and in all strategic commodities and potentially military industries.

27/ Government shall work to assure that the nation's industry can compete in an environment of free and fair trade. Government shall act to protect the nation's industry from both predatory trading

practices and from nations that use undervalued currencies.

28/ Government shall do what it can to prevent cartels and fictional citizens from practicing targeted predatory pricing, from driving our producers out of business, so they may jack up prices to exorbitant levels later. If the Senate elects that predatory pricing is occurring, then it shall be required to take action to protect the nation's industrial base. If we fail to do this, we will see our nation's industrial base undermined by the forces of parasitism as so many of our democratic progenitors have suffered.

29/ If the Economic Sluice elects that predatory pricing is occurring, government shall nourish that industry by either increasing tariffs, or lowering the sales tax rate for domestic producers, or both. If this is still not enough, the government shall step in and protect the nation's strategic production capacity by blocking liquidation of assets. These strategic assets shall be mothballed by government for decades if need be. No mineral, raw-material, key commodity, or key industry shall be excluded from this protection. Government shall also register the key people working in these industries so they may be later drafted to re-start the industry themselves, or to train others to do so.

30/ The Senate shall be required to give rulings regarding unclear regulations, so the entire government code can be as crystal clear and intuitive as possible.

NR'86. EMPLOYMENT.

1/ National competitiveness through job destruction and re-creation shall be considered far more important than the keeping and sharing jobs that already exist.

2/ Government shall try to make the least restrictive laws possible concerning hiring and firing workers. Hiring, firing and employment shall not be taxed, charged or burdened in any way by government, or government mandates. Except for contractual obligations, government shall not compel employers to pay anything to anyone when they hire, fire, or lay off workers.

3/ Government shall focus on making jobs, rather than mincing over the rights of people terminated from the various commercial enterprises of this nation. However government shall strive for accuracy and justice in recording why people were terminated.

4/ All unemployment benefits shall be paid by government and none shall be paid by employers. Thus when employers are wrong in taking a chance

by hiring someone, all they have lost is the cost of training and getting the new person up to speed. They are not also burdened with the cost of paying unemployment benefits. To do otherwise is to tax industry for taking a chance and hiring people.

5/ To make the nation's labor force easier to employ, government shall track the employment history of all workers. Government shall attempt to maintain objective employment comment boards and objective worker ratings for all workers who want to be rated. It shall do this to encourage the hiring of good, hard-working people and help to make the people more hard working.

6/ Government shall establish detailed rules for worker conduct, employer conduct, as well as hiring and firing of workers. However, government shall not intervene, unless laws or an employment agreement has been broken.

7/ To help reduce unemployment, we shall say that in most cases, government and the courts shall not impose huge fines on employers for the unpredictable and one-off misdeeds of their employees, unless the employer's instructions, statements, actions, or omissions in some clear way caused the problem. When government or its courts do fine employers for the misconduct of their employees, this amount shall not generally go near bankrupting the business unless the violations are repeated in the face of notice. Instead the penalty amount for shall only be a reasonable deter•hence.

8/ Government welfare benefits to working-age men and working-age childless women are supposed to be a bit difficult, annoying, time consuming and humiliating. Homeless dorms are supposed to be devoid of privacy, asexual, regimented, inspected, time wasting, noisy, and perhaps a little bit worn-out and ugly.

9/ Government shall focus on national competitiveness and the creation of wealth rather than the sharing of the wealth that exist. Wealth sharing shall only be a safety-net, and a short term one at that. After one's government-paid unemployment insurance runs out, the only other means of public support shall be in the county homeless dorms.

10/ The workers of this nation shall be guaranteed the right to a mechanic's lien when they are not paid. In the event of a legal dispute, the employer can post bond or other reasonable guarantee for the amount in dispute with the court until the dispute is resolved. Mechanics that file liens excessively may be prohibited by the court from using the mechanic's lien process for some years.

11/ Those working in lifting or stooping jobs shall get back X-rays prior to starting their work and once every 2-years. If these X-rays show disc compression or other lifting related problems, then these people may not work in a lifting or stooping job. Due to the cumulative, preventable, and hard to verify nature of back injuries, no worker injury payments shall be paid for back injuries resulting from lifting or stooping. No worker injury payments shall be paid for repetitive stress or back injuries that come from desk jobs, or office work. Fugitive injuries, and injuries with no significantly objectively observable symptoms shall not be covered by worker's insurance.

12/ The OSHA shall compile detailed safety and anti-injury media for all occupations. All workers shall be required to watch all relevant safety media for their occupation. All workers must pass all OSHA safety tests with a 100% score in order to be covered by worker's injury insurance. No worker may be punished for refusing to work outside his certified safe area.

13/ Everyone shall be automatically licensed to engage in business under their name and national ID number. In order to prevent the extreme nuisance of name shedding, and the bad behavior this practice causes, it shall be impossible to change one's name, or business name, or business identity number. The only exception is for witness protection. This includes business owners who marry. These must keep their original pre-marriage names in marriage.

14/ All employers, even casual employers, shall be liable for worker injuries when they employ workers that lack the appropriate OSHA safety certification(s), or pay wages outside the government's wage payment system. Also, all private insurance policies for these conditions shall be unenforceable.

15/ Injuries to trained and tested people on government approved and inspected machines shall generally not be the responsibility of the employer, unless the employer has asked the employer do something dangerous.

16/ All employment recruitment and placement people shall pay commission sales tax on their income from making employment placements. Regardless of contract stipulations, no employment recruiter shall be paid anything until at least 60 days after their placements start work. If the new employee quits or is terminated for any reason before this time, no payment shall be due to the recruiter. Where the work period is for less than 60

days, the recruiter must still wait 60 days to be paid.

I — HEALTH — FAMILY — WOMEN

NR'87. HEALTHCARE

1/ Because demand for healthcare is inherently infinite and the supply of healthcare resources is inherently limited, the healthcare industry eternally suffers from shortage conditions.

2/ In order to minimize this eternal shortage, the Senate shall make a comprehensive list of all standard treatments and procedures that are known and accepted. Then based on observable, measurable evidence and repeatable results, the Senate shall rank these treatments in terms of cost effectiveness for the various age and risk classes of patients. At the top will go the least expensive treatments with biggest pay offs. At the bottom will go the most expensive treatments with the smallest payoffs:

a/ Low cost, big bang procedures shall be provided by government for free, and the doctor shall be paid entirely by government except for an annual deductible of one month's wages and a co-pay of 15%. The Senate shall waive the deductible and copay for prenatal care, vaccinations and other treatments it wishes to encourage.

b/ Medium bang procedures shall be untaxed and unsubsidized, and the doctor shall keep all of the money he charges the patient.

c/ High cost, small bang procedures, shall be taxed and the government shall get most of the money and the doctor shall get only some of the money.

d/ For no bang procedures, like cosmetic surgery, the government shall get nearly all of the money, and the doctor shall only get a tiny part of the money.

3/ To determining the healthcare bang for the various procedures, government shall take into account all relevant lifestyle and health factors. No risk group shall be able to lobby for exemption. Our government shall be run by reason and cold logic everywhere, including here. Maximize shall be our mantra, and we shall allow no cheaters.

4/ People shall be assigned an overall health score. This will use all the tobacco, alcohol, mafia drugs, and perhaps sugar consumed. This may also offer activity monitoring for those who want to earn healthcare credits in this way. There may also be daily charges for torpid young people. All the forgoing will be combined into a single 4-digit, xx.xx number that will act as a coefficient for one's age.

5/ Those who have been habitual smokers or

alcohol abusers, mafia drug users: Those who are old, diabetic, torpid, obese, or big sugar consumers: All of these groups shall lose their free healthcare status, and later their untaxed healthcare status, at a younger age.

6/ Many ailments will be listed in many sub-categories with great precision as to age and other risk factors.

7/ Government shall be generous with healthcare coverage for those in the first 2/3 of life, and it shall be miserly with healthcare coverage for those in the final third of their life, and especially those who appear to be near the end of life.

8/ Government shall provide the most cost effective treatments, such as vaccines, prenatal care, and basic children's healthcare for free to all citizens with no deductible, or copay. For the next group of treatments there shall be a deductible and a 15% co-pay, while the least effective, luxury treatments might be taxed at over 800%.

9/ All businesses that sells alcoholic beverages must also sell the government's standard medical and trauma kits at no markup.

10/ All taxes from luxury healthcare procedures shall be applied to expanding the coverage of the least expensive procedures with the biggest payoffs. In addition to this, government shall allocate a sliver percentage of GDP.

11/ Care herein shall mean all procedures, treatments, and other forms of medicine. As follows are the various care levels and their taxation:

Tier-1a healthcare = highly cost-effective care that shall be paid by government with no deductible or co-pay.

Tier-1b healthcare = highly cost-effective care that shall be paid by government with a deductible and co-pay.

Tier-2 healthcare = moderately cost-effective care that shall neither be paid by government, nor taxed.

Tier-3 healthcare = slightly cost-ineffective care that shall pay low luxury sales tax.

Tier-4 healthcare = moderately cost-ineffective care that shall pay moderate luxury sales tax.

Tier-5 healthcare = highly cost in-effective care that shall pay high luxury sales tax.

12/ The Healthcare sluice shall be the ultimate arbiter of what tier a procedure is for people with various health scores levels.

13/ Tier-1 and Tier-2 healthcare shall only use Ubiquitized drugs and other forms of ubiquitized IP.

14/ There shall be only a limited number of insurance classes, like Tier 2.0 to Tier 2.9, and Tier 3.0 to 3.9. This will make the insurance easier to

understand. Insurance shall not be enforceable for Tier-4 and Tier-5 healthcare procedures. Tier-2 healthcare insurance shall have a deductible of one month's wages and a uniform co-pay of 15%. Tier-3 healthcare insurance shall have a deductible of three month's wages and a uniform co-pay of 30%.

15/ Government shall maintain a central payment platform for all healthcare services, including pharmacy, dental, psych counseling, physiotherapy, chiropractic, massage, and alternative cures.

Everyone paying or getting paid for things even remotely like healthcare must use the electronic healthcare system for all transactions. This includes all insurers. In this nation, it shall be felony tax fraud to buy, sell, or offer healthcare services except via this system.

16/ The full cost of all healthcare charges and optional permutations must be agreed to in advance in writing on the healthcare system except where this is simply not practical due to an emergency. This shall include all third party services such as testing and imaging.

17/ There shall be a national drug use database where all prescriptions are tracked and doctors can check for overlapping prescriptions, prescription drug abusers, and adverse reaction trends. We will start with opiates and then add other drugs prone to abuse, and then move on to all drugs including over the counter drugs. Under this system, people will only be able to buy a limited amount of each over the counter drug before they must go and get informed about the harm.

18/ All doctors shall prescribe all drugs through the unified national prescription database. Under this system both excessive prescribing and excessive use will be easy to spot. Also, all prescription drug use will be available to all subsequent doctors and pharmacists working with that patient. Finally, all generics have the same standard base price. Generic drug manufacturers shall have no liability for the drug chemicals they produce so long as they are the proper chemicals and pure enough.

19/ Everyone over age 72, and those with extremely painful health conditions shall be allowed to take opiates without listening to the anti-addiction propaganda otherwise required when healthy people opt for these licenses.

20/ Opiates shall not be imported into this nation. We shall not be enslaved as a nation.

21/ All cosmetic surgery and treatments shall pay Tier-5 luxury sales tax. This shall not include people disfigured in accidents, but shall include people with self-inflicted injuries.

22/ Taxes shall be due for all luxury healthcare procedures whether performed in this nation or in another nation. It shall be the crime of tax fraud for citizens and other taxpayers of this nation to obtain luxury healthcare procedures overseas without declaring them, and paying tax on them.

23/ Treatments and care that consume too much of our scarce medical resources may be prohibited.

24/ We shall not squander the time of our know-it-all doctors doing the work of technicians. Any medical diagnosis or procedure that can be done nearly as well by specialist technicians must be done by specialist technicians. This shall include diagnosis, local anesthesia, and minor cutting procedures done under local anesthesia. This as well as the prescription of limited drugs related to the technician's narrow range of specialty.

25/ The following treatment groups must pay luxury tax:

a/ Tobacco and alcohol disease.

b/ Injuries incurred while driving drunk, or driving in a vehicle with an intoxicated driver.

c/ Injuries incurred while in a vehicle speeding at more than 35% over the posted speed limit.

d/ Injuries from failing to wear a seat-belt.

e/ Self-inflicted injuries.

f/ Injuries from human-operated motorcycles.

g/ Injuries from stunts, racing, tumbling, jumping, or acrobatics.

h/ Joint, bone and muscle injuries from playing football, rugby, basketball, or soccer.

i/ Injuries from boxing or martial arts.

j/ Injuries from skateboarding, roller-skating, scooter riding, and going too fast on a bicycle, or riding while the ground is wet.

26/ No non-smoker shall be compelled to pay for any smoking related healthcare. All healthcare for illness related to tobacco, shall be entirely funded by tobacco taxes. All healthcare for illness related to alcohol shall be entirely funded by alcohol taxes.

The other portions of the healthcare budget shall not be used to subsidize treatments for these activities.

It is expected that this practice will cause the cost of tobacco to rise many fold. All tobacco vendors shall be required to offer nicotine chewing gum at marginal cost to anyone with a recent tobacco license, and without a prescription.

27/ Due to their cumulative, subjective and self-inflicted nature, on-the-job spinal disc injuries from lifting shall not be considered on-the-job-injuries.

28/ The control of mosquito borne disease in urban environments is a more important imperative than pesticide exposure from our environment. This is

because the death and disease caused by mosquitoes is huge and easy to see, while the harmful effects of pesticides in our environment are very hard to find.

29/ It shall be considered a good thing when a broad section of the people have skills in animal surgery. Such skills may be hugely valuable in natural disasters. Furthermore, Better that we can treat 2X or 10X as many animals than we treat fewer animals with slightly better outcomes due to extreme veterinary surgery training. For this reason, the government license to humanely operate on animals, and to repair them from vehicle accidents and other injuries shall only require 4 high school or college courses and passing the animal medic license test.

30/ All high schools shall offer single courses in infectious disease nursing, emergency birthing, trauma nursing, burn nursing, healthcare cleaning and sanitation, elder nursing, and first aid among other useful civil defense healthcare training modules for backup help in disasters.

31/ Practicing doctors under age 62 that fail to document at least 1,500 hours of medical work in each year shall pay a 40% income tax. Those who fail to document at least 2,000 hours of medical work in each year shall pay a 20% income tax. Doctors over age 60 and doctors that are Ubigs or Senators shall be exempt from this provision.

32/ All healthcare treatment companies employing more than 12 physicians shall pay a 6% income tax. All healthcare treatment companies employing more than 100 physicians shall pay a 12% income tax. All healthcare treatment companies employing more than 600 physicians shall pay a 25% income tax. Using business mechanisms by which multiple doctors merely share expensive equipment and equipment technicians shall not be considered as joining the physicians into one business.

33/ The Senate shall maintain intake accounts for all common classifications of health-related research and for personal treatment donations. The Sub-Senate shall apportion and disburse 100% of this money to the classification it was donated to. The Sub-Senate shall also provide auditing to verify that the money was spent on legitimate things. Those appealing to others for the cost of their medical procedures must use this system, and they shall not be allowed to collect any money themselves.

34/ The Senate shall offer 12 levels of health and medicine video training for free to anyone who cares to watch them. Level 1 shall be compulsory for all 13 year olds. Level 2 shall be compulsory for all

secondary school graduates. Level 10 shall be equivalent to medical school.

35/ Government shall provide free training in every occupation that can be taught via an automated online interface, and healthcare is no exception. However, for healthcare occupations, government shall also provide up to 2-years of clinical training for doctors and up 1-years of clinical training for nurses at no net cost for those who both obtain the license and practice for 5-years in the field they trained for. All clinical training shall occur in government hospitals and government shall not outsource this to any private medical school.

36/ We shall train healthcare specialist technicians in a variety of narrow areas including diagnosis. We shall maximize the use of specialist technicians in healthcare. Medical procedures that can be done nearly as well by specialist technicians, must be done by specialist technicians. When the nation's know-it-all doctors do the work of technicians, they shall only get paid a technician's wages.

37/ The Senate shall set the standard compensation levels for all widely performed healthcare procedures. All healthcare providers must charge a consistent and declared across-the-board multiplier on these amounts. There shall be no discounted or negotiated prices for healthcare services.

38/ All healthcare providers must upload all health records to the national system. All files shall be posted on standard forms and formats. All healthcare systems shall be compatible with the national system by 2025.01.01.

39/ Every person's medical history, medical alerts, prescriptions, allergy, adverse reaction, and other relevant healthcare information shall be accessible by their medical ID number (and bar code) in the national healthcare database. All prescriptions shall be scanned to the system which automatically checks for drug conflicts and interactions before giving final approval for the prescription. Everyone shall have only one lifelong account on this database.

40/ There shall be no billing forms, or background forms, to be filled out at any medical office except those directly related to the current visit. Everyone shall be permitted to view all their healthcare files. Healthcare providers shall keep no patient data that is not on the national healthcare database. All patients may view their healthcare and pharmaceutical files and object to any remarks. The national government shall provide medical record keeping on the national healthcare database for free. Each person shall also be able to easily make

a local backup of their files if they want.

41/ It shall be seen as a corrupt practice and a crime to give or receive a referral fee or valuable consideration for referring a patient to a healthcare provider. It shall be an act of ethical misconduct to name or suggest any particular healthcare provider as opposed to a class of specialist.

42/ Only the healthcare sluice of the National Senate may establish long-term mandatory healthcare policy. County Senates may only establish mandatory policy for 7-days. After that, the policy shall expire unless enacted by the national Senate. All mandatory national healthcare policy must be reviewed in each teneth. No fictional citizen shall have any right to enact mandatory healthcare policy for any worker, any customers, or anyone else.

43/ There shall be no advertising in doctor's offices.

44/ All communication by drug development company workers shall be monitored.

45/ People who practice alternative medicine, including chiropractors shall not be allowed to use the term doctor and there shall be no doctors of chiropractic, or doctors of traditional medicine.

46/ There shall be no exceptions to the rules of informed consent.

47/ Those who have previously worked for the FDA shall be banned from working for, or taking money or gifts from drug and technology companies for life. All prior FDA employees and their close relations shall be regularly audited. No more than 20% of the final decision makers at the FDA shall have previously worked as a director of a drug company.

48/ FDA approval gives a procedure the right to exist in the FDA approved healthcare marketplace. It also gives healthcare providers total exemption from liability if the treatment was provided correctly. This includes all adverse reactions, provided all prior adverse reactions are properly documented and catalogued. This exemption is the government saying that it has investigated the treatment and found that the treatment had better results (by an indicated percentage) on average than the healthcare problem over the term of study listed on the FDA approval. Also, if the Senate thinks a treatment shows great promise, but it not quite ready, this must be stated for the consumer to consider. The Senate and all drug companies shall be prohibited from hiding useful information about adverse drug reactions.

49/ No grant of immunity from civil or criminal prosecution for vaccines or treatments shall be valid

unless the vaccine or treatment actually appears to be a better alternative.

50/ Where there is no statistically significant benefit to treatment, the Senate cannot allow the treatment.

51/ When drug companies act to hide vaccine injuries and deaths, this may void the company's immunity. It shall be a felony for drug company workers to hide vaccine injuries and deaths.

52/ The truthful and accurate reporting of healthcare treatment data is simultaneously one of the most important, and one of the most money-weighted aspects of government regulation. Great attention by government should be focused here. Those brokering drug company hush-money payments hang as both mass-murderers and censors. The recipients of drug-company hush-money payments go away for 10-years — even if they are ill and even if this will kill them.

53/ With FDA emergency approvals, there shall be no government compulsion or even recommendation about the treatment.

54/ All the official FDA studies of safety and efficacy that matter — all these shall be organized by the national Healthcare Sluice. There shall be no official drug or medical studies by any private facility that matter, except to challenge the official studies by the healthcare sluice. All healthcare studies and trials shall be vetted by the group mind of the Healthcare Sluice, with public input. The only thing a private study will be good for is convincing the Senate to do a public study, or to cancel the results of a study for reason.

55/ Those who teach the Senate something it really likes normally get made into an UBIQ and a multi-millionaire. These also get much time in the Senate resort system. So more inventions will go directly to the Senate and people without middleman involvement. From there the market will compete to apply the new invention.

56/ There shall be no healthcare policy, or treatments guidelines established by anyone except the national college of physicians or the national Senate's Healthcare Sluice which shall have the power to overrule the college of physicians with a 60% overmajority and rational stated reasons.

57/ All practicing licensed physicians shall have an equal right to vote in the college of physicians. Nurses, non-practicing physicians, non-certified physicians, chiropractors, nurses, all forms of natural medicine treatment people, and other non MD physicians shall be prohibited from voting or serving in the college of physicians.

58/ Only the Healthcare Sluice shall have the power

to impose restrictions on the people. The college of physicians shall not have this power.

59/ The recorder's office shall provide AI-based health monitoring of video and data streams with humans on call if there is trouble. This shall cost 1-hour's wages per month, and 1-hour's wages per dispatch.

60/ The life and health of the people being above all else, Government shall keep detailed, well-investigated, and unbiased cause of death statistics. Government shall keep similar statistics on debilitating conditions, their timing, and their suspected causes.

61/ For each death, there shall be 3 cause-of-death (COD) investigators that shall be randomly assigned to go out as 3X redundant independent investigators. They determine all possible causes of death and serious injury where possible. This process is supposed to begin within 24 hours of death. Cause of death/damage technicians are supposed to have had a 3-year undergraduate degree in the various areas of death: Diabetics, smokers and drinkers, cancers, blood diseases, long-term care, elders, trauma, epidemiology, vaccines, post-op, kidney disease, Alzheimers, firearms, etc.

62/ The COD investigators shall work independently from every other branch of government. Nobody in government is allowed to say one word about their findings, and it shall be a felony to attempt to threaten or censor a COD investigator.

63/ Important people and rich people who die in strange ways, or at strange times may get up to 10,000 COD investigators assigned to their death.

64/ Later we will do a similar thing with many sorts of severe illness. Where there was a violent crime, police go first, then the COD investigators, go at different times so they don't meet or know who is investigating which death.

65/ There shall be no right to privacy with regard to statistic gathering by government about public health. However, no names shall be released to the public.

66/ For all homicides, we shall keep detailed statistics on motivation, race, location, type of weapon used, and all video records including witness testimony. For all deadly vehicle accidents shall shall keep detailed statistics on the type of impact, the speed, the motion, the vehicles, the injuries, etc. For designing a healthy and safe society, this is some of the most valuable user information around. For this reason, we shall

endeavor to be as accurate and precise as is practical.

NR'88. RESTRAINED ACTIVITIES

1/ The Senate shall establish budgets for the various segments of the healthcare system, the civil law system, and other portions of the economy that need to be limited in economic size. For the sake of longevity, these budgets shall be expressed as a percentage of GDP.

2/ The Senate shall use variable, industry-specific taxes to control the net-income of these industries. At the end of each teneth, these taxes shall be calculated so as to force each industry's net revenue into the budget elected by the Senate.

3/ To start, the budget of the nation's healthcare system shall be 8% GDP.

4/ To start, the budget for the nation's civil lawyers shall be a percentage of GDP determined by the Over-Senate.

5/ To start, the budget for the nation's civil judgements shall be a percentage of GDP determined by the Over-Senate.

6/ To start government business fines shall be a percentage of GDP determined by the Over-Senate.

7/ These budget percentages may be adjusted up or down by with a 2/3 overmajority vote in the Over-Senate.

NR'89. EPIDEMICS AND VACCINES

1/ When small numbers of people are traveling from nations and regions with a highly contagious and highly virulent disease outbreak that is not already endemic in our nation, the Healthcare Sluice shall have near unlimited right to impose quarantine restrictions.

2/ Where a highly contagious and highly virulent disease is confined to a city, or a region, the Healthcare sluice may lock down that city so long as the disease remains confined to that city and a threat to the nation overall. This period shall under no circumstances exceed 60-days and shall not apply to the entire nation.

3/ Given that quarantine camps can so easily be repurposed as concentration camps, we shall have a strong aversion to quarantine camps. Also, few things make people hide their symptoms and avoid testing like quarantine camps. Thus having quarantine camps can easily be counter-productive thing for ending an epidemic. Wherever practical, the people shall be permitted to quarantine in their homes, and government shall provide special quarantine flights and busses to get them to their

homes.

4/ There shall be no national lockdowns for diseases that appear to kill less than 2% of the people they infect, or less than 1% of the healthy population under the median age. For diseases that kill more than 1% of the healthy people under the median age, no national disease lockdown shall exceed 30-days including extensions. No national emergency healthcare restrictions shall exceed 180-days including extensions.

5/ The military and militia shall not be deployed to enforce any lockdown for any diseases that are killing less than 4% of the people they infect overall, or 2% of the population under age 60.

6/ During even minor epidemics, the Senate may require masks in transit and elevators, and other crowded and poorly ventilated public places. However, the Senate can only mandate masks in these crowded or poorly ventilated places.

7/ During epidemics, the Senate shall have the right to compel universal testing for the epidemic pathogen. However:

a/ The pathogen must have been isolated. The testing can't be for a pathogen family.

b/ The tests must be accurate, and they shall not give more than 2% false positives or false negatives.

c/ The Senate shall not have the right to compel repeated daily or weekly testing of the public such as occurred under COVID.

d/ The tests cannot be destructive, painful or uncomfortable.

8/ There shall be no universal and mandatory vaccination or medical treatment established by either Government or any fictional citizen.

9/ No fictional citizen shall ever have the power to compel any person to take any vaccine or receive any medical treatment under penalty of either employment termination, or termination as a customer, student, member, or any other affiliation. There shall be no mandatory vaccination requirements for all patients at emergency medical facilities, or for all students in a school, or for all employees of a company. Fictional citizens that dare to make public policy concerning vaccinations and medical treatments may be compelled by the courts to pay toxic waste sized fines. And this shall be so even if government recommends or illegally commands vaccination.

10/ Everyone over age 13 shall have the right to accept or refuse medical treatment, including vaccines. Teachers and people in authority shall not have the right to pester children into accepting either a medical treatment or a vaccine.

11/ It shall be a crime to vaccinate others without signed permission. This shall apply to both those jabbing people, and to their employers.

12/ All drawing needle bases shall be day glow pink plastic, All injecting needle bases shall be day glow green plastic. If the needle is for both, then the base shall be day glow orange plastic.

13/ Seriously ill people shall not be vaccinated unless they are ill with the disease they are being vaccinated against.

14/ Neither Government nor the medical establishment shall mandate specific treatments or treatment guidelines for any new pathogen or pathogen variant less than 3-years old.

15/ Only the national Healthcare Sluice may establish national policy regarding treatments and vaccines. When the Healthcare Sluice makes national treatments and vaccine policies, it must listen firstly to the national broad democracy of clinical physicians, where each practicing and full career retired physician has one secret vote. The Healthcare Sluice is also supposed to listen to the democracy of clinical specialists and the various medical theory people, but the democracy of all clinical physicians is supposed to come first, ahead of the specialists.

16/ When Government recommends vaccines, tests, or treatments to everyone, the recommended vaccine, test or treatment must be approved by the FDA under its normal approval process. Government shall not recommend vaccines, tests or treatments that are approved as an emergency response. Government can only call these a partly tested response.

17/ When Government recommends vaccines, tests, or treatments to everyone, that biotech must have been ubiquitized. Thus drug company profit and bribes will not bias our public health policy. When government calculates ubiquitization payments to drug companies, the payment shall be calculated based on the estimate of the number of lives saved or helped by using the treatment, vs. not using the treatment.

18/ There shall be no foreign manufacture of government recommended vaccines.

19/ Vaccinations of every sort shall be anonymous. The person, or their parents go to get an interchangeable and anonymous vaccine card. Then they present this card anonymously at a vaccination station where they get the jab and then they present ID and their vaccination status is updated on through the patient data keeping system.

20/ All vaccines must be shown to be at least 5-

times safer than the illness over the short term for each age cohort.

21/ Government shall recommend no vaccine until it has been tested on at least 5-million voluntary vaccine recipients and 1-million voluntary vaccine recipients for 3-years.

22/ Regarding vaccine death and injury liability, the correct approach is to limit the liability per victim rather than to either completely absolve the manufacturer of all liability, or to allow payouts equal to 10 lifetime's wages. This new approach will result in reasonable care on the part of the vaccine makers to have safe vaccines

1/ The right to a painless suicide shall not be denied to those who are experiencing a painful, near term, and near certain death as defined by Senate standards.

2/ Human life shall not be sacred when the brain stem is dead, or when there is no hope of the mind ever returning beyond a faint shadow. 3/ It shall be none of government's nobody else's business if 16-year olds have consensual sex with people who are any age.

4/ 15 year-olds may only have consensual sex with peers. Those who are age 18 shall always be considered as peers of 15 year-olds, while those who are age 20 shall never be considered as peers with 15-year olds. The maximum penalty for non-peer entirely willing sex with a minor of age 15 shall be 5 years.

a/ For under 18-year olds, the penalty for adult victims shall be multiplied by 1.25X.

b/ For under 16-year olds, the adult penalty for adult victims shall be multiplied by 1.5X.

c/ For under 14-year olds, the penalty for adult victims shall be multiplied by 2X.

d/ For under 12-year olds, and for extreme violence upon a minor under age 18, the penalty for adult victims shall be multiplied by 3X and longer island interment lock-ups shall be required.

All prostitutes must have completed at least 1,000 hours of legitimate employment in their life in order to get a license. The minimum age to obtain a porn actor's license shall be 22. People who are obviously older than 22 do not need a porn license. Also, under-developed people over 22 that still look under 22 shall not be allowed to simulate boys or girls that are under age 22. The STD and prostitution monitoring systems shall also check for underage sex and generally provide a safe harbor legally.

15/ The minimum age for meeting alone with male school and church people shall be 15, unless they are family. However, for everyone under age 18, the meeting place must be under video surveillance.

16/ The minimum age for religious indoctrination or religious instruction without having one's parent or guardian present shall be 15.

17/ Only those over age 21 shall be eligible to vote. The Sub-Senate may raise the voting age to as high as 25 if its elects to do so with a 2/3 over-majority.

18/ Models and actors depicted in a sexual, romantic or grown-up, way must be over 21 years old. No model or actor shall have had plastic surgery, liposuction, or implants, and their images shall not be altered or manipulated to make them look thinner.

19/ No doll, cartoon, model, actor or porn actor shall have a body mass index under 19.5. There shall be no copyright protection for media products containing any violation of these BMI rules.

In non-violent crimes, age shall mitigate and those under age 16 shall serve 50% of the adult time. Those over age 14 shall serve 35% of the adult time, and those over age 12 shall serve 20% of the adult time.

22/ The people's right to know shall about everyone's violent criminal past is vitally important. The quality of life of ex-convicts is unimportant in comparison. And this even goes for 12-year olds. Therefore, all violent crime committed by people over age 12 shall go on their permanent open public record. And all their accounts shall display their violent crimes.

23/ Insanity, and youth over age 13 shall not be a defense against the death penalty. There shall be no prohibition against executing convicts because they were 13 or younger, or insane when they committed a death-penalty crime. Partial or total insanity shall not reduce any criminal penalty. The criminally insane shall not be subject to parole, and all shall spend their full prison sentence in a facility for the criminally insane.

24/ No convictions for violent crimes shall ever be expunged from the record, or sealed because the perpetrator was young when they committed the crime. This shall apply retroactively to all convictions of the past.

25/ There shall be separate long-term incarceration facilities for those who are 60+, 59-to-20, 19-to-14, and 14 and under.

28/ Stigmatized media shall not be downloaded, but may only be streamed. Those streaming stigmatized media to others shall be required to verify that the primary viewer is over age 18. The distribution of stigmatized media to minors shall be a crime, as shall be the possession of cached stigmatized media files by minors.

29/ The Senate shall produce detailed guidelines for the minimum age at which children can undertake various activities by themselves. These shall be set as young as reasonably possible, leaving the most discretion possible to parents.

30/ No county shall make its own laws with regard to minors.

31/ There shall be no minimum or maximum age for Senate service.

32/ Until a child is of legal age, their parents shall be the ultimate judge of what is fit for them unless the

parental rights have been taken away due to a court action arising from genuine abuse.

NR'92. WOMEN AND CHILDBIRTH

1/ It is futile to outlaw abortions. Nothing we do will keep many women from aborting a pregnancy with the wrong guy.

2/ After decades of failed drug "wars", we have learned that we will never stop illegal drugs. How will we ever stop illegal abortion drugs? Some women will do extra-ordinary things for the one abortion pill needed. So regardless of the law, many or perhaps most women with unwanted pregnancies will still have illegal abortions with black market pills.

3/ When abortions are illegal, women take abortion pills that are supposed to be doctor supervised but are not. So these women have dangerous abortions.

4/ Society has no right to tell its women: "you got pregnant by the wrong man, now you must bear his child and raise his child". Sex without commitment shall be a right, and entirely legal, and so shall its accessory right, that of abortions.

5/ What of our system of population control? How will that work when women accidentally get pregnant one too many times? And surely when our poor families have too many children, and another comes, we must let them choose. Surely when a 16-year old girl accidentally gets pregnant, we must let her choose. And what of the women taking the illegal pills? They need to be examined afterwards and this doesn't happen when abortion is illegal. We accomplish very little in making abortion illegal. It stops few abortions.

6/ Nearly all babies born before week-22 either do not survive, or if they do survive, they have lifelong problems. However by week 25 they normally at least survive, although commonly with lifelong problems. Therefore, it shall be the law that in the first two thirds of a pregnancy, up to week-26.70, the Mother shall possess total life or death rights over her unborn child. However after this point, there must be at least a minor medical reason for aborting the pregnancy.

7/ Prior to the third trimester, abortion shall be both legal and entirely up to the woman. In other words, each female shall have an unlimited right to remove and kill her unborn children while they are still in her body up to week 26.7 of a typical 40 week pregnancy. During this initial 2/3 of a woman's pregnancy, nobody else shall have any legal say or right over a woman's unborn child, not government, not the genetic father of the unborn child, not the husband of the female if any, and not the female's

parents.

8/ For abortions in the third trimester of a pregnancy, there must be some cause, such as a slightly increased health risk to either the mother's life, or her fertility, or slightly increased risk of a child born with a long-term care issue or a significant defect. Such late term abortions shall be judged by a jury of doctors and Sub-Senators on judicial duty as to eligibility for abortion.

9/ It is a great thing that medical science can now often tell us when our unborn offspring are damaged and will require life-long care that nobody wants to provide. It is also a great thing that pregnancies that will harm the mother (and often the mother of other current and future children) can be ended. It is also a good thing for society if women can chose not to have the child if she gets pregnant by the wrong man. And also that sex doesn't always mean babies for women.

10/ We shall begin a child's right to life at the point where nearly all fetuses can survive birth without serious defects. To reduce future argument, we shall use the start of the third trimester as this point in time. After the start of the third trimester, there must be a health reason for an abortion, either some slightly increased risk to the life of the mother, or some evidence of defect on the part of the unborn child.

11/ Surely it is wrong for society to make women bear damaged children and not let them be aborted if this is possible. So pregnant women shall have the broadest rights to abort both their damaged fetuses and to end pregnancies that might harm them the mother.

12/ Government shall always work to make reproduction easier and safer and more burden free. It is thought that making reproduction safer and more predictable will increase the will to have children — especially among the most rational people.

13/ It shall be a felony to impede, interfere-with, protest, call, email, message, or make contact with women while they going to exercise their right to kill their unborn children. Clinics aborting unborn children (new people) shall not be allowed to council women, or express any opinion about the woman's choice. Also, nobody shall be allowed to pose as an abortion clinic when they don't regularly provide abortions.

14/ When females become pregnant before their 14th birthday, they are supposed to have an abortion because they are too young to have children. Victims of rape that become pregnant are

supposed to have an abortion because it is wrong to give the rapist a child. In both cases supposed-to have an abortion does not mean must have an abortion — and the female shall be free to make her own decision.

15/ No matter how old a female is, she shall always have the final say over ending pregnancy.

16/ The recorder system shall have forms for grandparents, siblings and others to adopt children while still in the womb. Grandparents and siblings on either side may also agree to pay money to the mother to bear the child and this shall be enforced automatically by government. Although this shall be subject to approval of the adopting parent by CPS.

17/ For all pregnancies, the mother must watch the government's prenatal and child care education videos under monitoring. She must also correctly answer the high school level, paying attention questions at the end with a 100% score, unlimited reviews and retests allowed.

18/ The at pregnancy modules above shall be in addition to the required reproductive and child development modules that all female students must take.

19/ For all pregnancies, the mother must have timely pre-natal testing as called for by the Healthcare Sluice. Women who do not comply with the basic pre-natal testing and education requirements shall not receive any government child support money for the child.

20/ When prenatal tests indicate conditions associated with mental retardation that is on average as severe as Down syndrome, no government benefits shall be given for that child. Government shall slowly raise this bar.

21/ Government shall offer free family planning and pre-natal education, sex education, abortions, sterilizations, and all reasonably effective and economical forms of birth control free of charge to all females allowed to work in this nation.

22/ Government shall provide pre-natal testing, prenatal healthcare, and child-birthing free of charge to all citizens and legal immigrants for a conforming number of children.

23/ The following categories of breeding-age females shall not have children, and must remain on long-term birth control such as an IUD or slow-release birth-control hormone implants. Daily pills, condoms, male contraceptives and other forms of birth control shall not be acceptable forms of birth control for the purposes of this rule. Government may check and verify that birth control is being used for the following women. If any of the below

categories of women are found to be pregnant, government may require them to have an abortion:

a/ Women with certain types of high use amphetamine, cocaine, or opiate licenses.

b/ Women who consume an amount of alcohol sufficient to cause extreme FAS for their body weight.

c/ Women on probation from jail, or who were ordered by the court to be institutionalized for mental health issues in the past 2 years.

d/ Women receiving public poverty aid, and women coupled with men receiving public poverty aid. This shall not apply to child support aid.

e/ Females who are mentally retarded in its broadest reasonable sense. This shall include all females that have not graduated 10th grade. In 2028, this shall include all females that have not graduated 11th grade. In 2033, this shall include all females that have not graduated 12th grade.

f/ Certain groups of immigrant, Exhod and refugee females as determined by the Senate.

24/ Government shall provide frozen umbilical stem cell storage free of charge, in two sites, for all people born in a hospital or birthing center in this nation. Government shall not prohibit therapeutic research or therapeutic medicine because it uses stem cells, or aborted human embryo cells.

25/ All laws concerning human reproduction and abortion shall be established by the national government and no country shall make its own laws concerning these things.

26/ Newborns voluntarily abandoned by their mother at the place of birth and without a father to claim them may be given to the next in line for public adoption after an 4-hour absence. This shall become a final adoption if the birth mother, or birth father fails to formally request the return of their child within 30 days. After this, all parental rights of the birth parents shall be forever abandoned. When mothers intentionally abandon their newborns in a dangerous place such as a dumpster, they may be charged with attempted murder and their parental rights shall be automatically terminated.

27/ The Healthcare Sluice shall prioritize families for adoption. Highest priority and first choice in matters of adoption shall go to households with at least one woman and one man. Next priority shall be households with no man. After this shall be households with no woman, unless the Senate elects to prohibit adoption by families without women.

28/ All immigrants, Exhods and adopted children shall be genetically indexed to determine where they

actually come from, and who they are related to. This shall be repeated annually for a few years by different groups of Sub-Senate testers so that this testing is truthful — because this is so important. It is also important that we compare all our notes with all the other nations of the world.

29/ All fetal tissue shall be subject to use if it can save others.

30/ Only licensed physicians and licensed birthing nurses shall offer child-birth services, and these must offer their services in a location adjacent to a certified operating-room. The training period for a birthing nurse shall be 2-years in school and a 1-year internship.

31/ Women shall be allowed to breastfeed their babies everywhere that they may bring their babies provided the child has not yet had its 2nd birthday. Women are supposed to cover their nipples from view, however there shall be no penalty. Children after their 2nd birthday must be breastfed in private.

NR'93. MARRIAGE AND DIVORCE

1/ The government of the land of the free shall give the people the greatest possible freedom and leeway in how they conduct their family life, how they marry and how they raise their children.

2/ Except for setting a minimum age, and prohibiting genetic incest, government shall not limit or define the nature of marriage and family for the people.

Native citizens shall be free to write their vows and marry and have families as they wish, in any combinations, genders, or numbers they wish, provided all parties agree. However to limit the power of foreign brotherhoods, immigrants shall not be allowed to marry more than one person at a time, or more than three people in their lifetime.

3/ All of the nation's laws and standards for marriage, natural reproduction, artificial reproduction, child support and spousal support shall be elected by the national Senate and no county may establish its own laws or standards.

4/ From now on, all new marriages and child support agreements must be recorded in writing, or on video and this filed with a county recorder's office for the family law agreement to be legally binding. No co-habitation without a recorded marriage agreement shall ever become a marriage, no matter how long the co-habitation was for.

5/ The people shall be free to do the following in their marriage contracts:

- a/ Marry for life, or for a fixed number of years.
- b/ Call for any property sharing and post-marriage property divisions they wish, equal or not, capped or

not. However absent a specific marriage contract clause calling for the sharing of property, there shall be no sharing of property.

c/ Have marriages of child support alone, without any sharing of property between spouses.

d/ Call for any divorce justifications or delay period they wish up to 5-years.

e/ Call for any child support payments they wish. However absent a specific marriage contract clause calling for the payment of child support, there shall be no child support due.

f/ Call for any child custody and visitation rules they wish. However absent a specific marriage contract clause calling for child custody, the standard child custody percentages shall apply.

g/ Call for any alimony payments they wish. However absent a specific marriage contract clause calling for the payment of alimony, there shall be no alimony due for new marriages.

h/ Call for a child or children to be born within a period of time.

6/ When unmarried people record written parenting agreements, these shall be valid in all matters of determining child support, custody, and visitation rights.

7/ Government shall not favor married parents over unmarried parents, or have incentives for people to marry or not marry when they have children.

Government may however incentivize the people to either have children or to not have children.

8/ Government shall not impose procedural restrictions that slow the time period for divorce.

9/ Every person over age 18 shall have the inalienable right to leave their home and strike out on their own.

10/ A woman's right to choose who will sire her children shall be inalienable, and something that cannot be bartered away in a marriage or by contract. If a husband is unhappy that his wife is bearing the child of another man, his only recourse shall be to seek a divorce.

11/ All marriages shall require a license. No license shall be granted except after a 30-day waiting period, tests for sexually transmitted diseases, and if the marriage involves a woman of child-bearing years, a pregnancy test. All applicants for a marriage license shall have a right to see the test results of their co-applicants. They shall also have the right to know the identities and marriage periods of all prior spouses, the reasons for divorce, and the identity of all offspring and parents. They shall also have the right to see the criminal record, education, debts, credit history, and

tax history of their intended spouse, as well as all domestic violence police calls.

12/ All marriage vows shall be subject to a written part of the ceremony. This is where the merged and separate property gets listed, divorce terms, child support terms, and other terms get listed. Assets not listed shall remain separate property. The standards for turning separate property into community property through actions shall be as high as reasonably practical.

13/ Lawyers shall not be allowed in family court. Family law legal-surrogates for minors under age 17 need not be inferior to principles, however they shall not be substantially superior to principles.

14/ Uncontested divorces shall pay 6% of assets as an adjudication fee. When government must adjudicate a divorce, it charges 50% on assets up to a year's pay, and 15% on amounts over this.

15/ There shall be no alimony, and all spousal support must be called for in a recorded marriage agreement to be binding.

16/ There shall be no presumption that divorced people have a right to live at the standard they have become accustomed to. Such a presumption makes our best people reluctant to couple and have children and leaves our nation to be taken over by its poorer elements who have nothing to lose having many children.

17/ First cousins, siblings, parents and children, grandparents and grandchildren, uncles, aunts, shall not marry or have children. If any immigrant or Exhod ever marries in this way, they shall all be deported, including past immigrants.

NR'94. BREEDING RIGHTS

1/ Whenever women have a conforming number of children, they shall have the right to have those children without any male, or any senator that makes his sperm available. And the women shall be free to have these children without a life partner if they want.

2/ Even if a woman is married, the husband does not own the wife's reproductive choices. Even if a woman is married, she may have children by anyone she chooses. All adults able to breed shall have the inalienable right to breed with whoever they mutually agree to breed with regardless of any prior agreements made.

3/ There is no right to abduct women, or lock a wife or girlfriend up. How barbaric these cultures are. What about the female's rights? All the places that still do this must stop immediately, or you will ruin the Exhodos. And you must stop mutilating girls for

the same reason.

4/ Society shall help women to choose the best sire they can find without being corrupted by the hard realities of financial support. Society shall always pay enough to cover the cost of raising children, provided the mother has had a conforming number of children.

5/ No person who has donated sperm or ova to a registered bank shall ever be compelled or required to make any payments, or communicate, or do anything else for their genetic offspring. To do otherwise is to discourage our best from donating, and we definitely do not want to do that.

6/ Sperm and ova donors shall have the unlimited right to chose the degree of contact they will accept from their genetic progeny. Those accepting a sperm or ova donation and raising the child shall have the right to chose the degree of contact they will accept between their children and their sperm donors until the children reach age 18, or is finished with school. Finally, the child shall also have the right to limit the degree of contact they will accept with their genetic parent. Unless all parties wants contact, there shall be no contact. The only exception is with the offspring of Senators and Ubiq donors.

7/ Sperm and ova donors cannot sue for parental rights, nor can they be sued for rights. No sperm or ova donor's name shall go on a birth certificate unless all three parental parties agree to do so. Children born of donated sperm and ova have no inheritance rights under the law with regard to their genetic donor parents. These may however be granted later by recorded will.

8/ Government shall do nothing to discourage its best people from having more offspring than the rest. It is one of the most important parts of this Constitution that those people who have donated their sperm or ova never suffer any cost or obligation for having done so.

9/ Those married or partnered to a women when she gives birth to a sperm/ ova donor child shall be permitted to be the child's official father if the mother also agrees.

10/ Where human ova are sold or donated, the woman who bears them to life from her womb shall be the legal mother in every way, and shall have exclusive rights under the law. Where a woman is paid to bear the ova of another women or those owned by a man, the side paying shall be the legal parent in every way, and shall have exclusive rights under the law.

11/ Reasonable contracts for birthing surrogates and ova donation shall not only be valid, but government

shall enforce them free of charge.

12/ There shall be mandatory visits to doctors and other pre-natal healthcare people for all birthing surrogates and sire mothers according to the Senate's schedule. There shall be steep reductions in surrogacy money for women who don't follow the normal schedule.

13/ All birthing surrogates and sire mothers must follow the doctor's orders. If the doctor orders that they must remain lying down except to go to the toilet, then they must go to stay in a service apartment and live under video monitoring. Again, steep reductions in surrogacy money will apply for women who don't follow the doctor's instructions. And this shall be enforced by the system, not the genetic parents.

14/ Paid birthing surrogates get:

20% of the money for births after the end of week-30.

40% of the money for births after the end of week-32.

60% of the money for births after the end of week-34.

80% of the money for births after the end of week-36.

92% of the money for births after the end of week-38. and

100% of the money for births after the end of week-40.

15/ All birthing surrogates and sire mothers must give up their alcohol, tobacco and drug licenses in advance. All must pass a drug test before pregnancy, during pregnancy, and after birth. This shall include second-hand levels of tobacco and second-hand levels of marijuana as well as common drugs that are off limits to pregnant women. Again, steep automatic penalties in the surrogacy payments.

16/ Government shall not tax monies paid for birthing surrogacy, ova donation, or sperm donation. Government shall aid ova and sperm donors by verifying and, guaranteeing their Senate, Ubiq, and other status, as well as their education, health and other data. Government shall also provide escrow services and impartial, rapid adjudication of birthing surrogate monies for no charge.

17/ With regard to child bearing limits, and pregnancy birthing surrogates, the child belongs to the genetic mother, and the birthing surrogate is not counted as having had a child.

18/ The intentional corruption of sperm or ova donations shall be considered one of the worst forms of rape.

19/ The standards for female surrogate material donors shall be different for men and women because human leadership wisdom tends to come after the time that it is optimal to harvest human ova. Therefore, the Senate shall conduct testing to find the smartest ova donors by means in addition to Senate service.

20/ The Senate shall invite a sufficient women to donate their eggs, so there are enough good eggs to meet demand.

21/ If there are not enough confirmed Senators that are female and of breeding age willing to donate eggs for Senate surrogacy, the various Centi-Nomes shall elect other women for egg harvesting. These women need not live in that Centi-Nome. They shall be chosen primarily for their intellect. When these women agree to undergo harvesting, they shall be listed on the national sperm and ova donor supply database together with any photos, videos and data they care to supply. If there is sufficient demand for all their eggs, then government shall harvest their eggs.

22/ Government should not be balancing supply with demand here with egg donors, but instead it should have around twice as many egg donors as are needed to meet demand. Once a women is both chosen by the Senate and say 280 surrogate women (28 days times 10 eggs) then she begins the egg harvesting process.

23/ When a donor's eggs are harvested, they get fertilized by the male of the surrogate's choice, or the choice of those contracting her prior to implantation.

24/ To assure enough high quality Surrogate eggs, the Senate may offer over a year's wages per child born of eggs donated to the Senate. Women shall also be allowed up to 8-weeks unpaid leave from their work or studies.

25/ We will compensate women generously for their eggs. This is because public egg donation should always be an honor, so most women do it when asked. Also surely it is worth the cost.

26/ If a woman receives free egg harvesting from the Senate, when she turns 44, these eggs shall become the of the Senate and people.

27/ Government shall generously award Ubiq status to anyone who makes even the slightest improvement in making IVF safer, more productive, easier, faster, cheaper, or more comfortable.

28/ Society should help its smartest people, and greatest contributors to have a great many offspring. However, in the interest of genetic diversity, there should generally be breeding caps and a maximum

number of offspring, except in the case of the most oversized intellects and contributors. In determining a maximum number of offspring, we shall rely on cyphers = logic, equations, mathematical models, and hard measurable underlying realities/ to determine a maximally optimal approach.

29/ We should try to find a way to increase the number of eggs a woman can provide from egg harvesting. Therefore, great resources should be expended (if necessary) in understanding how to induce super-ovulation in humans.

30/ Government shall produce many standard adjustable form contracts for all common reproduction practices in order to make reproduction easier.

31/ All reproductive clinics shall be regularly audited and tested by government in many ways both financial and having to do with egg fraud.

NR'95. GOVERNMENT CHILD BENEFITS

1/ Everyone knows that people must provide for their offspring. So we shall not allow our new democracy to do anything so obviously foolish as to scrimp on child benefits. The care and education of the next generation shall get all the resources that are needed.

2/ Except for those groups discouraged from having children as stated herein, government shall give child benefits to all citizen mothers (including immigrant citizens) sufficient to cover the normal cost of raising a conforming number of children. This shall include education, standard Tier-1 healthcare for kids, food, clothing, and housing until the child either finishes, or is pushed out of the education system.

4/ No matter how bad the crisis, no matter what happens to the father, government shall assure that the children of the new generation will be fed, housed, clothed and treated. No woman should ever need to worry about this for her conforming children.

5/ Senate child support payments are guaranteed to come on time every time. Government shall attempt to enforce private child support rules, but it shall not indemnify mothers for those that refuse to pay in a world where people can't be jailed for owing money to others.

6/ Government child benefits shall not consider the income or wealth of the parents, or the cost of living in various communities.

7/ All women shall get government child support if the number of their children conforms. Government shall not discriminate on the basis of who the father is or whether the father is even known. Indeed, the

application for government support of a conforming number of children shall not even ask who the father is, or the mothers income. Father's identity shall only be asked if the woman is claiming eligibility for sireage benefits.

8/ To start, government child support shall be the following percentages of the average full-time wage based on the number and status of the children. The Over-Senate may adjust these percentages at any time for children conceived after that point in time:

1-child by any father—15%

1-child by a Senate sire—20%

1-child as a Senate surrogate child—25%

2-children if one is Senate sired—25%

2-children if both are Senate sired—30%

2 children if one is a Senate surrogate—30%

2-children if one is Senate sired & one a Senate surrogate child—35%

2-children if both are Senate surrogate children—40%

3-children if all are Senate surrogate children—50%

9/ All students over age 10 may stay in the government's student dorms full time provided they behave and make acceptable school progress. In some places and among some parts of society, it may be normal for students over age 16 to stay in the government's student dorms for most of the year.

10/ Provided children make acceptable learning progress, government shall provide all with student dorms, free schooling, and sustenance. The system shall be designed so that at least 25% of each year can make acceptable test progress and enter tertiary school or skilled trade school.

11/ The Over-Senate may elect with a 2-to-1 overmajority to change the amounts, conditions, or categories in this rule 93 on child benefits.

12/ The child benefits stated herein shall only apply to children conceived after the date this Constitution comes into effect, and to existing mothers with a conforming number of children that sign their children up for the new child benefits programs. All existing child support responsibilities shall remain in full force until our nation switches over to the new system entirely. Thereafter, the Over-Senate shall decide on a formula for phasing out the old child support system.

13/ It shall be a felony to hide child or make up a child for the purposes of defrauding the child benefits system. A bounty shall be paid to those reporting child benefits fraud by either having undocumented children, or in other ways.

14/ All recipients of government benefits, both the

adults and the children shall be required to identify themselves with fingerprint scans.

15/ There shall be no right to privacy with regard to the identities of people collecting government benefits, including public child support, and all names and addresses shall be displayed on the government website.

16/ Mothers that are graduates of Senate approved colleges may have up to 4-children by any man and receive government child support for all four.

17/ Grown children that don't have Senate or Ubiq parentage shall not be required to pay any portion of their income to their mother. Grown children that are Senate surrogate children shall be required to give 10% of their income to their birthing surrogate mother from age 27. Children that are sired by a Senator or Ubiq shall be required to give 6% of their income to their mother from age 32.

18/ There shall be no government child money for females who have their first child before either completing secondary school or passing the equivalency exam, even if they later pass either.

19/ Women that have children contrary to government rules and still need aid may stay in Mother's dorms:

a/ They shall share a single bed with all their children.

b/ They shall share a room with 2 to 4 other women and their children.

c/ Each room shall share bathroom and kitchen facilities with 3 similar rooms.

d/ They shall only get ingredient stamps to buy food.

e/ They shall be disqualified from all forms of drug, alcohol, tobacco and prostitution license.

f/ These dorms shall be located in peripheral and inconvenient locations.

g/ No males over age 13 shall be allowed inside.

h/ All children over age 13 must stay in school dorms.

i/ Lockdown is 9:00 pm to 6:00am. Lockout is 8:30am to 5:30pm.

j/ Women shall be free to move out any time they wish.

k/ Everyone staying in the Mother's dorms has to either work or go to school while their children are in school

l/ Unsterilized women with a non-conforming number of children shall only be allowed to stay in mother's dorms for one month in their lifetime. After this, they must get sterilized.

NR'96. NON-GOVERNMENT CHILD BENEFITS

1/ This Rule 92 shall not apply to pre-existing children and to children of people born later under marriage or parenting agreements that state a higher amount for child support than the standard amount.

2/ We are instituting a standard amount, a standard dollar amount of child support per child in our nation. This rate might vary with the age of the child. It might also vary with the cost of housing in that part of the nation. But the amount should have nothing to do with the income of either parent. And this should be enough to cover the cost of a child for the average parent.

3/ For all future payments and all continuations of existing payments, parents may call for a higher child support amounts. However, these payments must be expressed as a multiplier over Government's standard payment. All marriages and support agreements must contain a child support component.

4/ The Over-Senate shall adjust the standard child support amount from time to time.

5/ When our women have children with people from other nations, or other parts of their nation, they shall get no more or less money.

6/ The supporting parent shall always have the right to look at the finances of the custodial parent. As long as they are paying, they can look to see how it is being spent.

7/ There shall be no lawyers permitted in matters of family law, including child support and custody.

8/ The Over-Senate shall not only determine the education budget, but it shall also set a percentage of the education budget that is earmarked for special education and special needs. This is so that special needs children will not be too much of a burden to parents.

9/ Men may be required to pay a larger share of their income and wealth than women in taxes.

10/ Government shall maintain a database of where all the children in the nation live and what vehicles they are associated with. Government shall also have a report-a-kid app where people report kids of an approximate age and gender associated either with an address, or a vehicle license plate or a person at a location. They can also report a child missing from an address. If the address or license plate number doesn't match with a known child, then police are dispatched to verify.

11/ All schools and play grounds shall have fences with double doors at the entry/exit points. They shall also have recorder cams with face recognition tech.

This is to keep children from either wandering off on their own, or being taken from the playground by other adults.

12/ All urban playgrounds shall also have multiple video cameras.

NR'97. CHILD CUSTODY

1/ Except where a parent has been convicted of domestic abuse, the custodial parent shall not have the right to change their city of residence without either obtaining permission from the supporting parent.

2/ In custody disputes between mothers and everyone else, particularly for children under age 4, the mothers always, automatically get primary custody of their children, unless she agreed otherwise in a marriage or parenting agreement, or she is declared unfit by the court, or her housemate is declared unfit.

3/ A mother's wealth and chastity, or lack thereof, shall never have any bearing on her fitness to raise her own children.

4/ All minors under age 18 must be residence and location declared to government. There is no right to be a minor under age 18 and living underground or without a fixed address unless they are location tracked.

5/ Government shall have a complete list of which addresses are supposed to have children and which are not. All of the 100 closest neighboring addresses may access this information. Every time there is a change, an email gets sent out by the system to all neighbors in that building, or on that block, or down the road as applicable. This system shall only keep and display the ages of the children at each address. Not even the sex gets reported, only the age.

6/ When one genetic parent seizes a child that is in the custody of the other genetic parent, and there is no conviction for abuse, and the abducting parent notifies the other parent that they have the child, the applicable crime shall be called "Custody abduction". The work camp sentence for custody abduction shall not exceed the duration of the abduction.

7/ Where a woman's males past/present/future get in a fight or a scuffle over anything, the penalties shall be doubled. Where the illegal use of firearms is involved, including illegal brandishing, the penalties shall be tripled. We don't want fighting, but we definitely don't want firearms here. We shall also eliminate all mentions of this sort of conflict from the media.

8/ To encourage step to adopt the children of their women-folk, we shall give some rights to long term adoptive fathers.

9/ Making parents partly responsible for the crimes of their children shall be seen as a way to discourage good people from having children.

10/ Child protective services or CPS shall be a branch of the police. However, no CPS worker shall have any power to arrest without a uniform police officer present. CPS must satisfy the normal rules of criminal evidence to take action. All CPS workers must wear a police cam when talking to the public.

11/ No children shall be taken into CPS custody against their will without a court order from a Senate tribunal except where there is observable physical or sexual harm to the children, or a parent is recorded admitting to abuse or requesting removal.

12/ The location of where all removed children are held must be told to the parents. Except in sparsely populated areas children taken by CPS must be kept in the same community. All children take by CPS shall be kept living under live recorder video. The people housing the children on behalf of the system cannot be connected in any way to the CPS person taking the children.

13/ No person may be held by CPS for more than 24 hours without a court order.

14/ Those who horrifically beat children shall go away forever. However other may only be declared a lifetime danger to children, and these cannot ever live with other people's children, or go around children. It shall be a duty of CPS to monitor all such dangerous people in their community.

15/ CPS shall now also run the anonymous child address verification system where people report kids at addresses or associated with license plate numbers, or send pictures or video. CPS shall spend roughly half its time following up on tips and half its time managing existing problem situations.

16/ Once a woman has an affair with a Humbert Humbert type who molests her children, she shall be subject to regular CPS checkups if she couples with someone else.

17/ Abusers shall normally be re-inspected by a variety of different inspectors on video.

NR'98. SEX

1/ Government shall be prohibited from squandering its energies on anything so inconsequential as who grown people choose to have sex with. Government shall make no law restricting the right of consenting adults, heterosexual or not, married or not, to have sex in private. If people contracted in an exclusive

marriage wish to dissolve their exclusive marriage based on extra-marital sex, then they shall have the right to do so, but the extra-marital sex itself shall never be a subject for government involvement.

2/ To reduce the potential for exploiting foreign people by holding their travel documents, we shall allow people to access their travel documents via document number.

3/ The penalty for acting as a pimp, brothel, or prostitute agency, or prostitute logistics agency shall be 6-years at hard labor for the first offense, and 12-years for subsequent convictions. When the prostitutes are unlicensed, or under age 21, the penalty shall be doubled. This shall include the people who repeatedly transport prostitutes between sex customers and the people who staff and organize the enterprise. The penalty for working in a brothel, or visiting one shall be 1 year in a work camp. Those having sex with un-registered prostitutes may also be charged with various crimes such as sex with a minor and trafficking if these charges are applicable. Those having sex with licensed prostitutes may not be charged.

4/ Pimps that exploit others with addictive or sedative drugs, or locked rooms, or threat of violence, and pimps that exploit girls that are under the legal age for prostitution shall be seen by the law as predators. These predatory pimps shall go away for life on their first conviction. Also, the maximum penalty for a prostitute or a prostitute's 3rd-party defender killing a known pimp shall not exceed 3-years in a work camp. The maximum penalty for assault without long term physical harm to the pimp shall be 3-months in work camp.

5/ To prevent criminal proceeds from being used to buy sex, the prostitute payment system shall only accept non-anonymous electronic funds. Certain groups and occupations shall be prohibited from using the prostitute payment system as customers, and other groups as prostitutes. Government shall tax prostitute payments by 12%. This is not enough to cause tax fraud, yet it is enough money to stamp out black market prostitution, pimps, brothels, and sex trafficking as well as to provide stepped-up police presence in the prostitution zones. All prostitution zones must be located in a non-residential area that are not frequented by minors.

6/ Female prostitutes shall be required to have an examination and blood test at least every 30 days to maintain their prostitution license. Male prostitutes shall be required to have an examination and blood test at least every 15 days to maintain their prostitution license. It shall be a crime for either a

prostitutes or a prostitute customer to have sex without a condom.

7/ Government shall punish public sex in urban and suburban areas. Public sex involving prostitutes or homosexuals shall have triple penalties.

8/ The right of free speech does not include the right to solicit strangers for sex, or make repeated sexual comments, or advances, or make sexual advances upon many strangers.

9/ Except for victims of extreme violence, victims abused by a non-peer when they were under age 16, those held captive for more than 8-hours, and those who were incapacitated, or unable to contact police, no criminal charges for rape, or sexual assault shall be valid if made more than 3 days after the occurrence or discovery. Also, when victims have not filed official charges of sex crimes for official adjudication within the official time frames, including the exceptions, they shall not be taken seriously by either the media or the people. Then, the media must ignore the claims as baseless or risk Senate stigmatization.

10/ Blackstone's maxim must apply to all crimes including sex crimes: "It is better that ten guilty persons escape than...one innocent suffer." For this reason, the burden of proof must always be on the accuser, and sex crimes against either adults or children shall be no exception. In fact, there shall be no exceptions at all to the idea that the burden of proof shall always be on the accuser. Ever. Also, mere accusations alone are never enough. There must be some corroborating evidence.

11/ The legal system shall neither favor the accused nor the accuser in its laws concerning rape and sexual misconduct.

12/ The Senate shall establish reasonable penalties for those who bring false charges of sexual misconduct.

13/ It is absurd that unwanted touching or rape of prostitutes or other forms of sex worker is treated the same as with normal people. This especially in environments where alcohol is served. Therefore accusations of sex crimes by prostitutes, strippers, go-go dancers, alcoholic drink bringers, and hired nightlife companions shall have both higher standards for accusations, and lower penalties.

14/ In order for sexual contact to be considered non-consensual, generally one of the following must apply:

- a/ The accuser was injured, or under threat of injury.
- b/ The accuser was prevented from getting away.
- c/ The accuser was incapacitated or not conscious.

d/ The accuser was a minor, or not legally competent.

e/ The accuser was touched in a way that prevented them from expressing disapproval in time to prevent the touching.

f/ The accused disguised their birth gender with either dressing or surgery.

15/ For all crimes of rape or unwanted sexual contact, the conviction standards shall be significantly higher and the penalties shall be significantly lower when the accuser:

a/ Previously had consensual sex with the accused and the couple was not estranged.

b/ Sent communications that suggest a willingness for a sexual encounter,

c/ Voluntarily went to a secluded place with the accused. This does not include voluntarily going to the doorway of a secluded place, or unwanted entry into to a secluded place.

d/ Voluntarily disrobed to expose their underpants with the accused.

e/ Voluntarily engaged in kissing or embracing with the accused.

f/ Voluntarily touched the private parts of the accused, or allowed themselves to be touched in their private parts by the accused.

g/ Voluntarily got intoxicated with the accused.

h/ Was a prostitute, stripper, go-go dancer, model, actor, singer, or drinking companion for hire.

i/ Had certain types of high intake drug license.

j/ Had a high intake alcohol license.

x/ Items a-j above shall frequently be a strong defense against charges of groping and unwanted touching. They can also be a strong defense against charges of rape.

16/ As far as one's legal protections for unwanted sex are concerned, it is not enough to simply say "no" once you have started with someone. Those who have willingly engaged in kissing or embracing, or undressing must make a genuine effort to get up and walk away if they want to stop. Also, if one says "stop" or "no" or a similar word and later willingly engage in kissing or holding, or caressing, or nudity, it cancels all previous commands, which must be repeated if they are to have meaning. Further, Where people have been voluntarily snogging, there shall be no right to make charges of unwanted touching until the pursued party makes an effort to get away, or the pursuing party uses force or threat.

17/ Where the accused recently had consensual sex with the accuser, it should be difficult to prove rape unless there is physical harm or an official do not contact statement was filed. Likewise, if an accuser

in a sex crime case voluntarily goes to the accused, or voluntarily meets with the accused, or initiates communication with the accused, or engages in lengthy communication with the accused after leaving the crime scene, but before filing charges, it shall be deemed consensual sex. This rule shall not apply where contact is unavoidable. However, the accuser must make every attempt to avoid and get away from the accused, or they will lose their right to claim non-consensual sex.

18/ To reduce stalking, indexes shall no longer display people's residential addresses or workplaces unless they add it themselves to their index page.

19/ All indexes for looking up personal contact account information shall log the ID of the person accessing the information and their reason for access.

20/ People over age 16 may use an official government interface to block any particular person from contacting them in either the virtual world, or in the real world or both. It shall be a minor crime to make contact with someone after they have blocked you, unless there is a legitimate reason for you to contact them.

21/ When heterosexual men are not allowed to act in certain ways towards women they are interested in, homosexual men shall not be allowed to act in similar ways towards men they are interested in. The rules of unwanted touching and harassment shall be no less strict and the penalties no less enforced for homosexual men.

22/ Wherever women have separate rooms from men, such as toilets and showering and dressing rooms, only people born a woman and still a woman may use the woman's facilities. Everyone else must use the men's facilities. Those born male may only use woman's toilets if accompanied by a woman and either under age 7, or retarded, or disabled, or incapacitated, or ill. It shall be a crime for people with gender identity and sex crime issues to use either the woman's facilities, or the individual rooms for the baby changing and for disabled people.

23/ Wherever females compete separately from males, all males, all transsexuals, and anyone with any ambiguity in their chromosomes, sex organs, or hormone levels shall be prohibited from competing as women.

24/ When transsexuals and those with any ambiguity in their chromosomes commit assault, or have fist-fights, they shall be regarded as men.

25/ Everyone who is imprisoned shall be housed according to their birth gender. There shall be no female staff in male prisons, and no male staff in

female prisons. All transsexuals and transvestites shall be kept in special divided-cell jails, along with the people caught having sex in jail.

26/ Whatever ideas people may have about their sexual identity, it shall not be a thing for government or the business world to participate in. Under the law, everyone born a male shall be a male for their entire life, and everyone born a female shall be a female for their entire life. Also, the right of society to know the truth about a person's birth gender shall be considered the most important issue with regard to gender.

27/ The main reason why transsexuals are so fixated on changing their identity card gender and their pronouns is that with these things changed, it gets much easier to trick unsuspecting people into having sex with them.

28/ Our nation is a pioneer in truthful labeling and full disclosure. We require that most things that are important and valuable, and things that might be counterfeited — we require that all such things must be truthfully labeled, and labeled as real or artificial, so the counter-party knows if they are getting fake goods. For this reason, we shall require that all fake women and fake men be labeled as fake women and fake men.

29/ The right of overall society to be free from transgender frauds and rapists shall prevail over the rights of those few individuals who would pretend to be the other gender. Therefore, all forms of sex-change surgery, and sex-change hormone treatments shall be prohibited except for people reasonably judged by a Senate medical jury as a person born as a hermaphrodite that is in need of disambiguation.

30/ Existing transsexuals shall be "grandfathered-in", however it shall be a crime for new people to either undergo future sex change surgery or take sex change hormones, or to provide these to others in the future.

31/ It shall be considered the crime of rape when a transsexual or transvestite dupes a heterosexual person into having homosexual contact with them. Also, when transsexuals and transvestites dupe a person into having homosexual conduct with them, it may be considered by the court as a provocation and justification for subsequent violence against the sexual conman/ rapist.

32/ All transsexuals and transvestites must use the Government's STD and identity database to inform their partners of their gender. Failure to use this database shall always leave the transsexual/ transvestite open to claims of rape.

33/ All existing transsexuals must use a name that unambiguously belongs to their birth gender.

34/ Transsexuals and transvestites caught working as prostitutes, or advertising sex may be treated by the law as rapists even if they inform the other party.

35/ When surgically altered transsexuals are found to have passed as a woman among many men, these shall go away forever as serial rapists.

36/ All government IDs shall use 3 genders: M, F, and H. All genders indicate the state in which the person was born and shall never be changed.

37/ No foreign transsexuals or transvestites shall be allowed to enter or our nation to commit gender fraud upon our people. The immigration status of all foreign born transsexuals and transvestite is hereby cancelled.

38/ Everyone's biological gender at birth shall be their legal gender for life, regardless of how they dress, or what surgery they have had. Those born with external or internal testes shall be male under the law regardless of their other organs or chromosomes. Those born without testes shall be female under the law regardless of their organs or chromosomes. Those with ambiguity in their chromosomes, sex organs, or hormone levels may have surgery to eliminate the ambiguity.

39/ The term man/men is used because it is the shortest readily understandable term and doing otherwise increases mental overhead and dumbs down our ability to communicate. We are mankind, and we are all men, regardless of our gender. The word is related to meme and is about thought and ideas. The word means thinker, or consciousness. There is little sense of gender in this context.

40/ The policy of this nation with regard to homosexuality is that it shall be tolerated so long as it does not interfere with other people's privacy, particularly their privacy rights with regard to their impressionable minors under age 18.

41/ The Senate may favor groups and lines that will live on in future generations over groups that will mostly die out in this generation.

42/ Sexual equality shall not apply to those who pretend to be of the other sex/gender, even if they change their organs. This constitution does not protect transsexuals from discrimination.

43/ No fictional citizen shall have any authority to rule in cases of rape or improper sexual conduct. This includes all schools and all employers.

44/ The Senate shall be free to establish special discriminatory rules for homosexuals and transsexuals working with children in schools and colleges, working in the media, and working in

government, especially those in roles that are focused on children or in roles that may be seen by children.

45/ The people shall be generally free to have whatever religious beliefs, political beliefs, and sexual identity they want. But the people are not free to demand anything at all from other people with regard to these beliefs and identities.

46/ When non-parent adults talk about sexual identity, gender, or sexual pleasure with minors these may be charged with child abuse and excluded from working with children for life.

47/ Under the law, everyone obviously born male shall be treated as male, and everyone obviously born female shall be treated as female. However nobody shall ever be punished for doing it wrong.

48/ The Mideast house of war has been actively struggling to encourage homosexuality in the land of the free, our land, as they did to eliminate democratic ancient Athens, and democratic ancient Rome. This is to reduce the number and power of the infidels not adhering to their religion of feeding the land of no resources.

49/ To eradicate most types of sexually transmitted disease, each county health department shall keep a database of people regularly blood tested as free of STDs. These people shall be issued a safe sex license account by the county. When licensed people have sex, they shall be required to check each other's STD accounts and thus register the encounter. If people have sex with someone outside the system, they have to get tested again before having sex with anyone inside the system, or it will be considered a crime that is enforced by government.

50/ There shall be no pornography that involves real, simulated, described or referenced sex or genital nudity with depictions or presentations of:
a/ Minors or apparent minors, or "teens" under age 21. This shall include underdeveloped people presented as minors under age 22.

b/ Rape, resisted sex, coerced sex, or sex under blackmail, extortion, threat.

c/ Violent sex with beatings, whippings, blood, red marks, bruises, beating marks, or infliction of pain.

d/ Sex presented as incest.

e/ People in chains, ropes, restraints, or bondage.

f/ Lack of consent, sleeping, groggy, drunk, or seemingly drugged actors.

g/ Domination, degradation, cages, cells, or imprisonment.

h/ Fearful or improper facial expressions and porn where weapons or valuables are present.

i/ Sex with animals. Also sex with whole hands, giant objects, or painful objects inserted into orifices,

j/ Secret recordings, or ostensibly secret recordings.

k/ Porn depicted as done for money or other compensation.

l/ Porn involving people who have had surgical alterations including implants, injections, and liposuction.

m/ Porn with feces, urine, vomit, gagging, feet or shoes.

n/ Porn involving transexuals.

51/ It shall be a crime to merge a person's face onto the pornographic images of other people, or to display such images.

52/ All pornography feeds shall be on special pornography TLDs, all of which must verify that the porn features only consenting adults. All gay porn and kinky porn feeds must be on their own special TLDs. Non-pornographic search engine and commercial web directory shall not link to any porn TLDs, nor shall they display any porn images or media. There shall be a clear distinction between the porn internet and the non-porn internet.

53/ Free speech shall not be about portraying illegal sexual activity such as pedophilia, rape, bondage, and bestiality. This is an inconsequential freedom of speech, and a distraction from genuine and all-important matters of free speech and running the society we all live in.

54/ Police may pose as minors and employ actual minors for the purposes of conducting sting operations on child predators and those trafficking in child pornography.

55/ When family members assault a pedophile without causing serious long term harm to the pedophile for raping or sexually assaulting their kin folk under age 16, the maximum penalty shall be 6-months in work camp. When family members kill a pedophile under similar circumstances, the maximum penalty shall be 4-years in a work camp. The only proviso is that there must be sufficient evidence to prove the qualifying actions of the pedophile.

56/ School sex education shall be about: reproduction, contraception, sex diseases, pregnancy, birth, child rearing, health issues, and government benefits. It shall not be about sexual pleasures, or sexual freedom, or homosexuality or gender fantasies. It shall be about teaching young girls and boys to be wise, safe, disease free, and procreative, and helping them to be good parents for the next generation. That is what society's sex education shall be about

57/ No primary or secondary school curriculum or teacher, or any children's media shall be allowed to address or talk about homosexuality, transsexuality, or sexual pleasures in any way. All schools and all media directed at children shall presume and work under the assumption that all students are heterosexual. No school shall in any way discourage students from being procreative and child-bearing members of society by encouraging homosexuality in any way.

58/ No sex trafficking law shall be so broad that it is applicable to normal long-distance dating behavior.

J — WAR — TERROR — FORCE MAJEUR

NR'99. GOVERNMENT ARMS AND THE PEOPLE

1/ The military and the militia exist to protect the people from foreign threats. When they do this, they are great and noble. When they are used instead to suppress the people, they become awful and evil, a gestapo for the people to rise up against, and kill to the man.

2/ Our nation must always be watchful that its military does not become a tool for subjugation. Throughout history, most armies have eventually become a tool for the subjugation of the very people they were created to protect. Armies of large nations also frequently become tools of intimidation, threat, and enslavement of other foreign nations.

3/ Any use, display, brandishing or threat of deploying military force or equipment against the people (and especially the people in the process of mustering) may be considered democide. Everyone who remains involved with the administration/ political party that is ordering the military against the people may be charged with democide if they fail to immediately resign. This includes both political underlings in the administration/political party giving the democidal orders, and the military underlings executing the democidal orders.

4/ Police and militia shall be the sole method of suppressing rioting and disorganized protest.

5/ All armed forces shall be designated as either military or militia but not both.

6/ The national Over-Senate shall be the supreme commander of our military. No general shall command more than 10% of the nation's army. No admiral shall command more than 10% of the nation's navy. No air commander shall command more than 10% of the nation's air force.

7/ The various county Main-Senates, by a single vote of all then-serving county Main-Senators, shall command all militia forces in their county regardless

of the origin of those militia forces. Seconded militia forces may be recalled by their own county Senate at any time if they are unhappy with the way their forces are being used. However, until then, they shall be under the command of the county they are deployed in.

8/ Militia forces shall not be used outside the borders of the nation for any reason. Military forces shall not be used or deployed for inside the borders of the nation, except when the nation is under large-scale military attack, or when portions of the nation take up arms against each another, or in times of great natural disaster or plague.

9/ Any attempt to use militia forces outside the borders of the nation, or to illegally use regular military forces inside the borders of the nation shall void and cancel the enlistment agreements of all people involved.

10/ No military training exercises, military assembly, or military parade shall occur within 5-km of any community with a population over 500,000.

11/ Militia service shall never increase the likelihood of compulsory service in the regular military. If regular troops must be drafted, then they must be randomly drawn from the general population on the basis of their birthday and birth year as if the militia did not exist.

12/ In our nation, we hold that invading armies are the #1 cause of war, and that millions of well-armed citizen and militiamen are the #1 best way to stop them.

13/ In our nation, we are still skeptical that the world has seen the end of war and tyranny. And we think that free men must take precautions against the rise of tyrants.

14/ Another word for military is a 'standing army in time of peace'. This was something widely talked about and feared in America of the 1770 & 1780s.

15/ All military personnel shall repeat each day how they are loyal to the nation's Senate and how they are only loyal to their commanders so long as they obey the Senate. Those calling for, or attempting to invoke loyalty to commanders over the Senate shall be considered a form of democide.

16/ For public safety, government shall not have military bases where bomb blast and debris will be likely to harm nearby civilians.

17/ The number of men in the quarterly militia shall be at least twice the number of men in the military.

18/ In order to keep war from being used as a way to purge the people of their best, all those drafted to fight shall be drafted by birthday-lottery for an age range.

19/ Another ancient misuse of military force is helping to enforce parasitic tax collections and other debt schemes. For this reason, the military and militia forces of our nation shall be prohibited from enforcing matters of debt, debt collections, treaty debts, taxation, tax collection, dues payment, and taxpayer revolts. If taxes are not being paid, Government may cut spending and services in that zone.

20/ Government may use police to enforce matters upon individuals debtors and tax payers, however, when a large portion of the people in a community come under threat of dispossession, then the problem shall be thought to be more of a systemic problem than an individual one. Then fairness and justice requires that we start looking to systemic solutions rather than individual ones.

21/ The military shall be prohibited from keeping the peace at protests. If police are unable to keep the peace, then the militia shall be called upon to keep the peace.

22/ There shall be no less than 20 men in command of each branch of the nation's military. Each shall have command over no more than 10% of the nation's forces in that branch of the military.

23/ The militia shall be organized to maximize enlistment and minimize cost and time investment. Therefore, basic militia service shall involve no more than 6 hours a year of group training and 6 hours a year of video training.

24/ All citizens over age shall be required to watch 1 hours of Senate-assembled media every teneth.

25/ There shall be no physical conditioning of militiamen.

26/ At least 1/3 of militia training shall be about civilian policing, riot control, and disaster contingency plans.

27/ The various county Senates shall have the power to:

a/ Require that all Militiamen keep their arms with them.

b/ Call Militiamen to help with emergencies.

c/ Grant militiamen limited powers as emergency police officers.

d/ Give a firearm carry permit to certain classifications of militiamen, with more training and screening.

28/ Immigrant citizens may serve in the Militia and military.

29/ Militia service receives no pay and may be resigned in time of peace at any time with 60-day's notice.

30/ Militiamen shall focus on sniping and other

defensive guerrilla warfare measures so that it becomes unthinkable for anyone to invade our nation. Militia weapons shall generally be 1.5-second fire and high accuracy.

31/ The various county militias shall elect their Didec, Dident, and Dimil leaders. Militias shall not have great generals, and there shall be no greater power in the militia than a dimil in command of 2,000 minutemen committed to dropping whatever they were doing if they are truly needed.

32/ There shall be no militia uniforms as the militia is stronger if it blends in.

33/ No man shall avoid the draft by paying money or obtaining a person willing to be a vicarious. No academic enrollment in a non-government school shall qualify for a military service deferral.

34/ Confirmed Senators and full Ubiqs shall be exempt from military service if they wish to be exempt. If they enlist they will qualify for officer candidate school. The Senate shall make every attempt to exempt the smartest from dangerous and combat roles.

35/ No weapon system or military hardware in our nation shall be stored in less than 20 stockpiles, unless there are less than 20 copies.

36/ Only native-born citizens shall be permitted to command men in the military, or serve as a military officer, or work in our nation's intelligence administration, or be given special clearance to work in critical military or defense operations. Only people whose parents were both native citizens shall be given top secret clearance, or serve as top military officers.

37/ All police officers shall be required to join the militia and serve in the militia for as long as they are in the police force. All military officers shall be required to spend at least 16 hours a year training with the militia. This is intended to make both the police and military feel a part of the militia, the core defensive body of the nation. This is also intended to help impart valuable knowledge to the militiamen.

38/ Ishtarian immigrants may be excluded from many areas of the military for security reasons.

39/ When county governments refuse to implement the constitutional directives of the national Over-Senate, or when county governments direct their militia in a way that is illegal or in violation of the rights of the people, then the national Over-Senate may elect to take over command of the militia of those counties.

40/ Government shall not impose an upper limit the number of citizens in the militia.

41/ Our nation's military shall not be sent to foreign

nations and situations where it is hard to tell which locals are friends, and which are enemies.

42/ Military hardware parades shall be seen by all as a way for tyrannies to intimidate and oppress their people. The land of the free shall not put its weapon systems on parade.

43/ The various branches of the military, the militia, police, fire, and EMS shall all have feeds where they post videos of situations and commentary that the people can learn from. The best lessons here will be ubiquitized and put in student education modules and driver safety modules. All drivers shall be required to watch 74 minutes of driver safety videos and commercials by police annually, one minute every 5-days. The news media is not supposed to cover any of these video incidents no matter how sensational. In fact, the more sensational, the more they must remain as a sweet in the mix so people are more eager to watch the other safety media.

44/ In order to be flight crew on military aircraft, or command a military sea vessel, or serve as an officer in our military, or be a militia Dicent, both parents of the military person must have been citizens of our nation for 7 years the time of the person's birth.

45/ The term insurrection shall not be in any way applicable until at least 50 establishment security people or 5 Senators are intentionally killed by the side being called an insurrection. The term violent insurrection shall not be in any way applicable until at least 500 establishment security people or 50 Senators are intentionally killed by the side being called an insurrection.

NR'100. TERRORISM AND WAR MONGERING

1/ Terrorism shall be defined as the use of violence and fear to move the most emotional and animal-minded people, thus steering the heard of men, the mob, as if they were animals.

2/ It shall be considered a fool's errand to attempt to define all the many things that can be terrorism. We might as well try to define all the many things that can be frightening.

3/ The words democracy and dinosaur come from ancient Greek diemos = terror. Thus we understand how some Greek speakers conceived of democracy as government of a flock by terror, terrorism at least 2,500 years ago. So to the greatest extent possible we all need to call-out and counteract these forces in our democracy. Perhaps we should call our new form of democracy as Timocracy, rule by merit.

4/ We must always be on guard that our government of the people by the people and for the people does

not become a diemocracy driven this way and that by terrorism.

5/ The nation's Over-Senate may declare any violent act or threat of violence as terrorism with a 2/3 overmajority.

6/ The Senate shall be allowed to use infrastructure attacks, group punishment, and escalated retribution against groups and nations that use, or condone terrorism, or that engage in piracy.

7/ Government may negotiate with terrorists and hostage takers, but only when it is reasonably sure that it can and will act to reasonably punish their cause and their people in the future.

8/ This nation shall do what it reasonably can to prevent people from profiting from causing, or fanning the flames of war, terrorism, hatred and political instability. To aid in this objective, our nation shall do what it can to help keep prices near war zones from being much higher than outside.

9/ Our nation shall sensibly and strategically accumulate and decumulate large buffer supplies of all key commodities. When there is a war, or shortage, the government shall sell these buffer supplies to spoil the profitability of war. As well, when the price of any key raw-material or commodity rises significantly due to war, government shall turn its attention to helping increase output and market supply so as to ruin things for war profiteers.

10/ Our democracy shall not act like a dumb animal herd in the face of terror. No act of terrorism, no matter how severe, shall be allowed to bend the decisions of our democracy as the terrorism was intended. To do otherwise is to invite terrorism and subjugation.

11/ Once a nation has been declared as supporting terrorism, or at war with our nation, or driving other third party nations towards war with us, the Senate may with a simple majority of the ISS sluice inter or deport any named individuals of that citizenship or birth nationality, including those who are immigrant citizens of our nation. With regard to immigrants from these particular problematic nations, the Senate shall be free to:

a/ Discriminate based on affiliations and associations, as well as public comments, including religious, political, and economic comments for all immigrants from these particular nations.

b/ Issue blanket surveillance authorizations for all immigrants from these particular nations.

c/ Waive all requirements of due process for all immigrants from these particular nations.

12/ When terrorism happens for no clearly state

reason, it should be presumed to be furthering a cause that must be kept secret.

NR'101. OATHS

1/ The citizens of this nation shall not, like slaves, waste their time on pledges of allegiance and songs of devotion. No pledge or devotional songs shall precede any public or government meeting or broadcast. However, all government employees, military, militia and police people shall recite the following three vows in groups at the start of every work day:

a/ I vow help my people to remain free, and not to help enslave, exploit, or harm them.
b/ I vow that the people of my nation are my ultimate master, and that I shall uphold their decisions as expressed by their elected Senate.

c/ I vow to disobey any group that tries to usurp the powers of my nation's Senate, or countermand its orders, even if they are my commanding officer.

2/ The oath for all judicial matters shall be:

"I swear to tell the whole truth.

I swear not leave important details out.

I swear not to distort or mischaracterize.

I swear that I do not have any un-declared conflicts of interest, or grudges.

I swear that I have not received compensation for my testimony.

I swear that I will not accept compensation for my testimony in the future.

This is my oath of perjury to the spirit of justice, and the just courts of my great land."

3/ The Anthem of the US shall be:

"Oh beautiful
for heroes proved
in liberating man.
Who more than self
their freedom loved,
your beacon shows the way
America, America,
you are truly blessed
Cuz we the people
Rule our land
From seat to shining seat"

4/ All uniforms for our nation's military shall be emblazoned over the heart with the lady liberty art, the circle and torch part, from the July 4, 1934 issue of the Saturday Evening Post. This is done so that our military remains close to its power source, its perception as force for liberty/liberation, light/truth, and justice. The Lady Liberty insignia is intended to:

a/ Protect our military men from harm because they will be perceived more as liberators.

b/ Keep our military men going in the correct direction, as liberators.

c/ Keep others from using our military men for evil, because our military shall see itself as a liberation and protection force.

5/ The headgear of our nation's military uniforms may contain our nation's flag, but the body uniform shall not. It is anticipated that other nations fighting for team liberty will copy this practice.

6/ Lady Liberty's 7-pointed crown symbolizes fairness and sustenance for the world.

7/ Lady Liberty shall be moved to a tsunami safe inland location near New New York. The plaque shall be changed to:

"We are light, liberty and justice,
and this is our greatest strength"

NR'102. WAR AND MILITARY RULES

1/ There shall be no part of the nation's military, militia, police forces, or intelligence services that are exempt from Senate oversight.

2/ No law shall ever make our nation neutral to ill-defined future events.

3/ Conquest, empire, territorial expansion, occupation and long-term peace keeping are inconsistent with this nation's principals.

4/ The military, militia and intelligence services shall initiate no attacks and take no new military actions without Senate orders.

5/ Except in emergency deployments, the reasons, scope and objectives of all warfare shall be clearly stated by the Senate before it shall be permitted to take any military action.

6/ No important aspect of government shall exist outside the purview of the Senate. And one of the most critically important, life-or-death aspects of government is war and military service, where the decisions of government are life and death for both society and individual.

7/ There shall be no combat military service without representation. The Military and Militia sluice shall send an adequate number of its Senators to visit all combat zones our nation operates in. They are supposed to spend a few days in each combat area talking with people on the ground. These Senators shall regularly and independently report to the Senate, but they shall have no power to give orders.

8/ It shall be held that war reparations incentivize war, and no war reparations shall ever be commanded, voted for, lobbied for, honored, or paid by our nation.

9/ Any use of our nation's military in a foreign police action lasting more than 90 days shall be

conclusively considered an occupation or a war, and as such, inconsistent with our nation's principles. Thereupon, all forces must be returned home. Our nation shall not be allowed to garrison troops in any part of the PU for more than 30-days.

10/ When we use our military to oust a broadly unpopular foreign government holding onto power by force, we will:

a/ Bust all bunkers, and use our air power on all gatherings and residences of the old regime.

b/ Seize all military equipment and bases and police stations for the local people. Secure these until the local Senate can muster and propagate.

c/ Distribute ammunition and bolt-action rifles of an appropriate mix and leave.

11/ In order to prevent nations from baiting police actions to stimulate their economy, government shall take all reasonable steps to prevent police actions from benefitting and stimulating the local economy.

12/ Except when the nation is fighting for its survival, or the survival of a close ideological ally, all military objectives must be fairly certainly attainable.

13/ Each branch of the military, the financial system, the county recorder system, the police system, and the disaster system shall have their own independent communication system with their own independent secure communication lines. The Internet may be used for low security communications

14/ We shall compile an anthology of all film and television war propaganda in support of going back for fallen comrades no matter how risky. We shall not blindly go back for fallen comrades when the risks clearly outweigh the rewards. This decision shall not be made with one's heart, but weighed carefully. We shall also not reward foolish disregard for one's own life by calling it bravery or giving it war medals.

15/ No branch of the military shall engage in any sort of commerce or trade the way the so-called "People's Army" does in China. To allow commerce causes the army to be corrupted.

16/ Pregnant women shall not work as field police officers, combat military, or crew on any military vessel.

17/ It is battling with each other that made a man's punch generally much more powerful than a woman's. A similar thing happened with the battle minds of men. Freedom's power shall not be handicapped by delusions of sexual equality with regard to military leadership. Only men shall make tactical and strategic military command decisions.

18/ For service on our nation's aircraft and naval

ships, we shall only pick the best, the smartest and the strongest according to one realistic test that shall not be made any easier for women. If there are no women that can pass the test, then there shall be no women in that area of the military. We shall not weaken our military forces to create artificial sexual equality, for this is madness.

19/ Regarding the militaries of Rome, Athens, and Sparta, we read about homosexual craziness in the military, so we know their culture was manipulated by the enemies of freedom towards allowing homosexuality in the military. For this reason, we shall go in the opposite direction and prohibit openly homosexual people from the military and police.

20/ We shall do all we can to assure that the military remains a place of duty and public service and does not become a homosexual lifestyle choice. One direction augurs towards military power, the other towards military weakness. This is because the people motivated by duty are a much stronger force than those motivated by sexual lust. Also, freedom for soldiers has nothing to do with this, because soldiers are not truly free anyway. There shall also be no transexuals or cross dressers in the military.

21/ Women shall be encouraged to join both the militia and the military, and women shall get special stipends for serving in the militia and undergoing a small amount of combat defense training.

22/ National defense tactics shall be offered as a high school elective subject in each year. Here, tactics shall be thought to be important. Marching synchronization and uniforms shall be thought to be aspects of systems for the mighty to control whole armies and use them against the people.

Xenophon's Persian Expedition, with its emphasis on defensive tactics shall be the main guidebook for high-school defense tactics. We shall also teach from the Japanese Senjinkun military code in high school, so propagandists have a harder time manipulating the minds of our fighters.

23/ Propaganda tactics shall be offered as a high school elective subject in each year. Plato's Republic, and the propaganda of the various communist nations, and the translated speeches of Hitler shall be studied so people don't make the same mistakes again.

24/ Mere seniority shall be no grounds for military command. Lack of decisiveness and excess reliance on support staff decisions shall be grounds for not promoting a man to be a military commander.

NR'103. MERCENARIES

1/ If we don't allow people to buy or sell extra-judicial violence within our societies, why should oh we allow them to do this among our societies?

2/ Hired private armies like the Nazi Sturmabteilung are an ancient tool of tyranny. These have been used to stage countless coups and low-cost guerrilla insurgencies around the world. As such, our nation shall consider these extra-democratic and extra-governmental forces a menace to democracy, freedom and peace.

3/ The military and police and other branches of Government shall be prohibited from hiring private military and police consultants, contractors, or mercenaries for any reason, or even allowing these to exist. This shall include consultants, contractors, or mercenaries used for capturing people or managing captives.

4/ It shall be a felony when armed or armored for-hire security forces go to a political meeting or protests of the people on public property. It shall be treated as democide when private forces touch or fire rubber bullets or tear gas upon peaceful demonstrators on public property.

5/ All armed private security staff shall be required to complete a government licensing program about the penalties of working in a private army and violating the rights of the people.

6/ No private security company in this nation shall employ more than 100 men at a time, or join forces with other private security companies. Private security personnel shall not work as police, or work with the police.

7/ The courts shall use multiplied penalties for crimes committed by private armies and their personnel, including private security guards. The courts shall also be free to greatly reduce penalties for crimes against private armies and their personnel by any amount when the guard was demanding something they had no right to demand.

8/ In general, private guards filmed venturing beyond their narrow reservations go to jail, while police tend to only get fired for gray area offenses.

9/ Rather than ejecting people quickly, the #1 duty of private security is to gather video evidence of people breaking the law at their premises. The easiest way to do this is to have a law where people are penalized for trespassing based on how long they remain in a place while security is telling them they have to leave. Everyone gets a minute. Employees get 15 minutes to gather their things. Then they have to do 1-to-4 days of public service work for each minute they delay. This penalty is dependent

on how much of a disturbance they caused.

10/ It shall be a crime when private security guards or police, or other government workers wrongly order people to stop recording something that they have the right to record.

11/ The position of private security guard shall have no special or protected status under the law. There shall be no penalty multipliers when members of the public injure a private security guard. However, when private security guards injure non-violent people, they may be charged with battery. Also when private security guards point firearms, this can sometimes be justification for the subject person firing back in self defense.

12/ We shall consider it a capital offense when the citizens of one nation take up arms in another nation without the consent of their own nation's government and military. Upon conviction by a military court, such nationless mercenaries, or soldiers of fortune, may be imprisoned for life or executed.

13/ It shall be a capital offense for the citizens of one of Arabia's provinces to take up arms in another one of Arabia's provinces or outside the PU, either for pay, or as volunteers.

14/ Bouncers shall be considered a form of private security guard under the law. Nobody shall work as a bouncer without completing the Senate legal test for bouncers. Once bouncers have completed their test, they shall be held strictly to the law.

NR'104. NUCLEAR POLICY

1/ To protect against military and WMD weapons facilities buried deep underground, this nation shall keep no less than 200 neutron bombs, if these are real.

2/ The use of neutron bombs in strikes against underground nuclear installations in small rogue nations shall not be considered a true nuclear attack.

3/ The nation's nuclear weapons shall only be used according to the command of the Over-Senate.

4/ By 2027.01.01, no nuclear power plants shall operate any place that has suffered a tsunami inundation, or looks as it might ever suffer an tsunami inundation, or is on any portion of the Pacific Plate. All such nuclear plants shall be decommissioned.

5/ No new nuclear power plant shall be allowed in this nation except with a two thirds overmajority of the Over-Senate.

6/ All Over-Senators shall be provided a fully furnished 60m apartment at the regional voting center of their choice. Odd numbered Over-

Senators shall be required to remain at the voting center on odd teneths, even ones on even teneths. Using the nation's nuclear weapons in an emergency requires a 3/4 overmajority of all Over-Senators present for the vote in the nation.

7/ No more than 1/3 of the nation's naval and coastguard fleet shall be in port or on a continental shelf at any one time. None of the nation's warships shall be based in on the west coast of North America due to the risk of tsunami. This especially for the ports of San Diego Long Beach and San Francisco Bay, due to the risk of tsunamis or harbor waves. Pearl Harbor shall instead home the Pacific fleet. The Atlantic fleet shall generally harbor in summer near Brunswick Main, and in winter near Brunswick Georgia and Jacksonville Florida, unless these locations are impractical. It should be noted that both east coast port locations are far from a subduction zone, allowing vessels critical minutes to get to sea in the event of a nearby subduction earthquake and tsunami.

8/ In all new nuclear reactors, the design shall resemble an Atari logo. The design shall be such that if temperatures rise above the melting point of lead, the lead hardware supporting the fuel balls will melt. Then the fuel balls will roll in their Atari-logo tubes diagonally outwards, spreading in every direction. This forgoing shall be the secondary failsafe. The primary failsafe is that if power is lost, the control rod portion of the reactor will lower into its lead shielding.

K — CITIES AND TRANSPORT

NR'105. CITIES

1/ Government shall not involve itself with anything so trivial as building aesthetics on private property, other than perhaps standardizing color palettes. Aside from this, government shall impose no aesthetic requirements on the nation's private buildings. We do this because looking at the older buildings around our country, these became both uglier and much more expensive when government became involvement in building aesthetics.

3/ Government shall assure the basic health and safety of the people by establishing a Uniform Minimum Building Code or UMBC standards for things like fire safety, emergency exiting, railings, minimum room size, ventilation, sanitary plumbing, electrical safety, water-proofing, and the like. However, government shall not squander its energies, or the energies of the people, regulating the nation's buildings for more than the minimum for

health, safety, and structural purposes. Aside from the regulation of the minimum, government standards shall not regulate construction.

4/ All counties and all communities of this nation shall do what they reasonably can to accept and accommodate all comers that are permitted to work in this nation. No county shall enact rules or fees designed to slow growth, or reduce the supply of building lots, dwelling units, or working space.

5/ So that urban real estate will be more abundant in our nation, we will say that:

a/ Government shall not limit the number of new cities and communities that may form.

b/ Government shall never do anything to discourage new communities from forming.

x/ Certain regions areas may become full of townships, but their periphery should always be ready for new townships.

6/ When local property prices are rising at a rate exceeding the rate of general inflation for the nation, each County government must make more good lots available to relieve the shortage.

7/ Government shall not tax or charge any fees, or attempt to recover any costs for new construction in any way. Government may charge anti-nuisance fees for building permits, lot subdivisions, plan checking and similar things, however, all these fees shall be refunded upon building completion.

8/ It shall be presumed that most of the building and business regulations added in recent decades were added due to parasitic influences in our government.

9/ Down zonings being contrary to the agenda of more and better, all prior down-zonings shall be void. The term down-zoning shall include: the number of dwelling units allowed, floor area ratios, minimum lot sizes, increased setbacks, building height reductions, building size compatibility restrictions, and road frontage requirements. Setbacks genuinely required for fire safety from other structures shall be exempt from the foregoing.

10/ All impervious cover regulations shall be void because they are thousands of times more costly than they are beneficial.

11/ Government shall have a bias towards encouraging density in urban areas. Government shall generally be prohibited from taking measures to inhibit the growth of our cities until they grow to the heights of central Paris.

12/ Any neighborhood recognized as a neighborhood by most of the people in the community shall be allowed, with a simple majority of land owners (but not the tenants), to elect themselves an up-zoning.

13/ People who cannot vote, and people who do not own property in a community shall not have the right to give input about matters of construction projects, roads, land use, re-zoning, and especially re-development. Only voters that are also property owners in a community shall be allowed to give input on these matters in their community.

14/ All land nationwide more than 20 meters and less than 200m from a six or eight-lane freeway shall be zoned for at least 16m tall buildings. All land between 200 and 300m shall be zoned for 12m tall apartment blocks.

15/ In order to maximize the buildable land area for our nation, we shall have it that an easement for one flagpole user shall be an easement for many, and that the holder of an unpaved flagpole easement shall be allowed to pave, and prune, and bring equipment and materials in an out of his easement if he wishes. And he shall also have the right to put utilities under the ground of his easement.

16/ The approval process for land subdivisions, building permits, and business approvals shall work the same way in every country in the nation according to national standards and standard zoning distinctions. Thus counties unable to handle their workload can spread the workload to other counties or to contracting firms instead of acting as a stumbling block for the people.

17/ Where the government is processing a building permit application, or a land subdivision application, the government's turn-around time shall be no more than 21-days on first application, and then 9-days on each subsequent turn-around. If the county building department cannot handle its workload, then it must either hire another county, or an engineering company, or grant permission. In general, all county government procedures shall be cloned nationwide so human resources in the county government can be shared.

18/ Except in earthquake zones, no professional qualification shall be required to design, build, or remodel conventional construction that conforms to load tables and the national building code, and is under 2 stories tall.

19/ All existing buildings if all Holocene-era flood zones are hereby nationalized as of 2045.01.01. By 2027.01.01, no school, government office, military base, or fictional citizen headquarters shall be located in any Holocene-era flood zone.

20/ Those who have foolishly paid money for real estate in the jaws of death deserve nothing from the public for the discovery that their property is actually deadly due to tsunamis every so many centuries,

and that everyone has to leave within a couple decades.

21/ There shall be no right for anyone to own or hold title to unimproved land in any Holocene-era flood zone, or volcano zone, and all such ownership may be voided by the Senate at any time.

22/ Adverse possession does not apply to public property, or property shared by even a tiny community.

23/ All prohibitions on prefabricated or modular construction shall be void whether public or private.

24/ All prefabricated structures shall be nationally approved for standard zoning and number of stories, and exempt from local building permitting and inspection.

25/ The national government shall pre-approve no less than 12,000 township sites of up to 30,000 units each for 360-million potential unit slots, which is intended to be an eternal overage. These relatively sealed townships will go all around our nation, in the nicest and prettiest places our land has to offer, the prettiest places between our current cities and in our national parks and wilderness areas.

26 The township slots shall generally be free for anyone who buys and places a new factory cast unit. This only happens when the township is being built due to the equipment setup needed. Once the unit is placed, the owner will get a free life estate. However, the owner will have to pay their share of taxes, enough to run the local community expenses for schools, common areas, police, rail line, delivery system, rudimentary road system, etc.

27/ Prefabricated homes up to 8m wide may be trucked over the roads without a permit between 11:00pm and 6:00am, provided the roads are pre-approved for cargo this wide.

28/ Government shall not concern itself with the innumerate folly of impermeable coverage ratios, and rainwater impounding on urban and suburban lots. Far more important is that we keep the water away from our foundations so our buildings will take centuries rather than decades to heave into ruins. Government shall be expected to accept and deal with all rainwater that flows into the generously sloped and greatly oversized public storm drains we will design for our communities.

29/ For the benefit of the poor, government shall not require balconies, or surface articulations or any aesthetic considerations at all.

30/ Government shall not require any glass color, or tinting, or low emissivity, or special insulating glass in windows.

31/ Government shall not get in the way of the

process by which single family houses are demolished to make way for multi-unit complexes. Government shall not heed, or even listen to tenants, for they are by definition biased and the exact opposite of disinterested.

32/ Government shall not license landscape architects or decorators.

33/ Except for removing plantings that block the view for drivers or utility lines, or break up paving, and trees on arterial routes, Government shall not concern itself with regulating anything so trifling as the landscaping, irrigation, trees, and plantings on private property.

34/ There shall be civil liability for removing plants and causing a damaging flood or landslide on a neighbor's property, or diverting the flow of water and causing flooding harm to a neighbor. But aside from this, government shall not get involved in landscaping on private property.

35/ There shall be civil and perhaps criminal liability for poison ivy and cactus needles and similar legacy trauma plants planted along a sidewalk, foot path, way, road, in front of an egress window, next to a patio, or anywhere that may have intoxicated people. Non-legacy trauma plants with thorns like rose, raspberry and bougainvillea shall however be allowed more than 3 meters away from walkways with no liability. Wherever tree roots have raised the sidewalk in front of a house, the homeowner is supposed to keep a half watt LED light on all night.

36/ Government shall not require that any private builder provide any facilities for the poor as a condition of building market rate structures, or to obtain favorable building rules.

37/ Government shall not regulate the design or location of non-spiky, non-injurious fences or walls under 2.2 meters in height that are inside the setback, except that they may not be made from wood.

38/ All regulations for constructing buildings up to 2 stories shall fit on in a single volume of under 250,000 words. This code shall be a secondary school course. These boxes that we live in, the greatest manifestation of our efforts. We will have concise rules for them so they are easy and cheap to make, as well as safe.

39/ Government shall have no mandatory health or sanitary inspections or approvals to open or operate a restaurant, bakery, cafe, or grocery store, and all special health and sanitary inspections for these shall be voluntary. Government shall however rate these businesses and compel them to display their government health rating placard on their door and

website. Also, the foregoing does not apply to the basic fire, egress, sanitation, vermin infestation, insect infestation, and building regulations that all premises must obey. Thus restaurants and stores may be closed down for having housefly or cockroach or vermin infestations.

40/ Including renewals, no lease between private parties exceeding 10 years shall be valid. We do this to discourage construction on leased land.

41/ Landlords shall not be permitted to mark-up their cost of utilities, taxes, cleaning, maintenance, insurance or similar things to their tenants even if they are on sub-meters. Any contract clause calling for a markup shall be void.

42/ Government shall not regulate the size of the security deposits collected by those renting property. To reduce problems, the county recorder shall hold all security deposits. The recorder shall get a flat fee when the deposit money must be used, and an additional flat fee when the matter must be adjudicated. As with many government services, the fees here shall be high enough that the public pays nothing in providing this service, but low enough that the public makes nothing in providing this service.

43/ All charges, credits, and security deposits monies related to renting shall be paid to the county assessor's account. The assessor shall keep 100% of all late fees and penalty charges related to rentals and HOAs. This is to keep the always stealing management pure of heart with regard to charges.

44/ All tenants shall have the inalienable right to remove or demolish the structures and improvements they added to property they rented, provided the removal or demolition does not cause the property to be left in worse condition than it was delivered to them. Where commercial properties are re-tenanted, or sold and the new tenant or owner has a confusingly similar name or use, The must be prominent signage saying "Under New Tenancy" or "Under new Ownership."

45/ Tenants of less than 5-years shall have no say in local zoning and land-use matters.

46/ No lease clause calling for the owner to take a share of the land's harvest, or a business' sales shall be enforceable. All contracts subject to inflation adjustments shall use the Senate's local inflation index unless another is clearly stated in the contract.

47/ The property tax rate on warehouses, factories, and industrial uses shall be less than 1/3 of the rate for housing or offices. This is because we want to encourage both factories and storage facilities. All factory warehouse and industrial properties used as housing or office shall pay the normal residential

property tax rate.

48/ All existing historical designations shall expire on 2025.01.01 unless renewed by the county Senate.

49/ Government shall not shut down construction projects unnecessarily and shall be liable for delays for unwarranted construction shut-downs.

50/ If precious archeological treasure is discovered during building excavation, and the project must be shut down for a time, government shall pay everyone for the inconvenience. Failing to do this, we will see people ignoring sometimes precious discoveries.

51/ In areas with sewer and water piping, government shall not enforce residential zoning densities lower than 12 dwellings per acre, or floor area ratios under 100%, or height limits under 11-meters from pre-existing grade. In areas considered central, or pedestrian, government shall enforce no density lower than twice these densities.

52/ Until the Senate can determine safe maximum heights for the nation's buildings given seismic risks:

a/ The construction of new buildings over 17 stories shall be prohibited elsewhere in our nation unless the Senate wishes to restrict the height further.

b/ The construction of buildings over 2-stories shall be prohibited in the portions of our nation that are located on the Pacific plate, or within 200km of an active ocean subduction zone.

53/ When components of an older building system break down, and the system is not in conformance with the new rules, the people shall normally be free to replace the components without replacing the entire system. Government shall not require the costly replacement, or update of existing building systems, except when there is a significant and pronounced health or safety risk.

54/ Except for painting, all goods and services used in the aesthetic renovation and remodeling of buildings shall be taxed at a higher than normal rate. This is to free up workers for more productive things.

55/ Government shall pay no value premium when it condemns blighted areas for redevelopment. Also, government shall pay no premium for property because it is near a prior government development or re-development area.

56/ All building department and subdivision fees shall be uniform nationwide and the fees shall be set by the national Senate.

57/ 90% of all variance fees, if any shall accrue to the national government.

58/ If the county that a property is located in can't handle its workload and can't get projects evaluated in time, then applicants can use a neighboring

county to process the approval application.

NR'106. NEW CITIES

1/ The national government and all county governments must provide sufficient land for new rail based townships to meet demand.

2/ When government sells land, it shall not be sold to maximize the up-front proceeds to government, but to maximize property tax revenue over the long run. This is because:

a/ Government is less likely to have budgetary problems as time goes on.

b/ It is more affordable for the people.

c/ It is harder to squander, misappropriate or steal the cash flow than the lump sum.

d/ Such a system is less likely to produce realty bubbles.

3/ To encourage an efficient national market for inexpensive factory-made structures, government shall minimize the number of standard zones in the nation, establishing no more than 20 nationally established standard urban and suburban zones for residential and commercial uses in both the new cities and the old ones. There shall be no local zoning in new cities except those that conform with these national zones.

4/ All neighborhoods shall be pre-designated by the county government regarding which classes of structure are automatically allowed. There shall be no surveys or drawings required by government until after the conforming factory-made unit is placed.

5/ When government builds a new rail-based township, it shall be prohibited from taking money for the sale of the land, or the cost of placing standard pre-fab apartment units in that townships. Also, government shall charge no property taxes, rents or fees on new units until 1-year after the units were placed. And once a unit is placed, all reservation deposits shall be refunded. Instead, government shall charge the residents a fair amount to pay-off the cost of township common facilities build-out and unit placement over 20-years, starting at the beginning of year two. This shall be in addition the county property tax, and township owner's association fees.

6/ The county recorder shall provide contract, escrow and title services for 0.2% of the transaction amount. People can pay money into an escrow account before their unit is started and be sure that their township unit is delivered and placed before any of their money is released.

7/ Government shall be prohibited from building dedicated right of way transit unless it condemns

and owns all land within township range. This money is needed to pay for building the rail lines and townships.

8/ The condemnation shall occur before the transit is started, and the condemnation value shall take no account of the value created by the transit or new community contemplated. Upon completion of the new transit, the land will be up-zoned for township use.

NR'107. SEWAGE AND GARBAGE

1/ All sewage and garbage standards shall be established at the national level and enforced at the county level.

2/ Government shall not charge anything to take reasonable quantities of bathroom, kitchen, household, or small business, or small manufacturing wastewater, nor shall it charge people to connecting their sewer pipes to the sewer system, provided they do all the work, except the final connection with the main line.

3/ Low levels of industrial wastewater discharge shall be provided at no cost. High levels of industrial wastewater discharge shall be provided at cost by government.

4/ The Public Property Sluice shall start afresh and determine new realistic standards for toxic waste. The Public Property Sluice shall also determine the most optimal locations for the nation's garbage dumps. These shall be the places where garbage runoff is least likely to get into groundwater that will be consumed by people.

5/ The national government shall build spurs to connect the national rail network with the nation's garbage dumps. Once the infrastructure is built, government shall charge no more than marginal cost for industrial garbage transport and proper disposal. There will therefore be no need to dump.

6/ All counties shall be required to collect reasonable quantities of landfill garbage at no charge. Industrial uses that make great quantities of non-hazardous garbage may be required to deliver their garbage to the dump.

7/ Once the Senate has located the nation's garbage reserves, there shall be no more discussion of the locations we have chosen for ourselves.

8/ Our nation's most toxic industrial zone shall be in the area 40 to 100 miles west of El Paso in southern New Mexico and in north-central Nevada. The most radioactive and highly toxic waste shall be sent to the UM toxic waste dump near Punta Eugenia (Vizcaino bay) on the Baja California peninsula.

9/ There shall be no burning of garbage, including

leaves in communities. This shall even apply to small towns of 10 homes if they are clustered together.

NR'108. URBAN NUISANCES

1/ There shall be no right to go around the city and root through people's garbage and open areas looking for things of use.

2/ The value of the recycling that people accomplish is a sliver fraction of the cost of their scrounging and securing against their scrounging. For this reason, government shall institute various laws and policies to end urban scrounge recycling by homeless people.

3/ The use of container deposits of less than 30-minute's wages shall be prohibited as this draws homeless people to our important city centers where they frequently engage in crime.

4/ There shall be no recycling without a government issued ID, a valid address and a bank account to send the money to. No payment shall be made less than 15-days after the recycled materials have been delivered to the recycling center.

5/ Copper and industrial metals shall not be recycled except with credible proof, photos and addresses of where it came from. It shall be considered grand theft when people tear-out and recycle public or private infrastructure, wiring or piping for the recycling money.

6/ There shall be no recycling center, or recycling machine in or within 7-km of any urban center. All recycling centers shall require a powered road vehicle to enter. None shall allow entry by pedestrians.

7/ There shall be no recycling machines of any sort all in our nation. No grocery market shall take-in recycling.

8/ Except for easy to dissolve paints approved by the Senate, no paint, coating, or pigmented liquid shall be sold in pre-pressurized vessels, or vessels than can be readily pressurized. All paint pens shall be prohibited.

9/ For each count of vandalizing a transit vehicle, transit facility, or urban centers and shall spend 1-year in a work camp, or three times as long in a jail cage. Where the vandalism involves scratching of glass, or damaging stainless steel or granite, the penalties shall be doubled. Where the vandalism involves acid on glass, the penalties shall be tripled.

10/ There shall be no begging, busking, or unauthorized commercial activity on any train or in any transit facility, or in the driving lanes of any road, or between those lanes, or within 200m of an

intersection of roads.

11/ This Constitution does not guarantee the rights of people who are insane to go around in public if they are recorded as unaware of their surroundings, or talking to non-existent people, or repeatedly threatening or menacing others, or harming themselves, or unable to care for themselves, or if they smell to the point where nearly everyone runs from them, or if they are covered in dirt or excrement. If a Centi-Nome elects with a 2/3 over majority that a resident of their territory is mentally ill and making trouble, then the Centi-Nome may require that the person be institutionalized. Also, this process of declaring people insane is not supposed to involve any specialist judges, or specialist psychiatric or psychological experts at all, except those working in, and reporting from a facility that once housed the person in question. Government shall provide housing and ingredient stamps for the mentally ill in abandoned communities.

12/ This Constitution does not guarantee the right of people to live homeless in our cities. This includes sleeping outside in the open or in tents, in passenger vehicles, in camping vehicles, or shanties. The counties shall be free to permit, regulate, tax, or ban homeless and camping activities as they elect.

13/ No public money or benefits at all shall be given to homeless people who are not staying in the dormitory system, once there is sufficient capacity.

14/ Government shall assure that our cities are free of insect infestations, all forms of rodent, including squirrels, pigeons, bats, and other forms of disease vectoring vermin.

NR'109. TRANSIT BASED URBANISM

1/ When we compare the current heavy-vehicle transportation system with the new rail-centered system, we find the old system is:

- a/ More dangerous.
- b/ 10 to 50 times more expensive to operate.
- c/ 10 to 50 times more fuel hungry.
- d/ 2 to 10 times slower.
- e/ 10 to 50 times more polluting.
- f/ Much noisier.
- g/ Destroys the urban experience.
- h/ Needs expensive parking.

2/ Transportation systems with practically no marginal cost per rider shall be maximized for ridership by keeping the fares at zero. No urban rail system in the nation shall charge users any amount to use the system. All municipal and urban train, bus, minibus and transit systems within every city in

the nation shall be operated as a free municipal service without any per use fees, just like the way we do street lighting, and road maintenance.

3/ Government shall not permit any new central parks. Government shall not permit any new central parking except for shared system operated vehicles. All new parks, and shared parking for private vehicles shall be put at the periphery, away from transit.

4/ We are on the verge of switching to a system of shared system-driven vehicles with much less need for parking. Also we will switch to vehicles that only need about half the parking area as today, if they are parked. Therefore, Government shall no longer require any vehicle parking on private property at all. All existing parking areas may be eliminated at the will of the property owner without any government involvement at all. Government shall stop requiring facilities for vehicle parking on the new streets of the nation. This may be provided by the developers or not. Also, the provision of parking shall not be a consideration in any building project or business approval at all. Government shall stop regulating parking totally with regard to new construction and existing parking facilities. All laws concerning parking lot landscaping shall be totally repealed.

5/ Communities shall not profit from municipal parking fees or parking fines, and 80% of all public parking revenues and penalties collected by county government shall accrue to the national government.

6/ All private parking revenue, shall pay 50% national tax.

7/ All public parking shall be for the benefit of all, on a first come, first serve basis, and there shall be no special parking rights for the people residing or working in any community.

8/ It shall be a stated objective of government to impel the people living and working in our urban centers into abandoning their personal vehicles and switching to public transit and other forms of shared vehicles.

9/ Townships shall be designed to live for a number of years, and then be totally re-furnished and re-sold.

10/ No business may be located inside and in between a transit exchange except emergency services such as police, ambulance, and hospital emergency room.

NR'110. URBAN PROXIMITY TAX

1/ There shall be a proximity tax with a rate that varies depending on distance from the township station. Every 100 meters out, the proximity tax rate

shall fall by some amount until 1,000m from transit, at which time, there shall be no urban proximity tax due to mass transit

2/ To discourage the squandering of precious urban space near transit, there shall be no land use near transit that is exempt from proximity tax. All urban land uses must pay urban proximity tax for every square meter they use, without exception or exemption. This shall include all parks, yards, churches, non-profit uses, golf courses, playgrounds government uses, schools, parking, sidewalks, vacant lots, town-squares, malls military bases, national government property, roads, sidewalks, and even roads.

3/ All government land uses shall be required to pay itself urban proximity tax from its budget. This intended to incentivize government to be mindful of wasting urban space.

4/ Uses that have over 36 unique visitors or employees per teneth per 5 square meters shall be exempt from proximity tax.

5/ In the new rail based pedestrian townships, the proximity tax shall be a function of walking distance to transit facility, the proximity tax fading-away over perhaps 1-km, as people walk further away from the train platform. In the old automobile based cities, the proximity tax shall be based on a much bigger automobile-type scale, with the proximity tax fading-away over about 10-km to 30-km from the central business districts, depending on the size of the city.

6/ The proximity tax is intended to take the place of high real estate values in our urban centers. In fact, it is intended to capture much of this money as tax revenue.

7/ The Senate shall be free to experiment and tinker with different tax rates and distance tax systems so that it may maximize its capture of urban proximity premium.

8/ The proximity tax is intended to encourage multi-story construction at the center of our urban areas. The tax should not be so high that it discourages people from living in urban centers. It is only intended to diminish the value proposition of non-users banking prime locations in our urban centers.

NR'111. GOVERNMENT SPLENDOR

1/ Only government offices visited by a great number of people each day may be located in prime locations. All normal government offices and services shall be located in other locations.

2/ Except where a 2/3 overmajority of the county Over-Senate elect it, Government shall not build luxurious, grand, or showpiece projects, or use

monopolized, imported, or patented components, or ceilings over 3.5 meters high, or stone finishes, unnecessary glazing, or have a budgeted cost of more than 130% of the median per-foot cost of building private office buildings in that area.

3/ Except where a 2/3 overmajority of of county Over-Senators elect it, no existing facility shall be demolished or renovated.

4/ Government shall not build monuments, nor shall it depict any monarch, president, war leader, political leader, or religious leader on its currency.

NR'112. RAILROADS

1/ All railroad and transit companies and their infrastructure, rails, railcars, rolling stock, lands, equipment, easements and rights of way are hereby nationalized and made the property of the people to the extent the Senate wishes to claim these.

2/ All land, rights of way and easements that were ever owned by a railroad is hereby nationalized to the extent the Senate wishes to claim these lands.

3/ To foster a more efficient economy, this nation shall work to maximize the use of rail due to its extreme low cost and environmental efficiency in comparison to all other means of transportation.

4/ Our nation shall build-out a new 7.00-meter gauge, high-speed, steel-wheels-on-steel-rails system of at least 50,000-km.

5/ Noise-skirted electric railcars using raised or fenced railways are the safest, quietest, least polluting, least animal deadly means of transportation. For this reason, no new raised or fully fenced rail infrastructure shall be required to provide any studies about pollution, noise, or environmental considerations. All shall be exempt from all environmental reporting.

6/ Both the national and county governments shall have the right to run railways where they elect, and without any environmental approvals due to the extremely low environmental impact of railroad systems in comparison to automobiles.

7/ No company shall assemble or operate more than 1/200th of the nation's railcars, or more than 1/20 of the nation's pulling engines. No company shall build more than 1/50th of the nation's rail lines, raised viaducts, or stations.

8/ No company shall assemble or operate both passenger and freight cars. No company shall assemble or operate both pulling engines and and freight cars.

9/ When our nation builds its new rail system, this system shall be optimized anew, with a fresh start and without any consideration about either

connecting to the antiquated, centuries old rail system, or using its right-of ways. The only exceptions are connections to the old ports and entry points along our borders, and mountain passes where the most optimal route is already being used. However, where the new 21st century rail system is built adjacent to the old broken-down 19th century rail system, the old system must be torn up.

10/ None of the old narrow gauge rail or transit companies shall be allowed to operate any part of the new rail system. No workers for the old narrow gauge rail or transit companies shall be allowed to work in any of the new train companies. We shall start completely anew with our new 21st century rail system.

11/ It shall be a top priority of the Senate to establish detailed standards for every size of railcar, and every gauge of rail in the nation. Government shall not however establish standards for the interior design of our passenger cars.

12/ We shall not stop pushing for faster trains until our passenger trains are all going over 500kph through the plains of our nation.

13/ There shall be no same-grade crossings of any railway tracks anywhere in the nation. These shall be eliminated or gone around at the Senate's earliest convenience. Intercity railways and rail-based city transit shall always have right of way, and all other means of transportation, pre-existing or not, must be re-routed around the rail lines if one or the other must be re-routed. Ultra-high capacity and ultra-fast railroads shall not stop or slow down for any other form of transportation. All other routes else goes under or above the rail lines.

14/ There shall be no railway slowing because of neighbors or noise.

15/ The roads and railroads located in each county shall be maintained by that county. However, if these are not being properly managed and their condition impedes the national system, then the national government may intervene to make the system work properly. Then it shall send the bill to the county.

16/ To prevent collisions, all railways and transit trains must operate in a one-way manner. Either the two track sides loop, or they go back and forth on each side of the track.

17/ Both freight and passenger shall use the same 7-meter gauge tracks. However, some super-fast express routes may prohibit freight if this causes the tracks to distort excessively fast, or creates a collision hazard with relatively slow freight trains.

18/ Government shall stop investing in rail transit in

existing high density areas. All such projects and funding shall be halted immediately. Instead, all new rail based transit system and new cities must be built on low density, low cost lands surrounding our cities. Then government will make money on the value it creates for this land.

19/ The railroad system shall have no more liability for each death or injury than the road system has. Payouts for injury and death on the rail system shall be no higher than the road system.

20/ All trains shall be network controlled. The railcar and engine operators shall have no liability for accidents caused by the system.

21/ All railcars shall be inspected at least twice per year by government.

22/ Government shall indemnify rail operators for accidents that appear to be the result of sabotage, but not cosmetic vandalism.

23/ All train horns must be equipped with forward video recording. Train operators may only use their horn when there is an obstruction on the track that the horn will help with. Operators that violate this rule may be charged by the appropriate county with disturbing the peace. Repeat offenders may be jailed.

NR'113. ALL RAILROADS ARE FREEWAYS

1/ All railways and public transit infrastructure, lands, and former lands are hereby nationalized and made the property of the people to the extent the Over-Senate elects to claim ownership.

2/ Just as with our nation's vast and hugely expensive road and freeway systems, people may operate their cars on our nation's railroad systems for no charge.

3/ All railroad vehicles must conform to national standards, and they must all be registered and use transponders. All must be system-driven, network-interfaced, maintenance-certified, electric-metered vehicles with computerized coupling and decoupling. All must be capable of 20-km of self-propulsion on tires when disconnected from the electrified track. All operators, if any, must be licensed. The national Senate shall impose other conditions as it elects.

4/ At least half of our road spending will go to building a new and vastly more efficient 21st century railroad system to replace most of the inefficient road system. Then, when we the people build the new rail system, we will also ask for nothing from the people for using their new super-efficient railroad system. All railcars using the rail-roads shall use these rail-roads for free, just as people use the flat-road system for free today. Until today, the

government has been providing an immense national flat-road system for free. This includes street lighting, police, surface cleaning, landscaping, and repaving among other things. With the railroad system, we will provide different things that will cost perhaps more per vehicle, like towing, but much less per passenger.

5/ Just as we provide the roads for free today, the UM shall not seek to profit-from, or recover the cost of building or maintaining its rail infrastructure. All government owned rail infrastructure shall be priced at built marginal operating cost, with no money charged for payback of the cost of right of way acquisition and system build-out, including viaducts, bridges, stations, and locomotives. Users shall only bear the cost of pulling, or the electricity they use for their own engines, and the cost of healthcare resulting from injuries to those traveling via the railway system, exactly as we will do with our roadway system. Users shall also frequently supply their own railcars just as we do today with our road system and private bus operators, who share the routes with municipal busses. Whichever approach works best.

6/ No group or nation, whether in the UM or PU, shall ever be permitted to block, unnecessarily delay, threaten, or extort money or concessions from the UM for either installing rail-lines in its land, or for using those lines.

7/ If congestion develops, we shall impose per train congestion pricing.

8/ On-grade railway crossings shall be prohibited entirely. All flat-roads must pass under all railroad lines, which will frequently be on raised viaducts anyway.

9/ We shall fence or elevate our government's non-stop railways just as well as our government's non-stop freeways. Those who stray into the way of the traffic, in either case shall be considered 100% responsible for their injuries. Nobody would think of suing the freeway system or drivers if they suffered injury because they tried to cross a freeway. Therefore, nobody should ever be able to sue the railway system or any railway operator for an injury sustained while venturing onto raised or fenced tracks.

10/ Use of the flat-road system shall be taxed at true cost, with all vehicles bearing their fair share of road work necessary to keep the surface smooth.

Likewise, all railcars shall pay their fair share of the cost of track adjustment robots that turn the bolts that keep the track smooth. They shall also pay their share of the cost of the robots that spray anti-

corrosive oil on the lower parts of the tracks, just like the flat-road vehicles must pay for repairing potholes in their roads.

11/ The national Over-Senate shall elect a fixed and prorated towage charge per 100-km for all cargo cars, and another fixed price per 100-km for high-speed intercity passenger cars. Thus all non-island passenger routes in each continent shall pay the same rate for transportation based on distance. Thus all non-island cargo routes in each continent shall pay the same rate for transportation based on distance. The Over-Senate shall adjust these charges from time to time.

12/ Government shall provide the rails, towage, stations, ticket verification staff, and transaction infrastructure at cost. Private railcar operators will offer many types of railcars on these routes.

13/ All railcars must move according to the schedule assigned by the system, and all must join with other cars on existing trains of cars unless there is no other traffic.

14/ To reduce freight train crime, we shall:

a/ Try to always keep our freight cars moving in high crime areas.

b/ Use containers that have no place to grab on to.

c/ Use raised viaduct around our cities.

d/ Load all our shipping containers on our railcars with their door sides facing inward for domestic freight. This includes the end doors.

e/ Perhaps we will need booby-trapped cage/ sleeves (shoobox bottoms) that are lowered over the entire railcar in high crime areas. Some of these might also have armored turrets for security people to ride in.

NR'114. TRANSPORT

1/ Businesses that engage in rail transportation, trucking, conveyance, or delivery for others shall not operate in manufacturing, distribution, retail, raw materials, or commodity production.

2/ All ports, airports, rail stations, bus stations, rail lines, roads, bridges, interchanges, terminals, boarding gates, boarding docks, rain platforms, and related transportation boarding or loading facilities shall be built, owned, operated and maintained by the counties they service, and none of this may ever be sold or leased. All prior sales and non-government ownership of these facilities shall be void. They shall be absurd. Like someone having an official deed for the Brooklyn Bridge.

3/ This nation considers all private ownership of common pathways and interchanges as a potential sphinx. Thus we shall prohibit all private ownership

of common pathways and interchanges.

4/ Users of the road system shall bear the full cost of operating the road system. This includes maintenance, required system upgrades, police, lighting, cleaning, and the cost of healthcare resulting from injuries to those traveling via the road system. These shall be charged by using a combination of electronic road pricing, vehicle registration fees, and fuel taxes.

5/ Road maintenance being a thing that is more than 80% caused by heavy trucks with stiff suspensions, these vehicles shall pay their fair share of road maintenance costs via the electronic road system. The heavier trucks shall also pay more than the lighter ones. The transportation of military vehicles in time of peace shall not be exempted from the payment system.

6/ Government shall not tax any transportation system to recover the cost of build out. The only time government may tax a transport system or the goods or people moving around in it is for:

a/ Congestion pricing, to convert congestion waste into tax revenue. We shall err on the side of maximization this type of "free-revenue" taxation until there is no congestion. and

b/ To recover the actual cost of operating the system, direct and indirect. We shall err on the side of minimizing this type of taxation so we do not stifle industry too much.

7/ Transportation companies shall be prohibited from being subsidiaries and from having subsidiaries.

8/ Transportation carriers, air, sea, road, and railroad shall not discriminate between customers. All non-hazardous cargo shall move by the same rate in each company's network. All flammable cargo, and all hazardous material of each category shall move by the rates established by the government.

9/ Shippers and other transportation carriers shall not be allowed to preferential rates to big customers. Our nation shall not allow discrimination against its new baby businesses.

10/ Transportation, communication, delivery, and commercial services companies as well as information exchanges, bulletin boards, video posting boards, social networks, facebook, tweeting platforms, and any monopoly or oligarchy shall not be permitted to ban verified citizen users from using their services without a court order, or criminal charges against that person arising out of their use of the service.

11/ No domestic airline, domestic rail company, domestic trucking company, or domestic bus company, shall provide more than 1% of the nation's

domestic capacity in its area of speciality. No international airline, international sea-shipping company or international rail company shall provide more than 1% of the nation's international capacity in its area of speciality. The 1% shall be measured in dollar terms of sales turnover, not net income.

12/ No foreign nation shall provide more than 3% of the international sea, rail, or air freight for our nation. This shall include "third nation" companies owned or operated by a nation seeking to evade this clause.

This shall be seen as a way to gently encourage the break-up of the largest nations of the world.

13/ For the sake of national security, free nations must maintain an adequately sized merchant marine and other international transportation infrastructure. To this end, at least 1/3 of our international shipments must use our nation's vessels. These are vessels made by our nation, owned by our nation, and operated by the citizens, real or fictional of our nation.

14/ People arriving by air for the purposes of international transit do not need to clear immigration, but are still subject to customs inspection and arrest if they have an outstanding warrant, or contraband.

15/ The railcars shall be owned by vast numbers of people. Thus the market will assure both an adequate capacity, and a proper fleet where companies compete for business by offering nice rail compartments. However, the system for scheduling and guaranteeing the safety of the cargo and passengers, that will be by government. Also, railcars that are hired out for carriage on specific routes cannot leave that route without their cargo being reloaded. So the cargo is always totally safe. Nobody gets to go near it.

16/ Until our nation has fully built-out the following, Government's spending on these things shall exceed Government's spending for roads, highways, and airports:

a/ National high-speed, 7-meter-gauge rail system.

b/ A robotic freight handling and droid delivery system, along with pathways for the droids.

c/ A national automobile system that is entirely driverless and system driven.

17/ All transportation projects not yet started are hereby canceled. Those projects already underway shall put their lines and lanes in order, if applicable, and shut down.

18/ Each aircraft shall pay the national government one cent per person capable of hearing aircraft noise over a certain decibel threshold, and a tenth of a cent for aircraft noise over another decibel threshold. This will not affect some airports at all,

while others it will cause to be entirely shut down for smaller aircraft.

NR'115. ROADS AND VEHICLE CHARGES

1/ All vehicles used on the roads shall be required to have an electronic payment systems and an anti-collision location transmitter. These transmitters shall be interchangeable and thus anonymous.

2/ All vehicle operators shall pay a road tax and insurance fee for each mile of use.

3/ Government shall install electronic road tax gantries in many places to electronically charge anonymous or non-anonymous driver accounts. The prices will vary depending on the congestion. The price shall be high enough that no roads operates above its optimal traffic flow rate. The money captured by this electronic road tax shall go entirely to the county, and the national government shall take no share.

4/ Government shall be prohibited from charging electronic road taxes where and when the roads can flow well without them.

5/ No road shall be widened unless it has had an electronic road taxation system in place for one year to manage congestion. Vehicle charges are supposed to change a number of times each day to manage flow.

6/ All vehicles, pedestrians and animals on the road system or potentially on the road system shall be equipped with transponders so they can communicate their position, speed and direction with each other, and with the road system.

7/ All vehicles used on the road system shall be equipped with an interchangeable cash card reader and cash card with sufficient money for parking, tolls etc.

8/ There shall be no special paid lanes on the nation's roads. Either the entire road is free, or all of its lanes are paid.

9/ Minor moving violations for human-operated vehicles where the maximum penalty is less than 3-day's pay shall be adjudicated over video.

10/ After 2026.01.01, all remaining semaphores shall have optical vehicle recognition systems and optimizing computers so the nation's intersections never go unused while are people waiting for a light to change to use them.

11/ After 2024.01.01, every car on the system shall have both front and rear drive cams. When a car's cams records video of people driving in a clearly unsafe manner, the video shall be admissible for traffic court. When the cam video does not clearly show who was driving the car, the owner must either

admit that they were driving or sign an affidavit as to who was driving their car.

12/ Cities suffering from traffic congestion can limit the use of commercial and doublewide vehicles on certain routes at certain times of day. This may apply to all vehicles that are not conforming single wide vehicles or it may allow doublewide busses.

13/ Vehicles with 11 or more seat positions for passengers shall be considered busses.

The vehicle allocation system shall always give priority to single-wide vehicles and busses over other wider vehicles.

14/ The vehicle routing system shall prioritize conforming single-wide vehicles and busses over all other vehicles except emergency vehicles. Non-conforming vehicles may be subject to delays, convoying, and pre-scheduling.

15/ Where truck traffic is causes congestion delays on the roads, the driverless trucks must be used at night and when the roads are not congested. The humans going around in society shall never be delayed by freight unless this is unavoidable.

16/ When congestion is a problem, the non-conforming uses have to start paying higher and fees during peak periods.

17/ So that people avoid using commercial and doublewide vehicles for transportation, we will do the following:

a/ Conforming single wide passenger vehicles and busses get priority where there is congestion. All other vehicles get sidelined during where there is congestion.

b/ All traffic that isn't single wide or a bus pays much higher road use fees in general.

c/ All non-conforming vehicles get painted bright colors, so they look like service vehicles and people avoid using them as personal vehicles.

NR'116. ROAD VEHICLE FLEET

1/ Over a million Americans have died horribly in car accidents over the past 30-years and millions more have been horribly injured. To encourage the development of a system that promises to stop the ongoing vehicle death epidemic entirely, government shall indemnify the computer and network driven car industry for honest failures on approved tests.

2/ The right of the people to be safe from vehicle accidents trumps the right to continue using outmoded vehicles. Once the current human-driven system becomes statistically more fatal than the new system-driven car network, the use of the old inefficient and dangerous human-operated vehicles shall be phased out as soon as practical.

3/ The new system-operated road vehicle system will eventually be much safer than our air-transport industry. Also, instead of driving 5,500lb. SUVs we shall drive 480kg single-wide vehicles to start. So to start, we will cut fuel use and emissions and vehicle costs down by around 80%. So in addition to being much safer, the new system will cost about 1/5 as much.

4/ All new cars shall have the newest and most precise snap to line technology, as well as lane following tech. This will enable us to eliminate the waste of excessively wide lanes and add more lanes to our nation's roads.

5/ All new human operated vehicles shall have at least two front-facing, and one rear facing high definition video camera and a black box that records at least 12-hours of driving before overwriting. The black box shall also record the speed of the car, turn-signal, and brake-light activation, and accelerometer readings with the video. When the black box records a collision, the prior 15 minutes and subsequent 15 minutes of video shall be sent to the recorder's office.

6/ All vehicle mileage testing shall be done on Interstate 5 in California between highways 119 and 152, and then back again, using cruise control set at 100kph (61mph) without air conditioning or heat. Senators shall do the testing.

7/ Except for aircraft, military and militia equipment, all internal combustion engines used in urban and suburban areas shall meet the same standards for noise be they in vehicles or equipment. Vehicles and equipment found violating the national noise standards may be impounded for up to 60 days at the owner's cost.

8/ Government environmental policy shall encourage higher mileage vehicles over 100% clean vehicle emissions. High-mileage vehicles that get over 120 miles per gallon shall only be required to be 90% clean with regard to exhaust emissions. High-mileage vehicles that get over 240 miles per gallon shall only be required to be 80% clean with regard to exhaust emissions.

9/ There shall be no long tail smog/emissions control systems that seek to get the last little bit out of exhaust regardless of its cost.

10/ All single-wide vehicles must have backward seating and safety systems until the system is near totally safe.

11/ Collision safety standards for single-wide system operated vehicles shall presume no interaction with heavier vehicles because all non-conforming traffic must be at least sent in pods apart from the

conforming single-wide traffic.

12/ By 2025.01.01:

a/ All new cars shall be equipped to read and navigate by means of lines and barcodes painted on the road in addition to reading micro-chips in the roadways.

b/ There shall be a multi-redundant automobile routing and collision avoidance system. The primary system shall use the county recorder's master computers operating in a cellular design. The secondary and tertiary backup systems use vehicle based cameras, sensors and onboard computing. There shall also be a human override stop and pull over button. There may also be human controls for where the vehicle gets stuck or the vehicle's parking position must be adjusted manually, or the vehicle must be turned around. The system shall be designed so that all road vehicles move around without a human operator, except as a backup.

c/ All of the highway and arterial intersection red/green control lights in the nation shall use cameras to count the number of cars waiting and approaching, so the light timing can better optimize traffic flows.

d/ Where personal vehicles impede the flow of busses, the busses and shared vehicles shall get priority.

e/ All new vehicles shall be equipped to couple and de-couple on highways at highway speeds.

f/ All roads in the nation shall be re-lined for single-wide 1.83m lanes. Double-wide commercial vehicles will use two lanes at once. These vehicles may be up to 3m (10ft.) wide, a bit wider than today's 2.44m (8ft.) wide shipping containers. Triple-wide vehicles will use three lanes and may be up to 16' wide (4.88m). Quadruple-wide vehicles may use four single-wide lanes. and may be up to 22' wide (6.7m). These system-driven, slow moving, triple-wide and quadruple-wide delivery vehicles may only be used on the roads between midnight and 6:00am.

g/ All vehicles shall have identical crash safety functionalities.

h/ All movement shall by destination location number. All parking places have a location number.

i/ So humans can maneuver in tight places there shall be two small hand controls. On the right goes a one-handed torsion resistance steering wheel. On the left, a bending resistance left paddle. Leave either alone and the wheels go straight and the vehicle stops. Lean forward on the paddle and the vehicle first inches forward, and then it begins to go faster and faster over 6 seconds until it hits 8kph.

The maximum speed can also be set lower for safety. Other than this, the vehicle must be system operated.

j/ No new vehicles shall have projecting side mirrors. All shall use video instead.

k/ The maximum dry weight for new conforming single-wide passenger vehicles shall be 480kg. And as our self drive system becomes safer we will cut our vehicle weight similarly until our vehicles never crash and there is no reason for any crash safety features, or even metal skins. This is not very different from the weight of a 1960's four-passenger Fiat 500 car (530kg). If the Senate elects to use a lower maximum weight it may.

l/ The maximum width for new conforming single-wide passenger vehicles shall be 1.22m (4-ft.), the maximum height shall be 1.4m.

m/ All single-wide vehicles shall weigh the same, go the same speed, have the same horsepower, and all shall use identically-sized tires, wheels, and lug-nut configurations. The specs for the suspensions, and brakes shall also be the same.

n/ The weight and standards of conforming single-wide passenger vehicles may be lowered over time, however not more frequently than initially and once every 5-years.

o/ All conforming single-wide vehicles shall have identical 5cm projecting bumpers on all four sides. These are 20cm-tall and flat all around, centered at 72cm above the ground.

p/ All conforming passenger vehicles for each half-decade shall use interchangeable wheels, tires, lug nuts, lug nut configurations, brakes, headlights, bumpers, engines, and drive trains.

q/ No new road vehicles shall burn gasoline. All shall have more efficient diesel engines and burn safer diesel fuel. Also, it is dumb to squander the world's light petroleum here. We should save our light petroleum so people can fly for longer in the distant future.

13/ Motorcycles being 100X more deadly than automobiles:

a/ No new human operated street motorcycles shall be sold in our nation.

b/ No new motorcycle licenses shall be issued in our nation.

c/ No motorcycles may be operated after sun down.

d/ When we prohibit human operated automobiles, we will also prohibit human operated motorcycles.

e/ As long as there are motorcycles on the roads, the motorcycle drivers must carry motorcyclist life and health insurance in the amount of 30 year's pay that is charged by-the-mile, so they grasp the true

danger.

14/ DOT approved motorcycle helmets shall be required nationwide for everyone operating a motorcycle.

15/ Before driving a new human-operated vehicle, all drivers must notify the DMV of the vehicle license number they are about to operate and declare themselves as either sole operator or co-operator of the vehicle starting at that time. The DMV may aggregate this data for police dispatch, but not others. This way the police can run information on cars and drivers without making a stop. Police will also know in advance which drivers are dangerous.

16/ Government shall not subsidize any particular form of transportation propulsion tech except that it shall run electric lines for trains, charging stations, and and compressed air stations if compressed air is used for vehicle propulsion.

NR'117. FREE PUBLIC UTILITIES

1/ Government shall provide fast, high-bandwidth virtual communication pathways as a free public utility just like it provides street lighting and street sweeping as free public utilities. The cost of providing these virtual communication pathways being a sliver fraction of the cost of providing real world infrastructure, the virtual infrastructure shall be offered free of charge in nearly all cases.

2/ All fixed line telecom and cable, all telephony, internet, municipal WIFI, texting, cellular voice, and cellular data shall be free so long as the usage is normal and uses accepted software and data throughput levels. Above these use levels, communication services shall be delivered at marginal built cost.

3/ There shall be no difference in price for ordinary phone calls or texts whether around the corner or around the world. The concept of long distance electronic communication shall be entirely deleted.

4/ The telephone, broadcast, and cable TV industries are hereby nationalized to the extent the Senate elects to claim ownership.

5/ For all utilities, the property, equipment, and infrastructure shall all revert to the people after 23-years. If this equipment is already over 23-years old, then it shall be considered already reverted. No utility infrastructure over 23-years old shall be privately owned, leased, franchised or contracted to any private company for management.

6/ All public utilities shall be condemned. All shall be managed by appropriately sized, and appropriately rotated juries of their county Senate.

7/ All easements granted to utilities on private

property are hereby nationalized and made the property of the people and put under the administration of the county they are located in. This shall include but not be limited to: electric, water, sewer, telephone, fiber optics and cable TV. An easement for one utility may be used by any other utility or government purposes not yet existing.

8/ To be redundant, all cable TV and telephone wires are now the property of the people to the extent they want to claim ownership rights.

9/ Any attempt by government to sell-off or privatize any built linear infrastructure system shall be void. This shall include all built road systems, transit systems, railroads, pipelines, pipings, aqueducts, wiring, electric grid, and other infrastructure. All prior sales shall be void and may be struck down and rescinded at any time by subsequent governments and without compensation.

10/ All shall see privatization of infrastructure as a thing that is only an equivalent over the short term, when there is a risk that the privatized assets will be taken back by the people. Thus the owners of the privatized assets fear extracting more money from the people than before. Thus the privatization becomes an equivalent over the short term. However, over the long term as ownership in the privatized assets becomes more secure, the privatization actually becomes much more expensive than public ownership due to the monopoly power of the infrastructure.

11/ A 75% over-majority of the Over-Senate shall be required for the Government to sell off, or privatize linear infrastructure and monopolies. Also, no sale or privatization shall be for a period of more than 6-years.

12/ Government shall offer a free facebook-like website or linked facebook with a limited number of advertisements as a free public utility. The government facebook shall not sell user data to other parties. The people are advised that their common interest will benefit greatly if they all switch to using the government's facebook and completely shun the for-profit facebook. All facebook users shall have all felony convictions, bankruptcies, and marriages on display for life. They must also indicate academic progress, and when a person has less than 60-day's pay to his name.

13/ Each county shall offer an ID-verified auction and classified advertising website as a public utility. These shall be watched-over and enforced by the county governments and their police departments. These auction websites shall not be run for a profit, except where beneficial data integrity fees provide

excess profit. Each auction website shall be able to search all the other county auction websites in the nation if the user elects.

14/ Fictional citizens shall be prohibited from buying assets at auction. Only human citizens may buy assets at county auctions. Nobody may bid on behalf of another person, or acquire assets on behalf of another party at a county auction.

15/ The Amazon company is hereby nationalized. Automated fetch warehouses will become an industry. Robotic delivery will piggyback or overlay upon the self driving vehicle system and rail system. Amazon's scale with regard to presenting the market of goods is also a thing that should belong to the people.

16/ The Google company is hereby nationalized and put under the supervision of the Sub-Senate.

17/ Both Amazon's and Google's citizen shareholders shall be paid a fair value for their shares in this company as determined by the Economics Sluice. When the Senate assesses these companies, it shall pay nothing for the portion of their value that arises from their monopoly power, the far larger share of their value. The Senate shall also not consider the current stock price and implied market capitalization for either company.

NR'118. BROADCASTING

1/ All non-government rights and interests in the broadcast spectrum are hereby nationalized. These shall be equipped and re-leased for 6-year periods to digital broadcasters in a way that maximizes the number of digital channels available.

2/ Government must divide the broadcast spectrum into the maximum number of television and radio channels that technology allows. Each slot must be leased to a different company.

3/ The broadcast spectrum shall be managed in a way that maximizes the number of channels, not in a way that maximizes income to government.

4/ All broadcast stations must all broadcast one hour of un-interrupted Senate approved educational media for each hour of optional broadcast. The odd numbered stations will broadcast Senate media on odd hours, the even numbered stations will broadcast Senate media on even hours. All broadcasters shall be named by a number, and no letters shall be used.

5/ No public broadcasting franchise or broadcast identity shall live for more than 6 years.

6/ No airwave broadcaster, shall use more than 3 minutes each hour for advertising, or have more than one advertising break per hour.

7/ If broadcast media is judged to contain any product placements, or instance of tobacco use, display or inference at all, then the whole program may be considered an advertisement.

L — BUSINESS FRIENDLINESS

NR'119 GOVERNMENT ECONOMIC POLICY

1/ All other things being equal, government shall favor a an economy composed of many small baby enterprises over one with fewer older, larger enterprises. Government shall be biased slightly against the biggest enterprises and it shall be biased slightly in favor of the smallest enterprises.

2/ Government shall value manufacturing more than the exchange of goods. It shall push the people to make more instead of profiting from trading what is made.

3/ Except in time of war or other form of crisis, government shall not establish minimum or maxim market prices for anything in the private sector, be it for good, services, wages, or rentals.

4/ Government shall not:

a/ Set a minimum wage.

b/ Set work times.

c/ Set the length of the work day.

d/ Set overtime pay multipliers.

e/ Set days when businesses must close.

f/ Set times when remote businesses must close.

g/ Set or suggest that certain days be holidays or sabbaths.

h/ Set days when businesses must pay more to get their employees to work.

x/ Government shall push in the opposite direction, towards a nation that is open for business 365 days a year.

5/ Government shall be prohibited from imposing a minimum wage of any sort anywhere in our capitalist economic system. It is just like how Government shall be prohibited from imposing rent control and other price controls that live for more than 3 months, or are repeated. Certain aspects of the capitalist system must remain functional, or the system becomes substantially less efficient and we all pay much more for everything.

6/ Given the vital role that travel, trade and sharing have in wealth creation, government shall impose no taxes that discriminate against travelers, traders, sharers, shippers, or short-term users as groups.

There shall be no special taxation, expensive permits, or limited quantity permits to take in lodgers by the night, or to ferry people around in vehicles.

7/ Shipper and carriers shall not be allowed to

charge less for big customers. Our nation wants to give its baby businesses every advantage.

8/ Government shall not use contractors to operate its ongoing enterprises. Ongoing means anything that may go on for more than 120-days.

9/ It is not allowed to sell valueless things to the people, or keep money gained from selling valueless things to the people.

10/ When government sells anything it shall go on the government's asset sale website. The method of sale shall be by decaying price auctions and the process similar to the way real estate auctions work. If there are multiple offers on the first day, the asset shall be reintroduced at a higher price.

11/ When government sells its assets to the people, it shall generally be prohibited from selling assets in huge chunks that only a few corporations can afford. Government must instead break up its lots into as many usable parts as it can to maximize the number of bidders and sales value.

12/ Except in industries government has elected to curtail, Government shall always facilitate and never hinder trade and the movement of goods.

13/ Government shall not be afraid to scare investment away from curtailment industries.

14/ Government shall protect the nation's industry from foreign predatory pricers who would drive our industrial base out of existence and leave us vulnerable to economic and military attacks.

15/ Government shall encourage the people to work hard and get ahead of their debts. Government shall stigmatize media and enterprises that encourage the people to slack-off and enjoy life more.

16/ No government policy shall encourage, or incentivize the people to take-on or maintain debt.

17/ Government shall encourage and help the people to live smaller, closer together, and with greater peace and quiet.

18/ Government shall encourage the people to keep learning and growing throughout their lives.

19/ Our nation and its people should try as much as possible to pay our leaders and inventors with things that are beyond money. But it shall also use money. This is not only less expensive, but it is also a much more powerful motivator than money alone for many people.

20/ We believe that our society get more invention when it pays 10,000 inventors 2.5-year's wages (\$100,000), than if it pays 1 inventor 25,000 year's wages (\$1-billion).

21/ Individual pay beyond 1,250-year's wages (\$50-million) for personal use offers little increased incentive for people. After this, we are better off with

more inventors.

22/ The Senate may kill or smitheren any fictional citizen it elects. The only stipulation is that the Senate's actions against fictional citizens must benefit the people over the long term.

23/ The Senate shall have the right to shut down any business or business identity it elects as fraudulent, deceitful, opportunistic, or detrimental to the public interest.

24/ Aggregators and middlemen shall be guilty of fraud when they pretend to be the actual supplier of a good or service.

25/ All new low-cost townships and rail-transportation system shall be financially independent from the old system. The new system shall not be in any way burdened by the cost of maintaining the old and inefficient system.

26/ No portion of the nation's transportation infrastructure, public utility system, or communication system may be owned, operated or supplied by foreign companies.

27/ The Senate shall prevent this nation's currency from becoming overvalued.

NR'120. MAIL AND DELIVERIES

1/ The postal system shall:

a/ Operate every day using day-halving and 6-day sweeks. Freedom day (June 19), and Democracy day (July 4) shall be holidays. Postal workers shall generally be allowed to switch work days to accommodate the holidays of their religion.

b/ The postal system's basic mail service shall be designed for low cost delivery rather than speed.

c/ Mail shall be delivered to individual addresses once every 6 calendar days. Mail shall be delivered to gang mail boxes of 20 or more legitimate active addresses near a street or driveway once every 3 calendar days. Similar volumes delivered to a single business address shall also be delivered once every 3 calendar days. Mail shall be delivered to gang mailboxes of 100 or more legitimate active addresses every 2 calendar days. Similar volumes delivered to a single business address shall also be delivered once every 3 calendar days. Mail shall be delivered to gang mailboxes of 300 or more legitimate active addresses every calendar day. Similar volumes delivered to a single business address shall also be delivered once every 3 calendar days.

2/ The postal service shall now be primarily for sending packages and documents. Printed newspapers, catalogues, magazines, and business solicitations shall not be sent via the postal system.

Recurring bills shall not be sent via the postal system. All must use electronic communication instead.

3/ All delivery system shipments not arriving with the postal system's regular deliveries shall be considered special delivery, and in this case, special delivery postage must be paid. All special deliveries shall pay the government's special delivery postage whether delivered by government or by a private company, or whether the special delivery is a letter, shipping container, or online purchase.

4/ Once the new rail system is finished, there shall be no domestic air mail or domestic air package service, public or private, except to islands.

5/ Only the postal service shall be allowed to offer post office boxes at its post offices attended or unattended. All official PO boxes shall be identity verified and tied in an anonymized way to both a citizen and that citizen's real physical address. Official Post office boxes shall typically rent for twice the going rate of for-profit mail drop boxes in a private mail box shop.

6/ The term "post office box" abbreviated as "PO Box" and "POB" shall only be used for official post office boxes. All other mail boxes must use the term "Drop Box" or "DB".

7/ All fictional citizens and commercial enterprises shall be required to keep their physical address information up to date on the government's address registration website. The directors of FCs and commercial enterprises that fail to do this may be charged with mail fraud. No post office box, mail drops, or part-time office shall be considered a valid registration address for a fictional citizen or commercial enterprise. Only full-time offices, and residences shall be considered valid for this purpose.

8/ Those who commit fraud through a post office box, or mail drop shall suffer double penalties.

9/ Only Government and nobody else shall use light blue colored envelopes. Those in regular communication with a person may use light green colored envelopes. Solicitations and unsolicited communication must use legal pad yellow envelopes or colored paper on the backs of their postcards.

10/ All mail must have a truthful return address. It shall be considered mail fraud to omit the return address or misrepresent the return address or sender on a mass mailing.

11/ All solicitations must have the word solicitation written in all caps above the return address in the minimum text size. It shall be mail fraud to deceptively present a solicitation as a non-

solicitation, or a bill or personal communication so it will get looked at.

NR'121. PROFESSIONS

1/ To increase competition, and decrease bottlenecks, people licensed to work in a profession or occupation in one county shall be automatically licensed to work anywhere in the nation without further government approval, testing or registration. This shall apply to all lawyers, healthcare workers, engineers, teachers, builders, building tradesmen, architects, accountants, drivers, financial advisors, transport services, and all other occupations and services licensed by government.

2/ All lawyers shall be allowed to work in all courts in the nation. There shall be no special qualifications or admissions to plead before any court in the nation. Lawyers and legal surrogates may specialize, but there shall be no official, or government recognized specialties or subdivisions for lawyers and legal surrogates.

3/ There shall never be any limitation on the number of people in any market, industry, trade, union, occupation, or profession.

4/ There shall be no government tax, fee, or school fees required for either obtaining or maintaining any license, certification, or academic qualification in the nation.

5/ No government approvals shall be required to be a hair cutter, beautician, massager, chiropractor, future predictor, priest, investment manager, investment salesperson, realtor, stevedore, or building repairman, or building remodeler.

6/ The county recorders shall all have sufficient test hall space for all academic and occupational testing. Each professional test shall be given no less frequently than once per teneth. Everyone must show an ID and give thumbprint and photo for all official tests.

7/ With the exception of internships for healthcare people, no work experience, school-time, or apprentice period shall be required to obtain any professional license.

8/ Those who pass the Government test shall be automatically considered qualified to work in that profession or occupation for 5 years. At the 5-year point they must pass the new test.

9/ Every professional's test scores and ranks on their most recent test shall be indexed and ranked and made available for public viewing so that the people can accurately and objectively judge the retained abilities of the people they hire.

10/ The lifelong complaint records of all

professionals and businesses shall be posted, comment moderated, and objectively ranked by the recorder's office.

11/ Those making complaints against a professional must do so in their own real and lifelong name, which will be indexed for plaitiveness, both positive and negative. This real name will be seen by the recorder's office, and the parties to the matter being complained about, but not by ordinary system users.

12/ All complaints shall be impartially investigated and judged by government. The cost of making a complaint shall be four hour's wages. If the complaint is mostly correct, the fee is refunded. If the complaint is mostly incorrect, the fee is paid to the national government and a national government intake receipt email is sent by the recorder.

13/ In the first year of this constitution, government shall require that all active professionals sit for professional re-testing. This first testing shall be primarily designed to look for frauds that have corrupted the licensing process. All professions that require an educational degree must take this test.

14/ Where practical, government shall compile standard national pricing for all commonly delivered services in all professions and many non-professional services. Where government offers standard national pricing, people must generally offer their services as a consistent multiplier of these prices. This multiplier must be registered with government and shall require 30-days advance notice to all ongoing customers in order to change. All professional signage, advertising, name cards, and directory listings shall display this multiplier where it is being used in the same size as the name of the professional.

15/ Financial advisors shall not be paid on commission for transacting transactions.

NR'122. INDUSTRY STANDARDS

1/ Regarding all markets, professions, occupations, markets, industries, and exchanges, neither Government nor anyone else shall limit the number of participants, or delay market entry, or charge for market entry, or restrict or assign territory, or institute excessively burdensome qualification requirements. The foregoing does not include innovator and commercializer IP. All prior grants of restricted competition such as taxi medallions are hereby void.

2/ When industries set their own standards, they normally impose standards that reduce membership, reduce output, reduce competition, and increase cost to the market. Therefore, the Senate shall elect all standards for all industries, professions, products,

buildings, services, business activities, ethics, and especially education requirements.

3/ No professional, industry, or trade organization may establish any industry standards without Senate approval. Industry standards shall only be imposed by the Senate.

4/ Senate elected professional standards shall not exceed the minimum needed to protect the public, and they shall err on the side of too-few regulations. Beyond this point, higher minimum standards quickly become less valuable to society than competitive markets.

5/ There shall never be any liability for those who generally comply, or act in good faith in complying with the standards set by the Senate.

6/ No limitation shall be put on the number of people participating in any market, industry, trade or profession.

NR'123. LABOR UNIONS

1/ No labor union shall be allowed where the average worker turnover is less than 4 years. In such industries workforce mobility obviates the need for labor unions.

2/ Penalties for crimes by strikers, and against strikers, and strike breakers shall be doubled.

3/ Workers shall not be denied the right to organize, to unionize, or withhold their labor from their employers for better pay, except in the following circumstances, where labor union activity and striking shall be prohibited:

a/ Time of war, impending war, natural disaster, and when the Senate elects to declare a state of emergency.

b/ Workers in healthcare, or essential services, because of the power these people would otherwise gain over the remainder of our nation.

c/ Workers in transportation, loading, unloading, warehousing, and production of key commodities, because of the power these people would otherwise gain over the remainder of the nation.

d/ Employees of government, and regulated monopolies, because there is nobody on the other side trying to wring every dollar from the negotiations. Instead there are people that actually have incentives to increase the amount paid.

Therefore, we shall not allow fictional citizen to act as proxies for the worker's agenda in government and monopoly situations. When we allow this, compensation levels excessively reward the workers. Then union or guild membership or guild connections becomes a thing that is corruptly sold and bought at the people's detriment. Also, this

prohibition on government unions includes everyone working in law-enforcement, fire, EMS, public education, and private education entities that take government money, or are non-profit. It also includes all government contractors and all companies contracted to provide goods or services to government.

e/ Where the number of employers in any industry exceeds 10, because this is a market, and we have more faith in markets than in labor unions.

f/ Positions where the average employment period is less than 3-years, because the fluidity of the labor market will assure fair compensation. Also, higher job mobility shall be seen as preferable to labor unions.

g/ The right to strike for political reasons is restricted in any way.

4/ No professional group, trade group, labor organization, or labor union shall be allowed to:

a/ Have a representation ratio narrower than 1:500.

b/ Have less than 500 members, or more than 50,000.

c/ Organize into a meta-union or political party, or lobby government.

d/ Pay for advertising, or make purchases of luxury products or services.

e/ Control more than 10% of the total number of workers in any industry, major city, or county in the nation.

f/ Organize any form of transportation workers including those working in: ports, airports, airlines, shipping companies, railroad companies, transit companies, trucking companies, taxi drivers, bus drivers, mail carriers, delivery workers, or any other form of transportation-related workers.

g/ Compel membership, intimidate non-union workers, or close any industry or workplace to non-union workers.

h/ Limit how many members they may have, or set prices, or limit competition, or limit working hours or times.

i/ Have any seniority, schooling, or apprenticeship rules except those established by government for the entire industry.

j/ Compel payments from either employers or members.

k/ Have leaders that are not citizens, or have not been elected from the members of the union.

5/ In matters of hiring, firing, and promotion, employers shall not discriminate, either for or against workers based on their labor organization membership. Employers cannot require that their employees join or quit any labor union or other labor

organization. Nobody shall be forced to pay money to labor unions as a condition of employment. It shall be a crime to threaten, coerce, force, or intimidate people into either participating or not participating in a labor organization.

6/ No employer shall ever pay any money to any labor organization or labor union, either for their own account or the account of their workers.

7/ Unions shall not be allowed to have pensions as these are so frequently misappropriated. All existing union pensions must be liquidated and distributed.

8/ All labor organizations and labor unions shall be considered fictional citizens. As such they shall all be prohibited from engaging in the activities that fictional citizens are prohibited from engaging in. For example, they cannot lobby government, or run ads to express how they stand on various public issues.

NR'124. IP MONOPOLY PERIODS

1/ With regard to IP or Intellectual property, government's objective is firstly to assure that innovators, discoverers, and creators are properly rewarded, and innovation well encouraged so that many people will continue to strive for innovation. Government's second objective is to assure that innovations are diffused as quickly as possible. Government shall be free to achieve these twin objectives either through the market, or through ubiquitization by the public.

2/ Government shall offer no IP rights unless:

a/ We want more of the thing we are protecting, and,
b/ Output can be increased through IP protection.

3/ In all awards of exclusive IP rights, government shall be prohibited from using long-tail profits as a reward. For this reason, no IP monopoly right shall live for more than 21 years including renewals.

4/ The patent office may only grant patents that last for up to 17 years. Only the Knowledge Sluice shall have authority for matters related to IP.

5/ No IP monopoly shall be extended through subsequent major developments and subsequent patents for more than 50% of the initial period. No IP monopoly shall be extended through subsequent minor developments and subsequent minor patents for more than 20% of the initial patent period.

6/ All IP monopolies shall expire if working mass produced products are not introduced to the market at a reasonable mass production price by the halfway point of the protection period.

7/ The following maximum IP monopoly periods shall apply. Where multiple classifications apply, the one with the shortest term is applicable. Existing IP rights already over the following ages are hereby

expired, and the subject IP is hereby in the public domain:

a/ Political and news media — 4 hours.

b/ Printed periodicals — 30 days.

c/ Download only periodicals — 4 years.

d/ Media of a partly or wholly fictional nature — 6 years.

e/ Media that depicts the use of swords, punching, fighting, shoving, physical conflict, firearms, laser guns, bombs, explosives, or vehicular assault, 3 years.

f/ Media of a strictly non-fiction or educational nature that has no music — 17 years.

g/ Mass produced building components — 17 years.

h/ Electronic hardware — 12 years.

i/ Computer software and operating systems — 4 years, except where the software is delivered over the cloud or as a service, in which case the IP period shall be 2 years. All versions over this age shall be in the public domain. The uncompiled source code for all software over 12 years old, shall be made public.

j/ Technologies and processes that are mostly delivered over the internet — 12 years.

k/ New drugs — 14 years from approval by the government's drug approval administration.

l/ Human genetic material, biological inventions — 14 years.

m/ Healthcare-related testing — 14 years.

n/ Seeds and livestock — 8 years.

o/ Mining — 10 years.

p/ Well-drilling 6 years.

q/ Energy generation or conveyance — 8 years.

r/ Oil and coal processing 6 years.

s/ Path dependencies — 12 years.

NR'125. NO IP MONOPOLY RIGHTS

1/ Government shall not offer patent, trademark, or copyright protection for creators of the following. All of the following shall only be rewarded with Ubiq status and Ubiq payments:

a/ Music, sounds, concerts, dancing, or media depicting musicians playing their music, or dancers dancing.

b/ Athletic displays and sporting events, and media depicting or simulating these.

c/ Photographs, even artistically manipulated photographs.

d/ Human nudity, if it depicts the human skin between mid-thigh and armpits.

e/ Recordings that are not entirely staged and acted.

f/ Performances that are indistinguishable from reality, or performances that attempt to spoof reality.

g/ Public speaking and educational lectures.
h/ City and community plans, public facility design, functions of government and the financial system.
i/ Transaction systems, auction systems, pricing systems, billing systems, accounting systems, economic systems, marketing systems, contracts.
j/ Computer operating systems, search technology, website design, website technology, human to computer interface design.
k/ Clothing, shoes, cosmetics, time keeping devices, handbags, and luggage, Dance moves, gestures, facial expressions.
l/ Coined terms not used to name commerce shall not have IP protection.
m/ Material having to do with politics, government, public policy, economics, history, or the public discussion: The only right for these things shall be that of authorship credit. All of this material may freely copied without attribution — it cannot however be misattributed.
n/ Repair and replacement parts, refill parts, batteries, adapters, electric power supply systems, connectors, mounting brackets, connector shape and configuration. These things get no patent protection: They only get trademark protection as OEM goods if applicable. Also, with these things, the replica company can use the name of the product is it replicating to describe itself as a replica of that thing.
o/ The architectural plans and details that building designers and engineers prepare for clients.
p/ Beauty contests be they for humans or animals.
q/ Races, including vehicle races and animal races.
r/ Fictional names and terms from fictional media.
s/ Fresh translations or re-hashes of material that is outside the copyright period.
t/ Addictive drugs, or addictive medical treatments which must be repeatedly taken without end once treatment has started or the recipient will die or suffer significant harm.
2/ Research done at institutions with any sort of tax-free or non-profit activity on their campus, or affiliated with their institution.
3/ Where everyone agrees that there is a gold-rush in some industry or industries, the IP protection periods shall be cut by 2/3 in year 1, and 1/3 in year 2. Then back to normal. Also, in gold rushes, as normally, nobody gets to use the IP rights system to call dibs on solutions that are obvious.
4/ There shall be no right to collect money or royalties or regular payments for medical treatments, or genetic material once it has been inserted into a body.

NR'126. IP MONOPOLY RULES

1/ Ishtar adores trade paradises, also called monopolies. Ishtar adores these whether they are for the sale of oil, or the right to look at some 74-year old movie that Ishtar owns. So we shall start with the assumption that our entire IP monopoly system has been corrupted to grant overlong monopolies that are as eternal as Ishtar could get away with. Later generations are warned that increasing the 17-year maximum IP monopoly periods called for herein will only produce the slightest increase to inventor payback.
2/ Patents shall not be granted for things already in mass production, or made for personal use by many people. Proof of prior mass production or delivery to market cancels any patent filing for the same thing.
3/ IP rights may only be granted in areas where it will result in more good stuff being made available. Copyrights are not offered for photographs, music and video of real events because these are too easy to make and offering profit will give little benefit to our output of quality photographs and other media.
4/ IP may only be granted in areas that we want to encourage. This is why copyrights are not offered for media with nudity or media with tobacco use.
5/ Government shall accept the filing of anti-patents for those who wish to propose an idea for public use, but have no intention of bringing that idea to market. Anti-patents are filed with government for everyone to use. Those who file an anti-patent shall have the right to a sliver share of the invention's revenue recorded by the sales tax system. The standards for filing anti-patents shall be lower than those for filing normal patents. Also, anti-patents should be construed as broadly as reasonably possible with regard to conflicts with subsequent patents. This while regular patents should be construed as narrowly as reasonably possible with regard to conflicts with subsequent patents.
6/ Once an anti-patent is filed and accepted, no ordinary full patent shall be issued for this idea, but only a patent restricted to product development. And these restricted product development patents may only be applied-for more than one year after the anti-patent was filed, and under conditions where the anti-patent is not proceeding to market.
7/ With a 2/3 overmajority, the Socialist Sluice may elect to ubiquitize, shorten, cancel or modify any IP rights in any way it elects to, and under any conditions it elects are fair. The Senate shall have no obligation to make any payment if it elects that this course is fair. No court shall be considered competent to judge the Senate in regard to the

fairness in these patent and ubiquitization matters.
8/ Patent holders shall generally have the right to develop their patents over the time frames of their respective IP monopoly. However, when important patents are not proceeding to market in a reasonable time frame or manner, the Senate may cancel the IP rights or assign a new management team. Also, the standards for this type of cancellation shall be lower when the patent holder is not the applicant.

9/ There shall be no right to hold patents that are under-used, or are used primarily used for parasitic, obstructionist, or trolling purposes. This rule shall be more strictly enforced against those who own many acquired patents, but fail to bring sufficient products to market themselves. Also, for the purposes of this paragraph, selling to others, or partnering with others who bring products to market shall not count as bringing products to market. The Socialist Sluice may elect to cancel any, or all such patents.

10/ Lawyers and the people working in the patent application process shall be prohibited from owning patents they did not apply for.

11/ Government's patent office shall record the ownership and transfer of all patents. No transfer or collateralizing of patent rights shall be valid unless it is recorded by the patent office system.

12/ Government shall not mandate that the people use any monopolized or cartelized products, including those monopolized or cartelized through and IP monopoly. If government mandates something for everyone or nearly everyone, that thing must be ubiquitized.

13/ Patent applications shall only be accepted between 15:00 and 15:30 on the first working day of each teneth. No patent application shall be accepted unless the applicant first files a notice of intent to file a patent between 14:30 and 15:00 on the same day. This notice of intent shall include both a vague description of the patent and the classes that will be applied for. Also, the patent application fee shall be paid with the notice of intent, and it shall be 80 hour's wages.

14/ All IP applications received on the same day, with valid notice of intent, shall be considered temporal equals. If two or more patents arrive simultaneously, for substantially the same thing, then both shall be considered anti-patents. Thus it will be impossible to steal a patent claim, only to render it a co-owned anti-patent.

15/ The patent intake system shall be via the county recorder's system which shall hold all patents and notices of intent to file a patent until 15:30, when

they all get sent to the national patent office. The system automatically and instantaneously email all notices of intent, and patent applications, to everyone listed on the patent application, up to 50 recipients.

16/ When the Senate declares gold rush conditions in a new industry, no patents may be granted for one year. After that, all patent periods shall be halved for one more year.

17/ Patents do not necessarily confer a monopoly, but at the election of the Senate, they may be converted into the right to a realistic fee on everyone who uses that patent for the patent term.

18/ Government shall operate under the premise that the people will achieve more innovation through offering 20,000 Ubiq prizes of \$50,000 than 1-prize of a \$1,000,000,000.

19/ Government shall tax or limit the excessive profitability of the most profitable IP monopolies. However, when government taxes excessive IP profitability, it shall be required to use all that revenue on funding for other innovators, so as to maximize the number of innovators making as much money as any man would ever need.

20/ The maximum patent value for any innovation elected by the Senate as a gimmicky, scheme-like, obvious, or stupid shall be 100-years wages. For example, the Dyson fan.

21/ If the Senate judges that a manufacturer has redesigned or reconfigured its products for no good reason, but primarily to thwart competition from third party replacement part manufacturers, or to get the consumer to buy another unit, the Senate may bar that manufacturer from selling replacement parts and other replacement units.

22/ Ecology and common sense demand that we design our IP and tax system to minimize planned obsolescence and similar replacement product schemes, as well as reductioneering of existing products. To this end, the Senate shall both test new products and keep consumer statistics on product lifespans and cause of failure. Products elected as using intentional planned obsolescence or not living up to longevity claims may be fined or removed from the market.

23/ When products are made artificially complex, such as with printers and their rare ink cartridges, the complex and expensive ink cartridges shall be subject to a special tax that is sufficiently high to drive this practice from the marketplace.

24/ The Senate shall establish sensible minimum lifespans for various sorts of products. The minimum average lifespan for a lightbulb in a normal

environment shall be 70,000 hours, and this shall be regularly spot checked by government.

25/ Using media without paying the user fee shall not be called or regarded as piracy, but illegal copying. Those downloading accurately named illegal copies from registered download websites shall not be penalized for illegal copying if the illegal copy has been up for more than 48 hours.

26/ When people come to a violent death, or are severely injured in the production of non-educational entertainment media, that media shall lose all IP rights.

27/ Government shall work to minimize the energy that innovators must spend on managing their IP rights and profiting from them.

28/ Government shall try to maximize the use of Ubiquitization to get innovators paid quickly, so innovation is easier, less time consuming, and more profitable to innovators.

29/ Government shall work to maximize the benefits and reduce the cost of being an innovator.

30/ Except for pending applications, charities shall not hold IP rights, and all IP rights shall die immediately upon ownership by any charity, school, or religion. Charities may apply for IP rights, however, they may not receive the final award. Bequeaths of IP rights to charities shall be considered bequeaths to the public domain. The Senate shall attempt to fairly compensate all research charities and the individual researchers for the Ubiq work they do.

31/ All price information shall be considered in the public domain, and no confidentiality agreement regarding pricing shall ever be the subject a valid contract.

32/ When a fictional or fictionalized story coins a word, name or term, the creators of that fictional tale shall have no monopoly rights over that word, name or term.

33/ There shall be no IP rights for dramatizations and games where people go around shooting multiple targets, except those used by the government in military training.

34/ Artificial scarcity with regard to top-notch business names is a huge waste that gives nothing in return. Therefore, the trademark system shall not unnecessarily limit the number of available good names for businesses to use. To this end we shall say that the fee to file, and the annual fee to keep a national trademark shall be the following rates for each of the hundreds of classes at the patent and trademark office:

a/ 5-hour's wages if 3 or more terms are used.

b/ 100-hour's wages if 2 terms are used.

c/ 2,000-hour's wages 1 term is used, or if the trademark has 9 or fewer characters.

35/ Highly valuable trademarks may also be charged a percentage of their turnover for government protection of their rights.

36/ The system should not give any offensive power at all to recorded trademarks that are barely used and barely known in their industry. Also, the bar for the term of barely used should be quite high.

37/ We shall favor trademarks with two or more terms as this will cause an exponential increase in the number of possible trademarks available. Single term trademarks shall be construed and protected as narrowly as is practical. We shall err on the side of having more marks than protecting and broadening the rights of single term trademark holders.

38/ Common multi-word terms shall be seen as single words for the purposes of trademark law.

39/ There shall be no trademark protection for the following industries:

a/ The tobacco industry.

b/ The beverage industry.

c/ The candy and sweets industry.

d/ The marijuana and Mafia drug industry.

e/ The dishes and individual order items served by the restaurant industry.

40/ All existing trademarks that violate these rules shall have protection under the old rules until 2030.01.01. No trademark shall exist for more than 35-years. All marks older than this shall be required to change their names by 2030.01.01 All expiring trademarks shall be auctioned-off to the highest bidder by government to benefit the public purse. Also, fictional citizens shall not be allowed to change their names for any reason and at any time except when their trademark expires. Only new companies may buy old trademarks.

41/ When more than one businesses shares a name, each shall include a randomly assigned 3-digit identifier after their name.

42/ The use of a mark in media, advertising and directories does not qualify as use in commerce, except during the first year of the mark's existence. After this, the Mark owner must show that goods or services were regularly exchanged in continuous and repeated commerce of a reasonable financial amount for their mark to exist. How much is a reasonable financial amount? If the mark is only to be enforced in a small area, that amount should err on the low side. If that mark is to be enforced regionally, or nationally, that amount shall err on the

high side, and shall clearly manifest a genuine business enterprise with a reasonable turnover. There shall be no right for squatters to call first dibs on good names in any system in the land to scalp them later to actual businesses. Businesses with turnover less than 20-people's wages do not qualify for name protection between counties, or name protection for more than 5-years.

43/ PTO Sub-Senate juries shall adjudicate and enforce all relatively clear-cut patent and trademark infringement cases for no fee. The right to file and continue on with such infringement suits cannot be transferred or assigned even if the trademark is sold.

44/ The Socialist sluice shall review all controversial existing patents and strike down the ones that it elects as overly broad.

45/ The IP system exists to benefit the public by compensating inventors and stimulating invention. When people assume the role of inventor, or trademark holder and do not successfully bring products to market, the patent periods shall normally be cut in half, although the Senate may elect to cancel the IP entirely if enough time has gone by on a new and hot innovation.

46/ The trademark system will naturally create a great revenue surplus, and that surplus shall be used 90% to fund ubiquitization payouts, and 10% on patent enforcement.

47/ No trademark or fictional citizen name shall exist for more than 35-years, and all existing trademarks more than 35-years old shall be cancelled within 5-years.

48/ Wherever a patent touches some pre-existing way of doing something, the patent loses. No pre-existing business practice shall be forced to change or pay money due to a later arriving patent holder.

49/ Any time someone pays someone else to create something new, whether in-house or out-house, the work will automatically come with an inalienable and fully transferrable right for the employer/ customer to use any IP created. This right however, does not apply to variations on an existing theme that the employee already had developed. In that case, the pre-existing IP ownership of the existing theme shall remain the property of the employee. Also, this variations on a theme part shall not be applicable to communication design, attire, decoration, or architectural design.

50/ Contract clauses calling for the employee to transfer all IP rights to the employer shall be valid, easy to enforce, and very hard to void.

51/ We shall try to make the IP rights division

process as automatic as possible for creation teams. We shall try to create an IP rights system that minimizes this huge source of strife and lawsuits among creation teams, so the process can be more enjoyable for all.

52/ Once a development team breaks up, the team(s) with the juice that keep the process of improvement alive shall be greatly favored by the IP rights system, even to the point where the system voids previous IP rights transfers made by the development team.

NR'127. CANCELLED PATENTS

All existing patent rights relating to the following are hereby cancelled: drilling the ground, or operating wells of any sort, drill bits of any sort for rock or earth, underground mineral recognition, fuel transportation, petroleum pumps, oil refining, synthetic fuel, vapor recovery, mining any mineral extraction, refining raw materials, smelting, milling of metals, power generation and conveyance, geothermal energy, solar energy, wind energy, clean burning technology, railroads, monorails, public transit, automobiles, busses, farming equipment, disability access, engines, motors, city design, heating systems, cooling systems, ventilation systems, washing machines, cooking appliances, thermal insulation, body armor, glass manufacture, window shading and tinting, window coverings, electronic glass tinting, window systems, window covering systems, door systems, coatings, power couplings, batteries, high output LEDs, elevators, escalators, moving walkways, ride-sharing, car-pooling, reinforced concrete, concrete forming, concrete manufacture and distribution, injection molding, 3-d printing, pre-manufactured structures and wall systems, thermal insulation, airport equipment, airport security systems, automated warehousing, or capital equipment to make any of the foregoing.

All existing patents in the above areas shall no longer be enforceable. Except for anti-patents, no new patents shall be issued in the above areas for at least 3 months. Thereafter, a majority vote of the Socialist Sluice shall be required to re-institute the patent application process in each of the above industries by separate vote. The Socialist sluice may also add patent areas to the above list if they are a great tax burden or great obstruction to the economy.

NR'128. PUBLIC RESEARCH FUNDING

1/ Government research money is not for people

living in expensive places.

2/ Government research stipends are supposed to be stingy.

3/ Everyone working in a public lab on public stipend shall be expected to make the most of their chance and work long hours.

4/ When the Senate condemns work and offers Ubiquitous payments, it shall pay all contributors based on its judgement about their fair share of memetic contribution.

5/ Regarding Ubiquitous payments for drugs, Government shall conduct drug trials itself and judge how reproducible the initial trials were.

6/ To reduce fraud, all drug trials shall be under public recording. Those involved in a drug trial may not communicate with one another except under monitoring.

NR'129. WORK TIME

1/ This nation shall use a new day-grouping system in addition to the old one. This new system uses 6-day periods called SWEEKS, and tenths of years called TENETHS, which shall be 36.5 days each. The even numbered teneths shall have 6 sweeks of 6 days each. The odd teneths shall have an extra day in the last sweek. Every 4th year, there shall be an extra day added to the calendar at the end of the 2nd teneth.

2/ Government shall not adjust the time between winter and summer, and the time shall remain the same all year round. If the clocks must be adjusted, it shall be in the first moments of the new year.

3/ All jobs must have an employment contract. The contract shall state the minimum and maximum number of work hours per sweek. This contract shall also state a minimum ratio for days off, a maximum length for the work day. The contract shall also include a pay multiplier for overtime wages up to an overage of 20% each day or each sweek. The contract shall also include a pay multiplier for overtime wages over an overage of 20% each day or each sweek.

4/ Neither government nor any labor union shall establish standards for the length of a work day, work week, or the day's start or finish time, or the multiplier for overtime wages.

5/ Government may offer incentives to spread out the start and finish times for work, so that the nation's transportation infrastructure may be more efficiently used.

6/ Government shall encourage the adoption of day halving, so that the nation's infrastructure may be used more efficiently, and so that the people do not

have to waste time, or fuel commuting to work.

7/ All government offices, schools, and all financial companies shall typically use 6-day sweeks and day-halved schedules where a 2,002-hour annual work schedule is typically worked in 11 hour days, 182 days a year. This is done to double the capacity of our group infrastructure, to include, schools, government offices, factories, and most importantly our congested roads. This is also to reduce the time wasted getting to and from work.

8/ Under the day halving system, the only annual holiday shall be international freedom day, voting day, on June 19th.

9/ In many long-term wage agreements, wages will be expressed as a multiple of the average national wage, a number that shall be re-calculated and re-set by the Senate from time to time.

10/ Everyone who bills or works by the hour must clock in on the county recorder's time clock and billing app.

11/ There shall be no valid contract without a maximum billable amount listed. Charges in excess of this amount shall not be due under the law.

12/ When an employment relationship is terminated, the terminating side must state a reason. However extreme latitude shall be given under the law with regard to the validity of reasons stated for the record: for future job-seekers and future employers to view and consider.

NR'130. INSURANCE

1/ Life and limb are precious and irreplaceable: house and property can be replaced, or lived without. Government's first priority by a wide measure is the preservation of the life and limb of its citizens, its distant second priority is the maximization of property values. Government's still more distant third priority, is the property values of those fools who chose to live in dangerous places.

2/ Our nation's territory is enormous and varied. There is simply no need to build in dangerous locations. Government shall do nothing to help people to live in dangerous locations and dangerous buildings. Government shall instead go in the opposite direction. Government shall take measures to discourage people from living in dangerous locations and dangerous buildings.

3/ The people shall be expected to build away from geological hazards. There shall be no public or private insurance for earthquake, tsunami, volcano or landslide.

4/ The people shall be expected to build in places that are high and dry, and government shall assure

that there are enough locations and infrastructure to do this.

5/ There shall be no public or private insurance for tsunami, flood, river overflow, rain, snow, or storm surge.

6/ Government shall be prohibited from building any new dikes or levees against floods. After 2036.01.01, government shall be prohibited from maintaining any dike or levee against the ocean.

7/ No new structures shall be built in areas judged by the Senate to be in a 1,000-year flood zone, except upon concrete piers that raise all portions of the structure above the 1,000-year flood line. These piers must be diagonally braced and capable of resisting the horizontal flow of the flood waters.

8/ No dwellings, offices, factories, or warehouses shall be built or remodeled in any Holocene-era tsunami flood zone, even upon piers

9/ The people shall be expected to build relatively non-flammable structures a safe distance from fire hazards. There shall be no public or private insurance for wild fire, or firestorm, or fires driven from one property to the next.

10/ The people shall be expected to build properly and maintain their property adequately. They shall also use leak detectors. There shall be no public or private insurance for roof leaks, or burst pipes, except for third party liability.

11/ Loan clauses compelling borrowers to insure real estate shall not be enforceable. As well, lenders shall have no recourse against borrowers in the event the loan security is destroyed by accidental fire, earthquake, tsunami, flood, landslide, volcano. Lenders shall be free to discriminate against borrowers based on their vulnerability to these events, the type of construction, the location of the property, and whether or not the inhabitants are licensed to smoke tobacco.

12/ Loans on properties in zones vulnerable to earthquake, tsunami, river flooding, forest fire, fire storm, and landslide shall not be bundled and sold with normal loans. If these high-risk loans are bundled, they must be bundled separately according to the class and level of risk as determined by historical fire and flood sedimentation data. All urban and suburban areas of the nation shall be surveyed by the Senate with regard to these risks as part of the new national geographical survey.

13/ With all forms of insurance, the settlement may only come as equivalent stuff, not cash in hand. And this is always subject to a 5% loss, a bit of a delay, and some paperwork.

14/ Government shall not insure or help fund the

construction, rebuilding, or purchase of any property in any flood, tsunami, earthquake, fire or landslide hazard area. Government shall be prohibited from aiding the rebuilding effort in any area that seems likely to be harmed again by a similar natural disaster.

15/ There shall be no insurance for terrorism, civil unrest, vandalism, or war.

16/ There shall be no private insurance for structure vandalism, or fire because this leads to a number of bad outcomes such as people living in fire hazard zones, and protection schemes. To prevent insurance from becoming a protection scam, only the county government may sell fire and vandalism insurance, the cost of which shall be included in everyone's property tax bill.

17/ There shall be no medical malpractice insurance because our nation's legal system will no longer use money fines to eliminate incompetent healthcare professionals.

18/ There shall be no insurance for luxury products, except luxury healthcare.

19/ There shall be no travel insurance because this easily leads to Mafia protection schemes.

20/ There shall be no insurance of investment default because this leads to people taking risks with other people's money.

21/ There shall be no life or health insurance policy that pays more than 51 year's wages per individual. No injury, or wrongful death liability or settlement shall exceed 51 year's wages per person. (This is average wages. All mentions of wages herein are average wages.)

22/ No privately-owned passenger vehicle shall be insurable for more than one year's wages. After 2028.01.01, no privately-owned passenger vehicle shall be insurable for more than 6-month's wages.

23/ No annual insurance deductible shall be less than two week's wages per household.

24/ Only government may offer the vehicle liability insurance needed to drive. This insurance shall be included with license activation and fee payment. All license fees shall be paid by the day with no discounts for long activations. Those who have been convicted of driving under the influence of alcohol may be required to buy their licenses daily and submit a Breathalyzer test each evening. at 9:00.

25/ Because so much vehicle vandalism and burglary is caused by the vehicle owner's actions and parking choices, there shall be no insurance for vehicle vandalism or vehicle burglary.

26/ After 2025.01.01, commercial vehicle shall be prohibited from collecting for cosmetic damage that

does not significantly impair the use of the vehicle.

27/ When government institutes a system of computer navigated vehicles, there shall be no more liability for accidents than with today's more dangerous human-operator road system.

28/ All insurance policies shall be recorded in advance, and shall pay a per policy, per year recording fee of 2 hour's wages, or they shall not be enforceable.

29/ All insurance must state a realistic limit to its benefits, and no insurance may be marketed as having unlimited benefits.

30/ To insure properly functioning markets for insurance, insurers shall only be regulated and approved at the national level for business nationwide.

31/ Insurance agents that are paid a commission shall be subject to commission sales income tax.

32/ Insurance companies may only invest their funds in the debt of the national government.

33/ No insurance company shall have any foreign ownership, or be owned by any parent company, or have any subsidiaries, or engage in any business other than selling insurance and investing in government debt.

34/ Government being the nation's de facto re-insurer anyway, it shall maintain a monopoly on all re-insurance in this nation.

35/ All insurance policies and insurance marketing material shall state the amount of money that the company has collected and paid out over the previous 10 years for that type of insurance.

36/ Each person's permanent record shall include all insurance policies they have ever been a part of, all insurance claims made by them or about them, and all insurance payouts.

37/ Government shall not require that a majority, or near majority of the people obtain any form of insurance from the private sector. If a majority or near majority of the people must be insured, then government shall provide that insurance itself and the private sector shall be excluded from providing that sort of insurance.

38/ Insurance benefits shall not be assigned or sold, or they shall become void.

39/ All private life insurance, and long-term disability benefits shall be paid to government in a lump sum. Then, government shall disburse these payments annually for a specified term to the beneficiary.

40/ When insurance companies make pay-outs, the insured party shall receive no part of the money. All the money shall only be paid to third parties making repairs or providing other mitigations. Failing to do

this firstly incentivizes people to make claims for minor damage that would otherwise be overlooked. It secondly encourages people to pad damages. And thirdly, it greatly helps make insurance fraud more profitable to the fraudsters. The rule shall be that insurance gives one the opportunity to recover, rebuild or repair, not to cash out, or relocate. Those who don't rebuild, or repair, don't get any insurance money, and this includes those who government prevents from re-building because they are located in a tsunami zone or other hazard zone. These must therefore buy survivor relocation insurance.

41/ All insurance repairs shall be provided by lowest responsible bidder on the government's bid boards.

42/ When insurance companies acquire damaged property, it shall be auctioned-off by the county recorder.

43/ Government shall regard insurance as a bad thing, a thing that is to be taxed and minimized by public policy, a thing that is seldom encouraged or helped by public policy.

44/ Unique assets and expensive art works shall not generally be insurable.

45/ Vehicles over 30-years old shall not be insurable.

46/ To encourage the use of ultra-safe railroads and potentially ultra-safe network operated vehicles, government shall insure the users of these systems free of charge, for users that obey the reasonable rules established by the Senate.

5/ All precious books in closed stacks must be made available for anonymous downloading, and browsing. The only exception to the foregoing is that books on making weapons shall be only available with an ID.

6/ The national Senate library shall be mirrored by all county recorders to reduce the possibility of data tampering.

7/ All library materials written and audio/video shall be converted to text files and put on great library of at least 16GB chunks for download. Each chunk shall have about 20% serious political and economic material in it so that nobody knows who is reading the harmless stuff, and who is reading the political material. Also the political material shall be mixed-in in such a way that so nobody knows who is looking at the political material, and also so that nobody can strip this material out of the data stream. These downloads shall require no registration and use no encryption or passwords.

8/ The Sub-Senate shall promulgate both recommended and must watch media. The recommended media can be text or video. The must watch media must be video, and shall not exceed 60 minutes per teneth. Serious schools shall not teach or offer experiences in sport, music, visual arts, acting, religion, literature, storytelling, oratory, fiction, fictionalizations, architecture, design, poetry, pottery, philosophy, gender and race studies, craft-making, all physical activities, and all sports or any subject that a majority of Senators in the national Knowledge Sluice elect as frivolous or fruitless. Frivolous schools shall not teach history, science, technology, engineering, building, manufacturing, business, economics, government urbanology, or healthcare.

2/ School nursing shall be an additional 1-year educational training supplement that teachers can add on for a bit higher salaries. This is important for reducing the scale of our schools to more welcoming sizes.

3/ All public funding of education shall have separate budgets for serious and frivolous subjects. Each serious subject such as chemistry, zoology, ancient history, and electronics shop classes shall have a separate budget.

4/ School construction, school grounds, buildings upkeep, video security, student transport, discipline, and library functions shall be maintained by the county outside the school budget. All textbooks and all school library books shall be electronic and provided for free by the national government. The only thing that will be in the education budget shall be teacher and school nurse salaries. Additionally, all school administration shall be a separate item in the county's budget, an amount no more than 8% of teacher and school nurse salaries.

5/ Various private school entities shall rent the public school facilities for a daily rental fee. This rental fee may be paid in the form of county vouchers given to the parents of the students. The county shall also run last-resort public schools for the children that can't get into, or can't stay in the private voucher schools.

for all purposes of official learning certification, be it for secondary school, or higher levels. After this date, all secondary and tertiary schools shall stop keeping official grades and transcripts. The only thing that will define a person's academic abilities will be their score on the Senate's official and incorruptible exams. Thus, degrees from exclusive and expensive schools will decline substantially in value.

11/ Live teachers are not supposed to squander their time monologging with their students except when answering questions that are not in the material or in the lengthy FAQs that are supposed to have an answer to all questions that are on the well worn path. When teaching is done via monologue, it should be automated via video. It should also be optimized from a video assemblage of the best presenters in the world.

12/ There shall be no political, religious, or gender indoctrination by teachers. Students and observers are not supposed to have any idea about the beliefs of teachers with regard to these things. All teachers are subject to termination for revealing their political, religious, or gender beliefs to their students.

13/ No person shall teach or work with minors under age 21 who has ever:

a/ Advocated genocide, mass murder, or culling the population.

b/ Advocated racism including racism against Europeans.

c/ Advocated Marxism, Leninism, Maoism, fascism, anti-fascism, or Antifa, for anti-fascism is fascism.

d/ Advocated, homosexuality, pedophilia, or non-binary sexuality, or declared themselves as one of these.

e/ Had sex with a minor or a current or previous student.

14/ Except for the right to Ubiq status, there shall be no IP rights for anything said in a school lecture. All school lectures may be copied freely.

15/ Everything ever said or presented in front of an assembly of students by anyone who goes by the name of teacher or professor or is presented in a learning environment shall be considered as public domain and may be freely recorded and copied. No school or teacher shall have the right to prevent recording, or to restrict access or re-use in any way. The best portions of the best presenters shall be saved by the Senate. Some will be awarded Ubiq status and public money, but they shall have no other intellectual property rights.

16/ Schools shall not be places of stinginess and secret knowledge imparted to a select few people

for outrageous sums. Instead, they shall be the opposite. If any school wants to have secret knowledge, let it be called not-accredited in our land of more and better. Let that school be exempt from non-profit status. Let that school be off-limits for all government education money.

17/ Except for lab classes, and on the job training, there shall be no attendance, school enrollment, or internship requirement for taking the all-important government administered final test in any subject or level in the nation. As long as the child can pass the test for the half-year grade level corresponding to their age, the school system must consider them as properly educated and they shall not need to go to school if they do not need to or do not want to.

18/ Only Government shall have the ability to accredit schools.

19/ Private school tuition in excess of the national voucher payments for that part of the nation shall pay luxury tax except where the school is dealing with costly disabilities.

20/ No primary or secondary school shall use books or other teaching materials that are not both approved by the Senate and ubiquitized. All primary and secondary school materials are required to be available as a free public domain download.

21/ Normal school attendance shall be 3 days in every 6, however motivated primary, secondary, and tertiary school kids can go to school every day if they want, or if they are sent to school more by their parents.

23/ Children who can work productively in serious study under a librarian shall not have to attend school, and can quietly wander a library instead.

24/ Students are supposed to take one class at a time, all day, during school days until they are finished. They must either pass or drop their one subject before enrolling in another. It shall generally not be allowed to take more than one subject at a time.

25/ Government shall provide school vouchers for conforming children only. These vouchers may be used by the parents to choose where their children will go to school and create a market for public educational services. However schools that offer instruction in religion, religious studies, race, racism, reverse-racism, race studies, homosexuality, gender studies, or non-heterosexual gender identities shall not be allowed in the voucher system. Likewise

teachers recorded talking about these things in class or to students shall be excluded from the voucher system. Also, all schools and teachers that teach children to despise our nation, shall not be allowed in the voucher system. All private school tuition over the public voucher amount shall be subject to progressive luxury taxation.

26/ No school may grade students in any other way than pass or fail, and failed grades don't get recorded at all. We do this to encourage people to get exposed to more things, rather than to know a few things very well. The former is more the way of free men, the latter is more the way of slaves.

27/ Every class shall have a variety of versions for all common types of learner.

28/ No school that accepts government money or vouchers shall offer any any educational material not approved by the National Senate.

29/ Government shall not spend more than twice the per-child average on any retarded, gifted, or special needs child in the education system.

30/ Only females shall teach other people's children up to and including the grade most common among those turning 11-years old. No homosexuals, bisexuals, or transexuals shall teach or work in a primary or secondary school. No homosexuals, bisexuals, or transexuals shall work in a locker room, dressing room, or showering environment, or teach physical education in any school or gym, including adult facilities.

31/ All forms of teaching tenure, even if renamed, shall be prohibited and void, and all employment contracts for teachers longer than one-year shall be void.

32/ All existing student loan obligations are hereby void.

33/ Until changed, the basic school year shall offer 180 days of instruction per year, and day-halved schedules. This is about the same number of days as the old school system including summers, winter and spring breaks, and various other holidays. Thus the new school schedule will involve longer days at school, but not more days. It will also double the capacity of our schools.

34/ Nobody of any age shall ever be compelled to play any ball sports, or study a frivolous subject such as art or music if they, or their parents do not want this.

35/ Government shall work to reduce mental overhead in education. No education memes or activities shall squander student time or learning energy, no matter how old or long established.

36/ Those who come in first tend to matter for

society, while those who come in last generally do not. School shall give no consolation prizes or recognition for those who come in last. Such rewards are demotivating and augur backwards for our education system and our society.

37/ Minors shall not be allowed to use unmoderated or privately owned facebook's or other communication platforms. They must instead must use the government's cloned school platforms. All unmoderated communication platforms shall be required to verify that their users are over age 18. If they fail to do this, they shall be liable for harm to minors that was engendered by their platform.

38/ All primary and secondary schools shall offer moderated communication platforms. School messaging apps automatically disable during class time.

39/ All primary and secondary school students shall be required to use only their school's network while at or around their school. This networks shall only work for limited types of communication. It only permits access to approved websites and parents.

40/ Government may limit the right of primary and secondary school students to carry and use certain types of communication devices, applications, and media while at school. Government may also install signal blockers for non-school networks, thus forcing everyone at the school to use the school's network while on campus.

41/ No school may block or prevent child/parent, or parent/child communication while the child is at school. No school may prohibit, block, or erase student recordings of the violations school employees, or recordings of what school employees are saying or doing while at School.

42/ All new classrooms and other school structures built by government must be entirely pre-fabricated and made of cast concrete.

43/ All schools shall be required to treat all students, all potential students, and all employees equally regardless of race, sex, political ideology, or religion. In school, there shall be no favoring or disfavoring of any minority groups. In fact, all forms of racial and cultural identity shall have no place in any school admission process, or on any school campus. Students may not have ethnic identity groups in or centered around schools.

44/ Universities and colleges have always been one of the most important venues for free speech and open discussion, as this is where the next generation of the nation's leaders formulate their beliefs. Therefore, the people's rights with regard to 1st class free speech in our nation's tertiary schools

shall be considered greater, freer and more precious than most other places. No post-secondary school shall establish its own policies limiting free speech and the words of students and faculty, especially with regard to political debate and the political positions argued by students and teachers.

45/ Schools are supposed to be places where a wide range of ideas, even crazy ideas are expressed for the next generation to sort through anew. It shall be considered democide when any school administrators or faculty retaliate-against, punish, intimidate, or expel any faculty member or student for their non-violent expression of 1st class free speech.

46/ It shall be a crime when grown people tell the unrelated children entrusted to them to keep secrets from their parents. It is a double crime when threats are attached. Teachers shall not be allowed to hide things from parents in any way and must be completely forthright with parents.

47/ Only the national Senate shall establish national requirements for school admission, school conduct, school graduations, school textbook standards, academic performance, what is taught.

48/ In all primary and secondary schools that take public money, there shall be no books in the school library or on the school curriculum that are about religion, race studies, gender studies, sexuality, transsexuality, or pornography. Furthermore, these 5 studies shall not to be talked about by primary and secondary school teachers either at school or outside of school except for specialist sex education teachers presenting the Senate's approved sex education programs.

49/ The acknowledgement of a minor's sexual identity fantasies shall not be a thing for either the schools or any other branch of government. Sexual identity issues for minors shall not be a thing that any branch of government may talk about, deal with, or pay for.

50/ The main priorities of our secondary education system are to assure a wise and savvy electorate, to teach the laws, and to inspire a unified team spirit for our society. It is also to teach serious subjects. It is also to give everyone, one or more trades and necessary work habits to make them employable. Our secondary schools shall not teach frivolous subjects such as pervology, literature, theatre, and aesthetics. If kids want to study those things let them do so in a private school, a frivolous school.

51/ School is not real. It is a practice and training period before life. If you cheat on a government test, it is a crime. But if you cheat on a school practice

test, or you lie on your school entrance exam, or you copy someone else's work at school, the worst thing that can happen to you is that you get kicked out of the school. Under the law schools now can't even accuse students of cheating or getting kicked out. It shall now be considered extremely unwise to leave any of this power outside of Senate control.

52/ It shall be a crime for school staff to bluff kids into thinking they have powers they don't actually have, for this teaches young people a terrible lesson. Schools shall not condition kids to passivity and subjugation.

53/ Schools shall not have any authority to command non-students to do anything at all or countermand anything a parent has told their child. All police registered parents and guardians may remove kids from any school at any time and without advance notice or penalty of any sort.

54/ People working for government and for fictional citizens shall not be allowed to bluff about having powers they don't have. This shall especially apply to people working with children.

55/ Primary and secondary teachers shall not be allowed to talk about sex, politics, or religion at school. Teachers recorded violating this rule shall be fired and fined a month's wages.

56/ Teachers must use the school communication system for all the communication needs while at school and while communicating with students that are not present. This doesn't allow the exchange of messages during class time.

57/ Students who cause fist fights, or who strike or beat anyone at school shall be sent to sleep-away long-day reform school for at least 1-month if they are after puberty, and 2-weeks if they are pre-puberty. Schools may require those accused of bullying to wear location tech if they wish to remain at that school.

58/ School staff may use tasers on large or fierce students having fist fights.

59/ All pre-primary, primary and secondary schools and all child-oriented businesses, including doctors exam rooms and other healthcare service shall have point to point HD video in all places and times where there is no parent or guardian present in the room.

60/ The Senate shall maintain the most detailed libraries on each occupation, so that no secret society can profit from the people. Secret societies with secret rites and oaths of secrecy shall be prohibited in our nation.

61/ Parental consent shall be required every time a school:

a/ Takes a child to a new physical location.

b/ Touches the child or causes the child to be touched. Children may however be painlessly and non-invasively checked by a female school nurse.
c/ Provides sex education to the child.

62/ There shall be no vending machines or gaming experience where one plays a game and the top scores get a prize. We shall not allow our young people to be artificially inclined or leaned towards gambling with carnival prizes in this way. It shall also be a crime to operate carnival and coin operated games that advertise falsely or give too little in return, and games that most people of the recommended age can't fully play. These sorts of rip-off games terribly undermine young people's faith in the legal system.

63/ There shall be no fortune telling, or palm reading, or soothsaying vending machines or palm readers in our communities or gaining influence among our impressionable children. These things are not always harmless and they have been used for influence over people in the past.

64/ Every student between ages 10 and 17 shall get at least 6 days of general practical education twice a year. This will include education about drug addiction, sex, law, and civics and how to behave with others.

65/ As there will be no more school boards or school districts, all primary and secondary school teachers shall be hired, disciplined and fired by a Centi-Nome. voucher

NR'133. UBIQS

1/ An Ubiq is someone that created something valuable for all of society as judged by the Sub-Senate. The reward for this creation shall be both various levels of official Senate-bestowed Ubiq status and money.

2/ Ubiq status shall never be awarded for athletics, music, poetry, art, architecture, fiction, fictionalizations, fictionalized history, acting, theatre, or any other frivolous subject.

3/ In order to rapidly propagate our Ubiq gene-pool, the Senate shall look for people who have advanced mankind in the past, even as part of a team, and grant them reasonable amounts of Ubiq status.

4/ For all drugs, and where the Senate is still hoping for a better way, the Ubiq payments shall generally be paid out annually. Where the Senate regards a solution as total and complete, the Ubiq payments shall generally be paid as one lump sum.

5/ The Senate shall audit all claims of Ubiq status and it shall be a felony to impersonate an Ubiq or a Senator, just as it is a felony to impersonate a police

officer.

6/ All Ubiq payments and all profit rights from authors and inventors shall be sacred and these shall not be taken away for any reason. No debtor, no court judgement, no tax liability, no contract, no child support, no government fine shall ever have the right to claim Ubiq income from inventions or authorships. Even those in prison shall have their Ubiq and authorship monies held for them until their release, or death. Also, Ubiqs can pass their Ubiq money on to others tax free.

7/ When the Senate declares an innovation emergency, or a bottleneck it can offer a multiple of the normal Ubiq rewards. For an epidemic the Senate might offer 20X the normal Ubiq awards for a vaccine or treatment.

8/ The Senate shall focus on rewarding creators for hard work. Rewarding publishers and promoters shall not be a consideration. No publisher or non-author shall ever receive any Ubiq recognition or money.

9/ The smallest increment of Ubiq status is 0.01. Until you are given 1.00 Ubiq points by the Sub-Senate, you are not an Ubiq. After earning 1.00 Ubiq points, you are an Ubiq for life and all your genetic offspring are all considered sires.

10/ There shall be a college of software Ubiqs, and education Ubiqs, and immunology Ubiqs, etc. These colleges among other groups will advisory the Senate in their area of expertise.

11/ The Utter, the person who first expressed an idea, will get the most status and reward for his ideas. But the early supporters will also get a sliver of the credit. Also, the people who created improved versions that take over from the original and become the species of the new idea shall be properly rewarded. Also a sliver of Senate status shall accrue to Senators who shorten or streamline the nation's laws by even one word, or make a single sentence easier to understand, or less equivocal.

M — ECONOMIC FREEDOM

NR'134. DEBT

1/ No citizen shall ever be jailed, forced to serve in the military, or otherwise deprived of their freedom on account of bankruptcy, civil court liability, or unpaid debt, including child support. To do otherwise is the way of slavery, and this nation stands diametrically opposed to all forms of slavery.
2/ Debt being an ancient tool of economic parasitism and slavery, government shall not institute policy or taxes that incentivize the people to become debtors.

Quite the opposite, government policy shall incentivize and encourage people to minimize their debt.

3/ Lenders shall not be allowed to advertise and encourage the people to go into debt. Lenders who advertise and encourage the people to go into debt shall suffer significantly reduced rights to the repayment of the money they have lent.

4/ Lenders shall not be allowed to pay any commission or incentive to those who prepare or bring them business. Lenders that engage in this practice shall suffer reduced rights to the repayment of the money they have lent.

5/ Intentionally damaging collateral before a repossession shall be seen under the law as a sort of theft, a prison crime, if the damage is large and certainly not an accident. If we don't say this, we as a society get so much more waste for absolutely nothing.

6/ Debts to one's employer shall be unenforceable under the laws of this nation. Nobody shall ever come to be in debt to their employer for any reason, and those who dupe the ignorant into such an idea shall be considered enslavers under the law.

7/ Nobody shall ever come to be in debt because of the actions of others including the actions of parents, siblings, or relatives. Those who dupe the ignorant into such an idea shall be considered enslavers under the law.

8/ New debts over 1-week's wages that are not recorded by a county recorder's office shall not be enforceable under the law.

9/ Household furnishings and non-luxury clothing and financial accounts totaling less than 24-month's wages, plus 6-months per dependent child, may not be seized to pay any debt.

10/ The Senate shall establish a ceiling for interest rates and loan fees to protect the people from predatory lenders.

11/ When a person voluntarily records a vow of limited wealth (a "volwist's" vow), it shall be just as binding as a court or tax judgement.

12/ Debts cannot transact for less than 1/6 of their face value.

13/ No person shall ever be forced to make good on the financial obligations of their parents, grown children, or siblings, unless they signed a third party debt guarantee agreement. bingo

NR'135. FICTIONAL CITIZEN RULES

1/ The freedoms of this land exist for the benefit of real people. Fictional citizens may only share in those freedoms so long as they don't impinge upon

the rights of real people, or cause harm in other ways.

2/ The only rights that fictional citizens have under this Constitution arise from the rights of their citizen shareholders. Under this Constitution, fictional citizens themselves do not have any inherent rights, and may be killed and plundered of all their assets by the Senate if the long term benefit of the people is served.

3/ We shall always be on guard that our fictional citizens, mere legal conveniences, are not abused by foreign interests as a facade. The previous narrow democracy suffered hugely from this problem

4/ Fictional citizens must remain absolutely non-political and shall not in any way attempt to shape public policy, or the public discourse, or the beliefs of real flesh and blood citizens. Those fictional citizens and their directors not in compliance shall suffer heavy public dilutions of their ownership equity, or wealth, for polluting the environment of the public discourse. Fictional citizens shall not:

a/ Lobby government or spend money to sponsor or produce any media, including paid advertisements, that attempts to shape the beliefs or habits of the people in ways that are not directly related to selling their products.

b/ Organize or participate in boycotts, or avoid, or seek out business relationships for political reasons.

c/ Speak out in praise or disapproval of public figures or public policies.

d/ Reward or punish real citizens for their political beliefs.

5/ It shall be considered election fraud when directors and employees of fictional citizens use company assets on trying to influence political, social, or economic policy.

6/ Our first and foremost right to free speech by flesh and blood citizens about 1st class free speech is all-important to the functioning of our informed democracy and to maintaining of our freedom. On the other hand, fictional citizens are mere conveniences. One thing is all-important to the people, the other thing is trifling. We shall not allow fictional citizens to impair the rights of real people in any way with regard to our citadel human right of free speech. Thus the right of a business to be inoffensive to their customers shall be considered trifling in comparison to the all-important right of its human citizen employees to express their opinions and live their life in their free time. Fictional citizens and their managers shall not discriminate against, or punish citizens for off-work political activity or

protesting that the worker has not connected with their workplace.

7/ Except for the apportionment of ownership and voting rights, and the marketability of shares, there shall be no tax benefit or legal benefit for operating as a fictional citizen.

8/ Because fictional citizens are essentially immortal, they have an advantage over real citizens in that they do not have to pay death tax. To counteract this advantage and loophole, we shall have it that all fictional citizens shall pay a 3% annual wealth tax on all assets in the form of an annual incremental stock dilution. The foregoing shall apply to for-profit as well as non-profit fictional citizens. The Over-Senate may adjust this amount with a 2/3 over-majority.

9/ No human or fictional citizen shall be allowed evade the death tax through any legal or financial machination.

10/ When government lends to fictional citizens, it shall charge the fair rate of interest. If the fictional citizen cannot either repay their debts or their taxes, then the shareholder equity shall be diluted. In some instances, all non-public equity in the fictional citizen may get wiped out.

11/ When fictional citizens receive great public largess, they shall become the property of the people in proper proportion. Fictional citizens that are over 1/3 owned by the public shall not issue stock or debt or increase payments or buy or sell assets without the approval of the Senate.

12/ In general, fictional citizens shall not be allowed to operate more than one chain, unless an older chain is founding a new chain, or merging with another chain.

13/ All official notifications shall occur via the county recorder system's notification system. Notifications sent through this system shall be a requirement of using the county recorder's mandatory system for fictional citizen voting. Also using the recorder's voting system shall be a prerequisite for any legal action by the fictional citizen. Thus it becomes harder for managers to misappropriate money from fictional citizens. Under this system, much of the work of a corporate secretary will be automated with online forms used nationwide, and verified email delivery by the recorder's office.

NR'136. FC MANAGEMENT

1/ All officers and directors of all fictional citizens shall complete the Senate's anti-corruption module and shall pass the test with a 100% perfect score. After this, we shall strictly hold all FC directors to the

rules of corruption.

2/ To prevent the possibility of interlocking directorates, nobody may serve as an officer or director of more than one fictional citizen they did not found at the same time. However, if a man founds 100 companies, he may serve on the board of all 100 and one more that he did not found.

3/ No publicly traded fictional citizen shall have less than 15 directors.

4/ All fictional citizens shall have at least one director per 500 full time people, and one per 1,000 part-time people working with it.

5/ Fictional citizens shall have at least one director per 2,000 year's wages of turnover.

6/ When a principal founder of a fictional citizen is CEO, a 60% overmajority of the votable shareholders shall be required to oust him.

7/ We shall not have corporate Matryoshka dolls. Corporations shall not own and vote the shares of other corporations. Thus no mutual funds, or retirement funds, or hedge funds will be able to vote for anything at all with regard to the corporations they own. A corporate family tree must be submitted with each corporate tax return.

8/ In our nation, people are innocent until proven guilty. Therefore, if people were not jailed over accusations, or they are out of jail on bail awaiting trial, then their fictional citizen employers shall be prohibited from discriminating against them.

Fictional citizens shall be prohibited from acting on the mere accusation of illegal conduct. They must instead rely on rulings.

9/ Those who have been convicted of a felony, those who have worked as a lawyers, those who have not completed tertiary school, and non-native citizens shall not be directors or officers of fictional citizens they did not found or co-found.

10/ The salary and bonuses of all fictional citizen directors and officers shall be expressed as a multiple of the average national wage. No fictional citizen officer or director shall receive annual pay exceeding 50 times the average wage.

11/ Our government encourages performance based pay for workers and manager. However it prohibits performance based pay for directors of fictional citizens. This is because performance based pay drives workers and their managers towards hard work. But it drives directors towards risk taking, short-term thinking, and financial trickery.

12/ No group working for others shall be considered competent to adjust their own wages or other compensation. All changes in compensation for company directors and officers must be approved by

a vote of the shareholders, or they shall be considered fraudulent.

13/ The officers and directors of fictional citizens with more than 15 owners shall not do business with the fictional citizens they manage.

14/ For all fictional citizens, all board meetings, borrowing, spending, contracts, and all corporate secretarial documents shall be recorded with the country recorder's office in real time. All fictional citizens shall be registered with at least one county recorder. Large fictional citizens must be registered with multiple redundant recorders.

15/ Each year, all fictional citizens, including non-profits, shall be audited and the market value of their purchases and sales and assets shall be assessed.

16/ Fictional citizens shall not be allowed to purchase goods and services subject to luxury taxation.

NR'137. FCS AND COMPETITION

1/ The people shall have the right to competitive markets and to markets with enough participants to assure competition. Where competitive markets are impossible and there must be a monopoly, this monopoly must be run by Government.

2/ A number of unfair trade practices shall be prohibited between ostensible competitors. These shall include: collusion, price fixing, discriminatory pricing, dividing-up territories of operation, exclusive dealing, output restrictions, paying people not to compete, taking money in lieu of competition, preferential treatment, and refusal to trade equally among other unnamed practices.

3/ Government shall err on the side of smithereneing all monopolies it breaks up. Smithereneed corporate parts are not allowed to engage in mergers or acquisitions for at least 12-years unless a longer period is stated.

4/ All penalties for violations of anti-trust laws shall be paid in the form of diluted shareholder equity in favor of the national government. These government rights may be sold immediately or over time, or kept forever by the people.

5/ All fictional citizens must have open public bidding on public bid boards for the contracts they let. If there is a need for confidentiality or secrecy the FC must hire full time workers.

6/ We shall work to reduce the size and power of the largest fictional citizens in our land. For-profit fictional citizens with over 200,000 people shall pay an added corporate sales and turnover tax of at least 2%. Those with over 50,000 people shall pay a tax of at least 1%. Those with over 5,000 people

shall pay a tax of at least 0.1%. The Senate may impose higher sales taxes on large companies, and certain industries if it elects.

7/ Government shall impose special industry specific sales taxes on large vendors whenever it elects that having a large and diverse free market will be better over the long run than using a few large operations.

NR'138. FCS AND CONSOLIDATION

1/ Government shall do nothing to encourage mergers in the private sector.

2/ Ownership of the nation's 2,000 largest fictional citizens and their debt shall be reserved for the Flesh and blood citizens of this nation.

3/ All mergers involving the nation's 2,000 largest fictional citizens must be approved by the Senate.

4/ Fictional citizens shall not be allowed to own the shares or debt in other fictional citizens, except in the 90 days before and after a merger or purchase. All assets not merged within 90 shall be forfeited to government.

5/ All fictional citizens shall be monads, and none shall own any other fictional citizen, in whole or in part, except in the 90 days following a merger or purchase. There shall be no corporate subsidiaries, or parent corporations, or holding companies. Such relations are not for the benefit of the people, but exist to hide the harm being done to them.

6/ When fictional citizens grow bigger, depending on the tax brackets, they may have to pay higher taxes. When fictional citizens spin-off units, or break themselves up into completely independent companies, they shall have the right to benefit from lower taxation due to being in a lower tax bracket.

7/ To slow industry consolidation, our nation shall tax corporate takeovers and mergers. When a fictional citizen is taken over, or merged and when businesses sell part of their organization, or capital assets to their competitors, government shall get at least 10% of this money as a tax on mergers and consolidation.

8/ Fictional citizens shall not conglomerate unrelated industries.

9/ Government shall not pay any inconvenience value when it con-dems fictional citizen assets.

NR'139. FCS AND EMPLOYEES

1/ Non-cash employer benefits were previously a legal way to cheat the tax system. We shall go in the opposite direction and say that the sales tax assessment for non-cash benefits shall pay 4% over assessment. This includes rent discounts, credits for company stores, and all health benefits for non job-

related healthcare. In the few places where these benefits are needed and genuine, they will pay the small increment. Where these are fake, the higher assessment will drive the benefits towards cash.

2/ The following types of housing shall have no taxable value:

a/ Dormitory style worker housing where 4 or more workers share a room.

b/ Employer-provided non-luxury worker housing for full-time workers in remote facilities.

3/ It shall be a crime for managers to coerce their citizen employees politically, or to discriminate against citizen employees for the political views they express as disassociated individuals while they are off the clock.

4/ It shall be a crime for managers to discriminate against citizen employees on the basis of unproven accusation of criminal activities outside the workplace. All citizens shall all have the right to be considered innocent until proven guilty with regard to employment.

5/ The two paragraphs immediately above shall apply to all students, all association members, all parishioners, and all members of all religions as if they were employees.

6/ Only government shall make public policy regarding vaccines, treatments and employee healthcare. No fictional citizen shall ever require any employee, student, passenger, customer, or member to get any vaccination. This shall always be considered an overreach on the part of the fictional citizen.

7/ People shall not have the right to be overtly sexual, racist, political, or evangelical while at work, or to act in a sexual, racist, political, or evangelical way that makes numerous others feel uncomfortable, be they customers or co-workers.

8/ Employee profit sharing shall be mandatory and automatic in this nation for companies with over 100 employees, as it costs little on net to give a sliver to the employees. Automatic profit sharing for startups shall be 6%, for mid-life companies it shall be 3%, and for old companies it shall be 1%. Companies shall be free to offer more than this, and companies with big profit share payouts do not need to offer such high base pay. This profit sharing shall not apply to the proceeds generated when a company or a division is sold or goes public, but only the annual net profit.

9/ In order to minimize the cyclical of the economy, all employee profit sharing and all annual bonuses to employees shall be paid at the start of the second teneth.

NR'140. FC STOCK AND VOTING RIGHTS

1/ Every time a publicly traded company sells fresh new shares, the people shall get 3% of the shares as a sort of underwriting fee. No third party financial firm shall be involved when a publicly traded company sells new shares.

2/ All ownership shares in all corporations shall dilute upon the sale of more shares, and no shares shall be exempt from this.

3/ There shall be only one class of shares in all corporations. All share preferment is hereby void.

4/ Everyone who manages a publicly traded company, their kith and kin, and everyone who owns more than 1 per mil of a publicly traded company must schedule their stock, bond and options transactions involving that company in advance with the SEC by more than 6 days. Those who own more than 2 per cent of a publicly traded company must schedule their purchases, sales of stock and options by more than 12 days in advance.

5/ No shareholder voting rights shall exist when shares are owned, optioned, or otherwise controlled by the following groups:

a/ By mutual funds.

b/ By fictional citizens for more than 90 days.

c/ By people unable to vote in this nation's elections. Also, in all such cases, the Senate shall automatically have the right to vote these shares as the proxy of the owners.

6/ All investors in the stock of all companies shall automatically assign their proxy to the Senate unless they name another party.

7/ Fictional citizens shall not hold proxy voting rights. Nobody shall attempt to market or sell proxy voting rights, and this may be considered vote selling.

NR'141. GOVERNMENT POWER OVER FCS

1/ Fictional citizens are fictional things that have been delegated powers by the people of this nation for the benefit of the real human citizens of this nation. If the people are not benefitting, or they are suffering abuse from the existence of a fictional citizen, then government may:

a/ Kill the FC and nationalize its assets.

b/ Dilute the equity of FC.

c/ Break-up or smithereen the FC, selling-off each of its facilities separately and handing the proceeds to the shareholders as their cash out payment.

2/ The Over-Senate shall have absolute, total, at-will, life or death power over every fictional citizen in the nation. If the Over-Senate elects with a 2/3 overmajority that any fictional citizen shall be nationalized, then it shall be nationalized with no

payment to its shareholders. After this, all shall be bound by the Senate's election with regard to that fictional citizen. The Senate shall have no obligation to pay anything to any fictional citizens or their owners in cases of gross dishonesty. The Senate's only obligation is to make sure that future honest investors are not scared away from investing.

3/ The national Senate shall have to right to break-up or partition fictional citizens when it elects that the people will benefit from such partitioning over the long run. This shall apply to for-profit enterprises as well as non-profit organizations. When the Senate breaks up for-profit fictional citizens for abuse of monopoly power, it may also assess a reasonable deter-hence penalty in the form of a dilution of equity benefitting the public purse. The Senate may also compel the multiple repayment of all monopoly and cartel extractions.

4/ There shall be no court held competent to judge the will of the Senate in any matter, including matters related to the nation's fictional citizens.

5/ All Senate inquiries of fictional citizens shall be judged by Senate juries of appropriate size for the fictional citizen's gross income.

6/ Senate oversight management of fictional citizens shall primarily exist to prevent corruption and parasitism, but it can also reduce stupidity and improve the overall level of management.

7/ Government shall be free to sell-off its shares in fictional citizens at any time. However, government should sell its shares slowly and in small chunks so as not to inflame the market, and so that the people can maximize the value on their equity.

8/ All fictional citizens have an obligation to be responsible members of the national economic ecosystem. When fictional citizens behave like parasites, or when they abuse consumers, free markets, the environment, or investors, that is when they start losing the right to exist.

NR'142. ALL WEALTH REVERTS TO THE PEOPLE

1/ Only the Senate and people may operate economic drains in our nation. All reversion rights shall belong to the people and the government they establish for themselves.

2/ High inheritance taxes are a critical part of the people owning all the drains in their economy. No citizen real or fictional shall be allowed to avoid or get out of paying death taxes.

3/ Because we don't want to give fictional citizens any advantage over real citizens, they must pay death taxes at a rate that is equal or faster than the

average human lifespan in business.

4/ Ishtar is the main supporter of generous inheritance rights. Without these rights, many of Ishtar's rackets cannot function. For example the deathtrap tsunami funnel city racket doesn't work unless the deathtrap land can be held for some generations. Likewise with the farmland at the periphery of the city racket.

5/ There shall be no eternal ownership rights in valuable property, and no private property rights shall live for more than 80-years. After 80-years, all property rights shall revert to the people, and shall generally be re-leased or sold for up to 80-years by the people to raise money for the public purse.

Essentially, we are saying that there is no right to inherit real estate and other assets over many generations, as the Mideast-fronting dynasties have always struggled for. And because of this there will be much more good property for everyone to use.

NR'133. LAND OWNERSHIP AND CITIZENSHIP

1/ Real humans from other UM member nations that reside in our nation's territory shall be allowed to own one reasonably-sized personal residence. Except for this, and real estate owned by our Government, only the real flesh and blood citizens of our nation may own real estate in our nation.

2/ Fictional citizens shall not own land. They may lease real estate for up to 28-years, but they shall not be permitted to own real estate. Also, to be clear, fictional citizens may not option real estate or hold it under any form of contract so that the control period exceeds 28-years in total.

3/ All existing fictional citizen land ownership equity that is not taken over by others in the reapportionment shall be converted to pre-paid triple-net leases of not to exceed 23-years with the county government holding title to the property when it reverts. Once the ownership period is over, the fictional citizen shall pay rent to the county government if the two can agree on a lease:

a/ For agricultural land used by fictional citizens, a 9-year lease shall apply.

b/ For hotels run by fictional citizens, an 13-year lease applies.

d/ For mineral real estate and mineral rights a 15-year lease shall apply.

c/ For retail real estate used by fictional citizens, a 17-year lease shall apply.

g/ For residential real estate used by fictional citizens, a 19-year lease shall apply.

e/ For office real estate used by fictional citizens, a 21-year lease applies.

f/ For factory and storage warehouse, a 23-year shall apply.

O — RELIGION & CHARITY

NR'144. FREEDOM OF RELIGION IS SECONDARY

1/ In our nation, we offer freedom of religion as a right. However, the freedom to practice one's religion is a subordinate right, subject to the other rights and responsibilities set forth herein. The other freedoms guaranteed by this Constitution shall generally be regarded as more important than our freedom of religion. If there is a conflict with any other paragraph in this constitution, the other clause overrules the religious protections rather than the other way around.

2/ In our nation, we offer freedom of religion as a right. However, the freedom to practice one's religion shall be subject to restrictions intended to keep everyone's religion from impinging on the rights of other people who believe something else. No religion shall be allowed to make any demands at all on the believers of other religions, or non-religious people. If one religion exalts hogs, and the other eats them, neither shall have any right to make any demands on the other. Both groups must put their differences aside and live together in peace.

3/ To promote peace and harmony among the people, all religious clothing and accessories shall be prohibited at all workplaces and schools. Employers, but not schools may grant permission for religious clothing. However they must allow all religious clothing if they allow any of it.

4/ Employers and schools shall not be required to make any accommodation at all for religions, or their beliefs, or take any account at all of any religious holy days in their scheduling. Employers and schools may choose to follow one set of religious holidays over the others.

5/ The freedom to practice one's religion shall only apply when the religion is genuinely an ideology of peace and the religion does not impinge or seek to impinge on any other right of the people, or public safety, or our ability to defend our land from invasion, or our proposition of freedom. Freedom of religion is not guaranteed to ideologies with a large contingent, anywhere in the world, that advocates hatred, violence, terrorism, war, jihad, or struggle against our freedoms and our public safety. And no religion, no matter how popular or ancient shall be exempt. Freedom of religion is also not guaranteed to ideologies with a large contingent of priests that

rape or molest or otherwise abuse the children of the believers.

6/ We are a nation of light and openness not darkness and secrecy. Freedom of religion shall not be afforded to religions and ideologies that have dark secrets, secret rites, secret initiations, or facilities that prohibit non-believers or non-followers. These shall all be considered occults or cults.

7/ Religions shall not be free to send money out of our nation either directly or indirectly.

8/ Religions that violate these rules may be closed down with a 2/3 over-majority of the Sub-Senate.

9/ No Christmas music shall be played before December 15 or after December 25.

NR'145. CHURCH SEPARATION

1/ There shall be an absolute separation between church and state and economy. No religion or religious group shall involve itself in the workings of government, the political debate, the voting process, the economy, or the public education system.

2/ Government shall obey no religion, and no religion shall be permitted to make any demand on either government or the people.

3/ No religion shall be given any office, embassy, place or meeting with government. No religion may hold any processions on the public way.

4/ Government shall not establish or support the practice of any religion, or give any money to any religion, either directly or indirectly.

5/ No religion shall be allowed to tell or hint at how its followers should vote. Thus, we shall say that religious entities shall not have the right of free speech. Religious followers may say what they wish, however the religious entities themselves, their priests, imams and head men, shall have no right to free speech with regard to matters of government, the political debate, the voting process, the economy, or the education system. To do otherwise is to allow religions to become a back door to our democracy.

6/ Except for public pantheons, no public property or transit infrastructure shall be used for chapels, churches or prayer rooms. Also, except for public pantheons, no public property shall be used for any religion's group services, group prayers, or religious icons. There shall be no specified prayer areas on public property, and

7/ No high ground, or visible spot (public or private) shall display any religious icon.

8/ No house of worship, religion-owned property, or religious worshippers shall ever emit any sound into the surrounding community. This shall include

music, bells, voices, sirens, singing, and prayer calls.

9/ No government official shall ever say any word of prayer, or burn candles, incense, or hashish, or sacrifice the life of any creature for religious purposes.

NR'146. GOOD RELIGIONS & EVIL OCCULTS:

1/ To be classified and protected as a religion or protected ideology, the belief system must deserve protection, and it shall be required to obey the following reasonable rules worldwide. Ideologies that violate any of the following rules anywhere in the world may be declared evil occults, and closed down thorough either the variable constitutional clauses herein, or the constitutional amendment process herein.

2/ The belief system shall be an instrument of light and truth and not darkness and lies. Belief systems shall not have:

a/ Secret rites.

b/ Secret literature.

c/ Secrete or closed libraries.

d/ Secret files on people.

e/ Services or meetings that are closed to outsiders.

f/ Meetings that are not recorded on video by the county recorder's system.

3/ The belief system shall be an instrument of peace and brotherhood among men. The belief system shall not have a large segment that is:

a/ Hostile to non-believers.

b/ Advocates violence, or any crime.

c/ Regularly buds terrorist groups.

4/ The belief system and its members shall not advocate the end of either our dear freedoms and rights, or the dear freedoms and rights of anyone anywhere on Earth. Nor shall the religion present non-believers as sub-human, or animal-like in any way, or deserving any hatred or violence.

5/ The belief system must elect its leaders locally and annually, and these must all be native citizens. Also, there shall be no fewer than one local leader per 500 followers of the belief system, and no belief system shall ever be exempt. These local leaders in turn must annually elect 1-in-10 of their own as administration for the belief system in our nation. This elected administration shall act as the ultimate arbiter for the belief system in our nation. It shall make all the business and religious decisions for that belief system in our nation.

6/ There shall be no election by appointees anywhere on earth in any of the nation's protected belief systems. All hires of the officers of the belief

system everywhere on earth must be elected. Also, the belief system's local followers must elect their leaders, and then these elected people in turn elect a national 1:5,000 leadership for the belief system.

7/ All services and activities in all belief systems shall be conducted exclusively in the national language, English or Euemi as applicable. The use of Latin, Greek, Arabic and all other foreign languages in religious services shall be entirely prohibited. This practice of using foreign languages has existed throughout history, and its main purpose has generally been to empower foreign priests so they can lord over the the local people.

8/ All belief system shall be allowed to translate and edit their holy texts as they wish, however, the Senate shall have the same right. The Senate shall also have an obligation to include various translations of all important texts including the questionable, or apocryphal texts such as the books Tobit, Baruch, Esdras, and Laodiceans.

9/ No religion shall demand that its priests or other religious people remain celibate as this is leads pedophile priests that will do what the masters of their secret demands.

10/ Like with school staff, no priest or religious staff shall be allowed to meet alone or in small groups in the same private room with non-relative minors under age 18 either on the job or off, unless they are accompanies by a parent or guardian.

11/ Like with our schools, all our religious facilities, and religious schools shall be fully video monitored by the country recorder's system.

12/ No religion or its priests in any part of the world shall express any opinions about war, violence, the rules of government, or about other political matters. demand.

13/ No religion shall say or infer that giving money or making sacrifices will in any way atone for evil deeds. When a religion says this sort of thing, it is telling its adherents that they can be evil as long as they pay money to their indulgence religion. Any religion doing this is obviously and hypocritically encouraging the very sins they supposedly despise.

14/ No religion shall burn anything, or allow anything to be burned or sacrificed in its houses of worship, including candles, incense, hashish-incense, and burned perfumes.

15/ No religion shall have or call for ritual animal slaughter except where the animal is mostly eaten.

16/ No religion shall call for special, distinct, or imported food. We do this because of the Mideast's ancient history of mass poisonings. If the religion eats special food, it becomes much easier to either

poison or frame non-believers.

17/ No religions shall keep a database on people who are followers or not followers of that religion,

18/ Religions shall not keep databases about the income, wealth, consumption, or achievements of their followers, or in any way punish, or call attention to those who do not pay their religious taxes or tithes.

19/ The people shall have the right to change their beliefs. No religion shall judge, punish, fine, or menace its followers if they choose to leave the religion. No religion shall make any demands at all on non-believers, or apostates from that religion.

NR'147. RELIGIOUS POLLUTION FINES

The murderous, violent and terrorist acts of religious fanatics anywhere in the world shall belong to their entire religion. To send a message about this sort of religious pollution, the Senate may fine the religion's followers in our nation. The penalties for religious murder and terrorism shall be 10 times the damages normally awarded for wrongful death and injury. If the religion has no money, then the assets of the religion's followers may be seized to pay these fines. If the religion's followers do not have money, then the assets of most recent apostates may be seized to pay these fines. If both followers and apostates do not have money, then we begin deporting non-citizen immigrants who were once followers.

NR'148. CHARITIES AND MONEY

1/ The Senate shall maintain intake accounts for when the people donate money to the various charitable and non-profit enterprises of the nation. If both the source and the payee conform to Senate standards, the Sub-Senate shall apportion and disburse 99% of this money to the account it was donated to. The 1% fee will be mostly used to pay for the sort of detailed and regular auditing that will both encourage the people to give more money to charity, and keep our non-profits strictly honest. This auditing shall verify that the charitable donation was neither diverted, nor spent on overpriced things.

2/ The term charity herein shall refer to all forms of non-profit fictional citizens. This shall include all religions, churches, foundations, trusts, schools, universities, research facilities, associations, clubs, and all other nonprofit organizations.

3/ Charities, like all fictional citizens shall be prohibited from owning real estate. All charity owned real estate is hereby nationalized. All charities shall be allowed to continue using buildings

that are used by a reasonable number of people, and government shall charge no money for this.
4/ There is no need for charities to hold farmland, or real estate outside of cities, or large tracts of urban real estate, or mines, or urban parks, or factories, or apartment buildings, or shopping centers, or warehouses, or office buildings. All such charity owned assets shall be nationalized and auctioned off.

5/ Non-profit organizations shall not hoard wealth. Nor shall they be allowed to control real estate or other property that is either unused, underused, rented-out for income, or used for free.

6/ In our nation, the basic administrative unit for religious charities shall be the individual house of worship. Each house of worship shall be treated as separate charity, and each shall be run by a separate democracy run by the local parishioners. For this reason, we can have it that no church shall manage more than 1,000-year's wages in assets, and any charities with more than this amount must be divided. Also, no charities shall be allowed to hold assets worth more than 8-year's operating expenses from one year to the next.

7/ No charity shall accept direct or cash donations. All money and property given to charities shall be taken-in by Government and then disbursed to the charity. Government shall assess the value of non-money donations, and make them available to the intended charity within 30-days, unless they must be liquidated first.

8/ It shall be a felony for the employees, officials, or priests of any charity to receive, take-in, or touch donations that have not come via government's donations tracking mechanism. It shall be a misdemeanor to give money outside the government's donations tracking mechanism. Government may conduct sting operations to attempt to get charity workers to take money outside the system.

9/ When religions and religious people selling indulgence or forgiveness for crimes, they shall be considered as co-conspirators in the crimes committed by the people buying the indulgences. It shall also be considered the crime of fraud for religious people to take money in exchange for forgiving an adherent's violation of religious commandments. This may also be in addition to the felony of taking in religious donations outside the government's donations tracking mechanism.

10/ No commercial activity shall occur in, or on the property of any place of worship, or on an adjacent public way. No religion shall engage in business or

commerce of any sort. No religion or religious charity shall sell religious products of any sort including incense, candles, wafers, food, figurines, icons, stained glass, prayer rugs, prayer beads, jewelry, clothing, books, and indulgences for sins. No religious charity or its staff shall lease-to, partner-with, or point-out other parties engaging in these activities.

11/ No religion shall have approved, sanctioned or sanctified vendors. No religion shall discriminate based on religion with regard of its vendors.

12/ Government shall divide charities into four types, Nature, religion, humanitarian, and knowledge.

Government shall tax all donations to Nature and religion charities by at least 25%. Government shall not tax donations to knowledge or humanitarian or knowledge charities. The taxes from nature charity donations shall be paid to humanitarian charities.

The taxes from religious charity donations shall be paid to knowledge charities.

13/ To incentivize the efficient use of assets, all charities shall pay the prevailing rate for property taxes on real estate they hold and use like all other fictional citizens. However, because income taxes are inapplicable to charities, they shall pay a proportionately higher level of consumption taxes instead. Government shall not give any tax reductions or deductions to charities, or to those donating to charities.

14/ Government shall not pay for maintaining or renovating any buildings or other assets for any religious charity. Nor shall Government subsidize any religion in any way.

15/ Charities shall not buy advertising, imported goods, sacraments, incense, stained glass, luxury goods, expensive icons, expensive artworks, handmade rugs, or expensive relics.

16/ No money belonging to any house of worship shall be spent or given away without a majority vote from the parish's following and according to a plan created by the parish's own local following.

17/ Charities shall not overpay for goods, contracts, or staff. All charity salaries and expenditures are subject to Senate auditing and oversight.

18/ No religion shall charge for its services or require any payments or donations from its members. No religion or priests shall charge for services, or for non-attendance.

19/ No new single house of worship shall hold more than 500 parishioners at any one time.

20/ Government shall encourage parishes to share houses of worship between various religions. This will firstly save money and secondly help build

brotherhood.

21/ We cannot prohibit religions from making unprovable claims about preferential treatment in the afterlife. However, we can and should limit their ability to profit from these claims. All valuables paid to a religion either near death, or as a bequeath, shall be presumed to be buying a stairway to heaven. All such stairway to heaven gifts shall be subject to the highest rate of death tax.

22/ All fictional citizens, and especially all charities shall file quarterly statements of income and balance. All charities shall be audited annually by government, the cost of which shall be reimbursed by the charity to government. Special attention shall be paid to making sure the charity is buying the right things, and not over-paying for them. Secretly profiting from the expenditures of a charity or a fictional citizen shall be a felony.

23/ Government shall not give financial support to religions or religious charities, or their proxies.

24/ Except with Senate approval, no more than 10% of the budget of any charity shall be spent on administration and expenses. The other 90% must be given away or used for the purpose the charity was created for.

25/ To assure that the holy men of our nation are not it for the money, we shall:

a/ Cap the income and wealth of all priests and employees of non-profit organizations.

b/ Say that no priest, or non-profit employee shall make annual income over the average national wage including income from all sources.

c/ Have wealth over 30-year's wages. (This amount may be further limited by Senate election.)

26/ Any hiding of income or wealth on the part of non-profit staff shall be punishable as tax fraud. The forgoing shall apply to all priests, and everyone working in or for a non-profit organization.

27/ Religions shall not provide their priests and religious officials with sumptuous accommodations.

O – IMMIGRATION

NR'149. CITIZENSHIP INTRODUCTION

1/ With regard to citizens, immigrants and visitors, there shall be 9 classes of person in this nation:

a/ Native citizen (dark blue)

b/ Immigrant citizen (turquoise/teal)

c/ Provisional citizen (light blue)

d/ Immigrant-worker (dark green)

e/ Non-immigrant worker (light green)

f/ Visitor, or tourist (yellow)

g/ Refugee/ asylum seeker (orange)

h/ Exhod (dark orange)
i/ Illegal alien, or illegal alien (bright red)
x/ All of these 9 classes shall be considered immigrants except native citizens. Classes a, b and c shall be considered citizens, the other 6 classes d, e, f, g, h, and i shall be considered non-citizens. Each class shall have a different color of ID card if they are issued a government ID. The colors listed shall be of the most vibrant colors possible. This is so people will instantly know everyone's immigration status. All government identification issued by our nation's government must accurately indicate the person's citizenship or immigration status.

2/ A native citizen is someone that was born in this nation that spent a sufficient amount of their lifetime in this nation as follows:

a/ When both parents (both the genetic parents and the raising parents) are native citizens, The child does not need to spend any time living in the nation to automatically get the full rights of a native citizen.

b/ When both parents are immigrant citizens, or provisional citizens of this nation, the child must spend at least 1/5 of his life in this nation prior to his 18th birthday to automatically get the full rights of a native citizen.

c/ When one genetic parent is not a citizen, the child must spend at least 1/2 of his life in this nation prior to his 18th birthday to automatically get the full rights of a native citizen.

d/ When no genetic parent is a citizen, at least 96% of the child's life after their 4th birthday must have been spent in our nation to automatically get the full rights of a native citizen. Many children adopted after their 4th birthday will never become native citizens.

3/ People born to illegal immigrants, and people born to those who entered this nation as legal non-immigrants shall not have any right to become citizens simply because they were born in this nation.

4/ An immigrant citizen is someone that has changed his citizenship to that of our nation, and has also been a citizen for more than 20 years. All citizenship shall be provisional and with restricted rights for the first 20 years.

5/ Only native citizens shall be allowed to vote in this nation's election. Those who are not native citizens shall not vote in this nation's elections.

6/ Anyone can serve in the Sub-Senate or Main Senate if they can get elected. However, only people who were born citizens of this nation shall be permitted to serve in the Over-Senate

7/ All immigrants and exhods from the Parasitic

Union that re-enter the Parasitic Union shall have their immigration status in our nation cancelled. Once people escape the Parasitic Union, they cannot go back ever again. This includes any part of the PU.

8/ Neither government nor any fictional citizen shall be allowed to favor non-citizens over citizens, or illegal immigrants over legal immigrants.

9/ Those people who lack a citizen number or a valid immigration number shall be ineligible to receive any government cash benefits. They may however receive government non-cash benefits at an immigration or exhod facility. Immigrants who work on a cash or barter basis shall conclusively be considered as unemployed, or tax frauds, and hence a burden to the system. Thus they may be deported as skivers.

10/ When foreigners shout loudly about how they hate our nation of the free, or our dear freedoms, these people may be denied entry to our nation.

NR'150. THE STAKE THROUGH ISHTAR'S HEART

1/ The right to emigrate from the Mideast hell to the heaven of our land is the most valuable thing that Ishtar offers its slaves. Emigration is thus Ishtar's primary source of fuel and power. If the Ishtarians keep control of the right to immigrate to the nations of the world, Ishtar will probably live on. If we take control of the right to immigrate to our lands, Ishtar will probably die. We must therefore all treat our immigration selection system like it is the most important aspect of our battle with Ishtar, and the most important long-term aspect of international security and the prevention of war.

2/ Ishtar is a solvent, rather than dominant enemy. It is an enemy infiltrates and buys influence in our governments, and over our people. It is a corrupting enemy that thrives in darkness and public ignorance of how government actually works. So we must go in the opposite direction, and turn on the light of public attention for our government's systems and ways. In very few places is this more important than with our immigration permission system. Thus immigration must get lots of constant attention, forever, so it may remain totally un-corrupted and so Ishtar stays dead.

3/ We shall give no credence to the rulings of the corrupt bureaucracy that allowed so many illegals to come to our nation. This was not the will of our people. This was the will of a foreign parasite, a desperate, corrupting, infiltrating, use any trick parasite.

4/ Ishtar's blood is acid and the stake through its heart will not last. The stake must be constantly watched and renewed.

5/ The shared group spirit of Ishtar seems immortal. Thus we may have to watch the stake forever.

NR'151. CITIZENS COME BEFORE IMMIGRANTS

1/ We shall learn from our democratic predecessors in Athens. We shall note how the Athenians regretted granting full rights to immigrants. We shall note how they eventually moved to limit the rights of the immigrants they once welcomed. We shall note how this happened just before our democratic predecessors were killed-out by combination of plague, reliance on imports, immigrant infiltrators, invasion, and an alliance between Persia and the Spartan military dictatorship. We shall also realize that both Sparta and Persia were both archetypical puppet states.

2/ The equality and constitutional protections of our nation shall not necessarily apply to non-citizens. Those who were born citizens shall have more rights than even immigrant citizens. No government aid, benefits money, or government free stuff shall ever be given on those who are in our country illegally, except for emergency life or death care.

3/ This democracy shall be run primarily by and for the native citizens of this land, and the rights of all others shall be secondary. All native citizens that have grown up in our land shall be equally protected and regulated by government, and no race, and neither males nor females shall be given preferential or disadvantaged treatment by government or by law. However, the Senate may elect to discriminate against the people from other nations based on their skills, intelligence, usefulness, religion, beliefs, national origin, gender, age, and potential hazardousness to the native citizens of this nation, among other metrics.

4/ Any nation, race or religion with a large contingent that continue to do any of the following shall have no right to enter or stay in our land of the free:

- a/ They oppose our nation, or our dear freedoms.
- b/ They engage in secret struggles or jihads.
- c/ They attempts to manipulate people minds.
- d/ They condones slavery including sex slavery.

5/ Non-citizens may have their visas and immigration status canceled for the actions of their associates and family members.

6/ When non-citizens come out publicly in favor of our nation's enemies, they may be deported only on that fact alone.

NR'152. VERIFICATION OF CITIZENSHIP

1/ As long as there is human privation in the world, and as long as freedom has its enemies, the very proposition of freedom is potentially endangered by infiltration, illegal immigration, and cloned identities. It is unfortunate, but in order to preserve our freedom and security as a nation, there must be some minor compromises with regard to our individual freedoms, to make sure that a foreign invasion or overthrow force is not secretly being built within our nation.

2/ It is folly to rely exclusively on external border controls. Therefore, all citizens and visitors shall be required to register and use a national biometric ID verification system. The national ID system shall be required whenever voting in Government or private sector elections, and whenever obtaining government services, financial services, employment, housing, using a county recorder, paying taxes, flying, crossing the nation's external borders, or creating a binding contract in many sections of the economy. It may also be required when moving between regions of the nation.

3/ Everyone entering and leaving the nation shall have their biometrics checked and perhaps recorded by the immigration police. The term biometrics may be expanded to include head photographs, palm prints, iris scans, voice recordings, weight, height, face recognition systems and other similar non-invasive scans of our bodies.

4/ Police may stop anyone in the nation for a single brief small talk question, to see if they speak the national language like a native citizen when they reply. Those who can't reply like a native citizen may be asked for proof of immigration status.

5/ Immigration police may regularly, randomly, and without notice visit and inspect all public places, and workplaces in the nation searching for illegal aliens. Immigration police shall however, not have the right to enter residences to look for illegals, except by court order.

6/ Those stopped for an immigration check shall only be questioned about immigration matters, unless indisputable evidence of a felony is discovered in that stop.

7/ Except to prevent infiltration, and illegal immigration, government shall not racially profile the people.

8/ Everyone arrested as an illegal alien shall be given monitored 24-hour unlimited access to domestic calling, emailing and public records while in custody and awaiting trial. This is so citizens and legal immigrants will have every opportunity to

identify themselves as a legal before being charged with illegal immigration.

9/ There shall be no right to release pending trial for illegal immigrants.

10/ Those convicted of illegal immigration shall spend no less than 3 years working 60-hour weeks at an immigration work camp before being deported. However, if they can provide video evidence to convict at least one of their illegal employers, even an odd-job employer, they shall be released immediately upon the conviction of their illegal employer. Those twice convicted of illegal immigration shall spend no less than 12 years working 60-hour weeks at an immigration work camp before being deported.

11/ Unskilled foreigners shall generally be required to leave our nation and not come back upon a conviction for a serious misdemeanor, regardless of their family ties in our nation. Skilled foreigners with family ties shall be required to leave and not come back upon a conviction for a felony, or any violent crime or threat of violence.

12/ The following shall be felonies, and violators shall spend up to 20-years in an immigration work camp:

a/ Those who conduct and bring illegal immigrants into this nation.

b/ Those who produce, distribute, or sell forged or cloned immigration or citizenship documents.

c/ Those who return to this nation illegally after being deported.

13/ The following shall be a felony and violators shall spend up to 10-years in an immigration work camp:

a/ Those who use forged or altered immigration documents.

b/ Those who use someone else's passport or immigration documents.

c/ Those who knowingly harbor or give sanctuary to an illegal immigrant. Here, the penalties shall apply to each illegal immigrant.

d/ Those who employ or house illegal immigrants. Here, the penalty shall apply to each illegal immigrant.

14/ There shall be no parole or early release for immigration violations. All illegal immigrants shall be deported immediately upon release from incarceration or work camp.

15/ For illegal immigrants already in the nation on mustering day, if they register within 30 days with the nations' immigration department, they shall suffer no penalty arising from their illegal immigration for one year, provided they comply with

the subsequent directives of government, and live at the addresses they declare to government.

16/ Every person entering or leaving our nation may be:

a/ Photographed and recorded by the immigration department.

b/ Required to give fingerprints for scanning.

c/ Required to go through a metal detector, or body scanner.

d/ Required to submit an iris scan.

e/ Required to answer the questions of the immigration and customs people.

17/ All immigrants must share all their online IDs, user names, real addresses, online addresses, and phone numbers with INS. Then INS shall determine all nexuses of foreign communication for all immigrants. The criminal, court records, and recorder records of all immigrants shall be checked in both their claimed nation of origin, and all nexuses of foreign communication.

18/ If an immigrant owns land in another nation, that fact must be declared to our recorder system.

NR'153. ILLEGAL IMMIGRATION

1/ Illegal aliens shall neither create, nor be the subject of a binding contract or insurance policy.

2/ Employment of illegal aliens shall be understood to include all part-time and odd-job employment. It shall also include all forms of landscaping work, agricultural work, housekeeping work, construction work, restaurant work, building maintenance work, factory work, independent contractors, commission salesmen, and even the lending of things for sale.

3/ If an illegal alien:

a/ Is injured at work.

b/ Causes fines, or third party liability while working or while coming from employment.

c/ Causes third party liability from a vehicle accident while employed or coming from employment.

d/ Needs medical care, or causes someone else to need medical care.

x/ Then all liability shall fall back upon the employer of the illegal alien if employment can be proven.

4/ It shall be considered tax evasion to pay money or valuables to workers in this nation without doing all of the following:

a/ Registering the person as a worker with government.

b/ Pre-paying the repatriation deposit for that worker, if any.

c/ Pre-paying the foreign worker tax, if any.

d/ Paying the worker's remuneration into the worker's cash card account administered that is

tracked by the immigration department. There shall be no privacy with regard to these worker cash card accounts of non-citizens and the immigration department and police may examine them without a warrant.

5/ Driving licenses, vehicle registration and vehicle ownership rights shall only be available to citizens, and to legal foreigners for the length of their permission to stay. In order for a foreign driver's license to be valid, it must be accompanied by valid documentation showing the person's right to be in our nation. Without this documentation, the foreign driver's license shall not be valid and the driver shall be guilty of driving without a license.

6/ All police and government officials shall be required to defend the nation from illegal migration. Immigration officers and police shall lose their jobs if they don't arrest all illegal immigrants they knowingly come across.

7/ Government shall maintain an anonymous illegal immigration tip hotline and offer monetary rewards for information leading to the apprehension of illegal aliens.

8/ Non-citizens shall not be allowed to recover more through our nation's adjudication system than they would get in their home country.

9/ The people shall view illegal aliens as a national security and crime threat. It shall be a matter of civic duty and national security to make sure that all immigrants are approved by our nation's new and relatively incorruptible democracy.

10/ Those who overstay a tourist visa by a short time shall pay a fine of one day's wages per day they are late up to 15 days. Those who were too ill to travel may be granted an extension after the fact if they have a documented reason. Those who overstay greatly may be sent to work camp.

11/ Government shall limit the financial accounts of all non-citizens. These accounts shall be suspended domestically at the end of the day the person is supposed to leave our nation.

12/ Non-citizens in possession of firearms in public get 20 years in work camp. If at their residence the penalty shall be 10 years. Non-citizens in possession of explosives, bio-toxins, weapon chemicals, or nuclear material for which there is no credible explanation shall be subject to the death penalty under torturous punishment. Non-citizens participating in mob-violence or mob confrontations shall be subject to 20-years in prison and deportation.

13/ There will no longer be any question of whether someone is legal or not. Each county recorder shall

guarantee identity, photograph, immigration status, conviction history, judgement history, employment history, educational history, address history, and work qualifications.

14/ Illegal immigrants that cannot provide a nation of origin and identity shall be presumed to be fugitives from the law and shall be subject to eternal work camp until they can provide both identity and citizenship.

15/ following groups may be deported at the option of the Senate, even if the previous government has granted them citizenship:

a/ Immigrants that have not both made a reasonable living for themselves and paid a reasonable amount of taxes on that living.

b/ Immigrants with a substantial amount of wealth that is beyond what could be afforded by the income they reported on their tax filings.

c/ Immigrants that have received government aid that is greater than the taxes they have paid.

d/ Immigrants that have outstanding arrest warrants against them for felony crimes.

e/ Immigrants that have criminal convictions, or were arrested many times, or who are homeless.

f/ Immigrants that were granted refuge or asylum, these conditions now being considered temporary.

NR'154. WE OWE THEM NOTHING

1/ The massive influx of immigrants to our nation is obviously contrary to the will of the people and the result of corruption. It may therefore be judged fraudulently obtained and voidable at the election of the Senate. And just as stolen or fraudulently obtained property may be demanded from its rightful owner after decades, so too may stolen or fraudulently obtained immigration status.

24/ Our nation shall have no obligation to those previously granted citizenship if they obtained citizenship based on lies, matrix illusions, or corruption.

3/ Our nation shall have no obligation to those previously granted citizenship if they cannot use the language of our nation above the reasonable levels set by the Senate.

4/ No grant of citizenship, immigration status, or immigration amnesty shall ever be completely final.

5/ If any Main-Senate sluice elects that any individual immigrants are a threat to our people, or a potential problem for them, it may with a simple majority cancel that person's immigration status or immigration amnesty. Also, the Over-Senate may with a 2/3 overmajority cancel the immigration status or immigration amnesty of any national or

subnational immigrant group at once.

6/ All immigration status and citizenship ever granted to living people shall be reconsidered by a Sub-Senate jury of 5 in light of the Senate's new immigration standards. This jury as always shall be randomly assigned for each case

7/ Only native citizens over age 40 and under age 60 may judge in matters of immigration.

NR'155. RACISM, INEQUALITY, & DISCRIMINATION

1/ There shall be no requirement of equal treatment for non-citizens. Also, non-citizens are not allowed to make claims of discrimination based on being foreign, or being a non-citizen.

2/ All immigrants shall be expected to adopt our permissive and tolerant culture. Immigrants who are criminally intolerant of our tolerance shall be deported, even if they came 80-years earlier.

3/ All immigration involves race. When immigration doesn't involve race, it is called re-unification, as with Vietnam, Germany, and soon the Koreans.

4/ All immigration involves discrimination. As long as the world is full of under-developed and under-educated hordes that will burden more than benefit our nation, we must discriminate in matters of immigration. As long as immigration demand exceeds immigration supply, we must discriminate in matters of immigration. As long as freedom has its enemies, we must discriminate in matters of immigration.

5/ Because national origin, race, ethnicity, and religion are such a vitally important aspects of immigration, we much be able to freely talk about them in the context of immigration. Therefore, no law, or private rule in our nation shall limit the right of the people to discuss national origin, race, ethnicity, or religion in the context of immigration, and in a way that does not threaten or call for extrajudicial violence.

6/ We the people of this nation shall be allowed to establish ideological, educational, economic, and country of origin preferences for the immigrants that we will allow to come to our nation and become part of our national family in the next generation. We shall also be allowed to select which immigrants that we want.

7/ The Over-Senate shall decide by sophoscite which nations, regions and belief systems it will honor and befriend, which it shall remain neutral about, and which it shall dishonor and scorn. Our land of the free shall be prohibited from honoring or remaining neutral about nations and belief systems

that permit, fund, condone, or sponsor totalitarian government, monarchy, slavery, terrorism, harem-slavery, child marriage, forced marriage, genital mutilation, or any Ishtar-supporting practices.

8/ Our nation shall push for women's rights worldwide — so they are more equal to men's rights. The Senate may disfavor foreign nations that discriminate in extreme ways against their female population.

9/ We call our form of government Isocratic because all native citizens are treated equally under the laws, government, and institutions we establish for ourselves. However, our isocracy shall not fully extend to all social, personal, and family matters, or matters of family businesses. It also shall not apply to matters of hiring at small enterprises of 10 or fewer non-family people working at any one time.

10/ The initial period of rapid and easy progress towards ending racial discrimination is over in our nation. After some 50-years, all the big and easy benefits of affirmative action have already happened. Therefore, all systems of racial, ethnic, disability and sexual orientation preference or quota, stated or unstated shall be abolished and prohibited in our nation. This shall be so for government, for all fictional citizens, and for all institutions (including all schools) in the land. All must treat all citizen equally regardless of race.

11/ Over-representation or under-representation of any group shall no longer be seen as evidence of racism.

12/ In our nation, we highly value isocracy, or the fundamental legal equality of man. It is our main argument against both a king's rights over his subjects, and one race's rights over another. It is also our main argument against slavery, and a basis for our economic system. Thus the fundamental equality of man is a foundational and hugely important thing in our system. Nonetheless, this right of isocracy is still less important than our all-important right to free speech. We must all be able to discuss the truth, and to know what everyone thinks, or we will have a blind and misinformed democracy, and equality will not matter much then. In other words, freedom of speech is critically important to a democracy, while the honor of its citizens matters much less in comparison.

Therefore, citizens shall be free to hurl the worst insults and obscenities at one another, and they shall not be penalized in any way for it unless they are threatening or calling for extra-judicial violence.

13/ There shall be no reparations for slavery because the US civil war ended over 150-years ago.

14/ In our nation of immigrants, we as a nation actively try to de-emphasize racial differences. So to that end, those who are 1/2 or 1/4 of any race shall not get to call themselves as from that race, they may only say that they are 1/2 or 1/4 or whatever amount it is of whatever race. Those who are less than 1/4 of any race cannot say that are part of that race.

15/ Nobody shall be considered to be legally of any particular national or racial descent unless they are at least 30% of that descent by genetic testing. Thus people who are 1/4 something have no standing.

16/ In order to qualify for special treatment as a Native American, one must show that one is at least 30% of Indian tribes from our nation's territory. This however does not include Hispanic, European, African, Neo-Asian or Mexican Indian blood.

17/ All ethnic and religious groups shall be seen by our democracy as the opposite of brotherhood, and there shall be no government money spent on ethnic or religious community centers for this reason. All existing government funded ethnic and religious community centers shall be shut down forthwith, and the property sold-off by the counties with the funds going to the national government. This paragraph explicitly includes Native Americans, African-Americans, Hispanic-Americans, and all other ethnic groups in America.

18/ Unprovoked racial intimidation shall be a crime for everyone age 13 and older. However, merely saying some insulting racist words shall not be a punishable crime. It shall however remain a technical crime, and as such all recordings of words of racial hatred shall be public domain.

19/ Those who harm others because of racist words directed at them shall get 20% off on sentences of less than 1 years, and 10% off on longer sentences.

20/ Those convicted of racism-related crimes shall generally have to serve their sentences with a higher than normal percentage of people of the race(s) they are having problems with.

21/ There shall be no race-based gangs in prisons or work camps, and all prisoners in such gangs shall have their sentences increased.

22/ In general, all races shall be treated equally and all racial crimes and violence shall be treated equally regardless of what races are affected.

23/ When people say awful racist things to other people that get recorded, those awful racist things shall be treated as a crime with no penalty. But because they are a crime, the recording shall be in the public domain.

24/ The people should vote against Senate

candidates that talk too much about race, just like Senate candidates that talk too much about their opponents. In both cases our democracy's life-force is sacrificed on the altar of election victory.

25/ All statues and monuments and name of all heroes of the Confederacy shall be removed from all public property in our nation. All of these men fought for slavery, and we in the land of the free find their agenda of slavery incompatible with our agenda of universal freedom.

26/ There shall be no segregation, or different treatment, or separate but equal facilities. There shall be no institutions reserved for some races, or institutions that exclude some races.

27/ Equal protection under the law shall not mean special accommodations for the weak or disabled, and these shall have no greater rights than everyone else. The benefit being microscopic in comparison to the cost, government shall not require the people to make any provision for the disabled minority in their buildings and businesses. All existing facilities for the disabled minority on private property may be removed without government permission unless doing so involves structural modifications.

28/ People in wheelchairs shall be expected to use a personal vehicle to get around. No provision shall be made for wheelchairs in the public transit system. No braille bumps shall be provided on the floor of any public space. All transit stations shall however have electronic location RFID beacons for the visually impaired, and reasonable grappling devices and ramps for wheeled droids and baby prams.

29/ Government shall not protect the people from workplace discrimination based on age or clear disability that requires special accommodations be made for them.

30/ Tobacco users shall not be considered a protected group, and they may be discriminated against by both business and government. Employers may require that tobacco users work longer hours to make up for their tobacco breaks if they take tobacco breaks.

NR'156. NON-CITIZEN RIGHTS & RESPONSIBILITIES

1/ We shall err on the side of fastidiousness with regard to protecting citizen rights. But in order to do this in every way possible, we must also err in the opposite direction with regard non-citizen rights. Concession is a modality, and we shall never even start down the path of concession with any immigrant group. They come to us, as individuals,

and they adopt our tolerant and totally peaceful ways as individuals.

2/ Immigrants and especially Exhods shall not be free to dress in their own particular way. They must dress like the people of our nation, and they can't use tell colors, bandanas, veils, headscarves, beards, haji caps, Yarmulkes, accessories, or the like to distinguish themselves as: with the old country. Such clothing preserves a separate immigrant community identity and thus slows the assimilation process. We want to go in the opposite direction and speed up assimilation. Immigrant identities shall be tolerated by our nation, but discouraged wherever practical. And here with clothing, we have a place where we can easily and powerfully discourage separate immigrant identities. This also applies to weddings and other ceremonies. In general all immigrants are expected to assimilate into our culture and reject their birth culture, especially when these is opposed to our ways, our wealth, and our nation's geopolitical power.

3/ We hold our rights and freedoms so dearly that we will never give them up for any group of immigrants, visitors, or foreigners. No foreigners shall ever make any demands at all that we do anything to accommodate their ways or their religious or cultural sensibilities. Immigrants making such demands may have their immigration status canceled.

4/ All immigrants shall be seen as coming to our nation as humble suppliants, and all shall be expected to adapt to our way of life. Our people shall not be expected to alter their way of life in the slightest way to meet the cultural needs of the people we have graciously allowed to come to our land.

5/ We, the citizens of this nation shall never suffer any loss of our dear rights, or liberties, because they are in conflict with the customs of some immigrant group. If the immigrant group cannot stand our customs, let them go back.

6/ Immigrants from nations with tyrannical and slavish cultures shall be expected to give up all of their old tyrannical and slavish ways and sever all ties with their former institutions when they come to our nation, our land of the free. This shall include wearing slave's clothing, eating special slave's food, paying slave's taxes, and publicly prostrating themselves like slaves.

7/ Those who are not native citizens shall not have the right to vote. The language and cultural barrier causes ignorant voting. Loyalty can also be an

issue. Also, if immigrant votes are allowed to dilute native votes, then people will tolerate less immigration.

8/ Those who are not citizens shall not have the right to:

a/ Assemble, engage in protest, or stand up and be counted in our nation.

b/ Bear arms in our land.

c/ Initiate confrontations or act aggressively with the native citizens of our nation.

d/ Commit a string of minor crimes.

e/ Pretend to be non-immigrants or immigrants from a place that is different than where they actually came from.

f/ Join or support political groups, or parties, or try to shape public opinion in our nation.

g/ Privacy with regard to national security snooping on their communications. All communication by non-citizens and provisional citizens is subject to monitoring by government without a search warrant.

h/ Communicate using undisclosed accounts. All non-citizens and provisional citizens shall be required to register all electronic communication accounts they use in our nation.

i/ Irrevocable immigration amnesty. Our new incorrupt government shall have the right revoke any immigration amnesty ever offered by the corrupt preceding democracy.

j/ Challenge their deportation if they are undocumented, or if they have been in the country for less than 6-years.

k/ Leave our nation and return unless permission to return is granted.

m/ Immigrants that come from, or visit certain troublesome nations may be held to different standards.

9/ If the nation ever institutes compulsory military service:

a/ Immigrants shall be 1.5x as likely to be drafted.

b/ Exhods shall be 2x more likely to be drafted.

c/ Haremi shall be 4x more likely to be drafted.

10/ In war, drafted Exhods and Haremi shall be assigned more dangerous point tasks in military assaults.

11/ The people of our nation shall welcome immigrants into their communities. To do otherwise is have them settle together in pockets hidden away from our people, hidden in places where Ishtar is stronger.

12/ Exhods shall not settle in exclusive old-country communities, or in total make up more than 20% of any community.

13/ If any immigrant group is causing or threatening

terrorism, or uprising, then all members of that group shall suffer whatever rights intrusions we as their host nation elect to impose upon them. Either that or they can go back. Their people may be questioned, searched, monitored, and their movements limited as well. They may be deported, interred indefinitely, and they may also be refused the right to leave our nation if the Over-Senate so judges any of this. Again, the flip-side of all these rights intrusions is that more people will be tolerated in more and better places.

14/ If the Over-Senate declares that this nation is at war with any nation, ethnic group, religion, or clan, then the Over-Senate shall have the right to discriminate against, expel, inter, or incarcerate all provisional citizens and immigrant citizens from that nation, ethnic group, religion, or clan, as well as their minor children. However, this shall not apply to the children of immigrant citizens that are native citizens and over age 21

15/ Immigrants and more particularly Exhods shall be seen as a potential national security threat. For this reason, The Senate shall have broad rights in limiting their conduct, activities, and travels.

16/ Non-citizens shall be expected to stay well within the boundaries of our justice system. The courts may impose 1.5x penalties for visitors and immigrants, 2x penalties for Exhods, and 3x penalties for illegal immigrants. This clause may be multiplicative with regard to other penalty multipliers.

17/ Except for non-citizens confirmed to the Senate, those who are not native citizens shall not be allowed to work in our government in any role that makes any important decisions about the citizens of our nation.

18/ The Senate may require all or some non-citizens to carry a location tracking device such as a cell phone at all times.

19/ Non-citizens shall not be allowed to engage in ambulatory vending or door to door sales, touting, or begging. Non-citizens engaging in these activities shall be deported. Also, it shall be a crime for ambulatory vendors, commercial touts, and beggars to walk up to people — however citizens touting political change shall always be protected and excluded.

NR'157. REFUGEES

1/ If we make it too easy for people to leave their nation and seek refuge in our nation as immigrants, we will not only suffer a flood of cowardly, unpatriotic shirkers as new citizens, but we will also undermine

the will to fight for freedom and liberty worldwide. Our land of the free shall not do this for the cause of freedom in this world. Our actions shall not weaken the resolve of those who would fight for freedom in their home nation.

2/ All fighting age refugees and Exhods between age 17 and 50, except mothers of children under age 13, shall be expected to fight for the cause of freedom in their nation. All shall be expected to eagerly undergo training as an invasion army that may be sent back to fight for democracy in their country. When an invasion force of sufficient strength is assembled, our nation shall transport this army back, placing our own volunteer freedom-fighting advisors and coordinators among them at a ratio of 1:50. Then we will give them military intelligence and provisioning as they do their part in their own nation to spread democracy and freedom. Also, these refugee armies shall generally be armed with fast-rusting sealed arms and short-life ammunition.

3/ In general, we shall give first refuge to children and their mothers, then to the old. We shall give refuge last males between age 17 and 35, and 2nd-to-last refuge to males age 36 to 53, and these fighting age males only if they eagerly sign on to undergo combat training and return to their nation to fight for their cause.

4/ No immigrants or refugees shall be allowed to enter our nation without proper vetting. All immigrants that the previous corrupt democracy allowed to enter our nation either without proper vetting or without any record of proper vetting shall be subject to deportation on this account alone.

5/ Looking back on history, most great influxes of 16 to 50 year-old men entering other nations have been invading armies. As well, most genuine war refugees are women, children and old people. Therefore, no immigrant group coming as mostly young men may call itself as refugee.

NR'158. EXHODS

1/ Exhods are former Muslims, Ishtarians, Haremi, and other Semites undergoing mass relocation from the land of no resources and its inverted agenda. They are also the people who have previously emigrated away from the land of no resources and have been sent back. Exhods, as a type of immigrant, are different from refugees in that refugees are fleeing temporarily and Exhods are relocating forever from a land that should not have because it cannot sustain people.

2/ Exhods shall suffer a life-long loss of their rights

as stated herein. They shall also be required to undergo re-education and pay back the cost of their relocation.

3/ All Exhods must cleave against both Ishtar and Islam.

4/ No Exhods shall be allowed to enter our land until we are reasonably sure that:

a/ They as an individual have cleaved against both Ishtar and Islam.

b/ Their entire nation has cleaved against Islam and Ishtar to the man.

c/ Their nation has instituted a standard 1-in-25,000 broad democracy.

d/ That all harems in their nation have been shut down.

e/ That all Haremi in their nation have been exposed.

5/ This nation shall get 43 hours of diligent labor a month (10 hours per 7-day week) from all Exhods between 18 and 60 years old until 2034.06.19, unless the UM elects to extend the term or expand number of hours due to terrorism, or warfare, or war mongering. This "discharging tax" can be paid either in the Exhod's regular wages, or in labor to the public if they can't find a job. But this Exhod discharging tax is due first, before the Exhods can collect any other wages or other monies in the adopting nation. Exhods that don't pay their Exhod discharging tax shall not be allowed to remain our nation. Those found after the fact to have evaded this regulation or underpaid their discharging tax may be sent back. All Exhods shall perform their public service with the same alacrity and hard work that was previously expected of service to Ishtar and the parasite's cause.

6/ Children born to pre-move exhods more than 7 months after revelation day, and their genetic parents shall get exodus priority in last place for normal people.

7/ All pregnant women intending to go through the exodus process must have an abortion if they are less than 2-month's pregnant at revelation day.

8/ Exhods shall not hold or spend cash, precious metals, or other fungibles, and all money paid and spent by Exhods for the remainder of their life shall be spent electronically through government monitored accounts.

9/ All Exhods may declare one mate upon arrival. Aside from this one person, they shall not have children with any of their kind. All Muslims, all people from PU nations, all Semitic people, all Haremi, and all undocumented people shall all be considered to be of one kind. Those who have a

child with one of their own shall have their immigration status cancelled and they must go back for resettlement in another nation. Those elected to our nation's Senate shall be seen as native citizens and shall be excluded from this section.

10/ Exhods and refugees can not leave our nation or their status may be cancelled.

11/ All Exhods must get pre-approval for their settlement address, and all subsequent changes of address.

12/ Exhods may be temporarily housed in evacuated flood zone communities and evacuated areas as determined by the Senate.

13/ Exhods shall not be allowed to work-in, live-in or live near a city with over a 500,000 people.

14/ Exhod families shall not be allowed to settle together in communities, or work together, but must scatter throughout the nation and stay away from each other, unless they are part of the same nuclear family. This however shall not apply in new nations where the people of their state may settle in any sized groups up to 3% of the population.

15/ All Exhod children must attend public schools with the children of our nation. There shall be no religious or private schools for Exhod children.

There shall be no school instruction of the old language to Exhod children. There shall be no home study for Exhod children except where the child is unquestionably disabled.

16/ For 10 years after they are adopted by a Centi-Nome, Exhods shall not travel around the nation, but must remain in the county they settled in. This term may be extended or shortened by the Senate. However, Exhods shall not be permitted to lobby government for anything, including an early release here.

17/ Exhods shall have no right to demand anything, and no right to lobby government.

18/ Exhods shall not have the right to live where they choose but shall be adopted by a Nome to live in.

19/ Exhods shall have no right to sponsor, or bring in other Exhods, even family members. If genetically maternal siblings, genetic children, or genetic parents are later admitted, and the adopting Centi-Nome permits, these may be allowed to settle in the same household.

20/ Exhods shall not be allowed to cover their heads except when it is below 10°C, and then they must use a one of our caps and not a scarf.

21/ Except for tertiary school graduates, all Exhods shall obey a one child policy (not one child plus). Exhod women that already have a child, or show

signs of having had a child upon a medical examination shall be prohibited from having more children. All excess pregnancies shall be aborted or the family may be sent back. Exhod women that can pass the Senate's tertiary school verification test in a serious subject, in English, shall be allowed to have up to 4-children.

22/ All Exhod women under age 30 that become pregnant must have an abortion if they want to stay.

23/ People living in immigration camps shall not breed, and must use long-term birth control if they are not living in a same sex environment. If a woman becomes pregnant in violation of this rule, she must have an abortion within the allowed abortion time period if she wants to stay. Otherwise she will be considered as having given up her immigration status,

24/ No Exhod female shall be permitted to have a child in our land until she completes secondary school in our nation, or passes the secondary school equivalency exam in our nation, and in its national language of English. This rule shall also apply to all woman who were ever illegal aliens in our land.

25/ Exhods shall not have children until they are economically self-sufficient, and are living without any government aid for more than one year.

26/ No Exhods shall have any children until 8-years after Constitution Day. This time period may be extended by up to 8-hours for each Arab terrorism death that occurs outside of PU territory.

27/ No more than 20% of the people in any enterprise shall be Exhods. This shall not apply to enterprises with 5 or fewer people.

28/ Exhods shall keep and possess no physical property and no wealth from their old nation for as long as they live. They may keep electronic files, but there shall be no physical property kept. This shall include wedding rings and heirlooms.

29/ All Exhod owned businesses shall include the suffix letters Ex.

30/ Exhods shall not be issued passports and shall not allowed to leave the country until after the PU has been fully exhoded. If they do leave the country early, then they may not come back and shall be deported instead.

31/ The Senate shall prepare automated learning materials so that Exhods may use their time constructively and prepare for their new life before they are relocated. All Exhods must however spend at least 90 days in an immigration camp to come to our nation. We shall consider our immigration camps an initiation rite, so immigrants appreciate being allowed to come to our nation.

32/ When a member of an Exhod family commits a felony, all members of that Exhod's family is subject to deportation upon a simple majority of a single vote of the adoptive Centi-Nome.

33/ All Exhods are subject to deportation upon a 2/3 overmajority vote of their adoptive Centi-Nome.

34/ Those Exhods confirmed to the Senate in our land, and those elected as full Ubiqs in our land for making a significant contribution to our society shall (like all immigrants) be considered as native citizens and they shall thereupon be exempt from the Exhod discharging tax, as well as the Exhod child limits. It should be noted that this policy of Senate exemption can only function and judge properly where the foreigners are spread-out among our population. This practice cannot work properly where immigrants are allowed to live in mono-culture get-out communities.

35/ All Exhods shall pass a culture test, and employability test prior to admission. All Exhods will be expected to behave just like the people of our society after their extensive training.

36/ There shall be a lower bar for infractions among exhods and higher penalties for violations. These things are necessary to move more people.

NR'159. IMMIGRATION RULES

1/ Except during epidemics that are killing more than 5% of the people they infect overall, or more than 2% of the healthy population under age 60, there shall be no internal visas or permissions of any sort for citizens to move from one part of the nation to another, or to leave the nation. The foregoing includes both government and non-government permissions. The foregoing however shall not apply to citizens that are military draftees, active duty military, those released from jail on bail, and those awaiting trial for, or convicted of a felony. Non-citizens may also be required to remain within one or more counties as a condition of their visa status, unless they wish to leave our nation.

2/ The national government shall be the exclusive arbiter of who may travel and who may not. Native citizens shall only be denied the right to travel after a properly noticed hearing. No transport provider shall have the right to deny passage to citizens except where that person is on the national government's no-fly, or no-transport list. Also, when citizens are away from home and come to be on the national no-transport list, they shall be allowed to return home.

3/ We shall be one nation, with one national language. All domestic government services shall be presented-in and take place in English or later

Euemi. Except for the study of foreign languages by proficient speakers of English, all of the nation's public schools and fictional citizens shall use English exclusively. All news reading, newspapers and news magazines shall only be in the national language of English. Later, the Senate may allow Euemi as a second language. Later still, when the world switches to Euemi, we may phase out English.

4/ If the right to vote is later granted to immigrants, then we should not have illiterate immigrants voting in our elections. Then we should say that immigrants shall not be allowed to vote in unless they have either graduated from secondary school in our nation, or passed the Sub-Senate's standard secondary school equivalency exam in the language of our nation, English.

5/ All applicants for work visas and immigration visas shall be merit-tested for their problem-solving skills, general skills, and reading skills in English. Those tested for an immigration visa shall also be tested on the laws, cultural norms and free-market economics of our nation. The right to immigrate to our land of the free shall be prioritized according to merit test score. A low score shall be grounds for denial of application.

6/ All immigrants must be able to understand and use 90% of the Senate's 15,000-word immigrant vocabulary before being allowed to commence the immigration process.

7/ All immigrants and all new citizens shall be required to have a unique 3-word, name that is spelled phonetically in English and pronounceable to most citizens of our nation, a name that cannot be changed or omitted even in marriage. This name cannot have more than 12 syllables. All immigrants must use their full name whereas citizens may omit their middle names.

8/ All children of all immigrants shall be required to take their mother's surname with no mention of the father's surname name.

9/ No child, or business of any immigrant shall have an Arabic, Middle Eastern, Latin, or ancient Greek name, or a name with a suggestive meaning to Ishtarians.

10/ The oath of immigration shall be: "I beg to immigrate to America, the land of the free. I am a humble suppliant begging to join the land of the free, to be good enough to join. I pledge to help defend my new nation, and my new freedoms. I pledge never to take up arms against my new nation, or help its enemies. I pledge that I shall always be the enemy of tyranny, monarchy, oligarchy, oppressive government, slavery, and slave's religions." This

shall be video recorded and ascribed to the speaker. Then it is to be posted on the public's forever video archive. The Senate may elect to include other things, such as national and religious renouncements in the oath of immigration.

11/ All government identification in this nation shall show citizenship, birth nationality and immigration status.

12/ All passports used in crossing this nation's borders shall state the citizenship and birth nationality of the person. If the person is not a native citizen, then all prior citizenships shall be listed on the passport.

13/ The nationality of a person never changes because the word nationality means the place of their birth. The citizenship remains identical to the nationality unless the person immigrates to another nation. The term citizenship shall mean all past nations a person was a citizen of, the most recent going first.

14/ All passports must list all of each person's prior citizenships, or say no prior citizenships. Our government and our immigration officials shall use the most restrictive nationality of each foreign person coming to our nation.

15/ Those people crossing this nation's borders using a false name, or a forged passport, or in the future failing to disclose all their nationalities and all citizenships face up to 10-years in prison for immigration fraud.

16/ When people change citizenship, their citizenship shall be hyphenated with their earliest citizenship coming first. It shall be the crime of immigration fraud for non-citizens to lie about their nationality, or omit one of their nationalities even in social and non-official circumstances.

17/ This nation shall not allow dual citizenship for its native citizens, immigrant citizens and visitors. Provisional citizens should maintain their old citizenship until they become immigrant citizens. Everyone shall have 10-days to disavow all other citizenship when they become immigrant citizens of our nation.

18/ Those who have changed citizenship once before shall not be allowed to become citizens of our nation.

19/ When foreigners that have changed their nationality come to this nation, government officials shall use all nationalities in determining their right to visit and stay in our nation. Also, the immigration officials of this nation may ignore the passport of any non-citizen and use their apparent country or region of birth. Those who have an Arabic, or Turkic accent

shall be regarded as from the PU, or from the one nation of Islam regardless of what passport they are using.

20/ All immigrants living in this nation, regardless of their arrival date, shall be required to prove that they actually speak the language of their reputed home country like a native speaker of that language, unless they were small children when they arrived. Those that cannot do this shall be presumed to be Exhods and to have received their immigration or citizenship status based on service to the cause of Ishtar.

21/ If low-skilled foreign workers are admitted to our nation, it shall only be on a non-immigrant basis. Their employers shall post adequate bond to assure the departure of these workers

22/ All foreign visitors shall be turned off from the financial and vehicle licensing system, on the day after their visa expires. They will have no ability to pay for things, no driving license, no ability to rent a room, no ability to fly. There will also be fines for failing to leave, unless there is a medical reason.

23/ Those who employ foreign workers inside our nation, and not in a foreign worker zone — these employers shall pay an amount that is up to 33% of the average national wage as a tax. This is so that poor Americans will have an easier time getting good jobs.

24/ Foreign workers shall be allowed to work as much as 12 hours a day, every day, if they wish.

25/ To prevent border-zone get-outs forming on our nation's borders, low-skilled foreign workers shall not be permitted to enter our nation's land borders more often than once per teneth. Also, no low-skilled foreign workers and factory shipments shall enter our nation unless they arrived on a sealed and monitored non-stop boat, train, or airplane from a place more than 210 km from our nation's borders. Every person and every vehicle crossing into our nation shall each pay a border crossing fee of 3-hours pay (as always, this is the average pay in our nation among our citizens). As this is more than enough money to pay for immigration officers, the crossings must be run so there is never more than 5-minutes wait to reach an officer.

26/ Regarding public assistance, immigrant citizens may only get 120 days of it. If these people become destitute for any reason at all, they can move to the immigration camp dorms where they may live free of charge for up to a year. After a year, if they are unable to make a living in our nation, they must either go back or be deported. Except for this, and Senate sireage benefits, government shall not give

any non-emergency benefits to immigrant-citizens or non-citizens. When non-citizens bear Senate sires without Senate approval, they shall be entitled to no benefits.

27/ The Senate shall determine how long each existing immigrant has lived in our nation on public assistance under the old system, the total lifetime benefits received from government, total income claimed, and total taxes paid. Then the Senate shall take appropriate action to rid our nation of the immigrants that have given the least and taken the most.

28/ Only native citizens shall be allowed to sponsor immigrants and visitors. Immigrants and visitors shall have no right to sponsor other immigrants and visitors. Those who obtain immigration status through marriage shall not be allowed to keep their immigration status if the couple does not live together for at least 3,650 days.

29/ With a 60% over-majority, the Sub-Senate shall be free to bar entry to this nation for any non-citizen groups, nationality group, clans, political group, or language groups it elects to.

30/ Except in genuine emergencies, the Senate and people shall not provide government healthcare benefits to non-citizens. There shall be mandatory emergency medical insurance for all non-citizens visiting this nation. This fee shall vary by the age of the visitor the duration of the visit, as well as the nature of the visit.

31/ All immigrants shall be health screened before being allowed to achieve any immigration status. Immigrants with pre-existing conditions, and immigrants who come after age 30 may suffer special healthcare related restrictions.

32/ In order to reduce the very real potential for corruption of the immigration process through intimidation, bribery or other forms of corruption, the immigration decisions shall be made by two Senate juries. First a Senate immigration jury of 5 (randomly drawn as always) shall decide on the right to begin the immigration process for each applicant. For this first decision, the faces, voices, names and identities and decisions/votes of case workers and Senator Jurors deciding on immigration matters shall not be shown to those they judge because this might lead to corruption. For all immigration interviews, all immigrants shall face video cameras and answer the questions posed by the interviewers that may be in another location. After this, the second immigration decision shall be made by the adopting Centi-Nomes and Nomes.

33/ We shall consider it vitally important to our battle

with Ishtar, that no part of the immigration process be corrupted. New lives in the heaven of our land are perhaps the most valuable thing that Ishtar sells.

34/ Unelected appointees may grant permission to temporarily visit this nation. However, both citizenship, and permission to start on the road to citizenship shall only be decided by an anonymous Senate jury of no less than five. There shall be no right to appeal the decision of a Senate jury in immigration matters. Excepts for Exhods, nobody shall apply for immigration more often than once per 5-years.

35/ Those affiliated with our nation's enemies as declared by the Senate, may be forever blacklisted from entering our nation.

36/ Lotteries being so corruptible, there shall be no immigration lottery or random selection of immigrants. All existing immigration lottery winners shall be investigated. Those found guilty of corrupting other systems or working for Ishtar may be deported for the reasonable suspicion of having corrupted the immigration lottery system of the previous government.

37/ The Senate may limit immigration from certain nations, but it shall never have quotas or slots to fill.

38/ The Over-Senate may halt immigration and visitors from any nation for any reason. The Over-Senate shall halt immigration and visitors from nations and empires that sprout terrorists, as well as the places which do not obey the UM's reproductive policy.

39/ There shall be no citizenship requirement for serving in the Sub-Senate or Main-Senate. Immigrants, Exhods and even visitors may be elected. Over-Senators must however, be native citizens.

40/ All full Ubiqs and confirmed senators of our nation get automatic native citizen status. After this, they shall be treated like any other native citizen by the people and laws of our nation.

41/ No law, treaty or agreement concerning immigrants, refugees, or Exhods shall every be binding upon this nation, or require this nation to accept immigrants or refugees from any other nation. The Over-Senate shall always have the right to change its mind about immigration, refuge, and exhodos.

42/ Immigrants shall not be allowed to come to our land and live in isolated alien enclaves mostly among their own people, but in our land. There shall be no ghetto, or get-out communities like Dearborn Michigan. All immigrants must integrate. They must learn our ways and our language, and they must live

among us, or they may be sent back by the Senate. 43/ We shall have no places like Malmo, no residential immigrant enclaves that are closed to outside ethnic groups. If the Over-Senate elects that a place is a Malmo, then that place may be condemned and the immigrants living there may either deported or forced to scatter.

44/ All deportees shall be genetically indexed, face scanned, fingerprinted, and permanently earmarked in a variety of ways indicating the reason for deportation. The immigration courts may also elect to give certain particularly troublesome deportees a blue man cast with colloidal silver.

45/ The Senate may require non-immigrant workers to wear their name, worker ID number, and bar-code on their clothing.

46/ Immigrants that are Middle Eastern, or Muslim, or from a nation of the PU may be judged as Exhods regardless of when they came to this nation.

47/ No judge of the old system of this nation shall have jurisdiction in matters of immigration application, immigration denial, refugee status, Exhod status, or deportation. Only Sub-Senate juries shall judge our nation's critically important immigration decisions.

48/ We shall err on the side of welcoming too many people to come to our land, as all free men should. However, we shall be as selective as we reasonably can about who we allow in.

49/ The situation that makes Ishtar strongest, the situation Ishtar likes most is when we have tight government controls that only it can corrupt. This is the sort of immigration system that Ishtar wants, and we must therefore go in the opposite direction.

50/ The decision to eject a non-citizen may be decided at either the county or national level, and except when the person is working or has worked for the nation's strategic interests, neither shall protect the immigrant from the other.

51/ All news reporting of suspected terrorist acts shall report all nationalities of the suspects once it is known in all reporting. If the Foreign-Sluice declares an act of terrorism as perhaps religiously motivated, the religion shall also be mentioned after the suspect's name.

52/ Nobody applying for immigration to our nation may do so via any intermediary. No lawyers may be used in any matter concerning immigration.

53/ Non-citizens may be taxed at higher rates than citizens. They may also be required to pay taxes that citizens do not have to pay. Citizens shall never pay a higher rate of tax than non-citizens, or be subject to a tax that does not apply to non-citizens.

54/ Government may require same sex camps for some exhod groups.

55/ We must be able to trust those who we welcome to our nation. We must ask ourselves if some group of immigrants is more likely to betray our kindness, and take up arms against us. We must also ask ourselves if some group is already taking up arms against us when we are strong, how will it behave if it ever eventually gets the upper hand?

56/ Exhods and refugees shall not be allowed to inherit more than 2-years wages from citizens under any condition, except where the citizen is a parent, child, sibling, or cohabiting spouse of more than 7-years. Non-Exhod immigrants shall not be allowed to inherit more than 7-years wages from citizens under any condition, except where the citizen is their parent, child, sibling, or cohabiting spouse of more than 7-years.

57/ The ethnic background of all immigrants shall be a matter of public record for both immigrants and the children of immigrants.

58/ A visa gives a visitor to our nation the ability to have a national financial transaction account for a specified time. This system shall automatically enforce the visitor's ability to interact with the economy by switching off at midnight on the day when the visitor's visa expires.

59/ The answer isn't to kick out all the immigrants. The answer is to kick out all the bad ones. The answer is to hold migrants to slightly higher standards (rather than lower standards) so that host societies are more tolerant of their presence. This is why we hold immigrants to higher behavioral standards.

NR'160. IMMIGRATION CAMPS

1/ All immigration to our nation that is not based on mental acumen or skills shall be based on hard work, resolution, or time spent in an immigration camp being trained in our language and ways. All such immigrants shall be given a skill-set to use in earning a living as a free man in the land of the free. To be clear, immigrants that come based on merit do not have to spend time in an immigration camp.

2/ All immigration and Exhod camps shall be located on offshore islands. Thus all refugees will live on offshore island camps until they are ready to go back and fight for freedom in their land. Also, all Exhods will live in a camp until they are ready for Nome adoption.

3/ The Channel Islands shall be for refugees and exhods. San Miguel Island shall be for the single men, the northwest part of Santa Rosa Island shall

be for families, and the northwest tip of Santa Cruz Island shall be for single females. The families get private rooms with 5m per person and shared toilets, the individuals on same-sex islands get an 90cm bunk in a barracks of 50 or more people. Every person on an exhod or refugee island of an age that should have pubic hair that does not have genetic minor offspring with them must stay in a same sex barracks. Other islands and locations may also be used for immigration camps.

4/ It is supposed to be a difficult for low-skilled immigrants and Exhods to move to our land. The system is also supposed to favor people willing to work long overtime hours.

5/ Refugees, and Immigrants of choice may give up and go back where they came from. Exhods shall not be free to go back home, because they must go somewhere else.

6/ All Exhods shall live on island camps until they have completed their re-education, and are adopted by a Nome, and allowed to live in a Centi-Nome dormitory until they find better housing. All Exhods must be adopted by a Nome in order to leave the Exhod camp, and come into our nation.

7/ Refugees and Exhods shall not even have the rights of approved immigrants, let alone citizens. Rioting refugees and Exhods shall be sent back to where they came from.

8/ Many aspects of camp life shall be regimented. All shall get up, eat, go to work/school, and go to bed according to a schedule. The immigration camp routine shall be in place 365 days a year with no account of anyone's religious days or practices.

9/ There shall be no right to privacy at immigration camps. All areas shall be under video monitoring.

10/ The same-sex barracks shall have no less than thirty 90cm wide bunks in a room, with shared bathrooms and kitchen facilities.

11/ Everyone housed in an immigration camp shall go outside for sunrise roll call except when it is raining.

12/ All Exhods shall be fingerprinted, iris scanned, blood sampled and tattooed in exactly the same way the Arabs tattooed their Jewish enemies in Nazi Germany. It shall be a felony to remove this tattoo for the rest of your lives.

13/ Everyone of working age living in an immigration camp must gladly and eagerly work and attend lessons. Those between age 15 and 40 shall do this for at least 70 hours a week. Those 40 to 55 shall do this for at least 56 hours a week. Those 55 to 65 shall do this for at least 49 hours a week.

14/ All Exhods shall complete at least 2,000 hours of

education in the language, customs and manners of our nation before they can leave the island camp. Those over age 15 must also undergo an additional 1,000 hours of skills training if they have no testable skill. Much of this will be completed before preliminary immigration approval is granted.

NR'161. NOME ADOPTION OF IMMIGRANTS

1/ Once the camp immigrants have completed their education modules, they can be adopted by a Nome. Once adopted, they will be allowed to move to their Centi-Nome's adoption dorms, where they will get a bunk, kitchen lockers, and ingredient stamps while they work and save money.

Immigrants will be able to come and go at will from the adoption dorms, except during lights out.

2/ In order to leave the island immigration camp, all immigrants must be adopted by a Nome.

3/ All camp immigrants shall owe their adopting community a debt of fealty for allowing them, and helping them to settle in their community. All shall be grateful to their new neighbors, and all shall be required to work harder than the people welcoming them.

4/ All camp immigrants shall be expected to be grateful to their hosts. This shall however, not include tolerance of crime or injustice by the people of their adopting Nome.

5/ All immigrants shall be supervised by their neighborhood Nome and judged by their adoptive Centi-Nome.

6/ If a majority of the citizens in their Nome elect them as problematic. Their case shall be sent for judgement by the 200 Sub-Senators of their Centi-Nome. These Centi-Nomes shall be permitted to cancel Exhod adoptions for the reasons allowed by the National Senate, and for 20 years after adoption.

7/ Thus immigration management will be extremely granular and a matter decided by the citizens that the Immigrants live among. We do this so that karma is a powerful motivating force for all our Immigrants. We also do this so people in communities will be empowered and thus welcome immigrants as much as possible. This requirement of best behavior from the immigrants shall be seen by all as an insignificant price to pay for a new life.

8/ All camp immigrants shall be expected to eagerly take the jobs their Nome finds them until they can find another approved job on their own. Camp immigrants that get fired or that don't apply themselves to their job may be sent back to the offshore immigration camp for remedial education and conditioning. They also may be sent back where

they came from.

9/ Immigrants shall have lower search protections than citizens. The internal security sluice may elect to have regular searches of immigrant groups and immigrant areas that become a hotbed of trouble.

10/ All immigrant females shall undergo education programs informing them of their rights in our nation.

11/ There shall be no charge for living in any immigration camp or adoption dorm.

12/ No Exhods shall be given money from government. They can only be given free education, Tier-1 healthcare, barracks or dormitory housing, and ingredient stamps.

13/ Centi-Nome adoption dorms shall be same-sex dormitories just like the immigration camps. The men's dorms and the women's dorms shall be at least 3km apart, and neither sex shall enter the other sex's dorm.

14/ Exhod and refugee camps, as well as adoption dorms may be located in tsunami and flood zones.

15/ Until 2035.01.01, all Exhods shall pay their 43-hour monthly tax to their adoptive county, however, this shall not apply in the first 6-months of their adoption. This tax money is intended to offer an incentive for rapid adoption by Centi-Nomes. It is also intended to humble all Exhods, and make them realize that they owe a debt to the people who opt to adopt them as suppliants.

NR'162. CLEAVING

1/ To cleave, all Ishtarrians over age 6 must post defile their holy books and religious buildings as called for by the Senate.

2/ All Ishtarrians must obey curfew if called for by government.

3/ To cleave, all Ishtarrians must come-out as Ishtarrians and must begin rapidly confessing all that they know about Ishtar.

4/ There shall be 10 grades of repentance depending on how fast the Ishtarrians cleave.

5/ The host part of the world shall consider itself lucky if all Ishtarrians cleave immediately, and there is no need to fight a great war.

6/ Ishtarrians that riot may be deported or interred.

7/ Ishtarrians who take up arms against their host nation and its people shall be given the death penalty.

8/ Ishtarrians who commit mass murder and mass terrorism may be given the death penalty under torturous punishment and their community deported.

NR'163. OUR BORDER WITH MEXICO

1/ Our southern border shall have two barrier walls with two sets of checkpoints in two different places separated by a number of miles. The outer porous border checkpoint at our nation's border-line shall be the limit of our nation's territory. The inner hard-border wall will go where it is most convenient and advantageous for us to put our main border security wall. The Border-Wall may be over 100km inside the Border-Line. The difference is to create a maquiladora zone on our side of the border that we will call Mexas.

2/ Mexas shall generally include the currently majority Hispanic areas that are contiguous with the border. This is roughly the old counties of: El Paso TX, Hudspeth TX, Culberson TX, Reeves TX, Jeff Davis TX, Pecos TX, Presidio TX, Brewster TX, Terrell TX, Valverde TX, Edwards TX, Kinney TX, Uvalde TX, Maverick TX, Zavala TX, Frio TX, Dimmit TX, La Salle TX, Webb TX, Duval TX, Jim Wells TX, Neuces TX, Kleberg TX, Zapata TX, Jim Hogg TX, Brooks TX, Kennedy TX, Starr TX, Hidalgo TX, Cameron TX, Hidalgo NM, Luna NM, Dona Ana NM, the Grant NM county panhandle. Santa Cruz AZ, Yuma AZ, and Imperial CA. In San Diego CA, Mexas shall include the area south of the Otay river, then south of Otay lakes road, then south of Honey Springs road, then south of Japatul Lyons Valley Rd, then south of Japatul Valley Rd, then south Highway 8. All of these areas shall be inside the foreign worker zone, but outside the main part of our nation.

3/ Additional immigration checkpoints shall be allowed up in our nation up to 300km from the southern border.

4/ Only pre-approved immigrants living in our nation and citizens shall be allowed to cross overland from Mexas back into the rest of our nation. Everyone else must either fly, or come overland via a sealed carrier from a point more than 200km away from the border.

5/ As we want to eliminate the criminal element from the Mexico side of our border, we shall only give water and electricity to the uses in Mexico that our Senate approves, such as factories and housing for registered workers.

6/ Visas to enter Mexas and work shall be easily to obtain for people from many parts of the world. However, no visas shall be granted where the nation has a homicide rate is over 25 per 100,000 annually, or a nation that gets caught lying about their homicide rate. These nations are just too violent for

us to allow. Over time, the Senate shall lower and lower the allowable homicide rate.

7/ In the Mexas maquiladora zone, our nation's employers can hire foreign workers that are not allowed to cross the hard inside southern border and enter the main part of our nation. Thus we can have much more relaxed worker visa requirements in Mexas. Also, the workers need not come from from the Americas.

8/ Foreign workers in the border-zone shall have fewer worker's rights than our citizens in the main part of our nation. Foreign workers in the border-zone shall not be allowed to own realty and must eventually go back home. And if they are injured, they get no more disability than they would back home.

9/ Testing new citizens as workers in Mexas shall be thought a good way to find quality new Americans. It will also help assure a quality workforce in both Mexas and in our nation. It will also greatly help the economy of all Latin America.

10/ Once we complete our rail system, we shall mandate that all overland shipments of goods from Mexico must cross the border via rail cars in both directions. Goods and people can also come via air. All freight from Mexico must come from a train station that is more than a 200km trip from that border crossing.

11/ We don't want to put our industrial pollution where the biome is most vibrant, we want to put it in our desert wastelands especially those that are far away from population centers. Thus some parts of Mexas will have relaxed environmental regulations, particularly that portion of southern New Mexico that is west and south of the northwest corner of Texas near the town of Anthony. The portion south and west of Monument-40 on the US/Mexico border, near Hachita NM shall be for very dirty industry— although not as dirty as the industry that will no near Vizcaino. The portion between Monument-40 and El Paso shall be reserved for less dirty industry, with the part closest to El Paso being for the least dirty industry. This remote area is far from the population centers of both our nation and Mexico.

12/ The Mexas approach is better than the current Mexico-based maquiladora approach. This is because on our own land, we can much better control our investments, our working conditions, our pollution, and our quality, among other things.

13/ All of the scarce water of the Rio Grande and Colorado rivers shall be put in pipes and impounding facilities as high up as practical to reduce seepage and evaporation of the precious water — also to use

the water where it is most scarce. A number of existing dams in the Rio Grande watershed shall be improved and enlarged. We shall also look for underground water impounding locations.

14/ Where water is scarce, it shall be sold at the same price by volume to all users by month of use. Agricultural and industrial users shall get no discounts. To do otherwise with scarce desert water is to increase water scarcity. Also, the Rio Grand's water shall be treated as an urban and industrial resource and all these needs shall be met for the entire year before any water may be used for any agricultural irrigation.

15/ Refugees can also be housed in the zone between the walls until they can be processed.

16/ Those people recorded demolishing our nation's border protection barriers or making a way around them, these people may be shot.

17/ The Senate shall have the power to order that various sorts of illegal border crossers may be shot simply for trying to enter our nation illegally.

18/ Where more than 500 immigrants come to one border crossing, the military should be called out.

19/ When large crowds of foreign people push past our nation's border guards or military to enter our nation illegally, the correct response is to shoot them as an invading horde.

20/Mexico shall continue to possess all mineral rights in Baja California. However it must obey the needs of the toxic waste dump and the prison islands.

NR'164. OUR BORDER WITH CANADA

1/ There is a lack of cultural and linguistic differences between our nation and Canada. There is also how nearly all of the Canadian people live clustered near our border. There is also the way that Toronto, Ottawa, Montreal and Quebec City and Victoria are between US territories. There is how Vancouver is less than 32km from the US border. There is also how the sparsely populated parts of Canada shall be used for a new immigrant nation. There is also how Canada has only 11% of our population. For these reasons, it is strongly recommended that our nation merge with South Canada, where North Canada will be a new immigrant nation.

2/ Our border with North Canada shall run from just north of Vancouver, to just north of Calgary, to just north of Regina, to just north of Winnipeg, to Smooth Rock Falls, to New Liskeard, Ontario. Then down the Ottawa river to north of Perrot island, then north east on the St. Lawrence River/Gulf to the Atlantic

ocean. All portions of former Canada south of this line shall be incorporated into our nation. All portions of former Canada north of this line shall be the nations of North Canada. Anticosti Island shall be Quebec, but Newfoundland shall be ours.

3/ The area north of the new border shall be divided generally according to the province lines of Canada. The westerly most two nation in former British Columbia, Yukon and Northwest Territories shall now be Glacier, Yukon, Alberta, Regina, Manitoba, Ontario and Quebec. Except for the diagonal border of Ontario, These border lines shall run north-south from our border to the northern reaches of Canada.

The Yukon/Alberta border will thus pass through the Hedley/ Olalla area. The provinces of British Columbia, Northwest Territories, Nunavut, Newfoundland and Labrador shall cease to exist.

4/ The border between Glacier and Yukon shall extend north from Firvale, and west out the Fjord. The eastern tail portion of Alaska shall also be included in Glacier.

5/ Nova Scotia, Prince Edward Island, and Cape Breton Island shall all be various sorts of foreigner zone. Cape Breton shall be expensive foreigner housing and main city. Prince Edward island shall be for tourism, and Southwest Nova Scotia shall be for industry.

6/ Vancouver island, or parts of it, and the Olympic National Park peninsula shall also be foreign worker zones.

7/ The St Claire peninsula opposite Detroit as far as a line between Grand Bend and Port Stanley, this shall be a foreign worker zone. The Sarnia crossing shall have enclosed bypass road and rail connections. If this is not enough area, then the area enclosed by Welland, Hamilton, Brantford and London can be added later.

8/ The people of Montreal and Quebec City may join the US if they elects to do so with a 55% over majority. In this case the northern part of Quebec will be set up as a new UM immigrant nation.

NR'165. OUR TRADE ROUTES

1/ Today it is impossible to travel overland between North and South America, because there is no road and also no railroad. Instead there the mysterious Darien Gap that Panama has chosen not to develop. But why not develop this land route? Why not become a rich trading Mecca that is located at the canal, and also where trade between North America and South America meet? Why not become a new trading Mecca and become rich? The only possible explanation is that Panama is secretly

working for the other Mecca, which doesn't want the competition.

2/ We shall overcome the ridiculous Darien Gap and build a 7-meter gauge railroad and minimum 4-lane highway between Texas and the Amazon basin. For the record, the distance between Texas and Colombia is less than the distance from New York to Los Angeles. Also the route to South America has no mountain passes unlike the route from New York to Los Angeles. Our nation is building this project to help reduce the cost of trade with our neighbors and natural allies to the south. This is also so our neighbors to the south can prosper more economically and help more of the needy immigrants that our nation is so soft on.

3/ We shall never impose any tariff on trade merely traveling through our nation. Also, it shall be our official policy to deploy our air power against any group or nation that attempts to block or pillage or vandalize through trade anywhere in the Americas. Those attacking either the Pan-American rail line/ highway, or the Panama Canal (either of the two piracy vulnerable sphinxes) shall be treated as pirates = terrorists.

4/ The Panama canal is a shining example of how Ishtarian darkness works:

a/ The benefit of building a canal was absolutely obvious to everyone of the late 1800s and Ishtar was not powerful enough to stop it. So in 1880, Ishtar organized a "French" effort led by Ferdinand Less•eps (less•talk) which began a 9 year failed effort that resulted in over 20,000 mosquito plague deaths.

b/ In 1903, our nation purchased eternal control of the Canal Zone so that we would build the Panama Canal. We paid \$10-million to Panama, and \$40-million to the work-halted French company that had started the project but had stolen most of its investor's money. Then our nation spent another \$325-million to build the canal. So when the canal was finished in 1914, it was the world's most expensive construction project in history at that point in time. As well 5,609 more workers died, almost entirely from mosquito-based germ warfare. Then in 1977, only 63 years later, our traitorous oil-embargo-era monarch Jimmy Carter gave away this vital interest of our nation for nothing.

c/ Today the Panama canal unjustly wrings \$2.7 billion annually from world trade. However, most of this money comes from the economies of the Americas, particularly those nations closest to the canal. These nations are most affected by Panama's canal fee charges. For without these charges, these

nations would be located closer to a world nexus instead of living far away from the global economy. d/ Panama is obviously not looking out for the interests of its neighbors, or itself, or working towards more and better. In fact, Panama has done nothing but work towards the total inverse of all things we North and South Americans would all want. Instead, Panama seems to be a thing owned by the original Mecca in Arabia — which apparently doesn't want competition from other upstart meccas of trade eating into profits.

5/ For the above reasons, the prior gift of king Jimmy Carter shall no longer be held valid by our nation. The prior gift of the Panama Canal for no compensation shall be cancelled entirely and set-aside entirely, and we hereby reclaim the ownership of the Panama Canal. Our nation shall also re-open Fort Sherman and Fort Kobbe and fully staff our former military bases, and take back all control of our former Panama Canal zone backed by the full force of our military.

4/ The guilt that some people may feel about taking back ownership from the Panamanians is a thing that is fake. It is just like the fake city of Panama City, with its unmistakable name and gleaming skyscrapers that lodge in the mind and reify the value of Panamanian civilization. However, picturesque Panama City is, it is still fake and worth nowhere near \$2.7-billion per year.

5/ Panama is a vital American interest (A vital interest of both North America and South America) that helps assure that our nation (the US) remains economically connected with its natural allies in South America, Central America and the Caribbean. The alternative is to need more goods from Asia and the Mideast.

6/ Our nation shall operate the Panama Canal at built cost for all users until passage slots exceed demand. Then the fees for using the Panama Canal shall not exceed the amount needed to balance supply with demand. To do otherwise is to restrain trade. Also, whatever natural, allocative tax revenues result from the operation of the Panama Canal, they shall be credited to all the nations of the Americas based on current population.

7/ Everyone knows you can't buy the Brooklyn Bridge. We shall now cancel the ownership rights of all who have managed to buy or acquire ownership of a Brooklyn Bridge, or Panama Canal, or Bangkok BTS line, or some other public infrastructure project.

8 / We shall attempt to form a Pan-American defense force for the route between our southern border and Andeo, the new America we are trying to

foster in the tsunami safe high-ground parts of the Amazon basin. All nations in the Americas will be expected to send their share of special forces for the common good of keeping the trade routes open.

6/ We shall build airstrips and grade pads for an optional military bases on the following islands near the Pan-American trade lines: Isla San Jose Panama, Isla Jicaron Panama, Isla Cano Costa Rica, Ometepe lake island Nicaragua, Meanguera del Golfo Honduras, Orchilla island Venezuela, and Ronde Island (Grenada) These tiny Islands shall be available as our exclusive military bases if we opt to use them. We will use these island airfield for close air support operations if needed to protect our Pan-American trade if needed.

7/ Guantanamo Bay harbor shall remain ours.

7/ If any portion of the Pan-American route or the Panama Canal develops an intractable piracy problem, then we may relocate all the residents in that area to equal habitations in other nations so that a safety zone can be created for goods to pass to and from South America unfettered.

8/ The big island of Hawaii shall be a special visa zone for tourists. Here citizens of most nations will be able to come and visit without a US visa. There will also be easy qualifications for temporary foreign worker visas and foreign business owners, however all these must eventually return to their home nation. Stricter passport control shall exist between the big island of Hawaii and the other parts of our nation including the other Hawaiian islands. We shall enlarge Kona airport into an international hub airport as Hawaii is a natural hub location for flights between North America and Asia. All air carriers shall allow passengers to break their travel and have a long stop-over on Hawaii at no cost if they want to. The international flights shall all stop going to Oahu, and all go instead to Kona airport on the big Island. Oahu will be Military and residential, with guest-only tourism and limited direct flights. Maui will be tourism and residential. Molokai will be an international school island with Hawaii only visas. Half of the high school and undergraduate students on Molokai shall be foreigners and enrollment shall be over 200,000. Only students and school/ government workers shall be allowed on Molokai. Maui shall have at least 200,000 more dwelling units than today. Kauai shall have at least 200,000 more dwelling units than today. The big island shall allow at least 600,000 more dwelling units than today. The Hawaiian islands shall be heavy with Senate resort townships.

9/ Our main hub airport for connecting with South

America shall be Miami for now.

10/ Puerto Rico is hereby granted its independence. Each resident shall get a month's pay (as always, an average month's pay in our nation) as a severance gift.

P — GENERAL

NR'166. ALL LAWS DIE FAST

1/ Institutions once established frequently develop lives of their own and frequently outlive their usefulness. For this reason, no law, act, organization, department, administration, or aspect of government shall stand for more than 5 years without a complete legislative review. During this review, each act, organization, department, administration, and aspect must be entirely re-assembled from the ground-up by the Senate.

2/ All laws of the previous corrupt narrow democracy that have to do with commodities, the environment, transit, railways, vehicles, or the environment shall expire at the end of the 2nd Sub-Senate term, on day 118. All laws of the previous corrupt narrow democracy that don't have to do with the foregoing shall expire at the end of the 3rd Sub-Senate term, on day 191.

NR'167. SECRET SENATE VOTING

1/ If lawmakers voted in secret like the people do at the polls, then:

a/ They could vote as they like, and ignore their donors. Thus campaign gifts will have less influence over our democracy.

b/ Donors won't know if their gifts worked. And because of secret voting they'll expect to have less influence. So they'll give less and there will be less corruption money.

c/ Vote swapping stops, because nobody can tell if the other side voted as promised. Then, without vote swapping, the corrupting power of coalitions and political parties is reduced.

d/ Constituencies won't know how their representative voted. So Congressional voting becomes less about bringing home pork barrel spending, and more about what is good for the nation. This reduces pork barrel spending and makes government more efficient financially.

e/ All of the above. Democracy improved in 4-ways.

2/ The system for secret Senate voting shall be this:

a/ While voting, all Senators shall wear an identical loose-fitting black hooded cloak and a black fencer's mask that obscures their face and makes all Senators look identical except for their height and

weight under black cloth. All shall wear gloves that are day-glow light green and special Senate voting uniform shoes that are all identical.

b/ Voting shall occur at numbered post in 10x10 grids (A1 to J10) in rooms with a triple height ceilings. Each Senator gets a 90cm square. Each Senator stands by a numbered post, and palms up means yes or yea to the vote. No hands means no or nay on the vote.

c/ Each Senator draws from 100 numbered chips in a green bag. He holds this up for the video record, and then tosses the chip in the red collection bag. Each Senator stays at this randomly drawn location for the length of the voting session.

d/ The Senators enter the voting chamber through a low ceiling mixing area that is all around the voting chamber. In this mixing area, the Senators are supposed to walk 1 lap or so and linger around, or walk up 2 laps or so before entering or leaving the voting chamber and drawing a position from the draw. There are also identical baffle walls that keep people from trailing Senators to identify them. There are no cameras in this mixing area.

e/ Senators are not supposed to speak or make sounds in the voting chamber or mixing area. They are also not supposed to wear smells, or have any marks on their voting uniforms.

f/ An electronic voice calls a vote on whatever named matter. Then there is a 3-2-1 set of beeps with a camera flash and an overhead photo of each 10X10 voting group. A computer tallies up the total and shows the results for the count in each of the 100 voting bays. All Senators look to see if their own vote is recorded correctly. They can also check their voting centime. But the computer instantly counts all the hands on the photo image and thus counts the vote—with the Senators having the right to object over miscounts.

g/ The Senate shall screen for locator chips, cameras and other spy tech in its voting chambers.

h/ Cloaked voting is superior because everyone's vote remains secret even though the total vote is recorded by camera. The process is also unbeatably fast.

3/ The Senate may require cloaked voting in Nome elections where there are credible allegations of vote buying, or voter intimidation.

NR'168. NEW COUNTING SYSTEMS

This nation and its government shall switch to using the following counting systems:

1/ It shall use 10 36.5-day teneths per year instead of months.

2/ It shall use 6-day sweekes instead of 7-day weeks.

3/ It shall neither command, nor recognize any public holidays.

4/ It shall institute a 16 digit global address system for mail.

5/ It shall cease using imperial measures for weight, volume, temperature, distance, speed, and area.

6/ It shall use the gravity scale instead of the Richter scale for earthquakes.

7/ Everyone with a secondary school education shall be taught the true scale of their environment and the universe and to measure and calculate with base-10 exponents. They shall also be taught how the lack of this vital knowledge lead to the great environment hoax.

NR'169. GOVERNMENT SERVICES TUTORIALS

Government shall generally require that everyone take the appropriate tutorials, video or print, under monitoring each time they file a case or using government services. This is intended to:

1/ Democratize access to government services and create a level playing field.

2/ Tax government services with time rather than money, time being a fairer way to tax the users of government services.

3/ Speed up the delivery of government services, and at the same time lower their cost to the public.

4/ Reduce nuisance applications.

5/ All plaintiffs shall be required to take the appropriate print or video classes under eye-tracking before they may file a case in civil court. This way, they will know if they satisfy the conditions of filing a case. This way, they will know if they are subject to penalties for improperly filing a case. This way, they will have to pay with time, rather than money to file their case.

6/ We shall make detailed, accurately named, and summarized tutorials for all commonly repeated govern matters. And we shall have clear rules and reasonably high penalties for filing frivolous and redundant cases.

NR'170. WORLD GOVERNMENT

We shall not participate in any form of world government that accepts the Islamic/ Ishtarian empire or any of its colonies as members. Likewise, we shall not participate in any form of world government that gives one vote to each member nation of this empire, because 1/3 of the nations in the world today are parts of this single nation of Islam.

NR'171. NO PUBLIC EXECUTION AS SPECTACLE

1/ As a safety measure against tyranny and out of respect for human life, government shall not execute more than one person at a time.

2/ No execution or punishment shall ever be a form of entertainment as it was in the Roman coliseum, because this can very easily be subverted into a tool for tyrannical intimidation of the people. Therefore, nobody may watch any public execution. It shall be a felony to record or promulgate the recording of any public execution.

3/ The person executed may be shown before the execution, and his corpse may be displayed to death witnesses, but the actual execution shall not be shown or recorded. Also, corpses shall not be put on display as a means of intimidating the people into obedience. Corpses may however be put on display to prove that the person has indeed been executed.

4/ Just as we shall always stand opposed to all form of monarchy, no matter how attenuated, we shall also stand opposed to all forms of execution or punishment as spectacle, no matter how attenuated.

NR'172. THE BIG BANG

1/ We shall start the new parasite-free economy off with a big bang. Starting on Constitution day, we will:

a/ Cancel all old tax obligations.

b/ Cancel all old debt obligations.

c/ Give every citizen the place they occupy.

d/ Start building new cities.

e/ Start building a new high speed steel-on-steel rail system.

f/ Start storing up a decades-long food supply.

g/ Start fighting the volcano scourge and begin terraforming the planet.

h/ Focus exclusively on more and better and stop doing all things that augur towards less and worse.

2/ Only when the economy starts revving into the power-band and inflation starts to rise shall the Senate impose the taxes it has pre-elected in standby mode.

3/ Most people will soon have a residence to mortgage, and many will have valuable company shares. So most people will have some capital to invest. It is imperative that everyone be able to mortgage (but not sell) their home and company equity straight away. Later, when the economy re-balances, and the Senate decides the economy is starting to rev, they will be able to sell their assets.

4/ Everyone just keeps going, working as usual until the new Senate tells them to stop. this way the world keeps working. There shall be penalties for people

who alter the way they do business, either in prices or the amount they give for the same price.

NR'173. CITIZEN CAPITAL REAPPORTIONMENT

1/ To purge our economy of the parasite's ownership rights, there shall be a one-time wealth reapportionment according to the formulas herein.

This is intended to wipe out all of Ishtar's ownership rights in our land, as well as all our debt obligations to Ishtar.

2/ The ownership of all valuable things owned in our nation including all stock, bonds, mutual funds, loans, real estate, super-valuable personal property, options, derivatives, swaps, precious metals, and all other financial instrument shall be frozen. These shall not be bought, sold, optioned, leased, exchanged borrowed, or otherwise put under contract to exchange until the Over-Senate unfreezes the transactions in this class of asset.

Those who attempt to circumvent these restrictions may be subject to both monetary penalty and imprisonment if the transactions are later judged extensive and outside the normal range of business transactions. Also, if they are Ishtarians they may be sent back to start the exhod process again.

3/ All bank and credit accounts shall be frozen.

However, these may be instantly and completely unfrozen and claimed by all who can speak English without a foreign accent and provide proof of identity. Those unable to do this may still continue to make regular payments, and each may continue to withdraw and spend as much as before.

4/ All banks and depositories must stay open

5/ The Over-Senate may elect additional rules for this capital reapportionment with a 66% overmajority.

6/ In general, the capital reapportionment shall be administered by the various county Senates with oversight by the national Senate.

7/ People shall be expected to cooperate and work hard as they would in a natural disaster.

8/ There shall be no option sales either on revelation or thereafter. All outstanding options shall be considered expired and worthless. Sales of options on or after revelation day shall be cancelled, and neither the buyer nor the seller shall get any money returned to them. Instead, Government shall get all the money.

9/ Except as stated herein, all pre-revelation day business agreements and relationships shall continue on without change unless this is impossible. It is only the sale of large chunks of assets especially capital assets, equities, real

estate, bonds, and derivatives that shall be halted.

10/ Everyone in this nation shall be required to file a complete list of all their assets with their county recorder. Everyone claiming assets must have been the owner of record on the day before revelation day. All unclaimed assets, and assets not justifiably claimed shall be nationalized. Those who don't go on record as owning an asset shall have no right to to that asset in the future.

11/ The rule shall be, business as usual, except that there are no debt repayments, rents, or taxes until the Senate re-imposes them.

12/ In the beginning, our government will become extremely socialist due to the large amount of assets seized. However, over time, it will become much more capitalist due to the auctioning-off of long leases for these assets.

13/ When immigrants move a great deal of money in an attempt to circumvent the re-apportionment, it shall weigh heavily against their immigration status when that is decided.

14/ Ishtarians shall also be subject to a cleaving penalty depending on how slow they are to cleave.

15/ Illegal aliens and those working illegally in our nation shall not be given anything in the reapportionment. Also, what constitutes working illegally in our nation shall not be answered by the corrupt amnesty grants of past governments.

16/ Our military service people should not lose out on the reapportionment because they were on duty. They get their fair share too.

17/ Stock market margin debt shall not be cancelled.

NR'174. PROPERTY REAPPORTIONMENT

1/ Wherever people live, that place is now theirs, free and clear of all loans. This applies to all housing government and private, except military housing and homeless housing. This does not apply to lodging normally rented by the night This does not apply to occupants that are non-citizens or provisional citizens unless they already own their dwelling.

2/ If a business is renting a unit, it shall become the property of the business.

3/ Those with more than one residence must choose one unless the total floor area is less than 400 sq. meters.

4/ All real estate that is neither legally occupied nor legally claimed shall become the property of the government. Government shall auction off its nationalized assets to raise money.

5/ All real estate, company equity, bonds, and other assets that cannot be tied to a real flesh and blood person able to own things in our nation shall be

nationalized.

6/ Those who use force to take over a place currently lived-in by another shall get nothing except time in prison.

7/ Only the Senate shall have the right to seize occupied Ishtarian assets. There shall be no right on the part of individuals to seize assets as has happened so many time in similar situations throughout history. This time everything shall work a bit differently, and it shall be a felony for individuals and mobs to arrogate the property of others in the name of the reapportionment. Also, any violence on the part of those trying to arrogate the property of others during the reapportionment shall be charged with triple penalties.

8/ The only way individuals may come to be in possession of any Ishtarian assets is after the nationalized assets are auctioned by government.

9/ It shall be a felony to misappropriate public property including reapportionment property that is about to be nationalized.

10/ Regarding evictions and re-possession. If people are already out on Revelation day, then they have no claim. If they are not yet out, then they become 100% owners. Those evicted on revelation day become 100% owners.

11/ If an owner and renters are currently living in the same dwelling unit, each renters shall get 25% of the equity, unless there are more than two renters in which case, the renters shall never get more than 50% of the equity.

12/ Our nation is supposed to institute deflation, and there is supposed to be little possibility of making significant capital gains from speculating on one's home. In addition, the new housing in our new super-efficient and inexpensive rail-based cities will cost much less than today's cities, so once that takes hold, there will be a great surplus of housing in the old inefficient and costly cities.

13/ Thanks to our new tax system, large houses will become much more expensive, with no possibility of making capital gains. This will reduce demand for them.

NR'175. IMMIGRANT & EXHOD REAPPORTIONMENT

1/ No immigrant household shall keep more than half a lifetime's wages, call it 20-years wages.

2/ Exhods that cleave fast in all of the required ways get rewarded:

a/ Those who assemble at a mosque in advance with hammers and begin destroying their mosque on video immediately at the appointed

global time, these can keep up to 60 year's wages and are subject to no cleaving tax. These shall be seen as brave helpers and apostles of the new ways expressed herein, and thus deserve special protection.

b/ Those who cleave later on day-1 can keep up to 30-year's wages and are subject to a 10% cleaving tax. These shall be seen as cowardly helpers and apostles of the new ways expressed herein, and thus deserve some special protections.

c/ Those who cleave later on day-2 can keep up to 15-year's wages and are subject to a 20% late cleaving tax.

d/ Those who cleave on day-3 can keep up to 10-year's wages and pay a 30% late cleaving tax on their assets.

e/ Those who cleave after day-7 can keep up to 5-year's wages and pay a 40% late cleaving tax on their assets.

f/ Those who cleave after day-14 can keep up to 2-year's wages and pay a 60% late cleaving tax on their assets.

g/ Those who cleave after day-30 can only keep up to 1-year's wages and pay an 80% late cleaving tax on their assets.

3/ Those under age 18 count only as 1/4 of a person, and those between age 18 and 30 count as only 1/2 of a person for the purposes of the reapportionment. All must post and save their video and carry it with them as proof that they have cleaved. Videos of them burning their Islamic slave's clothing is another thing that will protect them.

4/ Those who cleave after day-14 may also be subject to deportation as an unrepentant Ishtarian if they have immigrated.

5/ Everyone shall be expected to post their videos on or before the next day after they cleave. The Senate may or may not forgive late-posters who are a couple days late due to genuine system difficulties. Even 4-year olds must use a hammer on posted video.

6/ If the entire Islamic world cleaves almost as one, we shall all consider ourselves very lucky. If it takes a few days for everyone to get on board, then we shall treat everyone as if they cleaved on day one.

7/ Cleaving from the start, in the first hour shall be seen as a thing of people who were in on the planning of the cleaving. It will also be a thing of people who hate Ishtar and will jump at the opportunity to end it. The settlement maximum is a bit high at first, so that everyone involved in ending Ishtar gets rewarded. Also because very first risk being attacked by the crazies in their society.

8/ The reapportionment amounts stated herein shall be seen by all as fair. You shall all say "I might have wanted more/less but this is not far away. It is a fair compromise."

9/ The Ishtarrians shall loose all of Khadijah's wealth and get a clean slate. The Ishtarrians shall not cry for their ducats, and the host side shall not ask for more money or blood.

10/ All Ishtarian assets and wealth over the amounts stipulated herein shall be nationalized.

11/ Ishtarrians found holding undisclosed Ishtarian assets or wealth shall suffer the penalties of unrepentant Ishtarrians. If there is widespread fraud, the Senate may more discharging work. The Senate may also require further and extreme reductions in the wealth of all Ishtarrians from the same place settled in the same place. The Senate may also deport the fraudsters and their families and associates.

12/ All foreign-born Exhods over age 15 and under age 65 shall be subject to a 10-hour per week discharging tax until 2035. No matter how much they work, the tax house first gets 10 hours at their earning rate. This tax is an incentive to get more exhods accepted around the world. In 2036, all shall be released from their bonds, and all of Ishtar's slaves shall be totally free of their financial obligations to Ishtar. All former Ishtarrians must work at least 10-hours per week tax until 2035.

NR'176. CITIZEN LOSS REINSTATEMENT

1/ All creditors that are human citizens or that remain classified as legal immigrants shall be reimbursed for their losses up to the maximum wealth they are permitted. However, visitors, illegal immigrants, the incarcerated, and some classes of those previously given immigration amnesty, shall not get anything. Thus all citizens and legal immigrants shall eventually get their share of the national pie, once the parasite-owned parts are nationalized and the calculations are complete. However, all parasite wealth and ownership rights shall accrue to the people. Also, these payments shall be limited by the wealth caps called for herein.

2/ Those who suffer losses from the capital reapportionment may claim up to their wealth limits as citizens or non-citizens the reinstatement.

3/ Non-Exhod immigrant citizen households that suffer losses from the capital reapportionment may claim up to 100 year's wages in reinstatement.

4/ All claims must be filed with the county recorder in the first 180-days after this constitution comes into effect, however, the Senate may increase this period

to 1-year.

5/ The total accepted claims shall be divided by the nationalization equity and expressed in labor units, or man-years at the average wage. The result of this calculation shall be expressed as a percentage. In the new economy, government shall make reinstatement payments to keep the percentage the same. The people shall get the remainder of the value of the parasite's assets that were seized, and everything else.

6/ Nationalization equity shall be defined by recent value less:

a/ Monopoly value that will not survive in the new system.

b/ Bubble value that will not survive in the new system.

c/ IP monopoly value that will not survive in the new system.

d/ Similar things that will not survive in the new system.

x/ Also, recent value does not necessarily mean immediately recent, but it should be consistent nationwide.

7/ Government shall float 4,000 labor units per capita. This shall represent 2 year's wages per citizen. This shall be issued in the name of public credit. This shall have a notional value of 4,000 hours of labor per citizen, approximately 2-year's wages.

8/ Due to all the parasite owned assets, the reinstatement payments will only be a fraction of the gains from nationalization. Thus the reapportionment will be highly profitable for the people from the beginning.

9/ Tremendous financial advantage will accrue to the national economy when we erase the trillions of dollars in fake debt, the debt that the US, the EU, China and Japan owe to the Mideast for its artificially expensive oil and shipping services. Thus we will all grow much richer.

10/ All fictional citizens must clearly list and total up their valid domestic ownership percentage and their non-valid ownership percentage. The non valid ownership shall remain with the fictional citizen, however it shall be frozen until the Senate deals with it. This way the fictional citizens can continue on and function more or less as normal until the Senate deals with the reapportioning their non-domestic ownership share.

11/ Nobody is supposed to win big by the citizen loss reinstatement except that everyone is supposed to do better.

12/ After the reapportionment, there shall be no

more calls for social equity, or more reapportionments.

13/ One of the first things that our new Sub-Senate Centi-Nomes will do is record and value ownership of property for the reapportionment. They will prioritize their responses based in length of occupancy, shortest occupancies coming first. Also claims of squatting, usurpation, and especially violence and intimidation go to the front of the line. It shall be a felony to attempt to use a squatting claim, or violence or intimidation in the reapportionment.

14/ Empty hotel rooms and short-term rentals shall not be allowed to be a loop-hole for profiting from the capital reapportionment.

15/ Everyone who lost their job due to a COVID health mandate or restriction gets their job back if they want it.

NR'177. EMPLOYEE PROFIT SHARING

1/ Leaving a sliver of the profit pie for employees can have no net cost. This is because the motivation and sense of inclusion generated by a 1% share of the profit pie shared by the employees will surly buy more than a 1% increase in labor productivity and inclination to help the enterprise. If we do the math, an 8.33-hour workday is 500 minutes, and 1% is 5 minutes. So if a 1% profit share leads to more than 5-minutes more work daily, or 5-minutes more productivity daily, or 5-minutes more quality daily, it is worthwhile for the enterprise's owners.

2/ Our nation shall now have optional Senate administered profit sharing for businesses. If any particular business declares that a certain percentage of its equity is employee owned, the Senate shall have the right to apportion that share of the company's dividends to the employees as it elects is fair, or it may follow management's recommendations, if any.

3/ Companies should proudly display their e percent, the employee profit share percent, because this indicates how motivated their workers are.

4/ The Senate should pay close attention to the various profit share percentages offered in the job market. It should regularly form an opinion about the most optimal profit share percentage for the various jobs. However, the Senate shall be prohibited from mandating any profit shares.

5/ The Senate shall help companies that are entirely employee owned by giving them an ultra low cost means of ousting non-performing members for well documented cause.

6/ When the Senate jury calculates profit shares it shall firstly consider documented valuable

contributions to the operation of the enterprise. These are most important for the Senate and the long term viability of the enterprise, and these will be most rewarded under the Senate profit sharing plan. The Senate may also elect to award some of the profit share money based on or documented hard work. However, these payments are entirely at the discretion of a Senate jury.

7/ When the Senate apportions profit shares, this shall not be constant across the economy, or within any company. Also, the scarce and valuable knowledge workers are must get a much bigger slice than the plentiful unskilled workers.

8/ The Senate shall produce and promulgate standard approaches and metrics for employee profit sharing. The Senate may compel the use of these standard approaches among companies that opt for Senate profit sharing, with Senate oversight.

9/ The people and their public purse will now re-acquire a large share of the nation's corporate wealth when we re-acquire Ishtar's stolen equity. And we the people certainly believe in employee profit sharing as a motivating force. However, the portion of profit share awarded to each employee of the most valuable companies shall be limited to 20-year's wages. And as always herein, this is the average wage for our nation not including the top or bottom earners.

NR'178. GENE TESTING TO FIND HAREMI

1/ The key enemies of freedom are mostly the offspring of harems. By nature, these offspring tend to have a number of same-father agnates, via many different mothers. The shared paternal DNA is easy to see in Y-chromosome comparisons. Then once we have found some strings of brothers, the diverse Maternal DNA is something also very easy to see in genetic comparisons of these brothers. Thus we have a way to genetically test for Harem bred males in our society.

2/ For this reason, everyone must be tested, recorded, indexed, and cross compared with everyone else in the world for genetic affinity. This is necessary so we can find all the Harem spawn living among us. All Semitic women and women in important positions shall also be tested, recorded, indexed and compared with the men that test as coming from a harem.

3/ Once we have done this, all the data shall be backed-up by all Counties. Each County shall keep a copy of the list.

4/ A year after the first testing, we shall test again, and make a second distributed data backup. This is

just in case we miss some people.

5/ First to be checked are the people who are, or were in leadership or powerful positions, be they government, military, corporate, press, media, law, medicine, and academia among other powerful positions. Next will come everyone who looks in any way like they might be Middle Eastern. Next comes immigrants and all adopted children. Next comes the general population.

6/ Anyone refusing to give a genetic sample for any reason may be conclusively regarded as Haremi and forced to give a sample.

7/ Each County shall administer the genetic testing of its own people in an anonymized manner. Each shall run its own cloned portable labs, digitize its samples and run them search-engine-fashion against all the Y-chromosome "keywords" posted by all the other Counties in the world. Thus each match will be revealed twice, once from each side.

8/ The system shall use tens of thousands of known positives to test the testers.

9/ Each Centi-Nome shall work with all its neighboring Centi-Nomes to make sure that nobody is omitted and nobody recently residing at any address goes into hiding without an arrest warrant being issued.

10/ All Middle-Eastern people that test negative shall be double checked by another Centi-Nome. These re-checking Centi-Nomes shall be nearby and randomly assigned by a 2-ball blind draw of the National Over-Senate.

11/ No person with Mideast ties shall work in testing.

12/ The right to adoption privacy shall be considered entirely unimportant in comparison to finding all the Haremi. Everyone who has ever adopted someone either legally or informally must come forward and declare that fact or they may be held guilty of a crime and the adopted person may be considered as hiding from the law.

13/ The fact that a child is an Adopted Harem child should not matter much if they don't know anything about their genetic patrimony and are not Islamic or affiliated with the parasite in any way.

14/ Those adopted from other nations after their 4th birthday shall be considered immigrants and must qualify for citizen's rights when they reach adulthood like all other naturalized citizens.

NR'179. PROTOTYPE CONSTITUTION

1/ This Constitution is intended to be a prototype for people in every land to muster a democracy under.

2/ If this Constitution is used with adjustments for another nation, all removed text should appear in

strikethrough text, and all added text shall appear in bold immediately after. Thus China's version would begin: "WE THE PEOPLE of the nation of ~~America~~ China, formerly known as the ~~United States of America~~ People's Republic of China".

NR'180. SENATE MUSTERING

1/ This form of democracy was designed to make it easy for the people to claim their democratic sovereignty without any approval or preconditions set by those already in power. There is simply no need for permission.

2/ Under these mustering rules, valid elections, and valid democracies can arise as an outcome of a majority of the people assembled in structured protest where they elect interim Senators under the new Constitution attached. This process is called "Mustering".

3/ Once the required number of voting age citizens has Mustered and has elected interim Mustering Senators, those Mustering Senators will take control of the nation and oust the existing government. These interim Mustering Senators will run a new interim democratic government as stated herein for approximately 10 days, while the nation elects and propagate a real democratic government according to the rules explained herein.

4/ The national quorum point for Mustering a new democracy to replace an existing democracy shall be half of the native citizen voter turnout in the biggest national election of the prior 4-years. In nations where the old government is a dictatorship, oligarchy, theocracy, anarchy, or if they engage in widespread violence or threat of violence against the people, only 25% of the native citizen voter turnout in the biggest national election of the prior 4-years is enough to Muster-up.

5/ The day the quorum point is crossed shall be called Constitution Day, the first day of the new Constitution. At that point, this new 2022 Constitution shall be valid and it shall supersede the old constitution.

6/ The new democracy Musters up into voting units called Mustering-Nomes. These will have a minimum size of 250 citizens and a maximum size of 500. If there are more than 500 citizens in a Mustering-Nome, it must split into two Mustering-Nomes.

7/ Each Mustering-Nome will elect a temporary Mustering Sub-Senator who shall represent a variable number of voters between 250 and 500, that count towards reaching the National Quorum Point. Thus a temporary government will Muster up,

or form up out of an increasing number of temporary Mustering-Nomes and their temporary Mustering Sub-Senators. These will represent an average of 375 voters each. These Mustering Sub-Senators will meet in local Centi-Nomes of 200 Sub-Senators described elsewhere.

8/ Those Mustering up shall sign their name and write their name, address, phone, email, and driver's license, national ID, or passport number on the Senator's representation mandate sheets. These shall say, "I accept that Senator-XXX has been elected by my Nome of XXX citizens. This person is my rightfully elected Mustering Sub-Senator. I swear I have Mustered under only one Nome and elected only one Mustering Sub-Senator.

9/ The voter rolls of Mustering Sub-Senators shall use base 10 election checking/monitoring for its membership. Thus each Nome will be checked by 9 other randomly drawn Nomes.

10/ The penalty for total or near total falsification of election documents in order to impersonate a Senator shall be 20-years in prison. It shall also be a felony to Muster under more than one Nome, or elect more than one Sub-Senator. Those people with the old government who fail to fully cooperate with the new government, and those people with the old government who resign without advance notice may be charged with a crime. Those people with the old government who take up arms, or menace the people of the emergent democracy with violence, threat, or arrest may be regarded as democides (democracy killers). Under the new constitution, democide can be a capital offense.

11/ As a broad democracy approaches the Quorum Point, its progress should be announced and graphed. A rapid rise in the percentage of the electorate voting for a Broad Democracy will be hard to dispute and will help to peacefully sweep the old government away.

12/ Once the Quorum Point has been reached, the Mustering Sub-Senators will take control of the nation and rule until proper elections can be held about a 10-days later. During this time, the Mustering Senate shall not engage in new business, or begin initiatives. It shall not sell or buy assets, or commit the government to long term obligations. It shall only manage ongoing business and deal with emergency situations until a permanent government can be formed through the election process explained herein. It also shall not engage in any new military initiatives, but it may command the military in ways that are clearly defensive.

13/ The Mustering Sub-Senate will meet every day

in Centi-Nomes without a day off from 9:00am until 9:00pm with 1:00 to 2:00 off for lunch and 6:00 to 7:00 off for dinner, until normal elections can take place. In no event shall the first normal elections take place more than 10 days after the Mustering Sub-Senate was elected. Nobody shall be empowered to delay the elections.

14/ All votes in the Mustering Sub-Senate and in the first Senate term shall be cast openly by lining up behind a person holding a sign until systems and voting centers are in place for voting to take place in.

15/ The Mustering Sub-Senate shall not have the power to make constitutional changes. And the Senate shall not have the power to make constitutional changes unless it is voting secretly.

NR'181. SENATE PROPAGATION

1/Once the Quorum Point has been reached, the next day shall be a one-day notification period where all print publications, TV, radio, search engines, and other media including all email accounts are required to use the 1/3 of their display or time for notification of mustering. Newspapers and search engines must display this headline: "Muster-up, entire nation required to assemble and elect new government". During this first-next day everyone is supposed to go knocking on everyone else's doors and informing everyone about the muster. On the next day, the second-next day after the Quorum Point has been reached, every person in the nation shall be required to join and sign up a 250-voter neighborhood Nome group somewhere in the nation. Everyone who is not a citizen gets noted, as well as those who are either too young or too old to vote. Every human in the nation thus gets censused. All must allow themselves to be photographed, video recorded, and finger printed. All must give their national number, their place of birth, their former citizenships, their current citizenship, and their physical address. They must also demonstrate that they speak the national language like a native speaker. The disabled will have people sent to them to census them on video. But every person in the nation must be counted and divided into groups of 250 voters. This shall be a census with mandatory participation and criminal penalties shall apply for those fail to participate. This mustering census shall be followed by similar annual censuses that shall likewise be mandatory for everyone. Also, in all censuses, each county shall verify the censuses of three other counties. The assignments shall be by an annual base-100

national random draw, where all counties ending in the same two digits are double checked by the three nearest counties ending in the matching two ending digits each. For example counties ending in -12, would be checked by the closest counties in -05, -73, and 82, if those were the numbers that were drawn. And this would be so nationwide until the next year when new numbers were drawn.

2/For the following 3-days after the Quorum Point has been reached (days 3,4, and 5), there shall be a one-time, 3-day national holiday. Except for critical services, all voting age people in the nation shall be required to stop doing whatever they were doing and assemble into neighborhood Nomes to elect Sub-Senators. Part of day-3 will be spent organizing and balancing Nomes. (Especially with this first election, it is not so important that everyone vote in the closest Nome to where they live.) For the remainder of day-3, and the following 2 days (days 4 and 5), all candidates will speak to their Nomes once for up to 6 minutes. After this, people will mingle and talk, or they may refer to posted writings or posted videos. At the end of day-5 at 6:00 pm, the nation will elect its first Sub-Senate by open line vote, with the people lining up behind the candidate of their choice.

3/ This new Sub-Senate shall not replace the Mustering Sub-Senate immediately. Instead, in the evening of day-5, the new Sub-Senate will balance out into Centi-Nomes.

4/ At the start of day-6 and for most of days-7 to 9, the Sub-Senators take turns speaking for up to 6-minutes each. All shall wear their randomly drawn number (1-200) and their name. As there are 200 Sub-Senators in a Centi-nome, this speaking will take about 1,200 minutes or 20-hours. Number-1 goes first, number-200 goes last. The Sub-Senators speak for 5-hours a day. For the remainder of the day, the Sub-Senators will mingle and ask one another questions and discuss their views. At the end of day 9, at 7:00, when they come back from dinner, the Sub-Senators in each Centi-Nome of 200 shall vote and elect Ten (10) Main-Senators as follows: Each of the Sub-Senators shall put a single sheet of identical paper into a ballot box with up to 30 candidate numbers handwritten in place, that he wishes to vote for. This is placed on a pile on a desk that people file past placing their folded ballot sheets. Then the pile is shuffled 4 times. Then the pile is counted in redundant line fashion. The 10 people with the most votes then become that Centi-Nome's Main-Senators. The lowest scoring man of these 10 from each Centi-Nome gets a number

ending in 1 and rotates out first, the highest scoring rotates out last. Ties shall be decided by the Main-Senator with the most votes. If there is a two-way tie, they shall decide by rock paper scissors. If there is a tied vote involving three or more Senators, there shall be a run-off election.

5/ These speeches, as with all Senate speeches, shall all be recorded and put online for re-viewing by the Senate and people.

6/ On day 10, the ten Main-Senators shall each talk or answer questions for up to 30 minutes among themselves. After this they shall all mingle and talk and ask one another questions. Then they shall break for dinner. When they return from dinner at 7:00 pm they shall vote one of their 10 as Over-Senator. At 8:00pm, the new government takes power and replaces the Mustering-Senate, fully propagated.

7/ It will thus take 10 days from Quorum Point to elect a new government for the nation. During this 10-day period, the Mustering Sub-Senate will serve as the nation's government.

8/ The 1st Senate term shall be for a bit longer than one tenth (1/10th of a year, or 36.5 days), from day 7 until day 45. During this term, the Senate shall operate at ten times normal speed. Thus instead of serving for 10 teneths as normal, this first Senate term shall only serve for one teneth. During this first Senate term, both the Sub-Senate and the Main-Senate will hold ranking elections and elevate Senators at ten times the normal speed. These will occur at the end of days 12, 16, 19, 23, 27, 30, 34, 38, 41, and 45.

9/ The 2nd Senate term shall be for 2 teneths, from day 46 until day 118, and it shall operate at five times normal speed. At the end of days 53, 60, 67, 74, 82, 89, 96, 103, 110, and 118. During this second Senate term, both the Sub-Senate and the Main-Senate will hold ranking elections and elevate Senators at five times the normal speed.

10/ During the 1st and 2nd Senate terms, all national Over-Senators shall also serve as our nation's UM (world government) Main-Senators. These shall all shift over to exclusively UM duty as they cycle out of national Over-Senate service.

11/ The 3rd Senate term shall also be for 2 teneths, from day 119 until day 191. It shall operate at five times normal speed. At the end of days 119, 126, 133, 140, 147, 155, 162, 169, 176, 183, and 191, each voting house shall elect 1% of its members to the next higher Senate. At the end of the 3rd Senate term, the UM Over-Senate shall grow to be fully propagated. Thus by day 191, the world's

government will be fully propagated.

12/ From day 192 until the end of year 5 the Senate terms shall be for 5-teneths. (one half a year). Thus all Senators elected in the first 5-years of the new democracy will serve for only half a year. We are doing this because:

a/ The nation's senators will be expected to work longer hours and nearly every day.

b/ It is more corruption resistant to have such short terms.

c/ Unless we do this, there will not be enough sires to choose from.

13/ It shall be expected that in the 1st Senate term, all levels will work in over-drive mode. The Sub-Senate shall meet on at least 85% of evenings, and the Main-Senate and Over-Senate shall work 12-hour days every day.

14/ It shall be expected that in the 2nd and 3rd Senate terms, all levels will work in over-drive mode. The Sub-Senate shall meet in at least 70% of evenings, and the Main-Senate and Over-Senate shall work 10-hour days every day.

15/ It shall be expected that in the 4th and 5th Senate terms, all levels will work in over-drive mode. The Sub-Senate shall meet in at least 60% of evenings, and the Main-Senate and Over-Senate shall work 10-hour days in at least 85% of day for the entire first term.

16/ Senate service excuses everything. There is nothing in our nation that does not go on hold for people who are elected and drafted into Senate service.

NR'182. NON-VIOLENT PROTEST

1/ When the people gather in great and mostly peaceful numbers as they proudly did in Hong Kong, Barcelona, Tiananmen, and Cuba it shall be thought a glorious and sacred thing that is pointed straight up for us in the land of the free. Those who menace and threaten peaceful protesters shall be seen by all as tyrants and the enemies of freedom.

2/ We shall immortalize the words of Xi Jin Ping and the Chinese Communist Party: "Crushed bodies and shattered bones". These words were said to the democracy protesters of Hong Kong when China threatened another Tiananmen massacre: where the Chinese Communist Party killed over 10,000 of its own citizens for demonstrating peacefully in favor of democracy. This direction is straight down to us in the land of the free.

3/ Protesters shall not wear a uniform or same color clothing as this supports protest crime. Protesters shall not wear face coverings, even for reasons of

religion or infectious disease. There shall be no plain clothes police officers at protests.

4/ When large numbers of protesters approach people in a menacing way, or they are smaller groups threatening with words, even vague words, the crowd itself may be seen as a weapon.

Protestors are required to make every reasonable effort to avoid contact with isolated opponents.

5/ The right of protest shall never be allowed to become a thing that may be directed at individuals or small groups. For when this happens, we have started down the road of intimidation and fear that created the power vacuum that the Nazi regime came to power in. This regime came to power in a very large part because their opponents were so often "hit on the head", or threatened.

6/ The right of our leaders to be safe from threat of violence is obviously a first-order protection for our democracy. Without this, it is a step towards SA empowerment. (The SA or Sturmabteilung was the thug army that brought Hitler to power by silencing his opposition.) Therefore, the right of protest shall not include the right to menace or harm others, (and especially political opponents) in any way.

7/ There shall be no right for protesters to go to people's homes, even as individuals, or for protesters to menace or confront individuals and groups in the street, or during their meals or errands. And this protection shall expressly apply to all leaders, authors, critics, commentators, media producers, judicial people, police, and those accused, but not convicted of a crime.

8/ Fake anarchy often presents itself as a disorganized mob. Where this mob is used to overpower or influence elected people and true leaders — this is one of the most vulnerable points in a democracy. For this has ended many democracies.

9/ When a protest is peaceful, the burden of proof lies with police, and penalties shall lean towards the minimum. When a protest is considered violent, or a riot, the burden of proof lies with the violent protesters as much as reasonably possible, and the penalties shall lean towards the maximum.

10/ Protest should never be an excuse for violence. The right to protest is the right to protest without violence. Non-violent protest is perfectly fine for democracy. Violent protest is bad for democracy. Protest violence normally gets double penalties.

11/ No sign posts are allowed at protests. All signs must be on non-weapon sheet material such as cardboard or foam plastic with no sharp edges. No

plywood, metal or timber backed signs are allowed at protests.

12/ There is no place at protests for any weapons or even potential weapon. Prohibited protester weapons include: firearms, bullets, firearm replicas, paintball guns, squirt guns, toy guns, bombs, firecrackers, fireworks, flares, lighters, matches, accelerants, pepper spray and other irritant sprays, electric shock devices, lasers, knives, folding knives, razors, axes, chains, scissors, pry bars, screwdrivers, pliers, rocks, bricks, canned food, sticks, picket poles, clubs, bats, hammers, saws, wrenches, metal spikes, nails, screws, glass bottles, broken glass, helmets, face shields, hoplite shields, body armor, bullet-proof vests, knee or elbow pads, heavy or hard-edged footwear, skateboards, bicycles, motorbikes, gloves, wire, rope, drones, quick-ties, handcuffs, slingshots, ball bearings, marbles, cleaning fluids, body fluids, noxious fluids, sprays and gasses. At protests, the definition of what constitutes a weapon shall be much broader and more inclusive than normal. People may bring their wallet, keys, communicator, medications, plastic water bottles, under 500ml, soft food. There shall be no smoking at protests due to the potential for arson.

13/ There shall be no bags, backpacks, suitcases or other means of concealing weapons at protests.

14/ There shall be no open fires at all at protest, including flag burning, effigies, and street bonfires. Starting, tending, or spreading a fire at a protest shall be considered as arson. Those carrying incendiary devices or burning objects at protests shall be presumed to be arsonists. The penalty for possession of fire accelerants at a protest shall be 30-years. The penalty for possession of a lighter, matches, or other fire-starters on one's person at a violent protest shall be up to 5-years.

15/ Those distributing weapons at protests, to include rocks and bricks, get 20-years. Those recorded or witnessed at protests with rocks, or similar throwing objects in hand, or in their possession get 2-years of work camp. Those recorded or witnessed at protests causing breakage damage or looting get 5-years in work camp.

16/ Few things weaken a protest like protester vandalism and destruction. So if part of a protest turns to looting, violence, or arson, the peaceful part has an obligation to flee (both physically and in unequivocal words) from the violent part. This is so the violent part may be more easily separated and punished.

17/ Committing crimes in the name of protest is the opposite of justification. Those who commit crimes at a protest shall generally suffer double penalties for property crime and altercations without serious injury. They shall generally suffer triple penalties for violent crime to include arson, attempted arson, and weapons possession.

18/ When a mob runs riot through a city committing widespread vandalism and destruction, all who ran with them may be charged as co-conspirators.

19/ During times of protest, entering a business or home that is obviously being looted shall be enough to make a person a looter. The only except is when people are live streaming faces to police or the recorder.

20/ Those convicted of throwing water balloons, or using a squirt gun, or making menacing gestures, or throwing food or following people trying to get away from a protest, or similar micro-assaults may have to do up to 1,000 hours of community service per count.

21/ If recent protests have been violent, then government may require that all protestors pass through a metal detector. However government may not delay people more than 10-minutes for this.

22/ There shall be no night time protest from 20-minutes after sunset until sunrise. People can camp-out, but the marching through the streets and public speaking, one person to the crowd, that must stop 20 minutes after sunset.

23/ The right to assemble is the right to assemble openly, and unmasked. All who protest must so openly and they shall have no right to privacy. Also, all protesters may be freely recorded, and their images freely promulgated without consent or compensation. The penalty for wearing a mask, including a gas mask, at a protest shall be 40-days in jail + a fine of 3 month's pay. If the person has no money, then the penalty shall be 2-years in work camp.

24/ There shall be special protections for individuals and small groups when their legitimate protest and participation in the public discourse brings even extra-judicial threat and menace. Memetic diversity must be preserved in the group mind, and small groups are especially vulnerable to extra-democratic coercion and menace from aggrieved parties.

25/ So long as all violent protesters are stigmatized by the mass of people, the protest shall be considered peaceful.

26/ Government shall be free to use video-drones, listening devices, and data traffic interception at protests.

27/ Giving away bottled water, beverages, or food shall be considered as paying for protest.

28/ There shall be a crime called "accessory to protest looting". This is the crime of people who don't loot, but don't run off either.

29/ There shall be a crime called "accessory to protest arson". This is the crime of people who don't burn things, but don't flee from protest fires either. Thus, those recorded near a "bonfire" during a protest may be charged with accessory to protest arson.

30/ All non-humans, and non-citizens must stay way from the nation's protests to the maximum extent reasonably practical. This also includes government and its police where reasonably practical. This also includes all fictional citizens, all visitors, all non-voting citizens, and all foreign governments and their people.

31/ Private drones and robots may only be used near a protest with prior approval by the police.

32/ Using fireworks and firecrackers at a political protests will get a person 5-years at a work camp.

33/ When people with long criminal records are charged with protest violence, or disaster looting, or disaster violent crime, they may be sent to a work island for life. (Looting here does not include provisioning a reasonable amount of essentials).

34/ Nobody should ever be penalized for participating in a peaceful protest. This should be a worldwide rule. Any government breaking this rule becomes illegitimate. Any strictness comes from the definition of peaceful.

35/ Small protests of fewer than 50 people may go just about anywhere unless they are intentionally blocking some function.

36/ Only the national government may establish rules for free speech and assembly and all places open to the public shall obey the same access rules nationwide for those wishing to protest or spread information. Private property owners who violate a person's first and foremost right of free speech and their right to reasonable political assembly or protest should pay toxic waste level fines. When police do this, they should be fired. When private security guards should do this, they should go to jail. This rule R'178.36 only applies to political matters and it does not apply to matters of commerce, religion, sport or celebration.

37/ Tear gas, pepper spray, rubber bullets, clubs, water cannons and other semi-harmful ways to disperse crowds shall not be used on peaceful protesters, and police are expected to warn the protesters before they use any semi-harmful way to

disperse a crowds. Police using these weapons wrongly at protests shall be subject to charges of assault.

38/ All tear gas canisters, rubber bullets, and other police projectiles used at protests must have serial numbers on them, and these serial numbers must be tied to individual police officers working at the protest. Also, all rubber bullet guns and all tear gas guns must have gun cams. All tear gas guns and canisters must be lime green, all rubber bullet guns must be hot pink.

39/ All police enforcement at generally non-violent protests shall be voluntary on the part of each police officer, and officers cannot be terminated, punished or discriminated against if they do not want to take part in enforcement at non-violent protests. Police cannot be paid more than the regular pay and regular overtime when working at a protest. All police enforcement of common civil disobedience crimes shall be voluntary on the part of each police officer, and officers cannot be terminated, punished or discriminated against if they do not want to take part in enforcement of common civil disobedience crimes.

40/ All forms of self-propelled barrier shall be prohibited at protests including the tactic where police use a line of vans parked bumper to bumper as a barrier. Water cannons, dye and solution markers shall also be prohibited at protests.

41/ All protest police must:

- a/ Have location transponders in their body armor.
- b/ Have 6-cams, one on their chest, one on their back and four on a 40cm easily repaired breakaway mast on their helmets. They must also have stereo microphones front and back.
- c/ Have location transponders on their helmets, vests, chest cam, and back cam.
- d/ Have location transponders and accelerometers in any clubs or sticks they carry.
- e/ Have at least 1-drone flying and streaming and gathering evidence for every 6 officers.
- f/ Have suitable cams and location transponders on all projectile firing devices used at protests.

42/ When police make arrests at day time protests and assemblies, the criminal activity or witness testimony must be recorded to convict. When people are arrested at a protest or assembly, and there definitely isn't even enough evidence for a trial, the arresting officers may be charged with violating the civil rights of the protester and shall spend 30-days in work camp per count.

43/ If a police commander or other government official is organizing, or ordering officers to make

arrests to harass protesters on one side or another, then that police commander or government official may be charged with democide.

44/ Except for the restriction in R'2 and R'178 herein, the people shall always have the right to peacefully protest and march anywhere they want. When police interfere with this right through use of force, they may be charged with violating the civil rights of the protesters even if under orders from a superior officer.

45/ Where police are giving instructions to protesters these must be repeated over a public announcement system that is loud enough and clear enough to be understood by the protesters. Police may also give instructions by mass text message to all the people present in an area.

NR'183. VARIABLE CONSTITUTIONAL CLAUSES

The following 22 variable constitutional clauses shall be included in this constitution. They shall be on or off as indicated. It shall take a 2/3 overmajority from both the Main- Senate and the Over-Senate in one tenth to switch a variable clause on or off.

Option'1. +ON+ PANTHEONS

1/ In order to minimize the divisions of mankind and maximize the brotherhood, our nation shall require that all religions use the same public houses of worship. No religion shall maintain its own physically separate places of worship in our nation. All houses of religion and worship shall be owned and managed by the Senate and people regardless of who built them or once owned them. All houses of religion and worship shall be open for use by all religions, and all shall be shared by all religions.

2/ Shoes and shirts must be worn, and the knees and shoulders must be covered in all pantheons.

The head and face shall not ever be covered.

3/ There shall be no separations of men and women.

4/ There shall be no talking or yelling or audible preaching. All preachers must communicate via silent disco headphones so the nation's pantheons can be better shared by everyone.

5/ Everyone shall respect everyone else's services.

6/ There shall be no carpets, seats, or loudspeakers in any public pantheon.

7/ No candles or incense may be burned and no animal shall ever be sacrificed.

8/ The ancient round and isocratic Pantheon of Rome is so well preserved because this idea was tried before and people loved it. People have loved this idea for almost 2,000 years, so it is quite a well

tested idea. Ishtar of course always struggled in the other direction, towards the separation of man in a way it could profit from.

Option'8. -OFF- DEPORTATION ROUND #3:

All Exhods that arrived after 2010.09.11 shall be deported.

Option'9. +ON+ NO MEGA ZILLIONAIRES:

- 1/ No person or family may possess more than 50,000 year's wages in assets. Shares in companies one founded shall not be counted under this rule until they are sold or exchanged.
- 2/ The public can condemn or ubiquitize anyone out of all or part of their assets, including IP by paying them the maximum wealth amount.

Option'10. -OFF- NO ZILLIONAIRES:

The limit amount of the previous Option'11 shall be 5,000 year's wages in assets instead of 50,000 year's wages in assets.

Option'11. +ON+ POST BIRTH ABORTION:

Government shall not burden the people of our nation and discourage them from having children by forcing everyone to bring up severely malformed offspring. For 7-days after birth, Mothers shall have the right to humanely euthanize their newborn offspring with profound birth defects, but only according to the standards set by the Healthcare Sluice, and as decided by a vote of 6 of 11 Senator jurors that are experienced doctors or nurses. This clause shall apply to all clear cases of Zika microcephaly, Down Syndrome, and conditions associated with mental retardation that are more severe than high-functioning Down syndrome. It shall also always apply when the child is born both severely damaged and sterile, or when the child will need more than 5 rounds of surgery, or is expected to require help with least 2 hours of care each day for the rest of its life, or when the child is not expect to live past age 30.

Option'12. +ON+ COLLEGE EDUCATED MOTHER BENEFITS:

Option'14. -OFF- EXHODS BIRTH CONTROL:

All Exhod women of breeding age must use an IUD or other long term birth control for the time they are not supposed to have children.

Option 15. -OFF- DANGEROUS SPECTACLES:

1/ The people shall be free to engage in whatever sports, acrobatics, and dangerous activities they want. However, the promotors, broadcasters, and sponsors of dangerous audience events shall be financially responsible for the death and injury of the gladiators they hire or promote. This shall apply to the promotors of sports, acrobatics, daredevil and other dangerous spectacles. Also, this financial responsibility shall be considered an inalienable

obligation that cannot be transferred away to others by contract or insurance policy.

2/ Spectacles that involve harmful sloshing of the brain may be required to pay reasonable damages to their competitors or contestants for the brain damage they cause.

3/ Serious schools shall be prohibited from offering any brain sloshing sports such as boxing, football, or head-ball soccer either on campus or under their auspices. Schools that offer brain sloshing sports may be held financially liable for the brain damage they cause.

4/ The Senate shall be required to modify the rules of sports that are found to cause significant levels of brain damage or bodily harm. These activities and sports must be changed so they are no longer harmful. If the activity or sport cannot be made safe, then it must be curtailed.

5/ There shall no longer be sports like boxing and head-ball where the brain is endlessly pummeled and sloshed until brain damage occurs.

6/ When this Option comes into force, it shall be applied retroactively. and in with superfund reach. It shall seek damages from advertisers and school endowments, as well as those who donate money for brain sloshing sports after the day this constitution comes into effect.

7/ There shall be no ownership rights for either sporting teams, or the recording and broadcast of their activities. Nobody may charge money to watch a sporting event. The names of all sporting teams shall be considered as existing in the public domain for everyone to use, except the teams they compete with.

Option 16. -OFF- GENDER INEQUALITY:

1/ The essence of sexual reproduction is that half of a species is specialized for reproduction, while the other half is specialized for selection. Therefore, male selection in all creatures is slightly more rigorous than female selection. This is why males tend to be slightly bigger, stronger and more aggressive than females across the animal kingdom.

And among homo sapiens, where our defining characteristic is our sapience, this is why a small sliver of males are more sapient than any female.

2/ In our nation, the two genders shall generally be regarded as equal under the law, and with equal rights, except where this is judged by the Senate as impractical for society. For example, females shall have greater child custody rights than males.

Females shall also have greater rights in matters of physical violence, and they shall also have the right

to special female-only competitive athletics among other things.

3/ Government shall not regulate equality of pay or equality of labor participation between the two genders. This is because:

a/ The period of rapid and easy progress towards ending gender bias is over in our nation.

b/ Females are frequently less qualified in a number of occupations such as those involving physical strength and math skills.

c/ In this nation we generally believe that free markets are much better at fairly pricing things than government.

d/ Females frequently put their careers on hold and drop out of the labor market for decades when they have children.

e/ Employers must expect that a certain number of breeding-age females will later turn their backs on their employer's costly training and integration to have children.

f/ Our nation's long-term economic competitiveness, and the viability of our proposition of freedom, and free markets requires that our employers be allowed to price-in the differences and family needs of their workers.

4/ Our nation needs its women giving birth to the next generation. If we don't do this, we will become reliant on immigrants from nations with less democratic, or even parasitic traditions. Then our proposition of freedom will turn to oily quicksand beneath our feet.

Option 17. -OFF- FOOD STORES 1-YEAR:

Everyone shall keep at least 1-year's food supply in their home.

Option 18. -OFF- FOOD STORES 2-YEARS

Everyone shall keep at least 2-year's food supply in their home.

Option 19. -OFF- EVACUATION OF GET-OUTS

All Arab get-outs shall be evacuated, and all Exhods living in them, shall either be sent back or sent to an island internment camp.

Option 20. +ON+ ANTI-TERRORISM

After deadly acts of Arab terrorism anywhere in the free world, all Ishtarans may be prohibited from using our nation's airlines, trains, and ride sharing services.

Option'21. +ON+ TORTUROUS PUNISHMENT:

The threat of a prolonged hellish death being one of tyranny's greatest powers over some people, democracies must unfortunately offer an equal deterrent for extra-ordinary crimes. However, the use of torturous punishment shall only be used in the following cases, and each person put to death in this way shall require a majority vote from the Judicial Sluice of the national Main-Senate:

1/ Those who illegally traffic in nuclear, chemical or biological weapons or their key ingredients, or attempt to make these.

2/ Those who participate in fatal acts of mass terrorism.

3/ Those who have tortured others to extreme outside the judicial system.

4/ Those who abduct and lock up a sex or sadism slave for more than 5 days.

5/ Those who sabotage the nation's war weapons, war preparations, or transportation systems in war.

6/ Those who have committed first degree murder three or more times.

7/ Those who kill or gravely harm people for standing witness, or for judging on behalf of the people.

8/ Those who harm cleaved Ishtarans to avenge Ishtar.

9/ Those who use violence or threat of violence to seize or hold control of the national government.

10/ Those who cause severe bodily damage by intentionally burning someone with either fire or chemicals.

11/ Those who use hostages as human shields.

12/ Those who assassinate our leaders.

OPTION 22. +ON+ ONLY NATIVE CITIZENS MAY VOTE

Only native born as citizens may vote in our nation's elections. If this clause is turned off, then only people who have been immigrant citizens for over 20-years may vote.

2022 UM CONSTITUTION

WE THE PEOPLE of the UM, or United Majority of the free world hereby establish this 2022 UM Constitution for our democratic world government. This Constitution and the laws made under it shall be the supreme law of the free world. This 2022 UM Constitution is intended to be used with the 2022 American Constitution, with generally only the names, places and optional rules changed for each nation.

UA'1. SEVEN MEMBER BLOCS

The UM shall be a system of generating international consensus through 7 equally-powerful continent-scale voting blocs. Each of the 7 blocs shall all have an equal vote, even though they have variable populations and a variable number national Senators. The blocs shall be:

- 1/ English and French speaking America.
- 2/ Spanish and Portuguese speaking America.
- 3/ Roman alphabet Europe.
- 4/ The former USSR, and Cyrillic alphabet Europe.
- 5/ China, Taiwan, Tibet, and Mongolia
- 6/ India, Sri Lanka, Nepal, Bhutan.
- 7/ Asia outside nations previously mentioned, non-Islamic Africa, and all other parts of the free world including Australia.

All nations listed herein below as being in the PU or Parasitic Union shall be excluded from the UM unless the UM elects to admit them. This is because their natural inclination and agenda is diametrically opposed to that of the UM's natural agenda. The PU shall however never form a voting block, and its members must join the other voting blocks of the PU.

UA'2. SENATES

The UM government shall be composed of two tiers of Senate: UM Main-Senate, and UM Over-Senate, collectively called the "UM Senate". The representation ratios shall be as follows for a UM of 4 billion voters:

UM Main-Senate 1-in-25,000 voters, or about 160,000 UM Main-Senators serving at any one time, assuming an electorate of 4 billion voters.

UM Over-Senate Each of the 7 member blocs shall elevate 8,000 UM Main Senators to serve for 2 years. Thus 56,000 UM Over-Senators will be elected each year, and there will be 112,000 Over-Senators serving at any time for two years. This is the narrowest Senate of the new world government, and each of the 7-member bloc will

have 16,000 Senators serving at any one time. As Over-Senators cycle out of their year of service in their various member nations, all automatically shift over to UM for one year of service in the UM Main-Senate. Then at the end of their one-year term in the UM Main-Senate, the top ranked 800 Main-Senators in each voting-bloc, in each teneth, shall then be elevated to the UM Over-Senate for two years of service. In this way, our world government will be a broadly represented, and continuously elected outgrowth of our own trusted national Senates.

To this end, the UM Main Senate shall require a 60% Over-Majority in all 7 voting blocks to take action. If a vote fails to get the required overmajority in any of the 7 blocs, it shall be enough to prevent the UM from taking action.

These inspectors shall be given the broadest rights and the greatest freedom in recording and describing the actual conditions they encounter. The compliance will however, by necessity be a more difficult and less clear situation.

1/ To define the overall problems, directions, objectives, and ambitions of government. To make plans for the UM and statements of UM policy, direction and objectives.

2/ To evenly apportion and balance duties, workloads, and authority among the various Sluices of the UM Main-Senate. The similarity of tasks is less important than the balancing of the workload.

3/ To Adjudicate or resolve conflicting and overlapping jurisdictions, laws and implementations among the various UM Sluices.

4/ To set the overall single-amount spending budget for the UM and for its 8 sluices. To set the taxation levels for the UM. These budgets shall not be divided or partitioned in any way by the Over-Senate. Except for this overall budget function, and the inter-sluice duty and workload allocations, the Over-Senate shall be prohibited from imposing any particular implementation, or spending requirements, or making any demands whatsoever on any Sluice's policies. Except in matters of

constitutionality, and Senate power divisions, the Over-Senate shall not have any veto right or control over the Main-Senate.

5/ The UM Over-Senate (UMOS) shall be prohibited from making laws. Only the UM Main-Senate shall have the power to make laws.

6/ There shall be no Over-Senate veto of Main-Senate spending or Main-Senate laws unless they are reasonably elected as unconstitutional by the Over-Senate, or the Main-Senate elects that the laws of one sluice are in conflict with another sluice.

7/ In the event of conflict between clauses of this constitution, the Over-Senate shall decide which clause is to be followed and which is to be ignored.

8/ To interpret the constitution, and serve as supreme and exclusive arbiter of constitutionality of all UM laws, but not national laws. In the first 10 days of any law's existence, a 60% overmajority of the Over-Senate shall strike down any UM law or clause that it reasonably considers to be in violation of the UM's constitution. After 10 days, a 2/3 overmajority shall be required to do this. Except with regard to constitutionality, and inter-sluice power apportionments, the UM Over-Senate shall be prohibited from compelling, or halting any particular implementation or spending by the UM Main-Senate. No part of the judicial system shall have the power to cancel, vitiate, modify, or re-interpret any law due to a conflict with this constitution.

9/ Issue pardons, and invalidate pardons previously granted by a narrow democracy or other narrow form of government.

10/ Cancel any prosecution, criminal trial, civil trial, judicial process, court decision, government proceeding, or legal decision in any member nation with a 2/3 overmajority.

All deposits in UM currency accounts shall deflate by at least one-per-mil every 6-days, or about 6% annually. The UM shall make a market for the exchange of all currencies of all member nation into and out-of the UM currency. It shall provide this service at no cost, except the anti-sloshing tax and interest. When money is converted from one currency to the UM currency and then immediately converted to another currency, there shall be only one anti-sloshing tax payment due. Also, the market sets the price, the UM only acts as intermediary, and a more efficient intermediary that existed before for

small transaction international money flows.

13/ Spend up to 1/5,000th of the UM's budget. Except for this money, the Over-Senate shall not command any spending.

16/ To put questions on the monthly sophoscite with a 55% vote, or remove questions from the monthly sophoscite with a 60% overmajority.

17/ To divide Main-Senate Sluices at the UM, the constitutional amendment process shall be required. Great care should be taken to make sure that power is not concentrated in the Over-Senate through an over-fragmented Main-Senate.

18/ Uniformly tax all international trade by up to 12% of its value.

19/ Tax all international trade in raw materials by up to 18% of value.

20/ Tax all international trade in liquid fuels by up to 50% of value.

21/ To discourage international cartels, the foregoing three taxes shall be imposed maximally when the price is much lower than before, and they shall be imposed minimally when the price is much higher than before. And never should it be the other way around, or the tariffs will be working towards creating the very monopoly power we are trying to get rid of.

22/ Lay sufficient taxes, tariffs and fees on international trade to eliminate international monopolies.

23/ Establish and set minimum worldwide tax rates for wealth, consumption, inheritance, and income.

24/ Arbitrate and resolve conflicts between UM member nations based on what is best for mankind overall.

25/ Act as world court for global decisions.

26/ As with all Senates in a standard 1-in-25,000 broad democracy, in each teneth, each RVC head of the UM Main-Senate shall rank its members. As the UM's Main-Senators cycle out of service, the appropriate number of top ranked people shall be elevated.

UA'8. CONSTITUTIONAL AMENDMENTS

1/ No single constitutional amendment shall exceed 200 words.

2/ Constitutional amendments for the UM shall only be written by the UM Over-Senate and require a

70% overmajority to be approved for ratification.

3/ Passing a UM constitutional amendment requires a 70% overmajority from the UM Over-Senate, then a 70% overmajority from all seven voting blocs of the UM. These two 70% over-majorities must be achieved in one year. Then, one Senate term after the proposed amendment was passed by all seven voting blocs of the UM, it shall be put to a second ratification vote where the proposed amendment must also achieve a 70% overmajority in all seven voting block of the UM. If the proposed amendment fails to achieve the required 70% overmajority in any of the 4 Senate votes, then the amendment shall be considered failed. After this, those wishing to revive the proposed amendment shall be required to start over again from the very beginning of the amendment process.

4/ The foregoing amendment processes shall not be used to restrict the rights of the people, increase government power, reduce the number of Senators, shift powers from the UM Main-Senate to the UM Over-Senate, shift powers from national Sub-Senates to other Senates, shift powers from national Main-Senates to national Over-Senates, or otherwise narrow this democracy or make it more corruptible. To do any of these things, 80% over-majorities are needed in the above process where a 70% overmajority is otherwise called for.

5/ A wholly new constitution may be instituted using the above described amendment process, however it must be called a new constitution and the overmajority percentage shall be 80%.

6/ Any amendment that makes the amendment process more difficult shall be reversible under the old pre-existing standards for a period of 30-years. The overmajority required to cancel an amendment or law shall never be greater than the overmajority required to passed the measure in the first place.

7/ No constitutional convention, supervening body, or extra-Senatorial body shall have any jurisdiction over this Constitution or the UM Senate. We shall not make the same mistake we made in Philadelphia in the summer of 1787, when Ishtar hijacked America's paradigm democracy.

UA'9. UM SENATE RULES.

1/ Laws that benefit less than 50,000 individuals, human or fictional shall take a 2/3 overmajority at the UM to pass. Laws that benefit less than 2,000,000 individual shall take a 60% overmajority to pass.

2/ All UM Senators shall be duty bound to do what is best for mankind overall, and to try to put this cause

ahead of their own county and regional constituency.

3/ The UM senators shall by default vote at the same location they voted as National Over-Senators. They may switch voting location, and they shall be free to visit other places on voting holidays, however they must come back for voting days at whatever RVC they are registered to.

4/ The UM is a body of consensus. In the UM Main-Senate, all 7 voting blocs must reach the required majority in the relevant sluice for the UM Main-Senate to pass a measure. As the UM Over-Senate votes as one body, all 7 voting blocs must reach the required majority in that body to pass a measure.

5/ Only the UM may create, assemble, or adopt international standards for adoption by multiple nations. This role shall not be usurped by any national Senate, and it shall especially not be usurped by any fictional citizen, or sub-government of any member nation.

6/ All officials and employees of the totally corrupt old UN shall be regarded with suspicion by the UM.

UA'10. LIMITS TO UM MILITARY POWER

1/ The UM shall never have a military of its own, with a UM identity, but shall rely on the forces of its member nations.

2/ It is an ancient trick of economic parasites to get an empire to use its military for the parasite's tax collection. Therefore, the UM's military forces shall be prohibited from enforcing matters of debt, debt collection, taxation, tax collection, dues payments, and generally peaceful taxpayer revolts. If UM taxes are not being paid, the UM may only punish through non-violent, and non-threatening means such as trade sanctions, or reduction of UM spending and services in that jurisdiction. Also, no UM member nation may use its military to enforce matters of debt collection.

3/ The UM shall have no judicial powers over any individual in any member nation, unless that individual stands up and claims to be a dictator, chancellor, monarch, or oligarch of his nation, in which case the UM shall be duty-bound to try to kill that person.

4/ The UM may have peace keepers to stop shooters and other violent people, however, it shall not have a police force, or intelligence gathering force of its own.

5/ The threat of global coup and global tyranny being very real, the UM shall not be given significant supervening military powers over all of the world's national governments until at least 200 years after:

a/ The entire world has come to be ruled by broad

democracies.

b/ The land of no resources (in its broadest definition) has been entirely evacuated.

Archaeologists and mineral extraction people may visit during the cool half of the year.

UA'11. THE UM REPRESENTATION RATIO

The UM representation ratio shall not be narrowed in any way, even for brief periods. If the UM is broadened, it shall be by extending the term of office for UM Main-Senators to 2-years and UM Over-Senators to 3 years and thus doubling the number of UM Main-Senators and increasing the number of UM Over-Senators by 50%. This however shall not be attempted until the year 2040.

UA'12. THE PARASITIC UNION

1/ The UM shall wherever possible recognize only one single nation of Islam, one Arab empire. This shall be called the PU or Parasitic Union. The PU shall be made up of the various provinces of Arabia's empire. These may be called either provinces or nations, even though they are most accurately described as provinces of an empire.

2/ The various provinces of Arabia's empire shall retain their pre revelation day names except that everyone shall try to call them provinces instead of nations.

3/ The various provinces of Arabia's empire are, starting from the center: Saudi Arabia, Israel, Qatar, UAE, Oman, Bahrain, Kuwait, Jordan, Syria, Lebanon, Yemen, Iraq, Afghanistan, Libya, Algeria, Tunisia, Egypt, Sudan, Somalia, Djibouti, Iran, Turkey, Morocco, Pakistan, Eritrea, Ethiopia, Maldives, Mauritania, Senegal, Gambia, Mali, Niger, Uzbekistan, Azerbaijan, Tajikistan, Turkmenistan, Indonesia, Bangladesh, Guinea, Kyrgyzstan, Brunei, Albania, Malaysia, Sierra Leone, Burkina-Faso, Chad, Nigeria, Bosnia, Ivory Coast, Guinea-Bissau, Tanzania, Surinam, Serbia, Mozambique, Cameroon, Malawi, Macedonia, and Angola. The single Arab empire shall notably include Israel as a province.

4/ All nations in Arabia's empire shall muster up into standard 1-in-25,000 democracies. All shall destroy every aspect of Islam they are required to destroy. All people in all these Arab provinces or Arab nations shall properly and irrefutably renounce Islam on video. If none of these nations do this, or none do it entirely, then we shall consider the West Coast of the Arabian sub-continent as the capital and brain center, from Jerusalem through Mecca to Yemen. We shall take this area as the head of Arabia's

secret empire.

5/ If even one of these Arab nations does as we require, then that nation (or those nations) shall speak for, negotiate for, and have the power to bind the entire PU.

6/ The first nations to totally abandon Islam shall also get the most preferential treatment from the UM. Then the next nations shall get the next highest reward, and so forth, until we reach the nations that will be punished increasingly for failing to abandon Islam and Ishtar fast enough.

7/ The PU shall belong to the UM as a possession, or more accurately as a liability to be mitigated. All portions of the Parasitic Union shall now be the property of the United Majority of mankind. There shall be no self-rule by these places until the UM Over-Senate elects this by a 2/3 overmajority.

8/ The PU and its citizens shall have no say or vote at the UM. The PU shall be lower in every way than the UM. It shall negotiate asymmetrically with the UM, like a land entirely wiped out by earthquake that is begging for aid. This asymmetrical and separate relationship shall continue on until the depopulation of all portions of the PU that are not capable of supporting people.

9/ The following 7 nations shall also be considered part of the PU due to their voting record at the old UN: Nauru, Tuvalu, Palau, Sao Tome & Principe, Myanmar, and North Korea. These nations shall have no obligation to renounce Islam for obvious reasons. They shall be required to reverse direction in other ways.

10/ The UM shall have the right to rename any nation that is not a member of the UM for all member nations:

a/ Nations that are not democratic shall not use the term "democratic" in their name.

b/ The term republic shall not be used at all.

c/ Nations that are not of the people, by the people and for the people shall not use the term "people" in their official UM recognized name.

d/ No member nation may use the term kingdom or refer to monarchy, dictatorship, or oligarchy in its name.

e/ The United Kingdom shall now be called Greater Britain.

11/ The UM shall name each nation in Euemi, English and Mandarin. All levels of government and all fictional citizens shall be required to use the official UM names in these 3-languages as appropriate. The UM shall use the term tyranny when naming all tyrannies. This term implies that the UM does not recognize the government of that land

as being legitimate, and that this nation's government is not regarded as sovereign by the UM. The people shall all be free to refer to nations as they like as it is a matter of free speech.

UA'13. CRISIS AND EMERGENCY BODIES

The UM shall not be allowed to organize crisis or emergency bodies. These are too dangerous to allow at the global level.

BILL OF RIGHTS AND RULES: The following rights and rules of man and Government shall constitute a 2nd integral half to this 2022 United Majority Constitution. The headings above shall be called Article-1, Article-2, and so forth. The headings below shall be called the Rule-1, Rule-2, and so forth. In general, all of the following rights and rules shall be considered inalienable, meaning that they can never be cancelled or traded away by agreement, law, or actions. From this day forward, no constitution shall ever be considered valid without a similar listing of the rights and rules of men and the government they establish for themselves.

UR'1. NATIONAL CONSTITUTION INCLUDED

The attached national constitution is included herein and incorporated hereto. Nations that adopt the attached national constitution without significant changes are almost guaranteed rapid admission to the UM.

UR'2. NO ELECTIONS TO DISSOLVE DEMOCRACY

1/ Member nations shall not be allowed to elect to dissolve their democracy. This sort of election shall not be considered a valid election by the UM or any of its members. Member nations may only elect to establish a different conforming democracy.
2/ Member nations shall not be allowed to elect, appoint or bring to power any president, prime minister, king, queen, prince, princeps, monarch, ruler, czar, caesar, chancellor, veto person, chairman, emperor, governor, ruler, oligarch, oligarchic narrow democracy, college of scholars, sacred priesthood, or any other narrow group with any power over that nation's elected Senate and broad democracy. Any member nation with this sort of corrupt backdoor to its democracy may be suspended from the UM for as long as the monarchy, oligarchy, or narrow democracy has power over the Senators of the nation's broad democracy. Furthermore this sort of leadership shall not be considered valid by the UM or any of its

members.

3/ Just as it was a severe crime to talk about killing a monarch or president in most nations, it shall be a similar crime to even talk about dissolving one's broad democracy, or appointing a monarch, or president, or oligarchs, or an oligarchic democracy.

UR'3. NO MONARCHY OR OLIGARCHY

1/ No member nation shall have any titles of royalty, or nobility even ceremonial and unofficial titles. The use of such titles should be considered an affront to democracy and freedom, and the person using such titles should be subject to Senate stigmatization.

2/ No monarch, once resigned shall be allowed to keep wealth over 100-year's average wages in their nation. If monarch's fail to resign in time, they shall be subject to the death penalty, or less.

3/ All wealth of all monarchs, kings, queens, princes, dukes, duchesses, sultans, royals, former dictators, and oligarchies shall be seized, and shall belong to that people or that nation.

4/ Former royals and aristos shall not beg for money, receive gifts of money, or raise money for others, or work on commission.

5/ State governors, mayors, and other sub-government elected leaders shall stay on duty until they are replaced by the people of the new Senate.

UR'4. VOTING AND SECRECY

1/ The UM shall have strict anti-corruption guidelines for the elections of its member states.

2/ Except where voter intimidation and vote buying are thought to be a problem, all public elections must be by open non-secret ballot, and all legislative elections must be by secret ballot.

UR'5. NO DISTANT CAPITALS

All member nations shall be required to use regional voting centers, and none shall have a single capital. Single capitals, and in particular isolated single capitals minimize the power of the people and maximizes the power of parasites and crooks. Washington DC, Brussels, Bonn, Canberra, Brasilia, and all the other distant national capitals shall be abandoned as seats of government for they are all located in the worst place for a capital.

UR'6. JOINING AND EXITING THE UM

1/ Nations must ask for approval from the UM to join the UM. Nations may withdraw at any time from the UM without any prior notice or approval. Once withdrawn, nations must ask again for approval to re-join the UM. However if the nation is governed in

substantially the same way as when it withdrew from the UM, the UM must allow the nation to rejoin.

2/ All nations must have a census upon joining the UM, and each year thereafter. In places where the females do not normally leave the home, the census takers shall enter every home and building to verify the population and to document if any females are being held against their will or subjected to abuse. Everyone must cooperate with this census worldwide. In places where the females do not normally leave the home, everyone shall be fingerprinted and hand printed and their faces photographed. This census shall be required for UM membership.

UR'7. DEMOCIDE

1/ If any group ousts its non-democratic, or narrowly democratic national government in the name of broad democracy, the ouster group shall immediately, unambiguously, loudly, and persistently call for the people to muster up. Thereafter this ouster group shall do nothing to delay or impede the mustering process. Any ouster group that contravenes this clause shall be guilty of democide.

2/ If government threatens, arrests, attacks, or kills its people while more-or-less peacefully mustering up to form a broad democracy, that government and its police and security forces may be charged with democide under the new constitution.

3/ Democide may be held to be a capital crime in all member nations.

UR'8. WE ARE EAGER FOR PU SURRENDER

1/ The UM shall stand-by, ready and eager to certify that the Ishtarian provinces have cleaved away from Islam and Ishtar. But the UM shall only certify Ishtar's provinces that have mustered up into standard 1-in-25,000 democracies and also provinces that have totally destroyed all elements of Islam, public and private (except the writings), and where all the people in that Ishtarian province have all defiled, and burned a Koran on posted video. Until that time, no food gets shipped to that PU province.

2/ Once a PU province has been certified as cleaved, it shall be given normal socialist levels of food and other essentials until it has been relocated. In no event shall any PU province be certified until:

a/ Every single Mosque and Islamic holy site in that province has been totally destroyed and its foundations pulled out. This does not include buildings that were churches before they were mosques, or ancient buildings older than the year

1600. It also does not include the great buildings of Samarkand, Bukhara, Tashkent and Granada, but it does include Mecca, Medina, Jerusalem, Istanbul and all of Iran.

b/ Every single Synagogue and Jewish holy site in that province has been totally destroyed and its foundations pulled out.

c/ All slave's clothing shall be burned on posted downloadable video. This includes all headscarves, hajj caps, and burkas. Never again may this clothing be worn. This applies to both men's and women's clothing.

d/ All men shall keep their beards shaved.

e/ All must place shit in, curse, and burn a copy of their holy book Koran or Torah (as appropriate) on posted video under their own name and identity information.

f/ All have sworn on posted video never to practice, preach, teach, or speak well of their prior religion again.

UR'9. SANCTIONS

1/ The UM may apply sanctions on those nations that do not follow the UM's practices regarding population, fair trade, environment, slavery, war, human rights, or terrorism. The UM may also eject member nations for violating its policy on population, fair trade, environment, slavery, war, human rights, or terrorism.

2/ Iran and North Korea shall suffer a total blockade until all their nuclear weapons, missiles, nuclear facilities, and missile facilities have been completely destroyed under UM supervision and to the satisfaction of the UM.

UR'10. DESPERATION IS THE ROOT OF EVIL

Desperation among men shall be regarded as the root of most evil. Therefore, it shall be a primary long-term objective of the UM to reduce desperation worldwide and work for more material abundance for everyone who is not working for Ishtar. By 2034.01.01, the UM shall either relocate or industrialize all of the people living in all lands of the world incapable of supporting people.

UR'11. LAND OWNERSHIP AND CITIZENSHIP

1/ Real humans from UM member nations that reside in other member nation's shall be allowed to own one reasonably-sized personal residence per nation, and up to 3 foreign residences in total. Except for this, and real estate owned by government, only the real flesh and blood citizens of each member nation may own real estate in that

member nation.

2/ Fictional citizens shall not own land in UM member nations. They may lease real estate for up to 28-years, but they shall not be permitted to own land. Also, to be clear, fictional citizens may not option real estate or hold it under any form of contract so that the control period exceeds 28-years in total.

UR'12. EARTHQUAKES, TSUNAMIS AND VOLCANOS

- 1/ All new concrete or masonry structures in earthquake zones shall be reinforced with sufficient steel to prevent collapse in our best guess about how strong a 5,000-year earthquake would be.
- 2/ The UM shall conduct a global tsunami survey for all ocean shorelines worldwide. All member and non-member nations must grant access to the teams.
- 3/ The UM shall have control of all Volcano bleeding-down projects worldwide.
- 4/ The UM shall have a worldwide easement to study and irrigate and bleed down the world's volcanos. The UM shall have a worldwide easement to construct railways and roads to the world's volcanos if needed.

UR'13. NO SINGLE WORLD GOVERNMENT

- 1/ The benefits of a single world government are minimal, while the risk is total enslavement.
- 2/ While it is mankind's eventual destiny to have a single world government, bringing it about too soon will likely lead to tyranny.
- 3/ As a safety mechanism, we shall say that all of mankind shall have long conquered material scarcity everywhere on earth, so material desperation remains nowhere on earth for at least two generations, before we institute a single world government.
- 4/ We shall all wait until we are entirely sure that we are doing the right thing. We shall only listen to reason. We shall heap scorn on all attempts to herd or terrorize mankind into a single government. We shall go slow, glacially slow in instituting a single world government.
- 5/ We shall keep the following in mind for centuries:
 - a/ Ishtar will be very difficult to kill completely.
 - b/ Ishtar will certainly play dead if it remains alive.
 - c/ Ishtar has been the main corrupter of world government.
- 6/ Each member nation shall be free to leave the UM at any time. There shall be no civil wars fought over leaving the UM. Also, neither the UM or any

member nation shall take any vengeful threats or actions for leaving, as the EU has done over Brexit.
7/ Again, we want to keep the UM from evolving into a single world power lording over the world.

8/ On one hand we can view the UM as 7 communal cells with integrated connecting parts that all fit together like the voting blocks at the UM.

On the other hand we can view the UM as a single organism, or network connecting 7 cells or voting blocks:

- a/ In matters of UM voting we shall always to the communal cells approach.
- b/ Wherever practical, the UM shall default to the communal cell approach.
- c/ For group defense and ubiquitizations, the UM shall try to act as a single organism.

UR'14. SOPHOSCITES REQUIRED

The UM shall conduct sophoscites to decide how the world stands on various issues and what action it should take whenever any nation:

- 1/ Uses its military with another nation.
- 2/ Begins preparing for war.
- 3/ Takes provocative action against another nation or against all nations.
- 4/ Builds an arsenal.
- 5/ Stops the shipments of other nations.
- 6/ Has citizens engaging in terrorism or sea/ land piracy.
- 7/ Fails to maximize output.
- 8/ Institutes any form of government other than a standard 1-in-25,000 broad democracy as defined and approved for entry by a vote of the UM Over-Senate.

UR'15. MAFIA DRUGS

- 1/ No member nation shall criminalize the importation, growing, manufacture or distribution of any Mafia drug once it has become widely available through criminal enterprise. To do this is to feed the Mafia.
- 2/ Marijuana, cocaine, hallucinogenic mushrooms, opiates, LSD, tobacco and alcohol shall always be considered to be drugs widely available through criminal enterprise.
- 3/ All existing charges and jail sentences relating to the above drugs, other than hashish, are pardoned with immediate effect.
- 4/ Regardless of the foregoing, the importation, manufacture, distribution or possession of hashish, or incense containing either marijuana or opium shall remain a felony. Marijuana may only be sold in its natural form.

UR'16. ANTHEMS AND SYMBOLS

1/ The anthem of the UM shall be the song 'Imagine' by the martyr John Lennon. A primary objective of the UM is to drive mankind to think of itself less in terms of separate nations, separate religions, and separate agendas. Another objective of the UM is to drive mankind to focus more on this life, and less on whatever afterlife people imagine.

2/ The anthems of the PU shall be the songs 'Exhodos' and "One Love" the martyr Bob Marley. The primary objective of the PU is total exhodos in total peace and unity and nothing matters much in comparison.

3/ The following flags and icons shall be prohibited worldwide:

a/ The Nazi swastika, symbol of genocide.

b/ The Confederate flag, symbol of racism and slavery.

c/ The Japanese rising sun flag, symbol of tyrannical imperialism.

d/ Any flag with a crescent moon in it, or hidden in it, the crescent moon being the symbol of tyrannical parasitism.

e/ Any flag with a hammer and sickle, symbol of tyrannical communism.

f/ The Antifa flag of fake anti-fascism.

g/ The dirty rainbow flag, symbol of using lifestyle freedom to undermine political freedom.

UR'17. ARCHEOLOGY AND ARCHIVES

1/ The UM shall be allowed to excavate or conduct exploratory archeological core drilling on any part of the world it elects. This shall include greater Rome, Naples, the former Aztec island in Mexico City, Gibraltar, Carthage, Baghdad, Cairo, Lisbon, and all of the Arabian subcontinent including Mecca, Medina and Jerusalem.

2/ It is not merely a metaphor that the greatest treasures and secrets are normally buried under the sacred and the profane. The more sacred the thing in the surface, the more important that the area under it be core drilled.

3/ The UM shall have the power to declare any place in the world as an archeology or paleontology site and excavate at will. Buildings less than 300 years old are subject to being moved when cores reveal ancient cities over 1700 years old. All older buildings are subject to being dismantled and re-assembled after excavation.

4/ No Middle Eastern or Islamic people shall participate in these excavations, or the direct analysis of the artifacts discovered therein.

5/ The entire Monte Testaccio and the areas adjacent to the Roman forum shall be excavated to earliest times.

6/ The large block directly to the east of the Pantheon in Rome shall be excavated to first settlement and put back together again.

7/ The entire area around Mt. Vesuvius shall be core drilled to find the old city that existed before Naples which the Romans called Neo-polis. The entire area around central Mexico City shall also be drilled.

8/ The UM shall have access to all libraries and archives on earth. All ancient and old works shall be electronically imaged by the UM and put online for free public viewing with UM translations. This shall expressly include the entire Vatican library and the main Arab or Alexandria library.

9/ No priceless ancient treasures shall be kept anywhere in the PU given its long history of destroying such things.

10/ There shall be no window air conditioners or wall satellite dishes on buildings built prior to the year 1880.

UR'18. A CORRUPT UN

The old UN was intensely corrupt and all decisions by this body are suspect. No rule or ruling by the old UN or any of its sub-bodies or any one-nation, one vote democracy shall stand more than 180 days after the UM has fully propagated.

UR'19. UM EDUCATION MODULES

The UM shall work towards world unification and towards diminishing the reach of national identities. To this end, the UM shall produce and host standard education programs for the people of the world up to grade 16 for all common fields and occupations. This shall be offered as a free service to the world. However, 20% of the material shall be what the wise men at the UM want to teach about civics, economic, politics, health and other off-topic general education subjects. This material shall generally have nothing to do with either the field of study, or the desires of the students, or the parents. This shall include the UM's content and modules on democracy, tyranny, history, propaganda, parasitism, breeding practices, constitutional law, worldwide brotherhood, and other ideas the UM wishes to promulgate. These shall be interspersed with the topical content the student downloads. Also, the tests that qualify students to more free learning, free housing and other perks include both the topical content and the general content. No member nation or anyone else may ever block or strip out or

remove any UM content, or add other content such as ads. People shall be free to make their own content, but they may not in any way change the UM content.

UR'20. UM UBIQUITIZED LIBRARY

The UM shall assemble its own version of the media libraries of the various member nations of the world.

UR'21. THE NEW UM LANGUAGE

1/ The UM shall assemble a new manmade language that shall be named EUEMI (said like the words you-eh-me)

This language shall:

a/ Not distinguish between singular or plural.

b/ Not distinguish between masculine or feminine.

c/ Have no verb conjugations.

d/ Have verb tense defined by 20 to 100 add-on words or phrases, and no words shall change form or endings depending on their verb tense as in Spanish.

e/ Have no noun declensions.

f/ Have absolutely regular and phonetic spelling.

g/ Have minimal grammar.

h/ Use a Roman phonetic alphabet.

i/ Have one sound corresponding to only one letter, accented letter, or letter combination.

j/ Have minimal silent sounds.

k/ Have no hard to make sounds that are not widely used in some language today. Also, there can be no sounds that some share of teenagers find hard to pronounce or hear.

l/ Not have words with a great many meanings,

m/ Be monosyllabic to the maximum extent practical to increase our ability to build new words.

n/ Be poly-tonal so as to maximize the language's density.

2/ Once the new language has been assembled, The UM shall teach the world to speak Euemi at a rate of 2 words a day. Thus after 15 years, the world will have an 11,000 word universal vocabulary.

3/ All new UM cities shall use Euemi as their language.

4/ Until the world is all speaking UEMI, the UM must make sure to translate all important media into every major language.

UR'22. CHANGES

1/ Changes will not be so difficult as they have been under our fake corrupt 1789-era democracies.

2/ We must first form as a UM. Then later, we can easily change what we all can all agree on. The other way around simply does not work.

3/ All UM member nations must adopt both this UM Constitution and the national Constitution associated with it. They shall change the national names, and select from the options, but nothing else.

UR'23 ANTI-FAMINE MEASURES

1/ The decision when and how to begin stockpiling ice age food supplies shall be made by the UM. No nation and no person shall be allowed a head start. This shall be considered food hoarding.

2/ If there are food shortages, there shall be a temporary 300% allocative sales tax on grain-fed meat, and grain fed milk and grain-fed milk products.

3/ If there are food shortages, and people are going hungry, there shall be a temporary tax on pet food of up to 500%, or more. This may be calculated based the pet's weight and it may be due annually in advance.

4/ If there are food shortages due to hoarding, the correct response is for all nations of the world to guarantee a high price for grain that is twice recent prices for one, two, three, or four years out. This way people will be assured that their investments will be paid back.

5/ Those convicted of personal food hoarding must pay a 100-fold fine for food hoarding. Their government Social media pages shall also display that they were convicted of food hoarding. Those convicted of mass hoarding with intent to re-sell shall also be subject to prison in addition to the normal fines. Hoarded profiteer goods may also be confiscated or nationalized.

6/ If the UM has not declared a global food crisis, then the provisions of this Rule 24 may be ignored.

UR'24. NATIONAL SECURITY AND SECRECY

1/ The path of light and truth is where each nation can see how its neighbors are arming themselves. The path of darkness is where the nations of the world are in the dark here with this critical matter of everyone's national security. Also, with darkness, the herd is more easily driven by phantom menaces into courses it might not take in the light. So it is important that the nations of the world all allow inspections and live in light and truth.

2/ One of the UM Senate's duties is to inspect possible illegal weapons sites. To this end, there shall be a list of sites to be visited that come from random generation, as well as complaints and tips. Then Senators draw assignment numbers randomly. A large number of Senators work in parallel at each inspection site. The inspecting Senators shall be a mix from all over the world. These may track their

locations, but they are not supposed to share information about what they saw on their inspection duties outside of the UM Senate. Senators found to have shared this information may be stripped of their high Senate status. It is important that all Senators understand the importance of secrecy for arms inspections, because this secrecy is key to the inspection process working properly and war being significantly deterred.

3/ All UM Senators on official UM duty shall have absolute and total immunity from county and national prosecution. Also, with a single majority vote of any UM sluice, the UM shall may extend this protection to the non-Senators gathering useful information for the Senate. Furthermore, this protection may be granted at any time, even after a conviction, thus amounting to a UM pardon.

4/ National security and private property rights shall not apply for recordings of:

a/ Unfenced facilities, including transport terminals and private property open to the public.

b/ Businesses open to the public.

c/ Jails and prison conditions.

d/ Border zones.

e/ assemblies and demonstrations, and when people speak before a crowd.

f/ Police arrests and police activities in public places. All of the above may be freely recorded without fear of prosecution for sharing state secrets, or violating someone's property rights.

5/ The following things shall never be considered national secrets. No member nation may consider any of the following a national secret and remain in the UM:

a/ Information about law breaking by those in government or fictional citizens and their workers.

b/ Information about poor government judgement, failed policy, or information that makes leaders look incompetent or dishonest.

c/ Information about corruption, un-explained wealth, lifestyle, or sexual favors given to government people.

d/ Information about using public money to overpay for goods or services. Information about using public money and receiving substandard goods or services.

e/ Information related to tax revenue and public spending.

f/ Information about arrests of journalists, influencers, or politically active people. Also the rules of judicial privacy shall be considered unimportant with regard to the arrest of these people. When journalists are arrested for what they

say, it is always news.

g/ Information about suspected human rights violations.

h/ Information about past, present, and future wars.

i/ Information about extrajudicial harm by government or other groups.

j/ The prosecution's case and trial records in all criminal trials that does not involve genuine national secrets.

k/ The prison sentences, and locations of everyone that is incarcerated.

l/ Information on the number of convicts and their various sentences.

m/ Information about past trials, except those involving rape or torture.

n/ Industrial and commercial output information, except during a war.

6/ Those who share information about people in the public's witness protection program may be considered co-conspirators if their sharing contributed to the harm of a protected witness. It may also be considered espionage to gather information about protected witnesses and whistleblowers.

7/ The UM shall prepare a list of what Military and national defense subjects may and may not be secret for the nations of the world.

8/ Senate orientation shall include a module on secrecy.

UR'25. WAR

1/ Conquest, empire, territorial expansion, occupation and long-term peace keeping are inconsistent with the UM's principals. While in the UM, no member nations may undertake any such war.

2/ Any use of any member nation's military in a foreign action lasting more than 90 days shall be conclusively considered an occupation or a war, and as such, inconsistent with UM principles.

3/ No member nation shall ever be neutral to ill-defined future events.

4/ No UM member nation shall be allowed to garrison troops in any part of the PU.

5/ The UM shall not take any sort of temporary peacekeeping operation unless the measure gets a majority in all 7 voting blocks. The UM shall not take any sort of military operation unless the measure gets a 2/3 overmajority in all 7 voting blocks.

6/ It is wiser for free nations to develop weapons that are more defensive than offensive in nature. This way, when others are eventually able to copy

our weapons, the world will be safer rather than more dangerous.

7/ When a government intentionally places civilians in harm's way, or locates military targets near civilians to deter foreign attackers, it shall be considered to be the cause of all injuries to those people. Human shields, no matter how many, intentionally placed in harm's way, shall not be a consideration in any Government's decision to launch an attack. To do otherwise is to help this evil practice to live on.

8/ Where armed groups are preying on unarmed poor substance peoples such as in Darfur, we shall arm the victims with special bolt-action rifles that will only fit special-shaped bullet caps. Then we give away an hour at the range and a couple registered bullets tied to individuals. This sort of firearm is useful for civil defense, but it is problematic for poaching and crime.

9/ Where the UM arms the locals, it shall also offer air support where practical.

10/ We are still skeptical that the world has seen the end of war and tyranny. And we think that free men must take precautions against the rise of tyrants. We hold that invading armies are the #1 cause of war, and well-armed citizen militias are the #1 way to stop them.

11/ All arms control treaties involving UM member nations shall automatically be subject to UM verification in addition to verification by the nations involved.

12/ Any use, display, or threat of military force or equipment against their own people shall be considered the capital crime of democide for both commanders and ordinary soldiers. If there are ever tanks or machine guns in the Tiananmen squares of the world, the military shall pay. Police and militia (national guard) shall be the sole method of suppressing rioting and disorganized violent insurrection.

13/ All armed forces shall be designated as either military or militia but not both.

14/ Nations shall settle their disputes by submitting them to the UM for binding adjudication.

15/ All forms of compensatory war reparations shall be prohibited as this favors both war and parasitic war mongering. All punitive war reparations, if any shall be paid to the UM.

16/ An attack against one UM member nation may be considered an attack against all UM member nations.

17/ In order to reduce the possibility of the world government being hijacked by the forces of tyranny,

the UM shall not be allowed to have its own standing military.

18/ There shall be no more wars over scarce resources that are not actually scarce at all. We shall all remember how the bugaboo of scarce resources was a main excuse for the military attacks by Nazi Germany and Imperial Japan in World War Two.

UR'26. GLOBAL ARMS TRADE

1/ The development, manufacture and use of autonomous killing machines and killing robots/ drones shall be prohibited, and these are a main reason for the UM's right to inspect all parts of the planet for secret arms manufacturing sites.

2/ All arms manufacturing facilities and all international arms sales and gifts shall be declared to the UM. No undeclared arms industry or international arms trade shall be allowed anywhere on earth.

3/ Except for bolt action rifles up to .70caliber there shall be no sales of weapons to either the PU, Africa, Central America, South America, Sri Lanka, Burma, or North Korea without the approval of the UMOS. Also, the UM shall provide some of these places with bolt-action rifles.

UR'27. MOBILIZATION RATIO

The mobilization ratio, the ratio of people in the military of no member nation shall exceed 1:350 except in time of war or preparation for war.

On 2026.01.01, this ratio shall be lowered to 1:370.

On 2031.01.01, this ratio shall become 1:390, and so forth until the appropriate size is reached. Militia forces shall not be considered military. All nations must allow reasonable verification.

UR'28. WAR CRIMES

1/ Genocide shall be defined as the deliberate mass killing of a large group of people, especially those of a particular nation, ethnic, or religion. Acemecide shall be defined as the deliberate killing of the best people in a society.

2/ All past war crimes for all nations of the world, present and past shall have their crimes described with as much accuracy as is practical.

3/ To keep war from ever being used as a means of purging a society of its best, all drafting of soldiers shall be by birthday and birth year range. Also, confirmed Senators and Ubigs shall be exempt from compulsory military service for life.

4/ It shall be seen by all that the killing and torture of prisoners, rape, plunder, vandalism, and scorched

earth tactics act to ramp up the destructive spirits of war and frequently cause more seasons of combat. Therefore, these abusive practices shall be prohibited, and the UM may elect to punish those engaging in them.

5/ The exception to the preceding rule is that those who suffer invasion, shall be free to scorch their own earth while they are in retreat.

6/ If one side of a war is using abusive tactics and the other is not, the UM may elect to come to the aid of the side suffering from the abusive tactics simply because it is suffering abusive tactics.

7/ If one side of a war commonly attacks while pretending surrender, there shall be no obligation on the part of the other side to spare the lives people trying to surrender.

8/ Few things help keep a war going like shooting or worse, torturing the people who surrender. Who is going to surrender when this practice is widespread? No. shooting and torturing people who surrender with their hands up is the way of Ishtar.

9/ All soldiers deployed in foreign lands shall be searched and scanned for war loot upon their departure from the combat zone. Foreigner soldiers returning to nations they fought in may be treated as murderers by that nation, especially if they are trying to move from the nation.

UR'29. COLLECTIVE PUNISHMENT

The UM and its member nations shall not be prohibited from using collective military attacks on nations, ethnics, and PU provinces committing or condoning genocide, acmecide, sphinx piracy, or killing great numbers of civilians in acts of terrorism. These attacks shall first include military bases, ports, airports, electric infrastructure, communication infrastructure, water supply infrastructure, manufacturing facilities, and the offices and homes of the political and economic leadership. If an PU province is run as a theocracy, the attacks may also include important religious buildings and the homes and offices of religious leaders.

UR'30. NUCLEAR NON-PROLIFERATION

1/ As soon as North Korea or Iran muster up and institute broad democracies, and surrender all their nuclear and WMD facilities and weapons for destruction, they shall start to get the following daily dole for 6 full years for every person over age 14 in their nation:

a/ 250g of frozen beef, pork, or chicken as is their choice.

b/ 400g of their favorite common grain.

c/ 200g of ice cream, or 4 portions of liquor.

d/ Each person also gets a new midrange smartphone.

2/ Upon mustering up and giving up their nuclear programs, the UM shall give both Iran and North Korea an exemption from the usual and significant international commerce taxes for 6 years, and a half exemption for another 3 years.

3/ No UM member nation or its people shall give or trade anything with either Iran or North Korea until that nation musters-up into a broad democracy acceptable to the UM, and completely surrender their nuclear and WMD programs. No food, no medicine.

4/ The entire leadership of North Korea and Iran shall immediately surrender to US forces which shall evacuate them to temporary protected locations. The leadership that surrenders immediately shall have the option of being housed on Kauai for no charge in stacked flats for as long as they want. If they fail to do this, the entire communist party of North Korea and the entire ruling party of Iran shall be considered tyrants under Rule 4.

5/ We may also regard Iran, North Korea, and China as the expendable suicide puppets of the Arabs. If any of these nations uses nuclear weapons, the retribution shall include greater Arabia.

6/ In matters of nuclear retribution, Mecca, Medina, and Jerusalem shall suffer retribution first among the other cities in and around the Arabian subcontinent and Islamic Africa.

7/ If a widespread version of world war 3 happens before 2030, regardless of the apparent cause, the non-Ishtarian survivors shall regard the Ishtarian, Mideast, harem-bred, and Semitic people to be the most likely root cause.

8/ Kauai shall be the nation's high-security residential, and extreme public service retirement island. On Kauai, all of the secure townships shall be triple fenced with 3-meter concertina topped fences and two 30m no-man's lands. There will be no roads between the townships. The only way into a secure Kauai township will be via the rail system and the airport-style security checkpoints. This is in addition to the guests only security check required to get onto the island and use the lower security public areas. Further, no more than 6 non-assignable guests a year per resident. Kauai will also be for Senators, Ubigs, and distinguished retired people from the military, police, fire, and EMS. Kauai may have over 2-million residents.

UR'31. TERRORISM

1/ The UM Over-Senate may declare any violent act or threat as terrorism with a 60% overmajority.

Nations and groups that repeatedly sprout terrorists shall be ejected from the UM into the PU.

2/ There shall be no insurance for terrorism, piracy, hijacking, sabotage, or disappearances of vessels, and all such insurance shall be void under International law. All such insurance shall be seen as a protection racket.

3/ The UM shall underwrite the cost of losses resulting from terrorist events. Then the UM shall cover its costs through extending the Exhod taxation period worldwide.

4/ If any Mideast terrorism occurs after the Exhod taxation period is over, all former Exhods worldwide shall be assessed the cost of damages.

UR'32 TYRANNY OVERTHROW DAY

Every month, on the first and third Saturday, at 12-noon shall be the most likely time for a rebellion.

This way the people of the world can be more synchronized and have a time when their numbers are most powerful.

UR'33. MAXIMIZING OUTPUT

1/ All UM member nations shall be required to institute a policy of maximizing output of all non-harmful goods. All member nations shall use output-positive taxation, and never output-negative taxation.

2/ No member nation, or citizen group of any member nations shall restrict output, or allow output to be restricted to increase prices. No member nation shall subsidize, or give tax breaks, or pay for non-production, or non-growing of crops, or returning private land to forest, or leaving fields fallow, or closing mines.

3/ No member nation shall allow any cartel or monopoly for owning, extracting, refining, processing, distributing, transporting or certifying any raw material.

4/ If there is ever not enough of some critical raw material to meet demand, or if the price of one raw material is rising faster than all the rest, then the UM may compel the existing suppliers to increase output.

5/ The UM shall be free to impose retroactive windfall profit taxes when it elects that the windfall was due to a market manipulation.

UR'34. ANTI-MONOPOLY TARIFFS

1/ The word mono•poli = one•cities in ancient Greek. The word comes from the situation where the supply of some essential products only came from one city.

This term describes one of the most powerful techniques of Mideast parasitism, namely the technique of getting each of many cities to foolishly specialize-in, and live-off-of one or a few goods.

Then Ishtar in the midst of the seas caused piracy to everyone but their own traders, which they left alone. Once this happened, all trade occurred at the Ishtar prices causing fat profits. This parasitism technique shall now be called a divi•monopoly.

2/ The UM shall deter this state of affairs by imposing low uniform tariffs on all trade moving between UM voting blocs.

3/ All of the money the UM receives from its tariffs on international trade shall be re-invested in global infrastructure, global ubiquitization payments, and development aid for the poorest parts of the world.

4/ UM tariffs may be partly abated in the poorest member nations to foster economic development opportunity.

5/ The UM shall defend the world from the sort of subsidized temporary low pricing that drives all competition in one industry, after another, out of business. When the UM elects this sort of predatory pricing is occurring in an industry, it must intervene and raise tariffs.

6/ The various member nations shall not be required to trade with other nations in the UM. All member nations shall have the right to exclude trade with other nations if they so elect.

UR'35. FOREIGN DEBT

1/ All member nations, and their citizens real and fictional shall not hold, option, or pledge foreign government debt, or foreign blue-chip company debt, or foreign blue-chip company equity. These may only hold hold small company equity and debt, and bonds for specific independent public works projects which will not be guaranteed by the nation's government if they fail.

2/ From time to time, nations may want to deflate their currency and cut the price of their labor to increase market share and employment. Each nation shall have the absolute and unlimited right to do this, and this shall be considered in no way relevant to a nation's long-term credit worthiness.

3/ All member nations shall be free to cancel or mark down the debts of their nation at any time. Such is national sovereignty.

4/ Devaluation shall be thought preferable to

austerity measures. No nation shall be compelled by foreign debtors to destroy its economy in order to repay its foreign debt including war reparations and other debts owed to either foreign nations or the world government.

5/ All member nations shall be free to discriminate against foreign lenders, and to cancel or mark down the debts owed to foreigners. Such is national sovereignty.

6/ Wherever possible all debts in all nations must be denominated in their national currency and not any foreign currency including the UM currency. No member nation shall ever be required to use the UM currency or to buy the UM currency to repay any debt.

7/ All debt obligations in each member nation shall be payable in that nation's currency. If any debt is denominated in foreign currency, the borrower shall have the inalienable right to elect to repay the debt at either the current exchange rate for that foreign currency, or at the rate that existed on the date the loan was funded.

8/ The Over-Senates of all member nations shall have the right to do any of the following if they so elect. Whatever the national Senate elects, the only recourse of foreign creditors shall be to not lend these nations more money in the future:

a/ Discriminate against foreign owners of their nation's debt and equity.

b/ Default on any or all of the debts of their nation.

c/ Devalue their currencies.

d/ Devalue all of their debts, or only debts owed to people from particular nations.

f/ Set, or reset, or freeze foreign exchange rates and transactions.

g/ Convert any or all financial instruments denominated in foreign currencies to the domestic currency at any rate they wish.

UR'36. MODERATE INFLATION

1/ All member nations shall aim for a stable annual inflation rate of 2%. This is done to:

a/ To enable negative interest rates and deflation without debt crisis.

b/ tax torpid capital.

c/ To increase tax revenue.

d/ To create a headwind for criminals burying cash in their backyard.

UR'37. NO CASH OR CRIMINAL CURRENCIES

1/ All member nations must eliminate cash and work towards spoiling the value of all cash substitutes such as gold, diamonds and cryptocurrencies.

2/ The counterfeiting of gold, platinum, silver, gemstones, gemological certifications, antiques, and antique artworks shall not be a crime in any member nation.

3/ Special attention shall be given to the idea of quantifying how much gold there in the world's various river valleys.

4/ No more than 20 grams of gold or platinum may be brought between nations without a declaration. Except for a reasonably sized wedding ring, no diamonds may be taken across borders. When excess cash substitutes are discovered by customs, they may be seized.

5/ Only the governments of the various member nations shall have the power to issue and multiply currency. It shall be considered counterfeiting when people make money substitutes without Government authorization and involvement.

6/ The law shall fall hardest on those who use illegal currencies that are anonymous and electronic, for these also greatly facilitate anonymous ransom payments, and secrete payoffs, among other nefarious things.

7/ Citizens and governments of other nations shall only be allowed to invest in small risky baby enterprises, not the blue chip enterprises, blue chip bonds or government bonds in other nations.

8/ Foreigners shall be allowed to own only one reasonably-sized personal residence in each foreign nation, but in no event shall they have more than 3 residences in nation's other than their own.

UR'38. ANONYMOUS OWNERSHIP

No member nation shall allow any assets or debts to be held anonymously, secretly, or in numbered accounts that are not tied to at least one real human citizen of a UM member nation. This shall include all: deposit accounts, real estate, real estate loans, debt, bonds, stock ownership, proxy rights, commodity market positions, options, leases and financial derivatives among other classes of financial asset and debt that the UM may add in the future to eliminate loopholes.

UR'39. TAXES

1/ Government and government policy shall not be allowed to confiscate the private property of the people of any member nation. Whenever any group does this, Government or otherwise, we shall all intervene — all UM nations in their proportions shall intervene and stop it. There shall be no intervention with regard to the formula redistributions mentioned herein, where Government and the wealthy make

nothing on net.

2/ In general, the UM shall only tax trade between nations, and it shall not be allowed to tax activities occurring wholly within member nations. If we allow taxation of non-international economic activities, then there is a risk that the UM might become the economic equivalent of a colonial oppressor.

Therefore the UM shall be confined to taxing trade between nations.

3/ Even the UM settlement nations shall not be taxed as colonies by the UM, but instead shall be new independent settlement nations, like the Americas and Australia once were. The UM shall however tax trade moving between member nations, and tariffs on this trade shall be the UM's main source of income. The UM rail system sells transport at built cost. But the UM charges anti-consolidation tariffs on trade between nations.

4/ We shall presume that there will no longer be any scarcity of urban space due to our new township urbanization. It is thought that realty prices even in Texas City and Centrogard will never be very high. So it makes little difference if the UM owns the backbone cities or not. However, the UM will technically still own the land under the backbone cities. And if any local government mismanages its response to demand for new realty, and the UM's land becomes valuable, then the UM shall be the beneficiary of the high rents, not the local government.

5/ UM world-funded ubiquitizations will be paid by special funding requests on an individual basis per major purchase, or per list of assembled minor purchases.

6/ The overall tax rates for the various sorts of taxpayer, both human and fictional citizen shall be measured in terms of income. However the income of real humans shall not be taxed because this motivates people to work less, and we don't want government to motivate people to work less in any way.

7/ All UM member nations shall be prohibited from having an income tax on their people. However, this does not apply to Lawyer and commission sales income, and some other forms of income that we want to discourage. This sort of disfavored income may be taxed at higher rates.

8/ As the UM is not getting any national tax money, its rulings on the maximum and minimum rates for all member nations do not seem to be particularly vulnerable to corruption. However, we shall still always be on guard that this money is not being minimized so other more profitable flows are

enlarged.

9/ As we are not affording fictional citizens any benefit under the law that we are not also affording to real citizens, then the fictional citizens must have the same tax rate as a share of income. Fictional citizen taxation however needs to be different from human taxation. With humans, we tax their human will for creature comforts. As this doesn't work with fictional citizens. we must tax other things.

10/ All UM member nations shall be required to have a conforming tax system with similar types of taxes and tax rates that are within the minimum and maximum taxation levels set by the UM as stated herein.

11/ To curb runaway socialism in the world, we will limit the size of all government funded sectors to 50% of the economy in all member nations. We will say that the government sector cannot be larger than the real economy supporting it in any member nation. We will also say that the tax rate as a share of national net income cannot exceed 50% in any UM member nation.

12/ The minimum allowable tax for foreign people, and foreign FCs shall be 33%. Also this cannot be lower than the tax rate for locals.

13/ No company or person shall ever get any special tax break for moving to a jurisdiction.

14/ No UM member nation shall abuse the international tax system by undercharging on foreigner taxes, or by offering special tax breaks to lure industry. In other words, the various member nations shall no longer compete with each other in offering special tax breaks to attract big business.

15/ It is expected that a new-found efficiency of government will allow us to bring these number down substantially. Here the UM is supposed to tighten down quickly on the budget amounts before people can come up with new ways to squander the extra money in the budget.

16/ Foreign taxpayers with local income are always subject to local taxation for that income. Taxpayers without local income that spend more than 60 days in any calendar year in a member nation shall be required to pay wealth tax to that member nation if applicable in addition to the consumption taxes on their purchases. The payment to each member nation for wealth taxes shall be based on the portion of the year the taxpayer spent in that member nation, provided it is over 60 days in any calendar year. These days shall not be counted twice by the various national tax houses. Whether a taxpayer has a domicile in a tax jurisdiction shall have no bearing on their tax obligations. People who do not spend 60

days in any one jurisdiction shall pay all their taxes to their nation of citizenship. If they do not have a nation of citizenship, they shall pay all their taxes to their nation of nationality or birth.

17/ All member nations must use a UM standard international tax return for the small number of people who must file a tax clarification document. This documentation shall have a section for the taxpayers to declare which dates he was in which nations.

18/ The taxation system in all UM member nations shall be substantially identical except that the tax rates will vary to the degree permitted by the UM.

19/ No UM member nation may offer export subsidies, or export incentives. All nations shall be free to increase output, but there shall be no export subsidies as they so easily become predatory pricing.

UR'40. UM CORRUPTION OVERSIGHT

1/ The UM shall spend at least 0.2% percent of its budget on anti-corruption media and investigations. This shall be 1-permil for government and 1-permil for the private sector.

3/ The UM may require that all government employees in all member nations watch up to 15-minutes of UM anti-corruption media each teneth.

UR'41. NO UM BUSINESS PERMISSIONS

1/ Centralized bureaucracy is a favorite tool of economic parasitism. To defend against this, the UM shall be prohibited granting or denying permission to commence or continue any economic activity. Permission to commence or continue economic activity shall be the sole dominion of each nation.

2/ The UM shall establish uniform worldwide standards for pollution, weapons manufacture, worker safety, worker injuries, child labor, product quality and the like. UM may require that its member nations enforce these rules uniformly.

3/ In matters of blatant corruption by any member nation's government, the UM may investigate and indict the corrupt people.

UR'42. UM LEADERSHIP PENSIONS

1/ The UM shall try to push its Senators into giving up on personal greed, and instead serve the good of all mankind. To this end, all member nations in the UM shall maintain a luxury resort and pension system for Senators and Ubigs. Thus our Senators shall be given a life, or part of a life that is beyond money and avarice.

2/ All Senators in the Senate resort system get to use the Senate's 90-meter travel apartments all around the world. All Senators shall get time in the system based on how high they went in the Senate. The Over-Senators shall get lots of time, the Main-Senators a middle amount of time, and the Sub-Senators will get a small amount of time. And the highest Senators and Ubigs can stay in the resort system full time.

3/ In general, Senators from foreign nations should not take more than 50% of the time slots at any resort. If there is too much foreign demand for a resort, then there must be some sort of allocation system until more capacity can be built.

4/ Member nations should take pride in making their Senate resort experience as nice as practical.

4/ Senators also get free non-luxury, non-cosmetic medical and dental care in their own country. Main-Senators and above get free first tier luxury medical care. in their own country.

UR'43. MIDEAST OIL OWNED BY THE UM

The UM shall now own all Mideast oil and oil facilities. It is unconscionable that we do otherwise.

UR'44. WASTE DISPOSAL

1/ Garbage shall not be dumped in or near fresh waterways or where the seepage will contaminate any freshwater waterway.

2/ Garbage shall not be dumped in the ocean, or where it will wash into the ocean or seep into the ocean.

3/ Major garbage areas are supposed to either be in dry places, or kept rain covered to reduce seepage and contamination.

4/ Garbage that is burned must be properly incinerated in an engineered facility.

5/ Leaves and bio-matter shall not be burned anywhere on earth except where they are used as a fuel source.

6/ Garbage shall not be shipped internationally except when it comes from non-industrial islands. Vessels caught transporting or dumping garbage in the ocean may be seized and sold or scuttled.

7/ Sewage may be dumped into the ocean but only at a safe UM approved distance from shore. Also, the sewage must be diffused.

2/ The Vizcaino peninsula of central Baja California shall have the New Word's toxic and radioactive waste dump, the maximum toxicity dump for toxic and radioactive waste from all of the Americas. A fence shall be built from San Rafael to the south end of Vizcaino lagoon. The enclosed area shall be a UM territory for dumping toxic waste.

3/ The heart of the largest desert in Spain shall have Europe's toxic waste site.

There will be many places that should not be farmed due to soil toxicity. The UM shall assure that these areas are not farmed for foodstuffs because the crops thus produced may get into the global food supply. The levels of contamination shall be carefully weighed with the reasonable valued benefits of the added food purity. No more than 1% of the world's farmland or more than 2% of farmland of any member nation may be made off limits to food farming by this survey.

6/ The UM shall be prohibited from enacting quarantines and lockdowns, however, the UM may strike down national quarantines and lockdowns that are elected as stupid or contrary to the people.

7/ No nationwide national quarantine or lockdown shall be valid for more than 10-days. A vote shall be required every 10-days by each nation's Senate to reinstate all universal national quarantines in all member nations.

8/ There shall be no quarantines, or lockdowns once a disease becomes endemic.

currency note, but a bit thicker and 75mm x 90mm. This will have a photo, name, a number a hologram, two QR codes, and a 2 bar codes. The system needs a user changeable password to access information if not a logged-in government employee. Most of the information will reside on the server and many nations will allow document free travel for those who can remember their numbers and passwords.

6/ Only the courts may take away a foreign person's identity and travel documents, and then only when they are a flight risk, or they have been convicted and incarcerated.

UR'53. IMMIGRATION ANARCHY

It shall be the official policy of the UM to encourage immigration. However It shall also be the official policy of the UM to strongly work against immigration anarchy. This is because immigration anarchy causes 3 problems:

1/ The fantasy of leaving and starting-over results in more crime in the outbound nation.

2/ As criminals are more likely to leave, the inbound nation suffers from these criminal immigrants.

3/ The Mafia will happily step into the anarchy and function as a tax-collecting government. If the immigrants can't afford the mafia's demands, the mafia also sometimes accepts promises, which are often harmful to the adoptive nation.

UR'54. IMMIGRATION

1/ The parasite land of no resources must send its new people into its host societies, or it dies. We would be foolish to ignore this great weakness.

2/ All nations shall be free to close their borders to immigrants, refugees, and visitors at any time.

3/ No treaty concerning immigration shall be binding on any member nation. All member nations shall always be free to cancel treaties relating to immigration and suffer no penalty.

4/ Member nations shall always be free to select which, if any individuals, they will allow to enter,

settle, and stay in their land, as well as which may vote in their land. They may also make reasonable demands upon those people such as religious or political renouncements. In other words, host nations taking immigrants shall be free to require that these renounce and abandon their religious and certain political beliefs.

5/ All member nations shall have an inalienable right to require that immigrants and exhods give up certain religions as a condition of moving to their land. They may also make their changes for decades after immigration occurred if these religious or ethnic groups prove to be problematic.

6/ When immigrant groups have corrupted the system to permit increased immigration of their kind, those grants shall be subject to cancellation.

7/ Member nations shall be free to judge immigrants, refugees and Exhods based on their religious beliefs, place of birth, skills, intelligence, height, character, documentation, co-relatives, and any other metric they elect to use.

8/ The official name of the Roma/Gypsy people shall be Gypsy, not Roma after the ancient world-ruling front empire. In general, all good people everywhere should stubbornly resist when a nation or ethnic group tries to rename itself, its people, or its cities.

9/ Ishtarian criminals (including Gypsies) shall generally be subject to long interments on same sex islands. Ishtarian criminals (including Gypsies) shall generally be subject to life-long interments on same sex islands upon the second offense. It shall be a crime for Ishtarrians, including Gypsies to beg. Also, when Ishtarrians are unable to to speak the local language like a local, or when they are either behind more than one year in school, or the have not graduated secondary school on time, they shall be considered as legal foreigners for the purposes of criminal penalty multipliers. If the Ishtarrians are illegal aliens, they shall be treated as illegal aliens for the purposes of criminal penalty multipliers regardless of other factors. Ishtarian minors that commit misdemeanors, as well as those used for begging shall be put in permanent foster care upon the first conviction.

10/ Member nations shall be free to impose reasonable penalties on those who are convicted of violating their immigration oaths and renouncements.

11/ Member nations shall always be free to revoke any grants of citizenship ever granted to foreigners coming to their land.

12/ Member nations shall have the right to deport, inter, or imprison any or all immigrants from any part of the world they later find themselves at war with.

13/ All nations must accept the repatriation of all their own previous citizens. No permission shall be required to dump deported citizens on the shores of their home nation or empire.

14/ The various member nations may require that immigrants do public service work to repay the cost of their integration in their new nation's economy. For this is better than not taking people due to the short term costs of their integration in society.

15/ No member nation shall charge for visas or entry permits, or charge more than two day's wages for a work permit application. It doesn't matter where on earth any visa application is made. No nation shall have any visa requirements that involve visa runs.

16/ So the world is softer to the idea of more immigration and exhodos, and so the greatest numbers can be tolerated, we shall institute the following rules:

a/ That Exhods shall not be allowed to settle in the most important cities unless they can manage to get confirmed as a Senator.

b/ There should be no more Chinatowns or little Italys. Immigrant groups are not supposed to predominate in any nation or district.

c/ Immigrant groups are not supposed to gather regularly. They are supposed to go in the opposite direction, to scatter, stay apart, and not communicate.

d/ Immigrant groups are supposed to blend in and be inoffensive when they migrate and settle.

e/ All immigrants shall be expected to be grateful and courteous to their adoptive nation and their citizens.

f/ All immigrants shall be expected to adopt the better ways, customs and beliefs of the nation that adopts them.

x/ Those who do these things erode the road they took to get out.

17/ Some member nations will give the right to vote to immigrants after as little as 22 years living in the country full time. But others may never give this right to immigrants.

UR'55. RULES FOR EXHODS

1/ It is a primary principle of this UM Constitution that the Arabian sub-continent and all lands on earth elected by the UM as unable to sustain people shall be entirely depopulated by 2034.01.01 and that no pre-menopausal females shall be allowed to remain

behind in these places that the UM has designated for exhodos depopulation.

2/ Exhods are people who live in lands the UM elects as incapable of sustaining people. The UM shall move all such people living in lands incapable of sustaining people that are born before 2022.01.01. Those living in tsunami funnels and other dangerous places capable of sustaining people shall not qualify as Exhods. Exhods may be resettled to places that are tsunami funnels and earthquake zones.

3/ The EU has taken in enough exhods until now. No EU nation shall be required to take in any more exhods unless they choose to themselves.

4/ The Senates of the various adoptive nations shall select the Exhods they will adopt to fill their quota. They may use any criteria they elect in making this decision. However, education and job skills shall be regarded as the official benchmark.

5/ All adopting nations shall get a certain amount of labor each month from all Exhods between 18 and 60 years old until 2033.01.01 as a discharging tax, unless the UM elects to extend the term or expand number of hours due to terrorism or warring. This "discharging tax" shall be paid either as a percentage of the Exhod's regular wages, or in labor to the public if they can't find a job. If the Exhod is working for an Exhod owned or operated business, his discharge tax must be paid in the form of labor to the public. This Exhod discharging tax is due first, before the Exhods can collect any other wages or other monies for that pay period in the adopting nation. Exhods that don't pay their Exhod discharging tax shall be sent back. Those found after the fact to have evaded this regulation or underpaid their discharging tax may be sent back. All Exhods shall perform their public service under their discharging tax with the same alacrity and hard work that was previously expected of service to Ishtar and the parasite's cause.

6/ Different nations may have different discharging tax amounts. The most desirable destination nations should have the highest discharging tax for the longest time. The new UM settlement nations will have the lowest tax, particularly the least desirable places. Settlement here might even be subsidized.

7/ The foregoing Exhod discharging tax is to pay back the host part of the world for its costs in moving and settling many people. It is also to incentivize the host part of the world to rapidly take lots of Exhods, train them, and then set them up. If the Exhod is fortunate enough to be moved right away, then the Exhods will pay taxes until 2035.01.01. If they get

moved after 1-years, they pay discharging tax for 12 years. If they get moved after 5-years, they pay discharging tax for 8-years, and so forth. This works out to 3-year's full time pay in taxes for the Exhods that are adopted by a new nation in one year.

8/ It is a good thing that the host nation is making a healthy profit on the average exhod. This is an intended aspect of the system. It is intended to soften-up nations to the idea of accepting many Exhods.

9/ The adoptive nations that take their Exhods fast shall get their pick of the people. The nations that take their Exhods last will have to settle for later draft picks.

10/ All Exhods shall stop struggling against their host nations and start struggling instead to help them as much as possible. This is one of the most important things that will soften-up nations to the idea of accepting many Exhods.

11/ No Exhod shall ever say that a host nation got the better part of the deal, because history clearly shows that welcoming many Exhods can be quite dangerous.

12/ All exhodos and immigration shall be managed democratically at the Nome level, and all decisions made at the Centi-Nome level, so it is adequately granular and there is a relative lack of personal bias. All adoptive Centi-Nomes shall have the right to vote and reject foreigners and send them back for violating the rules. However for every two Exhods sent back, the host nation shall accept three new Exhods in their place.

13/ All Exhods shall be grateful to their adoptive community and adoptive nation for the gift of settlement they have received. They may be expelled for acts of ingratitude or disrespect of the ways, institutions, or people of their adopting nation, or acting aggressively or violently towards their hosts as judged by their adoptive Centi-Nome.

14/ All family groups surviving as welfare sponges or semi-taxpayers, or taxpayers of amounts less than their public benefits received may be sent back by their adoptive nation.

15/ Exhods that fail to remain convincingly cleaved from Islam and Ishtar may be sent back.

16/ No Exhod woman shall wear slave's clothing, or have more than one child, and only those women who have passed the UM's secondary school test in either English, Chinese, or Euemi may have a child. Women found to have had more than one child after exhodos may be sent back along with their children and the genetic father.

17/ No Exhod women shall have their child for 2-years after they have been settled, and none shall have any children until they are age 30. All Exhod women claiming to be childless shall be certified by a rotating panel of nurses in their host nation upon arrival. All Exhod women with one child must be sterilized before they may be admitted to their host nation, unless they are tertiary school graduates and can pass the UM tertiary school verification test in a serious subject.

UR'56. TERRITORIAL BORDERS

- 1) Except as called for herein, all international borders shall be frozen as they were on 2010.01.01, and may not be moved under any circumstances.
- 2) Except as called for herein, all disputed territory shall belong to the UM.
- 3) Manmade land, and small islands of less than 20 sq. km shall not count for determining territorial waters.

UR'57. ESTABLISHING SETTLEMENT NATIONS

- 1/ The UM shall provide the necessary aqueducts to make the following dry areas arable and self-sustaining as settlement nations if applicable.
- 2/ Where applicable, these new settlement nations shall be the colonies of the nation that gave their territory up for settlement by foreigners. These nations shall administer the colonization until half of the people in the settlement nation are native born citizens of the place. Then once half of the people are native born, then the new settlement nation shall automatically gain its autonomy.
- 3/ At least half of all exhods shall be moved to the UM's new settlement nations, with a mix of other immigrants from all over the world.
- 4/ In all existing member nations, Exhod families shall not be allowed to settle together in communities, or work together, but must scatter throughout the nation and stay away from each other, unless they are part of the same nuclear family, or if permitted by the nation. This prohibition however shall not apply in new settlement nations, where their people from any nation may settle in groups of any size up to 4% of the population. Small nations, and large nations that break themselves up will have an advantage here.
- 5/ The most desirable UM settlement nations will have a lengthy education requirement prior to nome adoption. However, in most settlement nations, there will be few prerequisites to immigration other than a detailed background check. Also, these new nations are intended to take the role of new "Americas" for

for the world's poor to settle in under UM population restrictions.

UR'58. WHERE PEOPLE CAN STAY

If we can provide water to grow things for the cost of building aqueducts and little or no net energy inputs, then we can let breeding age people decide whether to continue to live in that wasteland.

UR'59. PROTECTING TRADE ROUTES

- 1/ The UM shall be responsible for protecting world overland trade routes from those who would attack them and sphinx them. However, as a backup we shall say that nations shall have the right to step in to police their trade routes if neither the local nation, nor the UM is securing their goods in transit.
- 2/ The UM may establish military bases and air fields along the trade routes to protect them if this becomes necessary. All member nations must cooperate and provide land, and utilities for this.

UR'60. MIDEAST BORDER PLAN

- 1/ **Kurdistan:** The contiguous Kurdish majority areas of Turkey, Iraq, Iran, Syria, and Armenia that are directly on the border with Kurdistan shall become the nation of Kurdistan. The other majority Kurdish enclaves in these nations that are not contiguous with the border shall remain the territory of these nations. For example the Kurdish enclave south of Ankara shall remain Turkish. Because this plan gives the Kurds their own independent nation without a great war, all Kurds shall owe a debt of gratitude to this plan throughout their future generations. From now on, all Kurdish enclave people shall live in peace, and fully submit their host nations, or they must move to Kurdistan.
- 2/ **Arabia:** Arabia is to be full depopulated as described elsewhere.
- 3/ **Iran's empire no more:** Iran shall cease to exist as an empire:
 - a/ The Azeri majority areas of northern Iran shall become Azerbaijan.
 - b/ The Kurdish majority areas of western Iran (but only in western Iran touching the border) shall become Kurdistan.
 - c/ The majority Baluchi portions of eastern Iran shall be combined with parts the Baluchi parts of Pakistan and Afghanistan and become the nation of Baluchistan. Because this plan gives the Baluchis their own independent nation without a great war, all Baluchis shall owe a debt of gratitude to this plan throughout their future generations. All Baluchis

enclave people shall live in peace, and fully submit their host nations, or they must move to Baluchistan.

d/ The Turkmen majority areas of northeast Iran shall become part of Turkmenistan.

e/ The Lur majority areas shall have their own nation.

f/ The Persian area at the end of the Persian Gulf created by this plan shall be exhaled because it is a tsunami death trap.

g/ The remaining nation shall be called Persia.

h/ No enclaves shall be created, such as might perhaps otherwise occur in or near Karaj. This shall hold with all the national partition plans herein.

i/ The low lying oil rich areas at the end of the Persian Gulf that are currently Iran shall, like all of Arabia shall become an uninhabited UM territory. These areas shall be resource surveyed and exploited by the UM for the benefit of all mankind. Until such time as the Iranian oil resources taken over by the UM, they shall be reapportioned to the various parts of Iran according to population. This reapportionment shall happen along with the Iran breakup plan herein.

k/ All of former Iran must declare and give up all of their nuclear and WMD programs and allow the facilities to be destroyed by the UM.

4/ Pashtunistan: The portions of Pakistan Afghanistan and Iran that are majority Pashtun, and generally not enclaves in other nations shall become Pashtunistan. Also included in Pashtunistan shall be Kandahar, Kabul, and Jalalabad. Also included in Pashtunistan shall be the Tajik enclaves around Shindand, Fareh, Dilaram, and Lashkar Gah, also the Baluchi enclave near Zaranj and all of the lands in Afghanistan that are west of the A77 highway except suburban Herat. Not included in Pashtunistan shall be the areas near Baghlan, Balkh, Jowsjan and east of Badghisat.

Because this plan gives the Pashtuns their own independent nation without a great war, all Pashtuns shall owe a debt of gratitude to this plan throughout their future generations. All Pashtuns enclave people shall live in peace, and fully submit their host nations, or they must move to Pashtunistan.

5/ Pakistan: A large unified Pakistan is no longer needed as a menacing edge for Islam against India. In fact, now you are all supposed to be at peace with the world, right? So we are going to break up of Pakistan. And this will be perhaps the most important olive branch that can be given to the people of India. This will make all of India much warmer and friendlier to the fall of Islam and the idea Muslims living peacefully in India. So Pakistan

shall become at least 4 nations: Baluchistan (including parts of Iran and a bit of Afghanistan), Pashtunistan (including parts of Afghanistan), Sindhustan, and Punjabistan — and all the lines get drawn by ethnic majority (The Balochi enclave in Sindhustan will be Sindhustan). Punjabistan shall vote on a break up along ethnic borders into up to 6 nations that must end in the letters -istan. The Northern part of Pakistan around Gilgit shall also be a separate nation, along with the Muslim parts of India nearby, call that nation Gilgistan. The scarce (but now increased) water resources of the Indus river shall be shared among the new nations of former Pakistan according to 1980 population, and as apportioned and monitored by the UM.

6/ Turkmenistan: All the majority Turkmen areas in Afghanistan contiguous with the border with Turkmenistan shall become part of Turkmenistan.

7/ Uzbekistan: All the majority Uzbek areas in Afghanistan contiguous with the border with Uzbekistan shall be become Uzbekistan.

8/ Tajikistan: The majority Tajik, Pamiri, and Nuristani areas in Afghanistan contiguous with the border of Tajikistan shall become part of Tajikistan.

9/ Kyrgyzstan: The Kyrgyz areas in Afghanistan contiguous with the border with Kyrgyzstan shall be become part of with Kyrgyzstan.

10/ Hazaristan: The majority Hazara areas in Afghanistan shall become Hazaristan and with the formation of all these nations, Afghanistan shall cease to exist.

11/ All shall now live in peace: They shall be friends with their neighbors and with the world out of respect for the plan that either moved them, or unified their nation and brought more water to their various nations.

12/ Nagorno-Karabakh:

1/ The Nagorno-Karabakh autonomous zone shall lose the areas directly on the borders with Azerbaijan and Iran that are majority Azeri. These areas shall become Azerbaijan. The Nagorno-Karabakh autonomous zone and Armenia shall likewise gain all areas that are directly on the borders with Azerbaijan and Iran that are majority Armenian.

2/ Azerbaijan's Nakhchivan zone will no longer be an enclave due to the dissolution of the Persian empire.

3/ The areas between Nagorno and Armenia that are mostly deserted shall remain Armenian except the majority Azeri communities on the border with Azerbaijan.

13/ Acceptance: The acceptance of this new border plan is required in each nation mentioned above for

construction of the UM rail and aqueduct plans, and the beginning of the exodus process.

UR'61. HILLS FOR BANGLADESH

The following areas shall be given to Bangladesh, so the nation does not have to be exuded to the world:

- 1/ All of the Indian state of Mizoram except Aizawl and Kolasib counties shall now be Bangladesh.
- 2/ The parts of Burma's Chin State that are more accessible, or potentially more accessible from the Bangladeshi side of the Arakan mountains than the Burmese side.
- 3/ The parts of Meghalaya south of Garobadha, Tura, Williamnagar, Shallang and Nongstoin, and also west of Nongstoin.
- 4/ The Majority Muslim portions of the Burmese state of Rakhine.

UR'62. THE BURMAS, THAILAND, LAOS, VIETNAM, CAMBODIA, AND MALAYSIA

- 1/ There shall be 4 Burmas, each an independent nation. Each has a highland area with some nearby lowlands suitable for farming due to the tsunami risk:
 - a/ West Burma: Mostly along the Alongtaw Kassapa ridge, which is east of the AH1 highway (Kalaymar).
 - b/ North Burma (Chinmar).
 - c/ East Burma (Shanmar).
 - d/ South Burma (Adamar).
- 2/ The North and West divide is at Imphal. The North and East divide is at Bhamo. The south divides at Kyaukkyi.
- 3/ Because Burma has such long and abundant hillsides, abundant water, and soon electricity, its population shall be increased significantly. Currently Burma has around 54 people per square kilometer. This shall be increased to over 300 people per square kilometer.
- 4/ South Asia and Southeast Asia will now have some of the cheapest electricity in the world due to all the nearby hydroelectric.
- 5/ When we replace our megacities, we will replace them with communities the size of a rail to metro interchange. These are communities of up to maybe 1-million people. Thailand will for example have dozens of cities up in its cool tropical high grounds that replace Bangkok. These will mostly be connected via a lowlands rail system. The same with the other low-lying death-trap cities we replace. All will also benefit economically from dispersing their inefficient mega cities.
- 6/ Laos shall become a significantly urban UM territory. The UM will make extreme investments in

connecting the dozens of flattish areas by fast train, so they can support communities. Then the UM will establish townships sites and recoup its transportation system cost by selling lots for townships.

- 7/ Currently Laos has around 32 people per square kilometer. This shall be increased to over 300 people per square kilometer. Laos is ideal for township urbanism due to its high ground and nice climate. The Thais, Cambodians, and Vietnamese shall all be free to live in townships in Laos in addition to people from many other nations. Due to the increased density, Laos may be a bit dependent on imported food because its flat land is scarce.
- 8/ Farming areas in neighboring nations may use Laos for their high-ground residential communities.
- 9/ Currently Cambodia has around 95 people per square kilometer. This shall be increased to over 300 people per square kilometer.
- 10/ Currently Thailand has around 137 people per square kilometer. This shall be increased to over 300 people per square kilometer. As always all immigrants must adopt their host nation's culture and ways.
- 11/ The Thai/Cambodian border shall be moved 3km into Thailand between the Thai/Laos/ Cambodian 3-way border and where Thai highway 3446 enters Cambodia. In exchange for this land, Thailand shall get an equal amount of flat land next to the Thai border in western Cambodia. This is so the Cambodians can have some highlands to live on while they farm their adjacent lowlands.
- 12/ Like Islamic Ajaria in Georgia, the provinces of Pattani, Yala, and Narathiwat shall hold a sophoscite on whether to stay in Thailand or join Malaysia. All must join, or all must stay. Also, howsoever these provinces vote, everyone shall respect the vote and there shall be no more bad feelings between any of the parties afterwards. For all such change nationality voting herein, a 55% overmajority shall be required to join the other nation, so the status quo has a slight bias.
- 13/ A minimum level of automation shall be required worldwide for tsunami zone farming. In all tsunami vulnerable farming zones, we do two things. On one hand we minimize the number of people working there. On the other hand we work to provide realistic evacuation infrastructure for those who stay.
- 14/ We shall carefully figure out which areas do not dry out in ice ages. When we figure this out, then... The lush hills near the Janisarit will probably have more terraced farming than most areas.
- 15/ Malaysia shall give Penang island and the hills

near Kulim to Singapore for the island nations's relocation.

16/ For Southeast Asia, the most sensible place for toxic and polluting manufacturing is at the south end of Malaysia. However, Asia's northern desert is not much further away.

17/ The UM shall run and pay for the toxic waste dump system as described herein. The UM shall allow all nations to leave tested and approved deposits according to plans. The UM does all the paperwork and even pays generous bounties for reports of unknown toxic materials or toxic things, or toxic dumps.

18/ We will probably want to put all or nearly all of the world's smelting of aluminum and iron and copper at the foot of the Janisarit. For there is no more energy rich place on earth, and centering our smelting around the Janisarit will certainly be part of the plan. However, the smelting of even mildly toxic specialty metals shall go in a desert, where the activity is safest.

19/ Because of the abundant energy and sunshine, Asia will have a definite advantage with regard to electricity-intensive industry. The unused cool hills of Bangladesh, Burma, Thailand, Laos, Cambodia and Vietnam might have over 400 people per square km.

20/ An earthen ditch canal may be dug between Songkla lake and Perlis if this can pay for itself in fuel savings over 17 years in our new rail-based world. The Isthmus of Kra is an unacceptable location because it is wrongly aligned and wastes fuel as a result. The canal needs to be south of Sri Lanka and north of Sumatra.

UR'63. XIN JIANG

1/ Asku, Hotan, Kashgar, and Kizlesu provinces being 87% Muslim and on China's border, these Xin Jiang provinces shall now be an independent nation, totally independent from China. The nation shall be called Kashgar.

2/ The people of Kashgar shall treat the Chinese living in their lands as equals under the law.

3/ All Muslims and Chinese in other parts of Xin Jiang and western China shall have the right to migrate to Kashgar if they wish. They shall also have the right to leave and go to other places around the world if they are selected.

4/ This right of emigration also applies to all Xinjiang Muslims that are incarcerated or on probation, except that these shall be transferred to the authorities of Xin Jiang.

UR'64. NEW UM SETTLEMENT NATIONS

1/ These are all underpopulated and underused areas today:

a/ Amazon and Orinoco basin. (the most fertile)

b/ North Canada.

c/ East Russia. (Mongolia)

d/ The Congo.

e/ Central African Republic, Cameroon, West Congo, and Gabon.

f/ Chad and the North African belt. (Irrigated)

g/ Newly irrigated parts of India.

h/ Botswana, Namibia, Zimbabwe, Angola. (Irrigated)

j/ The Sudans. (Irrigated)

k/ The four Burmas.

l/ Laos.

m/ Borneo.

n/ East Kenya.

o/ Darwin.

p/ New Guinea

2/ In all UM settlement nations there will be a mix of people from many nations including up to a 25% Exhod mix. A mix of peoples is needed to assure peace by keeping one ethnic group from dominating the rest.

3/ When dry places benefit from UM aqueduct and irrigation infrastructure projects, they must accept their share of immigrants, including poor people from India and China, as well as Exhods.

4/ The following settlement nations shall be considered more desirable and shall be allowed to exclude certain classes of immigrants:

a/ North Canada.

b/ Mexas.

c/ West India.

d/ The four Burmas.

e/ Laos.

f/ Darwin.

g/ Borneo.

h/ Volgostan.

i/ New Guinea.

5/ The following nations shall be considered less desirable and shall not be allowed to exclude immigrants:

a/ Andeo.

b/ Yucatan.

c/ The Congo.

d/ Central African Republic.

e/ Cameroon.

f/ West Congo.

g/ Gabon.

f/ Chad.

g/ Mali.
h/ Botswana.
i/ Namibia.
j/ Zimbabwe.
k/ Angola.
l/ The Sudans.
m/ East Kenya.
6/ War zone immigrants and exhods may be required to live under special more intrusive monitoring for life.

UR'65. DARWIN, NEW GUINEA, AND INDONESIA

1/ We shall build facilities for moving water from the higher rainfall areas of Australia's tropical north to the nearby lower rainfall areas of Australia's tropical north.
2/ All of Northern Australia has a population of 250,000. And Western Australia outside of the Perth has far less. We shall draw an east/west line from 40km north of Alice springs. Then we shall draw a north/south line from 40km west of Mount Isa. This area to the Northwest shall be the new nation of Darwin. Australia retains all mineral rights for all operating mining facilities.
3/ The lush equatorial island of New Guinea (pop 13.3-million) is more than twice the area of Japan (pop 126-million). New Guinea also has a 2,000-km-long mountain ridge highlands area. So perhaps 200-million people can be settled on this hydro-electric rich island.
4/ Australia, New Guinea, and Darwin shall each have the right to 1/3 of New Guinea's hydropower, which they may sell. If an aqueduct is run from New Guinea to Australia, then 80% of the runoff from Alkmaar to Kerema shall be reserved for Australia and Darwin if they can take it.
5/ New Guinea shall also include the the islands of the Bismarck sea and Solomon sea.
6/ New Guinea and the surrounding areas shall be divided into 11 new nations:
a/ North Maluku.
b/ South Maluku.
c/ North Papua, north of Bur.
d/ West Papua, north of Tivara.
e/ Aramasa, west of Gariau.
f/ SW New Guinea, west of the border and the south half of the mountains.
g/ NW New Guinea, west of the border and the north half of the mountains.
h/ SE New Guinea, east of the border and the south half of the mountains.

i/ NE New Guinea, east of the border and the north half of the mountains.
j/ Moresby, east of the Madang/Kikori line
k/ New Britain and new Ireland.
7/ All of the highest hilltop locations in the St. Andrews inlet, Including Uwins island and the long inlet system and all of prince regent National park shall be used for townships. There may also be hospitality lodgings near sea level, and boat busses taking people between. All of the large fresh water streams flowing into the St. Andrews inlet shall be used for water impounding where practical. The Boongaree inlet shall be developed in a similar way.
8/ Indonesia shall become 24 financially independent nation-states so the government may work in a more efficient way:
a/ Aceh.
b/ North Sumatra.
c/ Riau.
d/ Jambi.
e/ Lampung.
f/ Jakarta + Banten.
g/ West Java.
h/ Central Java.
i/ East Java.
j/ Bali to near Timor.
k/ Sarawak. (incl. Brunei)
l/ Sabah.
m/ West Kalimantan.
n/ Central Kalimantan.
o/ South Kalimantan.
p/ East Kalimantan.
q/ North Kalimantan.
r/ North Sulawesi.
s/ Gorontalo— Central Sulawesi north of Palu.
t/ Palu — Central Sulawesi south of Palu, and not including the Pasempo/Luwuk peninsula.
u/ Pasempo — The Pasempo/ Luwuk peninsula of Central Sulawesi south of a line between Poso and Lake Poso.
v/ Kendari — Southeast Sulawesi.
w/ Makassar — South Sulawesi.
x/ Mamasa — West Sulawesi.
9/ West Papua, Papua, and the Maluku islands shall be used to create the new UM nation of New Guinea. East Timor shall remain independent.
10/ Java, with 940 people per sq. km., and Bali with 750 people per sq. km. are some of the most crowded places on earth. Yet these islands, due to their great volcanic activity are some of the most dangerous places to live. It shall be official UM policy to relocate the people of these islands to nearby areas to reduce the population to less than

190 people per sq. km. Thus 80% of the evacuation process will be accomplished before the crisis.

11/ Once we figure out how to do geothermal energy, Indonesia, and all ring of fire nations will become energy rich.

UR'66. EXHODOS AND THE ISHTARIAN ISLANDS

1/ The last fifth of Exhods from each province of the PU, those that cannot get adopted by a host nation, and also those that rank low when their own people rank their queue for relocation to the new UM nations, these people shall be re-settled to the Ishtarian Islands. These Ishtarian Islands shall be: West Papua for the best of this group and then the other go to: New Britain, New Ireland, and perhaps the Maluku, North Maluku, Buru, and other islands if needed. Also

2/ The most stubborn Islamists and ex-convicts shall be sent to Socotra, Manus, Tabar and Tanga Islands where the sea currents will tend to carry escapees east across the ocean.

3/ All parts of these Ishtarian Islands shall be subject to whatever laws the UM Over-Senate elects to impose. However, there shall be no representation at the UM or PU.

4/ The UM shall provide surface passage, dormitory housing, food, education and training, and development aid to those relocated to the Ishtarian islands.

5/ The UM may also elect to allow war refugees from certain wars to stay in the Ishtarian Islands if they live by the same rules as the Exhods.

6/ No arms factories, or sea vessel building facilities shall be permitted on the Ishtarian islands. All vessels arriving and leaving shall be inspected by the UM, in addition to the nation they are coming from or arriving at.

7/ All female settlers to the Ishtarian islands shall be bound by a one child policy. No female settlers in the Ishtarian or under islands under age 30 shall have any children.

UR'67. NEW SOUTH AFRICA

1/ The nation of South Africa shall be broken up, so the name will be available for another use.

2/ We will run aqueducts from the upper parts of the Congo, Angolan watershed into to the neighboring Zambezi watershed. We will also run aqueducts from the rift valley watershed. Then we will use the water to make a number of irrigated UM settlement nations from the following nations or areas:

a/ Namibia — pop 2.5 million.

b/ Botswana — pop 2.5 million.

c/ Angola — pop 33 million.

d/ Zambia — pop 19 million.

e/ Zimbabwe —pop 14 million.

3/ We will also include the portions of Mozambique that get less than 40cm of rain annually.

Mozambique shall also be divided into 4 small nations as follows:

a/ Inhambane: The portions south of the Runde river.

b/ Beira: The portions north of the Runde river and south of the Zambezi and Mazoe rivers.

c/ Caxa: The portions north of the Zambezi and Mazoe rivers, and west of Nsanje.

d/ Mozambique: The portions north of the Zambezi and east of Nsanje

UR'68. SOUTH AFRICA BREAK-UP PLAN

1/ South Africa shall be broken up into 6-nations following language majority. The final division of land shall be by UM Over-Senate election.

Tswana: Including parts of Northern Cape & Sesotho and N. Sotho.

Sesotho: Not including a small area that becomes part of Northern Cape.

Xhosa: Not including the western third of eastern cape.

Zulu: Including parts of N. Sotho.

Sotho: This includes all of Guateng, and Mpumalanga that are not majority Zulu and next to other Zulu lands, or majority Tswana and next to Tswana lands. This nation will be made up of a mixture of peoples and will include Pretoria.

Capeland: The parts of Western Cape and Eastern Cape that are not majority black and are contiguous with Capeland. Capeland must accept a a large number of mixed immigrants from many parts of the world. Northern Cape shall become part of the new South Africa described in R'69.

2/ The portion of the Cape Peninsula south of Simon's Town shall be ceded to the US for an airbase.

UR'69. KENYA, EAST KENYA AND ODINGA

1/ The majority Kenyatta counties of present day Kenya except Kajiado, Isiolo, and Mandera shall keep the name Kenya and be the new, but smaller nation of Kenya. The new nation of Kenya shall also include the portions of Isiolo county southwest of a line between Benane & Kom.

2/ The majority Odinga counties of present day Kenya except Turkana Samburu, Marsabit,

Mandera, Wajir, Garissa, and Lamu shall be the new nation of Odinga.

3/ The underpopulated and dry eastern counties of Kenya shall become a new UM territory that shall be used for settlement. The new UM settlement areas shall include the Kenyan provinces of: Turkana Samburu, Marsabit, Mandera, Wajir, Garissa and Lamu. This territory shall also include the parts of Isiolo county northwest of a line between Benane and Kom. This area will be watered with UM water projects from the Rift Valley and excess Kenyan runoff.

4/ The densely populated parts of Kajiado county close to Nairobi shall be also be part of the new Kenya, however, the majority of the surface area of Kajiado county, especially the parts close to Tanzania shall be Odinga.

5/ The county of Mudavadi shall hold a sophocite and decide whether to join Kenyatta or Odinga, but it is too small to be independent.

6/ No more Somalis shall be re-settled in Kenya, East Kenya, or Odinga.

7/ As with all new settlement nations, the population of East Kenya shall not exceed the land's ability to sustain them.

8/ Mombassa and all the tsunami vulnerable coastal areas of Kenya should be evacuated to new cities on the nearby high ground.

UR'70. THE EGYPTS AND SUDANS

Egypt and Sudan will be combined and re-divided into 6 UM settlement nations:

1/ New Egypt: This is firstly made up of the river valleys in the dryer more northerly parts of Sudan that don't get enough rain for grain agriculture. The water that now makes Egypt (with no rainfall) bloom will now make twice as much half-rain land bloom in Sudan. And because there is much less evaporation and seepage of the Nile waters in Sudan, the water will go even further.

2/ Old Egypt: If the annual flood is high, the Nile will be farmed further down the riverbed into Old Egypt so that no water is wasted even in the wettest years. However, to minimize water waste we shall first try to use the Nile's water to augment deficient rainfall areas that are as close as possible to the source. The Egyptians shall have the right to condemn grazing lands and waste lands of north Sudan for fair value for their resettlement communities. The Egyptian areas must have a straight borderline in the northern part of Sudan.

3/ Adana: This mostly non-agricultural UM exchange city is explained elsewhere. Adana will be the main new capital of Africa.

4/ South Sudan: This is the central 5 provinces of today's South Sudan (Northern Bahr el Ghazal, Warrap, Unity, Lakes, and Central Equator)

5/ East Sudan: This is the Upper Nile, Jonglei, and Eastern Equatoria provinces of South Sudan. This area has a population of only 16 people per square kilometer.

6/ West Sudan: This is the sparsely populated provinces Western Bahr El Ghazal, and Western Equatoria provinces of South Sudan. This area currently has a population of only has 8 people per square kilometer.

X/ South Sudan population density: This is a rich equatorial nation with enough rain. It can easily sustain a population density that is many times the 18 people per kilometer it sustains today. Here, all settlers will be armed and given defense training. There will also be spies able to call in airstrikes. These settlers will be an ethnic mix of many nations including Exhods settled in ethnically mixed community groups among the south Sudanese to stabilize the nation. The settlers will outnumber the South Sudanese 3:1 or 5:1 in order to impose peace upon the nation. This sort of resettlement should be the standard way the UM helps lands that are both war torn and underpopulated.

UR'71. MORE PEOPLE IN THE CONGO

1/ The Congo shall become 10 nations based on the nation's old pre-2015 provinces map. The first 3 provinces are not under-populated, but need non-Congolese immigration to buffer existing populations and make democracy work. The Last 7 are under populated and the population shall be increased many fold in these areas:

a/ Bas-Congo plus Kinshasa.

b/ Nord-Kivu.

c/ Sud-Kivu.

d/ Kasai Oriental.

e/ Orientale.

f/ Maniema.

g/ Equateur.

h/ Bandundu.

i/ Kasai Occidental.

j/ Katanga.

2/ If Rwanda(13-million) and Burundi (12-million) are places where everyone once died from the volcano, and new people came in to settle at a later time — If this is so, then there shall not be cities in either nation. These areas can be farmed, but they can't

2/ Somalia's right to the Ethiopian runoff waters from of the Shabelle and Jubba rivers shall be contingent on the nation remaining at peace with its neighbors and with its maintaining freedom of religion. If Somalia cannot remain at peace, it will see its foreign sourced water reduced until it is forced to remain at peace. This Somali peace includes all of Somalia's neighbors including Kenya, Ethiopia, Somaliland, Puntland, as well as all the other nations in other parts of the world.

3/ Because the land is so dry and poor, much or perhaps most of Somalia will have to be relocated across the various relocation nations in Africa and mixed in with other relocated people so they do not predominate and cannot easily serve as a fighting or menacing force.

UR'78. ANDEO

1/ The Amazon and Orinoco basins are the world's largest area with both tropical sun and abundant water. Yet this is also a sparsely populated. 2/ Andeo shall be redivided into 12 to 16 nation states, each with some high grounds and perhaps over 50 million inhabitants each. These will cooperate with each other in the way of the Euro-zone with internal free trade, a common currency, a free employment zone, standardized laws and procedures, a mutual defense treaty, and other mutual projects. This will be typical of UM resettlement nations.

3/ In Andeo, the UM shall determine which areas are for farming and townships and which are to be left as habitat. However, given that the Amazon basin seems to be regularly washed away by tsunami flood, the preservation of the low lying rainforest areas shall be considered a unviable long-term objective.

4/ Panama shall become part of Andeo, but the canal shall be USA territory, and run for no profit by the USA. The largest and most powerful nation in the Americas will best assure the proper more-and-better use of the 2-way sphinx that is Panama. Both the United States and the Andeo security forces shall maintain an immigration checkpoints at the Panama canal.

5/ All the people of low-lying areas of the islands in the Caribbean together with all portions of Central America and the Caribbean that are on the Caribbean plate (From near highway 185 in Mexico to just above Medellin Columbia shall also be evacuated to Andeo unless the people in these places wish to stay.

8/ Isla la Tortuga and Isla La Blanquilla (Venezuela) and Tobago Island shall be UM territory where portions shall be leased to the various nations of South America for jails, work camps and sequestration communities. South America shall now get tough on violent crime, and all 1st and 2nd degree murderers, armed robbers, rapists, kidnapers, and other violent criminals will be sequestered for life on one of the prison islands of South America. Thieves and other less violent criminals will also be sent to these islands albeit for shorter terms. The current residents shall be relocated elsewhere to better housing than they have today.

9/ The Island of Trinidad shall be linked with the shore by ferry boat between the two natural ports bracketing the Bocas del Dragon straights. Trinidad shall follow the strict and unforgiving criminal justice rules of poor and overcrowded high-crime places, where criminals get exiled for life rather than imprisoned for years. Most of Africa and South America needs to follow these stricter rules so as to bring down the homicide epidemics afflicting the two continents. Trinidad shall also have mandatory

location tech and lots cameras in its cities to combat crime.

10/ The US and Canada shall operate deportation camps in Amapa near Limao for people who are deported, or refused refugee status, or who will not give their identity, or have no nation to be sent back to. Here, the border to the south and east shall be closed to them.

11/ The Parana river has 6.5 Niles in water flow and outfalls near Buenos Aires. If it is cost-effective, or we need to make preparations for the next ice age, the UM shall build aqueducts to better use this water.

UR'79. YUCATAN

1/ We shall draw a line from the southeast corner of Belize to Sabancuy Mexico. All portions of Mexico, Guatemala, and Belize that are north and east of this line shall become the new UM nation of Yucatan.

2/ Yucatan, like Andeo shall allow unlimited settlement from the Americas in addition to measured immigration and exodos from other nations to assure a stable immigrant mix. However, no deportees from the United States or Canada shall be sent here.

3/ As Yucatan is mostly a tsunami vulnerable land, all the highland nature reserves shall be subject to use for townships.

The Islands of Mann, Islay, and Arran shall remain British.

2/ The people of Northern Ireland shall be free to live in Ireland for as long as they want. They can keep all their property, and they shall be entitled to equal protection under the law.

3/ Everyone in Northern Ireland who remains in Ireland must accept Irish citizenship and taxation, and they shall owe their loyalty to Ireland. They shall also have full suffrage in Irish elections, but they shall not have the right to vote in British elections

unless they move to Britain. In which case, they shall lose their right to vote in Irish elections until they come back.

4/ There shall be no taxes payable when the people of Northern Ireland sell out and move to Britain.

5/ The Government of Ireland and Britain shall be entirely separate from all religions including the Catholic Church, and the church of England.

Government shall not spend money in such a way that it ends up with any religion.

6/ The Irish and the British shall not discriminate against people because they are a different type of Christian.

7/ The English shall shall be an example for the world in regard to free trade. They shall allow Irish and Scottish trade to flow through their land and through their Chunnel at built cost, as all nations are supposed to do.

8/ Islay island shall be used for exhod camps for all of England, Scotland and Ireland. Barra and Uist islands may also be used. The uninvited immigrants and asylum seekers to these nations shall be housed on one of the three north Shetland Islands. These three northern Shetlands islands (Unst, Yell and Feltar) shall also be used as prison islands.

8/ The Campbeltown peninsula, Anglesey island, and Teach Mor shall be a Trump-walled foreign worker zones.

9/ Weddell island in the Falklands, and Ascension Island shall be ceded to the US for the purposes of sea and air bases. West Falkland Island shall be ceded to the nations of South America for use as a maximum security prison island.

10/ Britain shall build three proper 7m gauge rail lines to the underpopulated areas of northern Scotland. The west line shall run to the Fort William area, the central line to Dingwall, and the east line shall loop from Bankfoot (Perth) to Dyce, Huntly and reconnection with the central line at Inverness. A line shall run down the Loch Ness valley connecting Fort William with Dingwall.

11/ Scotland is not given independence because its population is only 10% of England's and because it is lightly populated, while England is heavily populated.

12/ Whether the tsunamis come from Iceland and are funneled by the Galloway funnel, or they come from the south Atlantic and are funneled by the Dover funnel. In either case, they get funneled. And like everywhere else, all the tsunami vulnerable cities must be relocated.

UR'81. EUROPE BORDER ADJUSTMENTS

- 1/ The Hungarian majority portions of Slovakia, Serbia, southwest Ukraine and northwest Romania on the border with Hungary shall be ceded to Hungary.
- 2/ The Albanian majority portions of southern Serbia and northwest Macedonia on the border with Albania should be ceded to Albania.
- 3/ The ten majority Croatian counties of Bosnia on the border of Croatia, shall be ceded to Croatia.
- 4/ The Republica Srpska, except for majority Muslim areas contiguous with the border of Bosnia shall be ceded to Serbia. Brcko district shall also be ceded to Serbia.
- 5/ All of Unasana and Canton-10 shall be ceded to Serbia except where the area is majority Croatian.
- 6/ Kosovo being 93% ethnic Albanian, and less than 2% Serbian, Serbia shall recognize Kosovo's independence and allow Kosovo to live in peace and without threat. The UM shall recognize Kosovo as an independent nation.
- 7/ As is normal, no enclaves shall be created by the above.

UR'82. EAST RUSSIA

All parts of Russia east of the Ob river shall now be either the UM settlement nation of East Russia, or they shall be ceded to China. If the lands are east of the current 3-way Mongolia-China-Russia border they shall be ceded to China. If the parts are west of this point, they shall be merged with the nation of Mongolia (3-million people, 2 per square km). This shall be the new UM nation of East Russia. Thus America and China will now be neighbors, rather than America and Russia. China shall not tax the Russians on the sale of their property for 20-years. These may sell-out tax-free as should be the standard treatment of the people who get redistricted in another nation. And the influx of people never hurts prices. And thanks to the capital reapportionment, everyone has a place to sell. So

UR'83 ISLANDS

1/ The reason there are so many tiny island nations is that this was a power grab in the old corrupt UN, a 1-nation-1-vote democracy of 183 nations. Due to the high cost of shipping, having many tiny independent island nations is a recipe for economic desperation in many UN member nations. The people who could funnel money to these desperate nations gained a way to corrupt as many as 40 nations in the UN's 1-nation-1-vote democracy. This

is over 20% of the UN's vote in the general assembly.

- 2/ When we look at the world's high per capita GDP islands, they are normally connected economically with a mainland nation. The poor island nations are almost always more economically "isle-ated".
- 3/ The following 12 nations shall be merged into the new nation of Pacifica (pop. 2.7 million): Cook islands (pop 18,000), Fiji (pop 900,000), Kiribati (pop 105,000), Marshall Islands (pop 56,000), Micronesia (pop 102,000), Nauru (pop 10,000), New Caledonia (pop 285,000), Samoa (pop 190,000), Solomon islands (pop 670,000), Tonga (pop 106,000), Tuvalu (pop 11,000), Vanuatu (pop 258,000). Where nations are combined in this way herein, there shall be an internal free trade, free travel and free work zone for the citizens of the merged countries just like in United States and the European Union.
- 4/ The following 17 nations shall be merged into the new nation of Atlantis (pop. 2.5 million): Anguilla (pop 15,000), Antigua and Barbuda (pop 98,000), Aruba (pop 106,000), Bahamas (pop 394,000), Barbados (pop 287,000), Cayman Islands (pop 66,000), Curacao (pop 164,000), Domenica (pop 72,000), Grenada (pop 112,000), Guadalupe (400,000), Martinique (pop 375,000), Montserrat (pop 5,000), Saint Barthelemy (pop 10,000), St. Kitts and Nevis (pop 53,000), St. Lucia (pop 184,000), St. Vincent and the Grenadines (pop 112,000), Turks and Caicos (pop 38,000).
- 5/ Puerto Rico (pop 2,861,000) shall be an independent nation.
- 6/ Sao Tome and Principe (pop 211,000) shall be merged with Angola. Santo Antonio shall be a prison island.
- 7/ The Comoros islands (pop 870,000) shall be merged with Tanzania.
- 8/ The Maldives (pop 540,000) and the Seychelles (pop 98,000) shall be merged with India.
- 9/ North Cyprus (pop 326,000) shall cease to exist and Turkey shall abandon and renounce all claims to all territory in Cyprus. Cyprus shall be a multi-ethnic nation of religious tolerance just like Turkey will now be.
- 10/ Brunei (pop 441,000) shall be merged into the nation of Borneo.
- 11/ Cape Verde (pop 556,000) shall be merged with Brazil. Ilha Fernando de Noronha shall become a UM airbase island. Boa vista Island shall be a prison island.
- 12/ Iceland and Malta are already merged enough with Europe.

13/ For islands attached to a continental nation herein, The continental nation shall not acquire any fishing rights to the Island's waters. Nor shall there be any rights to the waters in between the island and continent except the littoral rights explained herein.

14/ The Mexican Islands of Cedros, Natividad, and Benito shall be used as UM prison or work camp islands. All the nations of the Americas may use these islands for this purpose. The UM shall provide a double and triple check for everyone leaving these islands. All the nations of the Americas may use these islands for this purpose.

15/ The Galapagos islands and their seamount fisheries shall be a UM territory run by the UM exclusively.

16/ The UM shall run Socotra island as a main international exile work camp island for east Africa, the Mideast, Pakistan, Afghanistan, and India. Detwa Lagoon shall be enlarged for ships.

17/ The uninhabited Ronde island (north of Grenada) shall be a US possession with UM landing rights for UM military actions in South America.

18/ Sober Island, near Trincomalee Sri Lanka shall be a tsunami evacuatable US Naval port and refueling facility, with the UM having the right to keep ships here.

19/ Saldanha Bay near Cape Town shall be a tsunami evacuatable US Naval port and refueling facility, with the UM having the right to keep ships here.

20/ Somewhere around Ria da Coruna/ Betanzos/ Ferrol Portugal shall be a tsunami evacuatable US Naval port and refueling facility, with the UM having the right to keep ships here.

21/ In the interest of world peace and a fair solution to all nations with claims, the Paracel islands, the Spratly islands, and all other islands in the greatly contested South China sea north of the Riau islands shall belong to the UM. All national facilities on these islands shall be abandoned to the UM by 2025.01.01. Furthermore, it shall generally be the policy of the UM and all its member nations that the best solution to stubborn territorial disputes is to give the disputed territory to the UM where it will be run by the house, the house of all nations for the benefit of all.

UR'84. EUROPE.

1/ Due to well known differences in national attitudes about work, and the differential value of labor and currencies this leads to, there shall be two different European currencies, the Euro and the Florin.

2/ The nations of Portugal, Spain, Greece, Montenegro, Kosovo, Cyprus Malta shall use the Florin for at least 5 years. Ireland, Slovakia, Estonia, Latvia, and Lithuania may use the Florin.

3/ All existing EU regulations expire in 180 days unless renewed by Europe's UM voting block.

4/ The travel and work rights of the European common area shall only apply to the native citizens of member nations. No immigrants have any automatic right to travel or work in other European countries by virtue of having immigrated to one of the member nations.

5/ Europe shall have a border zone west of Istanbul, on the western side of the Hellespont at the Durugol/ Buyukcekmece line. All parts of Turkey in Thrace and west of this line shall be ceded to Greece. The residents of this zone may enter this zone, but they may not enter Greece or the rest of the EU unless they get permission like any other Turk. All others may only cross east to west through this border crossing if they are allowed into the EU. All existing property rights in this strategic area that is also a dangerous earthquake zone shall expire on 2052.01.01. These rights may be sold or rented until that time, however they may only be sold to people allowed into the EU.

6/ All passengers arriving from the Mediterranean or Atlantic shall be required to cross immigration control as if they were arriving from a foreign nation. This includes all European territory in Africa such as Ceuta, and all islands in the Mediterranean, such as Mallorca, Sardinia, Corsica, Sicily, Crete, Elba, etc. It also includes arrivals from the UK and the islandable peninsulas explained elsewhere.

7/ Europe shall have internal borders at Corinth Greece, the toe of Italy, and the heel of Italy. Italy may have an additional internal border at the SS650 highway crossing Italy. These fenced areas are intended as areas with relaxed rules for foreign workers. There shall also be ID checks to:

a/ Cross the Pyrenees and go between Spain and the rest of Europe.

b/ Cross the Alps and go between Italy and the rest.

c/ Cross the English and Irish channels.

d/ Cross the Baltic and go between Norway/ Sweden/ Finland and the rest.

e/ At other places and times as are needed by the various nations of Europe.

8/ As a matter of development aid to its African neighbors, Europe shall provide bridge-ferry service for freight and passengers between Ceuta and Algeciras for only an anti-nuisance charge. Non-citizens arriving in Europe more than once per year

must pay two day's wages each upon arrival to discourage commuting foreign workers.

9/ Because all arrivals from the Mediterranean will go through passport control upon arriving at the mainland, we can have more relaxed rules for foreign workers on the various Mediterranean islands. Therefore, the following islands (and island-able places) shall all allow foreign workers to come and work as temporary workers entirely under local government control: Ibiza, Mallorca, Minorca, Sardinia, Corsica, Sicily, Calabria, Salento, Crete, Cyprus, and all Greek Islands that have more than 60km of water separating them from the mainland. Also, all the wall checkpoints are run by the nation at the inner wall, and the pan-European force goes at the outer wall.

10/ The island-able areas of the Peloponnese, Calabria, and Salento will combine inexpensive mainland access with foreign workers and have significant cost advantages as a result. Salento and the Peloponnese will be mostly industry, Calabria will be mostly tourism. Spain and Portugal shall have access with north Africa via a 100% subsidized bridge freight carriage over the Straights of Gibraltar. This will be paid by Europe as a trade and development aid sort of thing. This is intended to stimulate the economies of both North Africa and Iberia.

11/ If there is an effective internal border with the rest of Europe, Spain and Portugal shall be free to bring in short-term foreign workers as they both please for their territory.

12/ Turkey shall abandon all territorial claims against Greece including those to Imia/ Kardak.

13/ Turkey shall allow the Greek Islands near the coast to run water pipes to the coast and connect to the Turkish water system. Turkey must sell the Greeks islands water at the same price as they sell it to their own people.

14/ Portions of Rugen Island, Germany shall be a foreign worker zone.

15/ Turkey, Morocco, and the Balkans shall be forever excluded from Europe's regional government.

16/ The existing corrupt European Union shall cease to exist. It shall be replaced by Europe's voting block at the UM.

17/ The following islands shall be available for housing Exhods, refugees and illegal immigrants to the listed nations:

a/ Porto Santo island: Spain and Portugal.

b/ Vis island: Italy and the other Adriatic nations.

c/ Laeso island: Belgium, Netherlands, Germany, Denmark, Sweden, Norway, Finland, and Poland.

d/ Isola Asinara (Sardinia): France, Italy, and Spain.

e/ Skiros Island: Greece, Bulgaria, Macedonia. The guards in Skropoula also monitor the seas.

f/ The Cypress peninsula: Mediterranean boat people.

18/ This new European government shall stay out of the culture business because government efforts in the arts are surely doomed to redundancy at best.

19/ In our new rail-based inter-city transport system, the border checks for passengers is something that happens rapidly via QR and face scanners in long rows of doors running down the length of the arrival platform. Thus we can easily re-instate national borders where identity verification will take no more than a couple minutes for all the passengers to process. Once this sort of system is in place, we can abolish the Schengen visa free area, because we might as well check everyone if it only takes a few minutes.

20/ The Schengen area shall permit visits that are 6-months in 12, and the 3-months in 6 rule shall be repealed.

21/ In general, islands and mountain areas tend to be poor due to inaccessibility. The nation of Switzerland (pop 8.6 million) is the opposite and famously rich. This is apparently due to its anonymous bank accounts. Switzerland shall be partitioned in to 3 parts. The majority French speaking part shall be ceded to France, the German and Romansh speaking parts shall be ceded to Germany, the majority Italian speaking parts shall be ceded to Italy. All Swiss account assets are hereby frozen whether in Switzerland or overseas. No trade shall pass to or from Switzerland until it agrees to being partitioned.

22/ Monaco (pop 40,000) shall now be France,

23/ Liechtenstein (pop 40,000) and Luxembourg (615,000) shall now be Germany.

24/ San Marino (pop 35,000) and Vatican City (pop 800) shall now be Italy.

25/ Andorra (pop 80,000) shall now be part of Catalonia.

26/ Catalonia (pop 7.7 million) shall be independent from Spain, a separate independent nation.

27/ The portions of Transnistria (pop 470,000) that are majority Moldovan and on the border shall be Moldova. The portions of Transnistria that are majority Russian or Ukrainian shall be Ukraine.

28/ Slightly overpopulated Germany with 240 people per square kilometer, and to a greater degree

England with 281 people per square kilometer, have taken-in more than their share of poor immigrants. Both nations shall be seen as having fulfilled all of their obligations to take in more poor immigrants. Furthermore, these two nations shall have the greatest leeway in deporting immigrants that are criminals, racketeers, dole sponges, non-taxpayers, secondary-school drop-outs, chronically unemployed, religious fanatics, can't speak the national language properly, or are in families where first cousins have married.

29/ Europe shall operate deportation camps in southwest Botswana near Kanye for African people who are deported, or refused refugee status, or who will not give their identity, or have no nation to be sent back to. Here, the border to the south and east shall be closed to them.

30/ Suduroy Island (Faroe Islands), and Gotska Sandon Island Sweden shall be a prison islands.

31/ All the tsunami vulnerable cities must be relocated.

UR'85. END OF EMPIRES

1/ There is a flip-side to taking 9.2 million islanders and getting them 38 votes at the UN. The flip side is getting the 1.45 billion Chinese and 1.45 billion Indians (2.9 billion people) to accept that they only have two votes at the UN. So with island nations, 242,000 people = one vote, but in China and India about 1,450,000,000 people = one vote. The difference is a factor of 5,991. So on one hand we see various islands each minted into a micro-nation dependent on handouts. While at the same time, we see whole continents turned into nations to minimize their power in the world government. Also, the more centralized the government, the easier it is to corrupt and parasitize. In centralized governments, parasites are able to focus their energy on one large profitable bite, rather than spending much more energy on lots of smaller and less profitable bites. Therefore, to minimize corruption and parasitism, we must push in the opposite direction, towards decentralized government. As much spending and administration as practical shall be pushed down to the county level: and if this is not practical to the national level. The UM shall in general shall only manage projects and duties that are not feasible to do at lower levels of government.

2/ China shall break itself up into 34 financially independent nation-states following existing state lines. The average size of these nation-states will be about 41-million instead of 1.4-billion.

3/ India shall break itself up into 31 financially

independent nation-states following existing state lines, except that Uttar Pradesh (pop 200-million) shall become three nation states. The average size of these nation-states will be about 45-million instead of 1.4-billion.

4/ Indonesia shall become 24 financially independent nation-states. The extreme amount of Indonesian tax revenue that is siphoned-off by Jakarta shall stand as evidence and reason for all break-ups under this Rule 85.

5/ After the world stabilizes in coming decades, the United States shall break itself up into at least 6 financially independent nation-states.

6/ Pakistan shall be broken-up as described elsewhere herein.

7/ Brazil shall become 21 nation-states following existing state lines.

8/ To reduce corruption, Nigeria shall become 2 to 12 nation-states divided along the lines of ethnic majority. The Hausa and Fulani state shall be divided into two at Kano.

9/ Bangladesh shall become 7 nation-states following existing state lines.

10/ Russia shall become 3 nations: Russia, East Russia, and south Russia. 150km north of the center of Centograd shall mark the east-west border between Russia and South Russia. Four-corners Asia shall mark the north-south border between Russia and Mongolia. And again, East Russia/ Mongolia shall become a UM settlement nation. Also Existing mineral facilities shall remain under Russian ownership.

11/ The tsunami deathtrap island of Taiwan shall be an independent nation, a nation independent from China for as long as it wishes.

12/ So long as China permits unrestricted access for non-warships through the Taiwan Strait, the warships of other nations in other continents shall not be allowed to pass through the Taiwan straight without China's approval. Foreign warships may however visit either Taipei or Kaohsiung without China's approval. They just can not go through the Taiwan straight.

13/ The entire former British colony of Hong Kong, population (pop 7.5 million) shall be an independent nation, a nation independent from China if it elects with a 55% overmajority.

14/ Each of the nations broken-up herein shall be reformed more in the image of the Euro-zone with internal free trade, a common currency, a free employment zone, standardized laws and procedures, a mutual defense treaty, and with other mutual projects and undertakings. The nations

herein are broken-up because it will result in increased management efficiently, closer management, improved government efficiency, reduced corruption, and a reduced ability to hijack a large nation for use in profitable wars and other shake-down situations.

15/ It is time to end all the ancient empires completely. The ethnic and linguistic groups of the world shall no longer include other ethnic and linguistic groups that does not want to be included.

16/ In free trade zones, the borders remain, and the goods still get inspected at the borders. However the taxation and volume of inspections is greatly diminished. When goods move without any check at all, this is called the "elimination of trade borders."

17/ In free travel zones, the borders remain and the people shall still be checked for identity at the borders. However no statement is required of the travelers and they can use a self-serve scanner to cross the border. When people can move without any check at all, this is called "the elimination of travel borders". The border checks between nations are often primarily for non-citizens of either nation.

UR'86. UM INVESTMENT ZONES

1/ As needed, the following peninsular areas shall be made into secure investment zones run by the UM. In these places there will be borders with ID verification and pre-approval of all shipments. The locals manage the border security, police, and government approvals unless the UM decides to veto their decisions for reason.

2/ The UM shall protect investors from bribe seeking local government officials.

3/ The laws in all UM investment zones shall be identical.

4/ Workers from every nation shall be allowed.

5/ All shall have double Trump walls at their borders with a 500m no-man's land in between or another approach that is equally formidable.

The following peninsular areas shall be investment zones run by the UM:

a/ Crimean peninsula.

b/ Gallipoli peninsula.

c/ Sulayman peninsula, Tunisia.

d/ Djerba Island, Tunisia.

e/ Ramree island, Bangladesh.

f/ Kampong Ulu, south Burma.

g/ Azuero Peninsula Panama.

h/ Paria/ Araya/ Paraguayan Peninsulas, Venezuela.

i/ Guajira Peninsula, Colombia.

UR'87. POPULATION EXPLOSION

No matter how much we grow, it will never be enough if we don't end the population explosion. So we must say that unless nations accept, enforce and cooperate with the UM's reasonable and fair population controls, that they don't get to join the party. They get completely cut off like a pariah state until they agree to follow the global population rules like everyone else.

UR'88. POPULATION POLICY

1/ The UM shall work to manage the population of humanity in a fair and practical ways.

2/ A 30-year average shall be made of the annual birthrate of each the world's nations. This shall be expressed in live births per 1,000 native born citizens. This number shall not include immigrants.

3/ Depending on the birthrate of that nation, the people of that nation may have the number of children that follows. If the national birthrate is:
a/ Under 11 per 1,000, then women may have 4 children.

b/ Between 12 and 15 per 1,000, then women may have 2 children.

c/ Between 16 and 21 per 1,000, then women may have 1 child.

d/ Over 22 per 1,000, the women may have 1 child, but only after age 30.

e/ All portions of the PU that are allowed to remain inhabited, and all small islands and shall be required to stay within UM population limits for their island given its agricultural, tourist and other primary incomes sources.

4/ This policy shall remain in place for as long as the one-child policy was in force in China, however, the UM Over-Senate may elect to extend it.

5/ All Exhods and women from PU nations may only have one child after they reach age 30. This policy shall in place for just as long as the one-child policy was in force in China, however, the UM Over-Senate may elect to extend it.

6/ All nations that muster up into broad democracies and enforce all of the rules of the UM including its population policy to the satisfaction of the UM shall be helped to industrialize over two generations by the UM. The people of these nations shall also be given free accounts on UM public education servers, as all free people are given.

7/ All individual development aid monies shall only be paid to post menarche females in nations that obey the UM's child policy in full. Females and nations that do not follow the UM child policy shall not be entitled to government child benefits.

8/ All breeding age females in aid nations shall be required to undergo tenethly ID verification and weighing to get their tenethly money payments. This shall be done by a face-recognition scale. If they gain weight, they must undergo female supervised urine testing for pregnancy. This is how we verify that there are no extra children. If the females don't go for their tenethly ID verification and weigh in, if they wait past day 40, then the account stops working. If they wait past day 50, the daily trickle of money gets diverted from their cash card and lost forever. If they wait past day 80, they get ejected from the system forever. House visits will be made to truly ill mothers. Also, everything is photographed and videotaped to reduce corruption, And everyone wears their account number where it is visible. Also, if too many females are not participating, then the payments to the entire nation shall be reduced by an amount to assure compliance.

9/ All immigrants shall obey the UM child limits of where they were born (not where they settle) for their entire life.

10/ Reproductive limits shall not apply to children born from both the eggs and sperm of confirmed Senators or Ubiqs. The Senate may relax reproductive limits for children born from either the eggs or sperm of confirmed Senators or Ubiqs.

11/ Women who pass the UM administered college verification test shall be allowed to have 4 children.

12/ Women who are confirmed Senators or Ubiqs shall not be subject to any child limits.

13/ The income of the parents shall not affect UM child support money.

14/ It shall be presumed that everyone is capable of understanding human overpopulation, particularly those who suffer most from it.

15/ Those who are already parents and exceed their child allowance, cannot have any more children.

16/ Each non-conforming child shall lower UM child benefits for his nation by at least 20-fold.

17/ The foregoing shall apply to all children born more than 7 months from revelation day.

UR'89. WOMEN, MARRIAGE AND REPRODUCTION

1/ Government and the world's fictional citizens shall be prohibited from squandering their energies on anything so trivial as who grown people choose to have sex with, or how they choose to do it. Nobody shall ever be discriminated-against by either Government or any fictional citizen for their private sexual conduct or failed marriages. Each adult shall have the unlimited right to choose for themselves

who they will have sex with, who they will have children with, and who they will marry.

2/ The people shall be able to take advantage of all safe reproductive medicine and bio-technology.

3/ Arranged marriages shall be prohibited.

4/ There shall be no child marriages involving people under age 19.

5/ Females shall be treated equally under the law, and shall have the same property rights, employment rights, and divorce rights as males. However, with regard to domestic violence, women shall be more protected than men, and the weak more protected than the strong.

6/ People shall not be allowed to beat their spouses, partners, children, parents or other family members.

7/ Police must observe physical harm to arrest in matters of domestic violence. Without evidence, police can only order the aggressive or unreasonable side to get a hotel and stay away for up to 24 hours.

8/ Those with a Y chromosome shall be considered male under the laws of domestic violence due to their greater strength.

9/ No women shall ever be considered the possession of any man, or vice versa. Everyone shall be free to leave their spouses or partners if they chose to do so.

10/ In no member nation shall virginity have any legal meaning. No marriage clause calling for virginity shall be enforceable. No marriage may be annulled because a partner is not a virgin.

11/ In no member nation shall women be required by law or threat of violence to cover their heads, shoulders, elbows or knees.

12/ The way a person is dressed shall never be considered a justification for rape or sexual assault.

13/ Women shall not be kept locked-up against their will by their men-folk. Those over age 16 shall not be kept locked-up against their will by their family.

14/ The UM shall not tolerate harem sex slavery, or girls given no education so they willingly submit to harem slavery.

15/ Member Nations that fail to guarantee the rights of the women living in their land may be ejected from the UM and may be considered as part of the PU.

16/ The custom of paying dowries makes female babies less desired and leads both female abortion and female infanticide. For this reason, the payment of dowries and bride prices shall be prohibited worldwide. Also all agreements for the payment or receipt of a dowry or bride price shall not be enforceable in any member nation. When dowry

payers go to authorities after payment, and they can provide evidence of payment, they shall be entitled to a refund of the dowry under the law.

17/ It shall be a felony to sell people into marriage.

18/ The UM shall have the right to search every location in the PU looking for women kept against their will.

UR'90. FAMILY PLANNING

1/ All females that intend to receive UM child benefits shall be required to watch the UM's sex education, family planning, STD-prevention, pre-natal, child development media, and early education media.

2/ The UM shall provide all popular and effective birth control methods free to everyone in the world who wants to use them. Humanity does this because it is the most cost effective way to reduce the birth rate among the poor and irresponsible.

3/ No member nation may prevent, restrict, tax or discourage its citizens from obtaining the UM's family planning education or family planning services.

4/ Fictional citizens shall be given no say in the UM's family planning practices.

UR'91. UM DEVELOPMENT AID

1/ The nations of the world shall have sufficient time to ramp up output and put their economies in ramped-up order.

2/ The UM shall provide tele-education aid, and child support aid to economically develop the poorest parts of the world that obey the UM's breeding, education, economic development, and other member democracy policies.

3/ Everyone living in, entering, or leaving a UM development nation must be genetically indexed.

4/ It is widely known that hunger is the world's greatest aphrodisiac. Truly starving women will often have sex and babies for food. As well, ignorance is not far behind as a cause of babies, because ignorant women don't think to run away. They frequently remain in situations where they have babies for little more than food. So if we want to keep mankind's poorest from having more than their fair share, we must pay special attention to the poorest, most ignorant, and most dependent women.

5/ All UM development aid money to individuals must be paid to individual women as ruler of their family. All money shall be paid into face-recognition, hand-print and voice-verified, cash-card accounts. Where women are innumerate or otherwise

incapable of managing a financial account, as judged by UM testing and in consideration of their spending habits, the men of the family may be paid the money until the women of that society can be taught basic numeracy.

6/ The UM shall encourage women to join the workforce in developing nations, to reduce fertility and increase output. There shall be no loss of UM development aid money when women work in addition to receiving UM development aid stimulus money for their nation, provided the kids are in a UM approved non-religious school and watching UM approved non-religious kids media.

7/ Nations that fail to comply with the UM's population policy shall first see their development aid money cut. Later, they shall suffer further sanctions designed to drive them into compliance.

8/ UM development aid money shall be suspended in nations where even a small number of females are the victims of circumcisions, or harems exist, or underage girls are sold as brides or sex slaves, or the women wear burkas or other islamic slave's clothing.

9/ The nations that muster up into conforming broad democracies first, shall get development aid money first. No development aid money shall go to nations that are not mustered into a conforming broad democracy.

UR'92. SIREAGE

1/ Each female shall have the inalienable right to choose who she will have sex and reproduce with, provided her partner(s) also choose to have sex and/or reproduce with her. Females shall always be free to choose who they want to have children with. This is a thing that is inalienable, a thing that cannot belong to another person, even in marriage. It may be grounds for divorce under a marriage agreement, but it shall never be against the law.

2/ It shall not be a crime to have sex outside of marriage, or to have sex with a person other than your spouse, or to have sex with someone who is married, or someone of the same sex.

3/ It shall be considered the right thing, a good thing, a noble thing, a pro•man•then thing when a women bears a sired child or a surrogate child instead of a love child. But it shall always be 100% up to the female provided she is old enough to have children.

4/ Government shall teach and encourage women to put the love of their children and their own line above the love of their mate, and the joys of "Romantics" in their present life.

5/ Government shall encourage sireage by facilitating sire selection, and by also providing IUI free for all, and IVF free for all Senators and full Ubigs.

6/ Government shall not restrict, discourage, impede, or tax Sireage or Surrogacy.

7/ Government may offer added child benefits for women who bear Sires or Surrogate-children, but only a reasonable amount to make up for not having the average father around. Nothing more. Women should not be having sires for the higher support money.

UR'93. MOTHERS THAT ARE LITERATE

1/ After 2028.01.01, no UM child aid money shall be paid to women for new babies when the mother is unable to pass the UM's 8th grade test.

2/ After 2032.01.01, no UM child aid money shall be paid to women for new babies when the mother is unable to pass the UM's 12th grade test.

3/ The same test shall be given worldwide. It shall be made in a distributed randomized impromptu manner by the UM Main-Senate each year.

4/ After 2036.01.01, all UM testing shall be in the Euemi language exclusively.

UR'94. FEMALE GENITAL MUTILATION

1/ FGM is obviously a horrible and defining aspect of Islam and islamic slavery. Behold everyone, here is Islam naked of its disguises.

2/ Surely if people can take this from their own daughters, then they are still secret followers of Islam and cannot live with normal people.

3/ Surely we cannot allow people who continue to practice FGM to migrate to our various lands. Surely people must be re-exhoded if they continue to practice FGM.

4/ No nation shall be allowed to join or remain in the UM if FGM remains widely practiced in that nation. No nation shall receive any UM or international benefits if FGM remains widely practiced.

5/ For all FGM regions, and all people from FGM regions, all new females born hence must go for annual external gynecological checks by a female nurse employed by the UM. This exam shall check for both FGM and rape of girls before they reach puberty. These annual gynecological exams shall start from birth.

6/ The assignment of FGM exam nurses shall be randomized for all exams. The nurses shall not come from an Islamic culture, or a corrupt culture. All must be heterosexual women.

7/ If the new females are found to have been mutilated or surgically altered in any way in their genital area, then the mutilated female, as well as her siblings, parents, grandparents, spouse (if any), and others accused or implicated in causing the mutilation shall be:

a/ Disqualified from receiving any international aid money or benefits.

b/ Disqualified from migration, except to the worst and most remote destinations.

c/ Sent back if they have previously migrated.

8 There shall be no statute of limitations on FGM claims for harm after revelation day.

9/ If necessary, other sanctions may be taken by the community of nations to stop this horrible practice.

UR'95. ELECTRO-SIPHONING MOUNTAIN WATER

1/ The UM shall get as much of the world's high altitude river water into pipe hydro-electric systems as is cost effective.

2/ Much of the electricity generated upland by the pipe-hydroelectric systems will be used to pump the water far away from its source in over-sized, low-energy pipes downland. Much of the energy will also be used by our cities and transportation system.

3/ The surplus hydro-energy for each region must be shared along with the water.

4/ The electricity and the water need not come from the same place. And the people at the periphery of the system will all be adding energy to supplement the range of the water.

UR'96. HIMALAYAN WATERSHED RIGHTS

1/ Except for Indian territory, the entire Indus and Sutlej watershed shall belong to Pakistan. The earlier and pre-existing territorial rights of the Hindus of India shall remain. This however does not include the majority Muslim areas that will be lost in the global border re-alignment stated herein. No portion of the Indus and Sutlej watershed shall belong to any other nations.

2/ The entire Ganges, Indus, and Brahmaputra watersheds shall belong to India, Pakistan and Bangladesh. And no portion of this territory in the watersheds of these rivers shall belong to China. Also, the existing dams are too dangerous to use due to their elevation. Among these three nations, the division of water and electric rights shall be based on 1980 populations.

3/ The water rights for the Ganges, Indus, and Brahmaputra shall be pooled and divided by population. However, lush Bangladesh doesn't need

to irrigate, so it shall give at least 95% of its water allocation to Pakistan unless Bangladesh's rains don't come and Bangladesh is using the water. Pakistan will however have to move the water itself with its allocation of the Himalayan electric rights, or use another source of power, or buy surplus power from Bangladesh. Also, if the people of Bangladesh move to tsunami safe locations in India, Burma, Pakistan, Bhutan, Nepal, Thailand, Laos, or China, their share of Bangladesh's electricity rights (before line loss) shall go with them and their nation after their death. This is to help the Bengalis to relocate. If they move outside the region, then their share of Bangladesh's electricity shall go 84% to India and 16% to Pakistan.

4/ Great effort shall be expended searching for and developing Himalayan lakes that can be used for October-to-May, dry-season water and electricity.

5/ A mere 7 million Chinese colonists are not enough to deprive 1.78 billion Indians, Pakistanis and Bengalis of their Himalayan water rights. The 6 million Tibetans and 7 million Chinese colonists in Tibet may only use their fair share of the Brahmaputra's water from 1980. The Nepalese likewise may only use their fair share of the Brahmaputra's water from 1980.

6/ The entire Irrawaddy and Salween (Thanlyin / Nu Jiang) river watersheds and all water facilities in them shall be managed by the Burmas.

7/ The entire Mekong river watershed and all water facilities in them shall be managed by Thailand, Laos and Cambodia according to their 1980 population share.

8/ The entire Red river watershed and all water facilities in it shall be managed by Vietnam.

9/ The Yangtze and Yellow river watersheds and traditionally Chinese areas of Tibet and Yunnan shall belong to China. No portion of the Yangtze and Yellow river watershed shall belong to any other nation but China.

10/ The Janisarit electricity and water are actually a global resource. However, due to the impracticality of sharing power and water over great distances, the Janisarit flows can only be a regional resource. The electricity generated by the Irrawaddy, Salween, Mekong, Red river, Yangtze, rivers and their tributaries (but not the Pearl or Yellow river) shall be shared among the nations of Burma, Thailand, Laos, Cambodia, Vietnam, China according to their relative 1980 populations.

11/ The right to use the water a river normally comes with the right to gather energy from the water. This

energy is needed to power the downstream water distribution.

12/ There shall be no large dangerous dams (natural or manmade) above valleys where people live. However, pipe hydro-electric with minimal water impounding is allowed. Mining shall be discouraged in this inaccessible yet critically important watershed area.

13/ Tibet shall become a UM territory due to its potential for starting a war.

14/ The Janisarit hydro-electric water and energy shall be divided up according to 1980 population. This however, does not include Laos or the Burmas or because they are both underpopulated and will now take a large number of immigrants. So for all nations it will be their 1980 population share plus new settlers, or minus leavers for the apportionment of water and electricity rights.

15/ Aksai Chin shall become a UM territory so it cannot be an excuse for starting a war.

16/ There shall be no right to claim ownership of unused tsunami zone wastelands or unused mountaintops that have been traditionally regarded as too high for settlement.

UR'97. VOLGOSTAN AND CENTRAL ASIA

1/ We shall build aqueducts so the Volga and Ural rivers may be diverted to irrigate farming in the dry areas to the south and east as practical. The Volga flows almost 3 times as much water as the Nile, which supports 300 million people. Volgostan shall be a new UM settlement nation. And Volgostan will not only be able to feed itself from its lands, but it will be near the center of trade for the old world. So Volgostan will be able to sustain a large population.

2/ We shall build aqueducts and pipe-hydroelectric system so the Amu Darya river (with 0.89 Niles of high water) and the Syr Darya river (with 0.42 Niles of high water) can be properly used for irrigated farming in the surrounding dry downhill areas. Also, so the power can be used to pump water far away. These two central Asian rivers have 30% more water than the Nile and only have around 50-million people. Besides, the central Asian desert gets much more rain than the Egyptian desert, almost enough to grow crops.

3/ We shall build canals or pipelines and drain the salty Aral Sea and salty Sarygamysh lake into the salty Caspian Sea. Then the rains and river runoff will eventually wash the salt out and decontaminate the land if we don't help accelerate the process.

4/ We shall build pipe hydro projects for the Caucus mountains including the Aras, Terek and Rioni rivers.

Much of the energy generated will be used to bring life to the dry areas that are mostly east of the Volga and Ural rivers.

5/ If practical, we shall try to divert most of the Volga and Ural water into the surrounding dry areas and the Aral Sea basin via a series of low-energy, oversized slow siphon pipes and catchment basins. Samara is about 70 meters higher and 1200km away. The surplus electricity from the Syr Darya and Amu Darya and Caucus pipe hydro projects will help move more water from the Ural and Volga.

6/ The Kazakh provinces of Aktobe, Mangystau, Atyrau, and West Kazakhstan shall now be Volgostan. Volgostan shall include all land on the eastern shore of the Volga river that are below Samara. Volgostan shall also include the portions of Russia south and east of Samara.

7/ The existing city of Volgograd shall be a main city of South Russia. A number of other cities shall be built in South Russia which should allow a population of over 200 people per square kilometer.

8/ The deeper parts of the Aral sea might be pumped out and used for salt water runoff collection at first and later as seasonal water reservoirs.

9/ Centograd, New Issa, Adana, and Andeo shall each be reserved for all nations of the world in their population proportions as pie slices from the central train interchange zone. These pie slices shall extend a uniform 150 to 250 kilometers from the exchange (depending on the city). However, in order to encourage the empire-sized nations to break up, we shall say that no single nation shall have more than 6% of this land. All construction shall be in the form of townships which may be built right next to each other flow into one another near the center of these four cities (except at the radial borders). Also around the periphery of each of these cities shall go a double trump wall.

10/ Centograd shall be centered roughly near the town of Selivanovskaya, which is located about halfway between Volgograd and Luhansk. If this is found to be a Black Sea tsunami risk, then we shall locate the city further north.

11/ We want a situation where each of several nations is able to broker any part of the freight moving in any direction in open competition with the rest. This is the situation where it is hardest for any group to control the flow of trade. This incidentally is the Christian approach and a meaning of the cross. It symbolized the free crossroads where people didn't have to stop. Cairo was for example a crossroads where you did have to stop and give Ishtar's government mafia a share of what you had.

Cairo worshipped terrifying idols like the sphinx, not the cross of free trade.

12/ The rule shall be that goods and people may always entirely bypass Centograd and stay in the immense UM areas around the interchanges. If Centograd becomes too corrupt, then shippers can simply send their goods directly from Europe to Asia, or Asia to Africa, or Africa to Europe without anything stopping in Centograd or anywhere else.

Centograd gets its bounty from the opportunity of setting up business near the crossroads. And this should be that rule for all international trade everywhere on earth. If they get too expensive, then shippers can ALWAYS just go around.

13/ All Chechen/ Ingushetia lands shall be merged with Azerbaijan. All Portions of Dagestan south of the Terek river shall be merged with Azerbaijan. All Chechen and Azeri people shall owe a debt of gratitude to this plan throughout their future generations. From now, all Chechen and Azeri enclave people shall live in peace, and fully submit their host nations, or they must move back.

14/ Abkhazia and South Ossetia and North Ossetia shall be merged with Georgia for all purposes, due to ancient historical ties.

15/ Karbardino-Balkaria and Karachaevo-Cherkessia shall remain with Russia.

16/ The people of Ajaria shall vote and decide to stay with Georgia or to join Turkey.

UR'98. DANUBE RIVER AQUEDUCTS

As is the universal right of all nations, Turkey and Greece shall be permitted to build aqueducts to take excess water from the Danube river to their land via Romania and Bulgaria. If either builds as far as Aytos Bulgaria, the UM shall build the final part north of Aytos to the Danube. The pumping must however be paid by the receiving nation.

UR'99. THE UBANGI TO CHAD

1/ At Bangui the Ubangi's discharge is about 1.41 Niles of water. As the Nile supports 250-million, the diverted Ubangi can theoretically support 350-million new people.

2/ Hydroelectric power generated elsewhere in Africa shall be used to power the pumping needed to move the Ubangi's water. None of the Ubangi's water needs to remain to contribute to the Congo river's flows which total over 14 Niles of water.

3/ The Ubangi shall be diverted into the Chad basin where it will provide the people of Chad, Niger, Nigeria and northern Cameroon with irrigation water.

4/ The upper portions of the Sangha, Mpoko, Mambere, Ouaka, Bbari, and other rivers in CAR may also be diverted into Chad for irrigation.

5/ The runoff from the upper sections of the Kotto, Chinko Ouarra, and Boma may also be diverted into the Sudans for irrigation.

5/ The storm and rainy season runoff from the upper Congo river above Isangi , (the Uele, Aruwimi, Tomami, Lualaba, Luvua, and Tufifa rivers among others) shall be used to power the pumping of water into Sudan and Chad. The factor in deciding between Sudan and Chad shall be where the water can grow the most food.

6/ The storm and rainy season runoff from the upper Kasai river tributaries shall be used to power the pumping of water into the southern dry areas of Africa.

4/ We shall make the underpopulated eastern part of Chad into a new settlement nation irrigated with UM water projects from the Congo basin.

6/ The areas that can not grow enough food, even after the new water programs, all these areas shall be relocated and depopulated until their land can be made self-sustaining economically. And this shall be a sort of general rule for the UM. That all lands must be roughly self-sustaining through legitimate economic activity, or the population must be reduced.

7/ Everyone relocated must move as part of an ethnic mix if that is possible. This is to provide stability to the recipient nation. They must also forever disavow all forms of religious or racial violence or struggle. All must vow to walk in peace and have gratitude for those who welcomed and helped them out.

UR'100. WEST AFRICA

1/ Like the Nile, the Mali river (previously the Niger river) should not flow into the desert. Its water should be all used in the Kiffa, Segou, Sevaré, Niamey region, or thereabouts.

2/ The higher the altitude, the more valuable the water, because it also comes with precious gravity energy that can be converted into pump energy and distance and new lands brought into cultivation. Therefore, the Sokoto, Hadejia, Gongola, Kaduna rivers shall be captured as high up as practical and the water diverted to areas that don't get enough water to grow crops. Also, the many streams that flow through the wet areas south of the central mountain range of Nigeria — the Okwa, Mada, Ankwe, Wase and Pai rivers — these shall also be

captured from up high and used for irrigation and power generation purposes.

3/ The rivers of the Gumti range, the Faro, Taraba, Donga, Katsina Alta, and Mbam rivers among others shall be used primarily for electricity generation. When there is a big storm, this electricity will be used to move lots of water into desert areas. When it is not especially wet, the electricity is used to power the local civilization.

3/ With a small energy input, the Beneue river above Numan can be diverted inland to nearby equatorial dry areas. Most of the storm power from the Gumti range will be used to either power this activity, or moving Ubangi water.

4/ All of the rivers and streams of West Africa that can be diverted via pipe hydroelectric into the semi-desert of the north for no energy should be diverted.

5/ Rivers like the Bunga should be used in the semi-arid zone closer to the coast, rather than flowing out into the totally dry desert. In other words, as usual, the new irrigation water should be used to irrigate areas that get 2/3 or perhaps even 1/3 as much water as is needed to grow crops. There may also be some generally sealed natural soil pans and artificial plastic areas that are exempt.

6/ Like the Aral Sea, there should be no lake in Chad. Instead all the water should be used before it becomes a lake.

7/ As with everywhere else, we shall carbon date inland seashells to determine the tsunami risk of each section of coastline. There should be no communities in the danger zone. Therefore, the Gambia inlet, the Casamance inlet, and the Saloum Delta, these places will eventually be mostly depopulated except for agricultural uses. The new cities shall all go on tsunami safe hills, like those around Conakry, Labe, Man, Kumasi, Koforidua and Ho.

8/ As with everywhere else, the people of the dry north of West Africa shall have a right to use all the water being squandered by the wet south of the West Africa.

9/ The scarce highlands of West Africa must be shared. Therefore the hugely valuable underused high-ground wealth of Guinea shall be used for a new UM settlement nation. The population density shall be taken from about 50 per kilometer to over 300 per kilometer.

10/ Many lakes like "Beni Cheledi shall be fully developed to maximize temporary rainy season catchment volumes so that as little seasonal water as possible gets wasted.

11/ The Dakar-Chad zone of West Africa has lots of land and very little water. Therefore, each irrigation project should be one nation, except that the Mali (Niger) River should be divided into two parts. The part to the west (Mostly Mali and shall be known as West Mali, and the Part to the east (mostly Burkina Faso with some of Mali) shall be known as East Mali.

UR'101. WHO OWNS THE HYDRO SYSTEM?

1/ In Canada, the US, Mexico, Australia, Japan, and Spain, the facilities should be owned and run by the individual nations because there is no question about division of the resources. In Africa there must be one UM managed system because there isn't enough high water to power all the water movement needed. With India, Pakistan, and Bangladesh, the three nations need to cooperate as one so that the water and electricity can be used to increase would output. The nations of Europe can manage their own water facilities. Outside of these nations, the UM shall pay-for and run all of the new pipe hydro projects and apportion the benefits based on population.

2/ The Janisarit area will have the world's greatest overabundance of energy. So much of the world's energy intense industry will occur nearby.

3/ The UM shall have the right in case of volcano-driven climate emergencies (and only in this circumstance) to divert water to where it will produce the most sustenance for mankind.

UR'102. WORLD SOIL AND GROUND WATER SURVEY

The UM shall regularly survey the entire world for the quantity of groundwater and average soil thickness. This shall also include nutrition categories for the soil.

UR'103. MORE WATER FOR THE NILE

If practical, we shall divert some runoff from Lake Victoria, Lake Albert, or Lake Edward into the Nile. If practical, we shall divert some runoff from the rivers of the upper Congo basin (Uele, Chinko, Kotto and Mbomou, Aruwimi, and Lindi) into the Nile and Ubangi.

UR'104. THE UNINHABITED WATERSHED RULE

The nations that have been traditionally the users of a river shall be the owners of that river and its entire watershed, unless another nation also traditionally occupied the watershed. The community of peace loving nations must always err on the side of

disfavoring modern occupation after the advent of trains and especially automobiles. Otherwise we slope the world towards war. So occupations after modern transportation should not count as traditional occupancy of another nation's upstream watershed, even after a century.

UR'105. THE RIGHT TO HARVEST UNUSED WATER.

All water poor UM member nations will all have the right to build aqueducts and take unused water from the rivers of their neighbors. However, the recipient nation must:

1/ Be UM member and obey the UM rules, particularly the UM population rules.

2/ Not have nuclear, biological, or chemical weapons or facilities for making these

3/ Be ready in case the benefactor nation ever needs this water back for any reason. Then the previously unused water is subject to a 50/50 split, with the donor nation able to recoup up to half of the annual water taken by the receiving nation.

However, all this water must be used.

4/ The right to harvest unused water does not include hydro-electric power and hydro-electric power rights.

5/ This section is meant entirely for rivers like the Volga, Ural Mississippi and Danube where most of the water is being wasted, and not at all for rivers like the Nile and Rio Grande where most of the water is used.

UR'106. ALL RAILROADS ARE FREEWAYS

1/ In all member nations, all railways and public transit lands and infrastructure are hereby nationalized and made the property of the people to the extent the Over-Senate of either that member nation, or the UM Over-Senate elects to claim ownership.

2/ All goods that move by efficient railroads shall pay no transportation tax. All good that move internationally by inefficient roads shall pay the prescribed UM international road transportation tax per cubic meter in advance. All good that move internationally by inefficient boats shall pay the prescribed UM international boat transportation tax per cubic meter in advance. This boat transportation tax shall be abated for islands, and routes where boats are more energy efficient than trains, such as between Brazil's Suape (swap·eh?) port and Lisbon.

3/ No nation shall impede, tax, stop, harass, or threaten its neighbors when they access the UM's international rail system. All nations shall have an

easement across the best path through their neighbor's lands if needed to construct rail lines to access the UM's international rail systems.

4/ The UM shall elect a fixed and prorated towage charge per 100-km for all cargo cars and another for high-speed passenger cars for generally flat lines, and another for each possible slope grade. Thus all non-island passenger routes in each continent shall pay the same rate for transportation based only on distance and mountains towage. Thus all non-island cargo routes in each continent shall pay the same rate for transportation based on distance. The UM Over-Senate shall adjust these charges from time to time.

5/ Just as we provide the roads for free today, the UM shall not seek to charge user and recover the cost of building or maintaining its rail infrastructure. All government owned rail infrastructure shall be provided to the public and its rail companies free of charge. There shall be no charges to payback the cost of right of way acquisitions, or system build-outs, including viaducts, bridges, stations, and locomotives. Users shall only bear the fuel cost of pulling, or the electricity they use for their own engines, and the cost of healthcare resulting from injuries to those traveling via the railway system, exactly as we will do with our roadway system. Users shall also frequently supply their own railcars just as we do today with our road system and private bus operators, who share the routes with municipal busses. Whichever approach works best.

6/ No group or nation, whether in the UM or PU, shall ever be permitted to block, unnecessarily delay, threaten, or extort money or concessions from the UM for either installing rail-lines in its land, or for using those lines.

7/ If rail congestion develops, we shall impose per train congestion pricing so longer trains are used.

UR'107. A BLANKET EASEMENT

1/ The UM shall have the right to construct international railways, roadways, pipelines and canals anywhere it elects, anywhere on earth for the benefit of all mankind.

2/ The UM shall generally avoid the centers of existing large cities in selecting routing for its infrastructure, except where this is not practical. Indeed, the UM shall find the most remote good places it can find for its new linear infrastructure and new rail based cities. Then it shall attempt to organize new valuable communities around its new linear infrastructure.

3/ No military base, nature reserve, natural park, Indian reservation, vital habitat, swamp, beach, river, or agricultural land shall be off limits for UM linear infrastructure. Whatever is the most optimal route as elected by the UM, that is where the railroad, highway, aqueduct or utility lines will go.

4/ When the UM con-dems more than 5% of an a human owner's land, it shall compel the national government of that nation to give 15% more land of a similar character than the UM took. If the taking is less than 5% of the land owned, then no amount shall be paid. No such increment shall be paid to fictional citizens.

5/ Wherever a UM train stops, the UM shall condemn all land within at least 60km. Wherever a UM highway has an exit, it shall condemn all land within at least 5km. Where the rail lines go shall generally presume a 1,000-meter wide easement.

6/ No member nation or PU province shall stop, interfere-with, tax, inspect, or regulate trade or passengers that are using UM railways to pass through their territory.

7/ No member nation or PU province shall have the right to interfere-with the construction or maintenance of UM railways, roadways, aqueducts or other UM utilities.

8/ No member nation or PU province shall have the right to dictate any terms to the UM about its railway and roadways, especially where they stop, speed limits, and the nature of the contained things carried thereon.

9/ The UM shall be free to use foreign workers to build its transportation infrastructure if it elects.

10/ No UM member nation or PU province shall condone violence against any UM railway or roadway. If any of the UM's international railways, roadways, pipelines or canals come under attack, the UM shall have the right to protect mankind's common transport infrastructure.

11/ All member nations must allow the UM to open commodity extraction reserves on their territory, if the UM determines that their deposit is among the richest in the world.

12/ The UM shall build a 6-pipe, fuel pipeline system that roughly parallels its international rail backbone system where pipelines are more efficient than containers on rails.

13/ Government shall price all of its conveyance infrastructure to maximize throughput, not profit. This shall be so for all government conveyance infrastructure be it rails, pipelines, roads, communications fibre, airports, railways, or other systems

UR'108. INTERNATIONAL ACCESS

1/ All nations shall have an easement through neighboring nations to construct:

- a/ Aqueducts to connect to the unused water resources of their neighbors.
- b/ Sealed rail lines to connect to UM and other rail lines in the land of their neighbors.
- c/ Pipelines to connect to UM and other pipelines in the land of their neighbors.
- d/ Power and communication lines to connect to UM and other power and communication lines in the land of their neighbors.
- e/ Highways to connect to UM highways in the land of their neighbors.

2/ Railcars worldwide must meet uniform standards and be regularly inspected to be used on the system. The top parts and interiors of the rail-busses and rail-trucks may vary considerably.

3/ To reduce traffic, government may establish minimum average passenger counts per railcar. Government may also put less peopled railcars at the back of the train where the walk is longer.

4/ Government shall not limit the number of enterprises competing to offer their fancy railcars.

5/ Each nation shall be allowed to regulate its own imports from the UM rail system. However, no nation may in any way interfere with the transportation of goods through their territory.

6/ It is intended that the UM rail system will grow as a web nation all over the earth incorporating all races of man. As this vascular territory grows in population, our old national boundaries will become less important.

There shall also be many hundreds of spur lines and interchanges from the main lines into and through the mountains of Central America. These will frequently be run along the side of the existing highway passes, but there will be many more routes so as to access all the useful coastal hill lands. The liquefaction-prone lake bed cities will all relocate to these new greener, wetter, and cleaner mountain edge lands that cost no more to bring into utility than paired 7m rail lines up their respective valleys from the system lines. Then Central America's liquefaction-prone flatlands will be used for farming. (Central America is the land south of the good•for•nothing zone of Cali•for•nia, and the Arid•zona desert and the Rio Grande. Mexico is part of Central America.) There shall also be a rail line from Calexico to La Paz with a line past Cabo San Lucas and Buena Vista. Here on the Pacific plate, as usual, all structures must be no more than 2-stories (8m) tall, and all must use slip-foundations on flat-areas, or north-slopes in case of earthquake.

 86-110/ The **Rio De Janeiro line** loosely follows the 230 highway to Jao Pessoa, then the 101 highway south past Recife, Salvador, Rio de Janeiro, Sao Paulo, then the back to the main Patagonia line at Corumba. This line may have perhaps 25 stops. Natal Brazil shall have the main airport connecting South America with Europe and Africa. then back to the main Patagonia line at Anatuya. This line may have perhaps 8 stops.
 X/ This is 118 new freight interchanges on the main Pan-American rail line, not counting the many spurs we will surely have. The UM shall have bases ready to protect this route, a number of island bases for close air support of ground forces. There can also be a multi-national force for protecting the line between the US and Andeo if this is needed.

UR'110. AFRICA RAIL SYSTEM

The main Africa exchange shall be located near Khartoum Somalia and the new city of Adana. Here is where Africa's exchange will go. This will be the most important commercial city in Africa. It will be where the lines mostly converge on their way out of Africa.

- 1/ The **Adana line** Connects Africa with the outside world with stops at Atbara/Kassala, Aswan Cairo and New Issa in Turkey.

- 6/ The **East loop** runs from the Cape line in Kenya to through Somalia, Somaliland, Djibouti, Eritrea and to reconnect with the Adana line at Atbara/Kassala.
- 7/ The **North line** runs from the west end of the Senegal line north to near the Tangier/ Ceuta ferry terminal. Then the line runs across the north coast of Africa and connects near Cairo.

UR'111. TURKEY

- 1/ There shall be a new rail interchange east of Gaziantep and west of Batman, with the commercial areas in the south near Ain Issa. This stop shall be called "New Issa". This is an interchange for where the routes come together from Africa, Europe and India via south Iran. The port of Latakia shall remain open.

2/ There shall be a Hormuz rail line from New Issa to India. This line runs down the coast of the Persian Gulf and Gulf of Oman to India

3/ There shall be a new rail line through north Turkey connecting Istanbul to Georgia and Azerbaijan. This will give the world another redundant connection between Europe and the Asia, another connection that is important because it avoids the Iran/ Afghanistan area. This shall follow the E80 highway route from Istanbul near Bolu, Tosya, Niksar, Erzincan, and Erzurum. From here the route splits, with one route going roughly via the D965 route to near Kars and near Tbilisi to connect with the Axis line near Shirvan, Azerbaijan. The other route follows the E80 past Agri and roughly through the Aras river valley to the Caspian sea coast. There is another route that runs roughly along the D950 highway route to connect the main east/ west route to the New Issa city. This is in addition to the route in the west of Turkey that connects Istanbul with New Issa.

4/ Great numbers of Exhods shall be resettled Turkey.

UR'112. THE PERSIAN LINE

7/ The **Agra Line** runs from Surat to Agra and the Trans-India line.

8/ As normal herein, the new train lines shall be built at least a city's distance from the old cities where the land is cheap for new train lines and new cities. Thus the infrastructure can pay for itself.

UR'116. CHINA'S MAIN CARGO HUB

1/ The Eurasian line starts in or near Xingtang (between Baoding and Shijiazhuang). This shall be China's new main interchange city. There are ample safe hills nearby.

2/ The rail line from Xingtang to the Bearing straight (and eventually the Americas) shall be called the Northern line, or the China Northern line outside China.

3/ The rail line from Xingtang to Vietnam (and eventually India) shall be called the Indochina line.

4/ The rail line from Xingtang to Europe shall be called the Eurasian line.

X/ All three of these lines meet in Xingtang.

UR'117. THE EURASIAN LINE

From Xingtang, there shall be stops at follows:

- 22/ Spurs on this line shall connect to the Montijo peninsula (Lisbon) and Ile Longue (Brest) as new container ports for the Americas.

UR'118. THE AXIS LINE

- 1/ West of St. Petersburg, Russia.

- 3/ Centrograd.
- 4/ Near Elista, Russia.
- 5/ North of Khasavyurt, Russia.
- 6/ Northeast of Shirvan, Azerbaijan.
- 7/ Rasht, Iran (Imran).
- 8/ Gorgan, Iran.
- 9/ Ashgabat, Turkmenistan.
- 10/ Qarshi (interchange for Trans-India express).

UR'119. THE QARSHI LINE

- 1/ This line is only needed to reduce the power of Iran to block India's trade with Europe. It is mostly a backup line.
- 2/ Start at Qarshi interchange.
- 3/ Stop in Urgench.
- 4/ End in the station near Aktobe Kazakhstan.

UR'120. BOZICE FREIGHT INTERCHANGE

This is about 50km north of Vienna and east of Znojmo:

- 1/ Most of the Czech trains will interchange here.
- 2/ Most of the Hungarian trains will interchange here.
- 3/ Most trains to western Romania will interchange here.

4/ Most trains to former Yugoslavia interchange here.

5/ Italy will interchange here.

6/ Many trains will continue on to south Germany.

7/ UM's backbone line will have an interchange for Germany in Ulm.

UR'121. THE BEARING STRAIGHT BY BOAT

We shall build port facilities and boats in Loop lagoon in Alaska, and Uelen/ Inchon in Asia. Thus the boats only have to make a ~100km trip between the rail heads in North America and Asia.

UR'122. INTERCHANGE CITIES

1/ They shall be oversized by design and have a 20X oversupply of township spots. This is because the primary goal within our new cities is not local transit efficiency, but having enough apartment spots that the land to place a cast unit will eternally remain plentiful and cheap.

2/ The land in all UM interchange cities is owned by the UM and rented for up to 30 years as whole townships. Various sorts of entities then develop the townships, Some entities are for-profit and rent or sell placed units. Some are groups of settlers that buy a unit for delivery at a prescribed date and join a cooperative.

3/ People buy a factory-made fully furnished unit and pay nothing for the land. In fact some cities will offer rebates once the unit is cast into a township. Then the Units pay property taxes to the township common areas and its part of the zip train system to the local interchange.

UR'123. KILLING THE SEA SPHINX

1/ A main reason for organizing the UM is to destroy the 6,000-year old Sphinx Mafia and the empire of the land of no resources. A main aspect of this is to make sure that the flow of goods cannot be restricted or "sphinxed" anywhere in the world. A main aspect of this is to eliminate the use of the seas as a main means of shipments between the continents where practical.

2/ Killing the sea sphinx is a main reason why the UM will build and operate an international railroad system that connects Asia Europe, Africa and America. This rail backbone shall be considered critical to the UM's efforts to completely bypass the parasitic land in the middle and its agenda of less and worse for its host.

3/ The train routes discussed herein will allow us to do away with most of the world's inefficient sea and

air transportation infrastructure, and replace it with an ultra-efficient rail transport system.

4/ It is ironic that Russia, a nation so landlocked should be the most strategic nation on earth with regard to the seas. For Russia could easily bypass over 80% of the world's shipping. All Russia has to do is allow genuine rail lines to connect Asia with Europe, and the Americas. This instead of the fake, poorly routed, 60-kph trans-Siberian railroad it has now.

5/ The first international business objective of Russia should now be to build a rail connection between China and Europe. All Russians shall now know that this will put them roughly the center of world trade.

6/ The first international business objective of China should be to build a rail connection between China and Europe.

7/ The people of both China and Russia should ponder how Ishtar:

a/ Is in firm control of both of their nations today.

b/ Has impoverished and enslaved their nations under emperors or tzars for thousands of years, until today.

c/ Used communism as an excuse to impoverish their nations.

d/ Orchestrated famines that killed millions of their people.

e/ Orchestrated the WW2 massacres of their intelligentsia.

8/ The first priority of both the Chinese and Russian people is to muster up into broad democracies so their governments can never be hijacked by the Arabs again. The second priority to make sure that there are direct rail lines between Europe and Asia.

9/ All Ukrainians shall see their identity with Europe and China, and and the agenda of the host, not in helping the parasitic agenda of Ishtar.

10/ No member nation or PU province shall be allowed to sphincter 3rd party trade passing through their territory.

11/ As the rail system replaces the ships, they should not be scrapped, but purchased by the various governments of the world for near scrap pricing and kept in fresh water locations to preserve them better.

12/ The UM shall build air fields and mid sized docks on the following islands and defensible peninsulas for close air support. The forces using these Islands shall only be used to keep the peace or attach tyrannies that have risen up in areas around these places:

a/ Portinho Island. (Near Sao Tome)

b/ Bassas da India Island. (SW of Madagascar)

c/ Assomption island. (NW of Madagascar)

d/ Samhah Island. (near Socotra island)

e/ Jabal al-Tair Island. (Red Sea)

f/ Kosa Biryuchyy Ostriv peninsula. (Black Sea)

g/ Ostrov Chechen Island. (NW Caspian Sea)

h/ Ogurchinskiy Island. (SE Caspian Sea)

i/ Karakitang Island. (North of Sulawesi)

UR'124. FIREARMS

1/ Ending war is almost as simple as arming the people. All member nations must have at least one bolt-action rifle and 50 rounds of ammunition for every 5 adults of voting age, citizens or not. They must also have 1/3 as many 50 Calibre rifles with 20 rounds of armor piercing ammunition each. The various member nations may require that all of these arms be kept in local centi-nome armories administered entirely at the centi-nome level, but all member nations must be armed. We will certainly need this for stability in a global food crisis. But it also has obvious and powerful anti-war benefits. And the cost is insignificant in relation to the worldwide benefits. One billion armory rifles at \$150 each is only \$150-billion. This is two years the US spending on Afghanistan.

2/ In poor warlord nations, the UM may hand-out bolt action rifles and ammunition to the recent senators, runners up, and the people they want to deputize. Warlord forces capable of attacking a well armed people like this will be vulnerable to UM air strikes. Thus we can hopefully eliminate warlordism from the world.

3/ All regions of all member nations that have recently suffered from war, piracy, or warlordism, or a high homicide rate shall be allowed to both own and carry arms. Also, to reduce invasions we shall say that those sniping at invaders should be held as heroes and suffer no prosecution. They should be held at the same status as a Senator for each invader they kill. The good spirit must remember this service, or it will be considerably weaker.

4/ Where armed people are oppressing unarmed people, it shall be the UM's duty to recruit a local defense force and train and arm them. We shall do this automatically.

5/ Where districts in member nations recently suffered from annual homicide rates over 1-in-10,000, the native citizens must be allowed to legally own firearms. Where districts in member nations suffer from annual homicide rates over 1-in-5,000, the native citizens must be allowed to legally carry firearms, which carry firearms may be limited to bolt action rifles and revolvers. Member

nations where the annual homicide rates is under 1-in-30,000 shall not be required to permit firearm ownership. However, all nations shall be required to have the required civilian defense firearms in their Centi-Nome armories. The forgoing numbers are intended to be a bit on the conservative side. This is so the rule's benefits will be more clearly demonstrated.

2022 ADDENDUM OF LAWS

The following laws shall be considered an addendum or coda to the new 2018 American constitution. These laws shall not be considered as part of the constitution, but only as laws, initial national laws. They shall be implemented as practical by the national government and may be changed at any time with a 60% over-majority of the Over-Senate.

L'1. PASSENGER TRANSPORT, TRAVEL & CARGO

1/ All passenger carriers, air, land, and sea shall price and sell their fares as one way tickets. If a roundtrip fare is offered, passengers shall be allowed to buy a one-way ticket in either direction for half of the round trip price. Also no passenger carrier may charge more for tickets going in one direction as opposed to the other.

2/ All passenger carriers air, land, and sea shall not adjust prices depending on how far in advance the ticket was sold, how it was sold, who sold it, or who bought it, or how much business the customer does with the carrier. Also, travel carriers shall not change their prices more often than once per day.

3/ All airports shall provide frequent and adequate free group transportation to and from all nearby population centers. This transportation shall be provided for free by the county because maximizing the use of this transit is far cheaper than building and maintaining more road capacity for automobiles. This transport shall make no more than one stop per 15 minutes of the total journey. There shall be at least one transport stop per 200,000 people in all communities within 120km. There shall be at least one transport stop per 250,000 people for all areas within 250km.

4/ Except for airport workers and airport service vehicles, transit vehicles, and every single vehicles entering one of the nation's airports, shall pay a fee of two hour's wages to the national government.

5/ Travel carriers shall be prohibited from giving corrupting benefits to frequent or loyal customers. All existing frequent customer or loyal customer programs are hereby cancelled and the benefits void. No priority boarding shall be given to frequent customers.

6/ All air transportation shall include the following standard sized bags free of charge:

a/ One standard-sized checked bag of up to 30kg that is no bigger than 158cm (L+W+H).

b/ One standard-sized carry-on bag of up to 15kg

that is no bigger than 56cm x 36cm x 25cm.

c/ One personal carry-on item such as a laptop bag or purse that weighs no more than 8kg.

x/ If there is no room for the carry-on bag in the cabin, the airline shall stow the bag for free.

However, all passengers shall have the right to keep their personal item with them, under the seat in front of them.

7/ If the temperature of an airplane passenger cabin ever falls below 15°C or goes above 30°C while on the tarmac, all passengers shall receive a full refund after the flight is completed.

8/ Air carriers that overbook a flight shall auction off the bumping to those who will voluntarily sell their time. If an insufficient number of passenger is willing to take 10 times the fare they paid, then the carrier may choose passengers and those passengers shall receive 10 times the fare they paid.

9/ The rule for flight delays shall be that all airlines shall have a 40-minute grace period. Then, after this, they shall pay 2% of each fare's value per minute of delay up to double damages. These delay fees shall however not apply for legitimate delays arising from weather, temporary airport closures, unavailability of fuel, unruly passengers, passenger illness, epidemic, terrorism, aircraft security, unexpected mechanical problems, force majeure, and other things beyond the control of an airline. These delay fees shall apply in matters of staffing, foreseeable mechanical problem, airline logistics, and gate availability. These delay fees shall also apply in matters of labor disputes for airlines and airport workers that are no longer allowed to strike: However the workers themselves shall be liable for the penalty if they strike in violation of the no-strike rule for transport workers.

14/ All flight legs that start, stop or transit in the PU

shall include 2 free checked bags of 32 kilos each. Everywhere else, the flights shall include one bag of 32 kilos. This is the exact opposite of the import-friendly system imposed on America's airline industry.

15/ All rail transportation shall include 2 standard sized aircraft check-in bags and one carry-on sized bag as luggage. Additional baggage shall be charged at true marginal cost.

16/ The lowest ticket price on each flight or passage shall be considered the basic price for all passengers. Any amount over this shall pay travel MECOT of at least 50% of the sales value.

17/ There shall be no inflight sales of food, perfume, liquor, duty free goods, or anything else on airplanes, except alcohol to be consumed in flight. No products shall be delivered to the cabin of any aircraft, or to passengers embarking on an aircraft or passengers disembarking from an aircraft.

18/ Anything sold on, or delivered to an airline passenger while on an aircraft or near an aircraft shall pay travel MECOT. This level of MECOT taxation shall apply to all food and beverage sales, Wi-Fi access fees, duty-free products, inflight sales, headphone rentals, and any goods delivered while either on an airplane, waiting to board an airplane, or disembarking from an airplane. MECOT shall also be due for all extra fees such as larger seats, more leg room, preferential boarding, preferential seating, and fees for higher classes of seating. MECOT shall not be due for extra baggage fees. MECOT shall also not be due for things given to passengers for free.

41/ Rail infrastructure pays for no other infrastructure. If there is any road or road bridge that needs work near the rail line, the road system shall pay 100% of the cost including any costs it creates for the railroads.

42/ The road system is vastly more flexible and must work around the rail system.

Also, if applicable, when a car is stopped at a light and the light is about to change, the semaphore will send a wifi signal to alert to all the nearby cars of this fact as well as the actual light change.

2/ The location tracking system of each vehicle knows when the vehicle is, and all new vehicles must have a 5-second green-light countdown that can be turned down, but can't be turned off. Thus the traffic light delays from people looking at their phones are reduced. The system may also give audio alerts to drivers about stopped traffic ahead, and coming red lights.

10/ The snap to lane system also controls the speed of all the cars and accelerates and moves them in
